As Isaac continues to shoot more asteroids, the third time Zach's audio feed appeared.

Zach: I've almost got this thing working! Just a little bit longer!

Naruto: Okay.

As Isaac continues to shoot, but then, the turret took over by itself automatically. And it shoots any passing asteroids without help.

Computer: Automated tracking system enabled. *As Isaac gets off the manual chair.*

Me: We have automatic firepower!

Zach's voice appeared from the audio feed.

Zach: Nice shooting, Isaac! Auto-targeting is now online and is clearing a path to safe orbit! As soon as we're clear, I'll engage the autopilot again. Head to the tram station and I'll meet you all there when I'm done.

Me: Right. Lets go guys!

As we exit the ADS Cannon pit and into the Ship's Exterior in the vacuum of space, we were continuing to move as one of the spikes almost missed Lana and we saw a very large Necromorph that is shaped like a spider, but on a much bigger scale.

Lincoln: I'm glad Leni isn't here to see this!

Zach's audio feed appeared again.

Zach: That's it. That's the big thing I was talking about! Watch out for the projectiles!

As the Spider like Necromorph shoots its projectiles at us

Me: Lets get it!

We fought against the Spider and it responds by slamming it's legs and firing projectiles. It was a long and brutal fight against the huge Necromorph. But Lincoln did the hand signs as his hands summoned fire made of shadows and void energies.

Lincoln: VOID STYLE: PIERCING SHADOW ARROW!

The fire he summoned turned into a large bow and arrow and he fired his shadow arrow at the Spider. Thus killing it as it's body disintegrates into dust.

Me: Wow!

Naruto: Nice shot Lincoln!

Lincoln: Thanks guys! But we need to head back inside from the vacuum!

Me: Right!

We went inside the lower halls, finally exiting the vacuum of space outside the Ship's Exterior.

Computer: Exiting vacuum.

Me: Lets go.

We moved on, but Hunter smelled something.

Hunter: What is zhat awful stench?!

Me: Whatever it is it smells horrible! Lana did you rip one?

Lana: No it's not me!

The video feed of Kendra appeared.

Kendra: Wait! Isaac, Hammond, everyone… you're all not gonna believe this. Oxygen levels are falling. Something's poisoning the Hydroponics air production and whatever it is, it's filling the deck up with that organic stuff. We're not going to have any air to breathe soon. But if I understand these lab reports correctly, I think I can make a poison to destroy it. Head to Medical. It should have everything you need.

Me: Okay. We're on it!

Zach then appears in the Video feed.

Zach: Will this never end?!

Me: Not until we destroy this ship and the planet.

Zach: Still not a option. Isaac, everyone, get to Medical and mix together whatever Kendra's come up with. I'm heading to Hydroponics. If I can slow it down, that might keep us breathing long enough to fight it.

Me: Okay. Be careful Zach.

Zach: Will do.

We left through the elevator went back down the comm hall. We were going to the elevator to the Atrium Room. We discovered what look like moving hands and feet and a head. All with tentacles, and they were coming towards us.

Me: What are those ugly things!?

Lana: Are those Hands and feet, and a head?! Gross!

Me: Yuck!

The head Necromorph jumps at Isaac, strangling him with it's tentacles, attempting to suffocate him.

I grabbed it and ripped it off of him and punched it and splattered it all over the place.

Me: Yuck!

I shake my hands off and they were covered in blood and slime.

The rest of us shoot at the hands and feet Necromorphs, killing them.

Isaac: Gaghgh *breaths slowly.* Thanks J.D.

Me: No problem.

We went inside the elevator, Isaac presses Floor 2. The Elevator took us to the Atrium Room and we left the Atrium room and went into into the Tram Station. But they also encountered a female Slasher. Attempting to charge at them.

I blasted it.

After that, we finally entered the Tram Station. We boarded the tram, our destination; Back to the Medical Deck. To find and create a poison.

Me: Okay we're here.

After the Tram arrived, we exit out of the tram. But something was different about the Medical Deck. The lights were barely lit and there were lanterns on the floor.

Me: It's barely lit. Mostly with lanterns. Lets go see.

We move to the door and we saw the video feed of Kendra.

Kendra: Fuck! Isaac! Everyone! I can smell the contaminated air from here. It's spreading faster than I expected! I'm trying to isolate it but it's not going to buy us much time! We have to get that thing off this ship! The chemicals you need are in the Chemistry Lab. I'll hack the door for all of you when you all get there.

Me: Thanks Kendra.

Kendra: No problem. *And the video feed cut off.*

We moved across the hall and finally enter the Security Station. Like the tram station it too was barely lit and are full of lanterns as well.

Me: It's barely lit here.

Lincoln: Lets go.

A voice was heard.

Mysterious voice: **You all can't stand in the way of god's plan… The natural order… Are you… Are you all blind, like the rest?**

Me: Who said that?

Naruto: Who's there!? Show yourself!

Lincoln: Who are you!?

No response, we could not find where the voice came from. But not only that, but all three doors that lead to the Main Lab, Imaging Diagnostics Center, and the Clinic are all locked.

Kendra from the Audio feed: Looks like someone has reprogrammed the door locks on this deck. And recently, too. I guess we're not alone here, after all. Someone doesn't want you all in this part of the ship.

Me: Whoever that voice was is out to destroy the entire universe. God would not want all this to happen to the universe!

Suddenly, the door to the Imaging Diagnostics Wing is opened. We went inside, but we also saw a Lurker there.

Hunter fired an energy blast and destroyed it.

Lincoln: Nice shot Hunter.

Hunter: Danke Schoen Lincoln. Now let's continue to move on.

Me: Right!

As we continue, but we see another Lurker, which we also dealt with. After that, we continue to move through the hallway. The atmosphere in the Medical Deck they used to be here is now much eerie and creepier. They see more lanterns, but also candles as well. As they open the door to the Imaging Diagnostics Room, like the other rooms, it too was barely lit and has candles everywhere.

Naruto: Looks like this place is lit by candles.

They also see the X-Ray tube again, but this time. It was moving back and forth, back and forth. Suggesting it was malfunctioned.

Me: We got a broken X-Ray tube.

But then, they heard a beaming teleport sound, as they look behind to see Ronnie Anne, Sasuke, Girl Jordan, Becky, Fu, Sakura and Ino.

Me: Sasuke!

Lincoln: Ronnie Anne!

Naruto: Sakura, Ino, Fu!

Lana: Girl Jordan and Becky.

Me: What are you all doing here?

Becky: Were here to help you J.D.

Ronnie Anne: Yeah, it's kinda boring on the Spaceship with nothing to do.

Girl Jordan: I see that your fighting those Necromorphs as Stuart said.

Me: Yeah we sure are.

Isaac: You must be Sasuke, right?

Sasuke: I am. It's a pleasure to meet you Isaac.

Isaac: Same to you Sasuke.

Lincoln: Wait, who's Nathan McNeil?

Sakura: He's one of the three survivors we picked up from what looked like a Cargo ship. He's also responsible for shutting down the ADS Cannon. But lost his arm to The Spider. The same Necromorph you killed Lincoln.

Lincoln: Yep.

Isaac: Wait, you said this McNeil guy was responsible for shutting down the Asteroid Defense System Cannon?

Girl Jordan: That's what Sakura said Isaac.

Me: This is bad. Someone is ruining this whole place and we have to make sure that these creatures never terrorize anyone anywhere else.

Ino: They're just stupid zombies. What can go wrong?

Me: Everything.

We went towards where the door that said "Chemical Lab" is and found another person in the wall, alive but on agony. But it was far worse. This time he is barely recognizable and he has a hole in his belly where it used to be thats been opened up. Revealing 5 tentacles that were based from the poor man's intestines.

Me: That one is ugly!

Man: Heeelp! (Been in agony, as the tentacle spears are in full control of themselves from the organic wall. As he was screaming in pain.)

Ino: What the hell is that?! How is he still alive?!

Me: No idea!

Ronnie Anne: That's horrific! No one such as him should be in this pain!

Me: But we need to put him out of his misery.

I fired a blast of fire and blew the creature apart.

Girl Jordan: Good thinking J.D.

We continued on and we saw a Necromorph Slasher on the floor playing possum. I blasted its limbs and killed it.

But them more of them arrived.

Me: Let us blast them!

We all did so by blasting off their limbs.

Girl Jordan: So that's how you kill these things.

Me: Yep. Just blast their limbs off and they die.

Lincoln: Let's continue to find the poison in the Chemical Lab!

Me: Right!

We ascend into the second floor by the Cargo Lift and we went to the door that said "Zero-G Therapy Room" after Isaac used his Stasis Module on the X-Ray tube two times. To the right was the door that said "Chemistry Station" on it.

Kendra from the Audio Feed: You're all close to the chemistry station. Once you guys get the chemicals, you're also going to need a DNA sample of the alien tissue. I'll search the records for one.

Me: Okay Kendra.

We turned right entered the Chemical Lab door and turned left and in the small room there was another Cargo Lift. We descend down to the chemical lab and there we found an Audio Log.

Ronnie Anne: What's that on the ground?

Me: It's an Audio Log.

Lincoln: Well, let's see what it says? *After press the play button.*

(Sounds of a man struggling are heard)

Unknown Man: You can't hold me here-

Dr. Challus Mercer: Personal log, Dr. Challus Mercer. I now have a live subject, the one named Brant Harris, the prisoner from the colony, for my study. I'm eager to validate my tissue regeneration theory. Initial restraint was problematic, but now the patient is resting comfortably. HE trusts me, Doctor Kyne. He puts his life in MY hands! He knows his part in all of this, understands what I'm doing! The forehead has been swabbed clean and marked…

(Low electronic whirring is heard)

Brant Harris: What are you… what are you doing with that?

(Noise of drill is heard, becoming louder and louder)

Dr. Challus Mercer:… and I am now attempting to create a passage to insert the sample tissue into…

(Drilling noise continues, soon accompanied by grinding noise)

Brant Harris: No! No! Nooaaaaaaaaaaaaahhhhh-

Me: Whoa!

Laney: Horrifying.

Lana: Isn't that Brant Harris guy the one who killed the Nurse from the colony and Eileen Fisk?

Me: It sure is.

Girl Jordan: And now that criminal is being experimented on by someone named Dr. Challus Mercer.

Me: Yep.

Sasuke: We need to destroy this guy.

Lincoln: Isn't that Mercer guy the one we heard from two to three Audio Logs in one of them revealed the name of the Necromorphs?

Me: Yeah. That's him all right.

We open the door to the Chemical Lab and we see a table with liquid glasses with stuff inside which look similar to Lisa's Laboratory. And we saw two Test Tanks which had two Necromorph Slashers. But these Slashers are different. They appeared to be in Cryogenic Stasis mode and they were not moving.

Me: Looks like we found the chemical lab.

Isaac: Yep! *As he walks towards the table, and pressing the button there.*

Computer: Processing request. Please stand by. Antigen compound completed. Please remove the capsule.

We did so.

The window shields on the right of the team opens. Revealing a man behind the glass window.

Man: What ARE you doing?

Me: Who are you?

Man: I am Dr. Challus Mercer. James Dean Knudson.

Me: So you are Dr. Mercer.

Lincoln: And wait, how did you know J.D.s name?

Dr. Challus Mercer: God told me about you Team Loud Phoenix Storm, a group of heretical superheroes that are hellbent on ruining Humanity's transcendence after Death.

Me: That's fucked up bullshit. Who in the world fed you those fucked up lies?

Dr. Challus Mercer: God himself did. Our quest to transcendence is just.

Me: Bullshit! God would never let you do stuff like this. You are a monster Mercer! You're the one that did this to all these people. Your delusions in this cult are even more screwed up than the monsters that you've created!

Dr. Challus Mercer: Believe all you want James. You and your friends fight for survival is admirable but pointless. And yet you all keep on going. It almost makes me think that we Humans had hope as a species. Am I the only one who sees that we had died out a long time ago? We just haven't accepted it yet. Stop running. Stop your struggle. Our future, your future, the future of our race, ends here. Allow me to introduce you all to Humanity's child. The children that will replace us. Our greatest creation. *And he left the hallway.*

Me: That guy is seriously one fucked up motherfucker!

Isaac: I know.

Lana: Guys! Look at the glass tanks! *As everyone saw that the strange Slasher look a likes were starting to move, as they broke through the glass tanks.*

Dr. Challus Mercer from the Audio Feed: Meet Phase #100 and #99. The children of Humanity!

Me: This is insane!

Laney: Lets blast these monsters!

They did so. Becky blasted the Necromorphs with green fire and incinerated them.

Becky: Ha! Is that the best you got Mercer maggot?

Me: No it's not.

Ronnie Anne: Uh guys, shouldn't the Slashers we killed spasm like that?

Me: No. They shouldn't.

Everyone looked at where we killed the Slashers. And this time we were freaking out. The Slashers we killed started to spasm and they have regrown their lost limbs. Like a regeneration ability. The strange Slashers got up and they ready to attack again.

Me: This is insane!

Naruto: They can regrow their lost limbs now!?

Kendra from the Audio Log: You can't kill them, Isaac and Everyone! They're just going to keep regenerating! Get out of there, run!

Me: We don't run from battle!

I fired a powerful energy blast and obliterated them.

Kendra: That would work too.

Me: Thanks Kendra.

We left the Chemical Lab and went into the Imaging Diagnostics room. We heard Zach's voice from the Audio Feed.

Zach: Is anyone there? Repeat! Come in Isaac… Everyone… Kendra, is anyone there?

Kendra: Hammond! Where the hell have you been?

Zach: I've reached Hydroponics. It's bad down here, really bad!… can barely breathe! That organic matter is growing everywhere! My eyes are stinging… must be seeing things…

Me: Zach are you all right?

Zach: Yes, I'm fine. Barely, the stench is awful in the Hydroponics. Better get suits on when you get there.

Kendra: But they need the DNA samples from the unknown growth. I think Dr. Mercer kept them somewhere here. You must find a room somewhere in this deck and get the samples guys!

Me: Okay.

We left the Imaging Diagnostics Room and enter the Security Room. But we encountered another Regenerator Slasher there.

Me: Blast him!

We blasted it's limbs off, but like in the Chemical Lab, it too began to regenerate it's limbs back.

Naruto fired a massive blast of fire and burned it and the fire incinerated it.

Lincoln: Good job Naruto!

Naruto: Thanks buddy!

The Audio feed from Kendra appeared again.

Kendra: Now you all need to find a DNA sample of the growth. According to lab records, there's an inert sample stored in the ICU.

A Dr. Mercer was apparently doing intensive research on it. I've been trying to contact Hammond but all I'm getting is static! Isaac, and everyone, you've all got to hurry!

Naruto: Right!

We enter the Clinic and we finally made it. We see through the window. Is Dr. Mercer himself.

Me: You will never get away with all your crimes Mercer!

Mr. Challus Mercer: Your persistence surprises me. Holding on your final breathes, you all claw your way along! You hold onto what was once your world. But now, it belongs to the children. Be glad of this knowledge that your deaths will bring their births! Listen! They are coming. Say your prayers.

Me.: You go to hell!

Nico: Dr. Mercer, you have failed this universe!

Mercer left the room leaving us with three more Regenerator Slashers there as well.

Lincoln: LIGHTNING STYLE: SHOCK BLADE!

Lincoln formed a long sword made of electricity. As he shocked the Regenerators to ash.

Me: Nice shot Lincoln!

Lincoln: Thanks!

The door that leads to the Emergency room opens and we went there and encountered another Regenerator, including three normal Slashers.

We blasted them into dust.

Sakura: This Mercer guy is nothing but a freak of nature.

Me: He's worse than that. He's a Satanic Maniac.

Isaac: Hey J.D. Remember you said about Orochimaru as a mad scientist.

Me: Yeah.

Isaac: Well Dr. Mercer is the Orochimaru of the Ishimura. Only this time he's a Unitologist and a fanatic.

Me: Great comparison Isaac.

Isaac: Thanks.

Another Audio feed from Kendra came again.

Kendra: Someone keeps shutting down the door protocol. I've bypassed the lock! Go!

We went through the door and went into the ER Hallway A.

We ran down said hallway.

After that, we encountered another Necromorph Guardian there. As he was screaming in pain and agony as his weaponized intestines tentacles shot out from his chest, attempting to impale of us.

Me: Burn it!

Sasuke: FIRE STYLE: GREAT FIREBALL JUTSU!

Sasuke fired a large Fireball at the Necromorph Guardian, turning him to ash.

Me: Nice shot Sasuke!

Sasuke: Thanks, wait, is that a woman over there? *Seeing a woman, standing there, looking at something below her.*

Me: Whoa!

Ronnie Anne: Let's go check it out.

Me: Lets go.

As we walk to where the woman is, she was laughing/crying hysterically. What she was looking at was a dead body.

Me: Whoa! She lost her mind!

Lincoln: What should we do with her?

Me: Lets restrain her.

But she was killed by another Regenerator who appeared from the ceiling. As it now looks at the Team with murderous intent.

Naruto: That Necromorph killed her!

Me: Then we'll kill it!

Lana: ICE STYLE: GLACIER ENCASE PRISON!

Lana summoned a wall of ice and trapped the Necromorph inside.

Me: Awesome!

Lana: Thanks!

Girl Jordan: And now, to blast this Necromorph into pieces.

Girl Jordan fired a powerful blast of water at the ice encased Necromorph. Shattering the Necromorph and the ice into millions of pieces.

Naruto: Awesome!

Girl Jordan: Thank you, I never really liked that Necromorph anyway.

Me: Me neither.

We went back to where Sasuke had killed the Necromorph Guardian earlier and we went into the Intensive Care Unit room. There was a door that leads to the Morgue.

Me: Here we go.

Hunter: The morgue again?

Me: Looks like it.

Ronnie Anne: When I find that Mercer maggot again I'll strangle him with my bare hands!

Me: Save seconds for me.

Girl Jordan: Or we could go through that door on the right that says Dr. Mercer's Office. (Pointing to Dr. Mercer's Office, which was the right of the Morgue door.)

Me: Obvious. But it could be a trap.

Isaac: Well, let's see this trap.

We opened the door and it was revealed to be a small room with unknown writings on the walls. Human heads were in jars and a Audio Log there as well.

Me: This is disgusting. This guy is a psychotic satanic freak! Lets see what the log says.

I press the play button.

Dr. Challus Mercer: Personal log, Doctor Challus Mercer. The specimen Brant Harris continues to respond well to my experiments. Its cellular fortitude, not to mention elasticity, is remarkable. Doctor Kyne, I am sure, would disapprove. But I do not anticipate that issue, as the good doctor is busying himself with the Marker… As if that matters now! He has also succumbed to the same dementia that afflicted the colony. Only yesterday, he told me he had spoken to his wife… but Amelia Kyne has been dead for some years.

(sound of Hunter growling and shifting heard in background)

Dr. Challus Mercer: My subject grows restless. Patience. Your time is soon. Very soon.

Me: What a Sick Fucked up monster!

Lincoln: I know! He is very not redeemable!

Me: No he's not! He must die!

Isaac: There's also the Batch Mixer here. (Pointing to where the Batch Mixer is.)

We went over to it.

As Isaac presses it.

Computer: Adding sample 9797 to chemical compound. Final mixing required.

Me: This machine is sick.

Isaac: I know, now we need the final ingredients for the poison.

The video feed of Kendra appeared.

Kendra: That's it everyone! Now you all just need to finish mixing the poison.

Me: Okay.

(Screen violently goes to static and switches to Mercer)

Dr. Challus Mercer: This has gone far enough! Accept your part in God's plan! Embrace your own extinction!

Me: Go fuck yourself Mercer!

(Screen switches back to Kendra as a sudden whooshing noise is heard)

Female Computer Voice: Warning. Life support system failure on Medical Deck. Please evacuate immediately.

Kendra: Who the hell was that?! Everyone, he's decompressed the entire deck and I'm being locked out of those systems! All the air has been vented into space! You should be able to bring it back online from the Security Station, but you don't have much time!

Me: Damn that Mercer!

Lincoln: Let's head back to the Security Station and turn on the air again. And fast!

Me: Right!

We exit Dr. Mercer's Office and head back to the Intensive Care unit and then to the ER Hallway A and then to the Emergency Room which had hundreds of Swarmers, two Pregnants, and a single Regenerator Necromorphs. All ready to attack us

We fired energy blasts and killed the Necromorphs.

We continue to through the hallway trying to go to the Security Station in order to turn back on the Life Support System. But we encountered another Lurker there.

Me: Not this time!

He fired an energy blast and destroy it.

After that, they finally entered the Security Station. And Isaac went there to turn on the Life Support Systems. Thus gaining air back to the deck.

Me: Nice try Mercer!

The Audio feed of Kendra appeared again.

Kendra: You've got everything you need to make the poison. Now get back to the Chemistry Lab!

Zach: Whatever you're going to do, do it fast… Can hardly breathe in here…

Kendra: You're cutting out, Hammond! I'm going to try to switch over… SHIT! I lost his signal! I'll continue scanning for his location! You have to get that compound mixed!

Me: Okay!

We went back to the Imaging Diagnostics Room by going through the Imaging Diagnostics Wing. Kendra's Audio feed appeared again.

Kendra: I've got more intel on the atmosphere. A survivor's report says that a massive creature entered the Hydroponics deck from outside the ship. That's when the air quality began degrading. The survivor called it… The Leviathan.

Me: Sounds like this Leviathan is a big one.

Kendra: It is, and it's in the Hydroponics food storage. That's why you need to mix the poison in the Chemistry Lab, so you all can use it to kill the Leviathan.

Me: we're on it!

We arrived at the Imaging Diagnostics Room and we entered the Chemical Lab and see the Batch Mixer and place the capsules there.

Computer: Processing request. Please stand by. Final mixing complete. Please remove the capsule.

We did so as the capsule is removed from the Batch Mixer.

Lincoln: Finally, we got the poison made.

The Audio feed of Kendra came back.

Kendra: Let's hope that poison works! Head back to the tram station and get up to Hydroponics as fast as you can. Still no response from Hammond, so be careful! There's no telling how contaminated that deck is.

Me: Right! But don't worry. We've handled even the most inhospitable of planets.

Kendra: You guys are something.

We went back to the tram.

We also heard Mercer's voice from the Audio feed.

Dr. Challus Mercer: I'm beginning to truly admire all your spirits, misplaced as it may be! I think… I think you all should see… The whole plan. You all should not spurn the Hive Mind's offerings. You all deserve to witness that, as least.

Me: Shut your Fucking mouth Mercer! You will pay for your crimes!

Lincoln: Should we head back to the Tram Station? Or we find Mercer's plan first?

Me: Both.

Kendra from Audio Feed: If my calculations are correct. Mercer is in the room in another door in the Chemical Lab. You must find out about this plan first.

Naruto: Right Kendra.

We went back to the Chemical lab, and went to the door Kendra spoke of and we saw another door that said "Cryogenic Lab".

Me: The Cryogenics Lab?

Girl Jordan: Maybe that's where Mercer went to. Shall we?

Me: Lets do it.

As they enter the Cryogenics Lab, they see hundreds of tanks, full of Necromorphs inside. And in the Cryogenics control room, is Dr. Challus Mercer himself.

Dr. Challus Mercer: Welcome James Dean Knudson, and Team Loud phoenix Storm. To our salvation of our species!

Me: No. To send you and your fucked up heretical cult off to Hell!

Dr. Challus Mercer: Unitology is not a cult. It is a Church. An free religion, where we become one with the Universe after transcend death itself. Perhaps now you will understand. The work i have done must continue… will continue! I, Dr. Challus Mercer, shall serve as the catalyst to the salvation of our species! These specimens will return to Earth with me. I will spread their divine glory across the entire planet! I'll leave you with my creations. Embrace the inevitable. *As he left the control room, and the Team heard sounds, as nearly all Regenerators came here. Ready to attack the Team.*

Me: It's more like a doomsday cult if you ask me. And if there's one thing I can't stand it's an evil cult! Take him down!

But it was too late as Mercer had already left and the Regenerator Necromorphs started to attack us.

We blasted the Regenerators and killed them all!

The Video feed of Kendra appeared again.

Kendra: Let's just hope that's the last we see of these… regenerative things. I've managed to override Mercer's lockdown. There's a secondary tram station nearby that you guys can take to Hydroponics. Let's just hope there's enough time.

Me: We're on our way. If we see Mercer again I'll blast him.

Lincoln: We all want to blast him J.D.

Ronnie Anne: I agree.

Nico: That freak has failed this whole universe.

Girl Jordan: We're wasting time. Lets go.

We left the Cryogenics Lab and went back to the Tram Station. There, they enter the Tram. Their destination; The Hydroponics Deck.

After the tram arrives, the team exits the Tram, and enters the Hydroponics deck.

Me: Whoa! This place is like a giant greenhouse.

Laney: It sure does look like it.

Lana: Look at all these pretty plants! It's like my jungle greenhouse back home.

Isaac: I know. The Hydroponics Greenhouse have all kinds of plants here. For making food or Oxygen.

Me: Very essential to the colony.

Isaac: Yep. Hey, I found a Audio Log here.

Me: What's it say?

Isaac presses it.

Cross: Hydroponics log… Elizabeth Cross reporting. I'm pleased to say that we`re working close to maximum capacity at the present time. All flora is healthy and thriving and food yield has created a surplus. I was going to pass the surplus on to the colony, but the captain has given a no-fly order. I want to note my opposition to that order. Everyone knows they're in trouble down there, and I don't see what denying them our surplus will achieve.

Me: This whole colony was thrown into total turmoil.

Ronnie Anne: Why would the captain give the No-Fly order?

Naruto: Fear and paranoia can cause people to do terrible things.

Stacy: It sure can.

Lana: And the captain denying food and supplies to the colony? That's low, even for him before he died by the hands of Kyne.

Me: It sure is.

Coup: He's not like Paradigm, but that is bad enough.

Lincoln: Let's continue to find the Leviathan!

Me: Right. Hunter can you sense where it is?

Hunter: I sense that it is in the Food storage.

Me: Lets go.

We walk towards the Hallway and we found a elevator.

We took the elevator.

After the elevator opens we are in a small room. Where we see tomatoes there.

Me: Look at all the tomatoes.

Isaac: I know, want to take some home?

Me: We don't want to impose.

Lana ate one.

Lana: (With her mouth full) These tomatoes are tasty!

Ronnie Anne then smells something gross and poisonous.

Ronnie Anne: It's coming from this door.

Me: Open it on three Ronnie Anne. 1…

We stood ready.

Me: 2…

We ready and we had weapons and energy blasts ready.

Me: 3!

Ronnie Anne opens the door and we points our weapons and energy. There was nothing. No Necromorphs, just a hallway with Pumpkins on it, but they see someone sitting behind the wall. It was Zach Hammond himself, still alive, but barely breathing slowly.

Me: Zach?

Zach then looks at us.

Zach: Guys… Good to see you in one piece…

Me: Are you all right?

Zach: I'm fine… Don't take… your helmets off… The air's rotten…

Me: We can see that but we can handle it.

Sasuke: The smell is strongest in here and that means we're close.

Zach: I got a good look… at it… It's huge… You all won't believe it… shut itself in Food Storage…

Me: We're close. Can you lead us to it?

Zach: Sorry, but I can't. But the creature is not alone… The crew that was on this deck… I think they're what's poisoning the air.

Me.: Well lets get over there and destroy them.

Zach: Yes, but just giving you all a hint. They're been transformed… I saw one of them, bloated, swollen. They're poison factories… We need to take them out while we can still breath…

Me: I know. Here Zach. You'll need this.

I handed him one of our 22nd Century Exopacks and he put it on and he could breath right again.

Zach: (Breaths heavily) Thanks J.D.

Me: You're welcome Zach.

The video image of Kendra appeared.

Kendra: Hammond! I thought you were dead! You need to get to cleaner air! You're not going to be able to help Isaac and the Team in your condition. Everyone, I'm scanning the area now. He's right, there's something really big in Food Storage, but I can't get a good scan. Monitor readings are off the scale. Be careful!

Me: We will Kendra and I gave him one of our 22nd Century Exopacks. He's alright.

Kendra: That's a relief. Now get moving!

We went to door that said "Atmosphere Control" and went into the room where the atmosphere controls were.

Kendra from the Audio: That's the door to the Food Storage. But I can't override the integrity lockdown. You guys have to destroy the pods to bring the air quality up. Then you all can go through and use the poison on the Leviathan.

Me: We're on it.

We enter the door that said "West Grow Chamber" and we were in the hallway. We got another Audio from Kendra.

Kendra: I suppose I should be glad that Hammond's alive, but I still don't trust him. I think he's hiding something about the Marker.

Me: I trust him completely. He knows more about what's going on with this Marker and we need to find it and destroy it.

We open the door and we see the hallway that leads to the West Tower of the Hydroponics. But we had to avoid the steam from the pipes as well.

We went down the hall.

After that we found a cargo lift and ascend. We found a lone Slasher as it charges at us

We blasted it and killed it.

We then see the West Grow Chamber door after opening it. It revealed to be a large room, full of plants.

Me: Whoa! It's covered in plants in here.

Lana: It's so pretty!

Laney: It sure is.

Ronnie Anne: It sure is. There's a lot of plants in here.

Lana: I'll say. I would love to have these in our garden at home.

Naruto: I think all of us would Lana.

Roaring was heard and we saw 20 Slashers, and three Lurkers there. From all directions.

Lincoln: Well, these guys sure know how to ruin the scenery with their presence.

Me: They sure do.

I fired a circle wave of energy and blew them all apart in one fell swoop.

We then heard a strange noise and it sounded like a distorted wheezing and it came from a small room. We found the source and it was a new Necromorph. Breathing in and out poisonous air exhales. This was the pods we were suppose to destroy.

Me: So those are the source of the poison gas.

Nicole: These are called Wheezers. They breath in air and exhale poison gas.

Girl Jordan fired a powerful blast of water and blew it apart and the poison sucked in was replaced by Oxygen.

Me: Kill the Wheezer's and their poisonous air vanishes.

Everyone: Got it!

We exit out of the room and we saw more Slashers and Lurkers. All enraged about the Wheezer's death.

We blew them apart.

Lincoln: So every time we kill a Wheezer, the Necromorphs comes to get us to avenge the Wheezer's death?

Me: That's a strange vengeance sense.

Sakura: No kidding.

Girl Jordan: And you know what's strange, we usually see several or dozens of them. But now we see 20 of them. Suggesting that they are here to defend the Wheezer's and they're poisons.

Me: Yeah. Hunter do you sense where the Leviathan is?

Hunter: It's in the storage room like I said. But we need to kill 7 more Wheezers in order to get to the Leviathan.

Isaac: I saw another room with another Wheezer in there!

Me: Lead the way Isaac.

Isaac led us to another small room and inside was another Wheezer. Exhaling more poison. Girl Jordan backstabbed the Wheezer with a sword made of pure water and the Poison vanished and Oxygen returns.

Me: Nice shot Girl Jordan.

Girl Jordan: Many thanks J.D.

Isaac: *Activates his navigation device.* There's another Wheezer somewhere up there and there's an elevator in there! *As he led us to the Elevator.*

Me: Lets go.

We ascend to Floor 2 and we heard the female computer's voice.

Computer: Warning. Toxins detected in Atmosphere Processing. A repair technician has been notified.

Me: And we're those repair technicians.

After arriving to Floor 2, we went to two doors that said "Refrigeration West", but they see a Necromorph there. But it was almost skeletal in appearance, a split forehead. And a large yellow spots on it's right arm.

Me: That one is uglier than the last one!

Sasuke: Wait. *He throws a ninja star at the Necromorph's yellow spot and it explodes.* They are explosive!

Me: HOLY FUCK! They're like living bombs!

Lincoln: They're Kamikaze exploders!

We see four more Exploders come out from the vents of the Refrigeration West Hallway. They were coming for us and they were ready to explode.

We blast them and they exploded.

After that, we finally entered the Refrigeration West Room which was a Zero-G gravity atmosphere. But is still breathable. Except for the awful stench somewhere in this room.

Me: Ugh! That smell is really horrible!

Isaac: Must be a Wheezer here somewhere. Follow me! *As he jumps through the Zero-Gravity room of the Refrigeration West. He opened the sliding door, revealing two Lurkers.*

We blasted the Lurkers to pieces.

We continue to follow Isaac through the Refrigeration room, finally seeing a entrance there. We see a door that said "Air Filtration" on it.

Me: It's in the Air Filtration and Purifier unit.

Isaac: Yep, wait. *As he activates the navigation device.* We're gone in the wrong way?!

Me: No this is the right way. Hunter?

Hunter: Sorry, but Isaac's right. We are going in the wrong way. Let's head back to the second floor of the West Grow Chamber!

Me: I had a feeling we were lost. Lets go.

Isaac: Wait a minute? *Checking the navigation device.* False alarm. There is the Wheezer somewhere in the Air Filtration room.

Lincoln: Make up your mind Isaac!

Isaac: I swear, this navigation device is bad luck. It's screwing with me, or something.

Me: That thing must be broken.

Isaac: Well, Lana want to fix it just in case?

Lana: Happy to Isaac.

Lana fixed it.

Isaac: Now let me see. *Activates the navigation device. We are going in the right direction to the Air Filtration.* Thank you Lana.

Lana: No problem Isaac.

Isaac: Now lets continue moving on!

He leads the Team through the door and into the Air Filtration room. We see fire blasts from the tubes, but it didn't damage the room.

Computer: Warning. Air filtration system still active. Entering the filtration tubes is extremely hazardous.

Me: We'll take our chances.

Sasuke: I see another Audio Log here.

Me: Lets hear what it says.

Sasuke presses it.

Dr. Elizabeth Cross: Hello? Hello! Security! Thank god. This is Dr. Cross, in Hydroponics. I'm trying to locate Second Engineer Jacob Temple! I can't get through to Engineering! Of course I know there's a ship-wide medical alert! That's why I'm trying to locate him! No, we're safe for now. But the tram is down, and we can't reach the escape pods. Hello? Hello?!

Me: Looks like she was trying to reach the escape pods.

Lincoln: And also Jacob Temple as well.

Me: Yeah.

We see a Cargo lift and we take it. It descends down.

We reached the bottom.

After that we have to cross the tubes while avoiding the fire blasts.

After crossing the tubes without been caught in the fire blasts we see a Wheezer, and a Slasher there.

We destroyed them with ease.

After that, the poisonous air vanishes after the Wheezer died.

Me: One more Wheezer down.

Isaac: Now we need five more Wheezer's to kill.

Me: Good.

We see the Elevator that said "Back to West Grow Chamber".

Me: Here we are.

We saw a Pregnant and a Lurker there as well.

Me: Blast them!

We blasted the limbs and tentacles off of the Pregnant and Lurker. Thus killing the two Necromorphs.

Me: That takes care of them

Isaac led us back to the Elevator and we took Floor 2 again. But this time, Isaac led them to another door and there is a Wheezer inside a small room.

We went in and there we saw another Wheezer there, exhaling poisons out from it's body.

Hunter blasted it.

After that, we see two Infectors appear and they have started infecting dead bodies into more Enhanced Slashers.

We burned them with fire and slashed them apart.

Lincoln: How many more will these Necromorphs keep stopping us?

Me: Countless. There could be many more of them on the planet.

We exit the Hydroponics Control Room and enter the floor 2 of the West Grow Chamber.

Ronnie Anne: I wonder what's up on Floor 3?

Me: Lets go see.

We ascend to Floor 3 and it was a small room with lots of loot there. But no Necromorphs.

Me: All Clear up here.

We descend back down to Floor 1. We went back to the Atmosphere control room. Their next stop: The east rooms.

We proceeded on to the east rooms.

While we move there, we found another Text Log there.

Me: Lets see what this log says.

As the team read it.

CHEM LAB REPORT

FROM: PROF, JAGERWALD, H.

ATTN: DR. CROSS, E.

Elizabeth -

No doubt you're aware of the organic growth found in some parts of the ship. I've been examining the substance and thought the results would interest you.

The cells most clearly resemble bacteria, with viral behavior. Like bacteria, the organism infects other cells through osmosis, then mutates and reproduces agamogenetically.

What's amazing is the SPEED at which it grows. A single bacterium reproduces twenty-fold in just one minute. I've never seen anything like it. I won't stake my reputation on it, but I think this may be a genuine alien lifeform!

Prof. Hawley theorizes that it's a habitat transformer - the levels of gaseous output are tremendous, which is why it smells so bad - but to what end we simply don't know. I'll keep you posted.

- Heinrich

Me: So the Wheezers are made from enhanced bacteria?

Girl Jordan: There talking about the weird stuff we keep seeing on the walls.

Me: Yeah. That is too weird.

Lincoln: How about we call these organic stuff on the walls Necrotic Corruption?

Me: That's a good name. All agree?

Ronnie Anne: I agree with Lincoln, I thank Necrotic Corruption is a good name.

Nicole: I agree too.

Stacy: Same here.

Girl Jordan.: Yes, but there's no time to waste. We need to eliminate the Wheezer's somewhere in the East rooms on this deck!

Me: Girl Jordan is right. We need to destroy all of the Wheezers!

We open the door to the hallway of the East Grow Chamber and we found another Necromorph Guardian there.

Me: Whoa! This one is big!

Lincoln: We must take out that Guardian!

Me: Blast it!

Lincoln: VOID STYLE: SHADOW SPEAR JUTSU!

Lincoln summoned a spear made of void energy and it hit the Necromorph Guardian. Vaporizing it.

Me: Nice shot!

Lincoln: Thanks J.D.!

We enter two small rooms here. Grabbing loot, and we killed a Slasher there. The third small room requires a Power Node or Lincoln's Lightning powers and he activates the door. Opening it. We got loot there and after that, we continue to move to the Cargo Line and we ascend to the second floor where we see the door that said "East Grow Chamber".

Me: East Grow Chamber. This is it.

Computer: Vegetative anomalies detected in the East Grow Chamber.

We went into the East Grow Chamber.

After entering the East Grow Chamber, unlike the West Grow Chamber, this room is full of Necrotic Corruption everywhere. And the plants here are withering and dying.

Me: It's all over the place!

Lana: Yuck! There's so many Necrotic Corruption everywhere!

Me: Disgusting to the brink.

Ronnie Anne: What have they done to this place?!

Me: Ruined it with filth and death.

Computer: Hazardous anomalies detected. Quarantine activated.

Me: Here they come!

We see 20 more Slashers, seven Leapers, three Lurkers, two Brutes, and several Pregnants, including dozens of Fliers.

Me: Fire!

We fired at the Necromorphs, killing five Slashers, one Lurker, two Leapers, and three Pregnants. There were 15 Slashers left, two Lurkers left, and five Leapers left, and six Pregnants left. But they still have to fight two Brutes and dozens of fliers as well.

We fired a massive energy blast and vaporized them.

All the Necromorphs were dead. But we heard one of the Wheezer's exhale and we found one in on the East Grow Chamber's feeding station.

Isaac: Alright, when : press this button and the hatch opens to replace the vat, You all shoot the Wheezer. Got it?

Me: Roger that.

As Isaac presses the controls and the hatch opens as the machine grabs the vat. But it also left the Wheezer vulnerable to our weapons.

Computer: Replacing nutrient vat.

Isaac: Now!

Isaac opened the door and we fired and blasted the Wheezer inside the Feeding station. After that, the Wheezer died and the poison vanishes.

Hunter: Only three more to go!

Me: So far so good.

Lana: I saw one in one of the Small rooms!

Me: Lead the way Lana.

As Lana led us to the small room that said "East Grow Chamber

Greenhouse A", we opened the door and we saw the Wheezer there, breathing and exhaling more poisonous air.

Lincoln: Care to do the honor J.D.?

Me: With pleasure.

I fired an energy blast and destroyed it.

Me: 2 more to go.

Isaac: Now, we have to go up through the elevator in this chamber!

Me: Right.

Hunter: I detected one of the Wheezer's on Floor 3. Let's head to floor 3.

Me: Lets go. Good work Hunter.

Hunter: Bitte Schoen J.D.!

We ascend into Floor 3 and we finally saw the Wheezer there.

Isaac: Care to do the honor Lana?

Lana: With pleasure Isaac. ICE STYLE: ICE SHURIKEN!

She fired shuriken made of pure ice at Wheezer, killing it.*

Lana: You got the cold shoulder!

Me: Nice shot Lana!

Lana: Thanks!

Lincoln: Now let's head to Floor 2. I saw a door that said "To East Refrigeration" on the left, and another Audio Log on the right!

Me: Lets go.

We descend into Floor 2 and we went to the Audio Log first.

We heard what it said.

Dr. Elizabeth Cross: Hydroponics log, Dr. Cross reporting. Something huge just slammed into the hull, near Food Storage. It wasn't a rogue asteroid, I know what that sounds like. But it was big, and heavy. I'll report again when I know more.

Me: I think that asteroid was a Necromorph.

Lincoln: Yep, and a Leviathan nevertheless.

Nicole: It's not as big as one of the Brethren Moons, but it was big enough.

Me: Yep. Lets get moving.

We enter the Hallway to the East Refrigeration and we saw more Necrotic Corruption there.

Me: Oh this is disgusting! It's all over the place and I feel like I'm going through someones colon!

Suddenly, another Drag Tentacle appeared. This time it is more aggressive and I slashed the Tentacle!

We moved on and we opened the door to a small room, where there was another door that said "East Refrigeration". We found another Audio Log there as well.

Me: Lets see what this audio log says.

I press it.

Jacob Temple: This is Temple, Acting Chief Engineer. I came down here to find Dr. Elizabeth Cross, but she's not here. In fact, I can't find anyone. Just more of this organic shit everywhere. I'm going to check the Mining Deck. It's about the only place I haven't looked yet.

Me: That's weird.

Lincoln: What's weird?

Me: It's just that he was trying to find someone, but it was all for nothing.

Lana: Maybe he has a girlfriend that must be in the Mining Deck?

Me: Hmm. Maybe. Lets stay focused.

We opened the door to the East Refrigeration. There, like the West Refrigeration, it too had a Zero-G environment.

Me: Here we go.

But something was different about the East Refrigeration, like any of the East rooms on the Eastern part of the Hydroponics deck, it too had Necrotic Corruption there.

Me: This place was touched by the Necromorphs.

Ronnie Anne: Seriously, how many Necrotic Corruption's keep appearing here?!

Lincoln: No idea but it's everywhere.

Isaac: Let's get going, follow my lead!

We followed him and we see what looks like a generator there with electricity shooting everywhere. Suggesting it's malfunctioned.

Me: Looks like this generator is broken.

Lana: Leave that to me.

Lana fixed it.

Isaac: There we go. Now we can continue on without been shocked to death.

We continued moving on while following Isaac. We then encountered two Lurkers there.

We blasted the Lurkers. We continue on and we finally found the last Wheezer there.

Isaac: Lincoln! Ronnie Anne! Care to do the honor of finishing off the last Wheezer?

Lincoln: With pleasure.

Lincoln fired a blast of lightning and Ronnie Anne fired a blast of fire and blew it apart.

Lincoln: That's the last of them.

The audio sound from Kendra had appeared.

Kendra: That's the last one everyone. There's a switch in Atmosphere Control that restarts the oxygen cycling. Once the air is clean you can get into Food Storage. Guys, I've been reading these reports… the crew all began having mass hallucinations. And… well, I just saw my brother on a security monitor. And that's just not possible…

Me: Can you show us Kendra?

Kendra: I can't show all of you about my Brother. He died years ago. The brother I saw is a hallucination.

Me: I'm sorry about your brother. Maybe you're going nuts because of everything that's been going on?

Kendra: Yes, I might be going nuts, but that won't stop me from helping you. You all must activate the switch on the Atmosphere controls. In order to restart oxygen cycling!

Me: We're on our way.

We left the East Refrigeration room and entered the East Grow Chamber and then got to the hallway that leads to the Atmosphere Control. We encountered three Slashers there.

Ronnie Anne: FIRE STYLE: PHOENIX FLAME BLAST!

She fired powerful flames the shape of the Phoenix and they crashed into the Necromorphs. Burning them to ash and dust.

Me: Nice shooting Ronnie Anne!

Sasuke: Very impressive.

Ronnie Anne: Thanks guys!

We took the elevator and descend into floor 1 of the Hallway. We finally entered two of the three doors to the Atmosphere Control.

Me: The atmosphere control center?

Isaac: That's the same place where we came from. Because we entered the West rooms on the Left and the East rooms on the right. But that doesn't matter. What matters is that we need to turn the Air Cycling systems on.

Lincoln: Lets do it.

Isaac activates it.

Computer: Flushing all air vents. Restoring nitrogen and oxygen levels. Food Storage lockdown lifted.

Me: That did it!

In front of us is the Door that leads to the Food Storage. We opened it and it revealed a long hallway. But with Necrotic Corruption on the walls.

Me: Oh yuck!

Lana: Nasty!

Laney: Disgusting!

Lincoln: There's even Necrotic Corruption here too?!

Sasuke: It's all over the place!

Sakura: I found one of those Audio Logs on the floor!

Me: Lets hear it.

Sakura presses it.

Dr. Elizabeth Cross: Hydroponics log. This is Dr. Cross. It… It's hard for me to believe what I'm seeing here. This is crazy, absolutely crazy. I'm going to the Mining Deck. I hear that's where survivors are gathering. Jacob… I'll wait for you there.

Me: Something went down here.

Lincoln: We know, the Leviathan!

Me: Lets press on.

We enter the door that said "Primary Food Storage" and we see another door of the same name. Only this time it had tentacles wrapped around the door. Refusing to let us inside. We see a station that said "Food Filter" there.

Isaac: Let's put the poison capsule inside the Food Filter. That will kill the Leviathan inside the Food Storage!

Me: It's worth a shot but good idea Isaac.

Isaac inserts the poison capsule inside the Food Filter the computer sounded.

Computer: Unknown antigen injected into filtration system.

Me: Here we go.

The poison enters from the filter and into the door. The tentacles were withdrawing or dying. But there is also a huge roar from inside the door.

RRRRROOOOOOOOOOOOOOOOOOOOOOAAAAAARRRRR!

Kendra from the Audio: Dammit! The poison wasn't strong enough… it's still alive! Get in there and kill it before it contaminates the entire ship!

Me: Right!

Isaac: Well, the poison didn't work. Time for plan B, killing the Leviathan ourselves!

Lincoln: Lets do it.

As they opened the door.

Computer: Entering Zero-Gravity.

The lights all turned on as well. Revealing a giant monstrosity in there.

Me: That is the leviathan!?

Nico: What a monstrosity!

Suddenly, the Leviathan woke up and it summoned three Tentacles from it's body that looked similar to the Drag Tentacles. But like the Drag Tentacles, they too have yellow spots on them. As the Leviathan uses it's three tentacles to attack us.

We blasted the Tentacles in half.

After the Tentacles were cut off, the Leviathan was enraged. As it opens it's mouth, revealing a sickly yellow ball shaped organic bomb. It attempted to launch it at us..

Me: Uh oh.

Lincoln: VOID STYLE: SHADOW DRAGON BLAST!

Lincoln breathed flames made of void energies and the void flames transformed into a Dragon. It slammed on the Leviathan. Vaporizing it.

Me: Awesome shot Lincoln!

Laney: Way to go big brother!

Lincoln: Thanks guys!

The audio feed from Kendra: Guys, you did it! Hammond? Do you read? Oxygen levels are returning to normal.

Me: I'm so glad. Thanks Kendra.

Kendra: Your Welcome J.D. Hammond? Do you copy? Dammit! He's gone again! No sign of his RIG anywhere! It's up to us now.

Me: We got to find him.

Kendra: Yes we're gonna look for him and I've also located an SOS beacon on the Mining Deck. If you all can get down there and activate it, we might be able to send a distress signal to the Earth Government.

Me: We all answered that distress signal when we got here.

Kendra: I'm talking about another distress signal! Just head to Mining Deck and find the SOS, and send it to Earth Gov space.

Me: Roger that!

Kendra: Thank you *As the image feed appeared.* Better hurry to the Mining Deck! Oh god. I don't know how much longer that door will hold… *And the video image was cut of.*

Me: Lets move!

After leaving the Storage Room, the Atmosphere control room, the Hallway, we took and elevator the elevator and went down the hallway that leads to the Tram Station. There, we see the Tram there.

We took the tram.

After that, the Tram moves to our next destination: The Mining Deck.

We arrived at the mining deck.

Lincoln: So this is the Mining Deck?

Me: Looks like it.

Another beaming portal appeared again. It reveals to be Luna, Lynn Jr, Aylene and Inkling.

Lincoln: Luna, Lynn?

Me: Aylene and Inkling?

Inkling: Hello guys!

Aylene: Hi J.D.!

Luna: Hey Big bro.

Lynn: The Lynnster is here to kick Necromorph butts!

Me: We need all the help we can get guys.

Lynn: So this is the Mining Deck?

Luna: It sure is dude.

Kendra from Video feed: Everyone. There's an asteroid loaded up in the mining bay, waiting to be smelted. If you attach the SOS beacon to it, you can launch it away from the ship to make a clean broadcast. The beacon's on the Maintenance sub deck. You can launch the asteroid from the control room. Damn, the control room is locked. It looks like they keep an emergency access key on the Processing sub deck. Couldn't be easy, could it? I don't know how much more of this I can take.

Me: After everything that went down I don't know how much more of this anyone can take.

Kendra: Yes, it is som-wait. Is that girl actually an alien?! *Seeing Meggy with the Team.*

Me: Inkling is a friend.

Lincoln: Wait, you all never encountered Aliens before?

Isaac: No, we have not. We refer to it as Dead Space. Since we have not encountered Aliens, or Garden Worlds in our life. Well with the exception of Earth. Since it's the only Garden World in this Galaxy.

Me: True. But we encountered hundreds of planets that are like Earth.

Isaac: I see. So what's Inkling's species?

Luna: Inkling is a Squid Girl. They like to be called that.

Isaac: Squid Girl?

Me: They are Squid humanoids.

Isaac: I see, but why are they called Inklings for?

Inkling: We like to get into an ink fighting match and splatter everything with ink.

Isaac: Oh I get it, it's like a paint tug of war type of game.

Inkling: Actually we use Squirt Guns and water guns that fire ink.

Isaac: I see, but we can't waste time. We have to get to the Processing Sub Deck to get the emergency key!

Me: Right.

We move into a room and they see the door that said "RIG Room".

Me: RIG Room!

Isaac: This is the room where we keep the RIG suits there.

Me: Lets go.

Isaac: Right, also it's not just RIG suits, but tools as well.

The door opens and it looked more like an armory and tool shop. But in front of us is the Elevator much bigger than the elevators we see on any Deck we visited.

Me: That is a big elevator.

Lincoln: It's perfect for all of us.

We enter the elevator after Isaac presses it and as the Elevator ascends to where the team are after arriving, to our shock we see a miner there with a missing right arm, as he was groaning in pain and was bleeding to death.

Me: Oh man!

Lynn: Whoa! What happened to him!?

Luna: I don't know dudes.

I then went over to him.

Me: Sir did the Necromorphs do this to you?

Miner: (In Pain) Iss that whatt those t things are called? Aghhhh! (Clutching his missing right arm in pain, as more blood is pouring out.)

Me: Save your strength. We got to cauterize that wound. Sir, this is gonna hurt a lot. Lynn, hold him down.

Lynn: Right.

Lynn held him down and I formed a flame in my hands and I burned his wound and he screamed and thrashed in pain and he was panting.

Miner: (Weakly) Thank you.

Me: You're welcome. Lisa, beam this man over to sick bay.

Lisa: Copy that.

The transporter beamed the man onto the ship.

Isaac: Looks like we saved another person in this ship.

Me: Yep. Had to cauterize the wound shut or he would've bled to death.

Lynn: That was clever doing that.

Me: Thanks Lynn.

Isaac: True. *Then the audio feed from Kendra appeared.*

Kendra: The mining sub deck is offline for some reason everyone. I'll see if I can run a bypass.

Me: The Necromorphs are down there. We found a man bleeding to death after his whole arm ripped off.

Kendra: Then where is he at?

Me: He's on our ship in sick bay.

Kendra: I see. Good work. Well better get to the Processing Deck!

Me: Roger that.

Nico: We're on our way.

We look at the controls and there are four decks.

Deck A: Preparation

Deck B: Processing

Deck C: Mining

and Deck D: Maintenance

Lynn: So we head to Processing first?

Me: Which deck should we do first Isaac?

Isaac: The Processing!

Me: Lets go.

I pressed the b button which lead us to the Processing deck.

As the elevator descends to Deck B, we heard a busting sound on the vent from the ceiling. Revealing to be a Slasher.

Luna: Is that those Necromorphs McNeil was talking about?

Me: That's them Luna.

Lynn: Man, those guys are ugly! *She bashed her bat at the Necromorph's head.* Take that freak!

Me: Lynn!

He then blast off the Slasher's limbs and it dies.

Me: You have to slash or blast off it's limbs in order to kill them.

Lynn: How the heck is it still alive without the head?!

Me: That's what really baffles us. They're like zombies.

Luna: Dudes, these things put every Zombies from horror films, including the Walking Dead to shame.

Me: My thoughts exactly Luna. Even the zombies from Dawn of The Dead and Resident Evil were more pleasant.

Another vent burst open and in came another Slasher.

Inkling: I got this! *She fired her Ink gun at the Slasher's limbs off and killed it.*

Luna: Nice shot dude!

Inkling: Thanks Luna! *With a thumbs up.*

Another Slasher appeared from another vent and it attempts to attack Ronnie Anne.

Ronnie Anne: LUNAR STYLE: PIERCING LIGHT OF THE MOON! (Since her Guardian class is the Hunter) *As she summoned a moon shaped light, as it hits the Necromorph. Vaporizing it to dust.*

Me: Wow! Awesome shot Ronnie Anne!

Naruto: I've never heard of Lunar Style jutsu before.

Lana: Me neither. We learned all kinds of techniques in the world of Shinobi but never stuff like that.

Ronnie Anne: Thanks, I discovered that I have a unique kekkei genkai called Lunar Style.

Me: That was awesome.

Sasuke: Very impressive.

Me: Do you have any abilities like that now Sasuke?

Sasuke: Yes, I have the Void powers too. Like Lincoln does

Me: Neat! Lets stay focused. We're almost there.

Two more Slashers appeared from the vents.

Sasuke: VOID STYLE: SLASHING SWORD OF SHADOW!

Sasuke formed a long sword made of void energies and he slashed the two Necromorphs to oblivion.*

Naruto: Awesome job Sasuke!

Sasuke: Thanks Naruto.

Me: You sure have changed from that broody brat we met the first time 3 years ago Sasuke.

Sasuke: Yes, and you've became more aware and smarter than the last time i met you all that time ago. And thanks J.D.

Me: Touché.

After the elevator arrived to the Processing Deck. They see a hallway there.

Me: Here we go.

We through the hallway, we felt like we're been watched.

Me: I've got a bad feeling about this. It feels like someone's watching us. Hunter, can you see who's watching us?

Hunter: I do, und it's not someone. It's more like we've been watched by Necromorphs, but why are they not attacking us?

Me: I don't know. Where are they?

Lana: I feel like I'm been stalked by those Necromorphs?

Luna: Me too dudes.

I kept my eyes out on alert.

We then heard chirping noises, as there were Necromorphs we've never seen before and they kept stalking us. Finally, we saw several of them. But they're appearance was so horrific, and grotesque in sight. The Necromorphs had bird like skulls, almost skeletal in appearance, and are greater in number. As they started to shriek, as dozens more attack us.

Me: These Necromorphs look more bird-like!

Lincoln: Lets waste those Stalkers!

We fired blasts at them and vaporized them.

Nicole: That's what they are. Stalkers.

We moved and we saw another Hallway that leads to the Left and the Right. But in the middle we see an Audio Log there.

Me: Here's another Audio Log.

I press it.

Jacob Temple: This is Temple. I found Elizabeth, but there isn't a single spaceworthy vessel in the whole goddamn bay! But we did see the unknown Starship outside the Ishimura that is not in Earth Gov or CEC origins.

Elizabeth Cross: Jacob, hurry up! We need to find a beacon!

Jacob Temple: There's got to be one around here somewhere.

Me: Sounds like the Necromorphs destroyed all chances of escape on the ship.

Isaac: Wait, didn't Temple said a Starship not of Earth Gov or CEC origins?

Me: That's like our ship. We built it.

We moved on and I saw someone. But it was none other than Denzel Crocker looking at the wall.

Me: Denzel Crocker!

Lana: What the heck are you doing here!?

No response from him. As me and Lana got closer to him, he now looked at and Lana. His face was disfigured and skeletal in appearance. There was no flesh on his face and his eyes glowed sickly yellow.

Denzel Crocker: Make us whole J.D. and Lana!

He shrieked bloody murder, as me and Lana covered our ears and closed our eyes. We then opened our eyes, seeing that Crocker was not there.

Me: He's a Necromorph Zombie!

Lincoln: What! You two just looked at the wall and then covered your eyes and ears. Are you two okay?

Isaac: Yeah, what was that all about?

As everyone look at J.D. and Lana in confusion.

Me: Huh?

As he looked and saw nothing.

Me: Oh no. The madness is starting to get to us.

Ronnie Anne: Don't tell me you two are hallucinating?

Me: Yeah. It's what drove all the people on this entire ship to go crazy and kill each other. It's horrible.

Isaac: And what is this Crocker guy you mentioned J.D.?

Me: You would hate this guy Isaac. He was a school teacher that was 13,517% fucked up to the brink.

I revealed Crocker's story and Isaac was horrified and enraged.

Isaac: That bastard! It was no wonder he was a 13,517% fucked up monster! He's beyond insane! Wait, you two saw him here. What did he look like now to you?

Me: Well here's a picture.

I pulled out a sketchpad and drew what he looked like.

And then he showed it to Isaac.

Isaac: My god! He looked like a Necromorph bit him in the face! What are his exact words before you covered your eyes and ears?

Me: He said to make us whole and be one with us.

Nicole: That's exactly what the Brethren Moons say.

Lincoln: Isn't that guy also from the guy we saw in the Comm Array entrance in the Bridge that said the same thing?

We turned and we saw him.

It was the same man from the Comm Array. As he was looking at us.

Man: Make us whole again. (He left to the left.)

Me: Something is messing around with our minds. I think this is the source of why everyone went nuts.

Lincoln: Well, I didn't see him?

Ronnie Anne: Me neither?

Sasuke: Same thing? I don't think it's affected the three of us.

Me: I know that. Whatever is the source behind this crazy bout of hallucinations, we need to find it and destroy it.

We continued moving on and we see a Pregnant and two Slashers on the left, two more slashers behind us, and three more slashers in front of us.

We blasted them to pieces.

Luna: Man, these guys don't give us a break do they?

Naruto: No they don't!

We continue moving on through the room that Isaac dubbed the Antechamber Room of the Processing Deck and we keep seeing dead bodies everywhere. Not Necromorphs, but Humans. Miners to be exact.

Luna: This place gives me the creeps.

Me: Something has been having a field day here.

We saw one of the Dead bodies on the ground and it looked like its head was skeletal in appearance and it was laying in the ground not moving.

Me: Gross!

Lynn: What happened to him?

Md: No idea. This is not like any kind of the Necromorph's doing.

Suddenly, the dead bodies head ascend with it's snake like neck, as it looks at J.D. as it's prey.

Me: What the fucking hell!?

Luna: That is an ugly one dude!

The Necromorph Grabber attempts to bite me with it's mandible mouth full of sharp teeth.

I slashed it's head in half.

Aylene: What the fuck is that thing?!

Me: Some hideously ugly Grabber Necromorph.

Hunter: Good name J.D.

Me: Thanks Hunter. But that had to be the ugliest one I've ever seen.

Nicole: Me too.

Hunter: It appears to be un-moving and laying still, like a regular dead body. Before it attacks unsuspecting survivors, suggesting that it is a ambush Necromorph.

Me: It would seem so.

Isaac: We must be on our guard guys, there's no telling how many more are coming to stop us.

Me: Right.

We continue to move on while following Isaac downstairs and we see the door that said "Mineral Processing Area" on it.

Me: Mineral Processing Area?

Isaac: This is the room where we process the minerals there.

Me: Cool.

We opened the door and Isaac led us to the right only to encounter another Slasher there. As Isaac aimed his Plasma Cutter at the Slasher's limbs, killing it.

Me: Nicely done Isaac.

Isaac: Thanks! And look what we have here, another Text Log.

Me: Lets see.

We read it.

MINING DECK LOCK

KREUZ. G (QMED)

The situation here just got a lot worse. The gravity failure came as we were collating asteroids, and one broke free of the grav beam. It collided with a wall, killing two crew, and split into chunks. They're free floating in the processing room, and we can't restore gravity to get the Master Key until they're cleared. We could really use some engineering help up here.

Me: So an asteroid chunk slammed into the ship.

Naruto: I think so.

We see that on the wall is an asteroid on it on the right. And a hole on the left.

Me: There's the asteroid. And it looks like this is where it flew in.

We see through the hole and it is a large room. With many asteroids everywhere floating, and it's in the Zero-G environment. But this room is the Mineral Processing room.

Me: These asteroids are about as big as fire hydrants and cars.

We entered through the hole.

Computer: Entering Zero-Gravity.

Kendra from the Audio: There's a failsafe on the processing control door. It won't open until gravity is restored. But you guys can't turn on the gravity until those boulders are cleared from the room. Maybe you all can dump them into that gravity beam with your Kinesis module.

Me: Good idea Kendra. Lets do it guys!

Isaac uses his Kinetic Module to grab the asteroids, and threw them into the Gravity Beam and destroying them. While the rest either smashes them to pieces, or melts them.

Me: Yeah! That did it!

We see the door that leads to the entrance of the Mineral Processing, but it requires a power node. Lincoln shocks it and activates it. We enter the room and grabbed loot there and went back to the Mineral Processing room. But we encountered two Leapers there.

We blasted them and after that, Isaac presses the controls.

Computer: Gravity restored. Access permitted to control room.

We went to the Control room.

We saw the Mining Access Key in the floor where a Grabber is. As the Grabber is defending the key from us.

Me: So that's how you want it to go down.

I fired a blast of fire and burned it

After I slain the Grabber, Isaac picked up the Mining Access Key.

Kendra from the Audio: That's the key everyone. It'll get you all into the Control Room so you can launch the asteroid. Don't forget to attach the beacon first! I read another report on the colonist's dementia. It seemed to start after they removed the Marker from the planet. God knows how long it was down there.

Me: Too long. Lets go!

We went to another door that leads to the Elevator and after that we have come across an L-shaped hallway next to the elevator. But then the lights suddenly shut off for a minute.

Me: Power surge?

After a minute, the lights turn back on.

Me: Lights on.

We entered the door, which led us back to the Mineral Processing room and then we left to the Antechamber and finally back to the elevator.

We took the elevator.

We were heading to Deck A: The Maintenance. After arriving there, we encountered several Slashers, several Leapers, few Exploders, a lurker and a pregnant there.

We blasted the Necromorphs.

But they see the room look like here.

Me: There's more Necrotic Corruption.

We then heard something and we saw the source, it was two Infectors infecting dead bodies into Enhanced Slashers.

Lincoln: Disgusting!

Ronnie Annne: Blast those Infectors and Enhanced Slashers!

We did so.

W saw another Audio Log there.

Me: Lets see this Audio Log.

I pressing it.

Unknown man: Dr. Kyne! What the hell are you… Aaah!

Dr. Terrence Kyne: Get back! Come any closer and… and I'll shoot him! Give me the access codes to the cargo bay!

Unknown man: You… idiot! This is… processing! Why the hell… would I have codes… to cargo?

Dr. Terrence Kyne: Don't lie to me! I'm sick of everyone lying to me! It is imperative that I get the marker! Give me those codes!

Unknown man: I don't… have them! Is this… what you did… to the captain? Go on… shoot me if you've got… the guts!

Dr. Terrence Kyne: IDIOTS! It's the only way to stop it… The only way to end this!

Unknown man: He's completely lost it… Somebody call security!

Me: Geez!

Lincoln: Isn't that Kyne the one who murdered the captain?

Me: It sure sounded like it.

Naruto: It sounded like Kyne has gone insane.

Sasuke: No kidding.

Lana: What if we find this Kyne?

Me: Then we try to reason with him. And if that doesn't work we kill him.

We opened the door and saw a room with a Gondola. But there was also more Necrotic Corruption as well.

Me: More Necrotic Corruption here too.

We also saw another premature Guardian on the wall and he was groaning in intense pain and agony.

I fired a blast of fire and killed him to bring mercy and end his suffering.

Isaac: Thanks for giving him mercy.

Me: No problem Isaac.

Isaac used Kinetic module to pull the Gondola towards the team and we boarded it.

The gondola moved. It was slow at first, but after what looked like six minutes we arrived in time. We see the door that said "Repair Room" on it.

Me: The Repair room.

Nicole Brennan: Isaac! Is that really you?

Hunter: Woah, you must be Nicole Brennan?

Nicole Brennan: Yes, I am Nicole Brennan. It fells like it's been so long… But I can help you and your friends, now. Come with me.

Naruto: Shall we J.D.?

Me: Lets shall bro.

I sensed that her energy wasn't there but I knew she was dead. Me, Naruto and Hunter saw her but to the rest they did not see Nicole Brennan. And the team was talking to nowhere. But they can't bring this up so they decided to follow this imaginative Nicole to the Repair room.

Nicole Brennan: The Beacon's in the storage room next to you all. I think I can disable the lock from here. Hold on!

As they (Minus Lincoln, Ronnie Anne, and Sasuke) are preparing to defend Nicole from any possible Necromorphs and they were ready to guard Nicole.

Then the Slashers appeared from the ceiling, as they attempt to get Nicole. We blasted them to pieces, and did not let a single Necromorph get close to Nicole. We also killed a Lurker on the left wall, as it falls down dead.

After a minute, Nicole looks at us.

Nicole Brennan: Okay, the door's unlocked, Isaac, everyone. I can't get over to you… but I'll find the way. I love you… this will be all over soon.

Isaac: I love you too Nicole.

As Nicole leaves to the right, and the door to the storage behind us opens.

We went to the beacon in the "Maintenance Storage Room", and we found the Beacon there.

Me: There's the beacon.

Isaac picked it up.

Kendra from the Audio: Everyone! Hey, I lost all your signal for a while. You guys had me worried… I see you all got the beacon, so head for the mining bay and attach it to the asteroid. I've been running trajectory calculations and if we launch soon, there's a good chance the asteroid can reach a safe distance to begin transmitting! Still no sign of Hammond. In his state, I can't imagine he's still alive…

Me: Roger that Kendra. We found Nicole.

Kendra: Then where is she?

Isaac: She left, don't know where she went. But she's still helping us.

Kendra: I see, well. Head to the Mining deck and place the SOS beacon on the asteroid! And fast!

Me: Right!

We left the storage room and the repair room and went back to the Gondola. As the gondola moves, we see more grabbers, lurkers, and what look like pods with single tentacles. Spitting or firing projectiles at the Team.

Me: Oh yuck!

Lincoln: Lets shoot them dead!

We fired our powers and weapons at the Grabbers, Pods, and Lurkers.

We destroyed the Nercomorphs one by one.

After the Gondola arrives, we see two Slashers there. Waiting for us.

We blast them to pieces.

After that, we exit the Gondola.

Computer: Safety gear must be worn at all times in Class A environments.

Me: Noted. Isaac can I ask you a question?

Isaac: Yes J.D.?

Me: What is it like on Earth in the 26th Century? How far has humanity progressed?

Isaac: Humanity has progressed far. We have spread to widespread distances across the galaxy. We have more than a thousand planets colonized. But there are also setbacks as well.

Me: What kind of setbacks?

Isaac: Global Warming, mass pollution, scarce resources, and over-population. Earth is dying, and we all gathered resources from other worlds we colonized back to Earth. In order to support her.

Me: Wow. That's incredible!

Isaac: I know, but the resources we harvest on our colonies, well, the colonists weren't happy at first. There were secessionists that happened in the colonies, which started the Resource Wars.

Me: That's awful.

Isaac: Yes. I know it was awful. But the Resource wars ended in the year 2508 AD.

Me: That's 489 years from our time in 2019.

Isaac: Yes, but it's also the same year where we are at.

Me: It's confusing isn't it?

Isaac: I know. But lets not waste time and move on. I'll tell the rest later.

Me: Okay.

We enter the door and went back to elevator. But we saw a slasher on the ground playing dead.

Luna: Dudes! I think it's dead.

Me: No it's playing possum.

We fired an energy blast at it and destroyed it.

Lynn: Those are smart Necromorphs. But not smart enough to avoid our shots!

Me: No they aren't smart enough Lynn.

As they entered the elevator.

Isaac: Lets head back to Preparation room. I have a Schematic of Level 4 suit, and I must go to the Store.

Me: Okay.

After Isaac presses the button that leads to the Preparation room, we went to the store. As the store converts into the armor changer and Isaac steps inside. The door closes for seven seconds before Isaac came out with the new Level 4 suit.

Me: Nice suit Isaac.

Isaac: Thanks J.D.! Now let's get to the Mining sub deck!

We head back to the elevator again and we received another Audio feed from Kendra.

Kendra: I've got elevator access to the mining sub deck. It was a security lockdown, although I don't think it helped them. Now that you guys got the beacon and the key, head over there. It looks like the asteroid is held in place by some gravity tethers. You all have to knock those out before you can launch it.

Me: Okay Kendra. Lets roll!

As Isaac presses the button to Deck C: Extraction, the elevator takes us down to the mining deck. After arriving, we see Necromorphs there. Seven Slashers, three Lurkers, two Grabbers, and dozens of Stalkers there. Though we barely see them due to the clouds of dust there.

We then fire our powers and our weapons at the Necromorphs in this cloud-dusty room.

Me: That's that.

After the battle, We went into a non-dust cloud room and turned to the left to the "Extraction Area Left", but we have encountered another Slasher there.

Me: Take him down!

Lynn: EARTH STYLE: THROWING ROCKS!

She summoned a barrage of rocks, and they were thrown at the Slasher, tearing and smashing it to pieces.*

Me: Wow! Nice one Lynn!

Sasuke: Very impressive. You all have learned a lot from my friends.

Lynn: Thanks guys! Hey, I see an Audio Log here.

Me: Lets get it.

We grabbed the Audio Log and Lynn presses it.

A. Dallas: Processing log. Supervisor 2nd Engineer Dallas reporting. This will be my last report. I've seen what they do… to the bodies. What they become. I can't let that happen to me. At least if I don't have any limbs… I won't be able to kill anyone when I'm infected…

(Gun charging in the background) Please, tell Dawn… and the kids… that I love them.

(Gunshot) Oh God… (Panting in pain, second gunshot)

One more… one more… (3rd and last gunshot)

Me: That is nuts!

Lana: No kidding!

Laney: Yeah.

Lincoln: Why would that Dallas guy shoot his arms off for?

Me: One seriously fucked up freak.

Hunter: I don't think that shooting he's own arms off would help him.

Me: No. It only was nothing but murder.

Ronnie Anne: You mean suicide?

Me: Maybe.

Isaac: I think I saw an Upgrade Bench over there!

We then see the Upgrade bench on the other area.

Me: That's it all right.

Isaac: We have plenty of Power Nodes that we picked up on every Deck we've been to. So let's upgrade.

We upgraded our weapons, armor, and tools. Making them better and more powerful.

Me: Sweet!

After that, Isaac used his Kinetic Module to pick up a Power Cell, and everyone followed to the same dust-cloud room. Only to see two Exploders, coming for us.

Me: Uh oh.

Luna: Those Kamikaze Necromorph guys again!

Girl Jordan: Blast them in the yellow spots!

Me: Right!

We fired our weapons and powers at the two Exploder's explosive yellow spots, killing them.

Me: That did it.

After we slain the Exploders, we went to what look like another elevator and after Isaac placed the Power Cell inside the plug, we descended.

We then went into a hallway and then into another hallway and we found another Text Log there.

Me: Lets see what this log says.

It says:

MINING LOG

DALLAS, A. (SUPERVISOR, 2nd ENGINEER)

Planet Crack went smoothly from this end, although there do seem to have been problems planetside, and we've temporarily lost contact with the colony.

First rockball was extracted from the tectonic load approximately one hour after Planet Crack, and has been processed, refined and smelted.

Results have exceeded even optimistic initial estimates. Normal recovery is around 35% mineral, 5% fossil, 60% waste, but material from the first ball was 65% mineral (and 0% fossil, in line with expectations). That's 6.5 tons of ore from a 10-ton ball. Assuming it's not an anomaly, we've hit a motherlode.

Me: Whatever they found was big.

Isaac: They were talking about the ores they found from the chunk the Ishimura has planet cracked and they were right, they did hit a motherlode. But that's not important, what's important is to find the large Asteroid to implant the SOS beacon on it.

We continue moving through the second hallway and we turned to the right of the door. As it opens, revealing a large room with the largest asteroid inside it thats been encircled by the gravity tether machine that looks like a large spinning wheel with power inside of it.

Me: Holy mackerel! That rock is huge!

Computer: Entering Zero-Gravity.

Lincoln: I know, but how do we stop the Gravity Tether?

Isaac: I'll stasis it!

Isaac shoots his Stasis Module at the Gravity Tether and he shoots the small power generator inside the big wheel. Thus stopping the gravity tether from holding the asteroid.

Lincoln: Now what?

Isaac: Now we ne- *hearing Necromorphs* *sigh* We got company!

We see several Leapers, but this time, they are blackish brown with sickly glowing yellow eyes. Since they are the Enhanced Leapers.

Me: Take them down!

We fired our powers and our weapons at the Enhanced Leapers, dismembering them to pieces.

Isaac: Now, as I was saying, there is another Gravity Tether up there! *As he pointed it up in the ceiling.* After that, we head outside to vacuum of space, and place the beacon on the Asteroid!

Me: right!

We followed Isaac to the ceiling in the Zero-G room and we saw another Gravity Tether, which Isaac shot the small power generator inside. After that, we went outside into the vacuum of space through the small openings above the asteroid. We see two more Gravity Tethers there and two Lurkers as well.

Me: Blast them!

We blasted the Lurkers to pieces and we placed the Beacon on the asteroid and shot two more Gravity Tethers after Isaac used Stasis.

Computer: Warning. Payload 8772 is no longer tethered. Untrained personnel should leave the area immediately.

After that, we went back inside the Mining bay.

Naruto: Now what's next?

Isaac: We go to the Mining Bay Control room and sent this Asteroid outside!

Me: Okay. Lets do it.

As Isaac led us all back to the Mining Bay elevator and ascends. And then we head to where Isaac found the Power Cell earlier and speaking of power cell, Isaac unplugs it in with his Kinetic Module and he brings it to another plug, which powers another elevator. After that, we enter the elevator as it ascends up to the hallway which would lead us to the control room.

We: Here we are.

After opening the door to the control room, we see three Grabbers there.

Me: Whoa!

Lincoln: Lets blast those three Grabbers!

Lincoln and everyone else shot the necks of the Grabbers, decapitating them and killing them.

Naruto: Nice shots.

Then Isaac went to the controls as the window blinds opened, revealing the big asteroid, and he pressed the button. Thus, releasing the Asteroid to space.

Computer: Payload 8772 launched.

Me: Yes!

Kendra from the video feed: Beacon's on its way! All functions normal, and broadcasting wide band. Now we just have to hope the EarthGovs listening. I'll position the array receiver.

Me: Roger that. All we can do is pray.

Kendra from the video feed: Yes, we all can pray-wait? I thought I saw my brother again. He waved to me. Like nothing was wrong. Okay, I should be able to leave this channel open…

Me: Lets focus on the matter at hand

Kendra: Yes, we all-what the? What? The comms Array receiver isn't responding! Everyone, can you all get back to the Bridge? We need that array online or we can't receive signals from anyone responding to the beacon!

Me: Right!

We were about to leave the control room when an alarm sounded and the door in front of us was locked.

Computer: Hazardous anomalies detected. Quarantine activated.

Me: Here they come!

Several Slashers burst from the vents in this room, charging at the us

Me.: Blast them!

We blasted the limbs off from the Slashers, one by one. After that the Necromorphs were defeated.

But then, three Enhanced Slashers appeared from the vents.

I then fired an energy blast and vaporized them.

After that, the alarms shut off, and the lock lifted.

Computer: Quarantine lifted.

We continued on.

After that, we went back to the big elevator and ascend to the Preparation Room. But several Slashers and two Enhanced Slashers appeared from the vents.

Luna: They just keep coming dudes!

Lynn: EARTH STYLE: FIST ROCK!

She turning her hands into two colossal-sized fists made of rocks and she crushed the Necromorphs with her large fists.*

Naruto: Nice shot Lynn!

Lynn: Thanks Naruto!

Me: That was awesome!

After the elevator arrives to the Preparation room, they saw the Necromorph hands, feet, and the head again.

Lincoln: Yuck!

Lana: It's those hands, feet, and head Necromorphs again!

Me: Yep.

We blast them to pieces.

After that, we left the RIG room, and went back to the Tram Station. Everyone boarded the Tram, their destination; The Bridge Deck again.

We arrived at the Bridge Deck.

After exiting the tram, we received another video feed from Kendra.

Kendra: Things are looking up! A military ship just clocked in! The U.S.M. Valor…

Me: That's like our ship. But what is it Kendra?

Kendra: The U.S.M. Valor is a military ship from EarthGov. I don't know what it was doing out there, but it must have gotten our distress signal.

Me: Lets find out.

Kendra: But we can't talk to it until that Comms Array is fixed. I'm going to hack the door to Communications for all of you. Get in there and find the Comms Control Station.

Me: Okay.

Suddenly, another beaming portal appeared. And reveals to be Tenten, Luan, Hinata, and Shikamaru.

Me: Tenten?

Lincoln: Luan?

Naruto: Hinata? Shikamaru?

Tenten: What's happening guys?

Hinata: Hi Naruto.

Luan: The Queen of Jokes is here. Get it!

Shikamaru: Hey Naruto, looks like you need our help against those Necromorphs? What a drag.

Me: We need all the help we can get.

Tenten: I want to see what these Necromorphs look like?

Me: They are hideously ugly and ruthlessly savage and bloodthirsty. We'll explain along the way.

We entered the Main Atrium room and nothing has changed, except the elevator where we found the video log earlier is now covered in Necrotic Corruption.

Me: It wasn't like this before.

Lincoln: Yuck!

Tenten: Interesting! I must gather samples of this organic growth you called Necrotic Corruption.

Me: Go for it.

Tenten gathered some Necrotic Corruption samples inside a vial and a dish.

Tenten: I'll send this growth to Lady Tsunade when we get back.

Suddenly, an alarm sounded.

Computer: Hazardous anomalies detected. Quarantine activated.

Luan: Is this normal?

Me: It means trouble is coming! Necromorphs incoming!

We saw over 15 Exploders, dozens of Stalkers, dozens of Fliers, 25 Slashers, 12 Leapers, several Lurkers, 10 Enhanced Slashers, 5 Enhanced Leapers, 3 Brutes, and one Enhanced Brute. All coming for the team.

Luan: Are these Necromorphs!?

Me: These are them Luan and they are no laughing matter!

Tenten readies her Medigun, a device which heals any teammates with it's healing beams. But also can do an UberCharge if the Medigun is fully charged.

The battle against the Necromorph incursion inside the Atrium Room begins.

We all blasted all Necromorphs with all our might.

After the battle, the Necromorphs were dead.

Lynn: Man! These guys never give as a break?

As she Pants heavily.

Me: No they sure don't.

Computer: Quarantine lift.

As the alarms shut off.

Me: That's that.

After that, we went to another elevator behind the first elevator. As Isaac presses it to Floor 1. The room where we found Alicia earlier.

We got out of the elevator.

After getting out, we went to the room and they got a audio feed from Kendra.

Kendra: Everyone, the door to Communications is now open, but I've been getting some weird feedback spikes on the local comms. I think someone's listening in on us, so be careful.

Me: Roger that!

We then went to the hallway to another room where we found Alicia earlier. But we found another Necromorph Guardian on the wall full of Necrotic Corruption. As tentacles sprouted out of his chest cavity.

Me: Oh that is disgusting!

Luan hurled her guts out and Fu was comforting her.

We see another Necromorph guardian on another wall as well. As the two Necromorph Guardians ejected pods from their cavities. Which shoots projectiles at us.

We dodged the pods and blasted them.

Hinata uses her Byakugan to see at the Guardians.

Hinata: They're alive, but in so much agony!

Lana: Lets put them out of their misery!

We fired our powers and our weapons at the Necromorph Guardians tentacles. Killing them. As the Necromorph Guardians murmured "Thank you" or sighs relive as they die.

Lincoln: We saw those guys at the Engineering Deck. They were premature. But they are alive and agonizing. So we put them out of their suffering. We saw some more of them at the Medical Deck, Hydroponics Deck, and Mining Deck. But now here in the Bridge Deck and we keep seeing those Necromorph Guardians. Are all these Necromorphs that heartless?

Me: They sure as hell look like it.

We opened the door to a room that said "To Comm Array" and they see a man crawling towards the team, before dying to the ground.

Me: Oh man.

But they heard a distorted and twisted whale noises. We the source, which is a new Necromorph, who is very slender, tall, and skeletal in appearance.

Me: That one is a new one!

Luan: That is an ugly one!

The new Necromorph shoots a tentacle around Luna's neck, choking her.

I slashed the tentacles off. And then he blast the Divider into pieces. But then the pieces came alive.

Me: So that's it! It's a Divider!

Nicole: That's exactly what it is.

The hands and Feet grab me and as for the head it aimmed for my head.

I flared up an energy field and obliterated them in an instant.

Girl Jordan: These things are the Thing Rip-offs.

Me: My thoughts exactly Girl Jordan. If Kate Lloyd saw these creatures they would make her skin crawl.

Isaac: I see an elevator there!

He points to where the elevator platform is.

We went to it.

It ascends and we saw an Audio Log there next to the door that said "To Comm Array".

Lana: Lets see what this Audio Log says.

As Lana press it.

First Comms Operator Bailey: Communications log, First Comms Operator Bailey reporting. The ship is under attack, but requests to issue a distress call have been repeatedly denied by Captain Mathius. He won't say it, but everyone on the bridge knows why-this is an illegal operation in a prohibited system. We've all known for months, and we kept out mouths shut. Not anymore.

(Sounds of typing and electric whirring)

First Comms Operator Bailey: Mayday, mayday, mayday! This is USG Ishimura, this is-what the hell?

(More typing and strange beeping)

First Comms Operator Bailey: I don't believe this! The whole comms system is offline! Now he's gone too far… Bailey out.

Me: An illegal operation?

Isaac: Yes, there was an incident on Aegis VII in 2314 AD. I can see why it's illegal. Because of those Necromorphs.

Me: Now I see. Now it just became official. We need to destroy the entire planet.

Isaac: We'll worry about that later, we need to get to the Comm

Array!

The door opened revealing a Gondola there. We boarded it and our destination was the Comm Array.

We got off at our destination.

The door open and we entered the communications control room.

Computer: Communications array offline. A service technician has been notified.

Lana: Who needs one of them when you got me.

Laney: Go for it Lana.

Lana got to work.

Kendra from the audio: That Comms Array is in bad shape. We need at least six working dishes for a strong enough signal. Make sure they're aligned symmetrically so there are no power gaps.

Me: Roger that.

We saw the two doors that lead inside the Comm Array room. We need to fix at least six working dishes for a strong enough signal. They must be aligned symmetrically so that there are no power gaps.

Me: Here we go.

Computer: Entering Zero-Gravity.

We entered the Comm Array room and we saw three Enhanced Leapers there as well.

Mr: Here they come!

Luan: Lets blast them!

Luan fired a powerful beam of light at them and burned them and we blasted the Enhanced Leaper's arms and tails off, killing them.

Me: That takes care of them!

We moved and went to fixes the 6 communication dishes.

We got to the first dish.

After that we went to the second dish, the third dish, the fourth dish, and fifth dish and lastly, the sixth dish.

Computer: Communications array re-aligned. Messages can now be received.

Me.: Right on!

Lana: We did it!

Kendra: That's it, it's working! Get back to Communications and use the control panel to send our coordinates to the Valor!

Me: Righto!

We head back to the control room of the Communications Array. Isaac presses the button.

The video feed from one of the crew from the USM Valor appeared.

USM Valor Comm Operator: This is the USM Valor, widecasting on all frequencies to USG Ishimura in response to your SOS. We've picked up your escape pod number 47, and are en route to your position. This message will repeat every thirty seconds until you respond.

And the video image cut off.

Me: USM Valor do you read me?

Kendra from the Audio: What!? Isn't that the escape pod Hammond jettisoned? One of those things was onboard! No! No, this isn't going to happen!

Me: Oh shit!

(Sounds of Frantic Typing)

Kendra: USM Valor! Come in Valor! Our signal isn't strong enough. I'm going to open the blast doors to boost the signal.

(Electronic Beep)

Computer: Error: blast door blockage detected. Please contact a repair technician.

Kendra Daniels: SHIT! Everyone, there's something big on the hull of the ship directly above the Comms Array. Something organic. I don't know what it is and I don't care. We have to get the doors open to transmit to the Valor. You all should have a clear shot from ADS Cannon 48. Get to the cannon and blow it out into space!

Me: Right! Lets go!

We exits the Comm array control room and went back to the Gondola. After arriving, we see the elevator ascend to where they are. And on this elevator is a Enhanced Slasher.

We blast it and after that we went into the room that said "To ADS Cannon 48" Room.

Me: Here we are.

After arriving from the elevator and entering from the hall we are in the ADS Cannon 48. As Isaac takes over the manual override chair. As the window blinds open. Revealing a gigantic slug like creature outside where the cannon is pointing at.

Me: That is a big one!

Isaac: I can see that!

He fires a shot from the cannon at it. Disturbing the Necromorph as it sprouted five tentacles with yellow spots each. It grabs debris and objects and toss them to the cannon.

We blasted the debris and objects and Isaac shoots the cannon at the tentacles yellow spots. After that the Slug had lifted from the hull of the ship and it was floating away into space dead.

Computer: Opening Communications Array blast doors.

Me: Yes!

The video of feed from Kendra appeared.

Kendra: You guys did it! (As she starts trying to communicate with the USM Valor) USM Valor, this is Kendra Daniels of the USG Ishimura, come in! Do not open the escape pod! USM Valor, this is Kendra Daniels of the USG Ishimura, come in! Do not open the escape pod! Dammit, respond!

(Communications to the USM Valor come back online. The video switches to the inside of the Valor. The inside is a bloodbath, with destruction and blood everywhere. An injured Marine staggers to his feet from behind a chair. Suddenly, the Slasher from the escape pod rises up behind him. Just as the Marine turns around, the Slasher suddenly swings it's blade into his neck. The video feed cuts out. The video cuts back to Kendra, who has her head down in anger and sadness).

Kendra: Why did they open the pod, dammit…

Me: The crew is all dead!

As all of this is happening, the USM Valor is flying toward the Ishimura, out of control. Kendra looks up and sees this through the video screen.

Kendra: Oh my god. It's headed right for us! Isaac! Everyone! Get the (Censored) out of there! It's going to crash into the ship!

The Valor crashes into the Ishimura. I protected everyone in a force field.

Me: Is everyone all right?

Lincoln: We're fine.

Nico: All good.

Isaac: That was a good defense.

Me: Thanks Isaac.

After that, we got another video image from someone, who happens to be Zach Hammond.

Zach: Isaac! Everyone! Everyone, are you all there?

Me: We're all right Zach.

Zach: Thank god you're all right guys! I've been trying to reach you all! Someone's been blocking my RIG signal remotely. That crash must have happened interrupted the signal block.

Kendra: Hammond! Where have you been?

Zach: Surviving, barely. I found some med supplies and patched myself up.

Me: Thanks goodness you're okay Zach.

Zach: You too J.D.! And is that more people from your ship?

As he was referring to Inkling, Luna, Lynn, Tenten, Luan, Hinata and Shikamaru.

Me: Yep. These are more of my friends.

Everyone introduced themselves.

Zach: I see, it was a good introduction. But listen everyone. I'm calling an abort on the mission. Shit! The C.E.C. and the fucking the chain of command. We have to get the hell out of here! But first, we need to find any more survivors who are still sane or injured. I think I've located a shuttle on the Crew Deck. The flight log says it needs a new singularity core. But we can probably salvage one from the Valor. While salvaging for it, we will find survivors on the Valor. I can see the tail-end of it sticking out of the side of the Ishimura. I'm heading down there now to find a way inside. I'll met you there. Hammond out.

Me: Roger that.

Kendra: Guys, if what he says is true about the shuttle. Head to the cargo bay and see if you all can help Hammond. In his condition, he may not last long.

Me: You got it Kendra. We're on our way!

We left the ADS Cannon 48 and went to the elevator and back to the room where we found Alicia earlier and went back to the elevator to the Main Atrium room. After the elevator opens, Revealing another Divider, and a new Necromorph monster, that looked like it was a spawn from hell.

Me: That one is disgusting and hideous.

Luna: Dudes! Is that bodies on it's back?!

Me: It sure is.

Lynn: That one has to be the grossest one ever!

Me: That has to be the most terrifying one ever!

Shikamaru: You know, I find everything to be a drag. But this is the worse thing I've ever seen in my whole life!

Naruto: Me too!

Lincoln: Lets destroy this Thing and the Divider!

Me: You got it!

We fight against the Graverobber and the Divider and we blasted them both with powerful energy blasts and vaporized them.

After the battle, we went back to the Tram Station. Only to find a Pregnant coming towards them. We blasted the Pregnant.

After that, we boarded the Tram. Our next destination; The Storage Deck, where the USM Valor is at.

We saw the crashed ship.

Then a video image from Zach appears.

Zach: Everyone? Good, you all made it inside! Listen! I just found the munitions log for the Valor! I don't think their presence here is a coincidence! They're not on a reconnaissance and they're not on patrol! This ship is prepped for war! They're on a seek and destroy mission! Do you all hear me?!

Me: We hear you Zach! That's horrible!

Lincoln: War is a terrible thing!

Me: It always is.

Luna: Wait, why is the crew on the Valor prepped for war?

Me: I have no idea

Zach: Whatever they were doing, it's not gonna be p-r-(Static was showing, as the video switched back to Kendra)

Kendra: Everyone, I've lost him again! No signal from Hammond's RIG… Find the singularity core!

Me: We're on it!

We went into three doors and a hallway and made it to the Zero-G Ore storage room. There we see the USM Valor there with strange floating green orbs floating around.

Computer: Entering Zero-Gravity.

Kendra: Everyone, one of the Valor's weapons ripped open in the crash. Those green orbs you guys see are highly radioactive and the Valor's airlock has sealed itself. You all are going to have to throw those into space before you can get into the ship.

Me: Most of us are completely impervious to radiation. Lets get them!

We entered the ground we had to destroy six small generators. After that, the floor door opened and vacuum came in.

Computer: Entering vacuum.

Me: Hang on!

We went into space and Isaac used his Kinetic Module to grab one of the radioactive orbs and he threw it to space.

Male computer voice from the Valor: Radioactive material removed.

Me and Hunter gave the thumbs up to Isaac.

Isaac gives the thumbs up as well to Hunter and me as he used his Kinetic module to grab another orb and threw it to space.

Valor's Computer: Radioactive material removed.

We removed all the radioactive material from the storage room.

Valor's Computer: Radiation hazard clear. Safety lock released.

We were out of the vacuum we encountered several Enhanced Leapers and several Lurkers including three new Enhanced Lurkers there.

We blasted them to pieces. We then saw the opening hatch on the USM Valor, and went in through there.

Valor's Computer: Exiting Zero-Gravity. Exiting Vacuum.

Me: Whew!

Kendra from the Audio: The part you all looking for will be in the engine room at the back of the ship! I'm reading massive damage so you guys may need to find an alternate route to get there!

Me: Right!

We enter the door to the hallway and we see three dead bodies of soldiers there and one of them is at the pod where the Necromorph came from before the crash.

Me: Looks like a struggle took place.

Hunter: Nein kidding J.D., why would the USM Valor crew let a Necromorph inside they're ship?

Lincoln: No idea.

Girl Jordan: And most importantly, there were over hundreds of Soldiers and one Necromorph! How did a single Necromorph, let alone a Slasher wipe out the entire ship?!

Me: I don't know Girl Jordan.

We continued to find the Singularity core and Isaac used his Kinetic Module to move some of crates out of our way and we got another Audio feed from Zach Hammond.

Zach: The infection process is doing something strange to these soldiers. They all had built-in Stasis units in their body armor. The infection is merging the Stasis unit into their flesh or something… making them move fast… real fast. Be careful.

Me: Ugly. We'll keep our eyes out.

Lincoln: I know, we better watch out for them!

We saw more Necromorphs yet these Necromorphs are Slashers, but something is different about them. They are twitching, and not only that. They are moving insanely fast towards us.

Me: That one is new!

Ronnie Anne: And they're moving insanely fast!

Me: No kidding!

We fired our weapons at the fast and twitching Slasher lookalikes and we blasted them and vaporized them.

Lana: So what shall we call these Necromorphs?

Nicole: Twitchers!

Sasuke: That's a good name for them, considering they are twitching.

Me: And it's their twitching that gave them their insane speed.

Tenten: So we shall watch out for these Twitchers.

Me: Noted.

We continue to move, one of the vents in this room burst open. Revealing another Twitcher, as it charges a us.

We blasted it.

Naruto: Another Twitcher dead!

Me: You said it bro.

We moved through the door to the left and enter the room and we went to another door that said "To Elevator to Upper Deck".

Me: Lets go.

Zach from the audio feed: Everyone, I'm tracking your position but it doesn't look like I can reach you. This damn ship was nearly sheared in half. I made it to the bridge… it's a mess here. These poor bastards didn't stand a chance. I'm going to override all door locks so you can get to the engine room. I'll try and catch up with you all there.

Me: Okay.

As the door opens, they enter the hallway, as they were trying to open the door, the door locks itself and power shuts off for few seconds. But then, they see two Infectors.

Me: Uh oh.

Lincoln: Quick! Kill the Infectors before they infect the dead bodies!

We did so and the Infectors are slain.

After that, Isaac places the new Power cell inside the plug, which unlocks the door to the Elevator.

Naruto: Lets go.

We moved inside the Elevator and got another video log from someone, but to our surprise, This someone was Dr. Terrance Kyne himself.

Kyne: Mr. Clarke! Mr. Knudson! Mr. Michaelson! Mr. Loud! I need to speak with all of you… My name is Terrence Kyne… Doctor Kyne.

Me: So you are Dr. Kyne.

Lincoln: The one who murdered the Captain.

Dr. Kyne: I kept telling everyone it was a accident!

Me: (Whispers) Lets see if he's right.

Lincoln: Why should we trust you?

Dr. Kyne: Please listen to me, there isn't much time… If you all really can repair the shuttle… there is a better use for it than just running away. You all must understand, the forces at work here are… greater than you all can imagine. If you all leave now… you condemn all humanity! The planet will never stop, never rest, unless the Marker is returned. Don't you all see? The Church is wrong! This is all a trap! I've seen it… Please, you all must help me!

Me: He's telling the truth. I knew something was wrong about that Marker from the beginning. Now it just became official. We have to destroy the planet.

Isaac: Wait! Why not return this Marker back to this planet?

Me: That's exactly what they want us to do. But we'll give them the ultimate goodbye present that will explode in their faces when we blow the entire planet to smithereens.

The elevator doors opened and they see a soldier stuck in the ceiling by the distortion from the ground and he was screaming in pain.

Me: Lets get him down!

As Isaac used his Kinetic module to bring this Soldier from the ceiling towards the team.

Me: Sir are you okay?

Soldier: Yes, arigato for saving me from the ceiling.

Me: You're from Japan.

Soldier: Not just Japan, but also America as well.

Me: I'm glad we helped you. We should introduce ourselves.

Soldier: Hai, I am Tucker K. Shirabu. Son of Daine K. Jefferson and Hirotachi Shirabu. And you are?

Me: We are Team Loud Phoenix Storm.

The team introduced ourselves.

Tucker: I see, well as for saving me. I am in your debt.

Me: Think nothing of it Tucker.

Tucker: What are you all doing here in the USM Valor?

Me: We've come to return a dangerous artifact called The Marker to the planet Aegis VII.

Naruto: It's the reason why those creatures called the Necromorphs are attacking the ship and killing everyone.

Tucker: I see, well, my superior wants this artifact for the government. But he didn't tell us the rest of this information. If you say was true. Then I'll help aid you all.

Me: We greatly appreciate it Tucker and it's not just the artifact that's dangerous. It's the Necromorphs themselves and we're going to destroy the Marker and the entire planet. These creatures are an extreme danger to every living thing in the entire universe.

Tucker: Very well, I'll lead you all to the armory, but be weary. There are Necromorphs in the armory.

Me: Thanks Tucker.

Tucker: Your welcome.

We enters through the hallway to the Armory and we saw several Exploders and a single Divider there. We vaporized the Necromorphs into dust. After that we found a Audio Log there.

Lana: Lets see what this log says?

As Lana press it.

Commander F. Cadigan: This is Commander Cadigan! We have hostiles on board! This is NOT a drill! Hostiles are alien, repeat, ALIEN and extremely dangerous! All personnel have weapons ready and fire at will!

Me: So the Necromorphs invaded the ship.

Isaac: We already know that! Because of the pod where Hammond had ejected the Necromorph earlier.

Me: I know.

We now enter the hallway that leads to the Infirmary. After doing the Shooting Range with all hit points we heard a man crying in agony and we saw another Soldier with a missing leg on his arms.

Me.: Uh oh.

Soldier: OH GOD IT HURTS!

Me: Oh man! Sir we can still reattach that. Lisa beam this man over to sick bay and reattach his limb, stat!

Lisa: On it J.D.

The teleporter beamed him over to sick bay.

We then went to the Infirmary Room. There we saw what look like a malfunctioned machine with four pointed lasers and we also saw another Twitcher, who is charging at us. Only to be sliced in parts by the malfunctioned laser machine.

Me: Whoa!

Isaac: Lana, you fix that machine after I use Stasis on it. Got it!?

Lana: Yes sir!

As Isaac now used his Stasis to stop the machine in animation. And Lana fixed it, making it normal again.

Lana: All fixed!

After that, they continue to move. Only to see another Twitcher from the vent. As it charges at the Team.

We blast it.

After that, we went to another door that said "To Barracks", and we entered the Hallway and we saw several Exploders coming for us.

Lana fired a powerful blast of energy and vaporized them.

Lynn: Nice shot Lana!

Lana: Thanks Lynn.

Then we went to the Barracks room. As we continuing to cross, the alarms sounded. And all doors locked.

Valor's Computer: Lockdown initiated.

Me: Uh oh. stand back.

I punched the door and ripped the whole thing right off of its frame

Suddenly, a Necromorph Horde appeared. Made of 40 Slashers, 20 Leapers, 15 Lurkers, 10 Exploders, 6 Pregnants, 4 Brutes, dozens of Stalkers, dozens of Fliers, two Dividers, another Graverobber, 10 Twitchers, several Enhanced Slashers, several Enhanced Leapers, three Enhanced Lurkers, and one Enhanced Brute.

We fired massive energy blasts all at once and blew them away.

Lincoln: That's a lot of Necromorphs?!

Me: No kidding.

Isaac: And now they're dead. Because they stood no chance against us.

Me: Nope.

Valor's Computer: Lockdown lifted.

Me: That's it.

We continued to move on and we discovered a Text Log there.

Me: What's this log?

As they read it.

EYES ONLY - PRIORITY BLACK

FROM: CHIEF OF STAFF, EARTH DEFENSE

ATTN: COMMANDER CADIGAN, F.

OPERATION WHITE LIGHT

THEATER: AEGIS SYSTEM, PLANET PENDING

OBJECTIVE: DEEP CLEANSE

CEC vessel USG Ishimura in breach of government order. They are believed to have recovered Marker 3A. Special Ops has confirmed the system but has been unable to provide the planet location. Special Ops advises caution. If Marker 3A has been recovered, infection by a lethal organism is a credible threat. Shockpoint to Aegis system, move to position out of local scope range and await signal from Ishimura to confirm location.

Me: Whoa!

Luna: What's Shockpoint?

Me: No idea.

Isaac: It's the FTL.

Me: The Faster Than Light engine?

Isaac: Yes. Shockpoint FTL was invented by Hideki Ishimura centuries ago.

Me: Wow!

Isaac: I know.

Lana: Wait, why did they named the Marker, Marker 3A?

Me: No idea.

Lincoln: We can't waste time! We need to find the Singularity core!

Me: Right.

We moved to the next room in the hallway and we discovered another Soldier stuck in the wall by the distortion.

Me: Whoa! Hang on!

Isaac used his Kinetic module to bring the Soldier to us.

Soldier: Oh thank you.

Lincoln: What's your name?

Soldier: I'm Henry P. Felixson.

Me: Pleasure to meet you Henry.

We introduced themselves to Henry.

Henry: I see. Nice to meet you all.

Me: You too Henry.

Henry: How did you survive those things?

Me: We just blew them apart with our power and wits!

Isaac: Yes, so, you want to come with us?

Henry: Sure, I'll get back at those Monsters for slaughtering my comrades!

Me: And we're gonna destroy this planet and kill them all.

We left to the hallways to the Engine Room and we see another Soldier there, but this soldier was running away and went to the hallway.

Henry: Alex?! Where you going?!

Me: After him move!

But the soldier, Alex came back and this time, he was chased by a Twitcher.

I fired an energy blast and vaporized it.

Alex: Thank goodness you saved me!

Me: You're welcome Alex. Are you all right?

Alex: Yes, I thought I saw someone, so I went there to find out. But that person disappeared and was replaced by that thing.

Me: That thing was called a Necromorph. They're ugly zombie creatures from the planet below.

Alex: Then what about the person I thought I saw?

Me: I have no idea.

Isaac: It must be a hallucination Alex.

Alex: That could be.

Me. Yeah. This place had most of its crew completely destroyed by dementia and mass murder brought on by sheer insanity. And I'm starting to think that it was the Marker that is responsible for all this.

Isaac: Well, I see a large door that said "Access to Lower Engine

Room".

Me: The Lower Engine Room. Lets go.

We opened the door and we saw the elevator that leads down there.

We took the elevator.

As the Elevator goes up we made it to the Upper Engine room in which the engines bursted fire every 10 seconds in the loop and in the middle of the engines, was the Singularity Core itself.

Me: So that is the Singularity Core. It looks like the engine has a black hole in it.

Isaac: We must destroy three pairs of small generators on two sides. In order to shut off the Engine fire!

Me: Right. We'll have to shut them all down simultaneously. Lets do it. Luan and Ronnie Anne, you get on one. Me and Naruto will be on the second one and Luna, you and Lana will be on the third one. When I yell now, fire.

Lana: You got it.

Isaac: While me and Lincoln will move the unneeded engines as cover for you guys from the fire.

Me: Roger that.

As Isaac uses his Kinetic module on the empty engine on the left for Luan and Ronnie Anne, and Lincoln moves the other empty engine for me, Naruto, Lana, and Luna.

Me: Okay ready everyone?

Lincoln: We're ready.

Lana: All set here.

Ronnie Anne: Roger.

Me: On my count! 3..2..1..Now!

We fired energy blasts at all three engines at the same time and destroyed them in an instant.

After all six power generators were destroyed, the engines stopped bursting fire and the Singularity Core is now their's for the taking.

Me: Lets get the core!

As Isaac went there and grabbed the Singularity Core. But suddenly, the engines rocked, as a explosion came here.

Valor's Computer: Engine power failure.

Me: Lets go.

The video feed from Kendra appeared.

Kendra: Is that it? You got it? Oh my god, you got it! That's the piece we need. Get to the Crew deck!

Me: Roger that!

But the elevator is now busted, but they don't have time to fix it. We went into another door frame and into the hallway downstairs. and we made it to the Lower Engine Room. But through the glass, is Zach Hammond, armed with his Pulse Rifle. Who was limping as he ran towards the glass where we are.

Me: Zach!

We went over and J.D. got him.

Me: Zach get on my back and hold on. This is gonna be rough and whatever you do don't let go.

Zach: Okay.

Zach got on my back and we ran fast.

We then heard a roaring noise that was very scary as we see a colossal sized Necromorph coming towards us and it was a nightmare incarnate in appearance.

Me: That one is a monstrosity!

Lincoln: This is a whole new Necromorph!

Girl Jordan: It is Nightmarish in appearance!

Me: This is the ugliest one we've ever encountered!

The team then saw it rip someone apart with incredible savagery and it was tormenting them.

Me: That thing is ruthless! The Tormentor!

The now named Tormentor now looks at the Team, and charges at them with ferocious might.

Me: Hit it hard!

We fired our weapons and powers at the monstrosity that is the Tormentor with all our might and firepower.

We defeated the Tormentor.

After the Tormentor is finally dead we got a call from Kendra.

Kendra: What the hell happened back there?!

Me: We got stopped by a massive Necromorph we call The Tormentor.

Kendra: I see, and what about Hammond?

Me: He's right here on my back. But he's hurt and I'm not leaving him behind.

Kendra: Good, head to the Crew Deck!

Valor's Computer: Warning. Catastrophic failure of fuel containment. Evacuate the vessel immediately.

Isaac: FUCK! The USM Valor's about to blow up! We need to get off the Valor now!

Me: Lets go! Come on!

After a long hour of escaping the USM Valor and we got back to the Ishimura's Zero-G Ore Storage room. We made it to the door that leads to inside the Ishimura. The USM Valor exploded, but at least everyone made it out alive.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so strong that it shook the colony and the planet.

Me: That was a close one.

Lincoln: Now we must head to the Crew Deck of the USG Ishimura to find this shuttle and find Kyne.

Me: You got it! Lets go.

We left for the Tram Station and boarding the Tram and we went to our next destination: The Crew Deck.

Me: Lets go.

After arriving to the Crew Deck's Tram Station, we exits the Tram.

Me: Here we are.

The video feed from Kendra appeared again.

Kendra: Everyone, I've located the shuttle Hammond found. SHIT! No good. That shuttle's brain dead. Someone removed the navigation cards, God knows why. There's three of them scattered around the deck. I'm downloading their locations. I can't access the doors from here so you all need a Crew Key. If you guys can find those parts, I think we can get that shuttle operational again!

Me: Someone doesn't want us to leave.

Lincoln: Could it be Dr. Mercer?

Me: I have a strong feeling it just might be. Hunter, what do you think?

Hunter: I think it is Dr. Mercer. Everyone! We must remain vigilant, Mercer could be anywhere on the Crew Deck.

Me: Okay and if we see him, kill him on sight.

Luna: Wait dudes! Who is this Mercer guy?

Me: Oh that's right. You guys don't know about him. But you guys will hate him. He's like this colonies version of Orochimaru.

Luna: That Mercer guy is evil!

Lynn: When I see this ugly Unitologist guy, I'll blow his face into pieces!

Girl Jordan: And I thought Orochimaru was the insane one.

Aylene: That Mercer guy is even worse than anyone we faced.

Inkling: I'll blast him with my Ink guns!

Nico: We all will blast him.

Me: We'll all get our chance guys. Lets get moving.

We continued on and we entered what look like a lobby room. It was full of dead bodies with white sacks on their heads with bloodstains on them and bullet holes on each head. And strange writings on the walls made of blood.

Laney: These are jihadist execution style killings.

Me: Mercer sure has been busy here.

Isaac: You all killed Orochimaru right?

Me: Yes we did. Several times as a matter of fact. It was in several timelines.

Isaac: Yeah, I'm glad that bastard was dead. If he were alive today, I'd blow his head into pieces with this Plasma Cutter-wait. (Hears creepy music) Do any of you hear Twinkle Little Star? (Twinkle Twinkle Little Star music was playing, but it is much more eerie, twisted, and creepy)

Me: I hear it and it's creepy. You think it's Mercer?

The sound was coming from the speakers in this room.

Me: That version of that song give me the creeps.

Zach: Me too.

Lincoln: When there were Necromorphs, there is also the creepy version of Twinkle Twinkle Little Star. Makes sense, since this ship where we are on is crawling with Necromorphs.

Me: No kidding. Hunter, can you sense Mercer anywhere?

Hunter: I don't know where he is? Sorry. He is very elusive.

Me: Just like Orochimaru. He's Orochimaru reincarnated. The worst thing Orochimaru did was that he killed our village leader, the 3rd Hokage, Hiruzen Sarutobi in cold blood.

Isaac: That's horrible!

Tucker: It sure was. I can't believe this Orochimaru is that evil!

Me: He makes even the devil himself cringe.

We then sees an elevator that lead them up to the second floor of the Lobby.

Me: Here we go. Another Text Log here!

We saw it after we got out.

Me: Lets see.

As we read the Text Log.

UNITED WE… ASCEND?

Is Unitology a new hope, or just another scam?

By Carrie Van Ottken

If you've been living on Mars for the past 200 years, you might have missed the fastest-growing religious movement in history.

Unitology boasts a following of millions, counts powerful CEOs and officials in its ranks, claims $78 billion of stock in multiglobal companies, and owns two of Earth's largest financial institutions (GPSG Financial and Unitas Energy Investments). From its beginnings as a cult of personality, Unitology has become a respected, established religion. Most people know the basics. Two hundred years ago, Michael Altman, a professor of Anthropology, blew the whistle on what he claimed to be the biggest cover-up ever instituted by Earth Government-the discovery of an artifact or "Marker" which proved beyond any doubt there is alien life in the Universe. The Government labelled Altman a kook, but his claims struck a chord with some, and his mysterious death soon afterwards fueled that interest.

Unitologists believe the marker contained a code, the key to eternal life, through rebirth and ascension to heaven (The kicker is you have to die first). They say the government is hiding the marker somewhere, keeping its secrets for themselves. Across all of human space, Unitologists praise Altman's martyrdom and await the day God comes to take them to their new life beyond death. It all sounds pretty harmless. But, like any cult, there's a dark side.

Unitologists are "ranked" in the Church. Nobody ever talks about it, but most of its critics believe there are at least three ranks above the average believer, or "initiate". With each new rank, more of the Church's inner workings and research are revealed to a follower. And these ranks are achieved by one simple criteria-giving money and power to the Church.

Think taking all your money's bad? The Church also requires their members to donate their bodies after death. Why? What do they do with them? Nobody will say, and attempts to infiltrate the inner circle have failed. With their emphasis on "transformation and rebirth", maybe we wouldn't like the answer even if they told us.

One rumor that also refuses to die says the Church is funding a secret shipbuilding program. Some claim to have seen the fleet. No documentary evidence has ever been supplied, but the claimants all say these "mausoleum ships", despite their huge size (Cont'd on p94)

Me: That is a sick cult.

Lynn: Holy crud! They're stinkin rich?!

Me: That's a lot of money.

Luna: Why is this Unitology important to them?

Me: Because it thinks it's the answer to eternal life. But in actuality it's destroying people's lives in a senseless and gruesome way.

We see a door that leads to "Residential Hall". We opened it and we see two people. Running away from several Slashers.

Me: Blast them!

And we blasted the Slashers limbs off, killing them. And thus saving the two people.

Woman: You saved our lives? Thank you!

Man: I can't thank you enough for saving our asses.

Me: Think nothing of it.

Lincoln: What's your names?

Man: I'm Jacob Temple, and this is my girlfriend Elizabeth Cross.

Me: Pleasure to meet you both. We're Team Loud Phoenix Storm.

We introduced themselves to Jacob and Elizabeth.

Jacob: I see. Hey, did any of you have seen Audio Logs I left in previous decks?

Me: Yeah. We found those.

Jacob: I see, but… do any of you know how to get off this god forsaken ship?

Me: We sure do. We're going to beam you to our ship for safety. Lisa, two for teleportation to our ship.

Lisa: Affirmative J.D.

The transporter takes Jacob Temple and Elizabeth Cross to the U.S.S. Valor ship.

They were grateful.

Lincoln: Now lets continue guys!

We pressed on, but we also saw more Necrotic Corruption on the walls, ceiling, and floor, as we turned left.

Me: More of that Necrotic Corruption crud.

We continued to move on and we entered the room on the right through the door that said "Mess Hall".

Me: The Mess Hall. That's the kitchen and the cafeteria.

Lynn: As in food?

Me: That's what I'm saying.

We enter the Mess Hall and we saw more Necrotic corruption on the floor.

Me: This is disgusting.

Ronnie Anne: I know.

Me: No respect for hungry people.

Sasuke: I see hands and feet and the head Necromorphs again on the lower Mess Halls!

Sasuke saw the hands, feet, and head Necromorphs down there.

Me: Lets destroy them!

We descend down to the lower Mess Hall and we saw more Necrotic Corruption on the walls, two Dividers, the same hands, feet, and head Necromorphs, and three Exploders, including a Necromorph Guardian on the necrotic corruption wall.

We blew them all to pieces and killed them all.

After that, We made it to where the Crew key is. But we see another Necromorph Guardian. Only it's a premature one. But he was in extreme agony. As Lynn shot her weapon at the head. Killing him to end his suffering.

Me: Lets get moving!

We move back to the upper Mess Hall from the elevator and we got another video feed from Dr. Kyne.

Dr. Kyne: Everyone! I really… must speak with you all! I'm very close to your position, and… and I know you all want to hear what I have to say. I can explain all this! I know what happened! When you all have the Nav cards, I'll let you all into the Security Station. We must talk. Hurry!

Me: Okay!

After leaving the mess hall and entering the Residential Lobby, we entered another hallway which was almost covered in Necrotic corruption. But their is another mature Necromorph Guardian and a Enhanced Slasher there as well.

We blasted that one as well.

We then went inside the Elevator that said "Sleep Block A".

Me: This way leads to the sleeping quarters.

After the elevator arrives to Sleep Block A, We went there and searched for anything like the Nav cards.

Kendra from the Audio: The life support system in Sleep Block B has been shut down. You all have to find an override nearby to get to the door.

Me: Roger that.

We see the door that leads to Sleep Block A and after opening it, we went inside. But then another Drag Tentacle appeared again and I blasted it and destroyed it. We continued to move through the hallway and we see the door that said "Storage Room".

Me: Storage room.

We went in and we saw a small room with controls that said "Override Door Lock" and there was a lever that said "Pull Down".

I pulled the lever. After that, the Control screen changed to the color blue.

Me: Online.

We left the Storage Room, but then we encountered another Enhanced Slasher and blasted it apart.

After that, we went back to the Sleep Block A Commons room and went to another door that said "Sleep Block B". The door opens, revealing a small hallway with another door with more of those same words we saw earlier..

Me: More of that strange writing.

We continue to the door and we heard the female computer voice of the USG Ishimura.

Computer: Life support and climate system malfunction. Hazardous condition. Please contact repair specialist.

Me: Uh oh!

We made it to the door that said "Sleep Block B Commons" and the door opened nd vacuum appears and also freezing temperatures as well.

Computer: Entering vacuum.

Me: Hold your breaths guys.

We searched the entire room for the Nav cards and we also slaying many Necromorphs there as well and we managed to find the Nav Cards and head back to Sleep Block A Commons room.

Computer: Exiting vacuum.

Me: That did it.

Luna: Man, it's freezing in there!

Me: It's The endless void of space and it's really cold.

We went back to the hallway and back to the elevator and we went back to the Residential Hall. We encountered two Exploders, including hands, feet, and head Necromorphs as well and we blasted them.

After that we went back to the Main Commons room and we saw another door there that lead to the "Executive Security Hall".

Me: Executive Security hall?

After entering it, there to the left, is another door that said "Executive Security Room". But as we tried to open it it was locked. We heard the audio voice from Dr. Kyne.

Dr. Kyne: Amelia? No… No, no, NO, NO! The shuttle is mine. I control access to the shuttle! If it could make the journey… I could fix everything… I'm sorry, Mr. Clarke, Mr. Knudson, Mr. Michaelson, Mr. Loud, and everyone. Unless you all can prove to me you can get it space worthy again, I'm afraid I can't let you through. I need to know you all on my side!

Lincoln: Fine, well prove ourselves to you Kyne. Come on guys, lets head to Sleep Block C!

Me: You don't have to tell me twice.

We left the Executive Security Hall, and went back to the Commons. We descend in the elevator, and went to another door that said "To Sleep Block C", and after opening it and went in, but not before decimating an Enhanced Slasher on they're way and we saw two doors and one said "To Sleep Block C commons", and another door that said "Zero-G Basketball Court".

Me: A Zero-Gravity Basketball Court?

Lynn: Whoa! That would be so cool!

Lincoln: I guess we're heading to the Zero-Gravity Basketball Court first?

Me: Looks like it.

We enter the door of the Zero-G Basketball Court and we were in the locker room and found another door of the same name. We entered it and found a Text Log there.

Me: Lets see what this log says.

As they read it.

Z-BALL RULES

Step on the lighted platform and activate it to start the game!

Jump to as many scoring platforms as possible to increase your score multiplier. Then use your Kinesis Module to grab the ball and shoot it into the active basket before the shot timer runs out. Beating each level opens a locker with a reward inside.

Me: It's actually the rules of the game. Some log.

Lynn: Well, at least it's useful. Since it's my first time doing this in the Zero-Gravity room.

Me: True Lynn.

As they enter the Basketball Court.

Computer: Entering Zero-Gravity.

Me: Here we go.

The lights turned on and we saw a massive basketball court.

Me: Wow! What a basketball court!

Zach: I remember this court. It's amazing.

And on the second platform, is another Nav Cards.

Me.: Look! The Nav Cards!

I picked them up and we saw three Enhanced Lurkers there was well.

We blasted them.

Me: When we destroy this planet, all the Necromorphs will die.

Lynn: Can we play the basketball first?

Me: We'll have plenty of time for that later. Right now we need to save the universe and the survivors here.

Lynn: Fine.

We left the Zero-G Basketball Court and entered the Sleep Block C Commons room and we see a holographic video image of Dr. Challus Mercer.

The Holographic Mercer loop video log: How can you turning away from the Church in this vital hour. Do not abandon your faith! What's happening on the colony is not a tragedy. It is God's work! The truth is even more fantastic! On the planet below us, we have found a Marker! Can't you see, god's plan is unfolding, and we are its inheritors! We will ascend, as we always knew we would! UNITOLOGY IS TRUTH! And your death is the first phase of this transformation. Do not be deterred by the physical methods of transformation. Soon, you will be beyond and physical concerns! You must have faith in the process. Where are you going? You fools! This is what we've been searching for all these years! This is what we have been waiting for. Don't listen to them! Come back! COME BACK! (After that, the video image repeats Mercer's speech again)

Me: Mercer's cult is one of death and sacrifice for their own personal gain.

Lincoln: Well, lets head to Sleep Block C and then head back to Kyne.

We entered the Sleep Block C Room and we saw the door that said "Storage Room", which required a Power Node and Lincoln used his lightning powers to open it. And we grabbed loot there and after that, had to move crates out of their way.

We moved the crates.

We moved on to the hallway and then we heard a woman cackling insanely.

Me: We got an insane woman here.

We entered a room and we saw several dead bodies on the floor and there was one by one of the crates walls and there was insane woman. Leaning to the wall, laughing insanely as she had a pistol on her left hand. As she pointed it at her head.

Me: NO!

I ran fast and grabbed the gun out of her hand!

She looks at me with an insane grin on her face and she was laughing insanely.

Me: Miss you have to calm down and let us help you.

Lincoln and Hunter restrained her.

In the room, just like the main room, it too had strange symbols and writings on here as well. But not just the walls, but also on the floor as well.

Me: These symbols again. Mercer has been here.

But we also see another Nav Card there as well which was the last Nav Card we need.

Me: The last Nav Card. Girl Jordan, can you cure that woman of her insanity?

Girl Jordan: That's Lily's job, not mine and she's still on the ship.

Me: We'll have to beam her to the ship to sick bay and keep her under restraint.

We beamed the woman to the ship. Suddenly, the audio feed appeared again. But it's not Kyne or Kendra's. But this time, it was Dr. Challus Mercer.

Dr. Challus Mercer: Ah, I see that you got all the Nav Cards James Dean Knudson, and the heretical Team Loud Phoenix Storm.

Me: The only heretic is you Mercer. You're gonna pay for everything you've done to this colony.

Mercer: I have done nothing to the colony, it was the work of God. And this time there will be no escape for all you, my friends. You all have been most resourceful up until now, but my greatest creation has been set loose, alongside many others. This greatest creation used to be the colonist Brant Harris, the one who died by my hands and has been reborn in the fierce heat of life itself! Now it's time to play your part…

Me: Shut up you monster! You killed so many innocent people here and drove them over the edge with insanity! I will kill you for your crimes and send your motherfucking Ass off to hell! You better be ready Mercer. I'm coming for you!

After I said that, three Regenerators appeared and they start to attack us.

We fired energy blasts and obliterated them. We then left the Sleep Block C room and enter the Sleep Block C Commons. But the door to the Main Commons is locked.

Kendra from the audio: Everyone! that son of a bitch just overrode the door lock! I'll try to run a bypass. Hold on!

Me: Okay Kendra. Hurry!

As we were waiting, several Necromorphs enter the room from the vents. Such as Enhanced Slashers, Enhanced Lurkers, and another Divider.

Me: here they come!

Lincoln: Blast them!

We blasted the Necromorphs apart and he door opens.

Kendra from the audio: Okay, I bypassed the lock!

Me: Lets go!

After arriving to the Common room, we entered the Elevator to floor 2 and went back to the Executive Security Hall and the same door like before, only this time it was now opened for for us. We enter the door and we saw a man through a glass wall, which happens to be Dr. Terrance Kyne himself.

Me: Kyne!

Dr. Kyne: Amelia, I knew you would know what to do, I knew, I love you so…

But then, he looks at us.

Dr. Kyne: You all made it! Thank god, you all made it… I've been following your progress, Mr. Knudson, leader of Team Loud Phoenix Storm.

Me: Nice to know we've made an impression.

Dr. Kyne: Yes. I know you all want to repair the Executive shuttle and leave this place, but… Escape is impossible at this point. The… the shuttle's shockpoint drive is destroyed.

Me: Nothing is too impossible for us to fix.

Lana: Thanks to me.

Dr. Kyne: No no no no no no no, don't lose hope! Don't lose hope… At first I lost hope, I tried to scuttle the ship, sabotage systems… But Amelia… she changed things. The Church! They think the Marker is divine.

Me: And we're gonna destroy it and the Necromorphs.

Dr. Kyne: Yes, because the Church knew nothing of what they know what has happened here! What's been released! Look, look, look… Look at this:

As he shows the Team a Video Log from the colony.

(The video shows what appears to be a landing pad at the Aegis VII colony. Several colonists are visible on the pad. The camera begins shaking violently as a roaring noise is heard. The colonists begin to flee as a towering creature bursts from the ground, the Hive Mind. Amongst a cacophony of screaming, roaring, and crashing, the camera feed cuts out.)

Me: You are right Kyne. They framed you for murder!

Dr. Kyne: No, this is from the colony Mr. Knudson! In fact, I did kill the captain. But it was the accident and as for this creature. That is what we found on the core of the planet… Mercer calls it the Hive Mind.

Me: So Mercer DID all this to have the Necromorphs destroy everything!

Dr. Kyne: No! Dr. Mercer was a pawn to all of this.

Me: A pawn? Then who is the puppetmaster?

Dr. Kyne: It was the Marker, it is the puppetmaster of all this. The Hive Mind. It's the source… Controlling the Necromorphs telepathically! And it's also the Marker's second in command. We were so STUPID! But Amelia, she knew! She knew it could be stopped… By returning the Marker to the Planet!

Me: Lets work together then.

Dr. Kyne then frowns and with a sad and guilty face.

Dr. Kyne: Please, I'm sorry Amelia… I bear responsibility for this tragedy. Now I must take the responsibility for ending it and atone for my sins.

As he looks at us.

Dr. Kyne: But you all can help me. If you all can repair the shuttle and bring the Marker back on board… We can end this. Forever.

Me: Right!

Then, the door to our right opens and we enter it. Revealing to be a elevator.

We took the elevator.

After the elevator opens it revealed a small hallway with 7 portraits of captains of the USG Ishimura.

Me: Wow. Are these the previous captains of the whole colony?

Isaac: You mean the ship?

Me: Yeah.

Isaac: Yes, it is the previous captains of the USG Ishimura, which was the first Planet Cracker class Mining ship built since the beginning of the Resource wars.

Me: This is amazing.

Lincoln: It sure is.

Me: Isaac when did the resource wars began?

Isaac: The Resource wars began in 2484 AD.

Me: Wow! That's 464 years from our time.

Isaac: Yes. But lets not waste time. We need to find the shuttle and fix it!

Me: Right!

We opened the door, revealing 4 Pregnants inside the Executive Block's common room.

We blasted the Necromorph Pregnants to pieces.

After that, we searched the rooms there in the Executive Sleep Block room. In tne of the rooms Luan and Luna went in they found another Audio Log there.

Me: These sleeping quarters are very extravagant. Another audio log.

Luan: Lets see what this one says.

As Luan press it.

Captain Benjamin Matthius: Captain's log, personal.

I want to set the record straight. By the time this log is heard, my actions will have been vindicated. I'm a Unitologist. By now, it's probably no secret that we shouldn't be in this star system. Just another illegal mining job for the company… That is until the colony found the Marker. That was when the Church took an interest, and chose me to lead this pilgrimage. They also ensured many of the mission crew were devout. My primary instruction was to get the Marker up from the colony and on board the ship.

Dr. Kyne, the CSO, is an expert on the original Marker and was tasked with deciphering this new one. He says he's making good progress. My decision to quarantine the colony is sound. They've got some kind of epidemic down there, and I can't allow it to infect the ship. Not with such precious cargo. Not when we are so close. Planet Crack takes place tomorrow. We'll continue to decipher the Marker, and when we return home, we'll pass all our findings, and the Marker, to the Church. The government isn't going to cover this one up.

Altman be praised.

Me: He didn't realize the danger he had unleashed.

Lincoln: Yep, and his delusions of divinity from the Marker got him killed in the first place.

Naruto: What an insane nut.

We searched the rooms and Ronnie Anne found another Text log here.

Ronnie Anne: What does this text say?

We read it.

Me: Jeez.

Isaac: One of the Unitologist's name on the list is Mercer.

Me: That monster! I will kill him for everything he's done.

We exit the room and we saw a large door that said "Executive Shuttle Hall" and we enter it and went through the hallway. We saw the door that said "Executive Shuttle Bay".

We went to the Executive Shuttle Bay and we saw the shuttle. Yet, It needs repairs in order to fix the shuttle and also the singularity core as well.

Me: Oh man. Lets fix it up.

We started to fix the Shuttle, Lincoln sees another Nav Card inside the shuttle.

Lincoln: Another Nav Card.

As Lincoln got it, and we finally fixed the Shuttle, we received a call from Dr. Kyne.

Dr. Kyne: Excellent! Excellent! Wait there for me, I'm on my way.

Me: Okay.

We were waiting and Isaac went inside the Control room, to test fire the Shuttle's engines. And it works. As the engines blast fire which means, The Shuttle is now working. But after that, they see several Twitchers came from the vents, ceiling vents, and floor vents. As they started to attack us.

We blasted them and vaporized them into dust.

But several more Twitchers came, including a hundred Regenerators and lastly, a new Necromorph also appears, it is a Slasher looking Necromorph, but it's larger and stronger than the Regenerators and the Twitchers. And the team received another audio call from Dr. Challus Mercer.

Dr. Challus Mercer: Ah, there he is. My finest and greatest creation! The one that used to be Brant Harris, and now he's reborn into our inheritors! The Hunter!

Me: Mercer, you are a fucking monster!

Lynn: I will kill that menace to nature!

As the Necromorphs charge at us with fury and ferocity.

We blasted them into dust.

But more kept coming, and the Hunter used it's massive scythe like blades to attack J.D.

I blocked them with my sword and ripped off it's limb and slashed it in half with its own blade. The Hunter Necromorph regenerates, and getting up. And it's blades were now larger and longer as it continues to attack. I fired a massive blast of energy and completely obliterated it. After all the Regenerators, and their leader, the Hunter is annihilated we were victorious. And as Isaac went back inside the control room. Kyne appears from the Executive Shuttle hall.

Dr. Kyne: It works? Yes, this will work! There's still time to make things right! The shuttle needs to be released before launch… The Control Platform, there! I need you all to guide the undocking procedure while I start the shuttle's engines. This will make us whole again. Hurry! I'll take the shuttle up to Flight Deck where the Marker is been held!

Me: Right!

They got on board the shuttle and went to the flight deck.

While the rest of us stayed there as the shuttle was released and leaves. These who stay behind are Nico Hunter, Lincoln, Ronnie Anne, Isaac Clarke, Lana, Sasuke, and Luna. While the rest (Including me) went with Dr. Kyne.

Hunter: Good luck J.D.! We'll meet you all there!

Me: Roger that!

They continued on.

As for Me, Lincoln, Ronnie Anne, Isaac, Lana, Sasuke, and Luna. We head back to the Executive Sleep Block room. Until we got a visual log of Dr. Challus Mercer himself. Who not only was angry, but also shock as well.

Dr. Challus Mercer: Your time has come. No need to be frightened. No reason to fight. Many have gone before us, and now it's time for us to take the voyage together, to transcend death… and let the future take its course. Join me, as I gaze upon the face of God!

(Dr. Mercer spreads out his arms and falls onto his knees. An Infector moves into view and briefly hovers in front of Mercer. Suddenly, the Infector unsheathes its probiscus and stabs it into Dr. Mercer's skull. The video cuts out.)

Me: Looks like one of the Necromorph's saved us the trouble.

Hunter: Wait, I thought you were on the shuttle with the others, including Kyne?

Me: You told us to meet you at the flight deck.

Hunter: Wait, of course, we've speaking through the comm links! my bad.

Me: No worries. We'll be right over.

Hunter: Alright, Mercer may be dead. But why would he allowed himself to be infected for?

Me: No idea. But whatever it is Hunter it can't be good.

Hunter: Ja, i can tell. Since we saw is a Infector, I think Mercer wants to be one with the Necromorphs, Me, Lincoln, Ronnie Anne, Isaac, Lana, Sasuke, and Luna must stop the infection from happening!

Me: Good luck guys. We'll meet you at the flight deck.

Hunter: Okay, Hunter out!

After talking with me through the comm link, the seven of us made it to the Lobby room. But we were too late, Mercer already became a Enhanced Slasher, only this time. He had glowing red eyes instead of sickly yellow eyes. As the Mercer Necromorph looks at the seven of the team with murderous intent.

Me: Ugly!

They fired a massive blast of fire and energy and completely obliterated it in an instant.

Nico: Dr. Mercer you have failed this whole universe.

Hunter: J.D.! Did you actually see the Mercer Necromorph while in the shuttle?! Let me guess, you saw it from the vid log right?

Me: More than that Hunter. We found it and destroyed it.

Hunter: Make up your mind, are you actually with us, or the shuttle?

Me: We're heading to the Flight Dock now.

Hunter: Okay, sorry, just confused. Me, Lincoln, Ronnie Anne, Isaac, Lana, Sasuke, and Luna are heading to the Tram right now. Hunter out!

After that, the seven of us left for the Tram. Our next destination; Back to the Flight Deck.

The seven of the team arrived at the Flight Deck.

After that, the seven of the team made it too the Tram Station of the Flight deck. And we got another visual call from you and Dr. Kyne.

Dr. Kyne: Guys, Me, J.D., and the others are approaching the shuttle hangar. You seven must… You seven must find your way to the Cargo Bay! The Marker… it's being stored in there. There's a cargo loading lift there you all can use to deliver the Marker up to the hangar. Please… you all must help me with this! It's the only way…

Me: Okay Dr. Kyne. Lets go!

Lincoln: Alright guys, we must find the Marker! While we wait for J.D., Kyne, and the others!

Hunter: Jawohl Lincoln!

Ronnie Anne: Sure Lame-o.

Lincoln: Okay Ronnie Anne, it's getting old.

Ronnie Anne: Sorry, habits happened.

As the seven of the team arrives to the Hallway, as the seven finally saw the door that leads to the Cargo Room. The seven open the door, revealing a large room, full of crates. And in there is an artifact of unknown origins; the Marker.

Hunter: Woah! So that's the Marker. What do you think Lincoln?

Lincoln: It's huge.

Me: So this is the Marker and it's responsible for bringing this terrible nightmare that was unleashed upon this whole colony.

Ronnie Anne: It sure doesn't look like anything I would want on Earth.

Hunter: I see you saw this from the visual image J.D.

Me: Yes we did. And we have to destroy this thing. It's a grave danger to every living thing in the entire universe.

Hunter: I know J.D.! But we need to load it into the shuttle, and bring it back to Aegis VII. You, and the others must defend Kyne and the shuttle, while the seven of us bring the Marker to the Flight dock!

Me: Right!

As Hunter, Lincoln, Ronnie Anne, Isaac, Lana, Sasuke, and Luna defended themselves from the Necromorphs, while also activating the button, which would grab the crate containing the Marker.

Computer: Delivering cargo shipment 782, Kinesis module required for further cargo transport.

Me: Lets go!

As the seven of the team fought against more Necromorphs while taking the Marker using the Kinetic Module, they also encountered more tentacles. But they are not dragging any team members this time, they just slammed at where they are. Attempting to crush the seven. But like the Drag Tentacles, they too have yellow spots and as the seven shoot at the yellow spots, destroying the tentacles.

They kept blasting all kinds of Necromorphs all over the place.

While fighting, the seven manage to deliver the cargo shipment to the elevator, as it ascends to the top.

Computer: Delivering cargo shipment 782 to the Hangar Bay.

They continued fighting the Necromorphs at a relentless and powerful level.

As me and the others continue to fight, they see the Marker shipment had arrived from the elevator.

Dr. Kyne: The cargo lift has arrived! The Marker is in the hangar bay. Now you all can load it into the shuttle. Hurry!

Me: Right!

As me and the others continue to defend Kyne and the shuttle from another relentless Necromorph horde. While Hunter and the other six, left the Cargo room, and are heading to the Hangar Bay. the team received a call from Kendra Daniels.

Kendra: I restored power to the elevator. Take it up to the Hangar Bay and get that Marker on the shuttle. I'm heading up to the flight deck now. Oh god… I'm just going to run for it… wish me luck.

Me: Okay Kendra.

As the seven went into the same room where two of Isaac's friends were killed. But they now have been delayed. Thanks to the quarantine alarms. And several Necromorphs appeared from the vents. Back to J.D. and the others, who happened to see another Tormentor coming for them.

They blasted it all at once as it fell down dead.

Back to the seven, they managed to decimate the Necromorphs, as the quarantine has been lifted. And they continue to go through the Hangar Bay, and the seven made it. The seven see me and the others there.

Hunter: Hallo J.D.!

Me: Guys!

As the team reunite. They see the Shuttle approaching to the Hangar Bay.

Dr. Kyne: Excellent! I'm going to dock the shuttle. Got to be careful now… careful…

They were being careful.

As the Shuttle gets closer.

Dr. Kyne: I'm bringing the shuttle down now. The automated loading controls aren't responding. You all have to shut down gravity in the hangar bay and then manually bring the Marker directly beneath the shuttle.

Me: Right!

As Isaac, Lana, and Lynn went upstairs of the Control Room, and outside the control room. Its the controls for Gravity, as Isaac presses it.

Computer: Entering Zero-Gravity.

Me: Lets go!

As we descend down to the lower floor of the Hangar Bay by the

Zero-G jumping we had to bring the Marker underneath of the shuttle. We see hundreds more Necromorphs there.

We fired massive energy blasts and vaporized all of them in an instant.

As Isaac used his Kinetic module to grab the crate where the Marker is inside. Towards the shuttle, while we defended him from the Necromorph incursions.

We were firing energy and element blasts and burning and destroying all the Necromorphs.

After that, Isaac managed to bring the Marker beneath the shuttle.

Dr. Kyne: Okay, it's in position. Eh, still having trouble with these damn loading controls. Everyone, restore gravity to the room; I should be able to load the Marker then.

Me: Copy that.

As we head back up through the Zero-G jumps and Isaac pressed the Gravity controls again. Restoring Gravity to the Hangar Bay.

Computer: Exiting Zero-Gravity. Restoring Gravity.

Me: Lets go!

As the visual log of Dr. Kyne appears.

Dr, Kyne: It's on board! Please, come and join me. Together we can stop this Hive Mind! We can end this nightmare! At last!

As everyone made it to the dock, they see Dr. Kyne, waving at us to come.

Dr. Kyne: Over here! Hurry, there's no time to waste, we must do it…

I healed him and he was put on the ship.

But suddenly, the shuttle left the Hangar Bay. To everyone's confusion of why the shuttle left us, but they got another Video feed from Kendra. Who was smiling.

Kendra: Sorry, everyone, I couldn't let him go though with it. I suppose I should thank him for finding the Marker.

Me: Kendra? But why?

Kendra: We even managed without help from the USM Valor… Thank you all for helping me find it by the way. My department's been looking for this place for a long time. See, what Kyne didn't know was, it was the government's mess to begin with. This whole planet is one big experiment.

Me: I knew something wasn't right the very minute we did all those things you told us to do.

Laney: I know!

Kendra: Yes, at least you noticed it. As for this Marker? This "divine relic"? Made by man. They reverse-engineered it a couple of hundred years ago from the REAL Marker, a true alien artifact recovered on Earth. They dug it up, studied it, and made it their own. Then they brought it to Aegis VII, and activated it. And you've seen the result. The stuff of nightmares. They sealed the system, and no one would have been the wiser.

Me: This experiment killed everyone here! And you are the one that did all this!

Kendra: I said it was made by the government. J.D. But then C.E.C. blunders in and starts tearing the planet apart. The experiment was still alive. Kyne was right about the Hive Mind. The Marker would contain it… but that doesn't matter now, does it? I have the Marker, and this entire system can go to hell. For what it's worth, you all did a great job, everyone. See you guys around… Or maybe not. (And then, the video image ended)

Me: Get back here you bitch!

Zach: Why Kendra?! Why?

But then, they got another visual image. This time it was Nicole Brennan.

Nicole Brennan: Isaac, it's Nicole! I need you and your friends to help me; Help us! Now! I'm… I'm in the flight control room. Please Isaac, hurry! Please! I love you.

Me: Isaac, lets hurry!

As we went to where Gravity controls were, and enters the door. Only to see another Necromorph Guardian on the wall.

They blast it as it dies.

After that, we went into another room. The control room. And we finally saw Nicole there.

Nicole Brennan: Isaac! Is that really you? I never thought we'd be together again! God, I'm - I'm so sorry! I'm so sorry for what i did.

Isaac: It's alright Nicole, what's two years ago is past.

Nicole Brennan: Thanks Isaac… But you need to get it back now, Isaac. You can pilot the shuttle remotely from Here!

Isaac: Right! Everyone, when i bring this shuttle back remotely. We are gonna beat the crud out of Kendra for her betrayal!

Me: Lets get that evil bitch!

As Isaac presses it at the Override shuttle controls. Finally bringing the shuttle back.

Kendra: Isaac. Everyone, what the hell are you doing?! You're making a big mistake. This is not over!

Computer: Escape pod away, crew shuttle ISH-09, shuttle has ejected escape pod.

Lincoln: So Kendra turned coward and left the shuttle. (As the shuttle returns to the Hangar Bay)

Me: Yep. We're gonna show Kendra what happens when you betray us.

Nicole Brennan: It doesn't matter. She can't escape her fate as a betrayer.

Isaac: Well, now we got the shuttle back. We need to return the Marker back to the planet guys!

Me: Right!

As everyone exits the Control room and went to the Shuttle. And Nicole Brennan came with the team.

As Isaac and Nicole became pilots for the shuttle, while the rest of the team sits in the back.

Nicole Brennan: You're doing the right thing, Isaac, and everyone.

As the shuttle left the USG Ishimura. Their last destination; the Aegis VII colony.

They went down to the planet.

Me: Team Loud Phoenix Storm, it's time for action and pain!

Varie: We're on our way down to the planet hon.

After landing, Nicole Brennan went out first.

Nicole Brennan: Everyone! Use one of the loaders to get the Marker off the shuttle!

Me: Right!

As everyone got out, Zach Hammond looks at me with guilt on his face.

Zach: Why would Kendra betray us like that?! Why did she accuse me of hiding the info about the Marker when she already knew?

Me: She's a pure evil bitch.

Lincoln: We'll kill her for this!

Lynn: When I see her I will blow that monster women's face to pieces!

As everyone was getting the Marker off the shuttle, we see a man there. He looked like he was in the late 30s or early 40s.

Me: Who are you?

Man: (There's a dark look on this man's face) I'm Abraham Neumann, Planetside Security of the Aegis VII colony. Are you all here to leave this god forsaken thing back here?

Me: We sure are. And we're also going to destroy this entire planet. I'm J.D. Knudson, leader of Team Loud Phoenix Storm.

We introduced themselves to Abraham Neumann.

Abraham "Bram" Neumann: I see, well. You should look at the video log I made. (As he handed it to me)

They did so.

The video log shows them. (Dead Space comic full movie)

Me: The Unitologists are total monsters!

Lincoln: We're sorry that you lost someone important Bram.

Abraham "Bram" Neumann: Yes, it's alright. But the Unitologists, they never listen to reason.

Me: No they never will. And the Unitologists, the Necromorphs and the Marker are a danger to every living thing in the entire universe. We're going to destroy this entire planet and take them with it.

Nicole Brennan: Everyone! The Marker needs to be returned to Pedestal Chamber. Use the loader to bring it there and place it on the pedestal. Replace what was taken.

Me: Right!

We inside the control room. In order to open the gate. They found another Audio Log here.

Me: Lets see what this log says.

As it pressed play.

Sergeant Neumann: This is Sergeant Neumann, P-Sec! We've lost all the shuttles! One of them just took off, then came straight back down and crashed into the bay! Took a couple hundred people and all the remaining shuttles with it! If anyone can hear this, do not land! Do not land!

Me: Sounds like the Necromorphs destroyed this area.

Abraham "Bram" Nuemann: No, it was from one of the crew in one of the shuttles. It came crashed down. I was there, and made that Audio Log. As you all can tell.

Me: Bad news.

Everyone arrived on the planet and introduced themselves.

Isaac Clarke: It's good to meet you guys.

Optimus Prime: Isaac, can you tell us what's going on here?

Isaac told them everything and everyone was horrified!

Lisa: This is a terrifying nightmare!

Maria: It's like the Xenomorphs all over again!

Me: But a thousand times worse.

We walk outside and we see a Divider coming for them.

We blast it.

After that, Isaac plugged the Power Cell inside, thus activating the gate. As it opens.

We went in through the gate.

After that, We went into a big room. As Isaac uses his Kinetic module to pull the Marker through the tram trails, while we fought against hundreds upon hundreds of Necromorphs of all sizes and they also saw three Spider Necromorphs and another Tormentor.

They all blasted the Necromorphs to pieces.

Motormaster: I'm gonna run those fuckers over!

Kate Lloyd: I thought the Thing was bad. (to Thing) No offense, Ben.

Thing: None taken.

Kate reveiled her dark history with The Thing and it was horrible.

After that, we went into a small room after Lincoln used his lightning powers to activate it, and got loot there. And activates another controls here, which activates the gate to the next room for us. As Isaac continues to move the Marker, we encountered over 300 Necromorphs there. Which is larger than any Necromorph horde we first encountered.

Me: I got this!

He form a powerful barrage of lightning energy needles.

Me: LIGHTNING SHOWER RAIN!

He fired the lightning needles and killed all the Necromorphs in one fell swoop

Zach: Nice J.D.!

Me: Thanks Zach

They got a call from Nicole Brennen.

Nicole Brennen: Everyone, you all almost there. You all have to restore power to the bridges to move the Marker through this area. Look for a control station at the end of the maintenance tube.

Me: Roger that Nicole!

As we enters the Maintenance tube.

Computer: Entering Zero-Gravity.

Me: Here we go!

After arriving to the Maintenance Tube's controls, which was the level that needs to be pulled down.

Me pulled the lever.

After that, we left the maintenance tube without been sliced in half by the fans.

Computer: Exiting Zero-Gravity.

But we saw the fourth Tormentor there as well.

We blast it with a powerful energy blast.

After slaying the Tormentor. They see another Premature Guardian on the wall. In pain.

We blasted him and burned him.

Ronnie Anne: At least we ended his suffering.

Lana: Yep.

We continued to move, while defending Isaac while he moves the Marker. At the third gate, it opens. Revealing to be another room, as they arrive to the fourth gate, it opens. Revealing outside, and at the pedestal, but the pedestal is guarded by thousands of Necromorphs, including six Tentacles.

Me: Whoa!

Lincoln: So many of them!

Naruto: That's a huge Necromorph horde out there!

Me: That's the biggest one of them all.

Isaac: And there's the pedestal over there. We need to remove the Necromorphs there and place the Marker there!

Me: Lets do it!

We started blasting them.

After decimating all the Necromorphs, Isaac managed to move the Marker to the pedestal, as the metal arms grabbed the Marker, and place it on the platform. The Marker sends out strange energy.

We see Nicole Brennan appear from behind the Marker.

Nicole Brennan: Thank you Isaac and everyone. I always believed in you all. I knew you would return to me. We are whole again, Isaac. We are whole…

To our surprise, Nicole Brennan disappeared from the blinding flash of light.

Me: Whoa!

But then, the Marker spread out strange energies all across the entire colony.

Aegis VII Colony's Computer: Emergency: Geo-orbital gravity tethers offline. Tectonic load released. Impact imminent. Evacuate this area immediately.

As we see on the skies, that the colossal rock which was hovering the planet, lost it's 12 blue lights hanging it. As it now falls to the planet, as we see fire on the bottom of the huge rock, they got four hours until impact.

Me: Oh man! It's gonna hit us! Lets go!

Lincoln: We need to get to higher ground in order for Lisa to beam us on the ship!

Everyone nods, as they head into the room on the right. As we were almost to the door that said "Return to Landing Pad", the door locks itself. And a quarantine alarms appeared. However, the window blinds where they came from, opens up. And through the glass wall, is Kendra Daniels. Looking at the team.

Me: Kendra!

Kendra: Everyone, everyone… You really didn't think i was going to just walk away. Do you?

Me: Not without you when we throw you in prison for your crimes!

Kendra: I can't do that. The Marker's coming with me. It's a shame… I was starting to like you guys, especially you Isaac. Even if you all are Insane.

Me: I think not.

Kendra: What. You all don't believe me? Take a look at yourselves. Better yet, take a look at that video Log from Nicole. And this time, watch it right at the end…

As Kendra showed us the Video Log of Nicole Brennan.

Nicole Brennan: Isaac, it's me. I wish I could talk to you. I'm sorry… I'm sorry about everything. I wish I could just talk to someone… it's all falling apart here; I can't believe what's happening. It's strange… such a little thing. In the end, it all comes down to just one little thing… I didn't want it to end like this. I really wanted to see you again… just once. I loved you. I've always loved you.

As Nicole injected herself, Isaac sadly covered his face with his hand, not able to watch her final moments.

Me: Kendra I will never forgive you for everything you've done!

Kendra: See! You're all Insane. Just like Kyne, just like the Captain. Nicole has been dead this whole time. Whatever you all were seeing. Was caused by that. All of you were it's pawns. But don't worry. It will be in good hands, Now. Far away from this damned place. Goodbye, everyone.

As Kendra left with the Marker to the gate where we came from and she went to the door behind us that said "Return to Landing Pad".

Me: Oh no you don't Kendra!

We went after her.

While we went into the door, and into the hallway and then we finally made it to the Landing Pads. We see Kendra, attempting to enter the shuttle. But a tremor happened, as she almost lost balance.

Kendra: Oh my god!

She sees a massive tentacle as she tries to get inside the shuttle and the Tentacle grabbed her and sent her flying near us. She tries to get up and just as the Tentacle was about to crush her, I saved her and flew away and landed by the team.

Yet, more gigantic tentacles appeared and a giant colossal sized Necromorph appeared, that dwarfs all other Necromorphs. The Hive Mind.

Me: Holy shit!

Naruto: That's the biggest one of them all!

Lincoln: Is that the Hive Mind!?

Isaac: It is! (Sees five yellow spots on it's head) We have to fire our weapons at the Hive Mind's weak points!

Me: Okay. Lets blast this ugly monstrosity into Hell!

We blasted the entirety of the ugly and massive Necromorph and killed it.

But it was not dead yet, as it now opens it's chest cavity. Revealing to be five more yellow spots.

Edzilla: ED SMASH PUNY HIVE! (punches it)

Me: Those 5 spots are it's weakness!

As they try to shoot the weak spots. While avoiding the Hive Mind's tentacles from slamming at the team.

We slashed off the tentacles and blasted them and the weak spots.

Me: Lets finish it with our combos and final smashes!

Motormaster: Lets do it! CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his Cyclone Blaster 100-Fold.

Mixmaster: Lets do it! CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his laser rifle 100-fold.

Motormaster and Mixmaster: LASER CYCLONE DEATHSTORM!

Motormaster fired a massive tornado and Mixmaster fired his laser blaster and the blasts combined and they hit the giant Necromorph and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Optimus Prime: These creatures will never terrorize our universe ever again! CYBER KEY POWER!

The Autobot Cyber Planet Key went into Optimus Prime's cannon and turned it into a super cannon.

Ratchet: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enabled him to have laser missiles pop out.

Optimus Prime and Ratchet: SUPERLASER DEATHBURST!

They both fired powerful laser blasts and they combined and destroyed the rest of the weak spots.

After all the weak spots were destroyed. The Hive Mind roared in pain and anger, but without them. It was thrashing around.

Me: Final Smash time!

Kate L.: Lets do it! HORROR OF THE THING!

Kate fired an energy blast that turned into spiritual energy bodies that looked like The monsters from the Thing! They hit the giant Necromorph and exploded.

Isaac Clarke: My turn. This is for Nicole and everyone! BLACK HOLE IMPLODER!

Isaac fired a massive ball of energy and it turned into a black hole and it sucked in the giant Necromorph!

Me: That did it! Lets get off this rock!

We all got on the shuttle and everyone else went back to the ship with me and Isaac piloting it. As the shuttle leaves the Marker, the Colony, and the entire planet behind, the massive rock almost reaches to the planet.

Me: Lisa beam us all aboard.

Lisa: Roger that!

As the entire Shuttle was beamed into the U.S.S. Valor spaceship, wewatched through the ship's windows as we see the massive rock hit the planet in a very large explosion as the dead world was now converted into a Volcanic Planet.

Me: Now to make sure no one ever suffers this horrifying ordeal again.

I then went outside and charged up a massive Kamehameha Blast and fired it right at the planet. With seconds to act, we had to act fast.

Me: Lisa, get us out of here at hyperspeed!

Lisa: Right!

We got out of there fast and the blast hit the planet and completely destroyed it in a massive explosion.

KKKKKRRRRRAAAAAAAAABBBOOOOOOOOOOOOOOOOOOOOOOOO

After Team Loud Phoenix Storm's spaceship arrives back to Earth in the year 2019 A.D. On the shuttle, we see Isaac took off his helmet. Revealing his face for the first time. But his face is that of sadness and grief.

Me: (Panting) That… Was horrifying.

Lana: Yes it was.

Lincoln: Guys, what should we do about Kendra?

Me: I have an idea.

We brought Kendra before the court system and she was found guilty of her crimes and she was sentenced to eternity in the Moon Prison.

Stuart: Thank you so much for saving us J.D.

Me: You're welcome Stuart. Isaac, thank you for helping us destroy the Necromorphs and the Marker Unitology Society.

Isaac didn't reply, as he stares at the ground in sadness.

Stuart: Something happened to Isaac?

Me: He lost his girlfriend Nicole Brennan to everything that happened.

Stuart: Shit, I'm sorry that happened.

Me: I can fix that.

I snapped my fingers and I resurrected Nicole Brennan and they were reunited and they were happy. Nico caught a Conkeldurr and an Audino when he got back to Earth and Rikki also caught a Popplio during the global race. The Survivors of the Necromorph Nightmare decided to join Team Loud Phoenix Storm.

Isaac Clarke: (To the viewers) Unitologists beware, because Team

Loud Phoenix Storm is coming for you.

Me: You said it Isaac.

This had to be one of the most terrifying adventures we've ever had.

THE END

Another Fanfiction and a terrifying adventure done.

This chapter is based on the popular survival-horror science-fiction game Dead Space. Me and ArchangelOfJustice12 did this as an RP on Deviantart and the monsters I saw were absolutely horrifying! It was like I was seeing the movie the Thing all over again in the form of a video game that takes place in the 26th century. NicoChan11 game me the ideas for this one and ArchangelOfJustice12 and me did the Fanfiction for this one. We did a great job. Let me know what you all think. This is the longest chapter we ever did.

See you all next time

# Mystery of the Loch Ness Monster

At the estate I was talking to Stuart and I was comforting his daughters Susie and Alicia. They were crying hard and they were hugging me and they were still shaking from the terrible ordeal they went through with the Terror of The Necromorphs. As a result of destroying the Necromorphs on Aegis VII, we formed a branch team to Team Loud Phoenix Storm dedicated to killing the Necromorphs and the Church of Unitology. We call it the Anti-Unitology Conglomerate and their goal is to destroy the entirety of the Necromorphs and kill the entire Church of Unitology. I found out when we got back that a Temporal Wormhole opened up. Cutting a hole in the fabric of space and it let the distress signal we received from the USG Ishimura come into our time in the year 2019 from the year 2508. We don't know how this happened but somehow it did.

Me: It's all right girls. It's all right.

Nico: Poor girls. The Necromorphs really scarred them for life.

Stuart: They sure did.

Vince: I can't believe how terrifying those creatures were.

Carol: They were awful.

Britney Crosby: Excuse me J.D. How are they doing?

Me: They were traumatized because of the Necromorphs.

Britney Crosby: Oh the poor things. Me and Julie are gonna head over to the Jupiter Prison for another rant session.

Me: Okay. I'm sorry I can't go with you. Suzie and Alicia need a lot of help.

Julie Martin: Okay. We'll be back later.

Nico: Have fun girls.

They got on a teleporter and went to the Jupiter Prison.

---

Britney and Julie arrived at the Jupiter prison and they got ready. It was gonna be enjoyable.

Britney Crosby: I'll start. I'm gonna enjoy ranting at this bitch!

Prisoner 1: J.D. not here with you today?

Britney Crosby: No. He couldn't come because he's helping two traumatized girls that we rescued on a mission. It was a horrifying nightmare.

Julie Martin: I can tell you all about it.

Prisoner 1: What happened?

Julie Martin revealed what went down with the Terror of The Necromorphs and everyone was shocked and terrified.

Prisoner 1: Oh man. Poor girls.

Prisoner 2: What did these Necromorphs look like?

Julie used her powers and she showed them the horrifying images of the Necromorphs that they learned about from Nicole and they were horrifying.

Prisoner 3: Those creatures are terrifying!

Prisoner 4: And disgusting looking!

Prisoner 1: Those poor girls have been through a nightmare.

Julie Martin: Nightmare is an understatement.

Prisoner 1: I'm sorry that they went through all that. But tell them that we wish them the best.

Guard 1: Same here. That was an awful experience that they went through.

Julie Martin: We will. Lets watch the rants.

Britney Crosby put breath spray in her mouth and cleared her throat.

Britney Crosby: (Clears throat and takes a deep breath) YOU ARE THE MOST FUCKED UP MOST WORTHLESS FUCKING BITCH EVER! I WOULD RATHER PISS ON A SANDWICH AND EAT IT AS IT IS COVERED IN RAW SEWAGE THAN HAVE A FUCKED UP FLAT-CHESTED FREAK THAN YOU!

Everyone: EWWWWW!

Prisoner 4: (Laughs) That was a good one!

Prisoner 2: But I would not want to eat a sandwich like that.

Julie Martin: As J.D. would say "Eating a sandwich like that would taste worse than puke!"

Everyone laughed hysterically.

Guard 2: (Laughs hysterically) You got that right.

Prisoner 3: (Laughs Hysterically) That was funny.

Julie Martin: My turn.

Julie walked up to Vicky.

Julie Martin: ARE YOU SAYING THAT I AM ONE OF THE VILLAGE PEOPLE HERE TO DISCO FOR YOU!? IS THAT WHAT YOU'RE SAYING!?

Icky Vicky: Uh… Yes?

Julie Martin: THAT'S IT!

Julie Martin jumped Icky Vicky and she pulverized the living shit out of her with incredibly indiscriminate fury in a fight cloud. Everyone was laughing hysterically and they were holding their sides and rolling on the floor laughing their heads off uncontrollably.

Out in the backyard, Betty and Jen were having a contest where they find out who has a faster transformation in becoming a She-Hulk. Betty and Jen had black and dark blue tattered clothes on over their She-Hulk costumes.

Toad Man: (to Betty and Jen) You two ready to start?

Jen: I'm ready.

Betty: Ready.

Toad Man: All right. Go!

Jen: (Feels her bones stretching) Betty, how are you holding up?

Betty: (Groans) I'm holding up well!

They turned into their She-Hulk forms and their tattered clothes were shredding apart. However when they were done they both tied.

Toad Man: It's a tie with you both.

Red She-Hulk: Wow. We're both the same Jen.

She-Hulk: We sure are.

Later we were in the living room and I was looking up the legend of the Loch Ness Monster in Scotland. For decades, many people over in Scotland believed that the legendary Loch Ness Monster was a prehistoric creature that survived the extinction of the dinosaurs and was living in Loch Ness ever since. But in 1960 it was a hoax. But according to popular belief, it has been swimming the lake ever since 540 A.D.

---

In Scottish folklore, the Loch Ness Monster or Nessie is said to be a creature that inhabits Loch Ness in the Scottish Highlands. It is often described as large in size with a long neck and one or more humps protruding from the water. Popular interest and belief in the creature have varied since it was brought to worldwide attention in 1933. Evidence of its existence is anecdotal, with a few disputed photographs and sonar readings.

The scientific community regards the Loch Ness Monster as a phenomenon without biological basis, explaining sightings as hoaxes, wishful thinking, and the misidentification of mundane objects.

The word "monster" was reportedly applied for the first time to the creature on 2 May 1933 by Alex Campbell, water bailiff for Loch Ness and a part-time journalist, in an Inverness Courier report. On 4 August 1933 the Courier published a report by Londoner George Spicer that several weeks earlier, while they were driving around the loch he and his wife saw "the nearest approach to a dragon or pre-historic animal that I have ever seen in my life" trundling across the road toward the loch with "an animal" in its mouth. Letters began appearing in the Courier, often anonymously, claiming land or water sightings by the writer, their family or acquaintances or remembered stories. The accounts reached the media, which described a "monster fish", "sea serpent", or "dragon" and eventually settled on "Loch Ness monster".

On 6 December 1933 the first purported photograph of the monster, taken by Hugh Gray, was published in the Daily Express; the Secretary of State for Scotland soon ordered police to prevent any attacks on it. In 1934, interest was further piqued by the "surgeon's photograph". That year, R. T. Gould published an account of the author's investigation and a record of reports predating 1933. Other authors have claimed sightings of the monster dating to the sixth century AD.

The earliest report of a monster in the vicinity of Loch Ness appears in the Life of St. Columba by Adomnán, written in the sixth century AD. According to Adomnán, writing about a century after the events described, Irish monk Saint Columba was staying in the land of the Picts with his companions when he encountered local residents burying a man by the River Ness. They explained that the man was swimming in the river when he was attacked by a "water beast" which mauled him and dragged him underwater. Although they tried to rescue him in a boat, he was dead. Columba sent a follower, Luigne moccu Min, to swim across the river. The beast approached him, but Columba made the sign of the cross and said: "Go no further. Do not touch the man. Go back at once." The creature stopped as if it had been "pulled back with ropes" and fled, and Columba's men and the Picts gave thanks for what they perceived as a miracle.

Believers in the monster point to this story, set in the River Ness rather than the loch itself, as evidence for the creature's existence as early as the sixth century. Sceptics question the narrative's reliability, noting that water-beast stories were extremely common in medieval hagiographies and Adomnán's tale probably recycles a common motif attached to a local landmark. According to sceptics, Adomnán's story may be independent of the modern Loch Ness Monster legend and became attached to it by believers seeking to bolster their claims. Ronald Binns considers that this is the most serious of various alleged early sightings of the monster, but all other claimed sightings before 1933 are dubious and do not prove a monster tradition before that date. Christopher Cairney uses a specific historical and cultural analysis of Adomnán to separate Adomnán's story about St. Columba from the modern myth of the Loch Ness Monster, but finds an earlier and culturally significant use of Celtic "water beast" folklore along the way. In doing so he also discredits any strong connection between kelpies or water-horses and the modern "media-augmented" creation of the Loch Ness Monster.

In October 1871 (or 1872), D. Mackenzie of Balnain reportedly saw an object resembling a log or an upturned boat "wriggling and churning up the water". The object moved slowly at first, disappearing at a faster speed. Mackenzie sent his story in a letter to Rupert Gould in 1934, shortly after popular interest in the monster increased.

Modern interest in the monster was sparked by a sighting on 22 July 1933, when George Spicer and his wife saw "a most extraordinary form of animal" cross the road in front of their car. They described the creature as having a large body (about 4 feet (1.2 m) high and 25 feet (8 m) long) and a long, wavy, narrow neck, slightly thicker than an elephant's trunk and as long as the 10-12-foot (3-4 m) width of the road. They saw no limbs. It lurched across the road towards the loch 20 yards (20 m) away, leaving a trail of broken undergrowth in its wake.

It has been claimed that sightings of the monster increased after a road was built along the loch in early 1933, bringing workers and tourists to the formerly-isolated area. However, Binns has described this as "the myth of the lonely loch", as it was far from isolated before then, due to the construction of the Caledonian Canal. In the 1930s, the existing road by the side of the loch was given a serious upgrade (just possibly this work could have contributed to the legend, since there could have been tar barrels floating in the loch).

Hugh Gray's photograph taken near Foyers on 12 November 1933 was the first photograph alleged to depict the monster. It was slightly blurred, and it has been noted that if one looks closely the head of a dog can be seen. Gray had taken his Labrador for a walk that day, and it is suspected that the photograph depicts his dog fetching a stick from the loch. Others have suggested the photograph depicts an otter or a swan. The original negative was lost; however in 1963 Maurice Burton came into "possession of two lantern slides, contact positives from the original negative" and when projected onto a screen they revealed an "otter rolling at the surface in characteristic fashion."

On 5 January 1934 a motorcyclist, Arthur Grant, claimed to have nearly hit the creature while approaching Abriachan (near the north-eastern end of the loch) at about 1 a.m. on a moonlit night. According to Grant, it had a small head attached to a long neck; the creature saw him, and crossed the road back to the loch. Grant, a veterinary student, described it as a cross between a seal and a plesiosaur. He said he dismounted and followed it to the loch, but saw only ripples.

Grant produced a sketch of the creature which was examined by zoologist Maurice Burton, who stated it was consistent with the appearance and behavior of an otter. Regarding the long size of the creature reported by Grant; it has been suggested that this was a faulty observation due to the poor light conditions. Paleontologist Darren Naish has suggested that Grant may have seen either an otter or a seal and exaggerated his sighting over time.

The "surgeon's photograph" is reportedly the first photo of the creature's head and neck. Supposedly taken by Robert Kenneth Wilson, a London gynecologist, it was published in the Daily Mail on 21 April 1934. Wilson's refusal to have his name associated with it led to it being known as the "surgeon's photograph". According to Wilson, he was looking at the loch when he saw the monster, grabbed his camera and snapped four photos. Only two exposures came out clearly; the first reportedly shows a small head and back, and the second shows a similar head in a diving position. The first photo became well-known, and the second attracted little publicity because of its blurriness.

For 60 years the photo was considered evidence of the monster's existence, although sceptics dismissed it as driftwood, an elephant, an otter, or a bird. The photo's scale was controversial; it is often shown cropped (making the creature seem large and the ripples like waves), while the uncropped shot shows the other end of the loch and the monster in the centre. The ripples in the photo were found to fit the size and pattern of small ripples, unlike large waves photographed up close. Analysis of the original image fostered further doubt. In 1993, the makers of the Discovery Communications documentary Loch Ness Discovered analysed the uncropped image and found a white object visible in every version of the photo (implying that it was on the negative). It was believed to be the cause of the ripples, as if the object was being towed, although the possibility of a blemish on the negative could not be ruled out. An analysis of the full photograph indicated that the object was small, about 60 to 90 cm (2 to 3 ft) long.

Since 1994, most agree that the photo was an elaborate hoax. It had been described as fake in a 7 December 1975 Sunday Telegraph article which fell into obscurity. Details of how the photo was taken were published in the 1999 book, Nessie - the Surgeon's Photograph Exposed, which contains a facsimile of the 1975 Sunday Telegraph article. The creature was reportedly a toy submarine built by Christian Spurling, the son-in-law of Marmaduke Wetherell. Wetherell had been publicly ridiculed by his employer, the Daily Mail, after he found "Nessie footprints" which turned out to be a hoax. To get revenge on the Mail, Wetherell perpetrated his hoax with co-conspirators Spurling (sculpture specialist), Ian Wetherell (his son, who bought the material for the fake), and Maurice Chambers (an insurance agent). The toy submarine was bought from F. W. Woolworths, and its head and neck were made from wood putty. After testing it in a local pond the group went to Loch Ness, where Ian Wetherell took the photos near the Altsaigh Tea House. When they heard a water bailiff approaching, Duke Wetherell sank the model with his foot and it is "presumably still somewhere in Loch Ness". Chambers gave the photographic plates to Wilson, a friend of his who enjoyed "a good practical joke". Wilson brought the plates to Ogston's, an Inverness chemist, and gave them to George Morrison for development. He sold the first photo to the Daily Mail, who then announced that the monster had been photographed.

Little is known of the second photo; it is often ignored by researchers, who believe its quality too poor and its differences from the first photo too great to warrant analysis. It shows a head similar to the first photo, with a more turbulent wave pattern and possibly taken at a different time and location in the loch. Some believe it to be an earlier, cruder attempt at a hoax, and others (including Roy Mackal and Maurice Burton) consider it a picture of a diving bird or otter which Wilson mistook for the monster. According to Morrison, when the plates were developed Wilson was uninterested in the second photo; he allowed Morrison to keep the negative, and the second photo was rediscovered years later. When asked about the second photo by the Ness Information Service Newsletter, Spurling "… was vague, thought it might have been a piece of wood they were trying out as a monster, but [was] not sure."

Me: The legendary Loch Ness Monster. A creature that has eluded us for over 1,579 years.

Lincoln: It's amazing.

Laney: I know. I read all about it in one of my favorite books.

Me: But it was discovered to be a hoax back in the 1990's.

Laney: It would be so cool to see a legendary creature like that. We already saw the legendary Mongolian Death Worm during the Global Race. So there must be all kinds of legendary creatures we haven't seen yet.

Bai Tza: I assure you guys. The Loch Ness Monster is definitely real.

Me: How do you know that Bai Tza?

Bai Tza: I've seen it in Scotland before I was sealed into the Netherworld. It's an amazing creature.

Me: This we got to see. We got to head over to Scotland!

We were off to Scotland.

---

We arrived by Lake Loch Ness. It was a beautiful lake.

Me: Wow! Lake Loch Ness. For over 1,579 years this lake has been embroiled in controversy and skepticism.

Laney: It sure has. But this lake is really beautiful.

We went to a local castle and we saw Daphne Blake's cousin Shannon Blake.

Shannon Blake: (Scottish Accent) Team Loud Phoenix Storm! It's an awesome honor to meet you lads and lassies.

Me: Shannon Blake. Daphne told us a little about you.

Shannon Blake: You know how she is now.

Then we saw Mystery Inc there as well.

Fred: Hey guys!

Me: Fred, guys! It's great to see you here.

Velma: Jinkies. What brings you all here?

Me: Isn't it obvious? We're here to see if the legend of the Loch Ness Monster is real. For 1,579 years this whole place has been surrounded in controversy.

Shannon Blake: My favorite adventure of yours was when you all took on the Phantom Virus and the Revenge Squad.

Daphne: I remember that. And me and the gang were there as well.

Maria: I also remember that me, Lea, and Rubberband Man were the only ones not knocked unconscious before Scooby defeated the Phantom Virus.

Me: That was one of our most action packed and amazing adventures.

Nico: It sure was.

Me: So what's going on here?

Fred told us whats been happening. The Loch Ness Monster has been terrorizing the land before the Highland Games and it was really starting to become a problem.

Me: So the Loch Ness Monster is causing a number of problems.

Shannon Blake: Aye. We have to stop it.

Me: We'll gladly help out.

Fred: So how are we gonna find out what's going on?

Me: Well first did you find anything that might lead us to the monster?

Shaggy: Like yeah. I did.

Shaggy handed me what looked like some kind of piece of skin. I felt it and it was some kind of leather.

Me: It's some kind of leather. This is not reptilian monster skin.

Windcharger: So we have a so-called monster running around.

Me: It sure looks like it.

Nico: Yeah. Didn't you guys deal with a monster like this before?

Velma: We sure did. It was done by professor Fiona Pembrooke.

Laney: Oh wow! I love Professor Pembrooke's books on the Loch Ness Monster.

Velma: I do too Laney.

Me: What was the motive behind this?

Velma: She wanted to scare Sir Ian Locksley with an amphibious machine into believing that the monster is real.

Me: Wow. That's a clever ruse. But if we can find the monster, we can show them. Lets do it!

We went out to Lake Loch Ness.

We were on an amazing boat and it was awesome.

The lake was calm and it was quiet.

Me: It's quiet. Too quiet.

Laney: It's creepy. But amazing.

Lincoln: What does this monster look like?

Me: It's some kind of prehistoric creature. We don't know what it looks like.

Then we heard some kind of moan and we saw something swimming passed us incredibly fast.

Me: Whoa!

Laney: There it is!

I blast the water and an explosion of the water blew it out and out came a massive amphibious creature and it had glowing red eyes!

Me: Whoa!

I noticed a torn piece of skin ripped off the creature and under it was metal.

Me: Wait a minute. That monster is fake!

Windcharger: Hang on. My electromagnetic field is drawing in something from inside that so called Loch Ness Monster.

Lincoln lifted it up and he brought it on board and I tore the skin off and we saw that it was a machine.

Me: It's a machine.

I opened it and inside it was famous Author Professor Fiona Pembrooke.

Wildrider: Do you have anything you want to say for yourself?

Laney: Wow! Professor Fiona Pembrooke!

Prof. Pembrooke: (Scottish Accent) It's an honor to meet you all Team Loud Phoenix Storm.

Me: You too Professor. We're actually here to help prove that the legendary Loch Ness Monster is real. During the Global Race we participated in, Laney managed to prove the existence of the legendary Mongolian Death Worm.

Prof. Pembrooke: That's amazing lass. You have the makings of an amazing cryptozoologist.

Laney: Thanks professor. You're one of my heroes and I love your research. I love learning all about everything.

Suddenly there was another roar and we saw a fast object moving on through surface and we then saw a massive prehistoric long necked creature surface. It was a giant plesiosaurus-like creature and it was 300 feet long and it had a whale-like tail and it had amazing amphibious fins and it was a magnificent marvel! It was the true legendary LOCH NESS MONSTER!

Me: I don't believe it! It's the true Loch Ness Monster!

Bai Tza: I told you she was real!

Nico: Unbelievable! She IS real!

Sir Ian: (Scottish Accent) I don't believe my eyes! She is real!

Nessie: (Scottish Accent) That's right. I'm sorry for scaring you all over the centuries.

Me: Whoa! You can talk.

Nessie: I sure can lad. You're the famous J.D. Knudson of Team Loud Phoenix Storm.

Me: That's right.

Bai Tza: It's great to see you again Nessie.

Nessie: You too Bai Tza. How have you been?

Bai Tza: Been great. I've changed my ways ever since we last saw each other.

Girl Jordan: I helped her realize the error of her ways and she is now a member of the Team Loud Phoenix Storm Redemption Squad.

Nessie: I'm proud of you lass. The reason I didn't want to be found is because a bunch of crazy humans are trying to catch me and sell me to a zoo.

Lana: That's horrible!

Nico: Some people will just go to great lengths to do whatever it takes to make a living and take shortcuts in life.

Nessie: Aye. I agree with you on that. But right now I'm being chased by a mad human and a bunch of other humans that are after me.

Me: Are those the men behind you?

We saw the men and it was McIntyre and a bunch of mercenaries!

Sir Ian: It's McIntyre!

Mcintyre was supposed to use his ship to help Sir Ian Locksley track the supposed Loch Ness Monster, but at the last minute he and his men captured Sir Ian, Daphne Blake, and her cousin Shannon. Mcintyre wanted to harpoon the monster, capture it, and sell it for a lot of money. Only heroic action by Daphne and the others prevented him from trying this. (It wouldn't have worked in any case because the "monster" was a metal submarine.)

Daphne: I remember him! He wanted to catch the fake Nessie and sell it for quite a bundle of cash.

Me: I thought he was in prison.

Sir Ian: He busted out a few days ago.

Me: So that's it. Nessie, we'll protect you from those guys! Lets go!

We went out onto the water and we stood on top of the lake and we were ready to face McIntyre.

McIntyre saw us.

Me: McIntyre.

McIntyre: (Scottish Accent) So the famous Team Loud Phoenix Storm has come to protect Nessie.

Me: That's right. And you aren't getting a single Euro from her. You want to get to her, you'll have to get through us!

McIntyre: With pleasure and I have some special friends.

He sent out 5 black pokeballs and out came an Aipom, a Solrock, a Gloom, a Purrloin, and a Litwick. But there was something different about them. They had blank eyes and they had strange black auras around them.

Lori: Something is literally wrong with this Pokemon and their power levels are stronger than normal Pokemon.

Ash: I battled a Solrock before! It usually isn't that strong.

McIntyre: (chuckles) My Solrock is special.

Misty: I've seen Erika from Celadon City use a Gloom in Ash's first journey. And I know it doesn't know a move involving a Dark Aura!

Riku: I've seen Xehanort do stuff like this.

Maria: Mcintyre's Pokemon are really bizarre.

Venom: It's almost like they're not normal Pokemon.

William: They're not. They're Shadow Pokemon. Mars and Jupiter told me about them a few minutes ago. They're Pokemon that have the door to their hearts sealed shut.

Elena: The way to turn those Pokemon back to normal is to purify them.

Stewie: But we need to catch them first!

Me: Leave that to me.

I fired blasts of light and removed the dark influence from them and I threw a bunch of pokeballs at them and caught them.

Me: Now you guys are going down!

Nico: And I just caught a Throh and a Seismitoad. McIntyre, you and your thugs have failed this country!

Me: Lets take them down!

We went at McIntyre and his thugs and I punched McIntyre in the face and kicked him in the stomach and I punched him in the face again and knocked out some of his teeth!

SMASH!

The thugs were being pulverized at a merciless and ferocious level.

Me: Lets show them the power of our combos and final smashes!

Windcharger: Lets do it! CYBER KEY POWER!

The Earth Cyber Planet Key went into Windchargers back and it enhanced his grenade launcher 100-fold.

She-Hulk: Time for some deadly hulk power. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and it enhanced her super strength and enabled her to fire a massive blast of green gamma energy.

Windcharger and She Hulk: GAMMA BOMB BARRAGE!

Windcharger fired numerous grenades and She-Hulk fired massive bombs of energy and they hit McIntyre's boat and blew it into a million pieces in a powerful explosion.

KRABBBOOOOOOOOOOOOOOOOOOOMMM!

Toad Man: Lets get down to business! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Toad Man's right arm and it enhanced his Rain Flush 100-fold.

Wildrider: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his twin-barrel plasma blaster and enhanced it 100-fold.

Toad Man and Wlidrider: ACID STORM DELUGE!

Toad Man rained down acid and Wildrider fired a massive blast of lightning and the attacks combined and they hit all of McIntyre's thugs and stunned them.

Me: Now for you McIntyre.

Misty: Lets show no mercy! WATER POKEMON SPIRIT STRIKE!

Misty fired a massive blast of water and it turned into all the water pokemon ever known and slammed into McIntyre with devastating force.

Daphne: Time for you to see why the Blake's are known for always getting into trouble! DANGER-PRONE ACCIDENT BURST!

Daphne fired a massive blast of rainbow energy and it hit McIntyre and an anvil fell right on his head.

CLANG!

Me: Oooh! That's gonna hurt!

Laney: Ouch! Now I know how I felt when I got hit in the head with that bowling ball.

McIntyre: (Stupidly) Mommy can I have some fudge? (Falls down.)

Misty: He sure got slammed on that.

We laughed at that.

Nessie: Oh that was funny!

Me: It was.

Misty: (To the viewers) You mess with legends around the world and you will mess with us and all of Team Loud Phoenix Storm.

Me: That's right Misty.

Hunter: Und don't you forget it.

Later we sent McIntyre and his cronies to prison and they were sentenced to life in prison without parole in the Uranus Prison and they were ordered to pay €720,928,837,736,627,999.00 in restitution. We stayed and watched the Highland Games and we saw Lynn and Natilee participate in the Games. They were declared the ultimate champions of the Highland Games and more. We proved that the Legendary Loch Ness Monster was real and Laney was awarded a medal for proving to the world that the legendary

Loch Ness Monster exists. She was made a junior professor of Cryptozoology and she gave Professor Pembrooke fame and fortune.

Another Fanfiction Complete and another Scooby Doo Villain brought to justice.

Scooby Doo and the Loch Ness Monster from 2004 was an awesome movie! And I loved every second of it. The legend of the Loch Ness Monster was one of the most amazing stories I've ever read about and I've known it since I was a little kid. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Blisteringly Hot Day

It was a blistering and scorching hot day in Gotham Royal York.

PPG Narrator: The Plant City of Gotham Royal York…

The heat was felt.

PPG Narrator: Whew! And man is it hot.

The heat was completely unbearable! The temperature was 130˚ and it was as hot as Death Valley in Gotham Royal York. People all over were sweating buckets and trying to cool down. It was making Phoenix, Arizona look like a total joke.

The estate was not fairing any better.

PPG Narrator: Even here at the Team Loud Phoenix Storm suburban mansion, the heat was making everyone hot under the collar.

Me: Man it is so hot!

Lola: I know. I can't believe it's that hot out!

Adult Blossom: Here J.D.

Adult Blossom blew her ice breath at me and I was being cooled down.

Me: Ahh. That feels so good!

Laney: It sure does. I can't believe it's so hot outside.

Lisa: It's 54˚ Celcius outside.

Me: That's 129.2˚ Fahrenheit.

Lori : What do you think is literally causing this blistering heat?

Hunter: (German Accent) No idea Lori. But this is an awful heatwave.

Lana: I know.

Lori: This is literally the hottest day ever.

Luna: I know dude. I'm frying like an egg here!

Sam S.L.: Me too.

Tara: I love the heat. It's perfect for me.

Me: Let me guess Tara, you lived in a volcano for a while.

Tara: Yep.

Nico was using Vexen's ice powers to cool himself down.

Nico: I'm not complaining.

Lana was cooling us down with her ice powers.

William (sweating heavily): Maria, are you sweating right now?

William saw that Maria was in her water form.

Maria: Hey, William. I've never kissed you while I'm in my water form before.

William and Maria kissed.

They broke away and William was refreshed.

William: That was so cool.

Spiderman: Man, I can feel the heat even under my mask.

Me: I know. It's so hot and it's like Death Valley out there.

Iron man: (sweating) I think this heat wave might accomplish what all the bad guys have been trying to do all this time.

Julie Martin: I'm just glad my ice powers make me immune to the heat as well.

Killer Frost: I know. I love it.

Scream: Maria, maybe you should stay in your swimsuit until the heat wave passes.

Me: That's a good idea.

Maria: I agree.

Sabrina Mason and Carly Beth were given water and flower powers and they were cooling themselves down.

Horsea is swimming in the pool and is loving the heat.

Horsea: (Swimming in the pool) I'm not complaining. I love the heat.

Young Bubbles: Guys, something's wrong with Blossom.

Me: What's wrong Bubbles?

Young Bubbles: She locked herself in her room and won't come out.

We went over to her room and we saw Julie Martin by the door.

Julie Martin: Blossom? (knocks) (Singing)

Do you want to build a snowman?

Come on, let's go and play!

I never see you anymore

Come out the door

It's like you've gone away!

We used to be best buddies

And now we're not

I wish you would tell me why!

Do you want to build a snowman?

It doesn't have to be a snowman…

Blossom: Go away, Julie.

Me: Poor Blossom. But great job singing that song from 2013's Frozen, Julie.

Julie Martin: Thanks J.D.

I went to the door and opened it and went in and I saw Blossom sitting on the bed all by herself.

Me: What's wrong Blossom?

Blossom was crying.

Me: Oh Blossom you can tell me.

I sat on her bed.

Blossom: (Crying) I discovered that I have Ice Breath and I froze a bunch of people by accident. I promised I would never use it again.

Me: Oh Blossom. That was an accident. You had no idea this would happen.

Nico: Yeah Blossom. I didn't know I had powers myself until I accidentally killed Ken. And that day still haunts me even though I'm over it.

Susie: I didn't know that happened to you Nico.

Alicia: Me neither.

Nico: Yeah it was awful girls. But I'll tell you all about it later.

Susie: Okay.

Me: How are you two feeling?

Susie: We're still having bad nights because of what happened.

Alicia: Yeah. But we're slowly getting better thanks to Ms. Ino and Ms. Kate.

Me: I'm glad girls.

Susie and Alicia were now wearing new clothes. Susie had an awesome red Summer dress with blue flowers and red fire on it and the new symbol of the Anti-Unitology Conglomerate was on it.

Alicia had an amazing blue Summer dress with red flowers and blue fire on it as well as the same symbol.

Maria: Those dresses we made for you two are amazing.

Alicia: Thanks Maria.

Susie: We love these dresses.

Blossom: (Groans in Pain)

Me: Blossom, what's wrong?

Blossom: Something is attacking me!

Then an aura of dark energy appeared and it separated from Blossom and then we saw the Telltale Glowing Yellow eyes of a Heartless! Blossom fell down exhausted and the Heartless flew out the window.

Me: A Heartless!

Riku: It's from the darkness in Blossom's heart!

Me: We have to go after it!

Laney: Outside in the blistering heat!?

Me: I know it's hot out, but we have to. Besides, we've handled much worse inhospitable conditions than this.

Lana: He's right.

Me: Lets go!

We went out to the city.

Me: Whoa! It's really hot!

Laney: Yeah it's like walking into an oven!

Me: We handled stuff like this before.

We flew off into the city.

---

In the middle of the city, we arrived and we saw G1 Rampage was scolding the citizens.

G1 Rampage: (to the Townsville citizens) You all should be ashamed of yourselves! I thought you learned your lesson the last time there was a heat wave!

Me: (To the Adult Powerpuff Girls) You guys dealt with a heat wave like this before?

Adult Blossom: We sure did. The temperature was 132˚ and it was the worst heat wave we've ever had.

Adult Bubbles: A Massive Flaming meteor was the cause of it.

Me: That's is extremely white-hot heat.

?: And it's only gonna get hotter!

We turned and we saw a little man no bigger than that of a kid and he was strong and he had an awesome mustache. It was one of the villains from 2016's version of the Powerpuff Girls: MANBOY!

In the sixth episode of the 2016 TV series, Manboy attempts to destroy the Zen-Aissance Fair using his Manbot, but is intercepted by Buttercup, who he enrages by calling her princess. His Manbot puts up a fight for a short period but is ultimately destroyed by Buttercup after throwing Manboy across the city. Manboy is seen later in his dwelling, plotting revenge against Buttercup. While there he carves wooden heads of the Powerpuff Girls using his chainsaw, with Buttercup at the top. Out of anger, Manboy throws his chainsaw at the Buttercup carving, but it simply bounces off, to Manboy's grief. He later returns to Zen-Aissance Fair with a wooden cannon being pulled by a polar bear and an army of animated T-bone steaks. Buttercup, who has converted to a more peaceful state of being, simply puts a flower in the cannon and is shot by it. When Blossom and Bubbles are having trouble defeating Manboy's meat army, Buttercup uses the training she learned from Guru Chillaxi to defeat Manboy, burning his beard off with her heat vision and tossing him into a giant pile of tofu.

Me: Who are you?

Manboy: I am Manboy. All the power and strength of a man in the body of a boy.

Maria: (laughs) Your villain name is Manboy? Did your mommy pick that name out for you?

BURN!

We laughed at Maria's burn.

Me: (Laughs) That was funny!

Nico: I remember you! You are a silly villain on 2016's Powerpuff Girls. That was funny!

Me: I remember that. That was funny. You are the personification of true manliness and manhood.

Manboy: That's right. And this city needs to get back to its manly roots and endure anything!

Flame Man: (to Man Boy) So you're the reason for this heat wave!

Manboy: That's right! And I will make everyone become men! And I have my friend to thank for it!

Me: Friend?

Then we saw a massive blast of fire explode out of the ground and it turned into a FIRE SKOLL! It was a Skoll Heartless but it was made of pure fire!

Me: It's a Skoll Heartless! But it's made of fire!

Laney: So that Heartless is the cause of this heat!

Then another Skoll Heartless appeared and it was the one made of Ice.

Me: Whoa! The Skoll of Fire & Ice! One of the Oldest Battles in the history of the universe.

Slug: Me, Slug smash Heartless!

Nico: Wait Slug. I got this.

Nico flew up and tamed the two Skoll Heartless by putting his hands on their heads and they glowed in a massively blinding white light and vanished. They turned into Skoll Wolf Tattoos on his middle finger.

Nico: Nice!

The heatwave was gone and the temperature dropped dramatically by 50˚ and it was now 85˚ Fahrenheit.

Laney: Ah much better!

Me: No kidding. What a difference.

Nico: I'll say.

Me: Now it's your turn for tasting defeat!

Nico: Manboy, you have failed this city!

Me: Lets get him!

Ben turned into Rath.

Ben: RATH!

Edzilla (to Rath): Rath want to help Ed pummel bearded man?

Rath: I'll gladly help! LET ME TELL YA SOMETHING MANBOY! NO ONE MESSES WITH OUR CITY AND TEMPERATURE AND LIVES TO TELL ABOUT IT!

We went at Manboy and I punched him in the face and kicked him in the stomach. Rath pulverized him all over the place and Edzilla smashed him all over.

Lola fired a powerful blast of fire at him and burned his beard off! But Manboy grew it back.

Manboy: Is that the best you got you ugly brat!?

Lola: (ENRAGED) UGLY!?

Me: Oh Fuck!

Lori: Oh shit!

Laney: Now he's in for it!

Nico: Is this what's gonna happen when you call Lola U-G-L-Y?

Me: Oh yeah. And Manboy just signed his death warrant.

Lucy: I'll be sure to say something nice at his funeral.

Lola had a massive aura of fire explode out and she growled and roared with extremely ferocious fury!

Lola: (ENRAGED SCREAMING) ***NO ONE! CALLS! ME! UUUUUUGGGGGGGLLLLLLLLLLLLYYYYYYYYYYYYY!***

Lola went at Manboy with extreme anger and fury and punched him in the face and knocked out all his teeth and she kicked him in his crotch with devastating force and we heard a majorly sickening crunch and winced! Lola then started mercilessly smashing his face in with indiscriminate fury. She was screaming at the top of her lungs with so much rage that it was unbelievable! It was brutal. Nico grabbed her and restrained her.

Nico: Lola stop! He's had enough!

Me: We don't want to kill him before we send him to prison! Lets use our combos and Final Smashes!

G1 Slug: Me, Slug, ready! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Slug's back and it enhanced his triceratops head and it enabled him to grow spikes out of his head and enhance his speed.

Spiderman: Time for some action! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his web powers 100-fold.

G1 Slug and Spiderman: SPIDER DINOSAUR TRAMPLE!

Spiderman and Slug formed into a powerful Styracosaurus with Spider legs and they trampled Manboy with incredible force!

G1 Rampage: It's action time! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his strength and speed and enhanced his claws to beyond razor sharp.

Scream: We'll help out! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Scream's right arm and it enabled her to sprout wings and it enhanced her abilities 100-fold.

G1 Rampage and Scream: FLYING TIGER LASHSTORM!

G1 Rampage ran fast and Scream had hair spears ready and they went at Manboy and slashed him all over the place with powerful fury.

Flame Man: Lets see how you like the heat. FIRESTORM CYCLONE BURST!

Flame Man fired a massive blast of fire and it swirled around

Manboy in a powerful tornado of pure fire and it was burning him bad.

Blossom: Lets see how you like this! ICE BREATH FREEZE!

Young Blossom blew out a blast of her ice breath and she froze Manboy in a block of solid ice. His head was the only thing sticking out.

Nico: You know what? I think we're gonna throw you in the Jupiter prison. There's a special treat for prisoners there.

Man Boy: No way I'm going to the slammer!

Nico: (laughs) Trust me. When you see the special treat in the Jupiter Prison, you'll be wanting to stay there.

We sent Manboy into the Jupiter Prison and he was sentenced to 20 consecutive terms of life in prison without parole and he was ordered to pay $400,715,735,725,735.00 in restitution. Nico caught a Leavanny and a Scolipede during the battle.

Blossom: (To the viewers) Chauvinistic Manhood will never be a match for the power of Team Loud Phoenix Storm.

Me: You said it Blossom.

Hunter: Ja. Serves that monster right.

Me: Yep.

PPG Narrator: (Laughs) Oh Blossom, Ice still think you're cool. And so once again the day is saved. Thanks to Team Loud Phoenix Storm.

We stood in the background in our poses.

Another Fanficton Complete and another Powerpuff Girls Villain brought to justice.

The episode this chapter is based off of is the episode Ice Sore. That episode was easily the hottest one ever! 130˚ would fry you! Manboy was a funny villain on 2016's Powerpuff Girls. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# An Insane Pink Imaginary Friend

At the Jupiter Prison, it was time for another rant session with the worst ever babysitter in the history of the world: Icky Vicky.

Manboy: So this is the reason why you sent me to prison?

Nico: Yep. See that girl there. That's the worst ever babysitter in the history of the world: Icky Vicky. She's pure evil to the core.

Nico explained all about her and Manboy was stunned.

Manboy: That's awful! I love children and I would never treat them like that. Sure I may be a bad guy but even I have a soft side.

Nico: That's true. But Icky Vicky is a monster and is a heartless psychotic sociopathic freak.

Manboy: I believe it. Icky Vicky has a black heart.

Molly Molloy: This is gonna be good guys.

Billy Deep: You said it. But I just can't help but feel sorry for Stuart's kids.

Prisoner 2: I hear ya Billy. They went through a rough time.

Molly Molloy: I know. But they are getting better. Thanks for your concern.

Prisoner 2: You're welcome.

They got it underway.

Molly Molloy: ARE YOU SAYING THAT I'M SOME FLAT AND POINTY OBJECT THAT GETS STRUCK BY A HAMMER, HERE TO FIX YOUR BROKEN CHAIR!? IS THAT WHAT YOU'RE SAYING!?

Icky Vicky: Um… Yes?

Molly Molloy: THAT'S IT! I'LL NAIL YOUR FUCKING ASS INTO PULP YOU FUCKWIT!

Molly Molloy jumped her and pulverized the living shit out of her and everyone was laughing their heads off.

Nico: (Laughing Hysterically) Oh this always cracks me up!

Billy Deep: My turn. I hope my parents don't ground me for this.

Billy Deep went up to Icky Vicky.

Billy Deep: Are you calling me a spectacle? What, do I look like a lens in a frame, designed so you can see better out one of your eyes!? IS THAT WHAT YOU'RE SAYING!?

Icky Vicky: Uh… Yes?

Billy Deep: THAT'S IT!

Billy Deep jumped her and pulverized her all over the place.

Everyone was laughing their heads off some more.

Manboy: (LAUGHING HYSTERICALLY) OH THIS IS SO FUNNY! NOW I SEE WHAT YOU MEANT BY THIS NICO!

Nico: (LAUGHING HYSTERICALLY) YOU GOT THAT RIGHT!

Sheena Deep: My turn!

Sheena Deep went up to Icky Vicky.

Sheena Deep: ARE YOU TRYING TO SAY I'M FAT? THAT I'M SOME KIND OF CHICKEN LEG FOR YOUR MATSOBALL SOUP!? A CHUNK OF FAT MEANT TO UP YOUR CHOLESTEROL LEVELS!?

Icky Vicky: Umm. Yes?

Sheena Deep: THAT'S IT! I'LL RIP YOUR FUCKING HEART OUT AND SHOVE IT UP YOUR FUCKING BUTT!

Sheena Deep jumped Icky Vicky and pulverized the living shit out of her. Everyone was laughing hysterically again.

Prisoner 3: (LAUGHING HYSTERICALLY!) OH THAT IS SO FUNNY!

Nico: (LAUGHING HYSTERICALLY!) YOU GOT THAT RIGHT!

Robby Schwartz: My turn! I'm just gonna do a prank on her.

Nico: Okay.

Robby Schwartz went up to Icky Vicky and put a stethoscope on her.

Robby Schwartz then pulled out an air horn.

Nico: Uh oh. Plug your ears guys. This is gonna be loud.

They plugged their ears.

Robby Schwartz put on Noise Cancelling Earphones. She held the airhorn up to the probe of the stethoscope and honked it.

***HHHHHOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

The Horn blast was so loud that it made Icky Vicky's head shake violently and she screamed in so much pain as blood poured out of her ears.

Everyone was laughing hysterically! Another funny rant session was in the books.

---

Back on Earth, Nico was riding his Rapidash and Britney Crosby was riding her own Rapidash with him. But her Rapidash was a Dark Element Rapidash. They were going to talk to Britney's mom about what happened to Britney during their encounter with Slappy.

Britney Crosby: This is so awesome Nico! I love riding horses but I never thought riding a Rapidash would be so awesome!

Nico: J.D. is a great teacher of how to raise Pokemon.

Britney Crosby: He sure is. And I'm learning so much as well from you guys. Who are we gonna go after next in the Goosebumps Series?

Nico: We're going after Clarissa from Be Careful What You Wish For.

Britney Crosby: I remember reading that one. That was a great one. But her magic always takes a turn for the worse.

Nico: I know. Clarissa is an evil sorceress. But she will pay for her crimes. But I can't believe that she turned Samantha Byrd into a bird. But I have a feeling that she is out there somewhere and we will find her and help her.

Nico and Britney Crosby rode on and they had no idea that a hawk was watching them from on top of a tree. That hawk was Samantha Byrd, transformed into a hawk by Clarissa.

Samantha: I know you will Nico. And I'll be waiting.

Samantha flew off.

---

In Jackson, Mississippi they arrived at the house Britney Crosby lives in. Turns out her house is a massive mansion. It was a beautiful 12,000 square foot home with all kinds of awesome features!

Nico: Wow! Britney, I didn't know your family was filthy rich.

Britney Crosby: Yeah. My mom is a very successful business entrepreneur and she makes a very popular health bar called ChocoHoney Delight.

Nico: Ah! I love those chocolate bars. They are so delicious!

Britney Crosby: I know. They are so good.

They went into the mansion grounds and the garden was a breathtaking and beautiful marvel.

Nico: Wow. Britney your garden is amazing.

Britney Crosby: I know. I got this magnificent mansion after my first visit to Horrorland. It's over $75,000,000,000.00. We got a huge amount of money totaling $500,000,000,000,000.00.

Nico: Wow! That's a lot of money.

Britney Crosby: I know. It's not as big as J.D.'s wealth but I'm not complaining.

They went into the house and it was amazing. It was an amazing mansion worth a tremendous fortune and more.

Nico: Wow. Britney your house is amazing.

Britney Crosby: Thanks Nico. It's home sweet home.

Poliwag: It's so breathtaking.

Mrs. Crosby then arrived.

Mrs. Crosby: Britney!

Britney Crosby: Hey mom!

They hugged and were reunited.

Mrs. Crosby: I was so worried about you.

Britney Crosby: I'm sorry to worry you mom. I was in good hands.

Nico: Hello Mrs. Crosby. I'm Nicolas Chan. But everyone calls me Nico and I'm one of the second in command of Team Loud Phoenix Storm.

Mrs. Crosby: It's such an honor to meet you Nico.

Nico: There's a reason why Britney wasn't here and we have a lot to tell you.

They got to talking.

Nico told Mrs. Crosby about the torment that Slappy inflicted to him, Britney, and to several others. Mrs. Crosby was horrified.

Mrs. Crosby: So Slappy tormented you as well?

Nico: That's right Mrs. Crosby. Slappy was the worst ever monster I've ever encountered and I was dealt an indelible scar because of him. But Dr. Strange killed him before we did and sealed him into the Dark Dimension forever. But there are many others that he has tormented over the years and Britney was one of his victims.

Britney Crosby: That's right mom. Slappy tormented me during my first visit to Horrorland.

Mrs. Crosby: Well, I'm just glad Slappy didn't do anything to hurt you, Britney. Now, you just need to find yourself a boyfriend.

Britney Crosby: I'm sure my current outfit can help with that. It was Poliwag who gave me the black sunglasses.

Poliwag: Hey! Don't make me an accomplice here!

Nico laughed.

Nico: But that is funny. But Britney you will find someone that's perfect for you.

Mrs. Crosby: That's true. But Britney I love your clothes. Where did you get those?

Britney Crosby: My friend in Team Loud Phoenix Storm, Maria made them. She, Leni Loud and Teresa Haylin make awesome clothes. I'm also a member of Nico's branch team called the Goosebumps Monster Busters.

Mrs. Crosby: That's amazing.

Nico: It sure is. I'm the leader of the Goosebumps Monster Busters and our mission is to eliminate all the Goosebumps Monsters that are terrorizing people all over the world.

Mrs. Crosby: That's a heavy job. But I strongly believe in you all. Slappy terrorized so many people and ruined their lives.

Nico: I know. But thanks for your support Mrs. Crosby and Britney is in good hands.

Britney smiled knowing that she is safe and that she can handle anything.

At the estate we were watching TV, reading books, playing card games and more. I was looking up on the computer the members of Organization XIII and figuring what Heartless they were before they became Nobodies. Nico came back earlier and he caught a Lilligant and Whimsicott.

Lana: The Heartless that the members of Organization XIII became were really terrifying.

Me: I know Lana. They were incredible though. But they were really powerful.

Lola: Which ones did we encounter again?

Me: Lets see. So far the ones we beat are Vexen's Heartless - the Cryoflamer, Demyx's Heartless - the Dragopool Dragon, Xaldin's Heartless - the Tornadic Deathstorm, Elena's Heartless - the Electrified Skyterror, Marluxia's Heartless - the 8-Headed Pain Rose, Lea's Heartless - the Nuclear Firepain, and Aeleus's Heartless - the Volcanic Death Crystal.

So far we've defeated 7 out of 13 Heartless for each member of Organization XIII.

Laney: We're almost half way there.

Sora: Roxas is still inside me and he was part of Organization XIII.

Me: I know. But he merged with you so we won't have to fight him. I hope. The only ones we have left to destroy as Heartless are Xemnas, Xigbar, Zexion, Saïx and Luxord. And I'm willing to bet that

Xemnas's Heartless is gonna be the most powerful one ever. He is Xehanort's Heartless after all.

Lea: Yeah that's true.

Xion: But I'm a Nobody and I was part of Organization XIII.

Me: Yes Xion we know that. But you have a light inside you that can pierce through the shadow of evil.

Nico: Lets not forget that Arixam is Maria's Nobody and Xnek was Ken's Nobody.

Me: That's what really surprised me. Maria and Ken didn't turn into Heartless.

Arixam: That's what really startles us Maria.

Maria: I know. You were born when I was cured thanks to the power of Tefnut.

Arixam: I know.

Kairi: And my Nobody Naminé is here. She's helping us out.

Me: I know. But I have a strong feeling that we're about to face Saïx's Heartless next.

Luan: If we do then we better be ready for him.

Rita: And I want to help you out against him.

Me: We would love to have you help Ms. Rita. We're always willing to give you a shot. You did get Lightning Powers and Super Elasticity.

Rita: That's right and I can now be in multiple places at once now.

Me: I know.

Lincoln came in and he had the mail.

Lincoln: Mail's here guys.

Me: Oh cool.

I went through it and we got a lot of neat stuff. But there was one letter that was out of the ordinary.

Me: Hmm. What's this one?

I opened it and it was a note.

Me: It's a note. (Reading)

"Dear Bloo,

This is your future wife Berry. Guess what?

I have Timmy Turner's Parents and I am holding his parents hostage.

If you want to see them alive again, you will marry me in a wedding to become mine.

I love you Bloo.

Berry."

It was a ransom note!

Me: It's a ransom note!

Lori: But who is Berry?

Me: Sounds like she's an imaginary friend that Bloo knows.

Bloo: Oh man! She is the worst! She has an insanely mad crush on me!

Me: Let me see here.

I looked up her profile and she was a pink imaginary friend only half of Bloo's size and she's a homicidal and envious psychopathic imaginary friend.

She first appeared in "Berry Scary" where she arrived at Foster's with luggage from an unknown home. She was welcomed by Frankie, but her eyes were stuck on Bloo. She instantly fell in love, and followed him everywhere he went. The first sign of her jealous personality was shown when Bloo got up from the dining room table to get cake, and another imaginary friend took his chair. Berry asked him politely to leave, but he refused. She then got angry and yelled, and the imaginary friend got up and ran.

Berry followed Bloo to his bed room, where she met Mac. When she learned that they were best friends she grew an instant hatred for Mac, and planned to get rid of him. When Bloo and Mac were outside in an attempt to break the world record for most paddle palls paddled, she arrived and cut the string with scissors, causing the ball to fly across the field. Bloo was about to retrieve it when Mac pulled out a spare. He began the paddling again, and Berry once again cut it. This time Bloo was forced to go get it, and Berry started a conversation with Mac. She drew a knife and began slashing an unknown object off screen with anger in her eyes. When she finished, she grabbed the object which were rice crispy treats, offering one to Mac. Mac, unsure about Berry, denied the offer.

Over the course of the next few days Berry would interfere with their world record plans, even putting Mac's life in danger by locking him in a freezer. Finally, Berry met Bloo in the bathroom and told him that Mac must have been getting in the way of their world record plans, and told him to work with her instead. That evening, Berry showed Bloo the world's biggest rubber band ball she had been working on, and asked if Bloo would help her with the last rubber band. The entire house was watching, until Mac arrived to stop them by cutting the last rubber band. Mac and Bloo then used a new rubber band to strap Berry to the ball, and her constant squirming caused the ball to roll back and break through the wall. She rolled off into the distance, eventually breaking the world record for longest distance traveled while strapped to the world's largest rubber band ball.

Her next and last appearance was in "Affair Weather Friends" where she disguised herself as a rich boy named Barry Bling. She was given a tour of Foster's, eventually asking Mac if she could purchase Bloo for a hundred dollars. Mac refused the offer, and "Barry Bling" kept raising his offer, eventually going to ten thousand dollars. Mac refused even this, and Berry left. On the way out the door she said that now she had nothing to do but to play with the thousands of toys he owned, including an automatic paddle ball. This caught Bloo's interest, and would sneak out of Foster's on a daily basis to play with Berry.

Eventually Mac found out about what Bloo was up to and lost stormed off to Berry's mansion to confront the two. He couldn't find them anywhere, but did find many unusual things (several Barry Bling costumes, the tied-up family who owned the mansion, and a shrine to Bloo). Eventually, Mac found the toy room, but the lights went out and a strange noise could be heard.

When they were turned back on, Mac found himself tied to the world's largest rubber band ball and was confronted by Berry, who ripped off her costume and rolled the ball onto a set of train tracks. The ball was placed just right so that if a train would be coming it would hit and kill Mac - which is just what Berry planned on! She got in the toy train and turned it on, and the train raced at Mac. Just when all hope seemed lost for the boy, Bloo arrived and didn't even notice that Mac was in danger. Finally, he realized what was going on, and Berry tossed her automatic paddle ball at him. Bloo was torn between saving Mac or taking the paddle ball. He came up with a plan and took the paddle ball, turned it on, and launched the ball at Mac. Mac grabbed onto the ball with his mouth and was pulled from the trap. Berry hit the rubber band ball and was once again strapped to it, which broke through the wall and rolled off into the distance with Berry screaming. It is unknown what happen to her afterwards whether or not she survive this time like before.

Me: Whoa! This Imaginary Friend has some serious problems!

William: Why would Berry want to kidnap Timmy's parents?

Bloo: Maybe as a bargaining chip for me to marry her. Well, Berry can have them.

Eddy: (snickers) Funny that they got captured by an imaginary friend smaller then them.

Timmy: (laughs) You said it! They're so dumb that they weren't even prepared for Berry's attack.

Nico: Soundwave, send the coordinates of where Mr. and Mrs. Turner were last spotted. We need to rescue them.

Raythor: What?! Nico, you can't be serious.

Animorphs Rachel: Please reconsider this.

Timmy: (angrily) After how my so called parents left me at Icky Vicky's mercy so many times, Berry can kill them for all I care.

We gasped at what Timmy said.

Me: Timmy that's a terrible thing to say!

Varie: Yeah they may be idiots but they are still your parents.

Wanda: Varie is right Sport. I know that your parents haven't been good to you, but you need to think about this.

Nico: That's right. I'm not a fan of them either. But we still have to save them.

Brian: Nico, this is Mr. and Mrs. Turner we're talking about here. Even if we save them, they're still not going to stop neglecting Timmy.

Nico: I know. But with great power comes great responsibility.

Spiderman: Nico's right. And it's our responsiblity to save Timmy's parents. Even if they were neglectful to him.

Chester: Come on, dude. You gotta go with.

Timmy: No way in Hell. Look, guys, I just can't save my parents after everything they've caused.

Optimus Prime: We support your choice, Timmy. Given your history with your parents, your judgment will be clouded, and will comprise the mission.

Tootie: Don't worry, guys. Me and Trixie will talk with Timmy about this.

Trixie: I guarantee that after half an hour, Timmy will join you out there.

Me: As much as I want to agree with Timmy, I'm afraid Nico has a very good point. If we don't rescue Timmy's parents we're gonna end up becoming as bad as all the villains we killed and the villains that want to kill us. Sure Timmy's parents may be idiots and they are completely uneducated but they are still people nonetheless.

Maria: You really think Timmy's gonna sit back while Berry and her goons kill his parents?

Skywarp: I don't blame him if that's the case. His parents were neglectful towards him. Me and the rest of the gang may have worked for Starscream and Megatron before meeting you guys but even we drew the line at neglecting sparklings.

Nico: I agree.

Skywarp: I'll find their location.

Skywarp scanned the area and they are at Fosters Home For Imaginary Friends.

Skywarp: They're at Fosters.

Me: Then that's where we need to go. Timmy, we'll leave you here with Tootie and Trixie. If you are up for helping us, you can. Lets roll!

We set out for Fosters.

---

We arrived at Fosters Homer For Imaginary Friends and we were hiding in the bushes and we saw Timmy's parents tied to a pole with wood around it. They were gonna get ready to burn them at the stake like back centuries ago. We saw Berry and she was a small Imaginary Friend. But we also saw a horribly grotesque Heartless with Berry. I recognized it as Saïx's Heartless.

Saïx's heartless looked like the Blair Monster from The Thing in 1982 and it had moon tentacles and Saïx's head that was half human. It had the Glowing Yellow eyes of a Heartless. It was called the Lunar Gore Travesty.

Me: What the fucking hell is that thing?

Nico: That's Saïx's Heartless. The hair is completely unmistakable.

Lea: I can't believe that Isa's heartless looked like that.

Elena: Me neither. It's horrifying.

Lea: I know. The man that once was my best friend is gone forever.

Saïx's original self, Isa, was the best friend of Lea, the original self of Axel, being the foil to his friend's zany antics. Prior to their attempt to infiltrate Hollow Bastion, Isa and Lea find Ventus. Watching Lea cheer the boy up, Isa joins his friend in sneaking in before they are thrown out of the castle by Dilan.

Years later, Isa's heart was removed from his body by Terra-Xehanort, creating Saïx.

Saïx plays a relatively important role in Organization XIII, assigning missions to all the other Organization members. Saïx is the one who gave Xemnas's orders to Axel to eliminate traitors to their Organization in Castle Oblivion. It is generally accepted by the remaining members that at this point the two planned to not only eliminate traitors, but also anyone who stood in the way of their plans, such as Vexen and Zexion. Saïx is also revealed to be the one who picked which members would be going to Castle Oblivion, namely the members suspected of being traitors, as well as anyone else who was "getting in the way".

After Axel's return from Castle Oblivion and his growing friendship with Roxas and Xion, a rift between Saïx and Axel begins to form. He eventually confronts Axel of this, as their friendship is more concrete because their original selves were best friends. Eventually, Saïx dismisses his previous plans with Axel as "just an idle fantasy", as they both have changed too much for them be friends anymore.

Working on Organization XIII's plans for Sora with Xemnas, he later challenges Roxas to a battle of will when the Keyblade wielder attempts to leave Organization XIII. He loses the battle, and Roxas escapes. Up until Xion's destruction and absorption at the hands of Roxas, Saïx views the Sora copy as nothing but a mere, hooded puppet. He even insists that the others would say "it" when referring to Xion, rather than "she".

After Xion's end, Xemnas orders Saïx to retrieve Roxas, who is on his way to the Castle that Never Was to defeat Organization XIII and free Kingdom Hearts, because he believes it will resurrect Xion. While not confronting Roxas himself, it is possible that Saïx was the one who sent the Neoshadows after Roxas, who destroys the Heartless easily.

Saïx's first appearance is in Hollow Bastion, along with all surviving and loyal Organization members to taunt Sora.

Saïx first appears in the Sandlot after Sora and company rescue Seifer from the Nobodies. Saïx appears before the trio, applauding their battle skills. He informs them of a traitor, Axel, and believes that he might be in Twilight Town somewhere. Sora insults the Organization, remarking on how they're "not a very organized Organization." Saïx is unfazed, and tells Sora to watch his back, for Axel will stop at nothing to turn him into a Heartless. Sora declares he is not worried, prompting Saïx to remark that the Organization would want nothing to happen to Sora. He also cryptically remarks that the Organization knows how to "injure a heart". He then opens a portal of darkness behind him, and Sora thinks of jumping in after him, though Saïx overhears this and advises not to do so, lest he ends up like Riku.

Sora inquires as to what he means, but Saïx immediately leaves to report to Xemnas that he succeeded in placing Sora in a state of confusion and frustration to keep him going toward their goal. Saïx also states that Axel may prove a thorn in their side, which leads to Xemnas giving him orders to deal with the renegade.

Saïx next appears in Hollow Bastion during the Heartless invasion, interrupting Axel and Sora's conversation, and forcing the traitor Nobody to flee. Saïx ensures that Axel will be rightly punished, but

Sora is not mollified, his only goal being to enter the realm of darkness to rescue Kairi. His face unreadable, Saïx asks Sora to prove just how much he cares about Kairi. In response, Sora actually gets onto his knees and begs at the Nobody's feet. Seeing Sora's devotion to the Princess of Heart, Saïx sees this as a further opportunity to enrage and confuse Sora so that he might further the Organization's goal. He refuses Sora's wish, eliciting a hot fury. Bending Sora's anger to suit his own needs, Saïx convinces Sora to destroy more Heartless so that the hearts held within them are released by the Keyblade. Then they may flock to Xemnas' synthetic Kingdom Hearts, which will be all the closer to completion because of it.

At that moment, Maleficent appears, declaring with much aplomb that Kingdom Hearts will belong to her. She summons more Heartless to attack Saïx, despite Sora's protests, but Saïx calmly summons several Nobodies to destroy the attacking Heartless. Maleficent then places herself between Sora and the Nobodies, telling him to devise a way to vanquish the Organization. Swarmed by Nobodies, she is overwhelmed and disappears, allowing Saïx to resume convincing Sora to release more hearts. But before he can finish his ploy, Sora, Donald, and Goofy are rescued by a portal of darkness that swallows them up (which was Maleficent's doing).

Saïx is seen again talking to Kairi in her cell in the Castle That Never Was within the world of Nobodies. He tells her, much to her horror, that she is the "fire that feeds Sora's anger." Kairi realizes that Sora is getting lured into a trap all because of her. However, Naminé unexpectedly appears in her cell and rescues her through a portal of darkness. The two halves then begin fleeing the Castle to try and make good on their escape. Saïx soon appears and attempts to stop Kairi and Naminé, but Riku (still cloaked and in the form of Xehanort's Heartless) attacks him from behind. Saïx does a backflip in the air and lands a few feet away. Riku slams him up against the wall, intending to finish him once and for all. However, Saïx opens up a portal behind him and sinks away into the wall with a smirk.

Saïx again appears in the Castle That Never Was to Sora, who had managed to work his way through the Organization's floating fortress with the help of Donald, Goofy, Riku, and Kairi. He looks lovingly upon his Kingdom Hearts, his source of power. He tells Sora that Kairi no longer needs him and makes a cryptic remark about a "friend from the darkness." Sora is not deterred by Saïx's manipulative comments, but Saïx is not concerned. He tells Sora that the Organization's Kingdom Hearts is nearly done, pointing to the heart-shaped moon in the sky. He then enigmatically asks Sora if he can hear the euphoria of the countless hearts he has harvested. He summons more Heartless for Sora to destroy, but his attention is quickly turned to Maleficent, who has also infiltrated the castle along with Pete. He takes this in stride, wondering in an amused voice if the intrusions will ever end, and soon after vanishes to check on Kingdom Hearts.

Saïx appears to Xemnas, who is watching Kingdom Hearts come closer to completion. He asks the Superior if he can end this "charade", and Xemnas grants him permission. Sora's part in their plan is done with and he can now safely be killed. Saïx smiles savagely and remarks that he's waited so long to hear that.

Saïx awaits Sora, Donald, Goofy, Riku, and Kairi in a room with a direct view of Kingdom Hearts: Addled Impasse. He calls Sora by the name of "Roxas", saying only he could have made it this far, though Donald vehemently states that he is Sora. Saïx seems not to care, simply stating: "Different name, same fate." Then, summoning his claymore, he creates a potent shockwave with sheer strength alone. This power manages to push away Kairi and Riku back towards the entrance of the room. He then quickly erects a force field, separating them from the battle, yet doing no harm. Them taken care of, he confronts Sora, Donald, and Goofy for the final time. He finally lets his outer decorum slip away. Under the influence of the moon, he becomes savage and unrestrained, truly a model for his Berserker Nobodies.

However, despite Saïx's great strength, speed, power, and skill, he is overcome. Defeated and mortally wounded, he limps away from Sora to the ledge overlooking the moon. With the last of his strength, he asks: "Why… Kingdom Hearts… Where is my heart?" All his power gone, he now fades back into is revived in Radiant Garden, along with Lea and the rest of Ansem's apprentices save Xehanort. Young Xehanort arrives and, with Braig's assistance, takes Isa to join the new Organization.

Saïx, revealed to have been infused with a fragment of Xehanort's heart, is made a member of the new Organization. When Lea attempts to save Sora from being turned into the thirteenth member, Saïx is sent to stall Lea, much to Lea's horror.

Saïx first appears in the Keyblade Graveyard with a hooded Vexen, who had chosen to return to the Organization to continue research on his Replica Program, saying Ansem did not appreciate his abilities while Xehanort did.

Saïx later appears at the Clock Tower in Twilight Town with Lea, but with no intention of fighting him. The two talk as if they were still friends, their conversation revealing their true motives for joining the original Organization XIII; as Somebodies, they had befriended a girl only referred to as Subject X, and was held inside the castle. When she disappeared, the two became apprentices for Ansem the Wise before he too disappeared and Isa became a Nobody alongside Lea. Their entire reason for climbing the ranks of Organization XIII was to get information on Subject X and learn what happened to her, knowing full well that Xemnas, as Xehanort's Nobody, has knowledge of her predicament, but they had no luck in finding her. Saïx's anger at Axel's newfound friendship with Roxas and Xion was out of betrayal, feeling Axel had decided to forget about Subject X. Lea rebuffs, trying to persuade Saïx to leave the new Organization, but Saïx retorts by saying Roxas is gone forever too. Saïx and Lea part ways fully expecting to battle one another at the fated place.

This ends up being true as Lea and Kairi fight both Saïx and another member before Sora intervenes. Saïx overpowers him, and Lea once again tries to persuade his old friend to stop, until Xemnas arrives and berates Lea for his treason. Saïx simply watches as Xemnas mercilessly attacks both Lea and the other member (revealed to be Xion) before Roxas arrives to save them. Xemnas kidnaps Kairi, leaving Saïx to deal with their enemies. Sora, Roxas, and Xion fight and defeat Saïx. When Lea approaches Saïx, the latter asks why he looks sad. Lea responds by commenting on what the Organization has reduced Saïx to. Saïx once again reminds Lea of his betrayal, not to the Organization, but to him, as he befriended Roxas and Xion while abandoning their goals after everything Saïx had done to try and find her. Lea assures him he never forgot, which Saïx knew deep down, allowing his jealousy to get the better of him. He fades away in Lea's arms, being called by his real name before being reborn as his original self.

Through a Secret Report, it was revealed he was actually a key part of the Guardians of Lights' victory; having met Even, both expressed a desire to atone for their past actions. Since Saïx was already in the real Organization XIII, he had the ability to bring Even in as a Nobody once again, the latter willing to sacrifice his new life to get access to his Replica Program, which would allow Roxas, Xion, and Naminé to become human and therefore coexist with their original selves.

Me: I just can't believe that this is what he became. And Organization XIII had him in their plans to destroy the universe.

Nico: I know.

Me: Lets go!

We fired energy blasts and created a smokescreen and The Flash moved with incredible speed and freed the Turners.

Berry: Stop them!

The smokescreen vanished and we were standing in front of Berry with the Turner's in our protection.

Berry: Team Loud Phoenix Storm! (Seductively) Hello Bloo.

Bloo: I'm not your boyfriend!

Me: That's right Berry.

Saïx: Lea.

Lea: Hello Isa. How nice to see you again.

---

At the estate, Timmy, Trixie, and Tootie were watching a Godzilla movie. Timmy was watching the action with interest, while Tootie and Trixie's gazes were anywhere but the TV.

Timmy: Godzilla and King Kong. You two are missing the smack down.

Trixie: No, you're missing the smack down.

Tootie: Which stinks, because your parents are your responsibility, not JD's, and definitely not Berry's.

Timmy: Girls, you just don't understand. My parents are the reason Icky Vicky tormented me for so many years. You have no idea of all the trouble that they've caused. I'm not rescuing them, okay? Not now, not ever.

Tootie: You don't have to forgive them, Timmy. But saving them is the right thing to do.

Timmy: Give me one good reason why I should rescue them.

Trixie: Because Ohana means family. And family means no one gets left behind.

Timmy started to realize that Trixie and Tootie were right.

---

We were facing the Lunar Gory Travesty and Berry.

Me: This Heartless form is perfect for you Saïx. It really brings out your personality: Cruel, Malicious and intending to kill everyone like the monster you have become.

Lunar Gore Travesty: I don't know why all of you are trying to stop us. We hate Timmy Turner's parents just like all of you do.

Carly Beth: But to kill the two of them, even after everything they caused?!

Berry: Why not? We don't like Mr. and Mrs. Turner. You all don't like Mr. and Mrs. Turner. So us killing them will be a favor for Timmy.

Unless Bloo decides to marry me, of course.

Bloo: Fat chance you pink freak!

Lea: Just out of curiosity, Saïx. What do you think Berry's gonna do with you once she gets Bloo? I doubt she's gonna make you her best man. Once she gets what she wants, she's gonna toss you aside.

Lunar Gore Travesty: Like you tossed me aside?

Lea: You and I both made decisions that led up to this point. What matters, Isa, is your next move. And I'm willing to bet that underneath that Heartless shell is the old you somewhere.

Lunar Gore Travesty: He's gone forever. Just like you all will be!

Me: I don't think so you freak!

We powered up and transformed.

Me: Things are now totally different than when we fought the last time Saïx. We're now far more powerful than ever before. Lets get them!

We went at the Lunar Gore Travesty and Berry and we punched and kicked them all over the place.

Luan called out her Claymore she got called the Lunatic.

Lunar Gore Travesty: So you now still use my claymore Luan.

Luan: That's right and I'm going to send you back to the Moon! (Laughs) Get it? But seriously, I'm going to kill you again!

Luan bashed him in the head with his Claymore and pulverized his head with indiscriminate fury. She fired a powerful blast of moonlight at the Lunar Gore Travesty and it burned him all over.

Rita fired a massive blast of lightning and electrocuted him all over the place.

Then suddenly Timmy appeared and kicked him in the face.

Mac: Alright, Timmy!

Luan: I knew he'd join in on the fun!

Lunar Gore Travesty (to Timmy): You fool. You could've let your parents burn. But instead, you chose to save them. Why?

Timmy: They may be my stupid parents and they have left me at the mercy of Icky Vicky, but that doesn't mean that they are still my parents.

Luan bashed the Lunar Gore Travesty in the stomach and kicked him in his huge mouth and bashed him with the claymore again. She slammed it into him with devastating force and smashed him with even more devastating force.

---

Eddy fired a massive blast of light at the Lunar Gore Travesty and it hit him and burned him.

I punched him in the face and knocked out some teeth.

Me: You are just the lowest of the lowest Saïx! You killed so many innocent people all for your own selfish gains to destroy the entire universe!

Laney: That's right! You make me sick just looking at you!

Luan bashed him again.

Thrust: Lets get him with our combos and Final Smashes!

Luan: You got it Thrust!

Thrust: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back jet engine and it enabled a powerful missile launcher to pop out of him and more missiles were there.

Skywarp: Lets get him! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and more missiles and more heat-seeking missiles popped out.

G1 Thrust and Skywarp: MISSILE FIRESTORM BARRAGE!

They fired numerous missiles at the Lunar Gory Travesty and they hit him all at once and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Luan: Lets get him mom! I'll start!

Luan flew at the Lunar Gore Travesty and flew into the air.

Luan: CRESCENT MOONLIGHT SLASH!

Luan flew to him and formed a powerful energy crescent moon blade and she swung her Claymore and slashed the Lunar Gore Travesty right down the middle.

Rita: My turn! LIGHTNING STORM PUNISHMENT!

Rita fired a massive blast of lightning and it slammed into the Lunar Gore Travesty and it made him explode.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Saïx was killed instantly in the explosion and then he was sucked into the portal into the river of fire.

Lea: Goodbye old friend.

The fight with Berry was a rough one. I punched her in the face and Bloo kicked her in the face.

Carly Beth fired a massive barrage of razor sharp flower petals and cut Berry good.

Lola and Lana punched and kicked Berry all over the place.

Me: Lets finish this! Combo and Final Smash time!

Carly Beth: You got it J.D.! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and it enhanced her flower and water powers 100-fold.

Jetfire: (Australian Accent) Lets do this mates!

Jetfire turned into Cybertron Jetfire.

Cybertron Jetfire: CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and a powerful laser cannon popped out.

Carly Beth and Jetfire: LASER FLOWER CUTTERSTORM!

Carly Beth fired a massive storm of flower petals and Cybertron Jetfire fired a massive energy cannon blast from his back cannon. They blasted and shredded Berry.

Mac: Lets get this monster! POWER OF IMAGINATION AND FRIENDSHIP!

Mac thought of everyone he knows and loves and he fired a massive blast of energy and the spirits and power of everyone he knows appeared in the blast and it hit Berry and exploded.

KRABBBOOOOOOOOOOOOOOOMMMM!

Bloo: Lets show her! BLUE BURST BOMB!

Bloo fired a massive blue energy bomb and it slammed into Berry and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOMMMM!

Berry was knocked down and she was defeated.

I picked her up.

Me: Berry I think you need a nice long stay in our newest prison.

We sent Berry to the Jupiter Prison for Imaginary Fiends. Her cellmate was Bendy.

Nico: Berry and Saïx, you have failed this whole universe.

Me: They sure have.

Then we faced Timmy's parents.

Jetfire (to Timmy's parents): Someday, you two are gonna have to repay your debt to us. The day when it comes time to choose sides.

Mrs. Turner: Between all of you and the Legion of Doom?

Thrust: No. Between your own wants and needs and your own son. (to Mr. Turner) And I think it would be best if no one else at Dimmesdale knew about this little rescue. After all, you do want Dinkleberg to believe that you and your wife escaped on your own, right?

Timmy: Listen, guys. Thanks for convincing me to save my parents.

Trixie: No problem, Timmy.

Me: I'm glad they helped you out.

Mac: (To the viewers) Neglectful Parents are always a problem and to all bad parents out there, if you mess with the safety of children, Team Loud Phoenix Storm is coming for you.

Me: You said it Timmy.

Timmy's mom and dad were placed on supervised probation for their neglect on Timmy. But if they try anything stupid again, it's prison time.

THE END

# SpongeBob's Big Birthday Blowout

Note: This takes place before Amusement Park From 100 Hells

---

In Bikini Bottom, SpongeBob is sleeping in his bed. Gary is holding a birthday present for SpongeBob while sleeping. Moments later, the alarm clock goes off.

SpongeBob's alarm clock: Wake up!

Gary: [meows "Happy Birthday"]

Lily and Maria were under the sheets and they lifted off and Lily had a party blower and she toot it.

Lily, Maria and Horsea: SURPRISE! HAPPY BIRTHDAY SPONGEBOB!

SpongeBob: What? Today? My birthday? Oh guys, you know I never pay attention to those sorts of things.

Maria: Are you kidding SpongeBob, we would never miss your special day.

Lily: That's right Mr. SquarePants. We love celebrating birthdays.

[SpongeBob hops out of his bed and streamers and confetti fly out. He blows the noise maker a couple times and laughs. He opens Gary's present, which reveals to be a jellyfish net made out of slime.]

SpongeBob: [gasps] Oh, wow, Gary! Did you make me this jellyfishing net yourself?

Gary: [gives SpongeBob a thumb's up with his slime] Meow!

[SpongeBob swings the slime jellyfish net around, but splashes slime all over his bedroom. Some slime flew out his window and landed in Squidward's coffee as he's getting the newspaper. Squidward sips some of his coffee, unaware of the slime being in it. SpongeBob swings the net until it is gone.]

SpongeBob: Best present ever! [hugs Gary and laughs]

Maria: What do you want to do for your birthday, Spongebob?

Lily: We have a special surprise all planned for your big day Mr. SquarePants.

Horsea: You know it.

[Gary happily licks SpongeBob. The scene scrolls over to Patrick's house, where everyone is planning a surprise party for SpongeBob. However, due to Patrick's idiocy and lack of concentration, everyone appears to be tired.]

Sandy: (Southern Accent) Aw, come on, Patrick. We've been up all night. For the one millionth time, [flips the board while she's explaining her plan] you're going to get SpongeBob out of his house with a sight-seeing tour so we can go in and decorate it for his surprise party. [leans in closer to Patrick's face] Okay?! Repeat it back to me.

Patrick: Gotcha. I'm gonna collect all the pretty eggs that I can see and repeat it back to me.

[Everyone groans angrily at Patrick's stupidity. Sandy facepalms in disgust just as she's about to give up. Suddenly, Patrick's alarm clock on his wrist rings.]

Pearl: Hmm? [looks at his clock] Oh, would you look at the time? It's almost time for me to take SpongeBob on that tour so you guys can decorate his house.

Mr. Krabs, Mrs. Puff, Old Man Walker, Bubble Bass, and Pearl: [surprised and confused] Huh?

Pearl: Huh. I guess even a broken imbecile can be right once a day. [Goes over to his left side]

Patrick: Okay, well, don't mess with my stuff in there. [the scene changes to Patrick walking to SpongeBob's house while tapping his head] Get SpongeBob on the bus. Get SpongeBob on the bus. Get SpongeBob on the bus. [knocks on SpongeBob's front door]

Pearl hides behind the house.

SpongeBob: [answers the door] Hi, buddy.

Patrick: Uh… [drools a river of saliva]

[SpongeBob giggles happily and Patrick makes a creepy face while drooling. SpongeBob blows his noise maker and Patrick makes a even creepier face while drooling. Patrick drools out a saliva bubble from his mouth. The saliva bubble floats over to SpongeBob.]

Lily: Hey Patrick.

Maria: Hiya Patrick.

SpongeBob: [gasps] You remembered my birthday! [ties a string on the saliva bubble to make a balloon before it pops in his face]

[Patrick makes an uglier face while continuously drooling a river of saliva. Just then, a fish tank bus pulls over to SpongeBob's house.]

SpongeBob: Oh, and you got me a sight-seeing bus tour as a present!

Lily: No silly. That's not the present.

Maria: You're gonna have a lot of fun today.

Horsea: I agree.

[Patrick turns around while drooling a river of saliva.]

Patrick: [wakes up from his stupidity] Huh? Oh, oh! And-and there's a secret I'm not supposed to tell you, which is… [strains himself until his eyes pop out and fire ignites in his skull; SpongeBob gives Patrick a glass of water to put out the fire and the eyeballs grow back; reducing back to his stupid behavior] Nope. I lost everything in the fire. Who are you? Who am I? Where are we?

Lily: You're Patrick and I'm Lily, you live here in Bikini Bottom.

SpongeBob: I have an idea, pal. How would you like to take a little sight-seeing tour with me?

Patrick: Wow. Thank you, kind stranger.

Maria: Varie, you're in charge of everyone at Spongebob's house until we get back.

Varie: Aye aye Captain!

[SpongeBob closes the door and locks it with his keys. Pearl peaks out from Patrick's pocket and reaches to the other pocket. Pearl reaches into SpongeBob's pants to get the keys and she got them. Lily, Maria, Horsea, SpongeBob and Patrick board the tour bus and drives away.]

Pearl: I got the keys.

Mr. Krabs: [chuckles and grabs the keys] Nice work me little angel. [unlocks the door and lets Sandy, Karen, Mindy, and Mrs. Puff in]

Mindy: I'll stay outside and keep a lookout.

Mr. Krabs: Okay lass. Give a sound when you do.

Mindy: How's this? (MOANS LIKE A BLUE WHALE!)

Mr. Krabs: That's perfect lass.

Sandy: [carries SpongeBob's TV out of the house] Come on! We need to make room inside for the party.

Karen: [carries SpongeBob's armchair while Mr. Krabs sits on it]

Mr. Krabs: [holding a plant while sitting on the armchair] Sorry, my claws are full.

Gali: [carries SpongeBob's sofa and hook out with Mrs. Puff] There we go.

Mrs. Puff: You're very strong Gali.

Gali: Thanks Mrs. Puff.

Sandy: Follow me. Just a little further.

[Meanwhile, Squidward is coming back from his early morning walk.]

Squidward: [humming to the music from his headphones before looking in the mirror] Ah, I sure worked up that sweat. [a tiny drop is shown on Squidward's nose; he opens the door and all of SpongeBob's stuff fall on him] What is SpongeBob's awful furniture doing in my house?

Sandy: [lassos Squidward by the nose and pulls him to SpongeBob's house] We're gussying up SpongeBob's house for his party, and something about you tells me you are quite the interior decorator.

Squidward: Hmm? [unties the rope off his nose] Of course! I didn't give myself all those awards for nothing!

[The scene shows all of the decorating trophies Squidward won for himself.]

Sandy: Yee-haw! SpongeBob's place is gonna look prettier than a country bride!

[The scene shows a cow waiting for her groom at a wedding in Texas. The scene then changes to the bus tour Lily, Maria, Horsea, SpongeBob and Patrick are having.]

SpongeBob: Whoo-hoo! Oh, this is so exciting! I wonder where we're going?

Rube: We're going to Surface Land! [pulls the lever and shows the sign on the bus saying, "Surface Land"]

SpongeBob, Patrick, and the tourists: [exclaiming in amazement]

SpongeBob: Surface Land? [screams happily]

Patrick: [screams in fear]

Lily: Awesome! Me, Maria and Horsea are from the surface and we know all about it.

Rube: [turns around to speak to the tourists] Hi, everybody, and welcome to Surface Land Tours! I'm your tour guide, Rube.

SpongeBob, Patrick, and the tourists: Hi, Rube!

Lily: Pleasure to meet you.

Rube: Same here Lily and we love having the heroes of Bikini Bottom on board. Before we drive to the amazing Surface Land, I'm required to read you these tour bus rules. [takes out a long list of rules from his hat and reads] "Please sit in an upright position." [SpongeBob and Patrick sit upside down and gets into an upright position] "Absolutely no bad language!" [SpongeBob and Patrick say bad words as dolphin chirps are heard; they stop talking and cover their mouths] "No horseplay!" [SpongeBob and Patrick dance around in a horse suit and stop to sit back down] And no digging, no dancing, no tanning, no cooking, no fencing, no drowning, no molting, no running, no trespassing, no peeking, and no balloons!" [pops SpongeBob and Patrick with a needle when they appeared as balloons]

SpongeBob: Aww. Not even birthday balloons?

Rube: [gasps] Oh, my goodness! Is it your birthday?

Lily: Yep. It's his birthday today.

SpongeBob: [his cheeks blow up and pop] Yes! [giggles]

Rube: Well, I would love for everyone to sing happy birthday to you! [puts a party hat on SpongeBob]

Tourist #1: Yes!

SpongeBob: Aww, really? That is so-

Rube: Not now, of course. Tour time is tight! [hops back into his driving seat] Whoa! [drives the bus back onto the road; then drives up a steep cliff, which makes every fall over] Okay, everybody, we're on Upseedaisy Street, and ready for lift off!

SpongeBob and Patrick: Lift off?

[Rube drives the bus upward to the sign that says "Dead End." SpongeBob and Patrick breath heavily in paper bags. The bus rockets up to the surface.]

Rube: Amazing!

Lily: WWWWWHHHHHHHHHHHHHHHEEEEEEEEEEEEEEEEEEEEEEEEEEEEE

SpongeBob: Oh, are we there yet?

Rube: Almost. But we need a little boast to the surface. [honks his horn]

[The bus descends downward until a submarine catches them.]

SpongeBob and Patrick: Yay!

French Narrator: (French Accent) One Little Boast to the Surface Later… [throws away the time card and drives the submarine up to the surface]

SpongeBob, Patrick, and the tourists: Ooh!

SpongeBob: Look, it's Sandy's friend, Frenchy! Oui, oui!

Rube: You can say that again, birthday boy. Oui, oui!

Patrick: [dances around while holding his pants] Can you guys please stop saying "wee wee?" [strains] Gotta go! Gotta go!

[Up on the surface, David Hasselhoff is kayaking on the water when the submarine knocks him over.]

Rube: Wave goodbye to Frenchy, everybody!

SpongeBob, Patrick, and the tourists: Goodbye, Frenchy!

French Narrator: Au revoir, my friends! [goes back into his submarine]

[Rube drives the bus off the submarine before it descends back into the ocean.]

David Hasselhoff: [groans] Ah! Tartar sauce!

[Rube drives the bus out of the ocean and heads over to the beach.]

Rube: Now remember, everyone, keep your arms and legs inside the bus at all times 'cause we are about to encounter a gaggle of nearly naked beach giraffes!

Lily returned to her normal size and picked up the aquarium.

Lily: I'm going to carry you guys the whole way. I know this whole place by heart and I know everything about the surface.

Horsea: Lily, please don't drop us.

Lily: You're in good hands. This is not a beach giraffe guys. This is a fisherman.

[They see a local fisherman in a raincoat.]

SpongeBob, Patrick, and the tourists: Ooh! [snaps photos with their cameras]

Lily: Ahoy there good sir.

Fisherman: (Nautical Accent) Top of the morning to ye lass.

[The fisherman catches what he assumed a fish. But it turns out he hooked his own walk by the fisherman as the tour goes on. They went past some party goers who are having a beach party. Everyone was dancing with the musical beat and are having quite a blast. They saw a sleeping man who is sunbathing. SpongeBob and Patrick are deeply amazed at what they are seeing. SpongeBob screams loudly.]

SpongeBob and Patrick: Nearly naked beach giraffes!

Lily: They are people sunbathing guys.

[The beach goers continue to dance. SpongeBob and Patrick hover onto Rube in deep fear.]

Rube: Don't worry, everyone. Everyone may look crazy, but they're actually peaceful creatures. Let's get a closer look.

[They went through the crowd without getting themselves stepped on. SpongeBob and Patrick continuously scream as Rube drives. Rube stops the bus in front of the stage. A man in a "Can-O Beans" costume appears on the stage.]

Can: Hey, kids, welcome to Beach Blanket Bean-go! [everyone cheers; opens his lid] And here's your host, Beanie McBeans!

Beanie McBeans: [pops out of the can and the crowd cheers wildly] Hey! What do you want?

Beach Goers: Beans!

Beanie McBeans: When do you want them?

Beach Goers: Beans!

Beanie McBeans: Ha, ha!

Beach Goers: Beans, beans, beans… !

Beanie McBeans: [cheers] Beans, beans, good for your heart! They make you strong, they make you smart! When I eat beans, I squeal! I eat beans with every meal! You do, too! You know you do! [everyone cheers] Beans, beans! [throws beans at everyone] Beans, beans, beans! [throws more beans at everyone and dances around]

SpongeBob and Patrick: Ooh!

Patrick: Oh, he's good.

Beanie McBeans: [to his first contestant] All right, you know the rules. First question: How many beans are in a 16 ounce can?

Contestant #1: Uh? Three million?

Beanie McBeans: Sorry! Wrong answer! [shoots bean slime from his cannon at his contestant]

[The audience gasps.]

Lily laughed.

Contestant #1: [short silence] Yeah!

[The audience cheers.]

Beanie McBeans: Better luck next time! And now it's time for our next contestant.

Contestant #2: [giggles] Hi!

Beanie McBeans: What is your favorite kind of bean?

Contestant #2: Um… strawberry beans?

Beanie McBeans: Is the correct answer! [shoots bean slime from his cannon at his contestant]

Contestant #2: Ooh! Yay!

[The audience cheers. Patrick starts to take a liking to beans and his mouth waters.]

Patrick: So many beans! [presses his face against the glass and whimpers]

SpongeBob: Uh-oh.

[Patrick could not resist and rushes over to the driver's seat.]

Rube: [gets pushed aside by Patrick] Whoa!

Patrick: Must have beans! [begins to drive wildly like a mad animal]

SpongeBob, Rube, and the tourists: Whoa! Uh-oh!

Patrick: Beans, beans, beans, beans, beans!

Beach Goers: Whoa! [feels Patrick running over their toes]

Rube: Stop! [screams]

[Patrick drives through the audience, skids over a man's back and flies over to the stage's microphone.]

Patrick: [jumps out of the bus] Wrong answer! [falls back in]

[Beanie McBeans fires bean slime from his cannon at the bus, which completely fills up with beans. Patrick goggles up all of the beans, but in doing so, drinks all of the water as well. Soon, everyone on the bus is drying up because of Patrick's arrogant actions. After eating the beans, Patrick sits down and is all dried up.]

SpongeBob: Patrick! You ate all the water!

Patrick: It's not my fault. The water got in the way!

Lily: I got this.

Lily used her wings and refilled the tank with water.

Rube: Ah! And we're back! Thanks Lily.

Lily: You're welcome.

SpongeBob: Yeesh, I thought this was my birthday, not my deathday! [laughs as Patrick makes a scared look on his face] I'm sorry, Patrick. I was just kidding.

Lily laughed too.

[Patrick screams as a big, white, fluffy dog approaches. Everyone on the bus panics upon seeing the dog for the first time.]

SpongeBob: Oh! What am I looking at?!

Rube: You're looking at an amazing creature that is just as afraid as you are of it.

SpongeBob and Patrick: [peeking out from SpongeBob's pants] I doubt it!

Rube: I'm telling ya, that is a blue feathered northwestern pie-dragon.

Lily: Aw that's not a dragon guys. He's a cute doggie.

Lily pet him and gave him a treat.

Lily: What a cute doggie sir.

Man: Thanks.

[Meanwhile, back at SpongeBob's house, Mindy was watching. But inside, things are going out of hand when everyone is making constant arguments about decorating the house. Sandy is not overly thrilled with their childish behavior because everyone is acting like spoiled and immature children.]

Mr. Krabs: I should be decorating! No one here knows diddly about SpongeBob! [continuously yells at everyone]

Squidward: I know more about SpongeBob than I care to! So I should decorate.

Mrs. Puff: [holds up a broken steering wheel] Have you ever taught him to drive?!

Pearl: [Slams her fists together] Or crush him!?

[Everyone continues to bicker.]

Sandy: Now hold your horses! Seems like everyone has their own ideas about how to decorate for SpongeBob.

Mr. Krabs, Squidward, Mrs. Puff, Plankton, and Karen: [stops fighting] Surprise!

Sandy: Not now!

Varie: Everyone calm down! I have an idea.

Varie made a perfect party plan that would have everyone do all kinds of things that SpongeBob likes and more. They also made a really great cake for him in the shape of a Krabby Patty. Gali was placed on Cake guard. And she was gonna make sure that not one crumb or glob of frosting on the cake is touched. PERIOD!

Gali: No one eat the cake until SpongeBob comes back!

[Meanwhile, back on the surface world, Lily was carrying the bus through the middle of a local park.]

Rube: Aren't these leafy things amazing?

SpongeBob: Ooh! My friend Sandy has one of these. They call them trees.

Lily: Yep. These trees are called pine trees. We have a lot of these where I'm from.

Rube: I didn't know that. Wow! Look at the big brain on the birthday boy!

Patrick: Nobody looks at my friend's brain without permission!

They saw squirrels and raccoons.

They saw a city that was incredibly familiar. It was Los Angeles, California.

Maria: Isn't this California?

Lily: Yep. This is Los Angeles, California.

Rube: Okay. We'll stay on the path, where it's not so dangerous. And I think that this is the perfect time to sing "Happy Birthday" to our little square friend here! [pulls SpongeBob from his seat and blows his kazoo]

Patrick, Rube, and the tourists: Happy birthday-

Charlie: Look out!

[All of a sudden, Patchy and Potty comes out of nowhere in a recumbent bicycle. Everyone on the bus screams in horror and skids the bus out of harm's way.]

Lily flies up and avoids him.

SpongeBob, Patrick, and the tourists: Road hog!

Lily: Hey be nice guys.

[Patchy and Potty continue pedaling down the path.

Lily is carrying the bus over the street.

SpongeBob: Wow! In Surface Land, everywhere you go is full of surprises!

Patrick: Yeah, I'm surprised we haven't crashed yet.

Rube: As you can see, Surface Land is full of unexplained wonders!

They went through a revolving door.

SpongeBob, Patrick, and the tourists: Whoa! [gets flung out of the spinning door and skids down the hallway]

SpongeBob: Best birthday ride ever! [the bus drives by some office desks] I've read about this place, Patrick. It's the Paperclip Jungle!

[Patrick looks around and sees officer employees minding their our business while doing paperwork. Patrick becomes frightened at everything he sees. One man drops a box of paperclips. Patrick screams and hides behind SpongeBob with a paperclip stuck on his head.]

Patrick: They're everywhere.

[Rube drives by some officer employees near a copy machine.]

Female Office Employee #1: Just let me copy it! [kicks the copy machine and paper flies out everywhere]

[Rube drives the bus into a conference room where some of the employees are having a private conversation with their job.]

Female Office Employee #2: My fault? How is it my fault?

SpongeBob: Ooh, what happens in here?

Patrick: Smells like flop sweat!

Rube: Shh! This is the secret hive of the Double-breasted Seer Suckers. Let's watch their strange rituals!

SpongeBob, Patrick, and the tourists: Ooh!

Female Office Employee #3: [comes in the conference room] He's coming!

Lily: These are not Seer Suckers guys. These are regular office employees. My dad used to be an office worker. And he was great at it. Now he opened up his own restaurant and it's awesome!

[The office employees gasp and quickly put on their gorilla masks.]

SpongeBob, Patrick, Rube, and the tourists: Huh?

Lily: Why are they putting on Gorilla Masks?

[One man in a gorilla mask, who is the boss, jumps in and pounds on his chest while making grunting noises like a real gorilla. The gorilla mask boss walks over to the front and pulls down a chart. He grunts to his employees that profits are decreasing dramatically and they all began to act crazy, wrecking everything in sight. The man with the dog comes in and joins in the chaos as well. The dog jumps onto the table and barks.]

SpongeBob and Patrick: This is so weird.

Rube: This bunch of bananas is getting too crazy to comfort. We'd better split! [hops back into his driving seat]

PA System: [voiceover] Lunch time!

Boss, the Dog, the Dog Walker, and Office Employees: [stops] Huh?

[The officer employees and their boss remove their masks and head out of the conference room in a very fast speed, nearly bumping into Rube's bus.]

Lily held up the tank with her wings and was braced up against the wall. They left for lunch. Lily and the bus left the building.

[The dog barks and stands on her hind legs before walking out. The officer employees and their boss all head for the spinning door. Rube follows the group and manages to drive the bus out of the building through the spinning door. Rube drives the bus over to a local fast food restaurant called the Trusty Slab, which is the reenactment version of the Krusty Krab back in Bikini Bottom. The office employees line up and enter the restaurant.]

SpongeBob: The Trusty Slab? Sounds familiar.

Lily: This is a surface world version of the Krusty Krab.

[They follow the office employees and enters the restaurant through the front door.]

Rube: Whew! Sorry for the detour, folks. Now back to de-tour.

[The chef flips a patty and rings the bell. Patrick's mouth begins to water at the sights of food in the Trusty Slab.]

Patrick: Ooh! [grabs a ketchup packet] They grow 'em big up here, SpongeBob! Oh, come here. [hugs the packet really tight and explodes ketchup everywhere; he laughs and licks the himself clean; he sees a spot on SpongeBob's nose and licks it too, which makes SpongeBob laugh]

Rube: Let's watch these hungry beach giraffes as they struggle to communicate.

[As they watch, a man, who appears to be a reenactment of Patrick Star, is at the cash register, struggling to decide what to eat. It was Bill Fagerbakke, the Voice Actor of Patrick. The cashier, who appears to be a reenactment of Squidward, is waiting impatiently. It was Rodger Bumpass, the voice actor of Squidward Tentacles.]

Patrick (live-action): No, no, wait! Uh, I'll have the, uh…

Mr. Manward: Sir, could you please order something? There are a lot of people waiting here. Some of us have lives.

Patrick (live-action): Oh, don't rush me! I almost had it! Uh…

Patrick: [laughs and spits out the ketchup packet] That guy's so dumb!

Lily: Those guys sound familiar?

SpongeBob: They sure do.

[Just then, a woman in an astronaut suit, who appears to be a reenactment of Sandy, walks up to the cash register and she's not very happy. It was Carolyn Lawrence, the voice actress of Sandy Cheeks.]

Carol: (Southern Accent) Where in tarnation is my lunch?! The service here is slower than a three-legged dog in molasses!

[The other customers chatter in agreement. Just then, a man, who appears to be a reenactment of Mr. Krabs. It was Clancy Brown, the voice actor of Mr. Krabs and he hears the commotion and comes out of his office.]

Mr. Slabs: [gasps] Me customers! All right, all right, all right! What's the hold up here, Mr. Manward?

Mr. Manward: How should I know? Go ask your persnickety fry cook. Between him and this other idiot, we're not gonna make it through the lunch rush alive.

Mr. Slabs: Well, I'll just see about that! [takes Patrick's dollar and puts it in the cash register] You'll be having the number three with cheese!

Patrick (live-action): Aw, that's what I was gonna order. [Mr. Manward rolls his eyes in annoyance] I'll have the-the number cheese with cheese.

Mr. Manward: Don't you have somewhere else to be a nitwit?

Patrick (live-action): Not until 4:00.

[Mr. Manward facepalms in disgust as Mr. Slabs laughs, thinking it was a joke. He heads into the kitchen where the chef, who appears to be a reenactment of SpongeBob, is busying making food on the grill. It was Tom Kenny, the voice actor who plays SpongeBob. Lily went into the kitchen.]

Mr. Slabs: [comes in the kitchen] JimBob!

JimBob: Hi!

Mr. Slabs: Got a restaurant full of hungry customers out there! Where are the burgers?

JimBob: Ooh, Mr. Slabs, you know that I can't serve a Slabby Patty until it's cooked just right! [gently pinches Mr. Slabs' cheek] Slabby Patty and it's cooked just right, Slabby Patty, day and night, what a nifty tasty sight! Slabby Patty and it's cooked just right-[continues singing]

SpongeBob: I love this guy! [laughs]

Lily: He sounds just like you Mr. Squarepants.

JimBob: [rapidly spins around and around] Doo, doo, doo, doo, doo, doo, doo, doo! Doo, doo, doo, doo, doo, doo, doo!

Mr. Slabs: Enough of that!

JimBob: Sorry, sir.

Mr. Slabs: Get those ship-shape burgers shipped out or you'll be doing soft shoe across the street at the Crumb Basket!

Lily: The Crumb Basket?

Maria: That sounds like a cheap knock off of The Chum Bucket.

Lily: It sure does.

[The Crumb Basket, which is the reenactment version of the Chum Basket back in Bikini Bottom, appears on the screen for a split second.]

JimBob: Yes, Mr. Slabs. It won't happen again, Mr. Slabs. Sorry, Mr. Slabs.

Mr. Slabs: [grunts angrily] Hmm, that'll be the day…

JimBob: All right, troops, prepare to be deployed! [forms multiple arms with spatulas and makes karate yells]

[JimBob resumes his work and prepares the Slabby Patties in a fast speed.]

SpongeBob and Patrick: Ooh!

[JimBob rapidly flips several Slabby Patties in the air, which makes Patrick's mouth water.]

Patrick: Giant patties! [sighs and faints]

JimBob: [flips his spatula around and laughs] What fun!

SpongeBob: [his pupils form into spatulas] Ooh, I just gotta get a closer look at that glorious spatula! [hops out of the bus and Lily grabs him].

Lily: Sorry Mr. Squarepants, but we can't have you get out.

SpongeBob: [gasps] Never get out of the bus, Patrick. Never get out of the bus!

Patrick: Who's hungry?

[The tourists cheer happily.]

Rube: Amazing! Lunch time, everybody!

[SpongeBob, Patrick, Rube and the tourists gobble down the Slabby Patty. Mr. Manward serves the plate to Carol. Just as she was about to eat it, she sees that the sandwich doesn't have any meat in it.]

Lily: [Takes a bite out of a Slappy Patty] Mmm! Delicious! Tastes just as good as mine when I make them.

Carol: Where's the meat? Dagnabit! That's it! [gets up and grabs her helmet] I'm taking my business elsewhere!

Lily: Wait miss. Allow me.

Lily spread her wings and they went to the grill and fried up a hot patty for her and they put it on her but.

Lily: There you go.

Carol: Thank you so much.

[Suddenly, a masked man, who appears to be a reenactment of Plankton, comes in and points a ray gun in Carol's face. It was the voice actor of Plankton, Mr. Douglas Lawrence.]

Mr. Charleston: You're not going anywhere, sister! Sit down! [Carol reluctantly does so] And everybody freeze! This is a robbery! [everyone raises their hands in the air; Mr. Slabs peaks out through the window] Slabs! [Mr. Slabs gasps] Show yourself!

Maria: (hears Plankton's voice) I never thought that I would hear that voice again!

Lily: Me neither.

Mr. Slabs: [comes out and hovers over the cash register, much to Mr. Manward's annoyance] You can only have me register over me cold lifeless shell!

Mr. Charleston: Nobody wants your stupid money.

Mr. Slabs: Huh?

Mr. Charleston: Hand over the Slabby Patty secret sauce recipe and nobody gets vaporized, see? [laughs as he activates the ray gun; SpongeBob, Patrick, Rube, and the tourists gasp in terror] You all have until the count of three. A-one, a-two…

Carol: [gets up from the table and karate chops Mr. Charleston to the floor] Ha! Karate chop! [Mr. Charleston groans] You're welcome!

[Mr. Slabs and Mr. Manward look at each other in amusement. Carol angrily storms out of the restaurant as Mr. Slabs laughs at Mr. Charleston's downfall.]

Patrick: Ha! She chopped him real good!

Lily: Lets see how he likes this.

Lily punched him in the face and kicked him in the mouth and knocked out most of his teeth punched him in the stomach!

Lily tied him up.

Mr. Slabs: Fear not, gentle customers. This is not a robber. [Mr. Manward sulks] This is my lame competition across the street, [removes Mr. Charleston's mask] Charleston! [laughs]

Mr. Charleston: What gave me away? My voice?

Mr. Slabs: No, your knit cap had one eye hole.

Lily: (In her head) That is definitely the human version of plankton.

Mr. Charleston: Ugh! Foiled by a hand crocheted gift! Mark my words, Slabs, maybe not today but, oh, someday, that secret sauce recipe will be mine! [laughs just before Mr. Slabs pulls him back]

Mr. Slabs: Nice try, weirdo.

Lily: Please Mr. Slabs. Allow me. [throws Mr. Charleston out into the garbage and heads back in the restaurant to resume business]

Mr. Slabs: Thank you lass.

Mr. Charleston: [groans] Where am I?

[With the crisis over, Lily carries the aquarium and prepares to leave the restaurant.]

Rube: Well, feeding time is over. Hang on, everybody!

[Rube drives the bus under Patchy's legs, who had just entered the restaurant with Potty.]

Patchy: Eh, my Potty needs to use your potty.

Mr. Manward: Sorry. No.

Patchy: Sorry, Potty, you'll have to hold it. Come on! [walks into the restaurant and Potty follows]

Potty: [squawks] Easy for you to say!

Lily kicks Mr. Charleston in the crotch.

[The scene changes to SpongeBob and Patrick with their stomachs full from the Slabby Patty.]

SpongeBob: Ooh, that was delicious. I love surface food! [belches]

Lily: Excuse you Mr. Squarepants.

[Charlie wipes his face with a napkin.]

Patrick: You missed a spot. [licks the food off Charlie's face]

Charlie: Ugh! Thanks.

Rube: Okay, everybody, the next point of interest is coming up in just a few short minutes, so just relax and enjoy the-[SpongeBob hops onto Rube's head]

SpongeBob: Stop the bus! [Rube frantically stops the bus, knocking Patrick and the tourists off their seats] Rube, what is that?! [points to a local fish store]

Rube: Oh, that's what they call a fish prison. And one thing is for sure, you don't ever want to end up in there.

Lily: That's an aquarium shop.

[Just then, a young woman, who appears to be a reenactment of Pearl, comes by and she finds the bus. It was Lori Alan, who is the voice actress of Pearl Krabs.]

Later Lily and the bus along with the fish from the store went back to the sea.

[Meanwhile, back in Bikini Bottom, it is nighttime. Rube pulls the bus over in front SpongeBob's house.]

Horsea: We're back!

Rube: Well, that's the end of our tour, folks. I hope you all enjoyed yourselves. I sure as heck did!

[SpongeBob and Patrick exit the bus.]

SpongeBob: You were right, Rube, that was…

SpongeBob and Patrick: Amazing!

Rube: I'm just sorry we never had time to sing "Happy Birthday" to ya, SpongeBob.

SpongeBob: Well, how about now?

Rube: You got it, birthday boy! Let's sing "Happy Birthday," everyone! A-one and a-two…

Rube and the tourists: Happy birthday-

[Rube accidently pushes the lever and the bus drives out of sight.]

SpongeBob: Nice try! Maybe next year!

Lily: Did you have fun Mr. Squarepants?

SpongeBob: I sure did.

Patrick: It was so cool seeing your world Lily.

Maria: I'm glad you guys had fun.

Horsea: You said it.

They walked up to SpongeBob's door and opened it and it was dark.

SpongeBob: Why is it so dark?

Lily: I'll hit the lights.

Lily turned on the lights and everyone jumped out.

Everyone: SUPRISE! HAPPY BIRTHDAY, SPONGEBOB!

SpongeBob: A surprise party? For me?

[Just then, a shadow looms over SpongeBob. SpongeBob screams in fright and an object falls onto him. The smoke clears and it turns out to be Patchy's birthday gift to SpongeBob. SpongeBob puts his face back on and looks at the present.]

Lily: That's a big present

SpongeBob: [reads the tag] "From your biggest fan." Hmm? I have a fan?

[SpongeBob opens the box and the present revealed to be none other than Patchy the Pirate, but just his head.]

Patchy: Ahh, surprise! [chuckles] It's Patchy the Pirate! Happy birthday, SpongeBob!

SpongeBob: Oh! [his body forms into an eye before blinking back to normal and shedding tears] Thank you, Patchy! [hugs Patchy]

[SpongeBob and Patchy burst into a heartily laughter.]

Patchy: Guess I didn't really think this head-in-a-box thing through all the way. I don't really know what to do now. [chuckles]

SpongeBob: Well, I still haven't gotten my birthday song.

Patchy: Ooh, you'll get it now! [starts singing] Ooh, who's having a birthday under the sea?

SpongeBob: Me, me, me, me!

[The song wakes everybody up and they join in the celebration.]

Patchy: With presents and cake and caller ID

SpongeBob's friends, family, and party guests: SpongeBob SquarePants

Patchy: Would you like to send him a nice birthday wish?

SpongeBob's friends, family, and party guests: Yes, we would!

[The scene changes to Bikini Atoll. It turns out that Patchy switched heads with Potty as his body lies in the sand.]

Potty: [squawks] Then drop on the deck and flop like a fish

[The screen changes into the background used for the SpongeBob SquarePants theme song, only it's birthday themed.]

SpongeBob's friends, family, and party guests: SpongeBob SquarePants, SpongeBob SquarePants

[A montage of celebrities wishing SpongeBob a happy birthday, including several guest stars of the episode, is shown.]

David Hasselholf: Happy birthday, dude.

Kel Mitchell: Happy birthday, SpongeBob!

JoJo Siwa: [shouting to the ocean] SpongeBob, happy birthday!

Tiffany Haddish: Happy birthday, SpongeBob!

Thomas J. Wilson: Happy birthday, SpongeBob!

Gilbert Gottfried: Happy birthday, SpongeBob! [blows a noisemaker]

The Loud Kids and Team Loud Phoenix Storm: HAPPY BIRTHDAY SPONGEBOB!

[We cut back to the episode.]

SpongeBob's friends, family, and party guests: SpongeBob SquarePants!

SpongeBob: Happy birthday to me! SpongeBob SquarePants!

[Everybody cheers as the song ends.]

Lily: Happy Birthday Mr. SquarePants.

SpongeBob: You and everyone made this the best birthday ever!

Maria: You're welcome SpongeBob.

Mermaid Man: This is the best party ever.

Patrick: By the way, SpongeBob, how old are you?

SpongeBob: Well, as of today, I am…

[The screen turns fuzzy just as SpongeBob was about to reveal his current age. SpongeBob plays the last notes of the song. The screen turns black and a message that reads, "Thank you, Steve Hillenburg" is shown, ending the episode. In the end, it turns out that SpongeBob got the birthday party he deserved after all.]

# Curse of The Goosebumps Sorceress

In the forests outside of Gotham Royal York, Poromon and the Animorph Tobias who was in his hawk form were looking for someone.

Tobias: Poromon, I don't think we're going to find Samantha like this.

Poromon: You're right. We need to do something to get her attention. Like a neon sign.

In the estate we were wondering what Poromon and Tobias were doing.

Skullcruncher: Where's Poromon and Tobias?

Nico: I sent them to look for Samantha Byrd in the sky since she's a bird now.

Me: That's gonna be like finding a needle in a haystack. But I have a feeling they will find her.

May: We have to have faith in them.

Lincoln: Yep.

Outside Poromon and Tobias were searching.

Poromon: SAAAMMAAAAAANNNTTTHHHHAAAAAAAAAAA BBYYYYRRRRRRDDDDDD! WHERE ARE YOOOOOOUUUUU!?

Then a hawk appeared and they saw her.

Poromon: Samantha Byrd? Is that you?

Samantha: Yes it's me.

Tobias: Thank goodness we found you. We can now help you out. Please follow us.

Tobias reverted back to human and Samantha landed on his right arm.

Samantha: How did you do that!?

Tobias: I'm an Animorph. I have the ability to become different animals after touching them.

Samantha: That's amazing!

Tobias: Thanks.

Poromon: Lets report back.

Tobias: Okay Poromon.

They went back to the estate.

---

In the estate, we were reading books on elemental magic.

Luna: This elemental magic is amazing dudes.

Luan: It sure is Magical! (Laughs to Rimshot) Get it?

Me: (Laughs) Good one Luan!

Eddy: (Laughs) That was a funny one!

Syd: (Laughs) That was a good one!

Nico: (Laughs) That was funny!

Luan: Thanks guys.

Tobias and Poromon came in and they had Samantha on his arm.

Me: You found her?

Tobias: Yes we did.

Brittney: This is definitely the work of dark magic. And I should know because I use dark magic all the time.

Me: Are you Samantha Byrd?

Samantha: I am. This evil witch named Clarissa turned me into a bird.

Brittney: I can cure you. But just so you know, this is gonna hurt really bad. Who knows what Clarissa's magic did to you after we revert you back?

Samantha: I'm ready.

Brittney: Okay.

Me: Boys cover your eyes.

We did so.

Brittney chanted a very powerful incantation and a blast of dark magic fired from her hands and it hit Samantha and she was reverting back to human. But it was extremely painful.

Samantha: (reverting back to normal) I DIDN'T THINK THE TRANSFORMATION WOULD BE THIS PAINFUL!

Samantha's skin turned back and her light blond hair turned back and she was totally naked.

Samantha was on the floor and she saw this.

Samantha: (covers her private parts) Can someone please get me some clothes?!

Maria: I'll take you upstairs to get some clothes.

They went upstairs to Leni's room. After she got a shower and a bath they got her some clothes. Samantha had a brown t-shirt with eagles on it, brown pants and brown combat boots and she had a beautiful blue necklace with a blue sapphire phoenix on it and she had a sleeveless trench coat with a falcon on it and the kanji for The Eagle Swiftly Stalks its Prey was on the back. イーグルは素早く獲

物

Samantha: Wow! I look amazing!

Streex: How do you feel, Samantha?

Samantha: Right now, I'm feeling some of my human memories fading away. Oh God! I'm forgetting who I am!

They gasped and they told us.

Me: So Samantha's memories are fading away!?

Nicole: Oh no!

Brittney: It's the curse Clarissa placed on her. Do you remember who you are, where you're from, or who anyone is?

Samantha shook her head for no.

Brittney: Magic-Induced Total Amnesia. She can't remember anything. All her memories are being repressed because of the magic Clarissa put on her. Samantha, we'll find Clarissa and make her pay for this. Killing her should get rid of the magic she put on you.

Samantha: Thanks Brittney.

Me: Before we do that we need to find out more about her.

I looked up Clarissa's info and what it revealed was horrifying.

Clarissa is a witch who was looking for her way home when she runs into an unnaturally tall 12-year-old named Samantha Byrd. Samantha helps the old woman and is rewarded with three wishes. Samantha is skeptical, but decides to humor Clarissa by wishing that she were the strongest basketball player on her school team.

After some aimless wandering after her wish to make Judith to disappear makes everyone else disappear as well, Samantha meets up with Clarissa. Clarissa apologizes for the wish, stating that she is not skilled in magic and could not make Judith disappear without making everyone else disappear. Clarissa offers to cancel the second wish and give Samantha a third wish… if Samantha can make a clear wish. Samantha wishes that everything is back to the way it was, except that Judith becomes Samantha's friend… which makes Judith obsessed for her.

Samantha tries to get away from Judith and ends up crashing her bike in front of Clarissa. Clarissa, feeling sorry that Samantha is not happy with her final wish, grants Samantha a fourth wish. Samantha wishes that she never met Clarissa and that Judith was the one who met Clarissa instead. The wish is granted and Judith becomes Clarissa's friend. When Judith yells "Fly away, Byrd!" Clarissa transforms Samantha in a crow.

Me: That demon!

Nico: Clarissa's magic always does more harm than good. And she is a very cunning and conniving monster. She'll do anything to get what she wants.

Vince: That witch needs to pay with her life.

Nicole: The Book of Vile Darkness and being made into a Portrait is too merciful for her.

Nico: I agree Nicole. She's from the book Be Careful What You Wish For.

Me: And this will give a whole new meaning to that phrase.

I looked up where she was and she was in Liberia, Africa.

Me: Liberia, Africa!?

Lori: That place is literally a death zone.

Me: Yeah. 6 years ago it was home to one of the worst Ebola outbreaks in the history of the world.

The Western African Ebola virus epidemic (2013-2016) was the most widespread outbreak of Ebola virus disease (EVD) in history- causing major loss of life and socioeconomic disruption in the region, mainly in the countries of Guinea, Liberia, and Sierra Leone. The first cases were recorded in Guinea in December 2013; later, the disease spread to neighboring Liberia and Sierra Leone, with minor outbreaks occurring elsewhere. It caused significant mortality, with the case fatality rate reported which was initially considerable,while the rate among hospitalized patients was 57-59%, the final numbers 28,616 people, including 11,310 deaths, for a case-fatality rate of 40%. Small outbreaks occurred in Nigeria and Mali, and isolated cases were recorded in Senegal, the United Kingdom and Italy. In addition, imported cases led to secondary infection of medical workers in the United States and Spain but did not spread further. The number of cases peaked in October 2014 and then began to decline gradually, following the commitment of substantial international resources. As of 8 May 2016, the World Health Organization (WHO) and respective governments reported a total of 28,646 suspected cases and 11,323 deaths (39.5%), though the WHO believes that this substantially understates the magnitude of the outbreak.

On 8 August 2014, a Public Health Emergency of International Concern was declared and on 29 March 2016, the WHO terminated the Public Health Emergency of International Concern status of the outbreak. Subsequent flare-ups occurred; the last was declared over on 9 June 2016, 42 days after the last case tested negative on 28 April 2016 in Monrovia.

The outbreak left about 17,000 survivors of the disease, many of whom report post-recovery symptoms termed post-Ebola syndrome, often severe enough to require medical care for months or even years. An additional cause for concern is the apparent ability of the virus to "hide" in a recovered survivor's body for an extended period of time and then become active months or years later, either in the same individual or in a sexual partner. In December 2016, the WHO announced that a two-year trial of the rVSV-ZEBOV vaccine appeared to offer protection from the variant of EBOV responsible for the Western Africa outbreak. The vaccine has not yet been given regulatory approval, but it is considered to be effective and is the only prophylactic which offers protection hence 300,000 doses have been stockpiled.

Lincoln: That's terrible!

Lori: I saw that all over the news. That was terrible!

Nico: I remember seeing that. That was awful.

Lynn: No kidding.

Lori: And Thrax said that he makes Ebola look like the common cold compared to him.

Me: Well now we're officially impervious to all disease.

Zoe: We're immune to all diseases here on Earth.

Hercules: Yeah, the only ones that get us sis are the ones from the Netherworld.

Me: That is still really amazing to us guys. Lets roll!

With that we were off to Liberia.

## LIBERIA

We were over in the Jungles of Liberia.

Me: Here we are guys. Liberia in Western Africa. Home to one of the worst Ebola Outbreaks in the history of the world.

Varie: That was awful.

Aylene: It sure was.

Laney: I read about it in the newspapers we were recycling. That was awful that happened.

Lincoln: What causes Ebola?

Me: It's in the saliva of fruit bats. It takes 2 to 21 days for symptoms to emerge.

Lola: What are the symptoms?

Me: Flu-like symptoms, violent convulsions and hemorrhaging, bleeding out of the nose, ears, eyes, and gums and even death. It's very fatal. 75% death rate. It even causes all the organs to liquify.

Lori: That is literally disgusting.

Laney: I read about it. It's horrible.

Me: It's also highly contagious and you get it through touch or in the air.

Nico: Have you guys ever seen the movie Outbreak?

Lola: I know that movie.

Lana: Me too. That was horrible.

Linka: They burned those bodies right?

Me: Yep. They have to burn those bodies to prevent the virus from spreading through the ground by rats and insects or birds.

Lila: What does the Ebola Virus look like?

Me: Well you can't see it, but here's what it looks like under a very powerful microscope.

I show everyone what the Ebola Virus looked like on a holographic orb and it was an ugly one. It looked like a long curled bacteria.

Lila: That little thing is Ebola?

Me: Yep. This is the virus under 35,000x magnification. You need a really powerful microscope to see them.

Laney: It's just absolutely horrifying that a small virus like that can cause that much damage and death.

Me: But now we're completely impervious to all disease.

?: But now you have different problems.

We turned and we saw the Bohrak and Bohrak-Kal Resurrected!

---

Type's of Bohrok

---

Tahnok, Bohrok of Fire

Gahlok, Bohrok of Water

Lehvak, Bohrok of Acid

Pahrak, Bohrok of Stone

Kohrak, Bohrok of Ice

Nuhvok, Bohrok of Earth

---

The creators of the first Bohrok were the Great Beings. The Great Beings also created the Bohrok-Va and the Bahrag and placed them in a series of tunnel networks underneath Mata Nui. More Bohrok are created when an Av-Matoran life-span ends.

Brotherhood of Makuta

In the service of the Brotherhood of Makuta, Teridax's Toa Hagah team once encountered and defeated a Bohrok swarm. A theory is that the reason why Teridax awakened the Bohrok was to buy himself time to become stronger. It is likely that the Brotherhood began experiments and studies on the Bohrok, the results being the Fohrok, or "fake Bohrok". These Fohrok would fight in their forces for many years, their chassis a stark blue and yellow.

Metru Nui

In Metru Nui, Onu-Matoran miners stumbled upon a Bohrok nest and found that the creatures were fully mechanical while the Krana they carried inside were completely organic. After a quick check, archivists found there was no evidence of assembly. Another Onu-Matoran archivist named Mavrah theorized that the Bohrok were once biomechanical, but evolved to a state with no organic parts and without a single independent thought. Although the Archives were eventually destroyed, the Bohrok nest was untouched. However, word of their sleeping threat somehow spread to the public, including the Toa Metru.

## Early Signs

Bohrok were since subtly warned against by the Toa Metru-turned-Turaga and, on Mata Nui, signs began to appear in various places. Inscribed on a rock in Le-Wahi were the ominous words, "Wake one, and you wake them all" (seen left). There was yet another sign near Ko-Koro, carved into a statue of Mata Nui. It said, "Beware the swarms". During his time in Ko-Wahi, Takua received a vision of the Bohrok symbol.

## Awakening

### Bohrok

Takua would later play a major role in the awakening of the Bohrok. At the climax of the battle against Teridax in Mangaia, he would record- and create -history. When the Toa Mata defeated Teridax, the evil spirit subtly went to the part of chambers that connected to the Mata Nui Bohrok Nest. He opened the gate and used his sound powers to mimic the usual wake up call for the swarms. The curiosity of Takua got the better of him, and he wandered inside. The words, "Wake one, and you wake them all" came to fruition. Takua barely escaped using an ancient chute, but the Bohrok were still awakened.

## The Bohrok War

During the beginning of the cleansing, the Bohrok showed no interest whatsoever in the Matoran, simply seeking to fulfill their mission and attacking only when directly attacked. However, after encountering resistance from them and the Toa, they began to target the villages to subdue the resistance, using the various tactics of the swarms. Based on the fact that they have styles of combat, it seems that they were programmed to be able to, should some beings take residence on the island.

## Surprise Strike

Expecting a great victory celebration for the defeat of Makuta, the Toa returned to their respective Koro only to find with horror that new, insect-like robots were starting to destroy them. In Ta-Koro, the deterioration was especially great and it was the site of the first battle and victory for the Matoran. The Bohrok easily felled large trees, froze lava, melted ice and leveled mountains in their devastating quest to "clean it all".

## Skirmishes and Counter-Attacks

The Toa fought in several difficult battles involving all of the elements, but it was at the home front where the real battle was fought. Lewa shockingly found that the whole of Le-Koro had been taken over by Krana and put into the hive. Taking the Matoran hostage, Bohrok-Matau forced Lewa to wear one himself and subject to their will. Only Tamaru and Kongu escaped the massive brainwashing. Meanwhile, Kopaka discovered the second entrance to the Bohrok nest at Mount Ihu.

## Boxor

At Onu-Koro, the village and mines were being flooded by a squad of Gahlok. Needing to improvise, the inventor, Nuparu found for the first time in a thousand years that the Bohrok were mechanical. This vital fact allowed the Onu-Matoran to reverse-engineer a defeated Gahlok into fearsome new fighting machines that would turn the tide: Boxor. Boxor were specifically designed to battle Krana-controlled beings by using quick jabs and punches to knock them off their feet. They were extremely effective and liberated the Koro from several attacks, including - with the help of an ambush planned by Takua, Kongu and Tamaru - Le-Koro's Krana infestation. However, they weren't foolproof.

## Endgame

Ga-Koro was attacked by a swarm of Pahrak in an infamous battle where the Boxor were for defeated for the first time by the swarm and a new kind of Kolhii was invented.

The Toa were finally free to take the battle to the Bohrok and they went inside a strangely empty nest. They found buried Exo-Toa, placed there in the case that the Bohrok rose up. The Toa used them to fight the Bahrag but soon found that it limited their elemental powers that allowed them to defeat Makuta and his minions in the first place. They shed the armor and used their elemental energy to defeat the Bahrag by imprisoning them in a protodermis cage, but not before transforming in chutes of energized protodermis, becoming the Toa Nuva.

## Legacy

The Bohrok lost their Krana and were reprogrammed to serve the Matoran. However, this lasted only briefly, as they were destroyed or put back to sleep by the Bohrok-Kal.

Later on, the Toa Nuva came back to reawaken the Bohrok so they could clean the island of Mata Nui as part of their "to-do list" (which had been given to them by Axonn) that needed to be completed in order for Mata Nui to be revived. The Bohrok were used to help Mata Nui by loosening the ground to allow him to rise. They completed their mission, and went back to sleep.

Later, during the siege of Metru Nui between the Order of Mata Nui and the Brotherhood of Makuta, Krakua woke the nearby Bohrok swarms on the incoming Brotherhood soldiers.

## Swarms and Systems

The Bohrok swarms are divided into six clans: Tahnok, Gahlok, Lehvak, Pahrak, Nuhvok, and Kohrak. Each has a unique style of war, thought, and "cleansing".

## Bohrok Va

The Bohrok Va were secondary Bohrok, or "drones". They did the duties of Krana-exchange, delivery, strategizing, and general petty work. While not as powerful as their brethren, they could be considered smarter, and could still put up a fight. They often carried new Krana to Bohrok who have lost theirs. The Bahrag provided them with these replacement Krana.

## Powers

Bohrok have the ability to curl up into a ball and eject their Krana onto an opponent, making them a "host". Each Bohrok is also equipped with "hand" shields that allow them to fire their specific "cleaning" agent, be it acid, flame, or otherwise.

Kaita - Bohrok also have the ability to form more powerful Bohrok Kaita. However, they were never seen doing this.

## Krana

Krana were intrinsic to the Bohrok swarms; without them, they were blank slates. The Krana formed a telepathic bond with the Bohrok and between each other, effectively forming a network ultimately controlled by the Bahrag. These Krana also gave them additional powers.

## Bahrag

The Bahrag were the Bohrok's two illustrious queens named Cahdok and Gahdok. They held the powers of all six Bohrok swarms and controlled the Krana, which they would create by dipping an unknown substance into what appeared to be protodermis. They also had the ability to project illusions, and grow stronger in close proximity to each other, which proved useful against the Toa. In case the Bahrag were ever compromised, the Bohrok-Kal would take over. The Bohrok-Kal were controlled by Krana-Kal, which were more powerful versions of Krana. The Bohrok-Kal's mission was to free the Bahrag, should they ever be imprisoned. When they came close to achieving their goal, their Krana-Kal would turn a silver color, and project a shield to protect the Bohrok-Kal from harm as they finished the task.

The Bohrok-Kal were originally created by the Bahrag as six regular Bohrok. The queens picked six Bohrok, one from each swarm, and mutated them into more powerful versions of themselves. After their mutation, the six received new powers, the ability to speak, and were controlled by Krana-Kal.

After the Bahrag were sealed by the Toa Mata, the Bohrok-Kal were awakened to enact their mission: free their leaders.

Immediately after imprisoning the Bahrag, the Toa were transformed by Energized Protodermis into more powerful Toa Nuva, and each gained a Nuva Symbol that was tied to their elemental powers. The Bohrok-Kal discovered that the Bahrag's prison was locked by a special Nuva Cube, which required the Nuva Symbols to unlock. The Bohrok-Kal had to steal the Symbols and find the sealed entrance to the Bahrag's underground lair and prison before actually releasing the twin queens.

And indeed, the Kal managed to steal the Symbols easily, inadvertently taking away the Toa Nuva's Elemental Powers, find the lair's entrance, clear a way in, and almost finish their devious task. In the lair, a group of Exo-Toa were guarding the prison; the Bohrok-Kal defeated them easily but it gave the Toa Nuva time to catch up to them. Toa Tahu tried to use the Vahi, the Great Mask of Time, against them. However, even slowed to a near-standstill, the Bohrok-Kal were protected by their silver Krana-Kal. In a last-ditch effort, the Toa banked on their ties to their Nuva Symbols and fed their strength to the Bohrok-Kal, giving them power beyond imagining - too much power for them to control. Their bodies were utterly destroyed by their own powers and only their Krana-Kal remained.

## Powers

The Bohrok-Kal had the powers of Electricity, Magnetism, Sonics, Plasma, Gravity, and Vacuum. They also used a set of enhanced Krana called Krana-Kal that had slightly different powers; and when the Bohrok-Kal were in the final moments before completing their mission, their Krana-Kal turned silver and projected a shield that protected them from harm.

The Bohrok-Kal also had shown the ability to merge into Kaita beings, which combined and amplified the powers of those who took part in the fusion.

Me: The Bohrok and Bohrok-Kal!

Gahlok-Kal (throws magnetized cars at us): TIMBER!

We dodged them and they exploded

Gali: How did they come back!?

Tahu: Looks like the Bohrok are back.

Vakama: And so are the Bohrok Kal!

Lewa: This is terrible!

Me: How is that possible?

?: Thanks to me.

We turned and we saw Clarissa!

Me: Clarissa!

Clarissa: That's right. It's an honor to meet you all Team Loud Phoenix Storm. Before we fight, allow me to demonstrate my powers.

Clarissa snaps her fingers and the Haunted Mask appeared.

Nicole: The Haunted Mask?! But it's already in the Book of Vile Darkness!

Ramjet shot the Haunted Mask, blowing it apart.

Ramjet: Well, now it's dead again.

Nicole sealed it back into the book

Evac: Any reason why you brought the Haunted Mask back only for us to kill it again?

Clarissa: Well, I know for a fact that eventually, there will be no more villains for you all left to fight. And that would make you all bored to death. But with my powers, I can restore any villain, whether they're in your prisons, the Book of Vile Darkness, or the River of Fire.

Brittney: And what do you get out of it?

Clarissa: Only for me to serve all of you. (bows) My powerful masters.

Nico: (sarcastically) Well, what do you think, guys? Sounds like a good deal to me.

William walked up to her.

William: (shakes Clarissa's hand) I have to say, Clarissa. I'm impressed.

Clarissa: Thank you. I knew you'd all accept my offer.

William: I'm impressed… on how stupid you are! (throws her into a wall)

CRASH!

Me: Nice Try Clarissa.

Kirby tries to do the puppy dog eye tricks again. But Tahnok Kal just kicks him away.

Kirby (crying): Ow. That hurt!

Britney Crosby: You freakish fucking monster! You will pay for that!

Molly Molloy: No one does that to Kirby!

Sheena Deep: You mess with Kirby you mess with us!

Carly Beth: You fucking freaks will die!

Sabrina Mason: You will pay for that!

Abby Martin: Monsters!

Julie Martin: We'll make you all suffer!

Jillian Gerard: You monsters have no respect or love!

Lizzy Morris: Lets kill these freaks!

Brittney: I'll take Clarissa. You guys face the newly resurrected Bohrok and Bohrok-Kal.

Me: You got it Brittney. Power up guys!

We transformed and powered up and we went at them.

Battle 1: Nuju, Lori, Teresa, Arpeggio, Abby Martin, and Hay Lin vs Kohrak-Kal

The fight with Kohrak-Kal was on.

Kohrok Kal (to Teresa): I wonder which sonic attacks will prevail. Yours or mine?

Teresa: Lets find out!

Teresa and Kohrak-Kal fired blasts of sonic waves and they collided and they exploded!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM

Nuju fired a massive barrage of icicle spears at Kohrak-Kall and they hurt him all over.

Arpeggio: (British Accent) Lets see how you fair against this! LASER FEATHER KUNAISTORM!

Arpeggio fired a massive barrage of laser feathers and they rained on Kohrak-Kal and skewered him all over the place.

Lori: Lets use a three-way combo on this freak!

Hay Lin: I'm up for that!

Abby Martin: You got it Lori!

Lori, Abby Martin and Hay Lin fired massive blasts of wind.

Abby Martin, Lori and Hay Lin: HYPERCANE SHREDDING CYCLONE!

Their blasts combined and turned into a massive and deadly hurricane that shredded Kohrak-Kal into a million pieces. Killing him instantly.

Nuju: No one messes with my friends.

Lori: You tell him Nuju.

Then a strange symbol appeared on the back of Lori's right hand. It looked like a white lava flame with Kohrak-Kal's snowflake tools in the middle of it.

Lori: What is this symbol?

Hay Lin saw it.

Hay Lin: That's the symbol we saw on his faceplate.

Nuju: It's the symbol of Kohrak-Kal. You now have his powers.

Lori: That's literally amazing! I'll have to see what I can do with them later.

Nuju: Good idea.

---

Battle 2: Kopaka, Leni, Carly Beth Caldwell, Sabrina Mason, Karai, Musa, and Xion vs Kohrak

---

Kopaka fired a massive blast of ice at Kohrak and froze him in place and Karai slashed his legs off with her sword. Carly Beth and

Sabrina fired a massive barrage of flower petals at Kohrak and cut him up good.

Leni: You totes are a disgusting freak!

Leni slammed a rock onto Kohrak with her Gravity Powers. Musa and Xion fired powerful blasts of light and music magic and blew it apart. Killing it.

Kopaka: That takes care of him.

Then the faceplate opened up and out came Kohrak's Krana and it jumped out and went for Leni and Xion grabbed it and it was a feisty one.

Xion blasted it in her hands and killed it!

Xion: Yeah!

Karai: (Japanese Accent) That'll show that monstrosity.

Kopaka: But that's the last we'll see of Kohrak.

---

Luna, Matt Daniels, Maria, Bai Tza, Gali, and Irma vs Gahlok

---

Gahlok was firing blasts of water at Luna and the group. Irma and Gali fired massive blasts of water at Gahlok and they hit it with the force of a massive Megatsunami!

Luna, Matt Daniels Maria and Bai Tza all fired massive water blasts as well and the water was so powerful that it killed Gahlok instantly! The water obliterated it instantly.

Matt Daniels: That takes care of that freak.

Bai Tza: You said it.

Luna: That was good work dudes.

Gali: It sure was.

Irma: He got all Wet.

They laughed.

Maria: That was a good one!

---

Nokama, William, Boone Dixon, Shego, Luan, and Winx Club Stella vs Gahlok-Kal

---

We became the Toa Hordika and it was a nightmare. But we had been given amazing abilities and we mastered the Rhotuka Spinner. They are wheels of energy that have various powers.

Clarissa: You are not any better.

Brittney punched her in the stomach.

Brittney: I use dark magic for good! You use it for evil and your magic doesn't help people! It only makes things worse!

Brittney kicked Clarissa in the face and knocked out some of her teeth.

Brittney: Now you will face the dark magic of the Empress of Darkness.

Brittney chanted an incantation and a massive swirl of black crystal shards formed around her and the black crystals went at Clarissa and cut her really good.

Nico: Clarissa, you have failed this world and this universe!

Nico fired a powerful blast of fire and burned her.

Brittney: Lets blast her with our combos and Final Smashes!

Me: Let me try something first. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into my arm device and Scourge's Twin Dragon Heads popped out from my shoulders and they roared ferociously.

Me: Oh wow! This is so cool! Lets see how you like being cooked well done!

Brittney: Save that for after we use our final smashes dad. Lets do this!

Samantha Byrd: I think I should do it like this. CROW CLAW SLASH!?

Samantha Byrd then went at Clarissa with incredible speed and she slashed her all over the place!

Brittney: Lets end this! DARK FLAME FIRESTORM!

Brittney fired a massive blast of blast fire and it burned her.

Me: Now it's time for some action. How do you guys like your sorceress burgers? Medium, Rare, or Well Done? FIRESTORM DRAGON SURPRISE!

I fired a massive wall of fire from my hands and from the two dragon heads and they burned Clarissa and she was screaming in excruciating pain.

Brittney: Time to finish this! Ready Lucy?

Lucy: I'm always ready.

Brittney and Lucy: DARKNESS DEATHFIRE STORM!

Brittney and Lucy fired a massive blast of blast fire and it incinerated Clarissa and it killed her in an instant.

Me: Good riddance.

Cybertron Scourge: Well done guys. And well done for using my twin-dragon heads.

Me: Thanks Scourge.

Then Clarissa's evil spirit appeared.

Clarissa (as a spirit): You fools! I could've helped all of you!

Nico: I've got news for you, Clarissa. We don't kill people like you for the thrill of it!

Nicole: And now you will spend eternity in the River of Fire!

Nicole opened the portal into the River of Fire and she was sucked into it and was gone for good.

Clarissa: DAMN YOU TEAM LOUD PHOENIX STORM!

The portal closed.

Brittney: (To the viewers) Mess with dark magic and you all will face me.

Nico caught a Basculin and a Krokodile during the battle.

Samantha Byrd then had a tremendous headache as her memories came flooding back to her at a rapid pace. When it was done, she remembered everything!

Samantha Byrd: It's all coming back! I remember everything! Then that means that Clarissa is dead. I'm free.

Samantha Byrd then came up to me and she looked at me and her eyes welled up with tears. Then she hugged me and cried hard into my chest. She was really broken and I was comforting her.

Me: It's all right. It's all right.

We defeated and destroyed Clarissa.

THE END

---

Another Fanfiction complete and another Goosebumps Villain destroyed.

Clarissa was the worst ever sorcerer I've ever seen in the Goosebumps series. Everything about the 2013-2016 Ebola Outbreak is true. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

Palmon: Wow Mimi look at them.

Mimi: I see them.

But as they came closer, they saw that they were female versions of the Street Sharks and a male version of Stacy.

Joan: Oh hey there.

Mimi: Are you 5 the genderbent Street Sharks?

Joan: We sure are. And you must be Mimi Tachikawa and Palmon.

Palmon: That's right.

Mimi: It's good she did.

Palmon: Good riddance.

Cammy: You said it Palmon.

---

Back at the estate we were watching TV and reading books. Samantha Byrd was looking at herself in the mirror. She was completely different than what she was back before Clarissa turned her into a crow.

Samantha Byrd: I can't believe how much my body changed in three years! (punches a wall in anger): DAMN THAT CLARISSA! I LOST YEARS OF MY LIFE BECAUSE OF HER!

Maria: I know Samantha. But she's gone forever now. So you have no need to worry.

Samantha Byrd: That's true. But those three years I will never get back. I've had so much taken from me and I will never forgive Clarissa for it.

Nico: None of us will.

In the basement I was putting all our clothes in the washer and I turned it on.

Me: Okay.

I then sensed a strange and powerful energy coming from somewhere.

Me: What the?

I went to where it was coming from and it was coming from somewhere in the wall.

Me: It's somewhere behind this wall.

I felt around the wall for something and then I stepped on a hidden button on the floor.

Me: Huh?

The wall opened and out came a hidden bookcase.

Me: A hidden bookcase.

I went over to it and there was a wide selection of books to choose from.

Me: Wow. Look at all these books.

I saw that they were all books on magic.

Me: It's all books on magic.

I then saw one book that was different. I pulled it out and it was called the Book of Clow. The name was vaguely familiar. I opened it and there was a bunch of cards inside the pages and I picked one up and looked at it. It was called The Windy. But then something magical happened. A Strange symbol appeared below my feet and I was in a vortex and I was holding onto the Windy card and the book. But the rest of the cards in the book flew out of the book and scattered all over the city. When it was done, I was shocked and stumped.

But then the book glowed and out came a little bear with wings and a tail.

Me: Whoa!

Kero: It's a pleasure to meet you J.D. Knudson.

Me: You too uh?

Kero: Oh I'm sorry. I'm called Keroberos. But everyone calls me Kero.

Me: Keroberos? (GASP!) I remember now. You are one of the helpers of the most powerful sorcerer in the world. The legendary Clow Reed!

Kero: That's right. How did you know?

Me: I've done a lot of history research. If you are here then you must've chosen me to bring back the Clow Cards before they cause a lot of tremendous harm.

Kero: That's right. You are very wise beyond your years J.D.

Me: Well you would be amazed at what I know. Lets just say that when I was given my powers, all the powerful secrets of the universe are now inside me.

I reveal everything to Kero and he was amazed.

Kero: Whoa! So you are the leader of your own team!?

Me: Yep. We are called Team Loud Phoenix Storm and we have a massive mission to defend all of the entire universe from all evil.

Kero: I will gladly help you out J.D. But when you feel the presence of a Clow Card, you have to be ready for anything. Expect the Unexpected.

Me: Yes. I know that rule all too well. I was taught it ages ago. But we have to let everyone all over the estate know about what happened. And lets get you some cake. You must be hungry.

Kero: AW YEAH! CAKE!

Francis: What's this card doing on the ground?

Francis picked it up and it was called The Wood.

Me: Oh thanks Francis. I've been looking for that one. I'll explain in a bit.

We went to the kitchen and I grabbed some cake and we told everyone what was going on.

The Cards were created by the half-English, half-Chinese sorcerer named Clow Reed. They are the result of the combination of Eastern and Western magics and formed the basis for a new kind of magic unlike any other seen so far. To contain the incredible power of the cards, after his death Clow had the cards sealed in the Clow Book, only to be released when the "chosen one" appears.

The cards represent a combination of Eastern and Western magic centered on the concepts of natural forces and elements. The original Clow Cards fall under a specific sign, sun or moon, corresponding to the guardians Keroberos and Yue.

The cards can only be controlled under your command if you become its owner. In order for it to be yours, you must sign your name, otherwise they can run loose again. The card will go to whoever binds its power, meaning the one who defeated it.

In the manga series, there are nineteen cards specifically named, while the anime series has fifty-three (fifty-two in the series proper, the last from the second movie). The nineteen cards in the manga are The Light, The Dark, The Windy, The Earthy, The Firey, The Wood, The Watery, The Flower, The Fly, The Jump, The Erase, The Mirror, The Maze, The Illusion, The Sword, The Shield, The Shadow, The Thunder, and The Glow. These cards also gain slightly different appearances in the manga when transformed into Sakura Cards (Star Cards in the English dub). Changes mainly include the addition of a star however The Sword and The Shield cards gain completely different appearances.

Each Clow Card has its own personality, ranging from good-nature to violent and its own powers that are mostly centered around an elemental force or performing a specific task. When in use or acting on their own, the cards assume alternative forms that vary from card to card. All cards appear to be able to float. Example: the Sword was floating immediately before it was captured.

Most of the cards may be seen represented in four ways: most of the time a beautiful woman or pretty girl dressed or holding an object according to its power (Arrow, Windy, Bubbles), an animal related to the power (Jump, Change, Dash), an object (Sword, Shield, Float). For some reason, the Clow Card design of Time in the anime is a male, but when Clamp designed all the Clow Cards, they were originally all female. They may have taken the hair under her chin for a beard.

Within the deck, there is a hierarchy. Clow Reed and later Sakura Kinomoto as Master/Mistress of the Clow have command of all cards and both guardians. Below them are the Guardians of the Clow, the physical incarnations of the powers used to create the cards. Cerberus representing the sun and the Western magic Clow inherited from his English father and Yue, the spirit of the moon and the Eastern magic from his Chinese mother. Beneath the guardians are the Four Elements (The Earthy, The Firey, The Windy and The Watery, two under each guardian) and the Two Attributes (Light and Dark one for each guardian). The remaining forty-six cards are divided up between those six. Each attribute has seven cards under them, while each element has eight under it.

The only cards outside the jurisdiction of either Yue or Keroberos are the Nameless Card and the Hope (created by Sakura well after the creation of the Guardians so she couldn't appoint one of them as protector of it) and the Nothing, a negative card made simply to balance the Yang that the Clow Cards make whenever they are used.

Based after Tarot cards of the Major Arcana, the Clow Cards are tall, roughly 12 inches long. The cards share the same back image, and frame in the front. The back consists of an orange frame with 4 stars in the corners and the Clow circle in a crimson background (distorted in an oblong to fit the thin frame). The side is decorated golden ring with a sun in the center and a moon in the lower left with a pattern making a star with twelve points.

The front consists of the same orange frame with two stars in the center portions with a flowing, thin golden frame around the central picture representing the card. Above, the half of a golden sun with the Chinese/Japanese symbol of the card, and below, a ribbon with the card's de facto name, below a waning moon. In the center of the card, in front of a purple background, the card's representative figure. A Clow card can be represented by either an object or a person, usually a female character dressed representing its properties (sometimes, the character's anatomy do so, such as wings, ears, etc.). the art of the cards follow a pattern, the purple background, the characters always in beige with a small portion of them in a different color each (a necklace, earrings, other forms of decoration). The cards represented by objects follow the same pattern. Some unique cards can be labelled as "sisters", cards that share opposite elements, and therefore, are represented by remarkably similar characters, like twins, such as Dark and the Light, The Time and The Return, The Little and the Big.

Varie: The Clow Cards are here in the estate?

Lucy: Gasp. I've read so much about the Clow Cards and how powerful they are. The mighty sorcerer Clow Reed made them.

Me: That's right.

Lincoln: So now we're not only after the Shen Gong Wu, but we're also after the Clow Cards as well.

Me: Yep. And we have to find all of them or it spells catastrophic disaster for the world.

Laney: And what are the two cards you have now?

Me: I have the Windy and the Wood.

I revealed the Windy Card. 風

And the Wood Card. 木材

Me: Windy is one of the 4 Elemental Force Cards and we have to find them for Kero's full power to be fully restored. The Wood from what I remember is a gentle Clow Card and she would never harm a fly.

Wind Magic (Aerokinesis): The Windy's primary magic is to create strong winds. These winds can be used to blow away objects or bind creatures.

Fortune Telling: All Clow Cards have the ability to help their user predict the future. Their method of fortune-telling is similar to that of tarot cards. The interpretation of the message the Clow Cards relay depends on the magical power of the user.

Windy, in particular, represents news or transmission.

Plant Magic (Chlorokinesis): Wood has the power to manipulate and generate rampant vines, bushes, and branches to ensnare at the command of her master. Due to the elemental order, according to Chinese Magic, Wood was even powerful enough to defeat Earthy.

Fortune Telling: All Clow Cards have the ability to help their user predict the future. Their method of fortune-telling is similar to that of tarot cards. The interpretation of the message the Clow Cards relay depends on the magical power of the user.

Laney: So we have how many Clow Cards to find?

Kero: There's 52 of them.

Me: We have a lot of work to do. They could be anywhere and with 52 cards there's no telling what could happen.

Lincoln: So we not only have to cleanse the entire universe of the Fragments of Xehanort's evil and find all the Shen Gong Wu, but now we have to find the Clow Cards.

Me: Bingo.

Then the doorbell rang.

Lily: I'll get that.

Lily went to the door and she answered it. It was a girl with brown hair and she had pigtails with yellow decorations and she had emerald green eyes and a beautiful dress and with her was another girl with brownish-purple hair and she had lavender eyes. It was Sakura Avalon and her best friend Madison Taylor. Also with them was Li Syaoron, a boy with brown hair and brown eyes.

Lily: Can I help you guys?

Sakura Avalon: I sensed that the Clow Book is here.

Lily: Oh come on in.

They came in and they saw us.

Sakura Avalon: It's an honor to meet you, J.D.

Kero: Hey! Sakura! Madison! Li!

Sakura Avalon: Kero!

They hugged.

Madison: We missed you so much.

Me: It's a pleasure to meet you Sakura. And you too Madison and Li.

Sakura Avalon, Li and Madison are now living together and it's awesome. They moved here from Japan with Sakura's dad, Archaeology Professor Aiden Avalon and her older brother Tory Avalon. But her mother Natasha Avalon died of a terminal disease when Sakura was little. Which was really sad. They live on the estate grounds. Also with them was Li Syaoron, who also lives with Sakura as well and is also Sakura's love interest. Li is a direct descendent of Clow Reed himself, which is really amazing.

Li: We heard so much about all your amazing adventures and how you all beat the bad guys.

Me: We get that a lot.

Li: My favorite adventure is when you put that girl Chris in her place.

Me: That was a strange one. But that was one of our first adventures.

Sakura Avalon: That was so neat though.

Madison: I liked the one where you all went after the ghost of Jack the Ripper.

Sakura Avalon quivered in fear.

Me: That was during our travels on Total Drama All Stars 2.

Sakura Avalon: (Shaking in Fear) I hope you all don't go after another ghost like that.

Lori: What's wrong with you Sakura?

Me: She's terrified of ghosts right?

Li: Yeah. She doesn't like ghosts.

Naruto: I know that feeling all too well. Sakura, like you I too was scared of ghosts. But now I'm over that.

Sakura Avalon: You have been through it too?

Me: That's my bro. But Sakura, I know you're scared of ghosts, but you have nothing to worry about. Team Loud Phoenix Storm has dealt with all kinds of things.

Then I sensed something.

Me: I'm sensing something. It must be a Clow Card.

Sakura Avalon: I can feel it too.

Li: Same here.

Me: I wonder which one it is.

Suddenly there was a bright yellow flash and Sakura Avalon vanished.

Me: Whoa!

Then we saw Sakura Avalon and she was shrunk down to only 1 1/2 inches tall!

Me: How the?

I saw her at a small height.

Me: This is the work of the Little Card. 小

Laney: Is that it right there?

We saw a little bouncing light and it was The Little Card. It was the smallest one by far.

The Little's visible form is tiny: the first time Sakura Avalon saw it all she could initially perceive was a tiny pinprick of bouncing yellow pulsating light. Even after she is shrunk, Sakura is still taller than Little's physical body. Its visible form actually resembles a tiny, yellowish jester-like little girl. its sleeves cover its hands.

Lincoln: That tiny light is the Little Card?

Lori: You literally have got to be kidding me.

Me: I know it's strange but that is definitely the Little Card.

Lincoln: Lets see if I can help out.

Lincoln fired a tiny static bolt and caught it in a cage of pure lightning.

Me: RETURN TO YOUR POWER CONFINED! LITTLE CARD!

I held out my hand and an energy card appeared and the Little Card got sucked into it and it became the Little Card.

Me: Gotcha.

I got the card.

Me: Bingo.

Sakura Avalon went back to her normal size.

Kero: Nice work J.D.!

Me: Thanks Kero. My first sealed card.

I put my name on the bottoms of the cards.

Me: There.

Madison: That was so cool J.D.

Me: Thanks Madison.

I saw that Madison had a video camera with her.

Madison: I always get great camera footage of it.

Me: Cool.

Then the alarm went off.

Me: Uh oh.

Sakura Avalon: What's that?

Me: That's our crime alarm. It lets us know if there's a crime anywhere.

We went to the computer and we saw that there was a magical disturbance and that it was not in our dimension at all. It was in another dimension.

Me: This is unusual. The computer shows that there's a magical disturbance located in another dimension beyond the reach of time and space.

Lincoln: That's really unusual.

Me: It sure is. It says that the source of the disturbance is from a woman that is named Su Yung.

Kero: I remember her. She used to read peoples fortunes on the surface of water.

Me: A fortune-teller. That's an interesting way to tell the future.

Kero: Yeah. Clow Reed never spoke about it. But the story was that one day, Su Yung bumped into him on the street and they fell in love with each other that very moment. At the time, Clow Reed's magic was growing increasingly powerful. As he and Su Yung got closer, he taught her how to use magic. But she began to use her magic for evil instead of good. Clow Reed was the only one powerful enough to stop her. And as she plotted to destroy him, he learned of her plans and created another dimension in which to imprison her for all eternity.

Me: That's terrible!

Laney: But that happened so long ago. Didn't it?

Me: Yeah. Clow Reed lived 1,000 years ago.

Kero: That's right. It's a very complicated spell guys.

Me: A spell that can create dimensions out of the reach of time and space. How unusual.

Kero: That's right. And Clow Reed knew that she could've escaped from a mortal prison using her magic.

Me: And with an infinite number of dimensions across the infinitely vast reaches of the fabric of time and space, it could be any one of them.

Kero: That's right and the doorway to that dimension must be here on Earth somewhere.

Me: Maybe I can find out which doorway it is at.

I looked it up on the computer and found that the entrance is located in Hong Kong, China at an ancient well that was built 1,000 years ago.

Me: It's in Hong Kong, China.

Nico: Then that's where we need to go.

Me: Right. Lets roll!

We were off to Hong Kong, China.

---

## HONG KONG, CHINA

---

We arrived in Hong Kong, China. One of the most populated cities in the world with 7.29 million people.

Me: Here we are guys. Hong Kong, China.

Lori: It's literally amazing here!

Leni: The malls here are totes amazing. I can't wait to start shopping.

Me: We'll have time for that later Leni.

We went around and we found the well.

Me: Here it is. This is the entrance into the dimension.

We went up to it and it was an ancient well.

Me: Here we go guys.

We went into the well and dove into it and we saw a strange tunnel.

Me: What is this place?

Kero: It's an energy tunnel. A Passageway. Take a look guys.

We saw numerous windows around us in a circle.

Kero: This place connects to thousands of different dimensions.

Me: It's every dimension across the infinite reaches of time and space. Let me see here.

I concentrated and used my thoughts.

Me: (In my head) We want to go where Su Yung is.

We saw a portal to that dimension appear below us.

Lincoln: Is that it?

Me: Looks like it.

We went through the portal and it was a strange dimension. It was flowing with water and more and it looked like all of China and more mixed together.

Me: Whoa! This is incredible!

Nico: It sure is.

Laney: I sense a powerful aura.

Me: I feel it too.

Then we saw 2 birds fly in a direction.

Kero: That way!

We went after them.

It was a very powerful and very strange dimension. It was a very unusual place completely out of the reach of time and space.

Kero: The Aura is growing stronger and stronger.

Me: That means we're getting close!

Lori: We literally feel it.

We followed the aura until we got to a door.

Sakura Avalon: The energy is coming from in there.

Me: Then that's the prison of Su Yung. Power up guys!

We powered up and transformed!

Mimi: Ready Palmon?

Palmon: You know I am Mimi!

Palmon then digivolved.

Palmon: Palmon digivolve to…

Palmon became Togemon!

Togemon: (Echoing) TOGEMON!

Me: Lets go!

I opened the door and it was a room flooded with water. But the water was a portal into Su Yung's prison. We dove in and went in and we surfaced. We all were in Su Yung's dimension. We saw a woman floating above and she was almost touching the ceiling.

Me: Su Yung. So we meet at last.

Su Yung: Yes. So the mighty J.D. Knudson has arrived.

Me: That's right and all of Team Loud Phoenix Storm as well.

Su Yung: How long has it been?

Me: 1,000 years have passed since Clow Reed imprisoned you here. But this dimension is creepy enough already as it is.

Su Yung: Do you know what your futures are?

Togemon: They're happy futures.

Su Yung: Wrong! You all don't have any!

Me: And your future is death. And pain and suffering in the fire and darkness of hell for all eternity!

Su Yung: We will see! Now you all die!

Su Yung fired a massive blast of water at us and Maria grabbed it and fired it back at her and it slammed into Su Yung with devastating force!

Me: Windy!

I pulled out the Windy Card and summoned it with my powers and Windy blew Su Yung around in a powerful tornado.

Maria fired a massive blast of water and it slammed into Su Yung with devastating force.

Su Yung: A Clow Card!?

Me: That's right!

Su Yung: Tell me, where did you get a Clow Card!?

She fired a massive blast of water at me.

Me: In a place called none of your fucking business!

I fired a massive blast of energy at her and it hit her and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Laney flew at her and ensnared Su Yung in vines and Lola fired a massive blast of fire at her and burned her bad.

Togemon: (Echoing) NEEDLE SPRAY!

Togemon fired a massive shower of cactus needlesmat Su Yung and they hurt her bad.

Lincoln, Linka, Lizzy & Luke Morris and Static all fired a massive blast of lightning and electrocuted Su Yung and it really zapped her.

Edzilla: (punches Su Yung) ED SMASH WATER WITCH!

Joan (in pain): Time for us to shark out!

Joan and her sibs turned into the Genderbent Street Sharks and they went at Su Yung and bit her all over the place and electrocuted her.

Nico magnetized a metal bar and threw it at Su Yung.

Su Young: Since when could you use magnetism?

Nico: Guess you're forgetting that we defeated Magneto before. So I can use his magnetism powers.

Me: Nico, lets show her some teamwork!

Nico: Lets do it!

Me: Ready Leobreaker?

Leobreaker: You know I am J.D.!

Leobreaker turned into an awesome gauntlet.

Me: J.D. Knudson, Savage Claw Mode!

Nico: Ready Wingsaber?

Wingsaber: You know I am Nico!

Wingsaber transformed and turned into an awesome wing pack.

Nico: Nico Chan, Sonic Wing Mode!

Me: Lets get her! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Leobreaker and the claws extended.

Nico: Lets show no mercy! AUTOBOT CYBER KEY POWER!

The Autobot Cyber Planet Key went into the back of Wingsaber and his jet nose turned into a powerful plasma cannon.

Me: Time for action.

Me and Nico flew at Su Yung.

Me and Nico: FLYING PLASMA SLASHBLAST!

I flared up a green aura and slashed Su Yung and Nico fired a massive blast of plasma. It hit Su Yung and exploded with incredible power.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Leobreaker: Wow! That was so awesome!

Me: It sure was Leobreaker!

Wingsaber: Well done Nico!

Nico: Thanks Wingsaber.

Sakura Avalon: That was so cool!

Kero: Magnificent display of Teamwork!

Sakura Avalon: Do you think I can do that?

Me: You sure can Sakura. Everyone on the team can do it.

Sakura Avalon: All right! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Sakura Avalon's right arm device and Cybertron Snarl's Sword appeared in her arm and it ignited with green energy.

Sakura Avalon: Oh wow! This is so awesome!

Cybertron Snarl: Need a lift Sakura?

Sakura Avalon: Thanks Snarl.

Cybertron Snarl turned into his Animatron Wolf Form and Sakura Avalon got on and they jumped and Sakura Avalon slashed Su Yung. Su Yung exploded in a massive explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM

Cybertron Snarl: That was really well done Sakura.

Sakura Avalon: Thanks Snarl.

Maria: Relax, Su Yung. Your troubles are almost over!

William: Go get er, babe!

Maria fired numerous powerful blasts of water and they slammed into Su Yung with devastating force.

Me: Lets show her some teamwork power!

Francis: You got it boss! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Francis's right arm device and it enhanced his flamethrower device 10,000-fold.

Scrapper: Time for some power! CYBER KEY POWER!

The Earth Cyber Planet Key went into Scrapper's back and it enhanced his laser pistol and grenades 100-fold.

Francis and Scrapper: FIRESTORM GRENADE BOMBSTORM!

Francis fired a massive blast of fire and Scrapper fired numerous grenades and the fire and grenades hit her and they both exploded all at once.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Leobreaker: Lets get this freak! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his arm and it had his claws extend.

Mimi: Lets show him what true teamwork can do. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Mimi's right arm device and it enhanced Togemon's powers 1000-fold.

Togemon: Now we're talking! (ECHOING) SPEAR NEEDLE

BARRAGE!

Leobreaker and Togemon: NEEDLE CLAWSPEAR SLASH!

Leobreaker slashed Su Yung and the Cactus Needle spears skewered her.

Me: Lets finish this! Sakura, you ready for a final smash?

Sakura Avalon: You know I am J.D. MAGIC TORNADO BURST!

Sakura Avalon fired a massive vortex of magic energy from her hands and it slammed into Su Yung and exploded!

KRABBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Wow! Now it's my turn.

Nico: Su Yung you have failed this universe!

Me: Go to hell! FINAL SHINE ATTACK!

I fired a massive green energy wave from my hand and it hit Su Yung and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Su Yung then fell to the ground and she was severely weakened.

Nicole: Now it's time for you to be sealed into another dimension where you will never terrorize the world again! (Chants an incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

Su Yung was sealed into the Book of Vile Darkness!

Me: Go to hell. (To the viewers) Su Yung was a monster from the start. You mess with the laws of magic and you mess with us.

We went back home to the estate in Michigan and we knew right then and there that our journey to capture the Clow Cards was just beginning. Nico caught a Maractus and a Darmanitan.

In an awesome school for ninjas, 6 awesome friends were ready for action. These friends were the awesome Ninja Storm Power Rangers.

Shane Clarke: It's gonna sweet helping out Team Loud Phoenix Storm.

Tori Hanson: You said it.

Shane Clarke: Ready guys?

Blake Bradley: Lets do it!

Ninja Storm Rangers: NINJA/THUNDER/SAMURAI STORM! RANGER FORM! HA!

In a powerful flash of light they transformed and the Power Rangers of Ninja Storm were ready.

THE END

---

Another Fanfiction complete and another villain destroyed.

The first Clow Cards have been caught. We now have 49 cards to go. The next one is the Sword Card and that one is not gonna be easy. Su Yung was a deadly woman from the Cardcaptors movie and it was awesome! NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# A Male Princess Morbucks

At the estate, massive explosions were ringing out in the training ground.

KRABBOOOOOOOOOOOOOOOOOOOOOMMMM!
KRABBBOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me and Nico were practicing U-Rank Jutsu and they were really powerful and more.

Me: Lets see what this one can do. (ECHOING) **VOLCANO STYLE NINJA ART: LAVA TSUNAMI CASCADE!**

A massive torrent of lava exploded out of the ground and it slammed into a bunch of statues that looked like all of the evil Sasuke's and it exploded into a massive fiery explosion and the heat coming from it was incredible.

Me: Wow! That was awesome!

Nico: It sure was. Let me see here. (ECHOING) **CRYSTAL STYLE NINJA ART: CUPROSKLODOWSKITE SWORD SLICER!**

Nico formed a crystal longsword and it was made of a radioactive mineral called Cuprosklodowskite, a highly radioactive mineral that produces as much Gamma Radiation as Plutonium. My geiger counter was clicking like mad and Nico slashed apart a bunch of statues that looked like the Akatsuki members and they exploded into fiery explosions.

KRABBOOOOOOMMM! BOOOOM BOOOOOOOMMMM!

Nico: That was awesome!

Me: It sure was Nico. Well done!

Nico: Thanks. We have to be ready for when the next Clow Card comes around.

Me: I know. We have to expect the unexpected. In other words do not be surprised.

Nico: Yep. But why does Sakura's brother always tease her like that?

Me: Ah it's just being part of what he does being a big brother. But believe it or not Nico, he actually had an encounter with a Clow Card before Sakura and her moved here.

Nico: Really?

Me: Yeah. He told me that he has Spiritual Awareness. He has the power to see, hear and talk to the dead and spirits.

Nico: Do you know which one it was he encountered?

Me: I honestly have no clue. But Tory said that the Clow Card looked like a exact double of Sakura. Like some kind of twin.

Nico: That is so unusual.

Me: I know. But that's why we have to be ready for anything.

?: You know the ways of a ninja all right.

We turned and we saw the Ninja Storm Power Rangers! They were Shane Clarke the Wind Ranger, Tori Hanson the Water Ranger, Dustin Brooks the Earth Ranger, Hunter & Blake Bradley the Crimson and Blue Thunder Rangers and Cameron "Cam" Watanabe the Green Samurai Ranger.

Me: Oh wow!

Nico: (excited) Are you guys the Ninja Storm Rangers?!

Shane: We sure are Nico. It's an honor to meet you and J.D.

Me: (Kung Fu Bow) It's an honor to meet you guys. We watched Power Rangers Ninja Storm all the time.

Tori: We are honored to meet you too J.D. We saw you guys do all kinds of awesome ninja moves.

Me: Thanks. We know all kinds of awesome powers and moves. But some of them are so powerful that they can destroy everything.

Nico: We tore up the training ground with Shinobi jutsu moves.

Dustin: That is amazing!

Shane: You guys did a lot all over the world.

Me: And all over the universe. But we don't like to brag. I heard you guys sealed the evil Lothor into the Earth's core.

Tori: We sure did.

Cam: It was a tough battle.

Me: But if he ever comes back we will be ready for him.

Hunter (PWNS): Thanks J.D.

Blake: We won't let Lothor have his way.

* * *

Back in the estate we were watching TV and reading books. Sakura Avalon was in the kitchen helping Lynn Sr. with the cooking. She likes to cook and help out around the kitchen and she's a really fast learner.

Lynn Sr.: You're really learning fast Sakura.

Sakura Avalon: Thanks Mr. Lynn. I love to cook and learn so much about how to cook. Home Ed class is what I excel at.

Lynn Sr.: You and I are so alike Sakura. Like you I too excelled in Home Ed. My teacher of Home Ed, Mildred Scalise taught me everything I knew about it.

Sakura Avalon: Wow! That is amazing.

Lynn Sr.: It sure is.

In the living room, we continued watching TV. Tori saw Maria holding Horsea and she squealed with cuteness overload.

Tori: Oh Horsea you are just the cutest little one!

Horsea: Thanks Tori. But I belong to Maria.

Tori: Oh sorry.

Maria: It's all right Tori. But Horsea loves it when she's hugged.

Shane: My favorite adventure was when you went to the Mediterranean Sea and destroyed all those mermaids.

Me: That was our bloodiest and most gruesome battle ever. That was a true example of the savagery of the Dark Side of The Legend of The Mermaid.

Tori: I believe it.

Maria got a call on her cell phone.

Maria: (Answers) Hello? (PHONE GARBLE) WHAT!? We'll be right over! (Hangs up) We need to get to Dimmsdale right away!

Gaara: Why? Is another Anti-Fairy attacking?

Maria: No. Worse. Another one of Timmy's enemies knocked him out with a rock slide and stole the rule free muffin from him!

We all gasped!

Me: We got to get over there! Lets go!

Cam: Let us help you guys.

Li Syaoron: You guys sure you want to help us out? You haven't been Power Rangers for a long time. It might take you 6 a while to get used to it again.

Dustin: Relax, dude. Fighting as Power Rangers is special. Once you use it, you never lose it.

Me: That's true. Lets fly!

We were off to Dimmsdale.

---

We were flying over the country. Sakura Avalon was flying with wings and we were amazed.

Me: Stellar what is this Rule Free Wish Muffin?

Stellar: It's a very special muffin that can grant any kind of wish free of the rules of Fairy Godparents. It's only given to godkids that have had fairy godparents for over a year and have not told anyone about them.

This Magic Muffin is a special wish granting muffin that can grant wishes that are free of Da Rules with one bite. Whenever a godchild has kept his fairy godparents for over a year without revealing their secret, they may get this special gift as a present. According to Jorgen Von Strangle, "only children who have kept their fairies for over a year can be trusted with that kind of gift." Its only downfalls are that they grant rule-free wishes, so adults can use them (demonstrated by the school Muffin Man and Crocker), as well as a non-dominant species (demonstrated by Bippy the Monkey). Also, it tastes horrible. Despite its rule-free wishing ability, you can't wish for it to taste better. Also the cupcake will eventually be completely eaten, so its uses are finite.

Me: Boy a muffin like that is really powerful and it sure sounds like it tastes awful!

Laney: I would not want to eat a muffin like that.

Lola: Me neither. And I do love daddy's cupcakes and muffins and I also love Linky's muffins.

Lincoln: Thanks Lola.

We got to the rockslide and we saw Timmy and got him out. Timmy was badly hurt.

Me: Timmy, are you all right?

Timmy: Yeah.

Trixie: Are you nuts, Timmy? You shouldn't have challenged Remy to that contest again.

A.J.: Trixie's right. If you lose, you lose Cosmo and Wanda and you'll have to leave Dimmesdale forever!

Bludgeon: C'mon! When have we ever lost any contest?

Me: Remy? You mean Remy Buxaplenty, that snobby, arrogant rich kid that is better than Timmy at everything?

Laney: I've heard about him. He's like a Male Princess Morbucks.

Lincoln: Yeah and he is worse than Princess.

Adult Blossom: Actually, Princess Morbucks was the worst. She tried everything she could to become a Powerpuff Girl and she also tried to kill us on several occasions.

Me: This is a whole new ballgame. Lets go.

We were off and we arrived at the Buxaplenty Mansion. It was a massive multi-million dollar mansion only about a fraction the size of ours.

Me: The Buxaplenty Estate. Not nearly as nice as ours. But it's just as extravagant.

Suddenly I sensed something.

Me: I sense a Clow Card here.

Sakura Avalon: I can feel it.

Li: Same here.

Lincoln: Which one is it?

Me: I don't know. I don't even know where it is. But it's somewhere

here.

Nico: We have to find it.

Me: We will. Lets go.

We went into the estate and we saw an amazing mansion.

Me: Wow! He sure knows how to live. But this place reeks of evil.

?: (Rich Boy Accent) That's a matter of opinion James.

We then saw REMY BUXAPLENTY HIMSELF!

---

Remy first came into Timmy's life in the episode "Fairy Fairy Quite Contrary," when he was shown to be able to best Timmy at many different things, from buying out all the tickets to Crash Nebula to taking his place as Cleft in the Crimson Chin comic book. Timmy and Remy eventually learn that the other has a fairy godparent(s). The latter feared that Timmy may wish to be richer than him and demanded that Juandissimo get rid of Timmy's godparents. Unfortunately, it would be forbidden by "El Rules". This leads Remy into bribing Timmy to wish away his godparents in exchange for money, but Timmy refuses, pointing out that Remy is miserable and that he is much happier than him. Angered by the claim, Remy calls a magical duel, encouraged further by Juandissimo. In a three match competition, Timmy won by dumb luck. This caused Remy to lose Juandissimo and have his memories erased. Feeling sorry for Remy, Timmy wished that he could spend more time with his parents.

Unfortunately, Cosmo and Wanda unintentionally marooned Remy and his parents on a tropical island. To make matters worse, his parents found an oil well and built a hotel, making them busier then ever. In the midst of it all, a 'handsome' purple coconut hits Remy on the head and he remembers everything. This causes him to form a brand new plan to get revenge on Timmy. He ends up returning to Dimmsdale to befriend Timmy and make sure that he is not dependent on his fairies, making it to the point where he doesn't need them anymore. Eventually, Cosmo and Wanda are ordered to leave because Timmy has a happy life without their help. Overjoyed, Remy announces that his plan has succeeded, and while proclaiming his triumph, Juandissimo appears, revealing that he was the purple coconut that brought his memory back. Soon after, when everybody thinks that it was in fact Juandissimo's plan all along, Jorgen Von Strangle appears to reveal that it was all his idea to bring Remy and Juandissimo back together, simply because the latter was now a cook at his favorite restaurant, and the food he made was terrible. Therefore, Jorgen prevents Cosmo and Wanda from being taken away and Remy is foiled again. To punish Remy for his misdeeds, Jorgen ordered him to eat Juandissimo's food. Remy is next seen in "The Big Bash." When Cupid invites Timmy, Cosmo, and Wanda to a party he was holding, Timmy discovers that Remy was invited as well. Upon learning of the scavenger hunt Cupid was holding along with the rule-free wishes that the winner would receive, Remy tells Timmy that he will beat him at the game and use the wishes to get rid of his Fairy Godparents once and for all. After establishing that he will ride in his time 'limousine' rather than a scooter, he wishes that all the other contestants were asleep. Unfortunately for him, it does not affect Timmy as he was wearing headphones. After going through different periods of time and locations to complete the scavenger hunt, it appears Remy is going to beat Timmy, but his last item is not what Cupid wanted, making Timmy the victor, as he got the right item. In a twist, it turns out that the two were simply doing Cupid's grocery shopping, and in anger, they settle their differences with a truce and turn their attention towards Cupid, and order different figures they encountered throughout their time traveling to chase after him.

Remy is last seen in "Operation F.U.N.," where he tricks Timmy and his friends into a military school to antagonize them. The episode implies that Remy attends the school from that point onward. Because Juandissimo would later become a contestant at Fairy Idol and appear without Remy, some fans might have had the impression Remy lost his fairy godparent again after "Operation F.U.N.", but it was confirmed in "Teacher's Pet" that Remy is still Juandissimo's godchild.

Remy only seems to attend Dimmsdale Elementary School in the episode Remy Rides Again when he tried to trick Timmy into losing his fairy godparents. It seems, however, that he attends F.U.N. Academy now, a military school that he tricked Timmy and his friends into going to. Remy is typically portrayed as antagonizing Timmy, other children having little to no involvement. He has, however, annoyed Chester and A.J. in the past, where he tricked them into going to F.U.N. Academy.

---

Me: Remy Buxaplenty.

Remy: In the flesh and it's an honor to finally meet you in person Team Loud Phoenix Storm. But too bad Timmy just forfeited the 2nd of our three contests.

Me: So you are the one that buried him under all those rocks!

Then out came a muscular handsome hispanic fairy. It was JUANDISSIMO MAGNIFICO!

Me: Juandissimo Magnifico, I presume?

Juandissimo: (Spanish Accent) That is right Señor J.D. I am he.

He flexed his muscles and his shirt ripped off and reappeared.

Me: I killed your Anti-Fairy counterpart on the planet Venus after Luan and Eddy won that race.

Juandissimo: Ah I'm glad that monster is gone. He was ruining my handsome good looks.

Me: You always did have a really cool flair for the dramatic. But you wouldn't you rather be much better for someone much better than a spoiled little brat like Remy Buxaplenty?

Juandissimo: Ah that is true.

Remy: (Offended) Hey!

Jorgen: (Arnold Schwarzenegger Accent) Why the heck did I even allow Remy Buxaplenty to be reunited with Juandissimo?

Me: Remy must've found a loophole in the alliance.

Remy: You are correct. I managed to get Juandissimo back by getting him back by force.

Kevin (Ed, Edd N Eddy): You two have reached a new low in dork history!

Blot: Yeah! You could've killed Timmy with that rockslide!

Timmy: And to top it all off, you stole the new rule free muffin that Jorgen gave me!

Juandissimo: (flexes muscles at Tori) Madam, maybe you and your friends would leave if I showed you how sexy I am.

Tori: I already have a boyfriend, thank you very much! And we're not leaving until you give us that muffin back!

Hunter Bradley: Yeah! Fair's fair!

Remy: Fair? Who cares about fair? We'll do whatever it takes to get what we want. That's what seperates the winners from the losers!

Me: You are no winner. You have a nasty superiority complex Buxaplenty and that's gonna be your undoing. People like you give rich kids everywhere a very bad name. Look at what happened to Princess Morbucks. She was the ultimate personification of the ultimate spoiled brat. And look what happened to her. She's now dead and sealed into the book of vile darkness because of her own greed and selfishness. I may be filthy rich and have all the money in the world, but I don't rub it in everyones faces by saying I'm better you because I'm Filthy Rich. No. That's not my style.

Remy: Lets prove it shall we?

Me: A contest?

Remy: Indeed.

William: We'll decide the contest. After all, using the same one would be dull.

Remy: Oh please! You're probably going just change the contest so you'll have an advantage.

G1 Ironhide: Like we'd do that. Unlike you two, we actually believe in fairness!

Me: Okay. But I'm calling the contest.

We went out to the courtyard and it was really nice. We were sitting at the table and we had a 10 shot glasses for each of us.

Remy: So what are the shot glasses for?

Me: You're about to see. We're going to do one of the most insidiously notorious contests ever known to the history of man: A HOT SAUCE DRINKING CONTEST!

Lightning flashed and Thunder crashed in the background as realistic fire raged and Satanic cultist music played.

Me: I hope you have a really strong stomach Remy. Because you'll need it for this.

Remy: Anything you can handle, I can handle better, loser.

Me: Oh we shall see.

Nico came in and he was wearing a radiation suit while carrying a black safe. It had the radiation sign on it. He opened the safe and in it was a bottle that was glowing neon orange. It was the hottest hot sauce I have ever created. It was called The Grim Reaper Dragonstorm! It was made with capsaicin extract from the 8 hottest peppers on the planet: The Merciless Pepper of Quetzalacatenango, The Dragons Breath Pepper, The Carolina Reaper, The Trinidad Moruga, The Trinidad Scorpion, The Naga Viper, The Ghost Chili, and The Chocolate Habenero Peppers! The label was the grim reaper riding a skeleton dragon completely on fire and said peppers were orbiting around it as his eyes glowed red!

Me: This is the hottest hot sauce I've ever made. It's called The Grim Reaper Dragonstorm! It's made with the Capsaicin Extract of the 8 hottest peppers in the world!

Nico took some radiation safety tongs and poured the insanely spicy hot sauce into our shot glasses and everyone gasped in sheer horror. We had to drink 10 shot glasses of this insanely spicy sauce! PURE MADNESS!

Lori: This match will literally kill them!

Lynn: Not even I am that crazy!

Lucy: I'll be sure to say something nice at your funerals.

Laney: Oh boy.

Nico: It's ready J.D.

Me: Okay Nico. The object of this contest is to drink as much as you can without crying or screaming in pain.

Remy: I can handle that.

Me: Are you sure?

Remy nodded.

Me: All right then. Laney would you like to be referee?

Laney: Sure.

Laney came over.

Laney: Ready guys?

I had the first glass ready.

In the mansion, Cecil and Wolverine were sneaking around and are gonna get the Muffin.

Cecil: Thanks for helping me out with this, Wolverine.

Wolverine: Well, you should know that I'm disappointing my students. I'm supposed to be giving them lessons today. (cuts open the glass case of the muffin with his claws) There! That should do it.

The two suddenly heard the cocking of a gun. They turned to see Remy's butler pointing a shotgun at them.

Remy's butler: You two should not be here.

Cecil: Really? I go out into town after being released from jail and I find out that your boy stole something from one of my friends.

Remy's butler: Please consider the consequences of your actions.

Wolverine: They're already considered, bub!

Wolverine slashed the gun in half with his claws and ruined it and they grabbed the muffin and ran.

In the garden Laney got the contest started.

Laney: GO!

I gulped down 4 glasses in 5 seconds and a massive aura of fire exploded out of me and then I finished all my glasses first.

Remy gulped down one glass and then suddenly he screamed in excruciating pain and a massive blast of fire exploded from his mouth and he ran and went into the lake and dove into it. The water boiled as it cooled him down.

Me: Nice try Remy. But when you love nuclear hot spicy food like me, you're as tough as anyone.

I drank his remaining glasses and the fire aura was stronger than ever before.

Nico: Looks like Remy Buxaplenty is a total wimp.

Remy came back and he was extremely enraged.

Remy: You monster! Now you will die!

Remy then revealed that he had a secret weapon! It was a European-Style Rapier Sword. But it had a winged hilt.

Li Syaoron: That's the Sword Card!

Remy: Of course it is! Now, let's see what happens when I add my Dark Orb's power to the mix!

Me: That's the Clow Card we sensed! And I didn't know he had a Dark Orb on him.

Sakura Avalon: My friend Rita was possessed by that card and she tried to kill me with it.

Me: So it's a sword fight he wants. All right then.

I unsheathed my sword.

Me: Lets see who's the better sword master.

Remy: I'm going to enjoy killing you J.D.

Me: Lets dance.

We went at each other and we clashed our swords with a massive thunderous clang.

CLAAAANNNGGG!

We clashed ferociously and sparks went flying all over the place and we clashed more and fiery embers bursted out with each clash and it was setting the whole garden on fire. It was a massively raging inferno and it looked like we were fighting in the darkness of hell 100-fold.

Sakura Avalon: Wow! Look at J.D. go!

Li: J.D. is quite a swordsman. It's like he trained his entire life for all this.

Nico: J.D. trained very hard Li. It's a long and very complicated story.

Me and Remy were clashing ferociously as the fires of Hell raged on and Remy fired a massive blast of dark energy from the dark orb imbedded in the palm of his right hand and I deflected it back at him and he dodged it and it hit the ground and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

I slashed Remy in the face and he got a nasty cut on his right cheek. Then we stood and faced each other. Remy was completely enraged beyond all forms of human comprehension. I could see the ferocious level of hate in his eyes. They were glowing with a massively raging and intense flame from deep inside him and it was like he wasn't even human anymore. His hatred had completely consumed him beyond all form of recognition. It was like I was starring into the face of ultimate hatred. His hatred was so strong that it made Icky Vicky's hatred look like a joke.

Remy then screamed in unimaginable rage and I screamed too.

Remy:
AAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAHHHHHHHH!

Me: AAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAHHHHHHHH!

We went at each other with swords in our hands and we were screaming at the top of our lungs.

Me: AAAAAAAAAAAAAAAAAAAAAAAAAAHHHHHHHH!

Remy: AAAAAAAAAAAAAAAAAAAAAAAAAAHHHHHHHH!

Me: AAAAAAAAAAAAAAAAAAAAAAAAAAHHHHHHHH!

Remy: AAAAAAAAAAAAAAAAAAAAAAAAAAHHHHHHHH!

We clashed ferociously with indiscriminate fury and then a massive fiery explosion erupted out around the area and blew much of the area completely into dust!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

When the smoke cleared I kicked the Sword Card out of his hand.

Me: RETURN TO YOUR POWER CONFINED! SWORD CARD!

I formed an energy card and the Sword Card turned into blue spirit smoke and went into the card and it turned back into The Sword Card. 剣

Me: That did it.

I signed my name on it.

Sakura Avalon: That was so awesome J.D.!

Li: You did really well.

Nico: Great job J.D.

Me: Thanks guys. Lets show Remy what happens when you mess with Team Loud Phoenix Storm. Combo and Final Smash his butt.

Blot: Copy that. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his corrosive gun 100-fold.

Bludgeon: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his high voltage electric gun 100-fold.

Blot and Bludgeon: ACIDIC LIGHTNING DOWNPOUR

Blot fired a stream of acid and Bludgeon fired a massive blast of lightning and the blasts combined and slammed into Remy and burned and electrocuted him.

Ironhide: Action time! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his static laser gun 100-fold.

Gaara: I've always wanted to try thos. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it supercharged his 1-Tail Jinchuriki Powers.

G1 Ironhide and Gaara: LIGHTNING FULGURITE ELECTROCUTION!

Ironhide fired a massive blast of lightning from his Static Laser Gun and Gaara fired a massive blast of sand. The lightning turned the sand into fulgarites and they hit Remy and electrocuted him.

Tori: Lets show him what the Ninja Storm Power Rangers can do!

Me: Get him guys!

The Ninja Storm rangers went at Remy and they demonstrated a menagerie of moves and techniques on him. It was just like watching them on TV.

Me: Lets finish this!

Li: You got it J.D.! ELEMENTAL STORMRAY!

Li pulled out 4 element talismans and fired beams of Wind, Fire, Water and Earth and they slammed into Remy and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Trixie: This is for Hurting Timmy! ROSEFIRE PHOENIX!

Trixie formed a massive beautiful red rose and fired a massive blast of red fire and it turned into a flower phoenix. It slammed into Remy and exploded.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

I walked over to Remy who was defeated. I picked him up and I pulled out the Dark Orb and crushed it and we got an immense power boost. I dropped him.

Later we were at the entrance into Dimmsdale and we were there to send Remy on his way in exile.

Jorgen: Remy Buxaplenty, for your crimes against the city of Dimmsdale and Fairy World, you are hereby banished from the city of Dimmsdale to the Island of Losers. You get to keep your memories, Remy Buxaplenty. So you can live in your exile knowing that you had a Fairy Godparent, but your arrogance got him taken away from you!

Me: And you will never be welcome anywhere in the world. Remy Buxaplenty, your crimes against Dimmsdale and Fairy World are worthy of death. However because you're only 10-years-old, we'll let you live. Therefore you are hereby banished to the Island of Losers in the South Atlantic Ocean. No one is to show you any kindness or ever speak of word to you. You will not have a friend in the world. You are to stay on that island FOREVER!

Nico: Remy Buxaplenty, you have failed this city and this world.

Remy: I will never forget this J.D. I will return one day and I will have my revenge!

Jorgen teleported him to the island. Now he was gone.

Me: Good riddance to bad rubbish.

Trixie: You said it. (To the viewers) You mess with everyone we care about for stupid reasons and there will be horrible consequences.

Me: You said it Trixie.

I had the Wish Muffin in my hands.

Me: So this is the Rule-Free Wish Muffin. It's a pretty one. Lets see if it works.

I took a bite and it tasted horrible!

Me: BLECH! That tastes horrible! I wish money trees would grow in every yard on every house on Earth.

In an instant, money trees grew everywhere.

Me: Wow! That is so awesome!

Timmy: It sure is J.D. Thanks for getting rid of Remy Buxaplenty.

Me: You're welcome Timmy.

We later went before the Fairy World High Council and to make sure that fairy godparents never fall into the hands of evil rich kids like Remy Buxaplenty ever again, we instated a new rule saying that anyone like him will never get Fairy Godparents. PERIOD. Nico caught a Crustle and a Scrafty.

We went back home and we saw that we had a huge money tree. The trunk was 24 Karat solid gold and the leaves were $100 bills and it was amazing. The old saying "Money Grows On Trees" is now 100% true. We put Juandissimo Magnifico on community service. Instead of sending him back to Fairy World, we had him reassigned to being the Fairy Godparent of the Loud Kids.

THE END

---

Another Fanfiction Complete and another Fairly Oddparents Villain Defeated.

Remy Buxaplenty was like a male version of Princess Morbucks from the Powerpuff Girls and he was the worst. The only difference is that he didn't try to kill Timmy several times to become a Powerpuff Girl or anything like that. This chapter was also made to honor Power Rangers Ninja Storm cast member Pua Magasiva who starred in Power Rangers Ninja Storm and played as Shane Clarke. He died on May 11th, 2019 and it was a shock to Nico. It shocked him bad. I watched Power Rangers Ninja Storm on Netflix and it was so awesome! The sword fight screams we did are from the 8th episode of Samurai Jack, Jack VS Mad Jack and that was brutal. The banishment line I used was from Tim Burton's Alice In Wonderland from 2010.

R.I.P. Pua Magasiva - August 10th, 1980 to May 11th, 2019. You will be forever missed.

NicoChan11 gave me the ideas for this one. Thanks man as usual and I'm sorry about what happened to Pua. Let me know what you all think.

See you all next time.

# A Bad Photo Moment

We were on the legendary floating island of Animarium and it was an amazing island floating up in the sky and it was beautiful. It had a lot of Wild Zords and more. It was a really beautiful jungle paradise island.

Me: Wow! So this is the legendary island of Animarium.

Laney: It's amazing! And it's so beautiful.

Nico: It sure is. I could really love coming here for vacation.

Lincoln: Me too.

We went into a temple and we saw Princess Shayla and she was beautiful.

Princess Shayla: Welcome J.D. and welcome Team Loud Phoenix Storm.

Me: Princess Shayla, it's such an honor to meet you. Cole and the others told us so much about you.

Princess Shayla: I know. You don't know how happy I am that you resurrected the Animus Zords. I am forever grateful.

Me: I'm glad I can help out. And I take it you heard about what happened to Master Org?

Princess Shayla: We sure did. I'm glad he's dead.

Me: Same here. Me and Nico killed him and sent him into the River of Fire.

Princess Shayla: I'm glad. We are forever in your debt to you all.

Me: It was what we had to do for everyone. Plus he killed Cole's parents in cold blood and we couldn't let him get away with that. So we had to get justice for them.

Princess Shayla: I'm glad we have now seen the last of him and his minions.

Laney: Yeah. I hated that guy. He was the devil on Earth.

Me: I know. But there are still many Wild Zords out there to discover.

Merrick then came.

Merrick: Oh hey guys.

Me: Hey Merrick.

Merrick: How have you all been?

Me: Still busy saving the world like always.

Merrick: I know. But the Deer Zord is acting up and we need to calm it down.

Me: We know a couple of songs that can help it out.

We went over and we saw the Deer Zord singing.

Laney: Wow! The Deer is one of my favorite animals and it's also my spirit animal.

Princess Shayla: We need to sing to it to calm it down.

Me: They do say that Music Soothes the Savage Beast.

Ed: (gets out his own flute) Let me join in on the song as well.

Matilda: Ed, I don't think that's a good idea.

Me: Let them try Matilda.

Eddy: I remember that Ed played the flute and he has quite the gift.

Edd: Indeed he does Eddy. He has quite the talent.

Me: I think the violin is not his type of instrument. The Flute is.

They played the song of Animarium and it didn't like it.

Ed: The Deer Zord doen't like my flute?

Pharaoh Man: Don't take it the wrong way, Ed. But the Deer Zord needs a more peaceful melody.

Me: Let me and Lincoln try.

Me and Lincoln tried our flute playing and we succeeded in calming down the Deer Zord. But we promised that if we found anymore Wild Zords that we would bring them back to Animarium.

In Bikini Bottom, Lily, Maria and Horsea were walking down the street. They then saw a massive tower mansion that was like Squidward's house but it was very extravagant and beautifully breathtaking!

Lily: Wow! What a tower!

Maria: Whoever has that house is filthy rich!

?: That house belongs to me.

They turned and they saw the famous multi-billionaire philanthropist Squilliam Fancyson III.

Lily: Wow! You're famous billionaire Squilliam Fancyson.

Squilliam: That's right Lillian.

Maria: Weren't you in Squidward's High School Band Class ages ago and you made billions doing what he wishes he could do?

Squilliam: That's right Maria. And I'm much more better than my loser rival Squidward.

Lily: Squidward has always been that big of a loser and has always been that big of a jerk. He never gets recognized for his work, he hates his job at the Krusty Krab and he hates SpongeBob and

Patrick with a vengeance and he hates everything. They don't call him the most miserable freak in Bikini Bottom for nothing.

Squilliam: That is so like Squidy. He never has had that spark inside him.

Lily: That's true. He was a cashier for 20 years and he only got Pennies from Mr. Krabs before we made some changes. But because of his supervised release from the nuthouse it goes to his living conditions at the asylum.

Squilliam: That's good. Squidward will never be good at anything.

Maria: No he won't.

Squilliam: Good. Let me show you all inside.

They went inside Squilliam's house and it was everything everyone could ever dream of. It had stuff priced at 10s of thousands of dollars and more. It was like everything in rich heaven. There was a lot of fancy schmancy stuff that would put even the richest people in the world to shame. It was amazing.

* * *

Back at the estate Lily and Maria were telling us about what they saw.

Me: Wow. You guys have been in the true lap of luxury.

Julie Martin: I'll say.

Nico was deciding what our next target will be for the Goosebumps Monster Busters. He chose the book "Say Cheese and Die!".

Nico: Here's our next target guys. We're going after the evil camera from "Say Cheese and Die!".

Bluestreak: (to Julie Martin) Didn't you have an encounter with the Evil Camera before, Julie?

Julie Martin: I sure did. That camera was horrible. It was a strange camera.

The camera has the power to steal souls and is completely indestructible. When a picture is taken, the image that develops does not show what is in the present, but what will happen to the person/object in the image in the future. For example, when Greg takes a picture of his family's new car, the image develops as the car completely wrecked (indicating that a car accident will occur). In later installments, the pictures taken can also affect one's physical appearance. Be it making them fat or thin, turning their skin into scaly reptile skin, or giving them a bumblebee head. If a picture of someone gets caught in its mechanism, it can cause the victim to suffer the painful sensation akin to their torso being cut in half.

It remains to be determined as to what becomes of the souls the camera captures. Of particular interest is whether or not souls increase its power.

The Camera cannot move on its own and cannot force anyone to find it and use it. As long as it is well hidden, its powers are useless. If a picture is taken of itself, it will create another camera. If the photo taken by the camera is destroyed or changed into a negative, the effects of the camera will be prevented. Should one prevent the events of a photo from happening, the events of the photo and other photos taken by the camera will be nullified.

Michael Warner: Photo taken of him shows him falling down from the railing of the Coffman House basement staircase.

Mr. Banks' new Ford Taurus: Photo shows the car completely destroyed. Mr. Banks gets into a nasty accident later.

Terry Banks: Photo taken of him shows him outside with a worried expression on his face.

Douglas "Bird" Arthur: Photo taken of him laying unconscious on the baseball field after being struck head-first with a baseball, body in an uncomfortable position.

The Banks Family (Dream): Photo Greg takes of them at their backyard picnic shows Greg's mom, dad and brother Terry as skeletons.

Shari Walker: Photo taken of her doesn't show her, causing her to vanish from existence later at her birthday party. Nullified after Greg ripped the photo in half.

Greg Banks: Photo shows Greg and Shari on the playground, trembling in fear from a shadowy figure.

Dr. Fritz Fredericks Photo taken shows him dead on the floor of the Coffman House basement after Shari takes his picture, causing him to die of fright.

Joey Ferris and Mickey Ward: It's never revealed what the photo was or what befell them.

Jonathan: Photo taken of him on the ground in pain, cluching his foot after being impaled by a giant carpenter's nail.

Shari Walker: Photo taken of her comes out as a negative. This causes her to rapidly lose weight. Nuillified after Terry changed it into a positive.

Greg Banks: Photo taken of him being over 300 pounds. This causes him to rapidly gain weight. Nullified after Terry turned it into a negative

Greg Banks: Photo taken of him with scaly reptile skin. His flesh begins to fall off, being replaced by scales. Nullified after Terry turned it into a negative.

Greg and his class: It's never revealed what the photo was or what befell them.

Reena Jacobs: Photo taken of her shows her eyes red. She instantly suffers an intense burning sensation from her eyes and a redness that stays permanent until the camera is defeated.

Karla Mayer: Photo taken of her shows just her arm. She then seriously injures her arm in a basketball game.

Julie Martin: Photo taken of her gets caught in the camera mechanism, which causes her to have a sharp pain in her torso, as if she's being cut in half.

Twin Forks Middle School (dream): Photo shows the entire school as skeletons after Julie takes a picture of them.

Becka and Greta: Photo taken of them shows them with green alligator skin, which immediately befalls them.

Sammy Martin: Photo taken of him has his head replaced by a bee's head. His head immediately starts growing yellow fuzz and he can only speak in buzzing sounds.

Julie Martin: Photo taken of her shows her falling off the school diving board to her death. She manages to stop the prediction from happening. This in turn, nullified all the other photos taken by the camera.

Douglas "Bird" Arthur: Instead of Michael (due to not being in the episode adaptation), the photo is taken of Bird falling from the railing of the Coffman House basement staircase.

Mr. Banks' new car: Photo shows the car completely destroyed.

The Banks family (dream): Photo taken of them at their backyard picnic shows them as skeletons

Shari Walker: Photo doesn't show her, causing her to vanish from existence. Nullified after Greg rips the photo later on.

Dr. Fritz Fredericks: When Shari uses the camera on Fredericks it causes him to be sucked inside the camera. He screams to be released until he's eventually freed by Joey Ferris and Mickey Ward.

Unnamed man: Photo taken of him shows him unconscious. As he chases Greg, the stairs break under him, causing him to fall through the basement floor of the remains of the Coffman House, knocking him out.

Shari Walker: Photo taken of her comes out as a negative. This causes her to rapidly lose weight.

Greg Banks: Photo taken of him being over 300 pounds. This causes him to rapidly gain weight. Both Greg and Shari's photos are nullified after having Terry reverse the photos at the photo-mart.

Mr. Saur: Photo taken of him shows him bald. His hair immediately begins to fall out.

We gasped in sheer horror at how that camera was made and what it can do.

Me: That camera is an invention of the Devil!

Nico: And the man that made it is really deranged.

Me: Just what the universe needs, another fucked up mad scientist running amok.

Long Haul: You think the Evil Camera might have an effect on us?

Nico: I don't think so Long Haul. You guys don't have souls.

Lori: Who is the man that made it?

Me: His name is Dr. Fritz Fredericks and he is really fucked up to the core.

Not much is revealed about Fritz's personal life other than that he assisted in building the Camera during his youth. It is also unknown what field he is a qualified doctor in.

In his youth, Dr. Fredericks obtained employment in a laboratory with another man, who was currently working on a Camerology project. The man was constructing a special camera, which Dr. Fredericks was hired to assist with the development of.

Likely excited by the prospect of fame and fortune, Dr. Fredericks waited until the camera was finished, and then he stole it. The real creator was angered by Dr. Fredericks actions, so the creator placed a dark magic curse on the device. Dr. Fredericks wasn't aware of the curse, so he took photos of people he loved. Sadly, those he photographed either died or were severely harmed, leading him to leave his life and become a vagrant. Eventually, Dr. Fredericks arrived in Pitts Landing, which was to be his last home in life.

At the beginning of Say Cheese and Die!, the children describe having seen him around town from a distance. Towards the end of Say Cheese and Die!, Greg and Shari are trapped by him when he stops them from escape from his basement in the Coffman House.

In Say Cheese and Die!, Dr. Fredericks's is accidentally killed by Shari in the Coffman House. During a skirmish between the two, Spidey's picture is unintentionally taken, which causes him to die of fright.

The television adaptation, when Dr. Fredericks's picture is taken, he is transported inside the camera. However, he is accidentally released by the two bullies when they find the camera. Consequently, he is still alive at the end of the episode.

Lola: This guy is a monster!

Laney: He's beyond pure evil!

Me: He's worse than that. He's 14,000% fucked up. He's located in a suburb of Frankfort, Kentucky. Lets head out!

We set out for Frankfort, Kentucky.

---

## FRANKFORT, KENTUCKY

---

We arrived in Frankfort and we were in a suburb of the city and it was deserted.

Me: This is where we're supposed to face him.

Lori: Yep. We have to be ready.

Then I sensed a Clow Card.

Me: There's a Clow Card here.

Li Syaoron: I can sense it.

Sakura Avalon: It's a strong one.

Me: But which one is it?

Then we saw 4 kids come and they were Greg Banks, Shari Walker, Doug Arthur, and Michael Warner.

Greg: Wow! Team Loud Phoenix Storm!

Shari: It's such an honor to meet all of you.

Doug: We heard so much about you all.

Me: Same here. And you all must be (To Greg) Greg Banks, (To Shari) Shari Walker, (To Doug) Doug Arthur, and (To Michael) Michael Warner.

Shari: That's right. We love all your adventures.

Doug: You guys are an awesome force to be reckoned with.

Lisa: We don't like to brag about it but thank you.

Me: We actually came to make Fredericks pay for his crimes.

Shari: Are you here to kill him?

Me: If the need should come to it, yes. But we're also here to destroy that evil camera.

Doug: We would like that J.D.

Julie Martin: You're not the only one that has had problems with that camera. I want to destroy it badly.

Julie formed a camera in her hand made of ice and she crushed it.

Greg: (sees Julie's hands power up with ice) Oh, man. Did Horrorland experiment on you guys?

Julie Martin: No. We were given our powers by J.D. and his friends.

We are now members of Team Loud Phoenix Storm.

Abby Martin: That's right.

Then we heard homicidal maniac laughter. We turned and we saw DR. FRITZ FREDERICKS!

Me: Dr. Fritz Fredericks!

Greg: (sees the Camera in Fredericks' hands): Thanks for bringing the camera. This is almost too easy.

Me: So that's the camera.

Shari: (sees a Dark Aura around the Camera) Greg, wait! There's something different about it!

My Dark Orb Detector went off and it showed that there was a dark orb in the camera.

Edzilla chomped on the camera and destroyed it completely in one massive bone destroying chomp!

Eddy: Nice work Lumpy.

Me: You are next Dr. Fuckcase.

Nico: Dr. Fredericks you have failed this world!

?: That's not the only thing that will fail!

Lola: I thought I would never hear that voice again!

We turned and we saw 3 Heartless. It was a Heartless of Princess Morbucks, Ember and Tridart! Princess Morbucks was now called the Greedy Spoiled Curse, Ember's Heartless was called the Firestorm Malevolence and Tridart's Heartless was called the Icy Hellish Despair!

Lana: Princess Morbucks!

Irma: Tridart!

Taranee: Ember!

Me: I thought we were rid of you three for good.

Buttercup: What is this? A Team Morbucks reunion?

Me: Nice burn Buttercup.

Firestorm Malevolence: It seems that way. After all, the three of us died on the same day.

Icy Hellish Despair: You all really should've sent us to the River of Fire. Because we've got a bone to pick with all of you.

Greedy Spoiled Curse (to the Powerpuff Girls): So you had to kill me all because I wanted to be a Powerpuff Girl. There's only room for 8 Powerpuff Girls, is that it?!

Icy Hellish Despair: Don't bother, Princess. The Powerpuff Leader is just going to deny it. Just like she's denying that she froze a bunch of people accidentally with her ice breath. Who knows what'll happen if she accidentally freezes the entire city of Townsville?

Blossom (starts to cry): I-I didn't mean to. I-It was an accident! I would never hurt anyone! I'm a good person!

Icy Hellish Despair (her despair and fear makes him stronger): That's it! Keep feeding me those negative emotions. They are just delicious.

Firestorm Malevolence: I'm surprised that still works for us as Heartless.

Me: Shut the fuck up you overgrown matchstick! You three should've stayed dead when we killed you.

Then a figure swooped in and standing on a post was a blue girl in an awesome uniform and she had a powerful energy level.

Me: It's the Fight Card! 鬪

Kero: Be careful around the Fight Card, J.D. It's a very skilled and very proud and skilled warrior.

Me: I want to see how I compare to her. You guys face the rest. I'll face the Fight Card.

Nico: Okay.

I went up to the Fight Card and we stood ready.

Spiderman: (webs up Fredericks to a wall) Alright, kiddo. Mommy and Daddy have to take care of something. But we'll be back to take you to daycare!

Nico: This isn't a daycare Spiderman.

Sakura Avalon: Be careful J.D.

Me: Don't worry Sakura. I know what I'm doing.

---

## Battle 1: Firestorm Malevolence

---

Bluestreak, Matilda Honey, Michael Munroe, Irma, Killer Frost, Lola, Lana, Adult Blossom and Lea were facing the Firestorm Malevolence.

Lola punched the Ember Heartless in the face and kicked her in the stomach and punched her in the stomach and kicked her in the mouth.

Irma and Lana fired a massive blast of water and ice and a huge cloud of steam came off her and she screamed in pain. Adult Blossom fired a blast of ice breath and Killer Frost fired a massive blast of snow. Lola and Michael Munroe fired a powerful blast of fire and Lea slashed her.

Irma: You will never win Ember! Combo time!

Bluestreak: You got it Irma! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his lightning beam to 100,000,000,000,000,000 volts of electricity.

Matilda Honey: Lets do this. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Matilda's right arm and it enhanced her psychic energy powers 10,000-fold.

Bluestreak and Matilda Honey: THUNDERSTORM PSYCHIC BURST!

Bluestreak fired a massive blast of lightning and Matilda fired a massive blast of psychic energy lightning from her hands and the blasts combined and they hit Ember and Exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

---

## Battle 2: Icy Hellish Despair

---

Long Haul, Pharaoh Man, Molly Molloy, Francis, Venom, Taranee, Laney and Megan were facing the Icy Hellish Despair.

Laney fired multiple barbs filled super poison and they skewered the Tridart Heartless. Taranee fired a massive blast of fire and burned him and Francis fired a massive blast of fire and did the same. Long Haul fired his phasic laser rifle and it burned his shoulders.

Pharaoh Man fired a massive blast of Solar Fire and it burned the Tridart Heartless all over the place. Venom and Molly Molloy fired plants and Symbiote tendrils and they chomped onto him and slammed him into the ground.

Long Haul: Lets use our combos on him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Phasic Laser Rifle 100-fold.

Pharaoh Man: I'll make you bow before me. GIGANTION CYBER

KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Pharaoh Shot 10,000-fold.

Long Haul and Pharaoh Man: SOLAR STORM LASERBOMB!

Pharaoh Man fired a massive ball of Solar Fire and Long Haul fired a powerful laser blast and the blasts hit Tridart all at once and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

---

Battle 3: Greedy Spoiled Curse

---

Hunter, Nico, Elena, Rubberband Man, and Huggles/Khor, Shagon, Lincoln, Linka, Lily and Earth were facing the Greedy Spoiled Curse.

Hunter: (German Accent) You give all rich kids a bad name you undankbare Monstrosität!

Elena: What was that?

Nico: That was German for Ungrateful Monstrosity. Princess Morbucks you have failed this universe!

They went at her and Nico punched her in the face and Hunter fired a massive blast of lightning and Lincoln did the same and they electrocuted her. Khor punched and smashed the Princess Heartless all over the place and smashed her face in and Shagon fired a powerful hatred laser blast from his eyes and Lily and Linka fired a powerful blast of water and lightning and they got her wet and they electrocuted her. Rubberband Man stretched and expanded his fist and punched the Princess Heartless with devastating force. Earth fired a massive glob of lava and burned her.

---

When the smoke cleared, they weren't in the least bit injured.

Maria: Are you kidding me? Even after all those combo attacks, you three are still standing?!

Greedy Spoiled Curse: Face it, losers! You'll never get rid of us!

Firestorm Malevolence: We're just more stronger then all of you!

Shagon: (getting an idea) Really? Then which of you three is more stronger?

Icy Hellish Despair: Come again?

William: (catching on to the plan) C'mon. You all can't be equally strong. One of you has to be stronger then the other two.

Nico: And which one of you is it?

All three: (IN UNISON) I AM!

But then they looked at each other with hatred and then they got into a massive argument that quickly turned into a vicious brawl and then they killed each other. But then the portal that went into the River of Fire opened up and the three of them were sucked into it.

Greedy Spoiled Curse: I HATE YOU POWERPUFF GIRLS!

Princess Morbucks, the ultimate spoiled brat was now erased from existence forever, along with Ember and Tridart.

Nico: Luckily we transferred all her family's wealth into our accounts.

## Battle 4: Fight Card

I was facing the Fight Card.

Me: Lets dance.

We went at each other and I punched her in the face and she kicked at me and I blocked her kick and kicked her in the stomach and kicked her in the face and she punched at me and I blocked her punched and I dealt her a deadly uppercut and she flipped over and came at me and I dodged and kicked her in the back and punched her in the stomach and kicked her in the face and punched her in the stomach and kicked her in the face and sent her crashing into a pole. She went at me again and she punched at me and I blocked her attack and she went at me and punched and kicked at me and I grabbed her leg and threw her into a rock and she was knocked down. But she got back up and went at me and punched at me and I blocked her punch and I kicked her in the face and kicked her in the back and I dealt a deadly karate chop to the back of her head and knocked her out.

Me: Now's my chance! RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card appeared and sucked in the Fight Card. It turned back into a card.

Me: Yes!

I put my signature on it.

Sakura Avalon: J.D. that was amazing!

Li Syaoron: Well done J.D.

Me: Thanks guys.

Kero: You really are an impressive fighter J.D. The Fight Card was no match for you!

Me: Thanks Kero. But she was an extremely worthy adversary. We have 47 cards left.

Sakura Avalon: We sure do.

Li Syaoron: Yep. But you have been trained for this. I'm amazed at how you managed to handle yourself against the Fight Card.

Me: Thanks Li. We have one more loose end to tie up. We're going to seal Dr. Fredericks into the Yin-Yang Dimension.

Julie Martin: (to Greg Banks, Shari Walker, Doug Arthur, and Michael Warner) What do you say, guys? Want to give Fredericks some payback before sending him to the Yin-Yang Dimension?

Greg: With pleasure.

Shari: Lets tear this guy apart.

Doug: No mercy.

Michael Warner: Yeah!

Spiderman untied Dr. Fredericks and Julie Martin punched him in the face and Greg kicked him in the crotch. Shari grabbed his head and kneed it and broke his nose and Doug bit off his whole left ear! He screamed in excruciating pain and Michael Warner kicked him in the stomach.

Julie formed a warclub made of ice and she slammed it into his face and knocked him down.

Me: Finish him! Final Smash time!

Matilda Honey: Right! PSYCHIC THUNDERBOLT BLAST!

Matilda Honey fired a massive blast of psychic lightning and it electrocuted him and fried him.

Julie Martin: Time for some serious pain! ICE MACE SMASHER!

Julie Martin formed a Mace Club out of pure ice and she slammed it into Dr. Fredericks face and knocked him out.

I picked him up.

Me: You are never going to be welcome here Fredericks.

Nico: Dr. Fritz Fredericks, you have failed this world!

I pulled out the Yin Yo-Yo and opened the portal that went into the Yin-Yang Dimension and we threw him in. The portal closed and Dr.

Fredericks was gone. Another crazy Goosebumps Monster and villain was gone. Nico caught a Sigilyph and a Cofagrigus.

Julie Martin: (To the Viewers) To all Goosebumps Monsters everywhere, we're coming for all of you and you all will pay.

Me: You got that right Julie.

Greg, Shari, Doug and Michael were now members of the Goosebumps Monster Busters.

THE END

---

Another Fanfiction Complete and another Goosebumps Monster and Villain destroyed.

The Camera from Say Cheese and Die was a strange one and that scientist that made it was one crazy monster! We now have 5 Clow Cards down and 47 more are left. The next card is the Glow Card and you will love that one in the next chapter. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Sportz

In the Early Morning hours at 2:45 AM, Lily couldn't sleep at all. She was in a lot of deep thought.

Lily: (In her head) I think the Krusty Krab should serve more food than just Krabby Patties. But what should they serve? I know! Hot dogs, pizza, and more will be perfect for the menu. But what else should we add as well?

Then Lily sensed something. She sensed a Clow Card.

Lily: I sense a Clow Card.

She got up and went outside to a beautiful tree and out came a bunch of beautiful tiny glowing orbs of light that looked like fireflies.

Lily: Wow. It's so beautiful. They look like fireflies.

Then a little fairy with a firefly tail came. It was a Clow Card. It was the Glow Card.

Lily: Wow. You are a pretty one.

She was sprinkling beautiful glowing dust that made it look like fireflies.

Lily: You're the Glow Card. 灯

The Glow Card is a gentle card and is one of the harmless cards. Glow can create tiny orbs of light and scatter them all over.

Lily: If J.D. can do it so can I. RETURN TO YOUR POWER CONFINED!

Lily held out her hand and an energy card formed and it sucked in the Glow Card and it formed into a card. It was now Lily's.

Lily: Wow. The Glow Card.

Later at 8:00 AM we were having breakfast.

I saw Lily in a happy mood.

Me: You're in a happy mood Lily.

Lily: Yep. I have awesome news. I caught my first ever Clow Card.

Sakura Avalon: You caught a Clow Card, Lily?

Lily: I sure did. See?

Lily showed us the Glow Card.

Me: The Glow Card. Way to go Lily!

Kero: The Glow Card is a gentle and harmless card. It's one of the cards that loves to brighten up the place.

Lily: I saw what it can do.

Nico: Way to go Lily.

Hunter: (German Accent) Ja. Und you did a great job.

Lily: You can have it J.D. I know it's what you would've done.

Me: Thanks Lily.

Lily handed it to me. I signed my name on it.

Me: I didn't sense anything last night because I was asleep.

Sakura Avalon: Me neither.

Madison: I don't think any of you sensed it.

Lily: I did and I found the Glow Card.

Me: You are lucky Lily.

Lily: Well I couldn't sleep. I was thinking about what else I can add to the Krusty Krab menu. I sensed it at 2:50 in the morning.

Lisa: You have a really strong mind Lily. I'm amazed that you can sense the Clow Cards like 2nd Elder Brother can.

Lily: I think it might have something to do with our powers.

Me: The power of the Gods works in mysterious ways.

Later in Bikini Bottom, SpongeBob is pulling a trashcan, with Patrick inside, out through the door. Then he pushes it onto the curb.]

SpongeBob: Whew!

[A mail truck drives by and drops a package on the curb.]

SpongeBob: What's that?

Patrick: [pops out of trashcan] Looks like a box.

SpongeBob: Wonder who it belongs to. [jumps on the box] Maybe it says on the other side.

Both: Nope.

Patrick: Oh, look, it's open.

SpongeBob: It is?

Patrick: [opens the box] Yup.

SpongeBob: [peeks inside the box] Ooh. [climbs in the box] It's-it's- [whimpers] It's stuff! [holds up a big pile of sporting equipment]

Patrick: [laughs] Oh, I knew it! But what does this stuff do?

[The sporting equipment falls on SpongeBob and Patrick. The scene changes to SpongeBob and Patrick in the library with a golf club.]

Both: Hmm.

SpongeBob: Ah, this must be for getting books off the top shelf. [knocks books off the top shelf with the golf club]

Patrick: Hey! [laughs]

[SpongeBob knocks more books off the shelf, which they all drop on Patrick. SpongeBob stops and another book falls on Patrick's head.]

Patrick: Wow.

[The scene changes to SpongeBob and Patrick with the bowling ball in the kitchen.]

Patrick: This must be a whipped cream holder.

[Patrick takes a bottle of whipped cream and pours some through the finger holes on the bowling ball. Then he eats the whipped cream from the ball, but he drops it in his mouth. Then he falls through the floor and into the basement.]

SpongeBob: Ah! Patrick, are you okay?

[Patrick licks some whipped cream from the bowling ball.]

Patrick: Yum.

[The scene changes to SpongeBob and Patrick in the living room with a catcher's mitt. SpongeBob gives the mitt to Gary, who slithers onto it to sleep.]

Gary: Meow.

SpongeBob: This must be a portable snail bed. [rocks Gary to sleep] Rock-a-bye Gary

Patrick: I wanna try!

[Patrick hops on the catcher's mitt and pushes Gary aside.]

Gary: Meow.

[Patrick curls himself on the mitt and goes to sleep.]

SpongeBob: Aww. [chuckles]

[The scene changes to Squidward's house. Squidward is in the kitchen, preparing himself a fancy lunch.]

Squidward: [humming] Oh, it may have taken you all morning, Squidward, but this is a meal fit for a king. [bell dings] Oh. My croque-madame is ready. [goes to get his croque-madame]

[A tennis ball crashes through the window and destroys everything including Squidward's meal. Squidward comes back with the croque-madame.]

Squidward: [notices the mess] What the-

[The tennis ball flies into Squidward's croque-madame and gets splattered in the face with its goop. SpongeBob and Patrick are laughing outside.]

Squidward: [shakes the goop off and growls] SpongeBob! Patrick! What do you two think you're-[notices the sporting equipment] wow.

[Squidward runs to the back where SpongeBob and Patrick are wrecking up his garden with a soccer ball and tennis rackets.]

Both: Hi-yah! [laughs]

[The soccer ball destroys the bird bath and bird house as well as the flowers. SpongeBob and Patrick go to hit the soccer ball again right before Squidward arrives.]

Squidward: My begonias! What are you lunk heads doing with all this equipment?

Both: Equipment?

Squidward: You don't know what this stuff is?!

Both: Mm-mmm. Mm-mmm.

Squidward: This is a soccer ball… [kicks the soccer ball in SpongeBob's face] that is a tennis racket, [shoves the tennis racket in SpongeBob's face] and these are a couple of morons! [bashes SpongeBob and Patrick's face into each other] Now, be quiet! And clean up all of your sports junk!

Both: [confused] What's a "sportz?"

Squidward: [groans] Sports are games you play for points. The points determine the winner of the game.

Patrick: Oh! Oh! Oh! Oh! Oh! I love games!

SpongeBob: Me too! You must know a lot about "sportz," Squidward. Will you teach us how to play?

Squidward: I can't think of anything I'd rather do less than-

[Squidward's angel appears on his right shoulder.]

Angel Squidward: Now now, Squidward. You need to help them. Played incorrectly, sports can be very dangerous.

[Squidward's devil appears on his left shoulder.]

Devil Squidward: Yeah, he's right! You should teach 'em to play wrong, 'cause it's payback time!

[The tennis ball hits Squidward's angel.]

Angel Squidward: Let 'em have it, right between the eyes. [disappears]

[Squidward's devil disappears as well.]

Squidward: You know, on second thought, I'd be happy to teach you all about sports, SpongeBob. [chuckles evilly]

[The scene changes to Squidward setting up a horseshoe toss game.]

Squidward: All right, the object of this game is to throw the horseshoe around the stick.

SpongeBob: Ah, seems easy enough.

Squidward: Sure, but you have to do it… [hold up a blindfold] blindfolded. [ties the blindfold around SpongeBob's face and gives the horseshoe to SpongeBob]

[Patrick licks his horseshoe just as Squidward puts the blindfold around Patrick's eyes.]

Patrick: Um, do we throw now?

Squidward: Yes.

SpongeBob: At the same time?

Squidward: Yes! Throw it at the same time! Throw!

SpongeBob: Hi-yah! [throws the horseshoe]

[Patrick throws his horseshoe as well. SpongeBob's horseshoe hits Patrick in the head while Patrick's horseshoe hits SpongeBob in the face.]

SpongeBob: Ow! [sticks his tongue out with his eyeballs showing; then puts his eyeballs back in place] Aw, we didn't hit the sticks. Did we do bad?

Patrick: [his face puffs up] My face hurts.

Squidward: Oh, no, no, no. You both did good. Pain is-uh, worth points. You know the phrase, "no pain, no gain."

Patrick: [laughs] I want pain points! [kicks his horseshoe and a seahorse falls on him]

Squidward: Yeah, that's great. Now do it-oh, 100 more times. [throws the horseshoe]

SpongeBob: Yeah!

[The horseshoe falls SpongeBob's nose. SpongeBob throws the horseshoe again, but gets hit in the face with Patrick's horseshoe.]

SpongeBob: Ow!

[SpongeBob and Patrick keep hitting themselves with each other's horseshoe while Squidward lays back and watches them in amusement.]

Squidward: Oh, Squiddy, you're a genius.

[SpongeBob and Patrick walk up to Squidward and appear to brutally beaten by Squidward's so-called game.]

SpongeBob: Squidward, can the game be over now? All this pain is starting to hurt.

Squidward: Oh, sorry. There's no way to end the game without one of you winning.

[SpongeBob and Patrick groan. The scene changes to SpongeBob and Patrick wearing ice skates and are around to race each other on Squidward's command.]

Squidward: Ready… set… go! [fires the toy gun and chuckles]

[SpongeBob and Patrick start running, but as they running, they are having a hard time running with the ice skates as they appear to be uncomfortable. SpongeBob trips and falls, getting sand with worms in his mouth.]

SpongeBob: [spits the sand out of his mouth] Squidward, are you sure we're doing this right? These running shoes are really hurting my ankles.

Squidward: Oh, you're absolutely doing it right. Try to pick up the pace, though.

[Patrick appears behind SpongeBob and slices him in half with his ice skate.]

Patrick: Comin' through!

[The two halves of SpongeBob stand up and goes to catch up to Patrick. Two sharks come by and notices what SpongeBob and Patrick are doing.]

Shark Son: I wanna play, Daddy.

Shark Dad: No, son. We're sports "fans." We just watch.

[The Shark Dad pulls up a chair and sits down while his son takes up a foam hand. SpongeBob and Patrick made it to the finishing line.]

Squidward: And… time. Let's see those ankles.

[SpongeBob and Patrick's ankles puff up from the strain of running while wearing the ice skates.]

Squidward: [gasps] Oh, yeah, those look bad. You both get-mm, 50 points. Why not?

Patrick: Hey, then we're still tied!

[The scene changes to people walking to the backyard of SpongeBob and Squidward's houses. In the backyard, there's a sporting arena containing several different fields: a baseball field, a bowling rink, a soccer field, a basketball court, a football field, a golf course, and some gymnasium sections. SpongeBob is holding up a catcher's mitt and a tennis racket while wearing a headband. Patrick shoots footballs in SpongeBob's face with the football shooter. SpongeBob comes back with footballs lodged in his mouth and gives a thumbs up. The scoreboard changes from 70 to 72, and they're still tied. Patrick hits the bowling ball with the golf club, but the club breaks and hits SpongeBob in the face. The scoreboard changes from 82 to 84, and they're still tied. SpongeBob and Patrick are on the balance beam over a jellyfish hive. The beam breaks and they both get stung by jellyfish. The scoreboard changes from 88 to 90, and they're still tied.

Lily, Tori, Lightning, Bai Tza, Gali, Maria, Horsea, Matt Daniels, Seaspray, Sheena Deep, and Mr. Krabs were walking down the street.

Lily: So I was thinking Mr. Krabs that maybe we can add more items to the Krusty Krab menu.

Mr. Krabs: That's a great idea lass. What do you have in mind?

Sheena Deep: I think Pizza should be served alongside Krabby Patties.

Lily: Just what I was thinking Sheena. I was thinking maybe we can have Pizza, Hot Dogs and Burritos added to the menu. And we can also add a bunch of good desserts to the menu as well.

Mr. Krabs: Those are all great ideas lass!

Sheena Deep: I agree.

Bai Tza: Me too.

Lily: Thanks guys.

Tori: So this is Bikini Bottom, huh?

Maria: Yep. It's our home away from home next to the Bikini Atoll.

Tori: Didn't this place used to be home to a lot of nuclear tests over 60 years ago?

Lily: Yep. The most famous one of them all was Castle Bravo back in 1954. The most powerful nuclear bomb ever detonated by the United States.

Tori: Wow! How do you know that?

Lily: J.D.'s daughter Jessie is a history master. She knows everything about world history.

Tori: That is so amazing! One of these days I'm gonna have to talk with her.

Lightning: You'll love her Tori.

Gali: I agree. Jessie is an amazing history wiz.

Tori: Neat. Lily, how did you guys get called the Neptune Crusaders?

Lily: It was Varie that came up with the name. We became the Neptune Crusaders after there was a nasty Krabby Patty Zombie Outbreak. Sandy invented these experimental Krabby Patties and they had a nasty side effect. They turned everyone into nasty

Krabby Patty Zombies. Anyone that wasn't infected was force fed the zombies parts and they would turn into burger zombies.

Tori: That's awful!

Lily: I know. We're recognized as the Neptune Crusaders by this symbol on our shirts.

Lily revealed that she had a neat symbol on her shirt. It was a patch that showed the planet Neptune and the astrological symbol of Neptune was on it.

Tori: That's a perfect official symbol.

Lightning: Lightning agrees with you.

[Then they saw Sandy is shown walking down the street with a magnifying glass.]

Lily: Is that Sandy?

Gali: It sure is.

Sandy: Hmm. Hmm. Where is it? Where is it? Hmm. Ah-ha! There's my box of sports gear. It must've fallen off the mail truck. But what happened to all the equipment?

Lily: Hey Sandy.

Sandy: Oh hey guys.

Maria: What was in the box?

Sandy: I ordered all this sports equipment and it must've fallen off the mail truck.

[The bell dings and the crowd cheers.]

Sandy: What was that?

Lily: Lets go see.

[They ran to the sporting arena and notices SpongeBob and Patrick beating themselves up with boxing gloves on their feet.]

Sandy: Huh? SpongeBob, what's going on?

SpongeBob: Oh, hey-[SpongeBob and Patrick hit each other] Sandy. Patrick and I are-[SpongeBob and Patrick hit each other again] in the middle of a sports game.

Lily: This is a really unusual sport.

[Patrick jumps onto SpongeBob.]

Sandy: Yeah. This sure don't look like any sport I've seen before.

[SpongeBob and Patrick hit each other again.]

SpongeBob: I believe it's called kickboxing, or something?

[Patrick falls down.]

Lily: This is not like the Kickboxing me and my sister Lynn are familiar with.

Lightning: Me neither.

Sandy: Well, whatever it is, it seems to be causing you lots of pain.

[SpongeBob hits Patrick.]

Patrick: Ow! Sure is. [gets hit again] Ooh!

Sandy: Why not stop playing it if it hurts so bad?

Patrick: We can't stop… [panting] Until we break our tie.

Sandy: Says who?

Lily: Who in their dumb mind would think of something like that?

[The trumpeters play and fog steams out from between the booths.]

Shark Son: It's the rule giver.

[The crowd murmurs as Don the Whale, Frank the Muscular Goldfish, and Larry the Lobster carry Squidward, who is in a grim reaper outfit, onto the field. They set him down and the crowd cheers.]

Sandy: I ain't never heard of a rule giver.

Squidward: [flips his hood] I prefer "King of Sports," but you can never tell what will catch on with the small folk.

Sandy: You're making up a game where SpongeBob and Patrick hurt themselves, and you won't let them stop?!

Squidward: I'm just giving the people what they want.

Sandy: That's pretty low, Squidward, even for you. I'm putting a stop to this. SpongeBob and Patrick have had enough!

[SpongeBob and Patrick appear brutally beaten up by Squidward's so-called games.]

Squidward: See? They're fine. Let the games resume.

Squilliam: Hello, 911? I'd like to-

Cop: Squilliam Fancyson?!

Squilliam: Yes, I know I'm famous but that's not why I'm calling!

[Sandy grumbles and the audience cheers.]

Sandy: Oh, I don't think so.

Lily: We give you a second chance and this is how you repay us?!

Squidward: You are so smug, you know that?! You think that the world revolves around you and your friends, don't you? That Bikini Bottom couldn't possibly survive without the mighty and powerful Lily Loud and J.D. Knudson to guide us through our problems! Well, I've got a news flash for you: we got along just fine before you and J.D. showed up!

Lily: Oh, and this qualifies as just fine?! Having SpongeBob and Patrick beat each other up and risking their safety!? I mean, come on, what were you thinking?!

Squidward: Oh please! You can't just waltz in here and expect us to follow you like you and your friends are like gods.

Lily: Me and my friends aren't gods! We just want to keep everyone safe. Why do you hate us for that?

Squidward: Whoever said I needed you to protect me?! I'm better off keeping myself safe, now get used to it.

Lily: You aren't ready! You're miserable, and always hate everything, and more importantly… [venomously]… I'm better than you.

Matt Daniels: Since I'm an athlete, let me show you how REAL sports are played.

Lightning: Lightning will help you two with sports as well!

Lily: Lets do my favorite sport: FIGHTING DONE RIGHT!

Lily punched Squidward in the face and Lightning punched him in the face and kicked him in the stomach and the crotch and punched him in the mouth and knocked out some of his teeth. Matt Daniels punched him in the face and kicked him right where the sun doesn't shine.

DING!

Everyone winced when they say that.

Harold: That's not gonna feel good!

Lily grabbed Squidwards nose and ripped it right off his face and he screamed in pain.

Squidward: (RRIIPPPP) OOOOOOOOOOOOOOOOOOOOOOOOOOOWWWWWWWWW! Okay I've had enough.

Lily: Tell it to your mama Squidward!

Squidward: Mama?

Squidward's mom is in the stadium seats.

Squidward's mom: Don't want to hear it.

Lily: (Whistles)

Numerous Sea Bears came. They were fish that had bear heads and the bodies of piranha fish and they had claws on their fins. They went at Squidward and they ferociously mauled him and Squidward screamed as he was being mauled. One of the Sea Bears hates Squidward's guts to the core and they all left.

When it was done, a paddy wagon came with its sirens blaring and the men came out with a straitjacket.

The doctors were tending to SpongeBob and Patrick.

Seaspray: How are you two feeling?

SpongeBob: Like we were through a meat tenderizer.

Patrick: Yeah.

Squidward: GET YOUR HANDS OFF ME YOU IDIOTS!

Horsea: We should've never you let out of the nuthouse!

Lily: You just violated your parole Squidward. You want me to say it Mr. SquarePants?

SpongeBob: Yeah. Go for it Lily. I'm too tired to say it.

Lily: Thank you. I can't believe you are such a miserable idiot Squidward. But I'm glad I'm saying this. Squidward Quincy Tentacles, you're fired!

Squidward: I HATE ALL OF YOU AND I WILL MAKE SURE YOU ALL SUFFER FOR IT!

Squilliam: Say what you want, Squidy. But what you tried to do crossed a line.

Squidward: (GASP!) Squilliam Fancyson from band class!? What are you doing here?

Squilliam: Oh I'm now permanently on top where you are on the rock bottom.

Lily: In the immortal words of my friend Nico, "Squidward Q. Tentacles, you have failed this city!"

Everyone laughed and booed at Squidward. Squidward was taken away and sent back to the insane asylum. His own misery is what destroyed his mind. They loaded him into the paddy wagon and drove off with him screaming bloody murderous rants.

Lightning: (To the viewers) You must never become like Squidward or there will be horrible consequences.

Lily: You said it Lightning.

They high five.

Later, Lily and team came back and told us everything. We were shocked that Squidward was never going to change. But this was a prominent example of what will happen to people that can't be rehabilitated.

THE END

Another Fanfiction Complete and another awesome SpongeBob episode covered.

Sportz was a funny episode and Squidward was a major league jerk in this one. NicoChan11 gave me the ideas for this one. Thanks man. The next Clow Card is the Sweet Card and I hope you all have an insatiable sweet tooth, because that's the card that's next. Let me know what you think.

See you all next time.

# A Girls Truth and a Monster Librarian

At Gotham Royal York in Home Ed class, we were having an awesome project. Our project was to make delicious cakes. But something was wrong. Our cakes ended up becoming disgustingly sweet. At first everyone thought that they added too much sugar in the cakes. But we tried again.

Me: Okay, add 3 cups of flour.

Varie: Okay.

Varie did so.

Lori: Add 2 teaspoons of baking powder.

Lori added said ingredient.

Nico: 2 eggs.

Nico cracked the eggs and put them in a bowl.

Maria was working all by herself.

Maria: I wish I could be in many places at once. (Gets an idea) Hey! Maybe I can.

Maria pulled out the Ring of The 9 Dragons.

Omi: Please be careful of the Ring of Nine Dragons. The first time I tried it, I couldn't control it.

Maria: But now that you guys told me, I know what not to do.

Maria put it on her left middle finger.

Maria: I'll start with 4 of me. RING OF THE 9 DRAGONS!

The ring glowed and Maria had 4 clones of herself appear. One was her happiness, the 2nd was her shyness, the 3rd was her Paranoia and the 4th one was her Braveness.

Paranoid Maria was hiding under the table in fear.

Teresa: I think Paranoid Maria is from the feelings she had when she was still in the Meta Breed.

Francis: I know. She was really paranoid about people making her an outcast during that time.

Me: No kidding. Shyness Maria here is really shy.

Shy Maria: I'm scared of these guys.

Me: It's all right. No one is gonna hurt you.

Happy Maria: (hugs Horsea tightly) I'm glad to have a Pokemon like you, Horsea!

Horsea: Me too!

Varie: Happy Maria is so happy!

Brave Maria: Lets kill all those bad guys!

Armada Cyclonus: (sees Brave Maria) I like this one.

Maria was in control and she had them get different ingredients for her cake and she got it done.

Me: That's very clever.

Lori: It sure is. She literally can get the job done that fast with that many.

Me: She sure can.

Then I sensed a Clow Card in the room.

Me: (In my head) I sense a Clow Card here in this room. It's got to be the reason why the cakes all turned out too sweet.

The bell rang and it was time for lunch.

Varie: Aren't you coming J.D.?

Me: You guys go ahead. I'll catch up later.

They left.

I was looking around and my phone rang.

Me: (Answers) Hello?

Kero: J.D. it's Kero. It might be the Sweet Card that's making the cakes too sweet.

Me: The Sweet Card?

Kero: Yeah. It's attracted to sweet foods. But it makes them too sweet. It's not a very dangerous card, but it can be very tricky to capture.

Me: Boy that's what I call a card with a majorly overzealous sweet tooth. Pun intended. I'll find and capture it. (Hangs up)

I put up a magical barrier in the room to prevent it from escaping.

Me: I got to get this card or else everyone will get fat and diabetic.

I saw something in the oven with our cake.

Me: There's something in the oven.

I saw the Sweet Card in the oven with our cake and it was sprinkling something on it. Sweet's visible form is a small, wingless-fairy with afro-like hair resembling cotton candy. She wears a yellow dress with a similar cotton candy puff shape. Her dress and hair are decorated with blue, sugary, star-candy called, Konpeitō.

Me: She's sprinkling some form of magical sugar on the cake. That's why the cakes turned out sweet. Let me think here.

I then got an idea.

Me: Bingo! The opposite of sweet is salty!

I grabbed a bag of salt and poured it into a bowl and I opened the oven door and out went the Sweet Card and I caught up with it and dumped salt onto it. It shook it off and I grabbed it.

Me: Gotcha! RETURN TO YOUR POWER CONFINED! SWEET CARD!

I held out my hand and made an energy card and it was sucked into it and it turned into a card. It was the Sweet Card. 甘

I had the card and put my name on it.

Me: This card has one amazing Sweet Tooth. (Rimshot) I have a feeling our cakes will turn out all right now.

I cleaned up the salt on the floor and went to the cafeteria. Our cakes were done and it was time to taste them. The cakes turned out better than the last time and they were delicious.

I brought some home for us and we all loved them.

Sakura Avalon: So you caught the Sweet Card, J.D.?

Me: I sure did. It was the reason why all the cakes turned out sweet.

Sakura Avalon: The same thing happened to our cakes in Home Ed class and they were too sweet.

Me: Boy. Talk about a sense of deja vu.

---

Later that day we were deciding which should be the next target of the Goosebumps Monster Busters.

We then saw Vain Maria. She was admiring herself in the mirror.

Vain Maria: I look so beautiful.

Intelligent Maria was sitting by me and she was reading a book on Advanced Quantum Physics.

Me: Wow. Advanced Quantum Physics? That's way too powerful knowledge for me.

Nico: That sounds more like something Lisa would study.

Intelligent Maria: Indeed she would. The neurological capacity of the brain can only understand so much of the fields of an subject.

Me: (Head hurts) Wow. That is too complicated for me. But that is true.

Perfect Maria was cleaning the house.

Me: Perfect Maria is quite the organizer and perfectionist.

Maria: Yeah that happens.

Lazy Maria was laying on the couch and she was eating junk food.

Lazy Maria: (Belch)

Affectionate Maria was kissing William all over the place.

Me: Looks like Affectionate Maria loves William.

Maria: Even though she is part of me, I'm still getting jealous.

We laughed.

Me: Oh come on Maria, I think it's really cute.

Nico: I do too.

Me: Hmm. How about we go after the Mutant?

Nico: No. Lets save him for another time.

Me: Okay.

Nico: Hmm.

Suddenly there was a crash.

CRASH!

Me: Uh oh!

Nico: It came from Mr. Avalon's office.

We went into his office and we saw him in the floor rubbing his head and books fell on him and were all over the floor.

Me: Are you all right Mr. Avalon?

Mr. Avalon: Yeah.

Nico: You slip out of your chair?

Mr. Avalon: I think so.

I helped him up.

Mr. Avalon: Thanks J.D.

Me: You're welcome Mr. Avalon. But you got to be careful. You could fall over and break your neck.

Mr. Avalon: I know. But something is wrong with that chair.

Me: Hmm.

I look at the chair and I saw that a wheel is wobbly and broken.

Me: Aha! This wheel right here is busted. I think you need a new chair.

Nico was picking up some books and then he got an idea.

Nico: That's it! I have an idea. I think I found our next target. Lets go after Mr. Mortman next J.D.

Me: That's a great idea Nico. From the book The Girl that Cried Monster.

Nico: Yep. And Mr. Mortman is a monster.

Me: And they don't believe Lucy Dark in that one. But if they don't believe her, they will believe us. And I can sense that Lucy Dark's

Parent's didn't devour Mr. Mortman in that Canadian town. Alright then, Mr. Mortman it is. I read the book but I don't know what he looks like in Monster form.

Nico: Oh you will hate his guts J.D. He is really ugly.

Me: Nothing is more ugly and terrifying than the Necromorphs.

Nico: That's true.

I gathered everyone together.

Lori: So our next target is Mr. Mortman from the book The Girl That Cried Monster?

Me: Yep. Lets see what it says about him.

I pulled up what it said about him.

Mr. Mortman is the Timberland Falls librarian. At the library, Mr. Mortman leads a reading program called the Reading Rangers. Mr. Mortman tries to encourage Lucy Dark to read more classic literature, but the only book she's interested in is monster books like Mary Shelley's Frankenstein. She asks whether White Fang is about a monster and she also asks if Anne of Green Gables has any monsters in it.

One rainy summer evening, Lucy leaves the library and realizes she forgot her roller blades. She goes back to the library after it has closed and while hiding sees Mr. Mortman reaching into his desk to procure some flies to feed to his pet turtles, which he keeps in a metal pan on his desk at all times. Lucy sees Mr. Mortman's head swell up, his eyes bulge out, and his mouth turn into a gaping black maw. Lucy leaves in a hurry and forgets her roller blades again and so she heads back to get her roller blades, but then the door is locked.

One week later, she returns to the library and after Mr. Mortman gives her a new book for the reading club, she hides in the stacks to catch Mr. Mortman in the act. After he escorts everyone out of the building, Mr. Mortman locks the door. Lucy says to herself, "This is boring." Then Mr. Mortman turns into a monster again! Then he eats some flies again. Then he picks up a turtle, chews up the shell, and swallows it. Lucy barely made it out of the library.

Later on, Mr. Mortman kindly returns Lucy's bookbag, which she had left in the library. He asks if she had stayed behind after he closed up, but she says no. He bids her farewell, as her mother pulls up in the driveway.

Lucy again hides in the library, alone, waiting for Mr. Mortman to change into a monster. Except this time, she has brought a camera to snap his picture. Once Mr. Mortman transforms into a monster again, Lucy takes his picture, but forgets about the flash and Mr. Mortman flies into a rage. There is a chase scene and Lucy escapes the library one more time. After dinner, Lucy races to the one hour photo joint to pick up her picture of Mr. Mortman. Except the photograph shows an empty desk in the library as Mr. Mortman did not show up in the picture at all.

Lucy and Aaron tail Mr. Mortman from the library to his house. Lucy peeks through the living room window just in time to see Mr. Mortman indulge in a series of grotesque meals. First, he takes a big handful of fish from his aquarium and shoves them into his mouth. Then, Mr. Mortman chews up an entire snail, shell, and all. Following that, he slurps up an entire eel like a spaghetti strand. Lucy tries to get Aaron to come peek in the window, but he is off looking for a ladder to see into Mr. Mortman's house better. Lucy loses her balance and falls from the window. Aaron runs away from the house as Mr. Mortman exits the house and picks her up off the ground. Lucy makes up a story about how she was just there to tell him she would not be at the Reading Rangers meeting the next day. He offers to let her inside so she can call her parents for a ride home, but she does not want to go inside.

Forced to attend her meeting with Mr. Mortman upon her parents not letting her quit the Reading Rangers, Lucy braves the rain and returns to the library. Before he starts the meeting, Mr. Mortman gets up and locks the door. He tells her he can't let her leave. He starts to make his move towards her when she leaps up and attempts to escape. It seems dire but then she comes up with the bright idea of tearing out a drawer of the card catalog, spilling the contents on the ground. Mr. Mortman, though still a monster, is also a librarian and he stops his pursuit of Lucy to organize the cards. Lucy runs out into freedom. She also runs out into Aaron who had been hiding in the library. Turns out he saw Mr. Mortman turn into a monster and is willing to tell her parents.

Lucy and Aaron tell Lucy's parents about Mr. Mortman and they respond with, "Well, I guess we have to invite him to dinner." A few nights later, Mr. Mortman shows up for dinner. The family makes polite small talk with the librarian who eventually inquires as to what is for dinner and asks the father to repeat himself. The father says "You are!" again and he starts getting scared then Lucy's parents who are monsters themselves. Lucy's parents then eat Mr. Mortman alive off-screen as their children cheer with joy.

Me: He sure looks like a normal person on the outside. Lets see what his monster form looks like.

We saw his monster form and it was the ugliest thing we have ever seen!

We gasped and some of us screamed.

Me: What in the 9 Fucking Levels of Hell!?

Laney: That is the ugliest guy ever!

Me: The Necromorphs are more terrifying than him.

Kate L.: Same with the Thing.

Vince: Under that human exterior is an ugly monster.

Carol: That is totally disgusting.

Alicia: The Necromorphs were even more horrifying.

Susie: No kidding.

Me: Just what I was thinking. But I don't think the Necromorphs would want to eat him for dinner.

Then a beam of light appeared and through a portal came a woman with black hair and she had a Japanese Style Black outfit. It was my friend Rukia Kuchiki of the Soul Society.

Me: Rukia!

Rukia: J.D.!

We hugged.

Me: It's great to see you again.

Rukia: Same here J.D. We heard about everything thats been going on.

Lori: Who is this J.D.?

Me: Oh I apologize guys. This is my friend Rukia Kuchiki. She is a member of the Soul Society. An organization that maintains the balance between the lands of the living and the dead.

Rukia: It's an honor to meet all of you Team Loud Phoenix Storm.

Nico: Same here Rukia.

Me: We have so much to tell you.

We revealed all of our adventures and more and we told her about how we encountered the Necromorphs and she was amazed!

Rukia: Wow! You guys have done it all. But what really shocks me is that you encountered the Necromorphs. I thought they died out 65 million years ago.

Me: Well somehow they returned and now they pose a tremendous danger to every living thing in the entire universe. But not only that, we have the remnants of Xehanort to clean up in 47,000 galaxies across the universe.

Rukia: Xehanort was indeed the worst and he did try to destroy the entire universe. But I'm glad you're trying to get rid of him. Even though you all killed him his evil still is a dangerous force to be feared.

Laney: Thanks Rukia and yes. But we have to be ready for anything.

Carol: Yeah.

Rachel S.D.: That's right. We are always ready for it all.

Me: You got that right Rach. We're about to head out to the town of Timberland Falls in Manitoba, Canada to kill Mr. Mortman.

Rukia: That's great. He's on the Soul Society's hit list and we've been after him for a long time. If we don't stop him all the monsters in Timberland Falls are gonna be run out of the town.

Me: Then we better get over there. Team Loud Phoenix Storm, lets fly!

We were off to Timberland Falls, Manitoba, Canada.

## TIMBERLAND FALLS, MANITOBA, CANADA

We arrived in Timberland Falls, Manitoba. It was a beautiful town.

Me: Wow. So this is Timberland Falls.

Naruto: It sure looks like a kind of place anyone would visit.

Me: And it's also a place where humans and monsters coexist without humans even knowing about it.

Naruto: It reminds me of Yokai Academy.

Mizore: It does have those similarities.

Kurumu: It does remind me of that.

Yukari: I know.

Red Alert: (British Accent) We have to find Lucy Dark.

Me: Right.

We went into the town and it was an amazing town. We were by the Dark house and we found Lucy Dark sitting on the porch.

Red Alert: Are you Lucy Dark?

Lucy Dark saw us.

Lucy Dark: Oh wow! Team Loud Phoenix Storm! It's such an honor to meet all of you.

Me: You too Lucy. We're actually here to kill Mr. Mortman.

Lucy Dark: Great. I'm glad.

I noticed that Lucy Dark had fangs.

Me: Are you a vampire?

Lucy Dark: I sure am. My mom is a werewolf and my dad is an ogre.

Nico: Wow! That is so cool!

Starfire: It sure is.

Me: Lets talk to your parents first before we do anything.

Lucy Dark: Okay.

In the Dark Residence we were introduced to Lucy Dark's parents.

Mrs. Dark: So you're all here to help us finish what we started?

Me: We sure are Mrs. Dark.

Demolishor: We don't mind you two being monsters. As long as you don't cause any trouble.

Mr. Dark: Don't worry. We don't cause trouble. We keep our true forms hidden so that we don't scare the people of town and cause them to run us out of town.

Nico: That's a good idea.

Me: That's very similar to what goes on at Yokai Academy.

Moka: It sure is.

Mrs. Dark: What's Yokai Academy?

Me: It's a special academy for monsters. A lot of people from all the myths around the world that we know went there.

Kurumu: That's right. I'm a Succubus.

Mizore: I'm a Snow Woman.

Moka: I'm a Vampire.

Fenikussu: I'm a Phoenix.

Lilith: I'm a fairy.

Tamao: I'm a mermaid.

Keito: I'm a Jorugumo, a Spider Woman.

Me: Me and Naruto attended and we helped the school as it was under constant turmoil by the Public Safety Committee and it was a nightmare.

Mrs. Dark: That's horrible.

Me: I know.

Mr. Dark: And some of you are aliens right?

Nico: That's right. I'm a Saiyan from the Planet Vegeta.

Starfire: Me and my sister Blackfire here are from the planet Tamaran.

Mrs. Dark: Wow! That's amazing.

Me: It is. And some of us are hybrids of different aliens from all over the galaxy.

Ben: I have the ability to transform into different aliens with the Omnitrix.

Me: Yep. But anyway, we're wasting time here. Lets get Mr. Mortman.

We set out for the Library.

---

We were at the library.

Shy Maria was going into the Library and get Mr. Mortman to transform.

Mr. Mortman: Hello, Ms. Rockell. What brings you here?

Shy Maria: I-I'm here to check out a book.

Mr. Mortman: Wait. There's something not right about you.

Mr. Mortman then transformed into his monster form!

We bursted in with a massive fiery explosion and a phoenix cry was heard and we threw him outside and we were facing him in all his grossness.

Me: Mr. Eugene Mortman. You are just as ugly and fucked up as we have read and seen.

Mr. Mortman: **You have a lot of nerve coming here and bringing me out like this J.D. I should kill you right now!**

Me: You are just as fucked up as the 9 Levels of Fucking Hell in its entirety.

Mr. Mortman: **You will pay for talking to me this way!**

Me: And I show no remorse for doing so.

Mortman: **Wait. How are there 10 of you, Rockell?**

Me: None of your bu-

Maria: I'm trying out a new Shen Gong Wu.

Lincoln: Seriously? You're just explaining it to him?

Maria: Oh, c'mon! He's gonna die anyway. So I might as well tell him.

Me: Good point.

Rukia: Eugene Mortman, in the name of the Soul Society, you are hereby sentenced to death for your crimes against the world of the living.

Me: And we're going to let some people we know finish what they started. Lets power up and take him down!

We transformed and powered up. But Mortman wasn't alone. With him was a blue dog with red eyes, black hair, a black crown, bat wings and a skull tail. It was ANTI-SPARKY!

After seeing how much happiness Sparky brought to the Turner family, Foop decided to replace Sparky with Anti-Sparky in order to make them miserable. During his stay with the Turner family, Anti-Sparky constantly harassed them, destroying Mr. Turner's new grill, signing up Timmy to pick up trash, and injuring Mrs. Turner, causing her to have to stay in a full body cast.

He also harassed Foop, warning him to not look them in the eye or raise his voice and constantly threatened him. Once Foop finally gained the courage to speak up to Anti-Sparky, he retaliated by eating him. Later, when Timmy found out he wasn't the real Sparky, Cosmo kicked him, causing him to throw up Foop, a family of three, and their wands that he had eaten earlier.

They soon poofed him back to Anti-Fairy World while Foop was punished for failing to complete the mission.

Timmy: Oh no! It's Anti-Sparky!

Me: The Anti-Fairy version of Sparky.

Anti-Sparky: (Australian Accent) That's right mates and now I'm going to kill you all!

Me: So this is a prime example of Mans Best Friend turning into Mans Worst Enemy.

Wanda: That's right. Foop sent Anti-Sparky to replace Sparky so he could kill us all.

Me: Then we have to stop him after we subdue his master.

Volcana put a butterfly net over Anti-Sparky.

Volcana: (to the trapped Anti Sparky) Stay here, Fido. We'll be back for you as soon as we're done with Mortman.

Me: That's weird. I didn't think Butterfly Nets would work on Anti-Fairies.

Wanda: Anti-Fairies and Fairies are very similar in terms of power and version J.D.

Me: This is very useful knowledge. Lets get him!

We went at Mr. Mortman. I punched him in the face and kicked him in the face.

Lucy Dark: I've had it with you Mortman! Nanomachine Crusnik 05, Power Output 80% activate!

Then a massive blast of powerful lightning exploded out and we saw Lucy Dark sprout pitch black angel wings that were darker than the night, her eyes were glowing red like blood and her fangs were razor sharp and she had a red sword made of pure blood in her hand and she had a tremendous level of electricity surging through her wings. The amount of electricity surging through them was mind-boggling. It was surging with 600 Teravolt's of electricity and her hair was waving around.

Me: Whoa! Lucy, your power is unbelievable!

Lilith Sahl: I had no idea she was a Crusnik.

Me: None of us did.

Nico: Unbelievable! So this is the power of a Crusnik.

Lucy Dark: **That's right. My power is immensely powerful in this form.**

Lilith Sahl: Amazing!

Me: She's a Crusnik like you are and we met in the 32nd Century.

Nico: I remember you told me about that J.D. That was incredible.

Me: I know.

Mr. Mortman: **What the hell are you brat?**

Lucy Dark: **I am something far more deadly. I am a Crusnik. A vampire that feeds on the blood of vampires. Shall we dance?**

Lucy Dark channeled a tremendous amount of lightning into her sword and she went at Mr. Mortman and slashed his left eye off and fired a massive blast of lightning at him and it had a tremendous amount of high voltage with enough power to overload the entire power grid. The whole city went completely black from a blackout. Laney entangled Mr. Mortman in vines and slammed him into the ground.

We punched and smashed him all over the place and Lucy Dark slashed him in the leg and electrocuted him.

Mr. Mortman: **You little bastards!**

Spiderman: (webs up his mouth): Do you kiss your mother with that mouth? If you even have a mother?

Me: Time to finish you for good Mortman! Combo and Final Smash Time!

Red Alert: Right!

Red Alert turned into Cybertron Red Alert.

Red Alert: CYBER KEY POWER!

The Autobot Cyber Planet Key went into his missile and it turned it into a massive plasma cannon.

Raphael: Lets get this ugly monster! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and his Sais were generating a tremendous amount of red lightning.

Red Alert and Raphael: SUPERPLASMA FIRESTORM BURST!

Red Alert fired a massive plasma blast and Raphael did the same with his Sais and they hit Mr. Mortman and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Lincoln: Lets see you handle an electric charge of powerful proportions. Lucy, lets get him!

Lucy Dark: **You got it Lincoln.**

Lucy Dark and Lincoln fired a massive blast of lightning into the sky!

Lucy Dark and Lincoln: SATURN SUPERLIGHTNING ELECTRIC STORM!

The blasts combined and the clouds turned into those of Saturn and the lightning was far more powerful than Earth's and the thunder was incredibly loud. It was striking Mr. Mortman at a ferocious level and it was so powerful.

Me: That was unbelievable!

Nico: It sure is. I never knew that Saturn Lightning was that powerful!

Lily: It's so wicked awesome!

Edzilla: ED SMASH LIBRARIAN! (stomps on Mortman)

Nico: Let me try one. AUTOBOT CYBER KEY POWER!

The Autobot Cyber Planet Key went into Nico's right arm and out came Cybertron Scattershot's arm missile blasters and more missile blasters popped out.

Cybertron Scattershot: Lets tear this guy apart Nico. CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and the same thing happened to him.

Nico and Cybertron Scattershot: SUPERMISSILE FIRESTORM SHOWER!

They both fired a massive barrage of missiles and they hit Mr. Mortman and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM

Armada Cyclonus: Lets get this clod! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into Cyclonus's back and it enhanced his blaster power 100-fold and more blasters came out.

Demolisher: Lets do it. CYBER KEY POWER!

The Decepticon Cyber Planet Key went into Demolisher's back and it enhanced his blasters and missiles 100-fold and more blasters and missiles popped out.

Armada Cyclonus and Armada Demolishor: DECEPTICON FIRESTORM SURPRISE!

Cyclonus and Demolisher fired numerous lasers and missiles and they hit Mr. Mortman and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Volcana: Time for some Final Smash power. FIRESTORM TSUNAMI STRIKE!

Volcana fired a massive blast of fire that turned into a massive wave of pure fire and it slammed into Mr. Mortman and burned him.

Rukia: I've always wanted to try this. SPIRIT STORM STRIKE!

Rukia fired a massive barrage of ghosts and spirits at Mr. Mortman and they slammed into him and exploded.

KRABOOOM! BOOOM! BOOOOM! BOOOOM!

Me: That was awesome!

Wildrider: I've got a nasty surprise for you! (lubricates on Mortman)

Nico: (laughs) Now that's funny!

Lucy Dark: **This is gonna be amazing. LIGHTNING ANGEL DEATHSTRIKE!**

Lucy Dark fired a massive blast of lightning at Mr. Mortman from her sword and it slammed into him and electrocuted him all over. He was badly burned all over the place.

Me: I hope your parents like their meat well done.

Lucy Dark: **I have a feeling they well.**

Lucy Dark walked up to Mr. Mortman and she had her sword pointed at his ugly head.

Lucy Dark: **If it were up to me, J.D. and the others would kill you right now. But, my parents would like to finish what they started!**

Me: First lets get rid of his little pet. Raph, you'll need this.

I take one of his sais and slash my wrist and coat the blade in my poisonous blood.

Raph: Thanks dude.

Volcana lifted the net and he was running away.

Raph is about to throw his sais at a fleeing Anti Sparky.

Leo: You sure you can kill Anti Sparky with one sai throw, Raph?

Raph: Leo, just watch me! (throws a sai at the bad dog)

It skewered him through his black heart and killed him in an instant!

Me: That's it for that bad dog.

Timmy: Good riddance.

Nico: Anti-Sparky you have failed this world!

Me: And Mr. Mortman has failed this city.

We laughed.

Back at the Dark's house we saw Mr. and Mrs. Dark turn into an Ogre and a Werewolf and they ripped apart Mr. Mortman and killed him. They ate him for dinner.

Me: Yuck.

Lucy Dark: I know. But you get used to it. Besides. Now he will never torment anyone ever again.

Nico: No he won't and during the battle, I caught a Carraccosta and Archeops.

Me: Nice job man.

Rukia: It was so cool doing a Final Smash with you guys.

Me: I'm glad you had fun Rukia.

Sakura Avalon: It scared me, but it was rather really neat.

Me: Yeah.

Lucy Dark: (To the Viewers) Evil monsters better watch out. Team Loud Phoenix Storm is gonna be coming for all of you.

Me: You said it Lucy. And I'm very proud of you for destroying him.

Lucy Dark: Thanks J.D.

Maria (to Raimundo): Thanks for letting me use the Ring of 9 Dragons. But I don't think I'll be needing it again.

Maria handed it back to him.

Raimundo: You're welcome Maria. I'm glad it came it handy.

We later went back home. Lucy Dark was now inducted into the Goosebumps Monster Busters and it was awesome! Another Anti-Fairy was destroyed. But the war with Anti-Fairy World is just around the corner. We have 39 days left until September 13th and the war will begin.

THE END

Another Fanfiction Complete and another Goosebumps Monster and Anti-Fairy destroyed.

Mr. Mortman from Goosebumps was the first ever monster I remember seeing back when I was a kid and he was the ugliest one I remember seeing. His face was so ugly that it gave me nightmares. I wanted to add Rukia from Bleach to add some excitement. We'll meet more members of the Soul Society down the way. The next Clow Card is the Watery Card. The 2nd of the 4 elements. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Parallel Earth's Evil Empire

In the Estate, we were playing Hide & Seek and Maria was it.

Maria: (With her eyes covered) 912, 913, 914…

Horsea went into Lola's room.

Horsea: (goes into Lola's room) They'll never find me here. (pretends to be a stuffed toy)

Lola was having a tea party and she saw Horsea.

Lola: What are you doing Horsea?

Horsea: Shh. We're playing Hide & Seek and Maria is it.

Lola: Oh sorry. I love hide and seek.

Me and Nico we're playing too.

I ran down the hall.

Me: Got to hide got to hide!

Maria: (Offscreen) READY OR NOT, HERE I COME!

Me: She's coming!

Nico: We got to hide fast.

Me: I have an idea.

I snapped my fingers and me and Nico blended in with the walls. We were perfectly camouflaged with the walls.

Maria came up stairs and she was looking around.

Maria walked by me and Nico while we were invisible and she went into Lori's room.

Lori: Oh hey Maria. What's up?

Maria: Sorry Lori, I'm playing Hide & Seek with J.D., Nico and Horsea.

Lori: Oh. I haven't played Hide & Seek in like forever.

Maria: I know.

Lori: Have fun.

Maria: They aren't in here. I'll check in Lola's room.

Lori: Okay.

Maria went down the hall passed me and Nico and she went into Lola's room.

Me: (Whispering) That was a close one.

Nico: (Whispering) We need to hide somewhere else.

Then we heard someone crying.

Me: Uh oh. That sounds like Sakura.

We went into her room and I saw her sitting on her bed crying her eyes out.

Me: Sakura? Are you all right?

I went over and sat on her bed with her.

Sakura Avalon: (Crying) Oh J.D.! This is all my fault!

Me: What's wrong Sakura?

Sakura Avalon: (Crying) On this day! I captured the Sleep Card, and I ruined all of my dads work!

Me: Oh Sakura.

I comfort her and she cried hard into my chest.

Me: It's all right Sakura. It was an accident. It's not your fault.

Maria: What's wrong with Sakura?

Maria came in.

Me: She's haunted by this day because she accidentally destroyed her father's work at the university.

Maria: Oh no. Did she capture a Clow Card and did it by accident afterwards?

Me: She did. It was the Sleep Card.

Kero: I remember that. Sakura felt really guilty about it.

Me: It's all right Sakura. It wasn't your fault. It was an accident.

Nico: Poor girl.

Madison: That was a sad day for her.

Me: Would a trip to the Aquarium help you feel better?

Sakura Avalon: (Sniffles) Yeah. I would like that.

Lana: Can I come too?

Me: Sure Lana. Syd can come too if she wants.

Heidi: I'll go too grandpa.

Me: Okay Heidi.

Jen Walters was in her room and she had just dyed her hair back to Brown.

Jen Walters: I missed my brown hair.

Me: Hey Jen. We're going to the Aquarium. You want to come with us?

Jen Walters: Sure.

In Joan's room she was seeing if our trench coats were that indestructible. She went into her Street Shark form and the buttons on her shirt ripped out as her skin turned grey and she turned into her Goblin Shark form. She reverted back.

Joan: (covers her topless chest) Guys, can you please get us some shirts?

Scarlet Witch: I'll find some nearby.

Scarlet Witch got to the closet and got a grey shirt for her.

Scarlet Witch: We need to get you an indestructible shirt like everyone else.

Joan: Noted.

Joan put it on.

Me: Hey girls. We're going to the aquarium. You guys want to come?

Joan: Sure.

Scarlet Witch: Count me in.

Maria: Horsea we're not playing Hide & Seek anymore!

Horsea: Coming!

Horsea arrived and we were off to the Aquarium. Along the way, Nico caught a Garbodor and a Zorark.

* * *

At the Aquarium we were looking at all kinds of awesome fish.

Me: I love looking at all these fish.

Syd: Me too. That's one of my favorites: The Sheepshead Fish.

Me: Those are pretty fish.

Heidi: They are called the Sheepshead because that's where it comes from: Sheepshead Bay in Brooklyn, New York.

Nico: That's amazing.

We were in the tropical fish of the Amazon Section. We saw the most terrifying fish ever known in the Amazon River: The Piranha!

Syd: Wow. Those are Red Bellied Piranha!

Me: Yep.

Heidi: Those are the most voracious kinds of fish ever in all of South America and I would not touch that water with a 10 foot pole. Have you guys ever seen the movie Piranha?

Me: I remember that one. That was a gory and ferociously scary horror movie. Lot of blood and carnage.

Nico: Those fish were awful. Those people were eaten and some of them had nasty bloody cuts on them.

Lana: Do Piranha fish bite?

Heidi: No. They don't bite. They scrape. Look.

Heidi took a piranha out and showed us their teeth. They were very sharp and deadly.

Heidi: Their teeth are as sharp as razor blades. They scrape the flesh and they go in a huge swarm. That's how they strip the flesh off their prey.

Heidi put it back in the tank.

Me: That's extremely ferocious.

Syd: No kidding. Those fish are scary.

Nico: No kidding.

Next we were at the Sea Lion Exhibit.

Me: Sea Lions. My favorites.

Syd: They are all amazing! I love Sea Lions because they are friendly.

Me: Some of them are. But Sea Lions are very territorial.

Lana: I love how they do all kinds of amazing tricks.

Me: Me too.

We saw Becca Chang come out.

Becca: Oh hey guys!

Me: Hello Becca. I didn't know you were putting on a Sea Lion show.

Becca: Yep. I work at the aquarium too. We were putting in more fish exhibits and I volunteered for the shows.

Syd: That is so amazing mom!

Sakura Avalon: It sure is Mrs. Chang. I think it's amazing.

Becca: Thanks Sakura.

We saw Becca do really well. But then I sensed a Clow Card.

Me: Uh oh.

Nico: What is it? You sense a Clow Card?

Me: Yeah.

Sakura Avalon: I sense it too.

Me: It's somewhere in here.

Then I saw a swirl of water head for Becca and it pulled her down and I flew over and grabbed her hand and pulled her out.

Me: Are you all right Becca?

Becca: I am J.D. Thanks.

Nico: What is this card?

Me: It's the Water Card. It's one of the 4 Elemental Cards.

Syd: This is gonna be a tough one to capture!

Jen: Lets see if physical force faces it.

Then out came the visible form of the Watery Card. 水

Watery resembles a blue, adolescent mermaid with webbed elven-ears and two wing-like fins, based on a flying fish, on her back. Her hair is parted in the middle with several strands emanating from the top. A scaly circlet decorates her forehead.

Me: This is gonna be a tough one. Her power is really strong.

Nico: I can feel it.

Syd: Wow! She looks dangerous!

Lana: No kidding.

Jen turn went She-Hulk. Her skin turned green and turned muscular and the buttons on her shirt popped out as her clothes ripped. She went She-Hulk!

She-Hulk went at the Water Card and punched her. But because she was pure water, her punch had no effect on her.

Me: Physical attacks are useless!

Lana: I have an idea!

Lana fired a massive blast of ice lightning and froze the Water Card.

Me: Way to go Lana!

Nico: That was pure genius!

Sakura Avalon: It sure was. I did exactly the same thing.

Me: Deja vu. Time to seal it. RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card appeared and it sucked in the Watery Card. The Watery Card was back to card form.

Me: Yes!

Syd: Way to go J.D.!

Lana: I'll say!

Maria: That was awesome! We have 2 of the 4 Elemental Cards.

Horsea: We sure do.

Sakura Avalon: The Water Card is a very powerful card J.D.

Me: I know. Water is also a very powerful and purifying force and it can heal as well.

Sakura Avalon: That's amazing.

Nico: It sure is.

We went back home.

Madison: So you guys caught the Water Card?

Me: Yep.

I pulled it out and it had my name on it.

Me: The Water Card was a tough one. But Lana is the one that froze it. Since Ice is made of frozen water she froze it in place.

Lana: That's right.

---

We move forward 981 years into the future in the year 3,000 and something was going on there. The rest of the Time Force Power Rangers were having lunch.

Alex: Jen, I want you to be honest with me. Do you miss Wes?

Jen: Every single day. I know we might've fought alongside him and Eric during the Legendary War. But that was 5 years ago. Right now, my duty is to you and Time Force.

Alex: Jen, Ransik and Nadira might've been redeemed. And the Mutants might still have been frozen for good. But there's still evil in the past. And you already broke off your engagement with me. If being with Wes makes you happy, then I'll be happy.

Jen: Are you ordering me to live a happy life with Wes as my commanding officer?

Alex: No, Jen. I'm suggesting as a friend to live a happy life with Wes.

Trip: Lets go see him then.

Lucas: Count me in.

They went into a time shuttle and the portal into the year 2019 opened. They went into the portal.

---

Back in the present, we were watching TV and reading books.

Then the alarm went off.

Me: Uh oh!

Computer: ALERT! TEMPORAL RIFT IN PROGRESS!

Me: A Time portal?

We went outside and we saw a rift in time and we saw a shuttle appear and it landed.

We then saw the Time Force Power Rangers come out. We saw Jen Scotts, Lucas Kendall, Trip Regis and Katie Walker.

Me: Wow! The Time Force Power Rangers!

Nico: I don't believe it!

Jen Scotts: Team Loud Phoenix Storm!

Trip: It's such an honor to meet you guys!

Lucas: Everyone all over the future can't stop talking about you all.

Me: I didn't know word about us got out in the year 3,000.

Nico: That's so amazing.

Wes: (Offscreen) Hey guys!

They turned and saw Wes and Eric.

Jen Scotts: Wes!

They were reunited.

Me: Wow. 981 years apart and it feels like they hadn't seen each other for that long.

Laney: That does feel unusual.

* * *

Back in the estate we were talking.

Jen Scotts: So you all saved the world from a massive asteroid that was gonna crash into the planet?

Me: Yeah. That was a nightmare I never want to relive.

I told them everything that happened and was going to happen from the year 3,000 to 150,000 years later and it was awful.

Jen Scotts: That's terrible.

Trip: I can't believe all that happened to you.

Laney: We all couldn't believe it. It was awful.

Lincoln: We were all separated because of that massive rock and scattered throughout the vast distances of the cosmos.

Linka: Yeah.

Me: But it was thanks to a wish on the Dragonballs that we were reunited.

Maria: Yeah. But I'm glad that future is never gonna happen.

Brawl: Hey Wes, can I ask you a question?

Wes: Sure.

Brawl: What's it like in the year 3,000?

Lucas: Well, a lot of things are different then here in 2019. In the future, I was actually a race car driver. But here, driving a car like in a race gets you pulled over by the cops!

Eric: That really happened?

Wes: It was during one of their first weeks here.

Me: I remember seeing that. But the Year 3,000 is a much more advanced time than anything human civilization is familiar with. In the next 981 years, humanity will achieve incredible technology the likes of which nobody has ever seen.

Then the Alarm went off.

Me: Uh oh.

We went to the computer and we saw that the evil Zaibach Empire on the planet Gaea was about to declare war on all of Gaea.

A powerful empire ruled by Emperor Dornkirk that possesses advanced technology. It was once a small and frail land. People were facing hunger, sickness, neighboring attacks, and living in constant fear. As a well educated man of science, Dornkirk used his knowledge to rebuild Zaibach into one of the most respected and feared countries in Gaea.

People of Zaibach have committed their lives to the vision of Dornkirk. They seek to create a new era of peace by controlling the world.

We also saw that there was another planet in Earth's Orbit. It was the planet Gaea. It was another Earth in orbit around us.

Gaea is the planet on which the events of The Vision of Escaflowne and Escaflowne take place. Hitomi Kanzaki is transported to Gaea in a pillar of light after her pendant reacted to Van's drag-energist following his completion of the Rite of Succession.

Gaea exists in an alternate dimension from Earth, and is a replica with oceans, continents, and even the ruins of ancient civilization. Its size, mass, atmospheric composition, temperature belts, and even seasons are essentially similar to those of Earth, though given some of the jumping and acrobatic feats of some of the show's characters, it is possible that the gravity is slightly lower than Earth's. However, although people on Earth cannot see Gaea, people on Gaea see both the Moon and Earth in their nightly expanse.

Gaea was created by the combined wish from those on the doomed Atlantis once they had realized that their ways were the end of their own civilization.

Me: What the?

Lori: What is it?

Me: This can't be right. It says that there's another planet in Earth's Orbit.

Lori: How is that literally possible?

Me: I don't know. But this is completely bizarre. It's in every way like Earth but with a medieval landscape and there are creatures completely unfamiliar with ours. And it gets worse. They're all at war against an evil empire.

The alarm went off again and the scanners revealed that there was a massive explosion of incredible power on the planet near the empire they are at war against.

Me: Whoa! There's a massive Electromagnetic Pulse surge!

Lincoln: Is it a nuclear bomb?

Me: No there's no radiation but it has just as much destructive power as one. Something is going on and we better get over there! Lisa, deploy the U.S.S. Valor!

Lisa: Affirmative.

We went into the U.S.S. Valor and we were on our way to the planet Gaea.

---

The U.S.S. Valor was heading to Gaea. It was only 500,000 miles away from Earth. Very close.

Me: Captain's Log, Stardate 2713.2: The U.S.S. Valor is orbiting above a strange planet that looks like Earth called Gaea and it's a planet set in the medieval times. But it was much different than it was back then. The planet is in a state of war and we have to destroy this evil empire to prevent the planet from being destroyed.

Lincoln: What do you think it's like down there.

Me: Lets find out.

We went down to the planet and we saw the planet completely at war and we saw a massive green beam of light coming from the Zaibach Capital.

Me: Whoa! What is that!?

Nico: I don't know but it's power is incredible!

Vince: Something is really wrong!

I then suddenly remembered what it was we were up against and I revealed everything.

Nico: Are you serious!?

Vince: The Zaibach's of Escaflowne are responsible for this!?

Nico: I remember them. They are pure evil and they want to destroy all of Gaea.

Hunter: (German Accent) Ja. Und Emperor Dornkirk is behind all this. He's the mastermind behind all this.

Nick F.: We have to stop him from changing the fate of the world.

Me: Right. We have to head to the capital and destroy Zaibach.

Rukia: The Zaibach are a very dangerous force. They have existed ever since the destruction of Atlantis 10,000 years ago. Emperor Dornkirk made the land of Zaibach into what it was now with the power of the Atlantis Machine. It's a deadly and powerful machine that can convert human thought into powerful energy.

We gasped.

Lincoln: It has that kind of power!?

Laney: That's incredible!

Lana: How can a machine possess that kind of power?

Rukia: It was built to fulfill everyones wishes. The people of Atlantis became winged people and it was because of that machine that Atlantis was destroyed.

Me: And it'll do the same to Gaea if we don't stop it and kill Dornkirk!

Ben: Then we have to take him down.

Ben turned into Clockwork.

Ben: (Swedish Accent) CLOCKWORK!

Jen Scotts: Guys, I have an idea on how to defeat Dornkirk. But you probably won't approve of it.

William: You can tell us anyway.

Jen Scotts: Well, you know how we froze our bad guys after defeating them?

Optimus Prime: I get it. You want to freeze Dornkirk and keep him in storage like the villains you fight.

Jen Scotts: Look, I know you might not approve, but…

Clockwork: That's actually a good idea. But we probably should weaken Dornkirk first.

Me: That's a good idea Jen. We can keep him as a statue in our backyard. But we can't let Dornkirk get away with all his crimes against this world. You all ready?

Wes: Lets do it guys!

Time Force Rangers: TIME FOR TIME FORCE!

The Time Force Rangers transformed and they were awesome!

Me: Awesome! Just like on TV!

Warpath: I can't wait to make those Zaibach jerks go KABLAM!

Me: Lets roll!

We flew to the Zaibach Capital Building and we saw that it was in a massive storm and lightning was striking all over the place.

Me: This place is like a nightmare from Hell.

Then we got a rather unexpected shock. We saw a young man flying with white angel wings.

Me: Whoa! You have Angel Wings!

Van Fanel: I know. I'm Van Fanel, king of Fanelia.

Nico: That place was destroyed by the Zaibach's wasn't it?

Van Fanel: It was.

Me: How did you get Angel Wings? We got ours through the powers of the gods.

Van Fanel: I was born with wings. I'm half-Draconian.

Me: That's incredible!

Varie: It sure is.

Aylene: The Draconian's are winged people? Incredible!

Nico: It sure is.

Me: We'll find out more later. Lets keep going!

We went to the Zaibach Capital and we snuck in through the vents.

Dornkirk: Someone is coming.

Dornkirk fired a blast at his place doors. But we were nowhere to be found.

Dornkirk: I must be getting very paranoid.

James: You should be.

Dornkirk turned to see us just getting out of a vent shaft.

Dornkirk: You all took the vent shaft?!

James: Of course. Now, we just need to wait for Weezing to get out. (Weezing comes out) You ok, Weezing?

His Weezing nodded.

Me: Emperor Dornkirk. So we meet at last.

Dornkirk: J.D. Knudson and Team Loud Phoenix Storm. Welcome.

Nico: You think you have the ability to change everyones futures?

Me: No one has the ability to change the future but them.

Hitomi Kanzaki appeared.

Hitomi: That's right! No one else can change anyones fate but that person alone.

Me: And if it takes us killing you to get you to see that, then so be it!

Nico: Emperor Dornkirk, you have failed this world!

Me: This war ends now!

We went at Emperor Dornkirk and I punched him in the face and kicked him in the stomach and punched him in the chest. Nico punched him in the face and fired a massive energy blast at him. He dodged it and it exploded!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Me: You will never terrorize this world ever again!
KAAAAAAAAAAA! MEEEEEEEEEEE! HAAAAAAAAAA!
MEEEEEEEEEEEEE!
HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA!

I fired a red Kamehameha Wave and it slammed into Dornkirk and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The whole capital of the Zaibach exploded with incredible power and it was completely destroyed in a massive mushroom cloud explosion!

A force field was protecting us and we were safe. The Atlantis Machine was completely destroyed and more.

Me: That's that.

Van Fanel: Wow! J.D. your power is unbelievable!

Me: Its been that way for me all my life. Now lets finish this monster off! CHRONO SABER!

I called forth a purple Chrono Saber and it was a clock hand longsword.

Me: Sweet!

Laney: Let me try too! CHRONO SABER!

Laney called forth a Brown Chrono Saber.

Laney: This is awesome!

Jen Scotts: You guys really have watched our show.

Me: We sure have Jen. Even here in the 21st Century we've learned so much from the year 3,000.

Trip: You sure have.

I rubbed my hand on the blade and it energized it with purple energy as purple lightning struck.

Me: TIME STRIKE!

The time of 12:00 appeared and I slashed Dornkirk 3 times.

Wes: Wow! You learn fast!

Me: Got to be prepared for anything. Lets finish him with our combos and Final Smash Time!

Warpath: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his explosives, thermal, cryogenic, acid, and sonic shells and his Machine guns, rocket launchers, and chain gun 100-fold.

Scarlet Witch: I've always wanted to try this out. GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and it enhanced her magic powers 10,000-fold.

Warpath and Scarlet Witch: SUPER MAGIC THERMOBOMB

BARRAGE!

Scarlet Witch fired a massive blast of red magic energy and Warpath fired a massive barrage of thermal bombs and they slammed into Dornkirk and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

James: My turn! Ready Weezing?

James' Weezing agreed.

James: ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into James' right arm device and it enhanced the abilities his Weezing 100-fold.

Brawl: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his megawatt gun 1,000-fold.

James: Weezing, use Sludge Bomb!

James' Weezing and Brawl: LIGHTNING POOPSTORM SURPRISE!

Weezing fired a massive blast of rotten sludge and Brawl fired a massive blast of lightning and the blasts combined and they hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOMMMMMM!

Me: Lets finish him!

Clockwork: With Pleasure! TIMERAY DISINTEGRATOR!

Clockwork fired a powerful Green Time Ray and it slammed into Dornkirk and destroyed his armor.

Van Fanel: This is for all of Fanelia! ANGEL FEATHER BOMBSTORM!

Van Fanel fired a massive barrage of feathers from his white wings and they slammed into Dornkirk and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Wes: Lets do this! Vortex Blaster!

Me: Lets do it!

Out of my device came a purple bazooka and Laney had a brown energy bazooka.

The Time Force called forth their energy blasters.

Me: Lets combine them.

We stuck our blasters together and they turned into an awesome energy cannon.

Me, Laney and the Time Force Rangers: FIRESTORM VORTEX BLASTER! FIRE!

We fired the cannon and a massive fiery energy blast was fired at Dornkirk and it hit him and exploded with incredible power!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Van Fanel walked up to Dornkirk.

Van Fanel: If it were up to me, I'd cut your head off. But my friends have a different idea.

Me: You are going to spend eternity as a diamond statue.

I snapped my fingers and Dornkirk was turned into a statue made of pure diamond.

Van Fanel: (to the viewers) Wow. This was an amazing battle.

Me: Yep.

We later went back home. Emperor Dornkirk was dethroned and the terror of the Zaibach's have been liberated from the world of Gaea forever. We then saw that Jen Scotts wants to stay with Wes.

Katie: We're gonna miss you Jen.

Alex: Jen, stay faithful to Wes. Never let him go for even a minute.

Jen Scotts: I'll keep that in mind.

Alex: Katie, I know how much you'll miss your family. But just know that Wes, Eric, and the rest of Team Loud Phoenix Storm will always be your family.

Katie: They already are.

Alex: Trip, keep making those gadgets and always stand up for what you believe in.

Trip: Like I'd ever stop now.

Alex: And Lucas? Stay cool.

Lucas (smirks): Dude, when am I ever not cool?

We laughed.

Me: Have a safe journey back to the year 3,000. But I have a strong feeling that in 981 years, we're gonna see each other for real.

Alex: We sure will.

Trip: It was so awesome working along with you J.D.

Me: You too Trip. But if we ever need your help, we'll call.

We shook hands.

THE END

Another Fanfiction Complete and another planet saved from evil tyranny.

Visions of Escaflowne was so awesome! It's where I got the idea for meeting Varie in the events of Raw Deal. But the Zaibachs were pure evil! The Water Card was a scary card. Next up is the Flower Card. One of my all time favorites in Cardcaptors. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# A Bad French Teacher

Captain Underpants And Team Loud Phoenix Storm And The Terrifying Perilous Misfortune Of the T.P. Mummy

---

At a crappy apartment complex in Baltimore, Maryland lived Julie Martin's parents. Baltimore is the most dangerous city in the country. They were very miserable because they lived in a nightmare lifestyle. They were right now being conned out of their money by the ruthless Maurice Skaggs. But little did they know that he is the notorious serial killer The CTK Killer that's wanted by the FBI in 20 states.

Maurice Skaggs: Time to pay up!

Mrs. Martin: We don't have the money!

Maurice Skaggs: You pay me or I'll kill you!

Then a window smashed and in came Proto Man!

Mr. Martin: Proto Man!

Proto Man: So, you like conning people out of their money, huh?

Maurice Skaggs: What are you going to do about it? Call the cops?

Proto Man: (grins as sirens are heard) I just did.

Then the SWAT Team bursted in and Julie Martin came in and she froze Maurice Skaggs hands in solid ice.

Julie Martin: You are under arrest Skaggs.

Mrs. Martin: Julie, why are you wearing new clothes?

G1 Cliffjumper: Can you believe she got them after Horrorland?

Me: And we got them for her.

Nico: Maurice Skaggs you have failed this world.

Mr. Martin: Wow! Team Loud Phoenix Storm!

Me: That's right. It's a pleasure to meet you Mr. and Mrs. Martin.

Mrs. Martin: Why did you arrest our landlord?

Me: I'm afraid it's worse than what you think Mrs. Martin.

I pulled out a wanted flyer and showed it to them and it said that Maurice Skaggs is the ruthless and notorious CTK Killer. Wanted by the FBI for the murders of 50 people in 20 states. They were after him for 10 years.

Mr. Martin: My god! We've had a serial killer as our landlord!?

Mrs. Martin: Thank you all for saving us!

Julie Martin: Mom, Dad, I'm glad we got here in time. But not only that, but here's the reason why my clothes are different.

Julie explained everything.

Mr. Martin: I'm just glad that the Evil Camera is destroyed now.

Lucy Loud: Destroying it was easy. It was defeating its accomplices that was the real problem.

Me: Yeah. And it was awful.

I went up to Maurice Skaggs.

Me: You are nothing more than a fucked up monster. You are a worthless piece of fucking shit!

Maurice Skaggs: I WILL KILL YOU FOR THIS!

I spit on his face!

Me: People like you make me sick! You are an absolute fucking monster! I can't wait to see them kill you! Get him outta here.

They took him away.

We told Mr. and Mrs. Martin about what happened and how Julie Martin was in good hands. They were so glad she was all right. We got them out of that crappy building and into the estate where they will stay in our protection. Maurice Skaggs went on trial for 50 counts of murder in 20 states and he was convicted and sentenced to death. He committed the murders in Maryland, Delaware, Virginia, North & South Carolina, Georgia, Florida, Alabama, Kentucky, Tennessee, Louisiana, Arkansas, Texas, Oklahoma, Arizona, California, Missouri, Idaho, Oregon, and Utah. It was over half of the states that have the Death Penalty. He was executed in Maryland. Maurice Skaggs was the Devil Incarnate and he was a true psychopathic homicidal monster. His image was completely destroyed by the entire country and he was described as a true example of a monster of Level 22 on Steroids. Laney Loud called Maurice Skaggs one of the most prolific serial killers in the country.

---

Later back at home we were in the middle of the city for the annual French Art and Food Festival, one of Laney's favorite events to go to. It was an awesome festival loaded with people from France and every year they come to show the art and culture of France. Its a magnificent time for us. We get to see all kinds of awesome things.

Me: This is so amazing.

Laney: It sure is. I love coming to the French Festival.

Lincoln: It's an amazing place.

Sakura Avalon: I love learning so much about France and different parts of the world.

Me: We've been all over the planet and learned so much about it.

Lincoln: Yeah. It's amazing.

Maria: It's a shame that Katie, Trip, and Lucas couldn't stay.

Wes: Don't get me wrong. It was good seeing them again. But it's understandable that they have unfinished business in the year 3000.

Jen Scotts: For now, I'm just happy to be here with you, Wes.

William: Well, at least we can still call them if we need their help.

Me: That's true.

Nico: It was cool getting to meet your teammates from the year 3,000 Wes.

Wes: Thanks Nico.

We then saw all kinds of beautiful flowers and flower petals rain down.

Me: Wow! What a beautiful amount of flowers.

Then I sensed a Clow Card in the area.

Me: I sense a Clow Card.

Sakura Avalon: I sense it too.

Me: Lets see where it is.

Me and Laney flew up into the air and we saw a pink ball of light on the roof of one of the buildings in the city. We got closer and we saw that it was a beautiful Clow Card. It was the Flower Card. 花 Flower appears as a playful, young woman in a fluffy, hoop skirt with baggy pants underneath. Her hair is dressed in signature, corkscrew pigtails. A floral symbol appears on her forehead and chest and flowers dangle from both of her ears. She also wears corsages on both her wrists and ankles.

Laney: Wow!

Me: The Flower Card. She's beautiful.

Laney: I think this is the prettiest Clow Card of them all.

Me: She sure is.

Kero appeared.

Kero: Oh yeah. The Flower Card is a very gentle and fun-loving spirit. She likes to appear at parties and celebrations and stuff and she likes to spread her flowers all over.

Me: Wow. She has a very strong sense of brightening up places.

Laney: I'll say.

The Flower Card then took my hands and I was dancing with her.

Me: Wow. You are quite the dancer.

I was dancing with the Flower Card and she was a beautiful dancer. She was very graceful and very talented. I did a great dance.

Me: Thanks for the dance. Now you need to go home. RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and the Flower Card got sucked into it and was a card. I had the Flower Card in my hand.

I signed my name on it.

Laney: That was awesome.

Me: Thanks Laney.

We went back down to the festival and continued enjoying the fair.

We were having all kinds of fun.

Laney: This is so much fun!

Lincoln: It sure is.

Mr. Krupp: I love learning about the French.

?: (French Accent) We shall see how long it lasts.

We turned and we saw former French teacher of Jerome Horwitz Elementary School - MS. YEWH!

Yewh: Hello, Monsieur Krupp!

Mr. Krupp: Ms. Yewh!? What are you doing here?

Yewh: For revenge!

Mr. Krupp: You are nuts!

Yewh: You abandoned us, Krupp. But you can still willingly rejoin us.

Me: The day he rejoins you is the day he farts nerve gas! So go fuck yourself!

Yewh: No one talks that way to me!

She fired a collar and it snapped onto Lola.

Lola: What kind of collar is this?!

Yewh: The kind that nullifies your powers!

I broke it off.

Harold: In retrospect, you should've gotten J.D. with that collar.

Me: Not helping Harold.

My dark orb detector beeped and it found a Dark Orb on Mrs. Yewh.

Me: You have a Dark Orb on you.

Ms. Yewh: That's right and I can do this!

She fired a beam of darkness and the sewer manhole covers exploded out and out came tons of raw sewage and they formed into minions made of raw sewage and rotten toilet paper.

Me: Oh this is disgusting!

Lana: Cool!

Lola: EW! You lady have no class!

Numbuh 4: And I thought Toiletnator was bad!

Nico: Ms. Yewh, you have failed this world!

George Beard: Mr. Krupp?

Mr. Krupp: Ready boys.

George snapped his fingers and Mr. Krupp turned into the Underpants Crusader, CAPTAIN UNDERPANTS!

Captain Underpants: TRA LA LA!

Me: Lets take this sewage freak down!

We went at Ms. Yewh and the sewage minions.

I punched a Raw Sewage minion and it was disgusting. But I defeated it.

Me: EW YUCK! Remind me to take a really good shower when we get back.

I fired a blast of fire and blew some of the minions apart. Mr. Krupp fired a massive blast of super fart gas and he made Ms. Yewh hurl her guts out!

Chloe, Joan, Bebe, Cammy and Sean then went STREET SHARK! Their upper bodies grew and their shirts were tight and they started to rip and they transformed into their shark forms! They punched and smashed and slashed and blasted the minions into dust.

Lucy Loud: You and your minions are never gonna be welcome here!

Lucy kicked Ms. Yewh in the face and fired a massive blast of black lightning at her eyes.

Lucy Loud: Let fear consume you completely.

Lucy's black lightning made Ms. Yewh see what she was terrified of the most: TOILETS.

Laney tied up Ms. Yewh in plants and slammed her into the ground.

Lola fired a massive blast of fire and burned her minions and burned Ms. Yewh in her face.

Julie Martin fired a massive blast of ice and froze the minions and shattered them. She kicked a bunch of minions all over and shattered them all over the place.

Mrs. Martin: Wow! What has happened to you Julie?

Julie Martin: Lets just say that J.D. and everyone have given me an awesome and powerful sense of helping people and saving their lives.

Mr. Martin: I believe it.

Ben: Time for some hero power!

Ben turned into Snare-oh!

Ben: SNARE-OH!

Starfire: He turned into a Thep Khufan.

Blackfire: Very amazing race.

Snare-oh wrapped numerous minions in his bandages and slammed them into the ground with devastating force.

Lincoln fired a massive blast of lightning and electrocuted some of the minions and Earth fired a massive glob of Earth and melted them as well.

Lincoln: You guys are really starting to curdle my stomach!

Earth: Mine too.

Lori: You literally disgust me Yewh!

Laney: I agree! You are an absolute disgrace to the French culture! You are no French citizen!

Laney punched her in the face and kicked her in the chest and stomach and punched her in the face and knocked out some of her teeth!

Me: Let me show you the power of the Quasar Saber!

I unsheathed my Quasar Saber and the blade was energized with a powerful purple glow. The energy and power of the stars was flowing through it and I slashed numerous minions and they exploded into a massive explosion of purple fire and stardust!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: That's not all.

I pulled out my Transdagger and turned it into the Omega Spear.

Me: Omega Spear!

I slashed and blasted the minions into fiery stardust.

I was facing Ms. Yewh.

Me: You brought all this on yourself Ms. Yewh. I feel sorry for you.

Ms. Yewh: I'm sure you do! Soon you all will be dead! The war is gonna end and evil will win! And when I kill you, I will save this world from your evil!

Me: Amazing. You are fucked up to the core. Every word of what you just said is wrong. This war is just beginning and I will not let everything you said happen.

Ms. Yewh: I'll destroy you and everyone you love! You make me sick! I HATE YOUR FUCKING GUTS!

Our auras flared up with incredible intensity.

Me: Your hatred blinds you and it only makes us more powerful.

Nico: You are a monster Ms. Yewh.

Lincoln: You have no soul and no conscience!

George Beard: You will die like the rest!

Ms. Yewh: You will die with the rest of the weak!

Me: You will be the one that dies. Everyone has a right to live and protect the people we care about and that's something a warped freak like you can never understand! COMBO AND FINAL SMASH TIME!

Proto Man: You got it J.D.! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and it enhanced his Proto Blaster 100-fold.

Frenzy: This is gonna be awesome! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his sonic blast drums 100-fold.

Proto Man and Frenzy: ATOMIC SONIC BURST!

Proto Man fired his Proto Blaster and Frenzy fired a powerful sonic blast and the blasts combined and they slammed into Ms. Yewh and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOMMM!

Lucy Loud: You will know what true fear is like. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Lucy Loud's right arm device and it enhanced Lucy's Black Lightning powers 100-fold.

Cliffjumper: Time for action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Glass Gas Blaster 100-fold.

G1 Cliffjumper and Lucy Loud: FEAR LIGHTNING SHRAPNEL STORM!

Cliffjumper fired a powerful blast of Glass Gas and Lucy Loud fired a massive blast of blast lightning and the blasts combined and turned into a massive shower of shards of glass that went at Ms. Yewh and they shredded her all over.

Clawful: Lets do this Elec Man!

Elec Man: You got it.

Elec Man fired a massive blast of lightning and Clawful fired a blast of energy.

Clawful and Elec Man: LIGHTNING LOBSTER ELECTROCUTION!

The blasts combined and turned into a big red lobster made of pure electricity and it snapped on Ms. Yewh's leg and she screamed in excruciating pain as she was electrocuted.

Lola: This is for putting that collar on me! FIRESTORM BEAUTY PHOENIX!

Lola fired a massive blast of fire and it turned into a massive phoenix and it hit Ms. Yewh and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Harold Hutchins: Lets do this! SMELL YOUR OWN FARTS!

Harold Hutchins fired a green energy ray and Ms. Yewh released a massive explosion of explosive diarrhea that propelled her high into the sky and she fell from 5,000 feet into the air and she crashed into the ground.

KRACRASH!

Everyone: OOOOOOHHH!

Me: That's gonna leave a mark!

Chloe reverted back.

Chloe Bolton: (while covering her topless chest) Well, that's what you get. You command a mummy army and you get turned into a mummy.

Maria: Well said Chloe.

Me: Talk about ironic.

We got her up and she was arrested. For her crimes, she was condemned to suffer the Hom Dai curse. We cursed her and buried her in a coffin in the Antarctica Prison next to the evil Sasuke that Vince and Naruto buried. Back at the festival we were having an awesome time. Nico caught a Cinccino and a Gothitelle during the battle.

Eddy, Luan and Laney were dancing with the Flower Card to awesome music.

Eddy: Wow! You weren't kidding J.D. She is an awesome dancer.

Luan: She sure is.

Nico: I'll say.

Lola danced with her next.

Lola: (To the viewers) I will never have a teacher like Ms. Yewh.

Me: None of us will.

But we had an awesome time.

Me: Laney I hope we didn't ruin the French Festival for you.

Laney: No you didn't J.D. This was the best day ever for me!

Me: I'm glad.

We had an awesome time and we went back home. We had some really good showers.

THE END

Another Chapter Complete and the 2nd Captain Underpants Villain brought to justice.

Ms. Yewh on Captain Underpants on Netflix was an awesome bad guy as a mummy of pure toilet paper. That's one of the oldest Halloween Costumes in the book: Going as a mummy wrapped in Toiler Paper. But it's a waste of good toilet paper. I got the idea for the minions made of raw sewage and mummies of Toilet Paper from the Codename: KND game and it was funny. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Extreme Spots

In the Attic, Maria and Lily were searching through some stuff.

Lily: Boy I didn't know we had all this stuff.

Maria: Me neither.

Lily then picked something up and a bottle hit her on the head.

Lily: Ow!

Lily saw the bottle and she found something in it.

Lily: There's something in this bottle.

Maria: Lets see.

Lily pulled out a map.

Lily: It's a map.

Me and Laney came up.

Me: What's going on up here girls?

Lily: I think we found a map.

Me: Lets see.

We looked at it and it was an awesome treasure map! It was the map to the treasures to the ruthless Cereal Pirate Captain Black Beak.

Me: I don't believe it! It's the map to the treasure cereals of Captain Black Beak!

Maria: Like in all those Froot Loops Commercials!?

Laney: Oh wow! Froot Loops are my favorite cereal.

Me: Mine too. Lets go find these treasures. The First treasure is at Glitter Island. Lets head out.

We were off. The first treasure of Captain Black Beak was at Glitter Island. The treasures of Captain Black Beak were located in an uncharted island archipelago in the middle of the Indian Ocean.

Laney saw Glitter Island.

Laney: There's Glitter Island guys!

Maria: It's really sparkly.

Lily: It sure is.

We landed on the island and we found the X on the map.

Me: X marks the spot.

Laney used her plant powers and dug up the treasure. We opened the treasure chest and in it was Froot Loops cereal but with golden sparkling loops.

Laney: Wow! Goldenberry Froot Loops Cereal.

Maria: It's so sparkly.

Lily: And it smells really good.

Me: Here's our first new breakfast girls.

Laney: Lets get it back to Gotham Royal York.

Me: Okay. We'll look for more treasures later after we finish this one.

Laney: Okay.

We took the treasure back.

* * *

At breakfast time we were having our new Froot Loops treasure and it was really tasty and sparkly.

Nico: (Eats the cereal) Mmm! These Goldenberry Froot Loops are delicious.

Lana: Mmm! I'll say!

Lola: You guys made an awesome find.

Luna: You sure did dudes.

Luan: It's a really sparkly find! (Laughs to rimshot) Get it?

Most of us laughed while everyone else groaned.

Me: (Laughs) That was a good one Luan!

Eddy: (Laughs) That was a good one!

Lori: I haven't had Froot Loops in like forever.

Me: It's really good cereal Lori.

Lori: And you found the treasure of Black Beak like on those commercials? That's literally amazing.

Laney: It sure is.

Syd: I love those commercials.

Nicole: Me too. After we finish this, I'm coming with you guys to find the next one.

Me: Okay Nicole.

Harold: Elena, is it true that your real name was Elrena before?

Elena: Yep. But I decided to change it to Elena so it sounds like a usual girl's name.

Me: That's all right. I think Elrena and Elena are both awesome names and you can choose whatever name is comfortable.

Elena: Thanks J.D.

Suddenly there were all kinds of freak lightning strikes happening outside and the lights were overloading and flickering.

Me: Uh oh.

We looked outside and it was the freakiest thing. There was lightning striking all over the place, but there not a single cloud in the sky.

Me: Wow!

Lincoln: How is that possible!? There are no storm clouds but there's a lot of lightning.

I then sensed a Clow Card.

Me: I sense a Clow Card!

Lincoln: I can feel it!

Kero: This is definitely the work of the Thunder Card.

Me: I take it that one uses lightning.

Kero: More than that. It's an extremely dangerous card J.D. It uses lightning and electricity to strike its enemies.

Me: Lets go!

We went outside and we saw The Thunder Card! 雷 It looked like a lion made entirely out of pure lightning and the amount of electricity and lightning it had was incredible!

Me: Whoa! So that's the Thunder Card.

Laney: It sure looks amazing!

Lincoln: Lets see who has stronger lightning!

Lincoln flew at it and fired a massive blast of powerful lightning at it. But his lightning was only making it madder and more powerful. It fired a massive blast of lightning at Lincoln and he absorbed it. Lincoln then grabbed it and absorbed its energy and power! It was weakened to an incredible degree.

Lincoln: Lets see if I can do a sealing. RETURN TO YOUR POWER CONFINED!

Lincoln held out his hand and an energy card appeared and the Thunder Card was sucked into it. The Thunder Card was changed back into a Clow Card.

Me: Way to go buddy!

Lola: Great job Linky!

Leni: You totes got it Linky!

Me: Yeah.

Lincoln: Here J.D.

Me: Thanks buddy.

Lincoln handed the Thunder Card to me and I signed it.

Me: I wonder if Sakura sensed it.

We went to Sakura's room and we saw that she just woke up, but she looked sick.

Me: Sakura are you okay?

Sakura Avalon: My head feels all fuzzy.

Me: Let me see.

I felt her head and she was burning up.

Me: Wow. You are burning up.

Lana: Let me see.

Lana took her temperature.

Lana: 102.4˚. That's a high fever.

Me: Yeah you're sick. You have a Summer Cold. I'm afraid you'll have to stay home from school today.

Sakura Avalon: But I have a big project with everyone.

Me: I know Sakura. But I'm afraid you're in no condition to go to school.

Lily: I'm sorry you're sick Sakura.

Lola: Yeah no one likes being sick.

Laney: We'll stay back and take care of you.

Sakura Avalon: Thank you.

Me: You're welcome. I'm sorry you're sick Sakura and I've never been sick a day in my life.

Sakura Avalon: You're lucky.

Me: Luck has nothing to do with it.

Sakura Avalon: I sensed a Clow Card.

Me: It was the Thunder Card. Lincoln caught it and it was a dangerous capture.

Sakura Avalon: That was a dangerous card.

Me: It was a tough one. But Lincoln sucked out its energy and weakened it.

Sakura Avalon: You're doing really well J.D.

Me: Well lets worry about your health first.

I went to check on her brother Tory. He was still recuperating from a broken leg.

Me: How are you feeling Tory?

Tory: Good J.D. I think it's gonna be a while before I walk.

Me: Well Sakura has a nasty fever. She has a fever of 102.4 and we're gonna do everything we can to help her.

Tory: I'm sorry Sakura got sick. So was there another Clow Card?

Me: Yep. The Thunder Card. Very dangerous one.

---

At the Krusty Krab, Maria and Horsea was eating a pizza. It was made by Lily. Lily makes an awesome Krabby Patty Pizza.

Squilliam: Thanks so much for entrusting me with Squiddy's clarinet, Maria.

Maria: No problem. And as a bonus, you also get Squidward's Final Smash privelages, combo privelages, land breathing privelages, and negative emotion empowering privelages.

Squilliam: Thank you so much Maria.

Maria: You're welcome.

Maria and Horsea were enjoying the pizza a little at a time and Horsea was eating the pepperoni first.

Mr. Krabs: Horsea-

Horsea: I know. Me or Maria have to pay for the pizza.

Mr. Krabs: Actually, what I was gonna say is that you shouldn't just eat the pepperoni slices. You also have to eat the pizza as well.

Maria: We know Mr. Krabs but Lily did such an amazingly good job that we want to enjoy the pizza a little at a time.

Mr. Krabs: Oh. That's all right then.

Mindy (Spongebob): Thanks for letting me replace Squidward as the cashier, guys.

Maria: No problem. After how you bravely helped us during the robot crisis, it was the least we could do.

Cornelia and Megan were having a pizza too.

Cornelia: I'm so glad you and I get to spend some friendship bonding together, Megan.

Megan: Me too. (eats a pizza slice) This pizza is actually delicious!

Cornelia: Lily sure did a great job.

Megan: She sure did.

Cornelia: Doesn't Kevin like pizza?

Megan: He does. (sadly) But that was one of the causes of him, me, Buzz, and my other siblings always fighting with each other. (starts to cry) Dang it, I was such a brat towards him back then!

Cornelia: I'm sorry about that Megan. But that's one of the bad things that come with being in a huge family.

Lily: She's right Megan. In our family when it came to pizza, we didn't get seconds. With 12 kids and 13 slices of pizza there was always one slice left.

Megan: You guys and I are very similar Lily.

Later they went to the beach near Goo Lagoon.

Tori Hansen: It's so much fun going to the beach.

Michael Munroe: It sure is.

SpongeBob: A little more sand. Pat, Pat, Pat. Pat, Pat, Patrick! Check it out. An exact replica of the Krusty Krab. One sandy patty. Extra grit.

Patrick: [gulps] A bit dry and flavorless. I'll take two dozen.

They laughed.

Maria: I love building stuff in the sand.

Sydney: Me too.

Fred: Hey, everyone! The Drastic Radicals are tearing it up on Sand Mountain!

Maria: The Drastic Radicals?

Lily: Lets go see.

[Everyone ran to Sand Mountain.]

SpongeBob: Let's check it out!

Patrick: Um, could you give me a hand?

SpongeBob: Sure thing, buddy. [Patrick whistles and Patrick's body comes and places his head on his body]

[Everyone was at Sand Mountain and they had excited chatter]

Patrick: I can't see anything.

SpongeBob: Allow me.

Spongebob pulled someones hair and the people split like a curtain and they went to the front. They saw a strange sight.

[They heard engine revs and the crowd gasps]

They saw someone get shot out of a cannon while riding on a motorcycle and he grabbed the mountain top.

Johnny Krill: Yeahhh! [laughs]

He rode in a spiral twist down the mountain. Another fish riding a hang glider flew down the mountain and twisted in the opposite direction.

SpongeBob: Wow!

Maria: Wow! What a stunt!

Lily: Oh wow!

Megan: This is so much fun!

Patrick: Whoa!

SpongeBob: Whoa!

Patrick: Wow!

SpongeBob: Wow!

Patrick: Wow!

SpongeBob: Whoa!

Patrick: Whoa!

[The other fish pulls a cord and the hang glider did a bugle call]

SpongeBob: [gasps] Look out!

They dodged and got out of the way.

[Not Dead Ted laughs and grabs an old lady.]

SpongeBob: Someone help that little old lady!

Grand Maul Granny: Help yourselves, himrods!

She put on a helmet and was shredding down the mountain. Patrick rips his head off and slurps on his brain like an ice cream cone. The old lady falls into a cannon and it shot out of it and collides into the hang glider and it exploded.

KRABOOOOOMMM!

Narrator: Johnny Krill! Not Dead Ted! [Grand Maul Granny laughs] Grand Maul Granny! [explosion] Drastic… Radicals! [explosion] The Drasticals!

Maria: Wow! It's a Daredevil Sports Stunt Team!

Lily: Oh these guys are so awesome!

Patrick: Did you see that?

SpongeBob and Patrick: What was that?

British Gentleman: (British Accent) Why, those are the Dwastic Wadicals, the number one practitioners of extweme spowts. [sips tea]

SpongeBob and Patrick: Extreme what?

Lily: He says Extreme Sports.

Tori Hanson: They're Daredevil Stunt Performers

They went up to them.

Johnny Krill: Whoa! The Neptune Crusaders!

Lily: That was so awesome how you guys did all that.

Maria: And you sound just like famous actor Johnny Knoxville from the Jackass movies!

Johnny Krill: I do don't I?

Emma Gilbert: My brother Elliot watched Jackass before. He always wants to try out the stunts but me and my parents always forbade him.

Lily: Yeah those stunts were extremely dangerous. They give a whole new meaning to the phrase "Don't Try this at home". But they are so awesome!

Maria: They sure were.

Not Dead Ted: But you guys are extremely awesome!

Grand Maul Granny: But you guys take extreme to the brink.

Johnny: So you wanna be a Drastical. Let's see what you got, little dude.

Megan: Spongebob, you doing these stunts is perfect. There's only one problem.

Spongebob: What's that?

Megan: YOU'RE GONNA GET YOURSELF KILLED!

Cornelia: And not only that! You'll also give the remaining villains out there the satisfaction of us losing one of our friends outside of the battlefield!

Spongebob: This isn't about safety, Cornelia. It's about having fun and making a mark in Bikini Bottom history.

Cornelia (to Irma): Irma, don't you have anything to say about this?!

Irma (sounding mad): Yeah! (Cornelia looks smug until Irma grins excitedly) Can I join in too?

SpongeBob: No problemo. I guess you just hop up like this… [revs engines, motorcycle drives off with his hands] Hey! Come back! [SpongeBob chases after it, motorcycle goes faster] Heeeeyyy! [Runs the other way, motorcycle picks him up and he screams as he goes through sand dunes. Motorcycle stops, SpongeBob faints]

Sydney (TMNT): Guys, let's just prepare Spongebob and Patrick's funerals. They're goners.

Granny: [Chuckling, to Patrick] You're turn, fat boy!

Patrick: Hey! How'd we get up here? [Patrick is pushed off cliff, hits several rocks then falls off mountain]

Johnny: Our sports are too extreme for you dudes. Maybe we should start you two on something easier. What games do you dudes like to play?

SpongeBob: Ooh, I know. How 'bout a little something called Jump rope?

Johnny: Jumprope, eh? Demonstrate.

SpongeBob: Ready Patrick? On your mark, get set, jump rope!

Patrick: Extreme! [starts jumping] Hey, who's holding the other end?

SpongeBob: I am of course. [Pan to the right] Hi Patrick!

Patrick: D'uh. [blows harmonica, starts singing] My best friend is SpongeBob, he has a square head, I try on his clothes while he's asleep in bed.

SpongeBob: Yeah! What?

Patrick: That's weird, my face is leaking.

SpongeBob: You're face isn't leaking. You're just sweating from all the exercise.

Patrick: Exercise?! [stops] Eww, I didn't sign up for this! [faints]

SpongeBob: Extreme!

Johnny: Dude that was not extreme. Let the Drasticals show you how it's done. Grab it Granny [throws one end of jump rope, Granny bites end of rope, Ted makes a somersault and lands on rope with his tongue, jumps back into the air]

Ted: Drasticals! Whoo! Yeah! [Lands and jumps over rope to the point where he steams up]

Johnny: Kick it up a notch!

[Ted sets aflame and shoots into the air]

SpongeBob and Patrick: Ooooh.

Ted: Yeah! [plane hits him, he falls face first into ground and burns to a crisp]

Johnny: Yeah! See, extreme sports should be explosive! Boom!

SpongeBob: Explosive, huh? I know just the thing! [dips bubble wand and blows bubble. Bubble pops] Boom! [SpongeBob and Patrick make several explosion sounds] Impressed?

Drasticals: No.

Johnny: Look dudes, to be extreme you gotta go bigger. Show 'em

Drasticals! [Granny climbs huge bottle of bubble soap, dips huge wand and puts it in front of a ramp] Watch this! [Rides motorcycle into bubble, speeds into town and knocks over a building. Bubble pops and he gets crushed] Extreme. [Tunnels back, hops out of the ground] Now that's how you do extreme! You understand?

SpongeBob: I think I do. Is fighting extreme?

Johnny: Fighting is totally extreme.

[Scene opens in wrestling ring.]

Matt Daniels: See? Now this is a sport!

Tori Hanson: And if you think it's painful, it's nothing compared to the amount of pain that Squidward tried to trick you two into inflicting onto each other.

SpongeBob: Don't remind us.

Patrick: I want a clean fight. I don't wanna see any trash laying around. [Rings his head instead of bell. SpongeBob tries to punch a pillow, spins to the edge, launched back into pillow which land on his head] Oohh… We give up! Fling [Waves towel and throws at SpongeBob] That was close.

Johnny: Not so fast, that's not fighting. Stand aside [Stomps SpongeBob and Patrick out of ring] I'll show you how it's done! [Slams into pillow, puts into washing machine, sets it on wash]

SpongeBob: Noo! It's dry-clean only!

[Johnny smashes machine open, punches pillow out of ring]

Pillow: Avenge me.

SpongeBob: Brutal.

Mattress: Charlie! [Jumps into ring and smashes Johnny, then does it again 6 times more]

Patrick: Even more brutal!

Johnny: Now that was extreme, dudes. You think you're starting to get it?

SpongeBob and Patrick: Oh yeah.

Johnny: So what else you got?

SpongeBob: Well there is one sport that Patrick's an expert at.

Patrick: Dumpster diving!

[Patrick pushes dumpster, climbs it, and jumps in. SpongeBob cheers. Patrick sinks in and pops out, coughing up some trash.]

Johnny: That's not extreme.

Patrick: [Spits out old toothbrush] How revolting. [Brushes teeth with it]

Johnny: Okay, that's kinda extreme. Not bad, but the Drasticals will show you how it's done. [Ted brings in a ladder with diving board and Granny on top. Ladder is set higher]

Granny: Okay artificial hip, don't fail me now. [Jumps into dumpster and chuckles. Johnny dumps her and trash into a garbage truck and crushes them with a compactor. Trash comes out a square shape and Granny pops out] Extreme!

Patrick: That is one tough elderly person.

Johnny: Dude, that was awesome! What other crazy sports do you dudes play?

SpongeBob: Well, there is a very extremely extreme sport we play if you're up to it.

[At Jellyfish Fields, SpongeBob and Patrick chase after jellyfish]

Patrick: Hey, where are the Drasticals? [They feel ground shaking] Here they come!

[Johnny catches jellyfish on motorcycle, Ted in the air, and Granny riding them like a tidal wave]

SpongeBob: Wow!

Patrick: Amazing!

Johnny: Jellyfishing, yeah… [Jellyfish flies into his mouth and stings him, Ted flies into huge jellyfish and burns, thrown into Johnny and Granny and they get caught in an explosion]

Johnny: [Covered in stings] Dudes, now we get it! These spots are way extreme!

Ted: And itchy!

British Gentleman: As you can see, extweme spowts are the direct bi-product of the most extweme spowts.

Patrick: Who is that guy?

---

Back at the estate, Cornelia was reading a book and Megan came in.

Megan: Can I sleep in your room tonight, Cornelia?

Cornelia: Sure. I'm so glad we got to meet people who sound like the Jackass cast.

Megan: Me too. I wonder what other people we'll meet in the future.

On a rooftop, we see 4 small figures in the shadows.

?: Cute and cuddly, boys!

DBZ NARRATOR: WHO ARE THESE MYSTERIOUS FIGURES? ARE THEY FRIENDS OR FOES AND WHAT DO THEY WANT? FIND OUT ON THE NEXT EXCITING EPISODE OF LOUD HOUSE REVAMPED.

THE END

Another Fanfiction Complete and another awesome SpongeBob Episode complete

The beginning part of the chapter is based on my favorite Froot Loops Cereals from my childhood and they were really tasty. Whenever we do a SpongeBob episode chapter we're gonna do a Froot Loops Cereal Treasure find. Johnny Knoxville guest starred in the episode Extreme Spots and he starred in the Jackass movies and those were extremely funny! The next Clow Card is the Shadow Card. NicoChan11 gave me the ideas for this one. Let me know what you all think.

See you all next time.

# A Revenge-Obsessed Octopus

At the estate we were talking to Dr. Deborah Bolton - Joan, Chloe, Bebe, Cammy and Sean Bolton's mother. She was gene-slammed with Beluga Whale DNA and her Gene-Slammer form is called Echoslam. She is a woman with black hair, brown eyes and she now has a brown shirt, a white sleeveless Trench Coat with a pod of Beluga Whales on it and the kanji for Beluga Whale Echo on the back. ベルーガホエールエコー She also keeps her hair in a ponytail.

Shrapnel: (to Dr. Deborah Bolton): So, Mrs. Bolton. How did you get your gene slammed form?

Dr. Deborah Bolton: I was trying to stop our version of Dr. Paradigm.

Jaime: I remember that. She spliced her with Beluga Whale DNA. And it was thanks to me that I gave her humanity back with the power to transform at will.

Joan: Yeah we missed our mom.

John: We know just how you feel Joan.

Stacy: Yeah.

Me: I would like to find out more. How did you stop your version of Dr. Paradigm?

Dr. Deborah Bolton: That is a rough battle. But first I'll tell you how I got Gene-Slammed.

---

Dr. Deborah Bolton: (Narrating) **I got word that Dr. Latricia Paradigm, my old friend and idol was up to no good. She was fooling around with the laws of nature and is trying to make dangerous experiments to rule the world. I snuck over the fence the fence and used a lockpick to get into the facility where Dr. Paradigm works.**

In the laboratory, Dr. Latricia Paradigm was working hard on something that will ruin the laws of Mother Nature. Unlike Dr. Luther Paradigm she had grey hair in a ponytail. In several tanks were different species of fish and marine creatures.

Dr. Latricia Paradigm: He dares to say no to me? His Mentor? His Idol? Pitiful stupid loser. Doesn't he know that I always get what I want, one way or the other.

Dr. Latricia Paradigm also had an eye patch over her right eye. She was working on something really dangerous as she typed away on the computer.

Dr. Latricia Paradigm: Even without your permission I will show you something extraordinary. Mere child's play for the man who taught the world what DNA could do in the right hands: mine. A key strand from a swordfish and that of a lobster combined with mans own and it begins.

She pressed a bunch of buttons and the DNA from said species was spliced with human DNA.

She went over to two tanks. One has a huge lobster and the other had a swordfish.

Dr. Latricia Paradigm: Wake up. I have a surprise for you.

Dr. Latricia Paradigm then went to some DNA samples.

Dr. Latricia Paradigm: Lets see. Who shall it be? A Relentless conqueror, a ruthless leader. Ah. Genghis Khan. A Ruthless leader and a callous cold-blooded loner. A lawless pirate. Captain Blood.

Dr. Deborah Bolton: **I picked the lock and the door opened. But the alarm sounded.**

Dr. Latricia Paradigm: Oh. Dr. Bolton. What a surprise. This should be interesting. (Chuckles)

A machine picked up 5 tubes of DNA samples and placed them in a particle accelerator.

Dr. Latricia Paradigm: A little particle acceleration to break down the cells.

The machine added a liquid to one sample and shook it.

Dr. Latricia Paradigm: A dash of protovirus.

It was placed under a powerful microscope camera and the virus was recombining the DNA structure perfectly.

Dr. Latricia Paradigm: Recombining nicely. (Chuckles)

Dr. Deborah Bolton came in and she was shocked at what she found.

Dr. Latricia Paradigm: Don't just stand there. Come in.

Dr. Deborah Bolton: Paradigm, what have you done? This is outrageous. You're not gonna use my findings this way.

Dr. Deborah Bolton tried to stop her.

Dr. Latricia Paradigm: Oh please. At least I'm putting your research to good use.

Dr. Deborah Bolton: No you're not! I'm pulling the plug!

But Dr. Latricia Paradigm pushed her away.

Dr. Latricia Paradigm: The probability of that: zero.

The machines had injector syringes full of something over the tanks with the lobster and the swordfish.

Dr. Deborah Bolton: Stop Paradigm! You can't mess with nature! I won't allow it!

Dr. Latricia Paradigm: But Deborah, I'm improving on nature. Witness my triumph.

The machines then injected the DNA into the Swordfish and the Lobster.

Dr. Deborah Bolton: **I tried to escape so I could warn everyone about what Dr. Latricia Paradigm was doing but she cut off my escape and in the end she slammed me by injecting me with Beluga Whale DNA. It felt like I was being stabbed in the back with a red hot knife.**

Dr. Deborah Bolton then underwent a terrifying transformation. Her skin turned white and her upper body grew bigger as her shirt ripped apart and her hands turned into powerful fins and her teeth turned into razors. Her strength and power increased 100-fold and she smashed through the steel door and was out.

Dr. Deborah Bolton: Ever since that day I went into hiding until Jaime and my children found me and cured me.

FLASHBACK ENDS

Me: That is very coincidental. The same thing happened here but with Dr. Robert Bolton and his kids.

Stacy: Yeah.

Coup: We had to go through the same thing with our dad.

Bobby B.: J.D. and all of his friends helped out many others like us.

Dr. Deborah Bolton: And I am forever grateful to all of you for helping us.

Me: You're welcome Deborah. But we can't let the crimes of the Paradigm brothers go unpunished. But Jaime's dimension also merged with ours, then I have a very strong feeling that the Paradigm Sisters are gonna present a major problem for all of us.

Dr. Robert Bolton: And if that's the case then we need to be ready for anything.

Stacy: That's right.

Me: We found out that there are 2 more brothers of Dr. Paradigm here. One is Dr. Roland Paradigm and he specializes in Gene-Slamming with Land Animals.

Ophelia: That's right. I was spliced with Vampire Bat DNA.

Me: Vampire Bats are land animals because they spend most of their time on the ground to sleep during the daytime.

Syd: That's right.

Abigail Florence: And I was gene-slammed with Falcon DNA by Dr. Arthur Paradigm.

Me: He specializes in Air Animals. Stacy's suspicions were confirmed when we met Abigail and she told us about it.

Dr. Deborah Paradigm: So we have the 3 great forces of Land, Air and Sea.

Me: Yep. All of the Animal Kingdom is practically gonna go into war against the 2 remaining Paradigm Brothers when the time comes. These monsters are messing around with the laws of Mother Nature and they are really playing with intense fire.

Laney: Yeah. This is sheer insanity and we have to stop these monsters at all costs.

Me: Yeah. Jaime how did you find Dr. Deborah Bolton when you all went to kill Latricia Paradigm?

Jaime: That was not an easy task.

FLASHBACK 2

Jaime: (Narrating) **I had to use the satellites to find her. She was hiding in a cave in the middle of the mountains next to the Fission City we came from. When we found her, Team Loud Fairywind set out to help her.**

They were in a mountain and in a cave they found Dr. Deborah Bolton as Echoslam. She was crying hard.

Sean: Mom is that you?

Joan: Mom it's us.

Echoslam: Stay away! Don't hurt me.

Cammy: Mom it's all right.

Jaime: Dr. Deborah Bolton, it's all right. I'm Jaime Diana Knudson, leader of Team Loud Fairywind. We are going to make Dr. Latricia Paradigm pay for her crimes against the laws of Mother Nature.

Echoslam: So you are the famous Jaime Diana Knudson.

Jaime: That's right. I managed to cure your children and I gave them the ability to transform into their gene-slammer forms at will.

Echoslam: That's amazing. Oh my children. I'm sorry I ran away.

Joan: It's all right mom.

Jaime: I can give you the same thing.

Echoslam: You can?

Jaime: I sure can. But it's gonna be very painful. Boys you better cover your eyes.

Jaime snapped her fingers and the boys covered their eyes. Dr. Deborah Bolton went through her changes in reverse. When it was done she was half naked.

Deborah Bolton: I hope no boys see my topless chest!

Mario and Loni had their eyes covered and they gave her a robe. They also gave Dr. Deborah Bolton new clothes.

Jaime: **We did exactly the same thing you guys did in our dimension to Dr. Latricia Paradigm.**

FLASHBACK 2 ENDS

Me: Wow. I'm glad you guys helped her out.

Jaime: It's what we had to do.

Later, I went to check on Sakura Avalon. I had a bowl of chicken soup for her.

Me: Hey Sakura. How are you feeling?

Sakura Avalon: Still sick but I think I'm getting better.

Me: Well it takes a while for the virus to run its course. So all we can do is wait and apply medicine.

I gave her the chicken soup.

Lana took her temperature.

Lana: 101.6˚. It's going down but slowly.

Me: That's good. Lets give it 3 more days.

Sakura Avalon: Okay. Thanks for taking care of me.

Me: You're welcome Sakura.

Suddenly a dark shadow appeared outside and I went to the window. I sensed a Clow Card.

Me: I sense a Clow Card here.

I went to the window and I saw a black shadowy figure. It was the Shadow Card. 影 Shadow is a sombre figure, bearing a mysterious appearance in a black cloak and hood.

Me: It's the Shadow Card.

Lucy Loud: That looks like a Clow Card that's perfect for me.

Me: It sure would be a perfect one for you Lucy.

But then we saw a rather unusual sight. We saw 4 cute penguins fighting it and they were shining light on it.

Tori Hanson: Sakura, does light work against the Shadow card?

Sakura Avalon: It does. Why?

Tori Hanson: Because there's a group of Penguins fighting the Shadow Card right now.

Sakura Avalon: What?!

Tori Hanson: And one of them is using a flashlight against the Shadow Card!

Me: That's so weird. I'm gonna go seal it!

Skipper: Alright, Miss Shadow Lady. Talk! (slaps her) We can do this the easy way. Or we can do it Rico's way!

Rico barfed out a buzzsaw before chuckling evilly.

Me: (Offscreen) That won't be necessary.

I came outside and faced it.

Me: Lets see how it likes the light of a million suns. SOLAR FLARE!

I released a super blinding white light as bright as a million suns and it weakened the Shadow Card to an incredible degree.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and the Shadow Card was sucked into it and it turned into a Clow Card.

Me: That did it.

Skipper: Team Loud Phoenix Storm?! It's such an honor!

Private: Aw! Skipper's acting all humble.

Kowalski: (smirks while Rico snickers) There's something you don't see everyday.

Me: It's a pleasure to meet you guys.

Skipper: Same here. I'm Skipper - The Leader.

Private: I'm Private - the youngest and the Rookie.

Kowalski: I'm Kowalski - the Brains. And this is Rico - the Loose Cannon.

Me: Pleasure to meet you all. (Realizes something) Wait a second. I know you guys. You're from my favorite movie series Madagascar with Alex the Lion, Marty the Zebra, Melman the Giraffe and Gloria the Hippo.

Private: That's right.

Skipper: How did you guys know about that?

Me: There's a movie series about you guys. Lets go in so we can show you. It's one of our favorites.

We went inside and in the living room I showed the penguins the movie Madagascar and The Penguins of Madagascar.

Private: How do you like that? They did make movies about all of us.

Skipper: They sure did.

Then Maria, Cornelia, Megan and Lola came and they squealed with cuteness overload and they hugged the 4 penguins.

Maria: (Squealing) You guys are so cute!

Lola: I love penguins!

Megan: Oh you all are just so adorable!

Cornelia: You are so cute!

Me: Those are the Penguins of the Madagascar movies girls.

Cornelia: Oh my gosh! They are the Penguins from Madagascar.

Lola: So the Madagascar movies are real!? Awesome!

Me: Those movies were so funny.

Hound: You guys came all the here from the circus? That's amazing!

Skipper: It sure is Hound.

Me: And I remember you guys dealt with an evil psychopathic scientist octopus named Dave.

Lola: I remember him.

---

Dave was originally one of the top attractions of the Central Park Zoo, where he entertained visitors with his clever and funny tricks. However, when the Penguins arrived, they unknowingly stole all of the attention due to their cuteness. Dave was then kicked out and transferred to another zoo. The same thing happened again and again and again; penguins getting all the love while Dave was shunned, ignored and neglected.

As a result, Dave grew hateful towards penguins and plotted revenge against the entire species. He escaped captivity and disguised himself as a human professor called "Dr. Octavius Brine" in order to obtain the resources needed to build his criminal empire. He constructed a submarine lair, enlisted dozens of octopi as minions, and created a mutative chemical called the "Medusa Serum" which, when blasted in a ray, turns animals into physically and mentally disfigured monsters.

He then captured Skipper and his comrades by somehow predicting their infiltration of Fort Knox and then entrapping them in a vending machine full of Cheesy Dibbles. He then escorted them to his submarine stationed in Venice and introduced himself, hoping that they would recognize him (which they did not). After explaining his past and his plan, he orders his minions to cage them again, but they escape with a vial of Medusa Serum. He had his minions chase them but they were thwarted by North Wind, an animal organization dedicated to saving the penguins and stopping his plans.

At North Wind HQ, Dave hacks their communications (having trouble with the sound and picture) and reveals that he has concocted even more Medusa Serum. He then began kidnapping penguins from every zoo he has ever been in. The Penguins manage to intercept him, as he goes after the Shanghai Zoo penguins, but he prevails in taking them along with Private.

In his lair, he shows off his Medusa Serum to every penguin he captured by testing it on a cricket. It was then he discovers Private among the captured and thus anticipates an attempt rescue. The Penguins and North Wind begrudgingly work together to bring him in, but are then captured. He then prepares to demonstrate the serum on Private in front of the other three, but he manages to escape, making Dave believe he had been vaporized.

Later, in his human disguise, he announces to the world that he had found the lost penguins and is bringing them to New York. He then uses the ray on them to transform into hideous mutants, causing everyone to hate them and call exterminators on them. Then, after a moment of self-reflection, he prepares to go after other cute animals. But Private manages to reconnect to his mutated comrades and prepares to reverse the mutation by using the ray with himself as the power source. Dave and his Octopi try to stop them, but the North Wind destroys his submarine and Skipper uses the last Cheesy Dibble to press the remote, turning every penguin back to normal (at the cost of Private growing moose antlers).

As everyone celebrates their victory, Dave returns, seemingly transformed into a giant Kraken, but then realizes he had been shrunk and stuck inside a snow globe. He continues to swear vengeance when a little girl takes interest in him, making him feel the joy of acceptance he had longed craved for again. But then it turns out the girl was more interested in the snow and begins shaking him violently.

What has happened to him next is left unknown. One of his octopi might find him and return him to normal, he could have died from the little girl shaking too much, or the little girl could have stopped shaking the snow globe and Dave finally found the love and acceptance he wanted.

Dirt Boss: This Dave the Octopus guy sounds like bad news.

Me: He's the worst.

Syd: I remember seeing him. He was bad.

Syd told us about him.

Dirt Boss: Wow! That's terrible!

Me: Not only that but I remember that Dave has numerous Octopus minions all over his hideout.

Kowalski: I already drew up the plans for our attack.

Eddy: (looks over Kowalski's plan to infiltrating Dave's hideout) Ok. I like the plan. Except it sucks. So, let me make the plan with you. So that way, it'll be more perfect.

Me: Actually I already thought up a plan for this. But we can do both plans at the same time. Lets go!

We were off to Dave's hideout. It was located in Miami, Florida.

MIAMI, FLORIDA

We were in an underground cave under the city of Miami. We were in front of a security door.

Me: This is it.

Skipper: (I'm about to fire a blast to destroy Dave's security door) You're just gonna blow it open? Where's the art?

Me: Art?

Rico places a C4 on the door.

Skipper: It's always more creative to use c4.

Maria: We'll need more then one C4 explosive, though.

Skipper: Kowalski, how many C4 do we need?

Kowalski: No more than 20 ounces.

Mikey: What?! Dude, I hate the metric system! How much in English?!

Kowalski: Well let's see, uh… carry the seven…

Syd: Dude, screw math! Just use all of it!

We covered the whole door with C4 Explosives and there was about 20 pounds of C4 on it. I had a remote detonator.

Me: Ready guys?

Everyone: Ready.

Me: FIRE IN THE HOLE!

We were protected in a powerful force field and I pressed the red button on the remote and the C4 exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

When the smoke cleared, the door was completely destroyed.

Skipper and the penguins went in.

Dave: How nice to see you Penguins again.

Skipper: It's also gonna be the last time.

Dave: And why's that?

Skipper: Because it's ok for us to kill you now!

Dave: (amused) And you're just deciding this today?

Me: Because we gave them the okay.

We came in.

Dave: (Shocked) TEAM LOUD PHOENIX STORM!?

Me: That's right. And we've come to turn you and your minions into fried calamari.

Varie: You give all octopuses everywhere a really bad name.

Syd: That's right! And we won't stand for it you ink breath freak!

Ronnie Anne: You tell him Syd!

Tori Hanson: Lets do this! NINJA STORM! RANGER FORM! HA!

Tori Hanson transformed into her Water Ninja Ranger Form.

Tori Hanson: (Echoing) POWER OF WATER!

Me: Wow! Just like on TV. Lets get them!

We went at them.

Dave: Get them!

The Octopus Minions and Dave came at us and we went at them.

Spiderman: (avoids an octopi's tentacle) There seems to be something on your tentacle. Oh yeah. My fist! (punches the tentacle)

CRUNCH!

The Octopus screamed and Spiderman punched the octopus in the face all over the place.

Rhino: (grabs a tentacle) Nice try! But me and Herman spent a lot of time working alongside a guy with tentacles!

Edzilla: (punches Dave) ED SMASH DR. OCTOPUS!

Dave: Hey! I am much more superior then the deceased Otto Octavious!

Me: You are just a fucked up eight-armed freak!

Megan then transformed into her Dark Samus Suit.

Kowalski: Isn't that the Dark Samus suit?

Megan: It's the new and improved model. Me and Janeen actually ran into the real Dark Samus once.

Private: How did that go?

Megan: Let's just say that me and Janeen had some anger issues to work out with my predecessor.

Janeen: It's true Private. My mother was murdered by Dark Samus and I avenged her and saved my mother from Dark Samus.

Private: That's incredible!

Janeen: It is.

Janeen and Megan fired a powerful blast of lightning and Phazon at several Octopi and fried them.

I punched Dave in the face and he sent some tentacles at me and I bit them.

CRUNCH!

Dave: (Alarm Bells ring) YEEEEEOOOOOOWWWWW!

Nicole: Hey Nico. I'm gonna give you permission to use the monkeys that were killed during the first fight with Mojo Jojo.

Nico: Are you sure Nicole?

Nicole: You bet.

Nico: This is gonna be awesome! Hey Dave!

Dave looked at Nico.

Nico: Ever played Crack The Whip?

Nico formed a ball of dark energy and a massive whip appeared and turned into the Go-Go Patrol Monkeys appeared and they were linked together like a super long chain.

Go Go Patrol: (In Unison) Gang Way! Gang Way! For we, the Go-Go Patrol, as brothers in arms are linked to form a chain of command under master Nico and Lady Nicole that will reach out and smash all villainy.

Nico flailed them and they acted like a deadly and powerful whip and they slashed off all of the octopi tentacles.

Nicole: That was really clever Nico.

Me: It sure was. Nice job buddy.

Nico: Thanks. I think it will be awesome using the villains we imprisoned in the Book of Vile Darkness.

Laney: Very clever though.

Syd punched and bashed Dave all over the place.

POW BLAM BIFF CRACK BAM!

Syd: This is what you get for being a screwed up octopus!

Nico: You can use swear words Syd.

Syd: Sorry but my mom says that swearing is bad. So I have to respect her wishes.

Me: Oh. That's all right then.

Nico: Lets finish this clod off.

Me: You got it buddy. COMBO AND FINAL SMASH TIME!

Dirt Boss: You got it boss! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and his shoulder cannons popped out.

Shrapnel: Time for some action! CYBER KEY POWER!

The Animatron Cyber planet Key went into his back and it enhanced his electricity gathering powers 100-fold.

Dirt Boss and Shrapnel: DIRT DOG THUNDER SHOCK!

Dirt Boss fired a massive blast of energy from his shoulder cannons and Shrapnel fired a massive blast of lightning and the blasts combined and they hit Dave's minions and roasted and killed them.

Hound: Time for some pain. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his electromagnetic disruptor gun 100-fold.

Tori Hanson: I've always wanted to try this! EARTH CYBER KEY POWER!

The Earth Cyber planet Key went into Tori's Morpher and it enhanced her water abilities 100-fold.

Hound and Tori Hanson: HURRICANE MAELSTROM STRIKE!

Hound fired his electromagnetic disruptor gun and it fired lightning and Tori fired a massive blast of water from her hands and the blasts combined and turned into a raging hurricane sawblade that slashed all of Dave's minions and killed them.

Syd: I've never done a Final Smash before. Lets do it! ANIMAL SPIRIT STRIKEFORCE!

Syd fired a massive blast of energy and it turned into the Spirits of all the animals of the Animal Kingdom and they went at Dave and they hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Skipper: Lets do this! PENGUIN BASHFORCE SLAM!

Skipper went at Dave and slammed him all over the place with devastating force.

Skipper: Lets use a combo Final Smash!

Kowalski: Lets do it!

Skipper, Kowalski and Private: PENGUIN FIRESTORM BURST!

The Penguins fired a blast of powerful blue fire and it hit Dave and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM

Skipper: You know what, Dave? It's been a while since we've let Rico run wild. So we'll give him the honor of killing you!

Rico barfs out a chainsaw, revs it up, laughs maniacally, and jumps onto Dave while swinging the chainsaw around.

William: (disgusted) Our way would've been more pleasant.

We were grossed out.

Skipper: I figured that since we're killing irredeemable scumbags now, we'd let Rico go berserk on Dave. He's earned it.

Dave then appeared as a spirit.

Dave (as a spirit): It's amazing how easy it was for you Penguins to kill me. I wonder. Have you all been holding back this entire time?

Skipper: Honestly, yes. However, we know when not to hold back. Unfortunately for you, Rico's not even done yet.

Rico barfed up a rocket launcher and relentlessly launched rockets at Dave's spirit, making him scream in pain.

Maria: Think we should tell Skipper and Rico that they can't kill Dave when he's a spirit?

Nico: In 10 minutes. Let's let Rico have his fun for now.

Skipper: Guys?

Megan: Yes, Skipper?

Skipper: We can't kill Dave's spirit, can we?

Megan: No, you can't. Good try, though.

Random kid: Look, Mom. A ghost octopus!

Me: No kid. He's ours.

Nicole: Yep. (Chants an incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

Dave's spirit went into the Book of Vile Darkness.

Nico caught a Ducklett and a Reuniclus during the battle.

Me: Dave the psycho octopus you have failed this world.

Nico: Hey! That's my line!

Me: Sorry dude.

Skipper: (To the viewers) Never mess with penguins or Team Loud Phoenix Storm or you will regret it.

Me: You said it Skipper.

We went back home and it was a great time. We had octopus stew for dinner out of Dave and his minions.

THE END

---

Another Fanfiction Complete and another villain made into dinner.

Dave from Penguins of Madagascar was a ruthless monster! But the movie was so funny! I watched it earlier and it was so funny! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. Next is the movie Madagascar 3 and you guys are gonna love it!

See you all next time.

# A Bad Animal Control Officer

At the Jupiter Prison it was time for another Rant Session with the worst Babysitter in the world.

Nico: This is gonna be as fun as it always is.

Prisoner 1: You said it Nico. How are Susie and Alicia doing by the way?

Nico: They're recovering from the Necromorph Ordeal. But it'll be a while before they get over it.

Prisoner 1: I'm glad they're doing all right though.

Nico: Thank you. Lets get this show started.

Nico went up to Icky Vicky's cell and he took out some breath spray and sprayed his mouth.

Nico: (Clears throat) (Takes a deep breath) OUT OF ALL THE VILLAINS, YOU ARE BY FAR THE FUCKING WORSE! IT'S NO WONDER THE LEGION OF DOOM DIDN'T FUCKING RECRUIT YOU! EVEN THEY WOULDN'T DO THE SHIT THAT YOU'VE FUCKING DONE! ESPECIALLY NOT CAPTAIN COLD AND THE WRECKING CREW!

All the prisoners cheered for him!

Megan went over to Icky Vicky's cell and she kissed her full on the mouth!

SMOOCH!

Megan: (SPITS) Oh yuck! You taste like fucking raw sewage!

Nico: Maybe she thinks you're cute. You know what I'm saying? (Laughs)

Megan: (ANGRY) YOU THINK I'M FUCKING CUTE!?

Icky Vicky shook her head for no.

Megan: THAT'S IT!

Megan jumped her and pulverized the living shit out of her with extreme ferociousness.

Megan: I'LL GIVE YA CUTE! I'LL PULVERIZE THE FUCKING LIVING SHIT OUT OF YA! YOU FUCKED UP MOTHERFUCKING WHORE!

Everyone laughed hysterically as Megan pulverized her.

Nico: (LAUGHING HYSTERICALLY!)

Lincoln: (LAUGHING HYSTERICALLY)

Everyone was laughing really hard.

When they calmed down it was time for the penguins.

Skipper: We're gonna do an Acapella rant. But Rico can't talk because he's got something else planned.

Nico: This is gonna be good.

Skipper: (Singing) You're a fucked up…

Private: (Singing) You're a fucked up…

Kowalski: (Singing) You're a fucked up…

Skipper, Kowalski and Private: BITCH! You're a fucked up bitch and freak!

Everyone cheered for them.

Nico: Bravo! Bravo!

Lincoln: That was really good. Lets see what Rico is gonna do.

Nico: Okay.

Rico walked over to Icky Vicky and then he vomited out a bucket of rotten chum.

Nico: A Bucket of Chum?

Skipper: Watch.

Rico threw it into Icky Vicky's face and it exploded and it smelled so horrible and so awful that Icky Vicky hurled her guts out with megatsunami force.

Icky Vicky: (VOMITS EXPLOSIVELY 20 TIMES)

Nico: EEEWW!

Lincoln: Wow! What a powerful bad vomitstorm!

Everyone was laughing at Icky Vicky.

They rushed Icky Vicky to the prison Infirmary.

---

Back at the estate, we were watching TV and reading books.

Skipper: Meet the newest member of the Penguin team. Piplup!

Dawn (Pokemon): I hope that's not my Piplup.

Miss Martian: Of course not, Dawn. Your Piplup is over here.

Private: This is actually a Piplup that Skipper caught.

Me: That's cool guys. Skipper caught his first Pokemon.

Laney: He sure did. Looks like your Piplup has a new friend to play with Dawn.

Dawn: He sure does.

Me: That plan you made was genius Kowalski.

Kowalski: Whenever I make a plan, I'd like you all to make edits to them so there are no flaws.

Blizzard Man: We can do that.

Me: Okay.

Skipper: How would you all like to see our friends in the circus?

Barricade: We'd like that.

Kowalski: I approve of this idea, Skipper. But there's a 90% chance that something happened while we were gone.

Skipper: Relax, Kowalski. What could possibly have happened while we were gone from the circus for a week?

Me: Well Dave is dead and is now Calamari Stew still in our stomachs. What else is there?

Kowalski: Well there's the evil Animal Control Officer from France, Chantel Dubois. She was the worst.

Huffer: Are you kidding me?! Dave wasn't your only enemy?!

Skipper: Afraid not, my robot construction friend. But don't worry. Whenever one of them shows up, we'll tell you all about it.

Me: Let me see here.

I looked up the profile of Chantel DuBois on the computer and what it revealed was horrifying!

---

DuBois is the best animal control officer in Monaco with a perfect success record. She claims to have strangled her first parrot, flushed her first goldfish and punched her first snake when she was 7 years old.

DuBois first appears near the beginning being called by hotel security about the animals Alex, Marty, Melman, and Gloria. She and her henchmen pursue them in order to catch the animals, mainly Alex, to mount their heads on the wall as trophies. She sniffs for them in the same manner as a dog, and upon picking up Alex's scent, follows them in a long chase scene that ends when the animals try to escape on their plane. DuBois lassos Melman's neck, only for the rope to be cut by Alex, and she falls into the pool. As they fly away, she resurfaces, saying "Well-played, lion. Game on.".

She was later seen at the railroad that the animals were just at and uses her smell and a puddle of water to find out they have joined the circus heading for Rome and London and promptly jumps aboard the next train heading for the same place. She is briefly arrested in Rome but escapes by hiding in the bed while creating several other escape routes to trick the police. They jump down a hole they believe DuBois went down, and she cuts out from the bed, locks the police in the jail cell, and uses the computer to search up Alex and realizes his origins as a lion from Central Park Zoo.

She uses her singing voice to appeal to the patriotism of her henchmen (who had been injured during the chase at the beginning) and rouse them up, seemingly healing them instantly. They follow the animals once more, forcing them to retreat. She catches up to them with a paper of Alex, only to be catapulted away, though the circus animals see the paper and feel used and betrayed.

When the animals finally arrive at New York, DuBois finally intercepts them and tranquilizes them. The zoo staff thank her, incorrectly believing that she tried to return Alex. DuBois attends a celebration for Alex's return, concealing a poison dart inside a foam finger and almost fires it at him, but the circus animals, being alerted by King Julien, arrive and rescue him. As revenge, she tries to kill Stefano, but Alex and Gia perform "Trapeze Americano" to save him. After a long fight between the animals and DuBois and her henchmen, DuBois is tranquilized by Mort and her men are knocked out. She is last seen trapped in a crate by the penguins, being shipped to Madagascar with her henchmen. Whether she and her henchmen survive in Madagascar is completely unknown, but it's likely that the humans released them after being discovered in their boxes, and later returned to Monaco, but with a sad DuBois for not killing Alex.

Laney: This woman makes my blood boil!

Nico: No kidding!

Sakura Avalon: I would hate her too.

Madison Taylor: Same here.

Horsea (shivers in fear): I hope Dubois doesn't lock me up in a cage!

Carmen: Don't worry, Horsea. You're a part of me and Maria's family.

Maria: That's right. We won't let anything happen to you.

Me: Animal rights activists would really hate her guts to the core. And if they found out what she was doing, they would hunt her down, kill her and mount her head on a pike.

Vince: You got that right partner.

Rachel S.D.: I would hate her too.

Earth: She's a disgrace to all animal control officers everywhere.

Me: It says here that she works in Monaco, France.

Brittney: I know where that is. It's home to some of the most beautiful buildings and the food is amazing.

Laney: I know. It's where we stopped Dimitri Lesteau.

Lincoln: I remember that.

Me: Well lets see if we can find them. And I have a feeling something is going down in Monaco. Lets head out to France guys!

Everyone: YEAH!

Me: Are you feeling better Sakura?

Sakura Avalon: Yeah. I'm still recovering from my cold. But I'll be all right.

Me: Okay. TEAM LOUD PHOENIX STORM…

Jaime: AND TEAM LOUD FAIRYWIND…

Me and Jaime: LETS FLY!

We were off to Monaco, France.

---

MONACO, FRANCE

---

We arrived in Monaco, France. It was beautiful.

Me: Here we are guys.

Lincoln: Wow. It's just as amazing as I remember.

Laney: Me too.

Me: Not only that, but Monaco is not that far from Monte Carlo, one of the greatest casino cities in the world.

Lori: Monte Carlo is an amazing place. I've literally been thinking about wanting me and Bobby to go on our honeymoon there.

Me: You still have those tickets I won for you, Lincoln and your kids Lori.

Lori: That's true. I do remember that.

Madison: It's so amazing.

Me: Also Monte Carlo is also where some of the James Bond Films were done. James Bond has a powerful winning streak.

Sakura Avalon: That's amazing!

Lana: It sure is.

Kero: I would love to come here for vacation if we didn't have to seal the cards.

Me: We'll get that done at our own pace Kero. But I have a feeling that there's one back home.

Kero: You may be right.

Leni: Look over there guys!

We looked and we saw a destroyed Circus tent.

Skipper: (sees the destroyed circus tent) What the hell?! We were only gone for a week. What happened here?!

Madison Tayler: Probably something bad.

Me: Lets go check it out.

We went over to the tent and we saw that it was completely torn up and more.

Me: My gosh. What happened here?

Private saw something in an alley behind us. It popped out of a trash can and went at us. Skipper and crew hid.

Private: Skipper, look. There's Alex.

Alex the Lion: Skipper? It's just me. You and the others can come out.

They did.

Me: Alex the Lion.

Alex the Lion: WOW! Team Loud Phoenix Storm! It's such an honor to meet all of you.

Laney: You too Alex. Skipper and his team told us so much about you guys.

Alex the Lion: I'm glad you guys came.

Skipper: Alex, status report on what happened here!

Alex: DuBois' back! She and her men took everyone else, including the lemurs.

Me: Looks like we got here just in time.

Lana: No kidding.

Skipper: Commence Operation: Friend Rescue!

Me: Lets do it.

Our plan was a simple one. The Penguins will free the animals with explosives and when Chantel DuBois and her men chase them, they will chase them to us and our fight will begin. For her crimes against the Animal Kingdom we're going to send her to prison for eternity.

The Penguins went into the cages and they found Marty the Zebra, Melman the Giraffe, Gloria the Hippopotamus, King Julian XIII the Ring Tailed Lemur and his followers.

Skipper: Did you all really think that the 4 of us would abandon friends in need? (Rico blows open the cages of the others with bombs) Now to get out of here before the diversion stops working.

DuBois: (French Accent) Hey!

They turn to see Dubois.

DuBois: You Penguins should not be here.

Skipper: Really? We leave the circus for, what, like a whole week? And it all goes to shit.

DuBois: Please consider the consequences of your actions.

Skipper: Okay, they're considered.

Rico barfs up another bomb that explodes, creating a smokescreen that allows them to escape.

DuBois: Don't let them get away!

They followed them and they saw us ready to face them!

Me: Chantel DuBois.

Nico: Chantel DuBois, you have failed this city!

Me: In the name of Team Loud Phoenix Storm, you are under arrest.

DuBois: On what charges?

Me: Animal Cruelty, Attempted Terrorism and attempted murder. We can do these one of three ways. 1: You can come with us quietly. 2: We can fight and take you by force. Or 3: We can kill you and bury you in an unmarked grave. So what's it gonna be?

DuBois: How about I do number 3 on you!?

Me: Then it's number 2. Lets get them!

We went at DuBois and her men and it was a ferocious and brutal assault. I summoned the Sword Card and slashed a bunch of men all at once and killed them in an instant.

Lori was facing a man.

Lori: You literally disgust me!

Lori grabbed him and pulled him all over and tied him up in a painful pretzel knot! He was screaming in a tremendous amount of excruciating pain and more.

Huffer: Lets destroy these clods! Ready Miss Martian?

Miss Martian: You bet.

Huffer fired a powerful fusion torch blast and he incinerated a bunch of men.

Miss Martian fired powerful laser vision blasts and burned them all over.

Hunter: (German Accent) You all give all animal lovers a really bad name! Und you make me want to throw up.

Hunter fired a massive blast of fire and burned them.

Rachel S.D. fired a powerful sonic blast and blew their ears and heads off.

Earth threw powerful globs of molten lava and burned all their heads off. We then set our sights on Chantel DuBois.

Me: You are next DuBois.

Dubois fired a tranquilizer dart gun at me and I deflected all the darts with the Sword Card.

Me: Lets finish this! Combo and Final Smash Time!

Huffer: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his weapons and fusion torches 100-fold.

Miss Martian: Lets do this! MARS CYBER KEY POWER!

The Mars Cyber Planet Key appeared and it looked dark orange and the symbol on it was the symbol of the planet Mars in the middle of a flaming sun and it went into her right arm device and enhanced her powers 1,000-fold.

Huffer and Miss Martian: FUSION LASER FIRESTORM!

Huffer fired his fusion torch and Miss Martian fired a massive laser vision blast and the blasts combined and they hit DuBois and exploded.

Blizzard Man: Lets do this! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and enhanced his Blizzard Attack 100-fold.

Live Action Barricade: Lets get her! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his blade wheel to go at long ranges.

Blizzard Man and Live Action Barricade: ICESTORM SHURIKEN SHREDSTORM!

Blizzard Man fired a massive barrage of snowflake shuriken and Barricade threw his blade wheel and they slashed DuBois all over.

Madison: I've always wanted to try this out.

Me: It'll be your first Final Smash, Madison.

Madison: This is gonna be amazing! FIRESTORM PHANTOM GHOSTSTORM!

Madison fired a massive blast of fire and it formed into a scary barrage of ghosts with glowing red eyes and they spiraled around DuBois and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOMMM!

Alex the Lion: This is for all my friends! LION ROAR MASSACRE!

Alex the Lion roared with extreme ferociousness and it was so loud that it shattered DuBois's ears and made them bleed.

Me and Nico picked up DuBois. During the battle he caught a Sawsbuck and a Vanilluxe.

Me: You have a lot to answer for DuBois and you are a danger to everyone in the world and the animal kingdom.

At Arkham Asylum, Nico and William brought DuBois to her cell. She was found guilty of numerous counts of the crimes we arrested her for and she was sentenced to numerous life sentences in Arkham Asylum with no possibility of parole. And she gets to share a cell with Adrian Toomes A.K.A. Vulture and Quentin Beck A.K.A. Mysterio.

Dubois: No! Please! You can't lock me up with these sociopaths! They'll kill me!

William: (to Mysterio) Consider this and us sparing you a special treat for killing Paul for us.

Mysterio: And for that, I'm grateful.

Vulture: (smirks at a frightened Dubois) Don't worry. We'll take good care of this one.

Nico: Show no mercy.

They left and went back to Monaco. Her screams could be heard as they left. Chantel DuBois's crimes were brought to light and they were called the most senseless and most diabolical in the world. We had a good time over in Monaco. We went to the Monte Carlo Casino, the most famous casino in the world. We had Shoe with us and he had the ability to change luck with just his horns. When his horns are up, Good Luck happens. When his horns are down, bad luck happens. It was a really good time and we won a huge amount of money. It was amazing.

Alex the Lion: (To the viewers) These guys will protect everyone and make sure that nothing happens to us animals.

Me: You got that right Alex.

Alex the Lion: Skipper, I owe you an apology.

Skipper: For what?

Alex the Lion: When we were still at the zoo, I thought you, Private, Rico, and Kowalski were psychotic.

Skipper: And now?

Alex (smiles): I think you have a hero's heart.

Skipper: Thank you. But I can say the same thing to you as well.

Alex: Thanks Skipper.

We put Alex and his friends under our protection.

Later at the Gotham Royal York Art Museum, we were in Vanzilla

2.0 and we got word that there was a Clow Card there.

Laney: So there's a Clow Card at the museum?

Me: That's right. It's the Silent Card.

I handed Laney a pair of Binoculars and she saw the Silent Card in a painting. 静 Silent appears as a tall, slender woman with dark, blue eyes, wearing a long, blue-black dress and wrapped in dark cape with a high collar, indicating a mute state. She has long, straight, blue hair and a jewel with bat wings on her forehead. She is usually seen standing up with one finger raised to her lips.

Laney: So that woman is the Silent Card?

Me: Yep.

Sakura Avalon: I dealt with the Silent Card and she was a difficult card to capture.

Kero: Yeah. The Silent Card can't stand noise.

Me: It chose the museum because it's so quiet. And I remember that it removes the noise source with teleportation.

Kero: That's right. We had to find out that the hard way.

Me: Then if we're gonna capture this card, we're gonna need some kind of a strategy to pull this off.

Lincoln: How can we get to the Silent Card without making a single sound?

Me: Okay Sakura you dealt with this card before right?

Sakura Avalon: I sure did. It was a very tricky card to capture. And we couldn't get to it because of all the stuff in the way.

Me: This is gonna be tricky.

I was thinking hard. Then I got an idea.

Me: I have an idea. I'm gonna use the Shadow Card to help me capture the card from the outside. Lincoln, Laney, I'm gonna need a light source.

Lincoln: Got it.

Laney: Roger that.

Sakura Avalon: This is exactly how I caught it the first time.

Me: Deja vu.

Ben: Wait J.D.! I have a better idea. I'm gonna use Ghostfreak to get it out of that painting.

Me: Are you sure that's a good idea Ben? I mean after all the trouble Ghostfreak caused to you.

Ben: Don't worry J.D. This is a different Ghostfreak I have that agreed to be part of me. Brittney used her magic to get rid of the evil Ghostfreak and she sent it into the River of Fire.

Me: Good thinking. Okay. Proceed.

Ben: Got it.

Ben turned into Ghostfreak.

Ben: GHOSTFREAK!

Ghostfreak went invisible and went into the museum. He saw the Silent Card and went into the painting she was in and pulled her out and brought her outside.

Me: Way to go Ben! RETURN TO YOUR POWER CONFINED!

I held out my hand and the Silent Card was sucked into it and I got it.

Me: Yes!

Sakura Avalon: That was awesome!

Laney: That was really clever!

Lincoln: It sure was.

I signed my name on the Silent Card and we went back home.

THE END

Another Fanfiction complete, another villain brought to justice and another Clow Card caught.

The Madagascar movies were so awesome and so funny! I laughed at some of the awesome parts! They were awesome and funny! NicoChan11 gave me the ideas for this one. Thanks man as usual. The next Clow Card is the Storm Card and that one is gonna be tough. Let me know what you all think.

See you all next time.

# Into the World of Pirates

At the estate we were watching our favorite adventure movies: The Pirates Of The Caribbean.

Our first movie we watched was 2003's Pirates of The Caribbean: The Curse of The Black Pearl.

---

In the early 1700s, while sailing to Port Royal, Jamaica aboard HMS Dauntless, Governor Weatherby Swann, his daughter Elizabeth, Joshamee Gibbs, and Lieutenant James Norrington encounter a shipwreck and recover a boy, Will Turner. Elizabeth discovers a golden pirate medallion around his neck, and keeps it in order to protect him.

Eight years later, Norrington is promoted to commodore and proposes to Elizabeth. Her corset makes her faint and fall into the sea, which causes her medallion to emit a pulse. Captain Jack Sparrow comes to Port Royal to commandeer a ship, and rescues Elizabeth. Norrington identifies Jack as a pirate, and a chase ensues. Jack encounters Will, now a blacksmith and swordsman. They duel, and Jack is captured and imprisoned.

That night, the Black Pearl attacks Port Royal in search of the medallion. The crew of the Pearl capture Elizabeth, taking her to meet Captain Barbossa. Elizabeth claims her last name is Turner to conceal her identity as the governor's daughter. She learns that her medallion is one of 882 gold pieces that Barbossa's crew took from a treasure of Hernán Cortés on Isla de Muerta. An Aztec curse condemns them to become undead corpses under moonlight and with immortality but unable to enjoy anything, until they return all of the pieces and atone in blood, with the medallion being the final piece. Barbossa takes her prisoner, believing her to be the daughter of William "Bootstrap Bill" Turner, whose blood is needed to lift the curse.

Will frees Jack to rescue Elizabeth, whom Will loves. Jack, the original captain of the Black Pearl before Barbossa staged a mutiny, gets assistance from Will to reclaim his ship. The two commandeer HMS Interceptor, a small and very fast sloop-of-war, and head for Tortuga. There, Jack enlists Gibbs to help them put together a crew. At Isla de Muerta, Will and Jack witness Barbossa sacrificing Elizabeth's blood and the final gold piece. The curse is not lifted because Elizabeth does not carry the blood of Bootstrap Bill Turner. Bootstrap had been a crewmate of the Black Pearl before being thrown overboard by the crew for giving the medallion to Will. Will rescues Elizabeth and brings her to Interceptor, while Jack is captured by Barbossa and gets locked in the brig of the Pearl.

The Black Pearl pursues the Interceptor, taking Jack's crew hostage and destroying the ship. Will makes a deal with Barbossa to release Elizabeth in exchange for his blood, but Barbossa exploits a loophole in the agreement, marooning Jack and Elizabeth on a nearby island. Elizabeth makes a smoke signal, and Norrington brings HMS Dauntless, a ship of the line, to rescue Elizabeth and arrest Jack. Elizabeth asks Norrington to return for Will, convincing him by accepting Norrington's marriage proposal.

That night, the Dauntless arrives at Isla de Muerta. Jack plans to lure the pirates out to be ambushed by the crew of the Dauntless, but the plan goes awry when Barbossa's crew covertly walks underwater to surprise-attack the Dauntless from below. Elizabeth escapes the Dauntless and frees Jack's crew from the brig of the Black Pearl. They refuse to rescue Jack and Will, so Elizabeth sets out on her own while Jack's crew departs aboard the Pearl.

Jack frees Will and duels Barbossa, while Elizabeth and Will fight off Barbossa's crewmen Weatherby, Monk and Jacoby. Barbossa stabs Jack in the stomach, but the latter is revealed to be under the Aztec curse, having secretly taken a piece of gold from the chest of Cortés. Jack then shoots Barbossa, and Will drops both coins into the chest, with his and Jack's blood on them. The curse is lifted, causing Barbossa to die from Jack's gunshot; the rest of Barbossa's crew, realizing that they are no longer immortal, surrender and are arrested by the Royal Navy.

At Port Royal, Jack is led to the gallows to be hanged for piracy. Elizabeth diverts Norrington's attention and Will attempts a rescue, but Jack and Will are surrounded and held at gunpoint. Elizabeth intercedes and declares her love for Will, leaving Norrington crestfallen. Governor Swann pardons Will and gives his blessing for Elizabeth to marry him. Jack dives into the sea and escapes aboard the nearby Black Pearl, finally reclaiming the ship. Norrington permits Jack and the Pearl "one day's head start" before initiating pursuit.

Next we watched 2006's Pirates of The Caribbean 2: Dead Man's Chest.

---

The wedding of Will Turner and Elizabeth Swann is halted when Lord Cutler Beckett, chairman of the East India Trading Company, arrives with arrest warrants for them, and also for Commodore James Norrington, who allowed Captain Jack Sparrow to escape. Norrington has resigned and disappeared after losing the Navy's flagship, HMS Dauntless, in a hurricane while pursuing Jack. Meanwhile, Jack is visited by Will's father, Bootstrap Bill Turner, aboard the Black Pearl. Bootstrap is now a crewman on the Flying Dutchman, captained by Davy Jones. Jack previously bartered a deal with Jones to raise the Pearl from the depths; now Jack must join Jones' crew or be dragged to Davy Jones' Locker by the Kraken. Meanwhile, Beckett promises to free Elizabeth if Will brings him Jack's magic compass which points to whatever the holder wants most.

Will finds Jack and the crew on an island and frees them from cannibals. Shortly after, Governor Swann frees Elizabeth from jail, but he is then captured. Elizabeth bargains with Beckett to find the compass. Disguised as a cabin boy aboard a Scottish merchant vessel, she makes her way to Tortuga where she later finds Jack and also a drunken Norrington. After escaping the cannibals, Jack and the crew visit voodoo priestess Tia Dalma, who reveals Jones' weakness is his heart, which is locked within the Dead Man's Chest. Jack must find it and the key that opens it. Locating the Dutchman, Will makes a deal with Jack to find the key to the chest in return for Jack's compass. Jack tricks Will, who is shanghaied into service aboard the Dutchman. Jones agrees to release Jack from their bargain in exchange for one hundred souls. Will meets his father aboard the Dutchman and learns that Jones possesses the key to the chest. They play a game of Liar's Dice against Jones to try and win the key, but they lose. Despite this, Will escapes with the key and is taken aboard the same ship Elizabeth was on. Jones sends the Kraken after him, sinking the ship, but Will escapes.

In Tortuga, Jack hires a new crew, including Elizabeth and Norrington. With Elizabeth's use of Jack's compass, they are able to locate the chest. All parties arrive on Isla Cruces, where the chest is buried, but a three-way sword fight breaks out between Jack, Will, and Norrington, who all want the heart for their respective goals: Jack wants to call off the Kraken; Will wants to rescue his father; and Norrington wants to regain his life as a Navy officer. In the chaos, Norrington secretly steals the heart and runs off, pretending to lure away the Dutchman's crew. Jones attacks the Pearl with the Kraken, which kills most of the crew and destroys all but one of the Pearl's lifeboats, but Jack, who briefly flees the battle, returns and wounds the Kraken with a net full of gunpowder and rum.

Jack orders the survivors to abandon ship, but Elizabeth, realizing the Kraken only wants Jack, tricks him and chains him to the mast so that the crew can escape. The Kraken drags Jack and the Pearl to Davy Jones' Locker. Jones opens the chest to discover his heart is gone. In Port Royal, Norrington gives Beckett the heart and the Letters of Marque meant for Jack, allowing him back into the navy as well as allowing Beckett to gain control of Davy Jones and the seas. The Pearl's crew take shelter with Tia Dalma, where they all agree to rescue Jack. Tia Dalma introduces the captain who will guide them: the resurrected Hector Barbossa.

Next we watched 2007's Pirates of The Caribbean 3: At World's End.

---

In order to control the oceans, Lord Cutler Beckett executes anyone associated with piracy in Port Royal by ordering Davy Jones to destroy all pirate ships in the seas. Condemned prisoners sing "Hoist the Colours" to compel the nine Pirate Lords to convene at Shipwreck Cove to hold the Brethren Court. Because Captain Jack Sparrow, Pirate Lord of the Caribbean Sea, never named a successor before being dragged to Davy Jones locker, Captain Barbossa, Will Turner, Elizabeth Swann, Tia Dalma, and the crew of the Black Pearl plot to rescue Jack. Traveling to Singapore, the crew meet Captain Sao Feng (Pirate Lord of the South China Sea), who owns navigational charts to the Locker. Beckett's soldiers invade, but the crew escape. Will secretly promises to give Jack to Feng in return for the Pearl, which he will use to rescue his father Bootstrap Bill Turner from the Flying Dutchman.

The crew travels to the Locker and rescues Jack. The crew encounters many dead souls, including Elizabeth's father Governor Swann, who was executed by Beckett. Tia Dalma reveals that the Goddess Calypso charged Davy Jones with the job to guide the souls of those who died at sea to the next world. Once every ten years he could come ashore to be with the woman he loved. But he corrupted his purpose and was cursed to become a monster. The soul of Governor Swann reveals that the Dutchman must always have a captain.

Returning to the living world, the Pearl stops at an island for fresh water, where the crew find the Kraken lying dead on the beach, having been killed by Jones under orders from Beckett. They are then attacked by Sao Feng and Beckett's men. Through a complex series of deals, Elizabeth is handed over to Feng, who believes she is the goddess Calypso, while the rest of the crew make for Shipwreck Cove aboard the Pearl. Jack throws Will off the ship as part of the plan to seize control of the Dutchman. Sao Feng tells Elizabeth that the first Brethren Court bound Calypso in human form after she betrayed her lover, Davy Jones. He plans to release her to defeat Beckett. Davy Jones attacks Feng's ship, the Empress, mortally wounding Feng in the process. Feng appoints Elizabeth his successor as Pirate Lord before dying. Elizabeth and the crew are locked in the brig of the Dutchman, where she finds a partially insane Bootstrap Bill Turner. In a moment of clarity, Bootstrap reveals that whoever kills Davy Jones must take his place, bound to serve the Dutchman forever. He reiterates that "the Dutchman must always have a captain." Admiral Norrington frees Elizabeth and her new crew from the Dutchman, but is killed by Bootstrap Bill.

The Black Pearl arrives at Shipwreck Cove, where Barbossa attempts to persuade the Brethren Court to release Calypso. Davy Jones visits Tia Dalma in the Pearl's brig, revealing she is Calypso. Jack's father Captain Teague, Keeper of the Pirate Code, informs the Court that only an elected Pirate King can decide on going into battle. A vote is taken. To avoid a stalemate, Jack casts his vote for Elizabeth, making her King.

The Brethren Court and Beckett's fleets emerge for war. On a sandbank, Elizabeth, Jack, Barbossa, Beckett, Jones, and Will parley, trading Will for Jack. Barbossa steals Jack's piece of eight, all of which are owned by the Pirate Lords and required to free Calypso. Barbossa frees Calypso, but when Will reveals it was Jones who betrayed her and made it possible for the first Court to imprison her, Calypso vanishes and summons an enormous maelstrom.

The Pearl and the Dutchman battle in the maelstrom. Elizabeth and Will are wed by Barbossa. On board the Dutchman, Jones and Jack engage in a duel for control of Davy Jones' heart. Jones stabs Will, mortally wounding him. Jack gives up his chance for immortality and instead helps Will stab the heart, killing Jones, whose body falls into the maelstrom. Jack and Elizabeth escape the Dutchman as it is sucked into the maelstrom.

As Beckett's ship, the Endeavour, approaches to destroy the Pearl, the Dutchman rises from the sea, now captained by Will; the crew has been freed from Jones' curse. Together, the two pirate ships destroy the Endeavour. A stunned Beckett goes down with his ship while his navy retreats. With Will now forever bound to escort souls lost at sea to the next world, he and Elizabeth bid farewell to each other on the beach of an abandoned island. Will departs on the Dutchman, leaving Elizabeth pregnant and with the chest containing his heart.

Jack and Joshamee Gibbs discover Barbossa has stolen the Black Pearl again, but Jack planned ahead and stole Sao Feng's navigational charts. He departs from Tortuga alone to track down the mythical Fountain of Youth.

---

Next we watched 2011's Pirates of The Caribbean 4: On Stranger Tides.

---

After a failed attempt to rescue his first mate, Joshamee Gibbs, in London, Captain Jack Sparrow is brought before King George II. The king wants Jack to guide an expedition to the Fountain of Youth before King Ferdinand and the Spanish Navy can locate it. Jack's old nemesis, Captain Hector Barbossa, now a privateer in service to the British Navy after losing his leg and ship, the Black Pearl, which he says was sunk, is heading the expedition.

Jack refuses the offer and escapes. He meets up with his father, Captain Teague, who warns Jack about the Fountain's rituals. Jack learns someone is impersonating him to recruit a crew to find the Fountain. The impostor is Angelica, Jack's former lover, and the daughter of the ruthless pirate Blackbeard, who practices voodoo magic and wields the mythical "Sword of Triton" that controls his ship, the Queen Anne's Revenge. While Jack is shanghaied aboard Blackbeard's ship, Gibbs escapes execution by memorizing and destroying Jack's map showing the Fountain's location, forcing Barbossa to take him along.

Meanwhile, after a failed mutiny aboard the Queen Anne's Revenge, Jack is forced to guide the crew to the Fountain. Blackbeard seeks the Fountain's power to circumvent his predestined fatal encounter with a "one-legged man", who happened to be Barbossa. Jack must find two silver chalices aboard Juan Ponce de León's missing flagship, the Santiago. The Fountain's water must simultaneously be drunk by two people from the chalices. Drinking from one chalice containing a mermaid's tear will extend life; the second person dies, their remaining years of life transferred to the other drinker. Jack also discovers that the Black Pearl was captured and shrunk before being added to Blackbeard's collection of other shrunken ships in bottles.

The Queen Anne's Revenge heads for Whitecap Bay to find and harvest mermaid tears. After managing to lure in a mermaid named Tamara, she summons other mermaids to attack the crew before Jack causes an explosion that scares them away. A mermaid named Syrena is caught, but Philip Swift, a captive missionary, falls in love with her. Reaching Ponce de León's ship on an uncharted island, Angelica and Blackbeard coerce Jack into retrieving both chalices. Jack locates the grounded, decaying vessel, only to find Barbossa there. Both guess that the Spanish have taken the chalices, after they are nowhere to be found on the vessel.

Jack and Barbossa team up to sneak into the Spanish camp and steal the chalices. Barbossa reveals he only wants revenge against Blackbeard for attacking the Black Pearl, and his leg being amputated. Jack and Barbossa escape with the chalices. Meanwhile, Syrena, reciprocating Philip's love, is tricked into shedding a tear. Blackbeard collects it, leaving her to die of dehydration while Philip is forced to go with them. Jack returns with the chalices and bargains with Blackbeard for Angelica's safety, Jack's confiscated magical compass (which they took from him before sending him to get the chalices), and Gibbs' release. In return, Jack vows to give Blackbeard the chalices and lead him to the Fountain; Blackbeard agrees, and Gibbs is set free with the compass.

At the Fountain, Blackbeard's crew is confronted by Barbossa and his men and they battle while Barbossa and Blackbeard fight. The Spanish suddenly arrive, intending to destroy the Fountain, believing its power an abomination against God. They crush the chalices and throw them in the swamp. When Barbossa stabs Blackbeard with a poisoned sword, Angelica pulls it out but is cut and poisoned. Jack notices Angelica is poisoned and begins frantically searching the swamp for the chalices. Barbossa obtains Blackbeard's magic sword and gains control of the Queen Anne's Revenge and her crew. Despite resistance from Blackbeard's crew, the Spanish successfully pull down a pillar, crushing the Fountain of Youth. The Spanish army leaves once the fountain is in ruins. Philip is mortally wounded, but he returns to free Syrena. She helps Jack retrieve the missing chalices and gives them to him, telling him not to waste her tear. Syrena goes back to the dying Philip. She says she can save him if he asks her to. When he asks for her forgiveness, she kisses him and takes him underwater.

With Blackbeard and Angelica both nearing death, Jack retrieves the last remaining drops of water from the destroyed fountain and puts the tear in one of them. Knowing that one of them must be sacrificed, he wants Angelica to drink from the chalice containing the tear. Instead, Blackbeard drinks it, asking his daughter to save him. Angelica agrees and drinks from the second chalice. Jack is upset to lose Angelica, but reveals that he made a mistake about which chalice contained the tear. Neither of the two are happy, and they both believe Jack deliberately tricked them. Angelica's wounds are healed as the Fountain fatally consumes Blackbeard's body, killing him.

Eventually, Jack and Angelica admit their love for each other, yet he distrusts her intentions (aware that she may try to avenge her father) and strands her on a cay. Now wielding Blackbeard's magical sword, Barbossa captains the Queen Anne's Revenge and returns to piracy. Jack finds Gibbs, who had used the compass to locate the Revenge. He reclaims the shrunken Black Pearl and the other conquered ships in bottles, carrying them in a gunny sack. The two leave, hoping to revert the Black Pearl to its original size and continue living the pirates' life.

In a post-credits scene, a voodoo doll of Jack crafted by Blackbeard washes ashore and is found by Angelica, who then smiles.

And lastly we watched 2017's Pirates of The Caribbean 5: Dead Men Tell No Tales.

---

Thirteen years after the events of At World's End, twelve-year-old Henry Turner boards the Flying Dutchman and informs his father, Will Turner, that the curse which binds Will to the Dutchman and only permits him to step on land once a decade can be broken by the Trident of Poseidon. Henry intends to recruit Captain Jack Sparrow to help find it, but Will believes this is impossible and orders

Henry to leave. Will and the Dutchman then disappear into the sea, but Henry vows to find Jack and the Trident.

Nine years later, Henry is a sailor in the British Royal Navy. The ship sails into the supernatural Devil's Triangle and stumbles upon the wreck of the Silent Mary, whose ghostly crew led by Spanish pirate-hunter Captain Armando Salazar attack. Salazar spares Henry's life to deliver a message to Jack: Salazar is coming for him.

In Saint Martin, a young astronomer and horologist named Carina Smyth is sentenced to death for witchcraft but escapes and briefly crosses paths with Jack as he and his crew spectacularly blunder a bank robbery. Having suffered years of such bad luck, Jack's crew lose faith and abandon him. Depressed, Jack trades his magical compass for a drink. However, this betrayal of the compass frees Salazar and his crew from the Devil's Triangle. Carina learns Henry is looking for the Trident's location and offers to help him using her unknown father's diary. Carina and Jack are captured and face execution, but are saved by Henry and Jack's crew, setting sail on the Dying Gull. Carina deciphers clues that the stars will lead to an island where the Trident is hidden.

Meanwhile, Captain Barbossa hears from his pirate crew that the revived Captain Salazar has killed several pirates at sea, and learns that the Trident could lead him to a new "treasure". Barbossa sets off to find the Trident until Salazar and his crew appear and destroy Barbossa's fleet. Barbossa manages to talk his way out of being killed by offering to help find Jack. Salazar agrees, wanting revenge on the pirate that caused his demise. Salazar pursues the Dying Gull, forcing Jack, Henry, and Carina to flee to an island, discovering that Salazar's crew cannot go on land. After saving Jack from a forced marriage, Barbossa allies himself with Jack, returning his compass and restoring the miniaturized Black Pearl, trapped in a bottle by Blackbeard, to its original size. They all continue their journey to the Trident's island, with Barbossa taking command of the Pearl once more. During the voyage, Jack and Barbossa realize Carina is the latter's long-lost daughter. Barbossa tells Jack that he had left her at an orphanage with his diary so she could live a better life, and refuses to tell her the truth so she will continue to believe her father was an astronomer.

Approaching the Trident's island, the Pearl evades a British Navy warship, which is destroyed by the Silent Mary before the Pearl runs aground on the island. Jack, Barbossa, and Carina use the island's magic to part the ocean and open a path to the Trident's location on the ocean floor. Salazar captures Henry and possesses him in order to walk on the ocean floor and seize the Trident. Once he does so, Henry is given his body back, and Jack distracts Salazar, allowing Henry to destroy the Trident, breaking all curses upon the sea and restoring Salazar's crew to life. However, the divided sea begins to collapse in on itself. The Pearl lowers its anchor to lift them to safety, but Salazar pursues them, still hell-bent on killing Jack. Carina realizes that Barbossa is her father when she spots a tattoo on his arm identical to the diary's cover. Barbossa sacrifices himself to kill Salazar, allowing the others to escape alive.

Sometime later, Henry and Carina reach Port Royal, where Will appears, free from the Dutchman. His wife, Elizabeth, appears moments later and the Turner family reunites. Henry and Carina begin a relationship as well. Jack watches from the Pearl in faux-disgust before sailing away into the horizon, having been accepted by his crew as their captain once again.

In a post-credits scene, Will and Elizabeth sleep in their bed together, when their room is intruded by Davy Jones. Just as Jones raises his claw to attack them, Will awakens and finds that the room is empty. Assuming Jones' appearance to be a nightmare, Will goes back to sleep, oblivious to the presence of a trace of wet barnacles on the floor.

When it was done we cheered wildly. We had watched over 12 hours of movies in 1 day. It was a huge movie marathon.

I was wearing a fiery pirate bandana.

Me: I love Jack Sparrow. He's so awesome!

Lola: He sure is. He's so funny and he's the greatest pirate ever!

Laney: I love how he fights all the bad guys. He's so awesome!

Lori: He literally is.

Leni: I totes love his clothes.

Luna: They are rockin' dudes!

Luan: He sure has a Swashbucklin good time! (Laughs to rimshot) Get it?

We laughed at Luan's Joke.

Me: (Laughs) That was a good one Luan!

Eddy: (Laughs) That was a funny joke.

Me: Yep.

Ember McLean: I remember that I was a pirate under the employ of Youngblood.

Danny: I remember that.

Nico: Pirates are so awesome. My favorite is the 4th movie.

Me: Mine too. The 4th movie is where we got the idea for Varie's costume back in 2016.

Varie: Yep.

Lana: I remember that. That was awesome!

Laney: That was the most amazing look for Halloween.

Nico: I'll have to see it later on.

Vince: I remember that. That was so cool.

Sakura Avalon: I'll have to see it too.

Carol: I remember Lori told me about that.

Me: Sora, you met Jack Sparrow before right?

Sora: We sure did. It was during the 1st Pirates of The Caribbean Movie. And something has me stumped. One sec.

Sora recapped some of Hector Barbossa's moments in the movies.

Sora: (watching Barbossa's good guy moments in the movies) I can't believe it. Barbossa turned from a villain into an actual hero.

Blade Man: You sound disappointed.

Sora: I'm not. I'm just shocked that he redeemed himself.

Me: We were surprised too Sora. But what really infuriated me was Davey Jones. He's the worst pirate of them all and he makes Captain Blackbeard look like a joke.

Nico: No kidding.

Sora: Oh I forgot to tell you guys. I'm the captain of my own ship.

We gasped.

Me: Wow! Sora that's amazing!

Laney: This is gonna be so awesome!

Me: We should have our own ship too guys. Shall we get building?

Everyone: YEAH!

We got to work on building our ship and it was gonna be an awesome science-fiction style solar sailed ship. Utilizing ship blueprints we acquired from the planet Montressor during the events of Stellar Babysitting, we made an awesome ship that was equipped with all kinds of awesome weapons and an awesome storage for holding a lot of treasure. When it was done our ship was ready. (Think of the awesome ship that was raided at the prologue of Treasure Planet)

Nico also caught a Emolga and Escavilier.

Me: Our ship is ready!

Lincoln: This ship… Is! AWESOME!

Gali: This is a very impressive ship.

Lori: How did you come up with the plans for this?

Nicole: We got it from the planet Montressor during my Babysitting adventure.

Bai Tza: That is so amazing Nicole!

Nico: What shall we call the ship?

Me: Hmm. How about the Phoenix Maelstrom?

Naruto: That's a great name!

Laney: I like it!

Everyone agreed.

Me: Okay!

I pulled out a bottle of Champagne.

Me: I hereby christen this ship as the T.L.P.S. Phoenix Maelstrom.

I smashed the bottle against the ship and it was ready to set sail!

Everyone cheered.

Me: Shall we set sail?

Everyone: YEAH!

Me: Lets set sail me mateys!

We got on board the ship and a portal into the world of Pirates of The Caribbean opened up and the ship went through it and the Solar Sails were energized and we were sailing the seas. Then Sora, Donald and Goofy sailed alongside us with his own ship: The Leviathan.

Sora: Ahoy there!

Me: Captain Sora! Ahoy there!

Sora: That ship is so awesome!

Donald: Yeah!

Kairi: That ship is amazing!

Me: Thanks guys.

Laney: Captain J.D.! Black Pearl off the port bow!

We see the mentioned ship.

Me: Black Pearl ahoy!

We chased the ship and Jack Sparrow saw both of us.

Me: Ahoy Jack Sparrow!

Sora: Ahoy there!

Jack: Hail, Sora and company.

Sora: Jack! Long time no see.

Jack: It's Captain Jack Sparrow.

Bai Tza: We'll continue this reunion later. Right now, we have a ship to catch! (Heartless appear) And these Heartless aren't making things any easier!

Jack: Ah. Just like the good old days. (kills a Heartless with pistol and his aura flares up) Odd. Don't remember that happening when a Heartless got killed.

Me: It's part of our power. We get stronger by absorbing Negative Energy whenever we kill Heartless. Lets blast these Heartless apart and then we'll talk.

We fired our plasma energy cannons and blew the ships apart.

I activated a lift feature on our ship and it lifted up both ships on both the starboard and port sides and placed them to both sides.

Jack and his crew came on board.

Me: Captain Jack Sparrow it's such an honor to meet you.

Jack: You too lad. We heard so much about Team Loud Phoenix Storm lad.

Me: Thank you.

We also met Will Turner and Elizabeth Swann.

Jack: Mr. Gibbs. I expect you to be accountable for your actions?

Gibbs: Sir?

Jack: There's been a perpetual and virulent lack of discipline aboard my vessel. Why is that?

Gibbs: Sir, you're… you're in Davy Jones Locker.

Jack: What? Um… of course. I knew that. I know where I am. I'm in Davy Jones Locker. Assuredly.

Barbossa: Jack Sparrow. (to Sora) If it isn't the Keyblade Master.

Sora: Listen to me very carefully, Barbossa. You help us against Jones, you get pardoned for your crimes. You screw around with us for even one second and you go back to Hell.

Barbossa: Relax. I've been given a second chance at life. I don't plan to waste it.

Will: Sora, everyone. We meet again.

Donald: Will, Elizabeth! Great to see you two again!

Elizabeth: Lovely to see you all again as well.

Cybertron Scourge: I see you've decide to go for a more piratey look, Elizabeth.

Elizabeth: I've… seen my share of adventures. We never thought we'd find you here, though.

Leobreaker: Yeah, in Davy Jones locker of all places.

Kairi: How did Jack end up here?

Tia Dalma (approaches us): Perhaps I can explain.

Eddy: Who's the creepy chick?

Jack: That would be Tia Dalma. She adds a certain sense of macabre to any delirium.

Carmen: Is it just me, or is Jack not in his right mind?

Will: He thinks we're hallucinations.

Jack: Yep. Well, some of you, anyway.

Shego: Is he… normally like this?

Goofy: Maybe a little.

Elizabeth: Jack, this is real, we've come to rescue you.

Jack: Fine job you're doing of it.

Will: We need you, Jack. Cutler Beckett has the heart of Davy Jones, he controls the Flying Dutchman.

Tia Dalma And he must be stopped. The Brethren Court is called.

Iron Man: Brethren Court?

Flash: Looks like shit just got real.

Goofy: It sounds to me like this Beckett fella they're talking about is trying to conquer the ocean.

Luna: NO WAY, DUDE! The ocean belongs to everyone!

Sora: Yeah, no conquerors!

Barbossa: The world needs you back something fierce, Jack.

Will: And you need a crew.

Jack: Why should I sail with any of you? Four of you tried to annihilate me. The only people that I can rely on now is Sora and his pals.

Hunter Bradley: Look, we just got here. But right now, you guys need to put aside your differences. Whatever issues all of you have, put them aside and help us stop Davey Jones and Lord Beckett.

Me: Hunter is right. We have to kill Davey Jones and Lord Beckett or they will continue to cause trouble. But lets not forget that Davey Jones is a nightmare from the Darkness of Hell in its entirety.

---

Davy Jones is the captain of the Flying Dutchman (based on the feared ghost ship of the same name featured in nautical lore), and roams the seas in search of souls to serve upon his vessel for a century. He was previously the lover of Calypso, a "heathen goddess" from which a bad relationship turned him antagonistic. Jones is the legend behind the fictitious Dead Man's Chest, a major aspect of the second film.

Davy Jones doesn't appear in the first film The Curse of The Black Pearl, but he is mentioned by Will Turner when he says "Or I will pull this trigger and go down to Davy Jones' Locker!" and we can assume from this line that the feared pirate was currently killing and enslaving numerous pirates even at this time. Knowing that Captain Jack Sparrow knew of Davy Jones from his childhood, this is most probable.

Davy Jones first appears in the second film Dead Man's Chest, where he attempts to collect on his bargain with Jack Sparrow. Sparrow argues that he was only captain for two years before one of his crew members Hector Barbossa committed mutiny, but Jones rejects this explanation. Sparrow then attempts to escape the deal by providing Will Turner as a substitute for himself (the true plan of Sparrow was tricking Davy Jones for killing him and later free Will).

Jack strikes a new "deal" with Jones; Jack will be spared enslavement on the Dutchman if he brings Jones one hundred souls to replace his own within the next three days. Jones accepts, removes the black spot from Jack's hand, and retains Will, keeping him as a "good faith payment" but will free him if Sparrow gives to him one hundred souls.

While on the Dutchman, Will challenges Jones at a game of Liar's Dice. They wager Will's soul for an eternity of service against the key to the Dead Man's Chest. Bootstrap Bill joins the game and purposefully loses to save Will. During the game, Will learns where Jones keeps the key. The next morning, Jones realizes the key is gone and summons the Kraken to destroy the ship carrying Turner, who actually survives. The Dutchman then sails to Isla Cruces to stop Sparrow from getting the Chest.

Arriving, Jones sends his crew to retrieve the Chest; they return to him with it. The Dutchman then chases after the Black Pearl, but is outrun. Jones summons the Kraken, which drags Jack Sparrow and the Pearl to Davy Jones's Locker. He afterwards opens the Chest only to find his heart missing; Despite the fact that Sparrow was supposedly dead, Jones felt a summons from his heart and set sail for the source of the summons, Port Royal. Upon arriving, he found the very man who had inadvertently spawned Sparrow's debt with Jones, Lord Cutler Beckett of the East India Trading Company. Beckett had Jones' heart, presented to him by a former member of Jack Sparrow's crew, James Norrington. Jones took off his hat in respect for his new master.

In the third film, At World's End, Jones became Beckett's servant, since he possessed the heart and could destroy it and kill Jones if he didn't obey his orders. Eventually he and his crew fought alongside the East India Trading Company against Will, Elizabeth, Barbossa, Gibbs, and other pirates in Jack's crew as the Black Pearl and Flying Dutchman faced off at a maelstrom created by Calypso. During which, Jones dueled Jack, who eventually unlocked the Dead Man's Chest and threatened to stab Jones's heart with his broken sword (earlier snapped in two by Jones with his claw). He stabbed Will in the heart with his sword, twisting the blade. After seeing this, Bootstrap, previously driven insane from his imprisonment in the wall of the ship, returned to his senses and tackled Jones for what he had done to his son. However Davy quickly overpowered Bootstrap. Before Jones could stab Bootstrap, Jack helped a dying Will stab the heart and Jones fell to his death into the maelstrom. As he fell, he whispered his final word: "Calypso". After years of sailing the sea spreading terror, Davy Jones was finally defeated and rejoined with Calypso. Bootstrap was able to bring Will back to life so Cutler would later be destroyed along with Jones.

In the post-credits scene of the fifth film Dead Man Tell No Tales, Will and Elizabeth are sleeping in their bed together when suddenly there are footsteps outside their bedroom door. The person making the footsteps slowly creaks the door open and walks into the room. His silhouette reveals that it is Jones, still in his cursed form, back from the dead. Will awakens to see Jones raise his claw, ready for an attack. Suddenly Will wakes up then assumes that he was simply dreaming, and goes back to sleep. However the camera then pans to the floor, revealing a puddle of water and barnacles, revealing that Jones has returned from the grave and will appear in the 6th film of the franchise. It is unknown how this happened, but it probably happened when Jack destroyed the Trident of Poseidon in the film in order to defeat an undead ghost captain named Armando Salazar. It's possible that even if Davy Jones is still trapped in his cursed form, he is now able to walk on land and might be more dangerous now than ever.

---

Laney: Davey Jones is the ultimate personification of pure evil.

Lana: And we have to kill him at all costs.

Tia Dalma: If Jones learn that Witty Jack escaped his fate, him wanna punish Jack even worse. And Jack's friends too.

Karai: Do you know of a way that might help Jack Sparrow?

Ben: Well, I'm not afraid of some undead pirate with a giant octopus.

Tia Dalma: Not scared? That be rare. Most men, they run for land at the mention of the Kraken. Jack be scared, him want to be free of him debt.

Me: Now's not the time to criticize Jack. We have to work together and bring both Davey Jones and Lord Beckett down.

Bowser Jr.: (attaches something to Barbossa's leg) Now, if he even looks at you funny, this shock garter will set him straight. And don't try taking it off because it's taped to your leg hair.

Sideshow Bob: And that really hurts. Trust me. I've worn it before.

Me: That's really clever B.J.

Bowser Jr.: Thanks J.D.

Barbossa: Oh, come now. As gentlemen, surely we can just agree to (gets shocked) Dear God!

Me: Hey it works!

Elizabeth: (holding the remote) Sorry. My hand slipped.

Barbossa: Fair enough. But now that we know what it can do, there's no need to (gets shocked again) Damn it all!

Ed: Wow. You don't even have to point it at him.

Lynn: Incoming flying Heartless!

We saw them.

Me: It's a Raging Vulture!

Me and Nico and Lola fired blasts of fire and energy and blasted them all and killed them. We got a massive power boost as a result.

Me: That did it.

Elizabeth: What happened? I feel more powerful than ever before.

We landed.

Me: It's part of what happens when you're with us. Whenever we destroy Heartless, we get stronger because of Negative Energy. It makes us more powerful.

Will Turner: I like it.

Me: Lets get moving.

We set sail and we were sailing the ocean of the Caribbean Sea. It was a treacherous area.

But then we saw a massive Angler Fish Heartless breach out of the water and it was a Lightning Angler.

Maria: Are you kidding me? An underwater Heartless?!

Me: It's a Lightning Angler! Sora, you dealt with underwater Heartless before right?

Sora: We sure have.

Goofy: It was when we were over in Atlantica.

Gibbs: Ship incoming!

We saw that the Heartless were using pirate ships as well.

Will Turner: Those Heartless can use ships now?!

Barbossa: Before you say anything, I haven't aligned myself with those fiends again!

Jack: I know. But now, any Heartless destroyed by us makes us stronger.

Barbossa: Even on opposite sides, my former minions are still useful.

Teresa: Everyone, me and Sora will handle the giant heartless, you guys focus on the pirate ship.

Me: Lets blast them!

We fired energy blasts, cannonballs and more at the ships and the Lightning Angler and destroyed them and they made us more powerful. But then we saw another ship coming.

Clayface: We have a ship approaching us.

We saw the ship off the port bow.

Sora: Is that who I think it is?

Lola: Let's open fire on them!

But before they could fire, two cloaked figures removed their hood revealing themselves to be Luxord and Xigbar.

Luxord: Parley!

Me: Luxord and Xigbar!

Sora: I knew you'd be here. But I didn't expect Xigbar. So, you two are still alive, huh?

Luxord: Surprisingly yes. Just goes to show to never count all your cards before they've all been dealt.

Xigbar: Turns out that energy blast you sent at the two of us launched us here. Isn't this nice? Team Keyblade, back together again with new guys. (to Terra) Terra. I thought the old coot got control of your body.

Terra: You thought wrong.

Xigbar (to Elena): Larxene. Always a pleasure, babe. (Elena snarls) Aqua. Ventus. Good to see you two again. (to Aqua) Sorry about throwing you into the Realm of Darkness, sweetheart. But, hey. At least you got out.

Aqua: No thanks to you.

Me: So you sent Aqua into the Realm of Darkness! You nearly destroyed her mind you fucked up freak!

Raythor: Jack, toss these two overboard!

Luxord: Come now. Are all of you so unsophisticated that you'd decline a gentlemanly conversation?

Jack: Sorry but it's the code. One who calls Parley must not be harmed until all negotiations are done.

Me: What Negotiations?

Luxord: Ah yes. And how could me and my companion love games and contests without honoring the rules? Because only by winning fairly that the victory can be savored even more.

May: Ok. I know he's from the Organization, but… Luxord seems like a swell guy to me.

Nico: Yeah, he's gotta be the nicest guy in the whole organization I've ever met. We might even just throw him in the Moon Prison without his powers after we're done here. But…. I know you're here for something. And it's not just for a conversation. What do you want from us, Luxord?

Luxord: Hmm. I am looking… for a box. A certain chest that Davy Jones wants.

Me: Dead Man's Chest with the Heart of Davey Jones.

Xigbar: And a certain card that controls storms.

Me: The Storm Card!

Jack: What of it? I know of the chest, but what do you require from it? Said object you are looking for is something you don't want to trifle with, mate.

Luxord: Really? A wager then. What say we have a little race to that charming port town you all hold so dear. Whoever reaches it first is the victor.

Lynn: Bring it on!

Me: So you want a race to Port Royal, Haiti. Bring it on!

Luxord: And the wager: you tell us all there is about the box.

Xigbar: If you win, you get whatever you want from us.

Me: Fair enough.

We got the race underway and the Heartless Ships were trying to prevent us from catching up to them. But our energy blasts and our speed enhancing the ship along with rocket boosters from the Solar Sails were more than enough. We won.

Francis: Looks like we won.

Luxord: Indeed you all have. As a man of my word… what is it you desire? I do owe you your prize.

Jack: Aye… too easy. I want the chest that's aboard the Flying Dutchman. And the Storm Card!

Poromon: No, Jack! Don't tell him!

Xigbar (laughs): Too late!

Brian: You sneaky bastards! You tricked him!

Xigbar: Actually, we outsmarted him. You should try it sometime.

Nami: You knew he'd tell you where it was.

Luxord: We've always been more interested in the long game. We hope to see where it takes us, that is if you stay apace. (he and Xigbar vanish)

Shocker: Ok, I'm gonna say it. We're doomed.

Motormaster: No kidding. Even with this ship we have, it still won't be enough when Xigbar and Luxord find the chest and the Storm Card.

Jack: But that doesn't mean you should give up, mates/ True pirates don't let the odds get to them, and you've all fought many battles.

Barbossa (reaches for the remote): I think our next move should be to track Beckett down and-

Demona (grabs the remote): Nice try.

Barbossa: I thought I could get it while it was in the recharger. (gets shocked) I thought wrong!

Later that night, Will called us.

Will: Sora, everyone!

Will called as everyone boarded the ships.

Poison Ivy: Will, what happened? Where's Tia Dalma?

Elizabeth: I'm afraid you missed quite a lot.

Will: Lord Cutler Beckett has taken Jack, and now he holds all the cards. Davy Jones, The Flying Dutchman, the two men in the black coats, and the card they're looking for.

Me: All hands lets board the Endeavor!

We set out for the Endeavor and we engaged a cloaking device so we wouldn't be seen.

Jack: This is very clever lad.

Me: Thanks Jack. It's an advanced invisibility device. We built it into our ship.

We found the Endeavor and we had to stay quiet. We got up to the ship and Spiderman used his powers to quietly sneak into the Captain's Quarters and on his desk as Lord Beckett was sleeping. He saw the Dead Man's Chest and the Storm Card on his deck and he grabbed them and snuck back to the ship. When he did so we got out of there quietly. I was handed the Storm Card. 嵐 I signed it. Spiderman put a piece of fruit on the desk as a replacement and covered it with an undetectable genjutsu to make it look like they were there.

Me: Yes. We got it.

Lola heard heartbeats inside the chest.

Lola: Is there a beating heart inside that chest?

Me: That's right Lola. It's the Heart of Davey Jones. I don't know how the chest is keeping it alive in there but it's really weird. Now we can rid this world of three big problems. 1st we're going after Davey Jones and we're gonna make him pay for everything he has done. Jack do you have the key for the chest?

Jack: Aye. I do lad.

Me: Great. We'll need that when we face Davey Jones. Lets do this.

My Dark Orb detector went off and inside the chest was a Dark Orb.

Me: Wait.

I got the key and opened the chest and inside it was the Heart of Davy Jones. It was a living disembodied heart with barnacles and seaweed on it and it was beating and there was also a Dark Orb inside the chest. I took the orb and crushed it. We got an immense power increase from it.

Me: Now it's time for us to go after Jones.

We set out to find him and on an island we saw Xigbar and Luxord.

## XIGBAR

Meeting Master Xehanort in Radiant Garden, Braig is offered the ability to use a Keyblade in return for his help in convincing Terra to use the powers of darkness. However, using a staged kidnapping to their advantage, Braig ends up being scarred in the resulting fight with his left eye permanently damaged. After Terra left, a furious Braig attempts to shoot Xehanort from behind for his injuries. But Braig is put in his place as Xehanort tells him they need to make Terra succumb to the darkness while performing his end of their pact. After fighting Aqua in the Keyblade Graveyard to give Xehanort time for his plan to come together, receiving a venomous flare from Ventus he never forgot, Braig fled back to Radiant Garden where he brought Ansem the Wise to Xehanort, now within the vessel that was originally Terra's body.

However, Braig later approaches the new Xehanort, now an apprentice under Ansem, and is dismayed to find that he does not recognize him, and Braig's attempts to help Xehanort remember prove only to annoy him. Braig nevertheless says in a friendly manner that he's got Xehanort's back, having been entrusted with Master Xehanort's back-up plan to use Ansem's research to devise a means of mind control. But in the process, they end up introducing Heartless to the Realm of Light. Sometime soon after, finding Xehanort with his previous incarnation's Keyblade, Braig asked if he is truly Master Xehanort before his heart was removed from his body. However, having a strong will, Braig's Nobody Xigbar came into being and became Xemnas's number II in the newly formed Organization XIII.

Xigbar appears for the first time chronologically in Kingdom Hearts 358/2 Days. Present when Xion joins the Organization, he is shocked when his seemingly good friend, Demyx, reveals the annihilations that took place at Castle Oblivion. Later joining Roxas on a recon mission to Agrabah, they overhear Aladdin and Jasmine discussing the rebuilding of their city after many sandstorms strike. The Freeshooter later challenges Roxas at Olympus Coliseum when he first enters the Games, claiming to "care about his future" after the defeat of a Guard Armor at Roxas' hand. Xigbar later discussed the defaulting Xion with Xemnas and Saix in Where Nothing Gathers, later challenging "Poppet" himself in Wonderland. Xigbar then sees Xion as Ventus, and Xion is able to quickly strike Xigbar down with the power she was unknowingly sapping from Roxas.

Not long after arriving in Hollow Bastion and reuniting with Aerith, Leon and Yuffie, Sora engaged a number of Dusk Nobodies in battle around the city. After being led away from the main town, Sora, Goofy and Donald heard voices mocking them, but could find no source for them. After Sora demands that they show themselves, the remaining Organization members (having lost five members due to deaths and two others due to desertion) materialize, laughing. Though they are hooded, they are recognizable as the Organization from the description given to Sora and his companions by Yen Sid. The Organization eventually departs, but Xigbar, still cloaked and hooded, stays behind to taunt Sora further, making them feel anxious about the power of the Organization. He also openly compares the similarities between a look Sora gives him and one given to him by Ventus; Sora dismisses this as random banter meant to confuse him. Xigbar then leaves, staying out of Sora's way for a very long time.

Sora encounters Xigbar again in at the gates to the Emperor's throne room in The Land of Dragons. Having encountered another hooded man and suspected him to be his missing friend Riku, Sora inquires if he is the same person. Xigbar removes his hood, revealing otherwise and remarking that he had never heard of anyone named Riku. Xigbar summons his Snipers to distract Sora while he escapes. The diversion works, although the Nobodies were defeated, and Xigbar is able to continue his mission of summoning an enormous Heartless to harvest hearts for the Organization's plans. He manages to set the Storm Rider on the city, but it is soon destroyed by Sora, Mulan, Donald and Goofy.

Xigbar's final appearance in the game is in The World That Never Was, inside Organization XIII's stronghold. After Riku and Naminé helped Kairi to escape from the Organization, they head for the Hall of Empty Melodies, a large, open-air room leading further up into the castle. Sora and his party arrive there, but are stopped by Saïx, who calls out swarms of Shadows and a few Armored Knight Heartless to attack the intruders. Maleficent and Pete also arrive, expressing interest in taking the Organization's castle for themselves. Eventually, Maleficent and Pete leave to formulate a plan for taking the castle, and Saïx heads up to rejoin Xemnas. Sora and Kairi remain separated as Riku and Kairi remain above Sora on a balcony, fighting off the Heartless gathered there. Many Heartless attack Sora as well, but they are all dispatched in a sudden rain of arrows from a hidden Xigbar. He walks into view, and asks if Sora has been a good boy mockingly, echoing the words from his first encounter with Sora. He states how Sora put the Organization in a "pickle", and he supposes that was the reason the Keyblade chose him. He also makes a very cryptic remark on how he wasn't "half the hero the others were". Sora simply takes it as an attempt to throw him off. Xigbar then engages Sora in battle, referring to him as "Roxas" and expressing anger at him for betraying the Organization. Ultimately, he is defeated and begins to fade into the darkness. Before he disappears, Sora asks him why he called him "Roxas", to which Xigbar merely responds, "Wouldn't you like to know?"

Kingdom Hearts II Final Mix contains several additional cutscenes of Organization XIII's activity. One shows a conversation at an unknown time between Xigbar and Zexion, with Xigbar having recently returned from finding new members for the Organization (including Marluxia, whom he mentions as a new recruit) while Zexion and Vexen were discussing Xemnas' visit to the Chamber of Repose. Xigbar expressed his knowledge about the events of Keyblade warriors that appeared before they found Xehanort. He also talked about his eavesdropping on Xemnas during his visits to the Chamber of Repose, and how he seemed to be conversing with someone that wasn't really there.

Summoned by Young Xehanort, due to being "half-Xehanort", Xigbar is made a member of the True Organization XIII and aided in baiting Sora into their trap.

Xigbar returns in Kingdom Hearts III as a major villain. Xigbar first appears in Olympus mocking Sora and his company, toying with his mind as usual before uncharacteristically encouraging Sora not to change who he is and seek to restore the hearts connected to his. In that same world, he observes Maleficent and Pete digging up Pandora's Box, mistaking it for the Black Box from the age of fairy tales. Once Maleficent realizes it's not the right box, both leave. Xigbar, seemingly disappointed it was not the Black Box, begins to recite the old saying "May your heart be your guiding key", though the scene cuts after the first few words.

Xigbar appears again with Xemnas and Ansem overlooking Twilight Town, warning them not to underestimte Sora as he has done some damage to their plans in the past and could easily do it again.

During a meeting with some of the Organization members, Larxene reveals Xigbar is the driving force behind the Organization's search for the Black Box, though none of the others seem to know what's inside of it.

Once the fated battle at the Keyblade Graveyard finally arrives, Xigbar appears with Dark Riku on two different occasions. After fighting Sora and Riku, Xigbar, seemingly defeated, reveals to them his motivation for working with Master Xehanort was the promise of wielding his own Keyblade. Sora and Riku rebuke the idea of Xigbar being worthy of a Keyblade, and Xigbar, laughing at the irony, teleports to the top of the labyrinth and seemingly falls to his death. After Xehanort's defeat, however, Xigbar is revealed to have survived and is revealed to be none other than Luxu from Kingdom Hearts χ, one of the Foretellers and an apprentice of the Master of Masters. Reclaiming his Keyblade, Xigbar summons four of his comrades and explains what happened in the later years.

## LUXORD

Luxord plays a minor role in Kingdom Hearts 358/2 Days. He is present when Xion joined the Organization, and would often team up with Roxas in missions in Wonderland. This association with this world is more than likely thanks to the Queen of Hearts's card army. Luxord joins Roxas on other missions and stays in the Grey Area as well. Luxord took all of his missions as a game, and would tend to comment on them as such to Roxas. He was shocked when Xemnas called the meeting to announce the truth about Xion being a Replica, and simply said, "If only the whispers from the top of the ladder carried to the bottom rung," before vanishing from Where Nothing Gathers.

Luxord appears with all of the other Organization members in the confrontation with Sora and stands behind and to the left of Saïx. He makes no contact with Sora. In fact, he isn't even seen again until Port Royal the second time through.

Upon making second rounds to the worlds in search of the Organization's stronghold, Sora once again allies with Jack Sparrow in Port Royal, where he learns that Will Turner has gone missing while investigating the theft of cursed pirate gold by a man in a black hood. They seek out Will on the Black Pearl and find him on the Interceptor.

Luxord appears on the Black Pearl after they have recovered Will, with the cursed gold beside him, greeting Jack Sparrow. He reveals that he is at Port Royal to assess the value of the cursed gold to the Organization and calls up Grim Reaper, a Heartless. After the Heartless is thrown overboard, Luxord invokes the right of parley before Jack can get off a shot with his pistol. He agrees to hand over the chest, but takes four medallions from it when he does so, sending them off to his Gambler Nobodies, who escape with them. This has the effect of returning the curse on Jack and tying his curse to Grim Reaper, who becomes cursed, as well.

The Grim Reaper then knocks Sora, Donald, Goofy, and Jack onto the Interceptor, and has the cannons of the Black Pearl destroy the ship. Sora and the others survive, and track down the medallions, and defeated the Grim Reaper back at Port Royal, lifting the curse on Jack. Even with Luxord's experiments having failed, he manages to bring the heart that the Grim Reaper was holding to Kingdom Hearts, and promptly flees.

During several additional scenes in Kingdom Hearts II Final Mix, Luxord is featured with a prominent speaking role. Immediately after taunting Sora, the Organization returns to their meeting chamber. In response to talk about making plans, Luxord says that he'll "Pass out some cards.", meaning he intends to dabble around here and there, stirring things up to see what he can do. This inadvertently instigates a small argument between Xigbar and Demyx, and after Xaldin breaks it up, Luxord disappointedly remarks "There goes my entertainment."

He is again seen just before Sora enters The World That Never Was, discussing Axel with the remaining members. He notes that Axel may have gained something by putting his existence on the line to help Sora. When Xigbar reacts that, as Nobodies, they have no existence to put on the line, Luxord replies: "Then, perhaps he bet his NON-existence. Either way, he came out a winner.". He then adds with a smile: "Oh, Axel. A grifter till the end.".

Luxord appears once more in the Organization's fortress in The

World that Never Was. When Sora, Kairi, Riku, Donald and Goofy enter the area where Luxord waits, Sora walks ahead of the rest. Materializing between Sora and his friends, Luxord uses his cards to remove Sora's allies from the area, and challenges Sora to a game involving time. Luxord fights against Sora, using a variety of tricks and games of luck with his playing cards, but in the end, Sora is able to wear Luxord's time down and defeat him. As Sora readies a finishing blow, Luxord raises his cards to shield himself, but Sora slices through the cards and finishes Luxord off. Before fading into darkness, Luxord exclaims, "How could you… Roxas?".

Luxord returns in Kingdom Hearts III as a member of the real Organization XIII and noticeably sports golden eyes like the other members. After being briefed by Vexen, Luxord goes about finding the black box in The Caribbean upon learning of a being that can exist without having a heart inside. He challenges the heroes to a race and somehow manages to trick Captain Jack Sparrow (unaware that the real one is elsewhere) into revealing the box as the Dead Man's Chest that contains the heart of Davy Jones. Luxord then goes to find the box on the Flying Dutchman and uses an entire fleet of Heartless to keep the heroes at bay. He then later arrives in the Maelstorm battle and summons the Kraken for the heroes to handle as he pursues the Flying Dutchman. He then confronts Captain Jack Sparrow in an attempt to take the box and use the right of parley. But Jack outsmarts him by interrupting him and uses his bad breath to send Luxord into the ocean just as Vexen confirms that this isn't the box they are after. Luxord would then later appear as one of the bosses at the Keyblade Graveyard. He manages to trap King Mickey in a card and has Sora find his real self in a game of sorts before eventually being defeated by him. Willingly accepting his defeat, Sora asks if he would play again when they are both normal human beings to which Luxord accepts before fading away but not before leaving King Mickey's card for the king to be freed from.

We parked the ship while it was invisible and we were ready for them.

Xigbar: Kinda stupid of Sparrow to give away the card and the chest's location like that.

Luxord: We shouldn't get cocky, Xigbar. You and I are the only Organization XIII members left. And I plan to have our last battle be long and epic.

Xigbar: Hey, you got your way of doing things. And I've got mine.

Luxord: Just because you don't value your life doesn't mean I don't value mine!

Xigbar: With the Dark Orb and Storm Card in my possession, I can take on 10 Keyblade masters. You two don't stand a chance!

Xigbar tries to snipe at me with his high speed bullets, but I reflect it back at him with a timed Keyblade swipe. He then fires three arrowgun bolts at Nico but I warped in front of them and deflect them all back at him.

Xigbar: Clever little sneaks!

Me: Also you don't have said items. You have some old fruit.

The Genjutsu on the items lifted and he saw that I was right.

POW!

I punched Xigbar in the face and Nico kicked him in the stomach with devastating force.

Nico: (whispers in Xigbar's ear) Don't worry, Master Luxu. Your secret is safe with me.

I pulled out Xigbar's Space Guns called the Sharpshooters.

Me and Nico slashed his head off and killed him.

Sora and Lincoln were facing Luxord.

Rhino: Time for you punks to walk the plank!

Luxord: Please, Sora. Don't hold back. I want this final battle of Organization XIII to be the greatest one yet!

Sora: We intend not to.

Sora flips one of Luxord's assisting cards face forward, dispelling it.

Luxord: You're still as formidable as ever, Sora. But the game has only begun!

Luxord summons giant versions of his cards to surround him, Sora, and Lincoln.

Lincoln: I'll handle this the same way that Sora did.

Lincoln did the same thing he did in KH2 and it was well done and he defeated Luxord.

Luxord (chuckles weakly): Congratulations, Lincoln Loud. You and Sora have bested me yet again.

Lincoln: That's it? You're not gonna fight back?

Luxord: Why should I? I lost fair and square. And I have no tricks left. You may deal with me however you wish. But please, make it quick and painless, will you?

After a few minutes, Sora made his decision.

Sora: No. Unlike Xigbar and Davey Jones, you actually do play fair. So, after this is over, we're gonna throw you in prison and remove your powers.

Luxord: Fair enough. After all, it did work with Scar.

Me: Luxord, we'll let you be alive so you can help us with the fight with Davey Jones. We're gonna make him pay for his crimes.

Luxord: Thank you.

Nico: You are a man of honor Luxord.

Me: Lets go get Davey Jones.

We then set out to find Davey Jones.

We arrived at the Maelstrom. It was a powerful and deadly maelstrom that was intensely powerful.

Me: Wow! The Maelstrom of Worlds End.

Nico: This is gonna be one helluva battle.

Me: And then some.

Vince: But we're ready.

Carol: Look!

We then saw the FLYING DUTCHMAN! And on the ship was DAVEY JONES!

Me: There it is! The Flying Dutchman!

Laney: And there's Captain Ugly himself!

Me: Prepare to board mates!

We harpooned the Flying Dutchman with an energy binder and we boarded it.

(FORSAKEN BY WITHIN TEMPTATION PLAYS)

Me: Davey Jones!

Will Turner: You turned my father into a monster you freak!

Elizabeth: You let him go now!

Davy Jones: Ah… love. A dreadful bond. Yet one so easily severed.

Maria: Wrong! Some of us may not know love well, we do know this. You can't sever the bond between Will and Elizabeth.

Jones: What do whelps like you know about the heart?

Inque: More than you ever will, that's for sure.

Jack: Trust them. They've seen more of the world than any of us.

Me: We've seen thousands of worlds actually.

Laney: That's right.

Me: Davey Jones you have terrorized these waters for far too long! Now we're going to kill you and send your fucking ass off to hell!

Syd: You are not welcome here Jones!

Nico: Davey Jones, you have failed this universe!

Me: And he has failed his fucked up life! Lets power up and take him down!

We transformed and powered up and went at Davey Jones.

I punched him in the face and unsheathed my sword and we clashed swords. We unsheathed our swords and we all clashed with him. It was a massive and brutal clash of the titans. We were clashing all over. I ducked under a swipe from his sword and I slashed off his crab claw arm. I kicked him in the stomach and punched him in the face and slashed his octopus tentacle beard. Lori slashed his leg and kicked him in the face and Laney slashed his eyes and Carol fired a massive blast of atomic energy. Jack Sparrow slashed Davey Jones in his arm and Lana kicked him in the face and Lola fired a massive blast of fire and burned him in his face.

Me: You've terrorized the 7 seas for far too long Davey Jones! We will never forgive you for your crimes you motherfucking asswipe!

Maria fired a massive blast of water at him and it went through his chest. But to our shock his heart wasn't there!

Me: What the Fuck!? His heart is gone!

Naruto: It's in Dead Man's Chest!

Nico: That is so fucked up!

Naruto formed a WIND STYLE: RASENSHURIKEN.

Naruto: (Echoing) **WIND STYLE: RASENSHURIKEN!**

Naruto slammed it into Davey Jones and it exploded with unbelievable power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

The explosion sent a blizzard of numerous Wind Style chakra blades into him and it pierced him all over his body.

Lucy Loud: Lets see what you are afraid of.

Lucy fired a massive blast of black lightning and it hit him and electrocuted him and Davey Jones saw that he was afraid of all of the land.

Lana fired a massive blast of ice lightning and it froze his right arm and it shattered. He screamed in pain and Nico fired a powerful blast of fire and burned him.

Vince fired a massive barrage of crystal clusters and skewered him.

Leni lifted up a massive boulder from the sea floor and slammed it onto Davey Jones and flattened him and splattered his blood and guts everywhere!

But to our shock Davey Jones got up and he regenerated. But he was significantly weakened. But then he was enraged and he was madder than hell! He then bulked himself up with a tremendous level of power in a massive explosion of insane anger! The level of anger he had was so unimaginable that it defied all forms of human comprehension!

Davey Jones: (ENRAGED SCREAMING!) YOU FUCKING FUCKS! WORTHLESS PEOPLE LIKE YOU CAN'T COMPETE WITH ME! I'M INVINCIBLE!

He went at us Screaming at the top of his lungs in so much rage that it was unbelievable! I went at him and went Super Ebonwu 30,000 Phoenix Firestorm and we collided and released a massive fiery explosion of unimaginable power!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We went at each other and I punched him in the face with incredible force and he punched me in the face and we were exchanging devastating blows one after the other. It was a ferocious fight! I punched him in the face and he kicked me in the stomach and I punched him in the chest and he kicked me in the stomach! I punched him in the face and punched him in the stomach and he did the same. Massive powerful thunderous shockwaves were being felt from the sheer extent of our power! We were ferociously punching and kicking each other with such incredible savagery that it defied all form of description as we indiscriminately thrashed each other with unimaginable fury! The force of our fight was so strong that it threatened to tear the entire world apart! Jack Sparrow and his crew could not believe what they were seeing and they could not believe that we were fighting with so much power! Me and Davey Jones then clasped our hands if you could call it that and we screamed and flared up our auras. Mine was fire and his was pitch black and overflowing with pure evil! The power of our auras was so powerful and so strong that it was shaking the entire planet! The ground and the ocean started to shake extremely violently and lightning struck all over the place! Our power was so strong that it was shaking the very fabric of the entire universe to the very core!

Nico: Wow! What incredible power!

Nick F.: This is unbelievable!

Chione: Now this is really intense!

I punched Davey Jones in the face with devastating force and he did the same to me and we went at each other some more and it was a savage and brutally ferocious fight! I kicked him in the face and punched him in the face and knocked out some of his teeth and he went at me and I blocked some of his punches and more!

Me: Time to pull out the stops! (Echoing) **BLAZING HELIX!**

I flapped my wings and released a spiral of high-temperature flames. It slammed into Davey Jones and burned him in a massive fiery explosion!

Nico: That's Zhuqiaomon's most powerful attack!

Lily: Wow! What power!

Me: (Echoing) **AURORA FORCE!**

I waved my arms around and formed a massive ball of lightning and fired it at Davey Jones and it hit him and exploded with unbelievable power!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful that it sent a massive shockwave that created a massive tsunami. The explosion generated a tremendous amount of lightning that was so powerful that it could power many cities for years. Thunder and lightning crashed all over the place.

Laney: Wow! What power!

Nico: That was Azulongmon's attack. Amazing!

Me: (Echoing) **CRIMSON LIGHTNING!**

I fired a blast of blood red lightning at Davey Jones and it electrocuted him.

Nico: Myotismon's attack!

Me: (ECHOING) **TIDE OF DESPAIR!**

I fired a massive blast of blood red fire and it slammed into Davey Jones and burned him all over.

Nico: Lucemon Shadowlord Mode!? How many Digimon Attacks do you know J.D.?

Me: Lets finish this fucker off guys! Combo and Final Smash time!

Hunter Bradley: Lets do it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his thunder staff 100-fold!

Leobreaker: CYBER KEY POWER!

The Animatron Cyber Planet Key went into his arm and it extended his extra claws.

Hunter Bradley and Leobreaker: LIGHTNING LION CLAW SLASHSTORM!

Hunter Bradley fired a powerful blast of lightning from his staff and it merged with Leobreaker's claws and Leobreaker slashed Davey Jones and electrocuted him with 100 billion volts of electricity.

Cybertron Scourge: Lets see him face this! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and he had his 2 extra heads pop out and they roared.

Cybertron Scourge: Witness the 3-Headed Dragon!

Blade Man: And me! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and it enhanced his Triple Blade 100-fold and lightning was channeling through the blades.

Cybertron Scourge and Blade Man: PYROSTORM SWORDSLASH STORM!

Cybertron Scourge fired a massive blast of fire and Blade Man slashed Davey Jones and electrocuted him. The fire followed and it burned him.

Nicole: Time for some final smashes! STAR DRAGON FIRESTORM!

Nicole fired 20 powerful jets of stellar black fire with stars and they turned into powerful ferocious roaring dragons and they slammed into Davey Jones and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Jack: Time to show no mercy! CARIBBEAN GOLD SLASH!

Jack's Sword turned gold and the Pirates of The Caribbean theme played and he slashed Davey Jone's all over and cut him good.

Davey Jones was severely weakened and he was down.

I went over to Nico and he gave me the heart. It was so disgusting having a living beating disembodied heart beating in my hands.

Me: Oh yuck!

I took out my dagger and I slashed my wrist and covered the dagger blade in my blood.

Me: Go back to Hell and stay there you motherfucking son of a bitch!

I stabbed Davey Jones's black heart and it was reduced to dust in an instant. Davey Jones was dying and he was dead in seconds.

Davey Jones and Xigbar appeared as spirits.

Davey Jones (as a spirit): You might have killed me. But my name will still be a legend in all the 7 seas.

Maria: And that's all you'll be. A legend.

Xigbar (as a spirit): You really think my Organization XIII buddies were my only associates?

Sora: What are you talking about?

Xigbar (chuckles): Why don't you look me up in your book after you seal me in? You'll be surprised at what you'll find.

Me: Like all legends, you two will be forgotten.

Nicole: That's right dad. (Chants an incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

Nicole sealed both their spirits into the Book of Vile Darkness.

Luxord: You won't have to take Jones' place as captain, J.D. Because I'll gladly to do it in your place. This will ensure that the Dutchman will never darken the 7 seas ever again.

Elizabeth: Are you kidding me?! After all the trouble you caused here and the last time?!

Luxord: I appreciate your skepticism, Elizabeth. But Organization XIII is finished. And I have no powers now. My story has ended. But you and William Turner deserve to be happy.

Jack: I guess that's fair.

Luxord: Nicolas, the powers that I once had are now yours. Use them well.

Nico: I will.

They shook hands.

Sora: You're not so bad, Luxord. Maybe once a year, we can play cards with each other. As just regular guys.

Luxord: I should like that very much, Sora. (tosses a card to Sora) Here. It's something you should use when you encounter my Heartless as well as those from Xehanort and Xemnas.

Me: Thanks Luxord. When we need you, we'll call you.

I pulled out a special flute. It once belonged to Davey Jones. It was called the Flute of The Flying Dutchman. It was a special flute that can call the Flying Dutchman anywhere.

Me: We still have one loose end to tie up.

We then went after Lord Cutler Beckett and his ship.

---

We found his ship and we were on both sides of it.

Me: Ready guys?

Lincoln: Ready!

Sora: Ready!

Jack: Aye!

Luxord: Ready!

When we were at the right distance we were ready.

Gibbs: Captain?

Jack: Fire!

Gibbs: FIRE!

Luxord: FIRE!

Hector Barbossa: FIRE!

Me: FIRE!

Sora: FIRE!

Elizabeth: FIRE!

We let all Hell loose on the Endeavor with cannon fire and we were blowing the ship apart.

Me: GIVE MY REGARDS TO ENGLAND YOU ASSHOLES!

Nico: Lord Cutler Beckett, you have failed this world!

We were firing cannons and more and fired energy blasts and then the whole ship exploded with incredible power. Killing everyone on board.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Whole ship was destroyed and all of its crew was dead.

Nicole: (To the viewers) Never mess with good pirates or us.

Me: You said it Nicole.

Barbossa: So, where does this leave us?

Sora: Well, you helped us with Jones. So, as promised, you give you a pardon. But don't commit anymore crimes, ok?

Barbossa: I'll still be doing pirate stuff. But I'll do it the more honorable way from now on.

Sora: Good to know.

Barbossa: Now then… (gestures to shock garter) Can I take this off now?

Me: We couldn't have done all this without you Captain Barbossa.

I took off the Shock Garter and he was free.

We shook hands.

It was an awesome swashbuckling and marauding adventure! We were now true Pirates of The Caribbean! We freed the world of Pirates of The Caribbean from the terror of Davey Jones and I got another Clow Card in the process. We also freed the world from the terror of the Heartless.

THE END

---

Another Fanfiction Complete, another Clow Card caught and another Disney Villain destroyed.

The Pirates of The Caribbean is an awesome series! Johnny Depp did a great job in all five movies as the legendary eccentric Captain Jack Sparrow. He is awesome! From 2003 to 2017 and ongoing his legend lives! I watched all 5 movies and I played the worlds on Kingdom Hearts 2 and Kingdom Hearts 3. The Kingdom Hearts 2 version covers the events of Pirates of The Caribbean: The Curse of The Black Pearl from 2003 and the Kingdom Hearts 3 version covers most of the events from Pirates of The Caribbean 3: At Worlds End. Both awesome movies! My favorite movie of the franchise is the 4th movie from 2011: Pirates of The Caribbean 4: On Stranger Tides. It was an awesome adventure! I based the ship we built on the ship from the beginning of Treasure Planet. That was a cool ship. NicoChan11 gave me the scenes for this one. Thanks man as usual. We worked on this awesome chapter all day and it was worth it. Johnny Depp, Geoffrey Rush, Kevin McNally, Orlando Bloom, Keira Knightley, Penelope Cruz, Ian McShane and many stars all did a great job! Let me know what you all think. The next card will be the Fly Card.

See you all next time

# The Malevolent One-Wing Angel

In the harbor of Lake Huron we were working on an awesome replica of the Flying Dutchman ship.

Nico: This is a great idea working on a replica of the Flying Dutchman.

Me: Thanks Nico. We're turning it into a museum for all pirate lovers everywhere.

Sakura Avalon: I heard you guys found the Storm Card in the world of Pirates of The Caribbean.

Me: We sure did Sakura.

Kero: You're making awesome progress J.D. You are on your way to becoming an awesome Cardcaptor.

Me: Thanks Kero. But Sakura knows more about this better than I do.

Sakura Avalon: I know. And so does my teacher back in Japan, Ms. Mackenzie.

Me: How did that happen to her Sakura?

Sakura Avalon: She is the daughter of a priest at Tsukimine Shrine.

Me: That's one of Tokyo's most famous shrines. It has a lot of history dating back to the Edo era.

Madison Taylor: That's right.

Mario: I'm glad that Organization XIII is finally defeated.

Nico: Not yet. We still have to take care of the Heartless of Luxord, Xemnas, and Xehanort.

Me: And those three are gonna be one helluva challenge. Plus we still have to worry about the Clow Cards.

Then a massive bird cry was heard!

We went outside and we saw a massive bird flying above us!

Me: Whoa!

I sensed that it was a Clow Card!

Me: It's a Clow Card! It's the Fly Card! 翔

Sakura Avalon: That was the first ever card I caught!

The Fly Card looked like an enormous bird. Fly appears as a gargantuan, pale bird with a long neck and legs, resembling a crane.

Me: It looks like a huge bird!

Nico: That's incredible!

Sakura Avalon: When I used this card, it enabled my staff to get wings and in the future I enabled it to cause wings to emerge from my back.

Me: That's incredible!

Nico: No kidding. Lets get this card!

Me: Sakura would you like to help us?

Sakura Avalon: But I can't!

Me: You were a Cardcaptor before me Sakura. You still have their powers inside your heart. They are a part of you just as you are a part of them.

Sakura Avalon knew I was right.

Sakura Avalon: Okay! FLY!

Sakura Avalon sprouted wings from her back and we flew after the Fly Card.

Me: Wow! The Fly Card is really majestic!

Nico: It's magnificent.

Sakura Avalon: Yeah but it scared me the first time.

Me: Lets catch it!

Nico: You got it! MIGHTY HURRICANE FURY!

The 6-Star Dragonball lit up on his bracelet and a massive blast of wind and entangled the Fly Card in a powerful tornado of wind.

We went up to it.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and it sucked in the Fly Card. It turned back into a Clow Card.

Me: Yes!

Sakura Avalon: You did it!

Me: Thanks Sakura.

I signed the card.

Sakura Avalon: Thank you for reminding me about the power of the Clow Cards being part of me.

Me: You're welcome Sakura.

We went back to the Flying Dutchman Pirate Museum and we got it open for business. It was now a very popular tourist attraction and more. Nico also caught a Jellicent and an Amoonguss.

---

Back at the estate we were watching out for the malevolent one-winged angel Sephiroth. We had to be extra vigilant and keep our eyes peeled for any movement.

G1 Silverbolt: We really have to be prepared for Sephiroth, guys.

Sora: I know. He's totally unpredictable. And his attacks are totally wicked. In a bad way. When we find Sephiroth, we need to be ready. Or we're gonna be history!

Me: If he's that dangerous then we have to be ready for anything. But what really astounds me is that sword of his. It's over 80 inches long and it has to be the longest sword I've ever seen.

Sora: That sword of his is a powerful one. And it has a long reach.

Me: Lets see what it says about him.

I pulled up his profile and what it said was horrifying.

---

Sephiroth is the child of Professor Hojo and Lucrecia Crescent, two Shinra Inc. scientists. While in the womb, his mother named Lucrecia was injected with cells of a powerful alien being known as Jenova, and in his fetal form, he merged with the cells and was taken from Lucretia at birth. He was kept in the dark about his real mother, only told that she was named Jenova, and the terrible experiments that were been performed on him. Later in his life, he became a member of SOLDIER, Shinra Inc.'s super warriors. Sephiroth became the most powerful SOLDIER going beyond 1st class and became known as the SOLDIER Hero. He was particularly renowned for his accomplishments during the war between Shinra and Wutai, where he was first seen easily defeating a powerful Djinn known as Ifrit. Sephiroth was close friends with two other Shinra experiments, Angeal and Genesis, Genesis being considered a failure compared to him, and both were also unaware of what had been done to them. Genesis and Angeal would spar with Sephiroth, at which Sephiroth would easily fight them all off, until one day Genesis tried to go all out. Try as Genesis may, Sephiroth overwhelms him but Angeal stops the fight. Genesis would leave Shinra shortly afterwards with Professor Hollander. Sephiroth hoped to bring him back however. Then, Shinra sent him to Nibelheim to inspect a broken Mako reactor, along with another SOLDIER 1st Class (Zack Fair), and several infantry men, one of which was Cloud

Strife.

Once in the city, Zack asks Sephiroth about his parents, and he mentions that his mother's name was Jenova, but said nothing about his father. Sephiroth climbs Mt. Nibel with the rest of his men to inspect the reactor, and in it he finds a room labeled Jenova. In the room he sees Jenova- a hideous abomination, in the form of a female. Why Jenova is in an armored containment suit when later revealed is unclear, although it is likely a small error by the game creators. This and the witnessing of other mutant creatures ("failed" SOLDIERs injected with Jenova cells) brings about what essentially is a psychotic break, leading to him question who, or what, he is. For six days he locked himself in the basement of Shinra mansion reading books about the experiments Shinra had been doing.

This research causes Sephiroth to believe that Jenova was a Cetra and that he himself is the last surviving Cetra, he also comes to think that humanity betrayed the Cetra by leaving them to defend the planet against an evil calamity, the calamity actually being Jenova herself. With this information along with his anger for being used as an experiment for Shinra, Sephiroth slowly slips into insanity. On the seventh day, Sephiroth decided to take revenge on the humans for leaving the Cetra and making him one of Shinra's experiments, but first insanity took him and he burned Nibelheim to the ground (most likely using an extremely powerful Firaga). Zack thus confronts him later on, with Cloud not far behind.

When they reach the reactor, Zack breaks into the room labeled Jenova, and demands that Sephiroth tell him why he burned the town down. Sephiroth stood in front of a discolored and disfigured woman in a test tube, Jenova, and addresses her as "Mother" believing she is his real mother due to the fact that he was told his mothers name was Jenova. After talking to Jenova about reclaiming the planet Zack attacks him and they fight fiercely. Although Zack is able to stand reasonably evenly with Sephiroth, even having the skills to defeat Genesis proved to be insufficient and Sephiroth eventually overwhelms Zack in swordplay, driving him back before he quickly overpowered Zack in a clash of strength, disarming him and sending him flyinh. Sephiroth turned back to his "Mother" and acts as if nothing as happened. Cloud then walks in, and takes

Zack's Buster Sword and badly injures Sephiroth but Sephiroth, in his rage, easily stabs Cloud through the stomach, though with all his will, Cloud manages to pull the sword up and throw Sephiroth off the edge of the reactor core, although, as an alternate ending in the anime Last Order Final Fantasy VII, Sephiroth intentionally jumps into the reactor asking Jenova to go with him to the "Promised Land".

In Final Fantasy VII while seeking to find the Black Materia and destroy the world, Sephiroth desires to reach the "Promised Land" by doing so. He is briefly playable in a flashback to the events that occurred in Nibelheim seven years prior. Most of the game is spent searching for him, but Sephiroth is always one step ahead of the heroes. His desire is to find the so-called promised land, so he can use the large amount of mako energy to activate the black materia, summoning Meteor, a powerful spell which Sephiroth tricks Cloud and the others into finding. Once activated, the black materia would send a meteor into the planet, causing the planet to try and heal itself using the Lifestream's mako energy, Sepiroth would then absorb this energy, thus becoming a god and rule the planet.

As the game progresses, it seems Sephiroth's powers become greater and greater, to the point where he can control Cloud, and even the remaining cells of Jenova herself. His control over Cloud however, allows him to obtained the black materia from him. Using Cloud, Sephiroth tries to make him kill Aerith while she is praying in the Forgotten Village trying to summon the spell Holy to help counter act the meteor summoned by Sephiroth, Tifa however yells and breaks Sephiroth's manipulation, and so using his control over Jenova, he forces her cells to take his own form and uses her to impale Aerith through the stomach.

Cloud and company pursue Sephiroth to the planet's wound, a crater that was left behind when Jenova arrived on the planet. They go into it and Sephiroth shows Cloud several flashbacks of what really happened at Nibelheim, and reveals that Cloud has his cells in him, and that Sephiroth could control him because of this. The illusion ends and Cloud, who does not believe himself to be Cloud, hands over the Black Materia to the real Sephiroth that had been frozen in the planet's core. Sephiroth had controlled remnants that shared Jenova cells from inside the planet in order to bring himself back to life to and achieve his plan of becoming a god to rule the planet.

Eventually, Sephiroth achieved his plan and became "Bizarro Sephiroth" (in Japanese: リバース・セフィロス Ribāsu Sefirosu) and "Safer Sephiroth" (in Japanese: セーファ・セフィロス Sēfa Sefirosu), which is his ultimate god or god-like form. One last battle commences between Cloud, his friends, and Safer-Sephiroth, who is eventually defeated. Despite this, his conscience remains intact and he drags Cloud into the Lifestream to have one last confrontation with him, this time in a metaphysical realm. However, just like before, Sephiroth is defeated. The Meteor continues its course and crashes into Gaia, but due to Aerith's ability to talk with the planet and summon the spell Holy, the Lifestream is able to push back the meteor before it causes ultimate destruction to the planet.

In Advent Children, though Sephiroth was defeated 2 years earlier, but has left a great dent in the planet. He infected the Lifestream, and so created a disease called Geostigma. Geostigma weakens the immune system, causes exhaustion, and black sores on the skin of the infected. Children are more prone to getting this disease than adults, however, this does not mean adults can't get it; in fact, Cloud has it. 3 remnants of Sephiroth that did not dissipate into the Lifestream, named Kadaj, Loz, and Yazoo, are seeking to reunite with their "mother" Jenova, and attack Cloud, calling him their "brother". As the movie progresses, two of the remnants are defeated, leaving only Kadaj, who merges with what is left of Jenova. By doing so, he becomes Sephiroth's avatar, adopting his physical appearance. Cloud and Sephiroth fight once more and this time it is purely physical battle. With his superior combat abilities, Sephiroth is steadily able to wear down and overwhelm Cloud until Cloud is finally decisively beaten and badly injured. However, Cloud, by reminiscing of all that he cherishes when Sephiroth mistakenly mocks him by threatening to kill them all and being invigorated by Zack's spirit, perfects Omnislash 5 and uses it to finally defeat Sephiroth, taking advantage of the advantage of many blades, the enchanted speed, and Sephiroth's surprise to soundly deal lethal blows. However, when Cloud demands Sephiroth to stay in his memory, Sephiroth calmly says "I will… never be a memory.", proving he is not truly defeated and while his physical body may have been destroyed, he is still present.

Sephiroth, though not visibly seen, is mentioned as a well-known hero. His reputation inspires Zack Fair to train to become Sephiroth's equal in power and legend.

After Master Xehanort's defeat, Zack witnesses Hercules train under Phil, noticing one of Sephiroth's feathers floating towards him. Zack then disappears, with the feather landing where he once stood.

Sephiroth appears as an optional boss in the first Kingdom Hearts game for both the North American version, and later the Final Mix version. He is found in Olympus Coliseum. No story is really provided, though it does refer to him as "The SOLDIER Commander" and a man once known as the "greatest of swordsmen".

Prior to Sora's arrival to Olympus Coliseum, Cloud strikes a deal with Hades: if Cloud defeats Hercules in battle, Hades will lead Cloud to Sephiroth. However, the deal is not payed off.

Later, Sora enters the Platinum Match and encounters Sephiroth himself, besting the One-Winged Angel in a duel. In the Final Mix version only, following Sora's departure, Cloud encounters Sephiroth and engage in a battle before dissipating in light.

---

We found out all about what he can do and it was terrifying.

Me: This is really bad! Sephiroth has a lot of experiences that are downright deadly!

Lori: I can't believe Sephiroth is literally that dangerous!

Laney: He's not just dangerous, he's a threat to the entire universe in its entirety. I heard that he killed countless people on different planets and he slaughtered them all.

Me: He's a Genocidal Psychopathic Bio-Engineered Monster. We have to stop him at all costs.

Nico: No kidding.

Then the alarm went off.

Me: Uh oh.

On the computer we found out that Sephiroth is on the move in the Radiant Garden.

Me: Sephiroth is on the move. Lets head out!

Kairi: Tifa, you can come with us if you want. But Chris needs to stay here.

Tifa: Okay. Good thinking.

We were off to the Radiant Garden.

## RADIANT GARDEN

We were in the Radiant Garden and we were in Merlin's Shop.

Me: Okay. We'll use Merlin's Shop as our base of operations for the time being.

Nico: Good idea. Soundwave, find out where Sephiroth's location is. But don't engage him once you find him. He's too dangerous to engage alone.

Soundwave: Roger that boss.

Soundwave sent out his bat and it went to find him. It found him over by the crater that was the Villain's Vale. Sephiroth had long grey hair, black body suit and he had one dark blue angel wing and two more wings were wrapped around his waist like a skirt and he had an 82 inch long sword.

Soundwave: Target sighted. He's on a cliff by the destroyed Villain's Vale.

Me: We need to think about how we're gonna approach him. If we launch a frontal attack like we always do he will sense it and kill us. Not that we can't die.

Katniss: That's a good idea.

Me: We better get Cloud to help us.

Sora: Right. I'll get him.

Me: Okay.

Sora went and got Cloud Strife. We then set out to face Sephiroth. We were on the rocks around the destroyed Villain's Vale and we crawled on them and we saw Sephiroth on the cliff and he was waiting.

Me: (Whispering) There he is.

Nico: (Whispering) His power is unbelievable. This is gonna take every ounce of our power.

Maria (sees Sephiroth with his back turned towards us): That must be him.

Agony: What's he doing?

Terra (Kingdom Hearts): Absolutely nothing.

Numbuh One: Chris is safe, right?

Nico: Yep. Ratchet and both Loris are watching him.

Me: Good. Let's keep it that way.

Carmen: You guys know it's a trap, right?

Ben: Duh. But if we want to stop him, we're gonna have to spring it.

Aqua: Good. Just as long as we're all in agreement. (summons her Stormfall Keyblade) Let's make sure this bastard stays dead.

Me: Lets go!

We went at him and I fired a powerful energy blast and it hit the ground by him and exploded with incredible power and sent him into the air.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Sephiroth flew in the air and he saw us with our power flared up.

Sephiroth: So Team Loud Phoenix Storm has come.

Me: So we meet at last Sephiroth.

Sora: Just like old times right?

Sephiroth: So the Keyblader has come.

Me: And I believe you know Cloud right?

Cloud: You and I have a score to settle Sephiroth!

Sephiroth: You just weren't willing to accept the Darkness, Cloud. Where did that bring you? Back to me. I thought by having you succumb to Darkness, I would finally be rid of you. But you've shown me that's impossible. And as long as you still draw breath, you will always be able to resist the Darkness in your heart.

Cloud (glares at him): Guess I'm stubborn that way.

Sephiroth: And for that, I'm thankful. Because now, I know what I must do. I will make sure to tear you apart to your last atom. And then, once your family hears of your demise, they'll be the ones to succumb to Darkness. But unlike you, they won't have the will to resist.

Sora: We won't let that happen.

Sephiroth: Oh, but it will happen. Because you all won't be alive to stop me.

Me: We'll see about that!

He unsheathed his sword and it was a long sword!

Me: Wow! That is a long sword!

Sephiroth: You like it?

Me: It's very impressive. It's called a Masamune Katana.

Sephiroth: That's correct.

(SEPHIROTH THEME KH2 PLAYS)

But then… Sephiroth just stabbed me in the chest with his sword.

Sephiroth: In all my years of conquest, violence, slaughter, it was never personal. But I'll tell you now, what I'm about to do to you and your stubborn, annoying little friends, I'm gonna enjoy it very, very much.

Me: I don't think so!

Nico then fired a spray of his fear gas from his finger into Sephiroth's face and he kicked him in the face with devastating force.

G1 Silverbolt: Aerialbots, merge into Superion!

Motormaster: Stunticons, merge into Menasor!

They merged and became G1 Menasor and Superion!

G1 Menasor: Welcome, to the end of the road, Sephiroth. Couresty of Menasor! (slashes sword at Sephiroth's)

He lets go of his sword and dodged his strike and I pulled his sword out and we all went at him!

Sephiroth (slashes at Superion): The bigger you are, the harder you'll fall!

Superion: But the more I'll be able to hurt you! (punches Sephiroth away)

I punched Sephiroth in the face and kicked him in the stomach. He teleported and I sensed where he was about to come out and I punched him in the stomach. Nico punched him in the back and he grabbed his wings and pulled hard!

Nico: Sephiroth, you have failed this universe as an angel and as a human being!

Nico then ripped off his 3 wings and Sephiroth screamed in excruciating pain!

Lincoln: Geez! That must've hurt!

Natilee: No kidding!

Luna: Lets show him who he's messing with dudes!

Cloud slashed Sephiroth with his sword and kicked him in the face.

We went at Sephiroth and ferociously attacked him and we were gonna make sure that he pays for his crimes and to avenge the billions of innocent people he senselessly and callously slaughtered. The fighting went on for 45 minutes as we punched, kicked, blasted and slashed him all over the place.

Me: You have terrorized the universe for far too long Sephiroth! Lets finish this guys!

Maria: Right J.D.! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Maria's right arm device and she had Quickmix's powerful Cement Mixer Super Cannon made of pure water.

G1 Menasor: Lets get him! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced Motormaster's Cyclone Gun 100,000-fold and 5 more guns popped out of it.

Maria and G1 Menasor: SUPER LASER MAELSTROM SPIN!

Maria fired a powerful water superlaser blast and G1 Menasor fired a massive cyclone blast and the blasts combined and they slammed into Sephiroth and it exploded and cut and spun him around!

Superion: Lets get this monster! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his arm and it enhanced his Electrostatic Discharger Rifle 100-fold.

Mario: (Italian Accent) Lets-a go! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Mario's device and it enhanced his fireballs 100-fold and it gave him the ability to use his power ups without the need to get them separately.

Superion and Mario: LIGHTNING FIREBALL DEATH BARRAGE!

Superion fired a massive blast of lightning and Mario fired a massive barrage of fireballs and they hit Sephiroth and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Lets finish this bastard! Final Smash time!

Cloud: I'll start us off! This is for all the pain you caused! BUSTER SWORD DEATHSLASH!

Cloud energized his Buster Sword and he slashed Sephiroth right down the middle and cleaved him in two.

(GOKU KILLS FRIEZA THEME PLAYS)

Nico: It's time for your spree of death and destruction to end! SHADOW DRAGON ORBITBLAST!

Nico formed a massive Ball of Red Energy and condensed it to the size of his body and he formed 7 smaller energy balls that orbited around the red energy ball. The 7 energy balls were made of different elements and they were as follows:

1 - Negative Energy

2 - Pollution

3 - Ice

4 - Fire

5 - Lightning

6 - Water and Wind

7 - Earth

Nico threw the energy ball at Sephiroth and it hit him and went all the way up into space and it exploded with unbelievable power!

***KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

The explosion was so powerful and so devastating that the shockwaves from the blast reverberated all over the entire Solar System and it was so powerful that the whole system felt it. When it faded Sephitoth was dead. We felt that his energy was gone.

Me: It worked! Sephiroth's energy signal has completely vanished!

Aylene C.: He is gone!

Rachel S.D.: We won!

Then Sephiroth appeared as a spirit.

Sephiroth: You have not seen the last of me.

Me: Oh yes we have.

Then Sephiroth was sucked right in through the portal into the River of Fire.

Sephiroth: DAMN YOU J.D. KNUDSON!

The portal closed and Sephiroth was gone for good.

Me: Enjoy the River of Fire Sephiroth.

Nico: You said it.

Me: Well done Nico. I'm so proud of you.

Nico: Thanks buddy. (To the viewers) People like Sephiroth are never welcome here and they will pay the ultimate price for their

crimes.

Me: You said it buddy.

We went back to Earth and we never had to see Sephiroth's ugly face again. We gave Sakura the ability to fly with real wings by giving her Sephiroth's wings. But as a result, she got Sephiroth's powers as well. Nico kept Sephiroth's sword as a trophy. It was another victory for Team Loud Phoenix Storm.

THE END

---

Another Fanfiction Complete and a powerful villain has been destroyed.

This is my 800th Chapter! HOORAY! Only 200 more chapters to go. Sephiroth was beyond a shadow of a doubt the deadliest villain I've ever faced in the Kingdom Hearts series. He had a powerful fighting style and his sword REALLY packed a wallop! One swipe too half of Sora's life! WOW! His power was unbelievable! But his crimes he did were absolutely beyond pure evil! Final Fantasy VII gave birth to a Universe-Destroying monster! But he was so awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. The next Clow Card is the Illusion Card.

See you all next time.

# An Evil Girlfriend

In the early morning hours at 1:30 AM we were watching the sky. The reason is because we were watching the annual Perseid Meteor Shower. We saw many meteors fall from the sky and vanished as they entered the atmosphere.

Me: The Perseid Meteor Shower. What a sight.

Nico: It's so breathtaking.

G1 Bonecrusher: You know. For Cybertronians, meteors are sometimes a way for us to get to Earth.

Me: That's interesting.

Nicole: The Perseid Meteor Shower is one of my favorite times of the year because of how many meteors fall from the sky.

Me: I know.

Laney: I love watching this. It's so breathtaking.

Lincoln: Meteor Showers are amazing.

Me: They sure are. I hope no one wishes on all these meteors. Wanda has there ever been a time where a Fairy Godchild wished upon a meteor shower?

Wanda: Hmm. You know I don't really know. But if there was a case like that it would be the biggest number of wishes in one night.

Stellar: That would be incredible.

Me: I agree.

Varie: Look at that one.

We saw a blue meteor.

Me: A Blue Meteor.

Lincoln: Is it just me or is that one getting larger?

Me: It's not just getting larger, it's coming right at us!

Varie: Get out of the way!

We dove to the side and the blue meteor slammed into the ground and it exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

It was a huge explosion and we got up and we saw the impact crater from the meteor. In it was a blue crystal structure on fire.

Me: Wow! What an impact!

Laney: This is not like a meteor I've ever seen.

Lily: Lets get it out.

Lily soaked it and cooled it down and Lana grabbed the meteor and it was a glowing blue crystal structure and it was unlike anything we had ever seen.

Me: This is amazing.

Laney: It sure is.

Later in the morning, we ran some tests and we found out that it was a piece of crystalized comet rock and it was mixed with blue giant plasma matter that hardened as it travelled through space. The Comet that it came from was from another Solar System. This was completely unheard of. It was unlike anything we have ever seen before. The tests shown that it was made of indestructible properties that would be incredibly beneficial to weapons, jewelry and more. We called the new mineral that landed in our yard Stellar Cometite. It's a mineral from the stars.

Laney wore it as a necklace.

Lola: That necklace is beautiful on you Laney.

Laney: Thanks Lola. I figured it would be perfect for me.

Then the alarm went off.

Me: Uh oh!

We went to the computer and we found out that bank robbers are trying to flee the country. They stole $500,000,000 from a bank in Nebraska and are fleeing to Mexico.

Me: Those guys are trying to get over the border!

Lana: Are you sure?

Me: Yep. That's what the projection says. There's one road that goes into Mexico and it goes through El Paso, Texas. We got to get there and cut off their escape route! Lets go!

We were off to El Paso, Texas. Luckily I managed to get a photo of the car the robbers were driving as well as the drivers license. Nico stayed back and he was helping his mom and dad with something important.

---

EL PASO, TEXAS - United States-Mexico Border.

---

We were over in El Paso, Texas and we were right in front of the border gate that leads into Mexico and back into the USA. We alerted the gate guards and the officers at the border gate about the robbers that were coming.

The road was closed off.

We saw the robber's car coming.

Me: Here they come!

Suddenly a massive fireball was shot towards the car and it hit it and exploded in a massive fiery explosion.

KRABBBOOOOOOOOOOOOOOOOOMM!

Me: Nice shot Lola!

Lola: Uh that wasn't me.

?: It came from me!

We turned and we saw a Gene-Slammer. She had a lizard head and she had green slit eyes, razor sharp teeth, a snake like tongue, scaly skin, four fingers with black claws, a huge long tail and her strength and power was incredible!

Me: Whoa! You're half human, half Komodo Dragon!

Scalebreath: That's right. My name is Qin Chen. But in this form I'm called Scalebreath.

Me: I take it this was the work of Dr. Roland Paradigm?

Scalebreath: Yeah. He did this to me three years ago. I am also one of Nico Chan's childhood friends.

Sheila: (to Scalebreath) So you're one of Nico's childhood friends?

Scalebreath: That's right. Let me tell you all how this happened to me.

---

Scalebreath: (Narrating) **I was born into an awesome rich family. I loved my family and friends very much. But my family had a very dark history. You see, we had some dealings with the Russian Mafia and they were deadly dealings. My mom and dad double-crossed the entire Russian Mafia and they robbed them of all their money. But someone ratted out my family. 3 years ago, When I came home to my estate from school on that terrible day, I found my whole estate completely burned to the ground! I hid and found some Russian Mafia members smiling maliciously! They murdered my family! (CRYING HARD)**

Everything that she said happened in her flashback. It was an awful nightmare.

FLASHBACK ENDS

Lincoln comforted her.

Me: I remember that! I was the one that busted those monsters and got them executed!

Laney: Those monsters!

Me: The entire Russian Mafia was there that night and I got them all executed before I moved to Michigan. It was over in Delaware in early 2016.

Lana: Those dirtbag freaks!

Me: And it sent a message to Russia as well.

Lola: What was it?

Me: (Speaking Russian) Эти лохи русской мафии - уродливые монстры и демоны земли. Любой, связанный с мафией, умрет ужасной и мучительной смертью.

Luna: What does that mean dude?

Me: It means Those fuckers of the Russian Mafia are ugly monsters and demons of the earth. Anyone affiliated with the mafia will die a horrible and agonizing death.

Lori: The Russian Mafia is literally the worst! They are true monsters from Hell!

Me: They are worse than that! After that terrible day all of Interpol put all of the European Mafia on their most wanted list and made them priority number 1. Within the course of 28 days they arrested all of the entire European Mafia in one fell swoop. 3 years later, I caught the guy that ratted her parents out. It was Helga Pataki's dad, Bob. Turns out he has a very shady record.

I revealed that Big Bob Pataki was really shady and he had major ties to the Russian and Italian Mafias and when he was divorced from Miriam the FBI went after him and they arrested him and he was indicted on numerous counts of fraud and more. He was sentenced to 40,203 years in prison without parole in the Florence Supermax prison and ordered to pay $602,937,957,937,947,894 in restitution to Miriam and to the world. Everyone was enraged that Helga's father would sink so low. But we were glad he was put in the Alcatraz of The Rockies to rot.

Scalebreath went with us back to the estate. We arrested the robbers and they were thrown in jail.

Back at the estate Scalebreath was ready.

Scalebreath: Okay. I'm ready to be turned back.

Me: Okay Qin. But this is gonna hurt really bad.

Scalebreath: Okay. I'm ready.

Me: Okay. Boys cover your eyes.

I snapped my fingers and covered my eyes. Qin was reverting back. Qin had her skin change back and she had green eyes and her black hair grew back and her hands had her claws shrink and she had the body of a goddess. Her tail went back in and her body was back to normal.

Qin was an oriental girl at 16 years old.

Qin: What a rush.

But she was totally naked.

Qin: (flexes her naked body) Wow! How much did my human body change?

Me: A lot but…

Qin saw that she was naked.

Qin: It has been a while.

Maria: We'll take you to get some clothes. But first you need a shower.

Qin: Good idea.

Qin went at took a shower.

In Leni's room they got the clothes ready.

Qin was done with her shower and she had her clothes on. She had a green shirt with a Komodo Dragon on it and she had a jungle sleeveless trench coat on with the kanji for Fiery Komodo Dragon of Justice on the back. 燃えるような正義の竜 She had a green plaid skirt on and she had blue denim jeans on and she had black sandals.

Qin: Wow! I look so awesome!

Leni: You totes look amazing in these clothes Qin.

Then Qin started feeling something.

Qin: Guys?

G1 Ironhide: Yeah, Qin?

Qin: I think I'm starting to change back into Scalebreath again! (her teeth sink into her gums)

Me: I got this!

I snapped my fingers and she reverted back and she now had full control of her changes.

Qin: Ah that's better!

Me: Qin, how did you become Scalebreath?

Qin: I was looking for food as I was wondering the streets. I got a burger spiked with Komodo Dragon DNA.

---

Qin: (Narrating) **I was walking down the street. Ever since my parents died I had no one else to turn to. I was all alone and I was completely miserable. I hadn't eaten anything in 5 days and I was starving. But then I was given a burger by a stranger and I took a bite and I then began to feel funny. I was in a lot of pain. At first I thought it was food poisoning and I decided to take a nap. I took a nap in a box. Then the next thing I knew, I woke up as Scalebreath. It was a horrifying sight.**

Everything Qin said happened in the flashback.

FLASHBACK ENDS

Me: That Roland Paradigm will pay for his crimes.

Leni: He totes will.

There was a knock on the door.

Leni: Come in.

Nico came in.

Nico: What's going on here? (Gasp) Qin? Is that you?

Qin: Nico!

They hugged for the first time in 7 years.

Nico: I'm so glad you're all right.

Qin: I missed you Nico.

Nico: I missed you too. J.D. found you?

Me: We found her in El Paso, Texas. Well she found us. She's a gene-slammer because of that fuckhead Roland Paradigm.

Nico: What was she slammed with?

Qin: I was slammed with Komodo Dragon DNA. In my Gene-slammer form I am called Scalebreath. I have the strength of 100 men and I can breath fire like a real dragon.

Me: She roasted the robbers car like it was a marshmallow.

Nico: Wow.

Qin: But Nico look at you. You sure have changed from that little boy with the monkey tail I remember in 2nd grade.

Nico: Feels like forever huh?

Poromon and Poliwag saw her.

Poromon: Qin!

Poliwag: Qin!

Qin: Poliwag! Poromon! (Hugs them) It's great to see both of you again!

Poromon: We missed you so much.

Poliwag: Same here.

Lana then came in.

Lana: Guys! You got to see what's on TV! You aren't gonna like it!

We went down to the living room.

We went and saw on the TV that CAROL PINGREY HAD ESCAPED FROM PRISON!? WHAT IN THE FUCKING HELL IS GOING ON!?

News Announcer: We interrupt this program to bring you this urgent report!

We saw a mugshot of Carol Pingrey.

News Reporter: Carol Pingrey, convicted rapist has escaped from the Michigan State Prison. She was convicted of 1st Degree Rape and was sentenced to life in prison and was registered as a Sex Offender. Carol Pingrey escaped from prison by going out through the prison trash. She hid in a garbage bag.

Me: That's very clever.

Carol: I would never do something like this!

Me: Let me see here.

I pulled up the satellite scan and it showed that there was 2 blips on the radar. One was purple indicating the Carol Pingrey we all know and love and the other was light blue indicating the 2nd Carol Pingrey.

Me: This is so unusual! How can Carol be in two places at once?

Sakura Avalon: This is so unusual.

News Reporter: Carol Pingrey was convicted of raping young Lincoln Loud and the video we're about to show of the crime is extremely graphic. So viewer discretion is advised.

What we saw next was absolutely horrifying! We saw the evil Carol, Belle Muldoon, evil Becky, evil Fiona, evil Dana and evil Whitney raping Lincoln in a horrible manor and our eyes were burning and we had nosebleeds and more.

Me: (SCREAMS!) MY EYES!

Nico: (SCREAMING) THEY ARE BURNING!

Carol: I can't believe that this evil version of me would do something like this!

Becky: This is a nightmare!

Luna: DUDE! THIS IS AWFUL!

Sam S.L.: I CAN'T BELIEVE THIS!

Syd: How could this evil Carol do something like this!?

Dana: And she turned us against our friends!

Whitney: No kidding!

Me: This evil Carol is out to ruin Carol's image!

News Reporter: Sources tell us that Carol is out to get revenge on one Lori Loud.

Lori: Me?

News Reporter: This note was found.

"Prison Guard fools,

This is Carol Pingrey. If you found this note then I have escaped from your puny prison. My goal is get revenge on my most hated bitch of a fucking rival Lori Loud. I will never forgive her or her siblings for locking me up in prison! If it weren't for them I would've gladly had my way with her brother! I will now have my revenge by killing her and her family! You fuckers will never get me.

Carol Pingrey.

P.S.: Go to hell, all of you!"

Me: So this Carol is fueled by vengeance. But the question is how did this evil Carol get here?

I looked it up and it showed that there was a remnant of a Transdimensional Vortex in the ground. But the scanners never detected it.

Me: This is so unusual. But we have an evil Carol running amok.

Then a rock smashed through the window and a note was wrapped around it.

I went over to it and picked it up.

Me: It's a note. (Reading)

"Lori,

I got out of prison and I will not stop until I have my revenge.

You ruined my life and I will make sure you suffer for it. When I'm done killing you and your fucking family, little Linky will be all mine.

I'm challenging you to a match of boxing at the boxing arena in the middle of town. Be there or be square.

Love Carol."

Lori: That little evil viper is gonna literally wish she was never born!

Carol: This version of me is pure evil!

Me: She's a total psychopath!

Laney: More like a Sadistic Psychopathic Torturer.

Bai Tza: Even my former brothers and sister never stooped to raping innocent children!

Teresa: Good to know. And back when the Meta Breed was still active, Ebon treated threats of raping children very seriously. There was this one snake-like Metahuman who mentioned that he was going to rape a police officer's 5 year old son. Ebon didn't like that threat.

Eddy (chuckles): What did he do? Give him a fine.

Teresa (seriously): He snapped his neck.

Eddy got wide eyed after that.

Poison Ivy: Raping children is also taken seriously in the Legion of Doom. Back when I was still a member, there was this time where one of Mad Hatter's thugs wanted to rape a young girl who Mad Hatter had mistaken as Alice. Grodd wasn't happy when he found out. You know how Captain Cold and the Central City Rogues have a code of honor?

Spiderman: Flash mentioned it a few times.

Poison Ivy: That code of honor is against raping women or children. So Grodd had Snart use his Cold Gun to make an icicle that killed that thug of Mad Hatter's through the heart.

Eddy (shocked): All of a sudden, I have a great respect for most of the villains still alive. Especially Captain Cold.

Spiderman: Me too. I'm starting to think that Snart either set that skunk loose on Leni as a prank or he didn't have a particular target in mind for it.

Me: I'm starting to think the exact same thing. Lets see here.

I looked up the boxing arena in the note and it showed that the only boxing arena was the Abandoned Boxing Stadium that shut down 10 years ago.

Me: She wants a fight at the old abandoned Boxing Stadium.

Lynn: That place was shut down 10 years ago.

Luan: She is really wanting to destroy us.

Maria: Carol, I'm gonna help you against this evil version of you. You helped cure me of the Bang Baby gas. Now it's my turn to return the favor.

Carol: Thanks Maria.

Me: If it's a fight she wants it's a fight she's gonna get. No one ruins Carol's image!

Carol: You got that right! This version of me is going too far!

Maria: No one ruins my sisters reputation!

Me: Lets get her guys!

We went to the Abandoned Boxing Arena.

---

ABANDONED BOXING ARENA

We were at the Abandoned Boxing Arena. It was a really run down place with a lot of holes in the walls, a lot of things falling apart and more.

Me: Boy this place has seen better days.

Lincoln: No one has been in here for years.

Carol: This place was shut down due to budget cuts and it was left to sit here like a rotting wound.

Me: That stinks. But after we're done here, lets reopen this place under new management.

Laney: That's a great idea J.D.!

We saw the arena and it was still intact. But the ropes were cut and broken.

Evil Carol then came out! But she was wearing Blue Clothes and she had blood red eyes that were overflowing with 100% pure evil!

Evil Carol: So glad you all could make it!

Me: What the hell would possess you to do such terrible things to Lincoln!?

Evil Carol: I've always wanted a little brother and I couldn't get one! So I had to steal one when my puberty kicked in!

Superman: Out of all the villains we've faced so far, you are by far the worst!

Evil Carol: Look who's talking! I mean, do you even see yourselves right now? You're standing there with Aquamaria, Bonecrusher, and Bai Tza and you all still think you're the good guys?!

Maria: For your information, I was cured of my Bang Baby name. I've been given my humanity back thanks to your good self and my friends!

Carol: You're even worse then Morgan!

Evil Carol: Who's Morgan?

Carol: She was my Split Personality and she was the reason why my father hated me! But now I'm free of her!

Evil Carol: Wait a second. You look like me!

Carol: I AM you! But I'm never going to become like you! I may have been like you before but that was because of that cursed fucked up fool Chloe! It was because of her that I was like you! I would never rape Lincoln Loud! He's like the greatest little brother I've ever had!

Nico: I can't believe I'm about to say this but, Carol Pingrey you have failed this world!

Me: You got that right!

Edzilla: BAD CAROL WILL BE SMASHED! (roars at Evil Carol, knocking her down)

Evil Carol: Your breath is horrible!

Then the Grim Reaper Heartless appeared!

Jack Sparrow: (sees the Grim Reaper Heartless) I can't say I'm glad to see this one again.

Me: You guys take down that heartless!

Naruto: Roger that bro!

They went at the Grim Reaper Heartless.

Me and Nico were eating popcorn.

Everyone went at the Grim Reaper Heartless.

Naruto punched it and kicked its scythe out of its hands and Megan fired a Phazon energy blast and it hit it and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: (Eating Popcorn) Mmm! What a show!

Nico: You said it!

Penny M. fired a massive amount of thorns and barbs from her hands and they skewered the Grim Reaper Heartless and poisoned him.

My Dark Orb detector went off.

Me: Uh oh.

I looked it up on a holographic orb and saw that me and Nico were right on top of it.

Me: It's right here.

I then felt a strange lump in my seat and I reached into the seat cushion and pulled out a Dark Orb as big as a water balloon.

Me: Here it is.

Nico: That's funny. You were sitting on it.

Me: That is funny!

I crushed the Dark Orb and we got a massive power increase!

G1 Ironhide: Lets get this monster! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his weapons 100-fold.

Sheila: I've always wanted to try this! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and she sprouted Shredlegs spider legs.

G1 Ironhide and Sheila/Shredlegs: SHREDSTORM MISSILE ASSAULT!

Sheila slashed up the Grim Reaper Heartless all over the place and

Ironhide fired numerous missiles and they all exploded.

G1 Bonecrusher: Time for some pain! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his bulldozer strength 100-fold.

Bai Tza: Time to dish out some pain! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and she turned into a Dragon made entirely of pure water.

G1 Bonecrusher and Bai Tza: DRAGONSTORM BULLDOZER DEATHBURST!

Bai Tza went at the Grim Reaper Heartless and slammed into it with the devastating power of a megatsunami and Bonecrusher slammed into the Grim Reaper Heartless and killed it.

The fight with the Evil Carol then got underway. Carol punched the Evil Carol in her face and punched her in the stomach and kicked her in the face and knocked out some of her teeth. Maria fired a massive blast of water at the evil Carol and it slammed into her with devastating force and Evil Carol was wet.

Carol: You will pay for ruining my image! GHIDORAH LIGHTNING BURST!

Carol fired a powerful blast of Gravity Lightning at the Evil Carol and it hit the floor and exploded all over the arena.

KRABBBOOOOOOMMM! BOOM BOOM BOOM BOOM!

Maria: Now you will face our wrath! MEGATSUNAMI WATERGUN DRENCH!

Maria fired a massive blast of water and it slammed into the Evil Carol with devastating force and she was all wet and more.

Lori: I can't believe you literally did these horrible crimes to our brother!

Lincoln: They never happened to me.

Me: Must be another Lincoln from her universe.

Lori: Maybe. Lets see how this Carol likes messing with the power of the Loud House! CYCLONE TORNADO SPIN!

Lori fired a massive blast of wind and spun the Evil Carol around in a massive tornado and she was really dizzy.

Leni: You totes make me want to throw up! BAD GRAVITY FASHION!

Leni lifted up a bunch of chairs with her gravity powers and they slammed into the evil Carol and bashed her all over.

Luna: You are the bad string in our music! Bad to The Bone! SIREN WATER SONG!

Luna played a song on her guitar and a massive blast of singing water slammed into the Evil Carol and it drenched her.

Luan: No one hurts our brother! You need to See the Light! (Laughs) Get it? But seriously, you will pay for hurting our brother! RAINBOW LIGHT RAYBURST!

Luan fired a beam of Rainbow Light from her hands and it hit Carol and exploded.

Lynn: I will knock all your teeth out and rip your fucking legs off! VOLCANIC METEOR BURN!

Lynn fired a massive barrage of volcanic lava and it burned the Evil Carol!

Lucy: I wish death upon you demon! FEAR LIGHTNING COWARDICE!

Lucy fired a massive blast of black lightning and it slammed into Evil Carol and electrocuted her. But then the Evil Carol saw what she was terrified of the most: Her Parents Disowning her!

Laney: You are a bad sister to Connor and to the Carol we know! POISON BRAMBLE WHIPLASH!

Laney grew numerous bramble vines with poison ivy and they lashed the Evil Carol and she was itching like crazy.

Lana: Lets put you on Ice! SUBZERO ICESTORM FREEZE!

Lana fired a massive blast of Ice Lightning and froze the Evil Carol in a block of ice!

Lola: Time to burn! FIRESTORM STARBURST BARRAGE!

Lola fired a massive barrage of fireballs and they turned into stars and they slammed into the Evil Carol and they exploded all over her.

Lisa: You are an absolute menace to society that is not fit to live among us! NEUTRON SLASHSTORM SURPRISE!

Lisa formed a sword with a blade made of atomic neutrons and she slashed the Evil Carol all over.

Lily: And you will never be let out of prison again! IRISH WATERSLASH DANCE!

Lily fired a powerful blast of water and the blast turned into a circle of swords and they danced around the Evil Carol and Slashed her.

Lincoln: This is for hurting another version of me! LIGHTNING ELECTROCUTION LOBOTOMY!

Lincoln fired a powerful blast of lightning and it electrocuted the Evil Carol with 30,000,000 volts of electricity.

Evil Carol was knocked down. Then police sirens were heard and the police busted in. They grabbed the Evil Carol and rearrested her.

Me: You're going back to prison for a long time. This time we're putting you in one of our space prisons.

Vince: You insulted my fiancé and that will cost you dearly!

Me: Yep. Well said partner. Get her outta here.

They took her away. During the fight, Nico caught a Galvantula and an Alomomola.

Maria: (To the Viewers) No one messes with my sisters name and gets away with it. What the evil Carol did was beyond pure evil.

Me: Yep.

---

Back at the estate Carol was glad her evil self was gone.

Carla: Mommy, I'm so sorry about what that bad you did.

Carol: It's not your fault Carla. That bad me brought all this on herself.

Jake came in and he had a bag of Groceries with him.

Me: Hey Jake. What's shaking?

Jake: Not much. I'm gonna make you all lunch. Want to watch J.D.?

Me: Sure.

I went into the kitchen.

Jake: [walks over to the window and looks up] I am ready to receive instruction from the realm of creation above me and the sandwich I am about to conceive. I am open; use me. [Jake turns on some classical music and starts dancing. He takes a deep breath. The scene cuts to him washing vegetables and then sharpening knives.] [sharpening knives] One, two, three, four, five, six. [putting herbs on a steak] Rosemary, thyme. [puts the steak in a bag, seals it, and places it in a pot of hot water] Sous-vide. Keep that at 135 degrees. [cuts a loaf of bread in half and uses a blowtorch to toast the inside] All right, now we're gettin' somewhere. [places each ingredient on the bread as he says their names] Cream cheese! Pickles from my boy Prismo! And some dill! [grabs a bird from the windowsill] Diced boiled eggs! Bird from the window! Yeah, baby, now we're rollin'!

Whoo! Common cucumber! Sliced Roma tomato. Sweet yellow onion-organic. [tears up] Oh, almost done. [wipes tears away and puts them in the sandwich] Tears for salt. Meat prepared sous-vide. Bacon. [holds up a lobster] You're the most important part. [He puts the lobster in a pot of boiling water, and its soul escapes. Jake shoos it onto the sandwich.] Lobster soul. [puts on the top piece of bread, completing the sandwich and causing it to glow blue]

Me: Whoa!

Jake: I made a sandwich like this before J.D.

Me: That is the perfect sandwich!

Jake: Think you can make more of this sandwich J.D. with a snap of your fingers?

Me: Coming right up Jake.

I snapped my fingers and made several more sandwiches like it. We put the sandwiches on a platter and there was enough for everyone. Everyone grabbed a sandwich and we were eating them.

Me: (Eating Sandwich) MMM! This is the most awesome sandwich ever Jake!

Lori: This is literally the best sandwich ever!

Carol: So delicious!

Nico: You have succeeded in making the most perfect sandwich ever Jake!

Sakura Avalon: I've never had a sandwich this good!

Me: If everyone had sandwiches like this everyone would love them Jake.

I got an idea. I decided to add Jake's sandwich to Lynn Sr.'s restaurant menu and it was a perfect idea for him.

Later that night in the backyard we were watching the stars. Then I sensed a Clow Card.

Me: There's a Clow Card here.

Sakura Avalon: I can feel it.

Li Syaoron: Me too.

A blinding ball of light appeared and out of the light appeared a woman. It was Natasha Avalon, Sakura Avalon's deceased mother.

Me: It's Natasha Avalon!

Sakura Avalon: Mom?

Me: Wait a second! That is not Sakura's mom! RETURN TO YOUR POWER CONFINED!

I formed an energy card and the spirit was sucked into it. It was the Illusion Card. 幻

Unlike most of the other Clow Cards, Illusion has no fixed shape, but it can change it's form based on whatever the watcher expects to see. While transitioning between forms or unable to hold one, it resembles a shifting, kaleidoscope-like pattern. This could perhaps be its default form. The colored part on the card's image near the center has the form of a kind of gem.

Kero: The Illusion Card! I remember this one.

Me: I think it still has some hostility towards Sakura.

I signed the card with my name.

In the Moon Prison, the Evil Carol now lives in Giselle Razor's former cell in Solitary Confinement. She was sentenced to an additional 2 consecutive life terms for escape and she now lives in total isolation.

As we were having a relaxing time we got an unexpected visit from the spirit of Homer Simpson's dad, Abraham Simpson. He was the worst father ever.

Homer: Dad?

Abraham Simpson: My stupid mistake of a son!

Homer: You never loved me at all dad! You are the reason why mom ran away!

Me: You are also the worst father ever! You are nothing more than a crazy old codger that cares about no one other than himself! You make me sick! If you ask me Abraham Simpson, you are the biggest mistake in the history of mankind!

Luigi then sucked him into his machine and made him into a portrait.

Me: And you can just go fuck yourself.

Homer: Thanks Luigi. I will keep this in my room to reminisce on the good times before Springfield made our lives hell!

Homer put the portrait on his wall.

THE END

---

Another Fanficton Complete and another evil villain brought to justice.

I got the idea for this chapter out of inspiration from Batdude365's fanfic A Carol of Revenge. That version of Carol was the most evil version of her I've ever seen! But great job on an awesome story and thanks for the inspiration and credit goes to you. The annual Perseid Meteor Shower was earlier this week and it's the biggest meteor shower of the year. The Sandwich scene was from the episode of Adventure Time called Time Sandwich. Abraham Simpson was the worst father ever. He was the worst ever father in the history of the armpit of America's Buttcrack. Nico made Qin Chen as his OC. The next Clow Card we're going after next is the Sleep Card. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time

# The Zodiac of Gravity Falls

At the estate, things were very quiet. Sakura Avalon was making lunch and we were watching TV and playing card games.

Thundercracker: You sure the 5 of you will be ok at McDonald's, Nico?

Nico: We will Thundercracker. Qin and I have a lot of catching up to do after we haven't seen each other for 7 years.

May: So we have to get to know her.

Thundercracker: That's understandable. But have a good time boss.

Nico: Thanks Thundercracker. We will.

Me: Have a good time guys.

Nico: We will man.

They left.

---

At the McDonalds in the middle of town, Nico, Qin, May, Britney Crosby and Robby Schwartz were having awesome burgers.

Qin: Good burgers Nico.

Nico: Thanks Qin.

Qin: So what have you been doing over the course of the last 7 years?

Nico: You missed out on a lot Qin. As I'm sure you heard about my exploits in the Digital World.

Qin: I sure did and you told me what happened with Ken. That was horrible.

Nico: Yeah. But J.D. and everyone helped me get over my grief and my PTSD.

Qin: I'm so happy for you Nico.

May: And Nico is also the most amazing boyfriend ever!

Nico: Me and May have been dating for almost a year now. Ever since I moved here to Gotham Royal York.

May: Yep. We're now on our 3rd date.

Qin: That's wonderful Nico! I'm so happy for the both of you.

Nico: Thanks Qin. J.D. and everyone are true friends. They are like brothers and sisters to me and everyone.

Robby Schwartz: (to Qin) Ever since Nico and the others rescued me, Britney, and the other Very Special guests from Horrorland, he's been like a big brother to us.

Nico: That's great that you think of me with such high regard Robby.

Robby Schwartz: It's true man.

Britney Crosby: Yep.

Qin: So I heard you all are going after the Goosebumps Monsters.

Nico: Yep. I'm now the leader of my own branch of Team Loud Phoenix Storm. We're called the Goosebumps Monster Busters. Our goal is to destroy all the Goosebumps Monsters one by one.

Qin: That's amazing! I heard you were tormented by Slappy the Evil Living Dummy.

Nico: He was a nightmare brought to life for many people.

Britney Crosby: And I'm one of his victims.

Qin: That's awful Britney. I'm so sorry that happened to you.

Britney Crosby: It's all right Qin. But thank you. At least we'll never have to see Slappy ever again.

Nico: Yep. And he'll never torment us ever again.

Qin: Good. And Nico why did Thundercracker call you boss?

Nico: Oh you don't know about this. But 3 months ago we destroyed the biggest and most powerful Transformer of them all. The Transformer Devil himself - Unicron.

May: That was one of our most explosive and unforgettable battles.

Qin: Wow! I heard about all that!

Nico: Yep. It was one of the biggest battles we've all ever had. It was before we formed Goosebumps Monster Busters. Team Loud Phoenix Storm and the Autobots and Decepticons of Cybertron, Earth, Velocitron, Animatron and Gigantion all formed an incredibly powerful alliance and put aside their differences to work together to destroy Unicron and rid the entire universe of his ultimate evil. We all worked together and destroyed him. After that I was officially made the new leader of the Decepticons and I'm leading them on the right path to redemption.

Qin: Nico that's so amazing!

Nico: Thanks Qin. I was made the leader of the Decepticons after we killed Megatron on one of our missions.

May: It was one of the longest and toughest battles ever.

Robby Schwartz: I heard about that. That's amazing!

Britney Crosby: It sure is.

Nico: Yep and I got this awesome medal that shows my leadership of the Decepticons. I got it for my 16th birthday.

Nico showed them said medal.

Qin: That's an amazing medal.

Robby Schwartz: That's an awesome medal. It's the symbol of the Decepticons.

Nico: That's right. It shows that I'm their leader.

Qin: Who was the leader of the Decepticons before you?

Nico: It was Megatron. And you would hate this guy Qin. He was the worst ever.

Nico revealed the full extent of Megatron's Crimes.

---

Megatron was a gladiator from Tarn, who sought to turn Cybertron into a cosmic dreadnaught. To win his war for conquest, Megatron's Decepticons developed the art of transformation. Reawakening on Earth in 1984, Megatron was ousted from command by Shockwave, and their power struggle continued for sometime until Optimus Prime killed himself in a video game duel.

Refusing to believe his nemesis was dead, Megatron committed suicide by blowing himself up on a space bridge. However, the explosion had merely deposited him in the Dead End region of Cybertron, where he wandered as an empty, with no recollection of who he was.

After regaining his memories, Megatron forced Ratchet to turn Starscream into a Pretender, but the ploy failed and the two were grotesquely fused in a trans-time dimensional portal explosion. Fixit separated their bodies but the two remained in stasis aboard the Ark. They reawoke when Galvatron, a future version of Megatron, attacked, and Ratchet crash landed the ship.

In one universe, Cobra rebuilt Megatron into a tank, and he allied with Optimus against Jhiaxus, his Cybertronians, and the Swarm. In another, fifteen years of peace passed before Megatron rose again. In a third, he woke up in 1994, and proceeded to lay waste to the Earth, awaiting the day Optimus Prime would return.

Megatron is the main antagonist of the series. He was responsible for bringing Cybertron out of its Golden Age when he restarted the

Autobot/Decepticon civil war nine million years ago. Among his first actions was the fatal wounding of a young dock worker named Orion Pax, who was rebuilt to become Megatron's mortal enemy, Optimus Prime.

Megatron's forces boarded the Autobots' spacecraft when it was on a mission to search for new sources of energy on other planets, and was knocked offline like all the other Transformers when the craft crashed on prehistoric Earth. When both factions reawakened in 1984, Megatron made it his mission to pillage all of Earth's natural resources and enslave its populace, with the goal of revitalizing Cybertron and dominating the entire universe.

His plans were by turns cunning, wicked, outrageous, and often, utterly, utterly ludicrous.

Megatron is the secondary antagonist of the film. Taking several years after the cartoon in 2005, Megatron wages a full-scale, geniusly orchestrated assault on Autobot City, crippling the Autobot's ranks and killing several high ranking warriors. When Optimus Prime arrived to the battle, he gunned down almost every Decepticon singlehandedly before taking on Megatron himself. Though Optimus got the upper-hand and was readying to execute his nemesis, a young Autobot named Hot Rod jumped in the way when he noticed Megatron was reaching for a firearm. Megatron managed to incapacitate Hot Rod and mortally wound Optimus before the latter punched the Decepticon commander off the peak of Autobot City. Prime later died from his wounds. Soundwave recovered his fallen leader when the Decepticons began to retreat, but Starscream eventually threw Megatron's wounded body into space to rust along with several other wounded Deceptions before taking his place as the Decepticon leader. Floating in the voids of space, Megatron was summoned by the omnicidal chaos god Unicron where the former was forced to become the latter's apprentice and enforcer. In return, Unicron gave Megatron a new body and titled him as Galvatron.

The original Megatron appears in Season 2 of Beast Wars, where it is revealed that the current Megatron was acting on his predecessor's orders.

Later on, the original Megatron makes a physical appearance in Season 3, where the Predacon Megatron takes the original Megatron's spark, making the newer Megatron obtain his dragon form. However, in a deleted scene, in the series finale, the original Megatron's spark is placed back into his body.

Megatron also has another form in the G1 series named Galvatron, a new body given to him by Unicron.

Megatron led his Decepticons to Earth in the year 2010 where they fought the Autobots for possession Mini-Cons Megatron eventually managed to obtain the first two Mini-Con weapons, the Star Saber and the Skyboom Shield. Thanks to his tactician, Thrust, Megatron was able to obtain the final weapon, the Requiem Blaster, which he combined with the other two to build the Hydra-Cannon. Megatron fired the weapon at Earth, but Optimus Prime took the blast to save the planet, killing himself in the process.

Prime's death plunged Megatron into a deep depression, having lost his greatest opponent without the chance to finish him with his own hands. However, the Mini-Cons were eventually able to resurrect Optimus. Megatron was later among the Transformers who had their powers boosted by their Mini-Cons after being attacked by Nemesis Prime, becoming Galvatron and returning to Cybertron with a renewed vigor for conquest.

Despite the emergence of Unicron Galvatron ignored the threat, forcing his lieutenant Starscream to sacrifice himself to make his leader see the truth. Realizing the threat Unicron posed to the universe, Galavtron rallies all the Decepticons to form an alliance with Optimus and the Autobots to stop Unicron for good. Galvatron entered Unicron's body along with Optimus Prime and traveled to the center of it. They were absorbed into the chaos god's body and mind, but when the Autobots' human allies freed the Mini-Cons from Unicron's thrall, Galvatron too was freed. Believing the threat of Unicron was over, challenged Prime to a final duel. However, the energies released in the battle reawakened Unicron. Galvatron believed that the only way to end the circle was to destroy himself and so he chose to sacrifice his life rather than live in an era of peace, plunging himself into Unicron's maw. In a flash, the two were seemingly destroyed.

Although he was believed dead by both the Autobots and Decepticons, Megatron, like Unicron, had survived the final battle. However, his body was a decayed husk absorbed into the equally damaged body of Unicron. Megatron lay dormant within Unicron for ten years until the being called Alpha Quintesson began his plan to re-energize Unicron. Seeing an opportunity, Megatron siphoned off some of the Energon that Alpha Q's Terrorcons stole, working towards his own rebirth. To turn the Decepticons to his side, Alpha Q forged a sword from Megatron's spark, but when an enraged Scorponok stabbed Megatron's corpse with the blade, Megatron was fully revived. Taking the sword for his own, Megatron proceeded to take control of Unicron's body, sending Alpha Q fleeing in Unicron's head. Megatron thus restarted his campaign against Earth and the Autobots, seeking energon to reactivate Unicron so he could use him as the ultimate weapon.

Megatron eventually succeeded in bringing Unicron to the vicinity of Cybertron and transforming the planet-eater to robot mode. However, in an attempt to stop him, Alpha Q rammed Unicron's head, charged with the positive Energon of Earth, into Unicron's body. This triggered a reaction that tore a rupture in reality that led to a new region of space where Alpha Q recreated all the planets Unicron had consumed. Megatron immediately saw these new worlds as targets to acquire more Energon, and after another series of attacks, Megatron successfully amassed enough to fully reanimate Unicron. However, the chaos-bringer's consciousness invaded Megatron's body, taking over his mind.

Although Optimus Supreme was able to destroy Unicron's body, Unicron's mind lived on within Megatron, subtly directing him to attack Cybertron and uncover a reservoir of Super Energon beneath the planet's surface. Megatron immersed himself in the powerful liquid, causing him assume a more powerful form, once again taking the name of Galvatron. Taking control of the planet, he forced the Autobots underground with Energon gas and used the planet's Energon Towers to relocate Cybertron to Alpha Q's region of space. Once there, Galvatron once again coated himself with Super Energon, causing growing to a colossal height. However, it was at that point that Unicron's influence seized control of his mind and directed him out into space to re-merge with his spark. Optimus

Prime went battle the Unicron-possessed Galvatron and, after Galvatron's hatred of Unicron caused his consciousness to surface again, Prime drained Unicron's influence from Galvatron and sealed it within himself.

Enraged by Unicron's manipulations, Galvatron decided to destroy Unicron's spark, but wound up being possessed by it once more. While struggling to fight the control of Unicron, Galvatron was confronted by Optimus Prime once again. Rather than fight him, Galvatron instead flew into the foundling sun created by Primus, igniting the star and seemingly destroying himself rather than allow Unicron victory.

Ten years later though, the star would collapse, creating a black hole which threatened the existence of Cybertron and the rest of the universe. The collapse of the star also Megatron allowed his confinement within the sun. Megatron also merged his body with the remnants of Unicron's shattered form to increase his power with the energy of the dark god.

As the Autobots prepared to evacuate Cybertron in the wake of disasters caused by the black hole, Megatron stole a holographic map containing locations of the Cyber Planet Keys that could be used to seal the black hole from Vector Prime. Operating out of a fiery pocket dimension, Megatron schemed to used the world-shaping power of the Cyber Planet Keys and their focal Omega Lock to accelerate the universal degeneration created by the black hole, destroying the universe and using the keys to remake it in his own image.

Leaving Starscream and Thundercracker to search for the Omega Lock on Earth, Megatron located the resting place of the first Cyber Planet Key on Velocitron, the Speed Planet. Recruiting Ransack and Crumplezone to his cause, Megatron deduced that the planet's racing trophy was the key. After failing to defeat planet ruler Override in a race to learn more, he left Ransack and Crumplezone to compete in tournaments and win the trophy and turned his attention to the Jungle Planet, home of the second Cyber Planet Key, where he ingratiated himself with planet ruler Scourge. Both missions ultimately ended in failure, however, when the Autobots acquired the keys.

Attempting to find the third key, Megatron discovered that he had been betrayed by Starscream, who switched out the planet map with a duplicate that led him to a dead sector of space and sealed him within a metallic sphere. Scourge was able to liberate him a short time later, but in that time, Starscream had obtained the third Cyber Planet Key from Earth for himself along with the Omega Lock and other keys. Megatron made a beeline for his treacherous lieutenant, but was intercepted by the Autobots Hot Shot, Red Alert and Scattorshot, who intended to hold him off until the other Autobots could stop Starscream. Starscream's attempts to harness the Earth Key caused a release of energies that gave Megatron a new Cyber Key power, the "Death Machine Gun," which he used to mow down the Autobots in his path.

The Autobots managed to retake the keys from Starscream, Megatron mounted another attack where he stole the keys and retreat into his pocket dimension. Prime pursued him through the portal and defeated him in a pitched battle, reacquiring the lock and returning to Cybertron. Megatron attempted to pursue him, but Vector Prime combined his portal-opening powers with the Cyber Planet Keys and collapsed Megatron's dimension in upon itself, resulting in Megatron's destruction.

However, the power of Megatron's Unicron armor caused him to return as a ghost-like entity composed of pure darkness. Megatron returned to Cybertron and used Unicron's reformatting powers to upgrade the injured Crumplezone into Dark Crumplezone. The Autobot Leobreaker attempted to attack him, but was unable to stop him from completely restoring his physical body. Megatron then used the lingering darkness to create an evil doppleganger of Leobreaker, Nemesis Breaker, out of the Autobot's own dark thoughts. Merging with Nemesis Breaker to form Dark Claw Mode, Megatron battled Optimus Prime and Leobreaker's Savage Claw Mode, until news of the location of the fourth and final Cyber Planet Key caused him to exit the battle.

Megatron and his party of Decepticons were guided through a spatial warp by the mysterious Soundwave to Gigantion, the Giant Planet, home of the final key. Megatron engaged the world's leader, Metroplex, for possession of the key only to be defeated in seconds.

Consumed with rage, the power of Unicron within his armor reached out and detected the energies of the Giant Planet's Cyber Planet Key, drawing upon them and infusing Megatron's body with them. In his dark, shadowed form, Megatron decimated the Autobot forces before being confronted by Optimus Prime. Megatron then revealed his completed transformation - having once again become Galvatron.

After taking revenge on Metroplex, Galvatron went after the Giant Planet key. Though the Autobots were able to acquire the key, Galvatron managed to steal the completed Omega Lock soon after. Right after doing so though, Megatron was attacked by Starscream, and the two battled for possession of the artifact. Galvatron claimed a slim victory in the battle, with the sheer amount of energy released in the clash actually blasting Starscream, as well as Sideways and Soundwave, into another universe.

With the lock and keys now in his hands, Galvatron attacked Primus and returned to the Black Hole with his Decepticons, ready to destroy the universe with the Black Hole and recreate it anew. However, the Transformers from each of the five planets all got together and formed a coalition force to defeat Galvatron. In a massive battle, Galvatron was confronted by the five planet leaders, who used their combined powers to defeat him. Realizing he couldn't win, Galvatron let go of Omega Lock with the Cyber Planet Keys in it to allow the universe to be destroyed by the Black Hole. However, the Autobots managed to retrieve the Omega Lock and the Cyber Planet Keys and return them to Primus, whose Spark was then restored and who used the Ark to finally seal the black hole for good.

Having had ultimate power torn from his grasp, Galvatron contemplated giving up. However, the spirit of Starscream then appeared before him to mock him for giving up, saying that if he was to give up just like that, then he was "no Unicron." Starscream's spirit then vanished, leaving his crown which came to Galvatron. Clenching the crown close, Galvatron realized that his former lieutenant was right and decided to continue his conquest. He attacked the Autobots' project to propel the Jungle Planet back into place via massive rockets and dented one of them, setting the course of the planet out of order. However, the combined power of the Transformers of the four planets, along with Megatron's former Decepticon lackeys, managed to move the rocket back into place. Meanwhile, Megatron challenged Optimus Prime to one final duel. Battling on Cybertron's moon, Galvatron generated a massive blade of dark energy, which Prime countered with Vector Prime's sword. As the two old enemies charged towards each other in a final strike, Prime impaled Galvatron through the chest, finally killing the Decepticon leader and causing him to dissolve away.

Nico: And there you have it.

Qin: Nico that's horrifying!

Robby Schwartz: I can't believe that Megatron is that malevolent.

Britney Crosby: I'm glad he's dead and in the River of Fire. I heard that Lori Jimenez, Lily Loud and Optimus Prime beat him together.

Nico: That's right.

Qin: Wow! I'm so glad.

May: I am too Qin.

Qin: Good. May how did you get your awesome powers if I may ask?

May: Most of us got our powers from the gods and deities of myths from all over the world. I got my powers from the Cold Fire Snowflake of Tsovinar, the Goddess of the Sea in Armenian Myth.

Nico: Most of us were chosen by the gods themselves to be their champions to protect the universe and our loved ones from the threats of all evil. That's how we were able to overcome many obstacles on our journey. Friendship and love are two of the most powerful forces ever and they can overpower hatred and evil.

Qin: That's amazing Nico! I've missed out on so much.

Nico: I know.

Qin: What was the most action packed adventure you were on?

Nico: That is an easy one. The most action packed adventure we did was the Battle with Nerissa.

Qin: I've heard about that all over the news! That was an epic battle.

May: It was Qin. It was one of our most explosive and most epic battles ever. It was so powerful that it threatened to tear the entire planet apart.

Qin: Wow! But who was Nerissa?

Nico: She was the most evil person you would hate with a vengeance. She was a rogue Guardian of Candrakar.

Nico revealed the full extent of her crimes.

---

Nerissa was once the holder of the Heart of Kandrakar and the Guardian of Quintessence, but it was taken from her because she was corrupted by its power. Mad with jealousy, she turned on her fellow Guardians and accidentally killed Cassidy by shooting her off a cliff with lightning during a fight for the Heart of Kandrakar. For this crime, she was sentenced to be sealed in Mount Thanos until she was freed by a portal (in the comics the occurrence of all elements combined in one evanescent being). She went trough the portal to Meridian where she met the Mage, who had hoped that she would reform if shown compassion.

After the Mage's death, Nerissa took over her identity and manipulated events in Meridian from behind the scenes. She also disguised herself as a red-headed lady named Trill during the reign of Prince Phobos. Taking up work in Phobos's castle in order to feed information back to the rebels, and to become close to Elyon once she was returned to the throne. In season two, she successfully siphons all Elyon's power into a jewel, which becomes the jewel version of the Heart of Meridian.

As the former holder of the Heart of Kandrakar, Nerissa has the same powers as the current holder and Guardian of Quintessence, Will Vandom.

---

Qin: That's horrible!

May: Yeah. But J.D. destroyed her with a massive Kamehameha Wave blast that obliterated her into nothing. It was a powerful battle that carried enough power to destroy 100 Solar Systems.

Qin: That's incredible! I'm glad she got what she deserved. And J.D. is right about everything he says. With great power comes great responsibility.

Nico: That's J.D.'s trademark saying. It's been with him for a long time.

Qin: That's amazing. I'm so glad I'm with you all on Team Loud Phoenix Storm. I've missed out on so much.

Nico: I know.

Then they saw a bunch of people falling asleep unexpectedly.

Nico: That's weird. Everyone fell asleep.

May: I sense a Clow Card guys!

Nico: I feel it too.

Qin: I feel strange.

Nico: You're sensing a Clow Card.

May: And if my suspicions are right then we're facing the Sleep Card.

They looked at the ceiling and they saw a fairy. It was the Sleep Card. 眠 Sleep resembles a young, periwinkle, sprite with a six-point star on its forehead and one, overlarge, feathered ear on the left side of her head and short hair. Sleep sometimes carries a small wand, which usually produces the magical dust that induces sleep.

Qin: That little fairy is The Sleep Card?

Nico: Yep. If she sprinkles you with her dust, you fall asleep.

Qin: Thanks not a good thing. Induced sleep is not a good feeling. Let me handle this one.

Nico: Go for it Qin.

Qin went out of the booth and she flipped over and went at the Sleep Card. She then dodged it as the Sleep Card was flying at her and she grabbed it.

Qin: Gotcha! It's not my bedtime! RETURN TO YOUR POWER CONFINED!

Qin held out her hand and an energy card appeared and it sucked in the Sleep Card. It turned back into a Clow Card.

Qin: That was amazing!

Nico: Way to go Qin! You caught your first Clow Card.

Qin: I didn't know I could do that.

Nico: First for everything. J.D. told me what happened when Sakura caught this card. She was so sad that she ruined her dads work because of it.

Qin: Oh poor girl. What does her dad do?

Nico: He's an archaeology professor at Michigan University. He transferred here from Japan. But Sakura thought it was her fault.

May: Yeah. She felt so bad about it that she was crying hard.

Britney Crosby: Yeah.

Qin: Oh poor Sakura.

Nico: Yeah. That day still haunts her and she thought it was all her fault. She blamed herself for it.

Qin: Oh man.

Britney Crosby: We were really concerned for her.

Qin: I'm sorry that happened to her.

Nico: I know. But she's better now.

Qin: Good. I'm glad.

* * *

Back at the estate we were watching TV and playing card games. I was in deep thought.

Me: Hey Sheila I've been thinking about something.

Sheila: What is it J.D.?

Me: I was thinking about what the Shredder spliced you with and I think that the monster DNA he spliced you with is not monster DNA but Alien DNA.

Sheila: That is a strong possibility. Do you think you can find out what it is?

Me: Sure. But I'll need some blood. One drop should do it.

Donatello: I never did find out the species of your monster forms.

Me: Lets find out what they are.

I pulled up the computer and Sheila cut her finger.

Me: Put your sample here.

Sheila put a drop of her blood into an analyzer machine in the computer and it was analyzing it. It found out that Sheila was spliced with Uintahzian Rockspider DNA.

Me: Wow! Uintahzian Rockspider DNA.

Laney: Uintahzian Rockspiders?

Lana: Those creatures look really scary.

Me: It says here that they are an extremely savage and ruthless predatory species of spider from the planet Uintahzia, located 2.3 million Light-Years away from Earth in the Andromeda Galaxy. Their legs are so powerful that they can destroy solid bedrock like a thin piece of wood. And they eat anything by wrapping them up in webbing.

Nicole: I remember seeing those creatures. They are extremely voracious and extremely dangerous.

Shanan: Yeah they are terrifying as well.

Nanette: Lets find out what Thunderlegs is.

Me: Okay.

Nanette put a drop of her blood into the analyzer machine in the computer and it found out that Nanette was spliced with Xepthorgan Stormbeetle DNA.

Me: A Xepthorgan Stormbeetle?

Nanette: So that's what Thunderlegs Species is called.

Lola: Wow! I've never heard of a creature like that.

Me: Me neither Lola. Lets see.

I found out that they come from the gas giant planet Xepthorga.

The planet Xepthorga is a Super Gas Giant planet located in the Unknown Zone of the Universe. It is 400 billion kilometers or 248,548,476,894 miles in diameter. Making it one of the largest known planets in the universe. It's also home to some of the most powerful and most violent storms of any planet. Winds blow at 10,500,000 miles per hour and lightning strikes at 100 quadrillion strikes every 1/16 of a second and it is one of the most electrically charged planets in the universe.

Me: Wow! Planet Xepthorga is a violent storm planet!

Lori: That is literally a terrifying and strange planet!

Varie: That planet looks fierce just from looking at it.

Me: No kidding. It says here that Xepthorgan Stormbeetles eat the lightning from the clouds of the planet and it gives them more power and strength.

Nanette: That explains why I have a diet for lightning when a thunderstorm rolls in.

Lola: I didn't know it was possible for that to happen.

Me: And it says here that they use the strong currents of the wind to fly and they can fly in the planets extreme gravity.

Lisa: Wow! That's an amazing feature for an extraterrestrial insectoid organism.

Me: It sure is.

Stewie: These test results are fascinating!

Me: They sure are Stewie.

Brian: I never even knew all these creatures even existed.

Sydney: Me neither. So we've been spliced with Alien DNA.

Chione: That is like what happened to me.

Sheila: Hard to imagine.

Sydney: I wonder what Quarry's species is.

Me: Lets find out.

Sydney put a drop of her blood into the analyzer and the machine revealed that Sydney was spliced with the DNA of a Manitouan Cave Hopper.

Me: A Manitouan Cave Hopper?

Sydney: So that's Quarry's species?

Lincoln: I didn't know that Quarry's species was called that.

Me: Lets see what it says about the planet.

I looked it up and it said that Quarry comes from the planet Manitou VII.

Planet Manitou VII is a strange planet located in the Unknown Zone. A Mysterious Event caused 20% of the planets structure to be blasted to space dust. It is named after Manitou Springs in Colorado and the planet is home to the largest cave system ever. Loaded with rock formations, crystal rooms, stalactites, stalagmites and columns. It is also loaded with bats of many types that live in the ceiling.

Me: Whoa! The planet is like Earth but 20% of its structure has been blown apart.

Lily: What caused that?

Me: It says it's unknown.

Naruto: What does it say about Quarry's Species?

Me: Lets see. It says that Manitouan Cave Hoppers are an insectoid humanoid species that live in the caves of the planet and they are extremely predatory. They are very phobic of light and they hide in the darkness of the caves for protection from the planets 3 suns.

Sydney: That's incredible. But I wonder how the planet got 20% of its structure blown apart.

Me: Maybe Quarry might know.

Sydney: Let me see.

Sydney talked to Quarry in her subconscious.

Sydney: How did your home planet get 20% of its planetary structure get blown apart?

Quarry: A massive meteor crashed into the planet over 500 million of your years ago Sydney. The meteor would be the size of your planets moon.

Sydney: That's unbelievable! Thank you for telling me this.

Quarry: You're welcome Sydney.

Sydney told us.

Me: So a massive meteor crashed into Manitou VII?

Aylene C.: And it was as big as the moon? That's incredible!

Luna: That's awful dude!

Naruto: It's amazing that his world survived that.

Me: No kidding bro. But I wonder what George, Ken, Roy and Max were spliced with.

Lucy Loud: We'll have to find out when we invite them over.

Me: I know Lucy. But now we know what happened. The Shredder spliced you guys with Alien DNA from planets all over the universe.

Chione: The Shredder was really playing with fire.

Helen Wheels: He sure was. It's absolutely despicable that he was doing all that.

Alan (Ben 10): I know. I can't believe he was that evil.

Nico and the others came back.

Me: Hey guys.

Autobot Jazz: So, how was McDonald's?

Nico: It was great Jazz. We had a great lunch. Also Qin caught the Sleep Card.

Qin: Yep.

Me: Way to go Qin!

She handed it to me.

Qin: Thanks J.D. It was so cool capturing the Sleep Card.

Nico: She did a great job.

I signed the card.

Me: We also found out some very interesting information.

We revealed what we found out about Sydney, Nanette and Sheila.

Nico: So the Shredder Spliced them with Alien DNA from different planets? That's madness!

Me: We had to find out what species they were. We couldn't just refer to them as monsters forever.

Nico: That's true. But I've never heard of creatures like these.

Lola: None of us have Nico.

Qin: It's amazing that you all know so much about so many alien creatures from all over the universe.

Me: Thanks Qin.

Stacy: We've been to many planets and it is so awesome!

Rita: Oh kids.

Lori: What is it mom?

Rita: I have great news for you all. We're gonna go and visit your cousins Dipper and Mabel Pines.

The Loud Kids cheered.

Lincoln: I haven't seen cousin Dipper in forever.

Lana: Me neither.

Luna: Dude its been so long.

Me: Where do they live?

Laney: They live in Gravity Falls, Oregon.

Me: That's a beautiful place. But I heard rumors flying around that it's home to lots of legendary creatures.

Luan: It is. And it's a Legend-ary Place! (Laughs to rimshot) Get it?

Most of us laugh while everyone else signed.

Qin: (Laughs) That was so funny!

Me: Luan is a major kick in the butt Qin. She cracks us up.

Nico: Gravity Falls is an amazing place.

Me: What can you tell us about your cousins guys?

Lori told us about them.

Dipper Pines.

Dipper was born on August 31, 1999. His family lives in Piedmont, California. From a young age, Dipper's mother would dress him up in a lamb costume and have him perform his signature song and dance, the "Lamby Lamby Dance." He and Mabel were raised unreligiously, but celebrate all holidays at her insistence. Since he was young, his favorite holiday has been Halloween, of which his favorite part is trick-or-treating with Mabel. He is also known to have been teased about his birthmark by other children until he started hiding it, which may be how he earned his nickname when he was no older than five. He attended Eggbert Elementary with his sister.

Sometime during the month of June, Dipper and his twin sister Mabel were sent north up the coast to the small town of Gravity Falls, Oregon, to stay with their Great Uncle "Grunkle" Stan, who runs a tourist trap named the Mystery Shack which doubles as his house. While Mabel adjusts with ease, Dipper initially finds it difficult to get used to his new surroundings.

One fateful day, Stan tasks Dipper to put up hanging signs advertising the Mystery Shack in the "spooky part" of the Gravity Falls Forest, where he discovers a journal written by an unknown and enigmatic author detailing the town's secrets and dangers. Dipper discloses his findings with Mabel and consecutively meets her new boyfriend, Norman, who he begins to suspect is a zombie based on the information in Journal 3. Despite failing to find any incriminating evidence, Dipper confronts his sister on the theory, resulting in an argument. During Mabel's date, however, he notices Norman's right hand falling off on camera, which Norman suspiciously attaches back on, making him fearful that Mabel could unknowingly be in danger.

Using the Mystery Cart with the keys he obtains from the Mystery Shack's clerk, Wendy, Dipper quickly heads to rescue Mabel, and, upon finding her, he realizes that Norman is actually made up of five gnomes stacked on top of each other which are residing in the forest, who planned to kidnap Mabel and force her to become their "queen." He manages to subdue the creatures and escape with his sister, but they are pursued by a large monster made of hundreds of gnomes. The two end up crashing the Mystery Cart upon arriving at the Shack and are cornered by the monster. The head gnome, Jeff, informs them that they will do "something crazy" unless Mabel becomes their queen, and in response, Mabel agrees, much to Dipper's dismay. Shortly after accepting the gnomes' ring, she uses the Mystery Shack leaf-blower to defeat the gnomes, impressing Dipper in the process. With all the gnomes finally gone, the two make up and enter the Shack, and in an act of newfound appreciation of the twins, Stan allows them each one free gift, with Dipper choosing a new hat to replace his old one, which was taken by a gnome. Before going to bed, he writes two new entries in the journal, one being that a gnome's weakness is a leaf blower, and the other stating that while Journal 3 has told him to refuse trust from anyone in the town, he knows Mabel will always have his back.

Mabel Pines

Mabel was born on August 31, 1999. According to her, her first word was "unicorn." She claims to have shown a "natural gift" for art since she was two years old. She and Dipper were raised nonreligious, but celebrate all holidays at her insistence. Since the age of three, Mabel has celebrated Halloween in Piedmont with Dipper Pines. At age nine, she won a mini-golf tournament and from then on she has been amazing at it.

Sometime early during the month of June, Mabel and her twin brother, Dipper, were sent from Piedmont, California to the small, sleepy town of Gravity Falls, Oregon to visit their great uncle, Grunkle Stan. Mabel believes that this is her "chance to have an epic summer romance," and shows her boy-crazy obsession when she tries to date many local boys before agreeing to date a very mysterious character, who says he is a teenage boy named Norman, in the half hour Dipper left to hang signs for the Mystery Shack. Little does she know that "he" is actually a group of gnomes, posing as a teenage boy. The gnomes ask her to be their queen and try to kidnap her when she refuses. Dipper aids in Mabel's escape and brings her back to the Mystery Shack on a golf cart. Mabel then defeats the gnomes by using a leaf blower. Stan allows them to take one thing from the Mystery Shack for free, and Mabel decides on a grappling hook, despite her Grunkle's suggestion of a doll.

---

Me: Wow! Your cousins are amazing.

Lori: Thanks J.D.

Me: So Dipper is called that because he has a birthmark in the shape of the Big Dipper in the middle of his forehead?

Laney: Yep. It's his birthmark.

Me: He's not the only one that has a constellation birthmark.

I pulled back my trench coat flap and on the right side of my neck was a birthmark in the shape of the constellation of Phoenix the Firebird.

Lincoln: Wow! That's an interesting birthmark.

Me: It's the Constellation of Phoenix the Firebird. It's a constellation that only appears in the night skies of the Southern Hemisphere. I was born on October 14th in New Zealand while my parents were on Vacation there. It was at that moment that I also had this birthmark on me.

Nico: That's so cool!

Xion: I didn't know the stars did that to you.

Nicole: The power of the stars works in all kinds of mysterious ways.

Laney: That is very enigmatic.

Me: It sure is. Ms. Rita can we all go and meet Dipper and Mabel?

Rita: Sure J.D. They'll be so excited to meet you all.

Me: Awesome! And without a doubt they have heard about all of us.

Varie: This is gonna be awesome!

We got ready to go to Oregon.

GRAVITY FALLS, OREGON

---

We were flying and driving and riding our horses as we were in the forests of southwestern Oregon. We arrived in Gravity Falls. It was an amazing town.

---

The future site of the valley of Gravity Falls was originally inhabited by Dinosaurs, over 65,000,000 years BCE. Uniquely, the prehistoric beasts of the area did not perish from the impact of a meteor, as purported by the common theory; conversely, many became buried alive in tree sap, frozen within the bowels of the Earth and remaining there for eons. According to tree ring interruptions and radiation tests, the entire valley of Gravity Falls was formed by an alien spaceship crash-landing into Earth around 35 million years later. Whether the craft caused the town's strange properties or the place's strange properties attracted the craft is still unknown, however numerous anomalies such as electrical interference and sick livestock are linked to the ship's existence beneath the town.

The first human inhabitants of the valley were Gravity Falls' native population, who mysteriously evacuated around AD 1000 after a shaman named Modoc learned of the prophecy that foretold the destruction Weirdmageddon from his interactions with Bill Cipher. The valley was deemed "cursed land" by the natives, who left behind troves of pottery, blankets, and art in local caves, relics that would one day be hoarded by the Northwests.

The town of Gravity Falls was officially founded in 1842 by the deposed 8½th president of the United States of America, Sir Lord Quentin Trembley III, Esq., who discovered the valley after falling off a cliff due to riding his horse backwards. Though it was originally only a small settlement, Trembley acted as its first mayor, instituting a variety of legislature that reflected his insanity. The town flourished in the late 1840s from the Gold Rush, which was followed by a lesser-known "Flannel Rush", however both were at an end a year later, as miners were scared away by sightings of dinosaurs in the Gravity Falls mines.

Gravity Falls saw a population boom in the early 1860s as American pioneers travelled the Oregon Trail, many of whom ended up settling in the town. Among those who chose Gravity Falls as their home were settlers Grady and Fertilia Mecc, who are credited with the invention of the "High Five" and holding a record number of 42 offspring.

In 1883, following the disappearance of Trembley, who sought immortality by preserving his body in peanut brittle and stashed himself in an underground cave beneath the Gravity Falls Cemetery, the U.S. government immediately enacted the Northwest Cover-up, in which Trembley's existence was erased from history and his identity as town founder and mayor was replaced by local nobody turned celebrity, Nathaniel Northwest. Having come into power as mayor and attained an illustrious wealth, Northwest enlisted the help of the town's lumberjacks in building his elaborate mansion in exchange for a lavish festival open to all the townsfolk, a promise he quickly reneged on following the manor's completion. 1883 was later marked by numerous disasters and catastrophes, including the Great Flood, which took the lives of many lumberjacks formerly involved in the construction of Northwest Manor, and the Great Train Crash, in which a passing conductor grew distracted by a "flash of light" and inadvertently sent his train off a cliff.

In 1920, the "Maple Syrup Prohibition" led to secret pancake speakeasies.

In 1937, a plane crashed into the mountains and a woman escaped into the forest. The words "Amelia was here" are carved into the mountainside.

Me: Wow! Gravity Falls, Oregon.

Lincoln: This place is amazing.

Nico: It sure is.

We arrived at a cool place called the Mystery Cabin. It was a cool place where famous creatures of legend and cryptozoology are put on display.

Me: Wow. So this is the Mystery Cabin.

Nico: This is so cool!

There we saw Dipper and Mabel Pines!

Dipper: Hey guys!

Lincoln: Cousins!

They hugged!

Lori: It's great to see you guys!

Mabel: We missed you guys!

Dipper: Whoa! No way! Team Loud Phoenix Storm!? It's so awesome to meet you all!

Me: It's a pleasure to meet you Dipper. And you too Mabel.

Mabel: You are so awesome guys!

Nico: Thanks Mabel.

Mabel: (hugs Cacnea in cuteness) Cacnea's so cute!

James: Funny. Most of the time, Cacnea's the one that hugs me.

Dipper and Mabel told us why we were called to Gravity Falls.

Dipper: We're glad you're all here J.D. There's a reason why.

Me: What's wrong?

Dipper: We were invited to a party at the Northwest Estate.

Me: The Northwest Estate? You mean the Northwest's? The most richest family in all of Oregon?

Dipper: That's right.

Nico: Who are the Northwest's?

Me: Only the most powerful and richest family in all of the state of Oregon.

I revealed the whole history of the Northwest Family.

* * *

150 years prior to the events of "Northwest Mansion Mystery," the mansion was built and completed by local lumberjacks with the

promise that the Northwests would host an annual party to the public of Gravity Falls. However, this promise was broken, allowing only upper-class citizens of Oregon into the party.

In "The Golf War," the Pines family and Soos drove Pacifica home from Ye Royal Discount Putt Hutt as a nice gesture by Mabel, since her parents hadn't arrived to pick her up and it was starting to rain. After Pacifica opened the gates to her home, Dipper and Mabel saw how exquisite it was and agreed they should have charged her for the taco Mabel gave her.

In "Northwest Mansion Mystery," it was revealed that the mansion was haunted by one of its original creators, a lumberjack who had sworn vengeance on the Northwests. The Northwests hired Dipper to get rid of the spirit by trapping it into a silver mirror, but the spirit escaped by breaking the mirror. The spirit then returned to the mansion and started turning people into wood, refusing to stop until a Northwest opened the party gates up to the public like their ancestors promised. Once everyone at the party was turned to wood, including Dipper, Pacifica opened the party to the public, appeasing the spirit and lifting the curse.

In "The Stanchurian Candidate," the mansion briefly appears on a map of Gravity Falls.

In "Weirdmageddon 3: Take Back The Falls," the Northwest family loses their fortune, resulting in Preston having to sell the mansion in order to stay wealthy. Meanwhile, Old Man McGucket acquires wealth by marketing his inventions to the US government; and after spotting the mansion for sale, he purchases it. After Dipper and Mabel leave Gravity Falls, McGucket is seen standing in the fancy interior of the mansion.

---

Me: The Northwest Family may be rich, but they also have some incredibly shady activity.

Laney: What kind of Shady Activity?

Me: A lot of evil activity.

I revealed all of Preston Northwest's Activity.

---

Preston is introduced in "Irrational Treasure" celebrating Pioneer day with his family and using his relation to the Town's supposed founder as an excuse to lord his superiority over the people.

He later returns in "The Golf War" to drop his daughter off at a match between her and Mabel, however rather than stay to support his daughter, he and his wife leave to go to a party- offering her the words of advice: "Don't lose".

But its not until "Northwest Mansion Mystery" that Preston demonstrates just how evil a man he truly is, in fact serving as the true main antagonist of the episode. Preston's ancestor Nathaniel had manipulated local lumberjacks into building what became the family mansion 150 years earlier, by promising he would use the space for a great public service- an annual party held by the family for the workers in the community. However, on the day of their party, the Northwests refused to let in the Lumberjacks and hold up his end of the bargain- instead laughing them off and enjoying a soiree for the rich. Adding injury to insult, the mass removal of the mountainside trees caused mudslides that same evening which killed several of the lumberjacks. One lumberjack among those who died swore a curse on the Northwest line with his dying breath; unless they agreed to honor the promise and let the common folk into their annual party after 150 years he would return to seek revenge.

As the curse began to come true, rather than opening the gates and letting the common folk in to break the curse, Preston instead forced his daughter to manipulate Dipper into getting rid of the ghost. Its revealed in this episode as opposed to simply being neglectful, Preston is outright emotionally and psychologically abusive towards Pacifica- going so far as to train her to respond on command to a small bell he keeps on his person (like a dog).

After Dipper successfully trapped the ghost in a silver mirror, Preston thanked him and then began to welcome his guests. However upon learning the truth from the trapped ghost, Dipper angrily stormed back in and called Preston out for his callousness and deception. While Pacifica attempted to apologize to Dipper, Preston intimidated his daughter into silence before smugly dismissing Dipper and his anger- reminding him that this would be the last time anyone of "his kind" (the common-folk) would be allowed at his party.

However, the ghost managed to free itself from the mirror and began terrorizing the party, transforming the guests into wooden statues and causing general mayhem. Rather than agree to break the curse and save his guests, Preston instead hid with his wife and a butler in a panic room- leaving everyone else to their doom.

Once the ghost had turned everyone into wood, it planned to burn the mansion down killing everyone. However, Pacifica (having received renewed confidence from Dipper) decided to go against her family's legacy by breaking the curse. However Preston was watching the scene from a trap door, and emerged to order his daughter to leave the gates closed and join them in the panic room (he also reveals his plan to kill and eat the family butler if their food ran out before the ghost left). However finally standing up to her psychologically abusive father Pacifica opened the gates, letting the common people in and breaking the curse. This undid the ghost's damage and saved everyone. However, Preston's only response was narrow-minded shock and terror that the common folk were invading his party.

In "Weirdmageddon Part 1", Preston attempts to offer an allegiance to the dream demon Bill Cipher after he melts the Nathaniel Northwest Statue, despite Pacifica scorning him for it. Bill chooses to disfigure his face by rearranging his facial features instead. Preston collapses in front of a screaming Pacifica and Priscilla.

In the series' finale "Weirdmageddon 3: Take Back the Falls", it is shown that Preston and Priscilla were petrified and added into Bill's throne of human agony along with many other citizens while Pacifica evaded capture. Eventually, Dipper, Mabel, and their friends were able to free the citizens, and Preston's face was returned to normal. When Pacifica was called in to help to stop Bill, Preston (doing the right thing for once) encouraged her to do so. Following Bill's death and the end of Weirdmageddon, Preston was among the people delighted that everything was finally back to normal. However, he was ultimately forced to sell his mansion in order to maintain his family's wealth due to his attempted allegiance with Bill, much to his distress. He is last seen breaking down in tears as the mansion is put on for sale.

* * *

Me: I've been gathering evidence on Preston Northwest and his wife Priscilla for a while now. So far all my evidence was too little. I needed to make Preston talk and make him talk about his crimes. But because all the security around the mansion is too tight, I haven't been able to do so.

Dipper: That's awful.

Me: But I have a plan. I'm going to go undercover as a rich acquaintance of the Northwest's and expose them while wearing a wire.

Laney: That's perfect!

We then put our plan into action.

* * *

We set up camp at a hill and we saw a beautiful mansion that was not nearly as nice as ours. We saw that the mansion was amazing! But it was heavily guarded. We saw that guards were everywhere holding all the people back and it was a big party. But it wasn't just any ordinary party. It was the annual Northwest Grand Party. One of the biggest parties of the year. But I found out that a terrible event happened at the house 150 years ago. In the 19th Century, when Preston Northwest's Great Grandfather, Nathaniel Northwest had the mansion built, he promised to throw a great party for everyone. But when the house was done, Nathaniel went back on his word and double-crossed everyone by refusing to let them in and because of that, they were cursed. The Lumberjack vowed that 150 years after the mansion was built, he would return from the dead and get revenge on all the Northwest's. And he promised to kill all the Northwest's if the people don't get their wish.

Me: So the party is a result of another family turned evil because of their own greed and selfishness.

Laney: This is absolutely disgusting.

Lori: The Northwest's are literally the worst.

Me: They make it sound like they're dating the most hated person ever.

Lincoln: So what are we gonna do?

I got amazing rich people costumes and we went in under assumed identities. Horsea and Private were posing as stuffed animals. Skipper, A.J. and the penguins went into the security system room.

We went into the mansion and we saw a lot of party guests and more.

Me: Wow. Very exquisite place.

Lincoln: This place is beautiful.

Laney: It's just as nice as our mansion.

Lori: The Northwest's literally have incredible good taste.

Lola: They sure do.

We met Pacifica Northwest.

Pacifica: Welcome to the party.

Me: (Normal voice) Tha… (Clears throat) (In a falsetto) (British Accent) Thank you Ms. Pacifica.

Lincoln: (In a falsetto) Thank you for inviting us.

I saw Preston and Priscilla Northwest.

Me: (In my head) Targets sighted.

We then talked to Pacifica alone.

Pacifica: So what is the reason you wanted to talk to me alone?

Me: (Normal Voice) Pacifica, My name is not Cornelius Knickerbocker.

I reveal my face.

Pacifica: J.D. Knudson of Team Loud Phoenix Storm?

Me: That's right. We are really here to arrest your parents. We know you lied to us. But I have a feeling you were coerced into doing it.

Mabel: But I thought you invited us here because a ghost was troubling you.

Pacifica: (tears in her eyes) I lied about it, Mabel. All of it, all of it was a lie.

Mabel: Excuse me?

William: I thought you were rich.

Pacifica: That part is true. But everything else about my family is a lie! My lifestyle, the respect, everything! I made up everything about what I said about my family! All because I wanted to have friends. That's why I acted like a snob over the years! I just wanted some respect from everyone else! I thought that if I was more like my parents, I'd think people would like me! But I was wrong! Everything was my fault! It's all my fault that nobody in the Gravity Falls likes me, and I guess it serves me right! I was such an idiot for everything that I did! I guess… I'll never learn. I'll never have any friends now.

All of us felt really bad for Pacifica now.

Pacifica: (sobs) You guys might as well just kill me now. It's better then being a slave to my parents any longer!

Ultra Humanite: I have a better idea. (fires a net at Pacifica, trapping her) Apologies, but this is a safety precaution so you don't do anything bad to yourself.

Pacifica: I understand.

Me: Gerard, that's not necessary. Dipper will look after her.

Dipper: Okay.

Me: Okay but we have to keep up a front.

* * *

In the hall they saw the security room.

Shocker: I saw at least three armed guards on the perimeter.

Rhino: Right, Herman. (sees A.J. going into the security console) What the hell are you doing, AJ?

AJ: I recognize the security system. My parents had the exact one once. I'll have the access code cracked and security disabled before you could say "breaking and entering". (finishes supposedly disabling security) There. We're in.

Maria: I wouldn't be so sure about that.

A.J.: Why's that?

Francis: Because you just tapped into a dummy box, which means those guards are gonna be here quicker than you can say "rookie mistake."

The guards approached them.

Guard: Hands up.

Shocker, Rhino, Francis, and Maria punch them, knocking them unconscious.

They found the real security system and disabled it.

* * *

A.J.: (In a radio) J.D. we disabled the security system.

Me: (Telepathically) Good work A.J. Wait for my command.

A.J.: Roger that.

I walked up to Preston and Priscilla.

Preston: Ah Cornelius Knickerbocker how great of you to show up.

Me: (In a falsetto) (British Accent) (Turns on wire) Thank you old chap. I have a question for you? What lead to the success of your magnificent wealth?

Preston: Well it was not an easy task. But I had to lie my way to get to the top. Over the years my family stole from banks all over the country and we lied and made corrupt deals with all of the most powerful figures in the world. But it was mostly Russia to help certain people get into power. Like the senators of the world and the Prime Ministers.

Me: So you're saying that you meddled in certain world elections?

Preston: Indeed.

Outside was an ice cream truck. But what everyone doesn't know is that it's an undercover FBI truck with equipment inside. The man at the wiretap gave the thumbs up saying we got it.

Director Wray: SWAT Team lets move in.

They got ready.

Director Wray: (On the Radio) J.D. you were right. We're moving in.

Me: (Telepathically) Great Director Wray.

I used the sleep card to knock out the guards into a deep sleep.

Lana opened the gates and the SWAT Team moved in.

Lola and Lily then opened the doors and the SWAT Team came in.

Preston: What's going on here!?

Me: (Normal Voice) The end of a criminal empire!

I took off my disguise and we all did the same.

Me: Surprise!

Preston: J.D. Knudson and Team Loud Phoenix Storm!? What's going on here!?

They put him and Priscilla in handcuffs.

Director Wray: Preston Northwest, you're under arrest for fraud, child abuse, high treason and first class conspiracy. You have the right to remain silent. Anything you say can and will be used against you in a court of law.

My Dark Orb detector went off and there was a dark orb somewhere in the house.

Me: There's a dark orb here.

Pacifica: Yes. It's over there.

We saw it on a pedestal. The Dark Orb was as big as a huge pearl.

Me: There it is.

Nico: That was easy to find. But Preston and Priscilla Northwest, you both have failed this world as parents and as people.

Skipper: Private, Kowalski. Get all the papers detailing the Northwest's family history. Rico, you're with me. We're going to loot the mansion of its' undeserved possessions.

Private: Yes sir!

Pacifica: You never loved me "Mom and Dad"! All you ever cared about was money and wealth! And it was because of you that I never get to do the things I want or have any friends! You never gave me what I wanted!

Laney: You disgust me! You two give loving parents a really bad name!

Lana: That's right!

Lola: Yeah!

?: They do give loving parents a bad name don't they?

We turned and we saw Daolon Wong! He was reborn as a Heartless! He was now known as the Nightmare Leech Wizard!

---

Prior to the events of the story, Daolon Wong has mentioned he had fought and defeated Uncle's teacher Chi Master Fong.

Daolon Wong first appeared in the filler episode "The Chosen One". In this episode monks believed that Tohru was the latest reincarnation of The Chosen One meant to lead their people. Fearing the Chosen One's good chi would be awakened and fight against the forces of darkness, Daolon Wong sent his dark chi warriors to kill Tohru but Uncle's magic and Jackie's martial arts defeated them. Daolon then snuck into the Holy Sanctuary where he summoned his dark chi warriors and attempted to kill Tohru himself during the ritual to reawaken The Chosen One's chi. He was defeated by Uncle, and fled when it was revealed Tohru was not "The Chosen One".

Daolon Wong later appeared in the filler episode "The Good, The Bad, The Blind, The Deaf, and The Mute". In this episode Daolon sought out a giant idol of the Three Wise Monkeys that had the ability to give people disabilities of being either blind, deaf, or mute. He used the statue to render Tohru blind, Jackie mute, and Jade deaf. With guidance from Uncle on how to be "handicapable", they manage to defeat Daolon Wong's dark chi warriors and Uncle seals the power of the statue away which causes Daolon Wong to be afflicted with all three disabilities of the statue.

Daolon Wong also appeared in a Christmas special episode in which he kidnapped Santa Claus so he could steal his powerful chi. He is stopped by the combined efforts of Jackie, El Toro, Uncle, and Viper, while Tohru, Jade, and Paco delivered some of the presents.

In season three, Daolon Wong had managed to recover from his last defeat and attempted to steal the Twelve Talismans from Section 13. Jackie however vaporizes the Talismans so Daolon Wong cannot get them. Uncle also traps Daolon Wong's dark chi warriors in the Urn of Wei, which causes Daolon to enslave Chow, Finn, and Ratso and transform them into his new dark chi warriors. It is revealed that the power in the Talismans could not be destroyed and simply attach themselves to new hosts based on the most noble of each animal species (for example the Dog Talisman's power of immortality ended up in a dog named Scruffy). The entire season revolves around Jackie, Jade, Uncle, Tohru, and Section 13 trying to keep Daolon Wong from getting the Talisman powers in the animals. Daolon only manages to get the powers of the Pig and Rooster Talismans, and briefly the Sheep Talisman. He also later turns Hak Foo into a dark chi warrior. In the season finale the Dragon Talisman cannot find a host as their are no more dragons alive, so Daolon Wong makes a deal with Shendu's spirit to bring him back to life in exchange for the Dragon Talisman's power. Shendu ends up taking the Dragon Talisman's power for himself as well as absorbing the Pig and Rooster Talisman powers from Daolon Wong. Angry about being double crossed, Daolon Wong helps Uncle seal Shendu back into his statue form after being arrested and by extension returning the Talismans to existence.

In the season four premiere, Daolon Wong tries to summon the Shadowkhan to break himself, Finn, Ratso, Chow, and Hak Foo out of prison. He end up summoning Tarakudo on accident, who takes the others as his henchmen and becomes the main villain of season four.

Daolon Wong appears for the last time in the filler episode "Deja Vu". In this episode Daolon Wong tries to steal the Deja Vu stone which would allow him to travel back in time and correct past mistakes. Jackie manages to grab the stone and they both travel back together to various moments in the series. They eventually arrive in the first episode of the show, in which Jackie tricks Finn, Ratso, and Chow into taking Daolon prisoner by claiming he had the Rooster Talisman.

Nico: Daolon Wong!

Me: We killed you!

Nightmare Leech Wizard: Yes you did kill me.

Jade Chan: You're even more uglier than before, Wong.

Nightmare Leech Wizard: That's your opinion. But I think of this as something else. After all, was it not inevitable that I would become a Heartless?

Maria: Where are you going with this?

Nightmare Leech Wizard: I have observed my capabilities since being reborn in this form. I have learned that a Heartless loses the body that it once had as a normal being. But what really intrigued me is that it becomes stronger than its' original body. In addition, the brain keeps going and the Heartless in question no longer ages, making it immortal.

William: What are you trying to say?

Nightmare Leech Wizard: That perhaps being a Heartless is a gift, a way to separate the weak from the strong. After all, most villains like me are superior to all average humans. I see this in nature, predators consuming the prey, the weak. So, by killing me, you basically helped me move on to the next stage in human evolution.

Me: Don't flatter yourself yet you freak! You act like you know the Heartless inside and out. But your knowledge is dangerously lacking. Heartless are not immortal. They can die just like everything else. They are born from the darkness in the heart. But like the darkness, the light will destroy them! Lets dance Wong! But not in here. Lets take the fight outside.

Nightmare Leech Wizard: Good idea. A mansion like this is too exquisite to be destroyed.

Me: Very sporting of you. Director Wray, don't take the Northwest Parents away yet. We need to have them taste the power of Team Loud Phoenix Storm when we're done with our old friend here.

Director Wray: Understood J.D.

We went outside to the forest and we went at the Nightmare Leech Lizard. I punched him in the face and slashed him with my sword and I punched him in the face again.

Nico: Daolon Wong, you have failed this world!

Nico punched him in the face and kicked him in the stomach with devastating force and kicked him in the face and slashed his eyes out.

Lori and Jade fired a massive blast of wind and blew him around in a powerful tornado of wind.

Leni crushed him with a tree and Luna slammed a powerful blast of water into him.

Vince fired a bunch of crystal shards and slashed him all over.

Aylene and Lola fired a massive blast of fire and burned him.

Qin: Time to show you some dragon power!

Qin turned into Scalebreath! Her eyes turned green and slit and her skin turned dark yellow and scaly and her head grew larger and turned into a lizards head and her tongue turned into that of a snake and she grew a tail from her butt and her fingers turned into claws and so did her toes.

Scalebreath: Time to burn!

Scalebreath breathed a massive blast of fire at Daolon Wong's heartless and burned him bad.

Me: That was so awesome!

Scalebreath: Thanks J.D.

Me: Lets see how you like some combos!

Jazz: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his arm and it enhanced his Spectrum Beacon and Speakers 100-fold.

Robby Schwartz: This is gonna be interesting! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and it enhanced his Technokinetic Powers 100-fold.

Jazz and Robby Schwartz: VERTIGO LIGHT LASER DEATHSTORM!

Robby Schwartz made a powerful laser gun and Jazz fired a light show from his spectrum beacon that made Daolon Wong disoriented and dizzy and Robby fired his laser gun and it hit him and exploded.

KRABBOOOOOOOOOOOOOOOOOOMMM!

James: Lets do it Cacnea! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Cacnea's abilities 100-fold.

G1 Thundercracker: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his weapons and abilities 100-fold.

James: Cacnea, use Energy Ball!

G1 Thundercracker and James: SUPERSONIC ENERGY BOMB SURPRISE!

Cacnea fired an energy ball and Thundercracker flew at Mach 8 or 5,600 miles per hour and it released a massive sonic boom blast and it merged with the Energy Ball and the blast slammed into Daolon Wong and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Carol: Lets get him Maria!

Maria: You got it Carol!

Carol fired a powerful blast of Burning Godzilla's Atomic Ray and Maria fired a massive blast of water.

Carol and Maria: NUCLEAR MEGATSUNAMI BURST!

The blasts combined and turned into radioactive water and it burned the Daolon Wong Heartless and exploded.

KRABBBOOOOOOOOOOOOOMMMMM!

Jade: You will never be welcome here again Daolon Wong! HYPERCANE SUPERSHRED STORM!

Jade Chan fired a massive blast of wind and it hit Daolon Wong and shredded him all over.

Pacifica Northwest: This is the power of friendship! MONEY RAY DEATHSTORM!

Pacifica fired a powerful green energy blast in the shape of dollar signs and they hit him and exploded. He died on the spot and his spirit went into the River of Fire.

Daolon Wong: This can't be happening! I'm immortal!

Me: Go back to Hell!

Daolon Wong was gone forever. In the flames of eternal forgetfulness.

Me: Now to make sure that Pacifica's parents know what they are dealing with!

Dipper: You got it J.D.! I've always wanted to try this. Pacifica, I've wanted to tell you this for a while. I love you. Ever since we defeated Bill Cipher, I've wanted to tell you about that. I love you and you are the most beautiful girl ever. I love you Pacifica.

Pacifica was shocked! She never felt this way before. But she knew it was true.

Pacifica: I love you too Dipper!

They kissed for the first time and we were so happy for them both.

Me: I'm so happy for you guys.

Pacifica: Lets do a final smash together.

Dipper: You got it!

Dipper and Pacifica: ZODIAC LOVEFIRE BURST!

Dipper and Pacifica fired a powerful blast of fire in the shapes of the symbols of the Celestial Zodiac and they slammed into Pacifica's parents and they exploded with the intensity of a bunch of landmines. It didn't kill them. But it did send a message to them.

Me: This is what you get for your crimes against Oregon and the country.

Nico caught a Ferrothorn and a Klinklang during the battle.

Pacifica: (To the Viewers) Having all the money in the world does not bring you happiness. It only brings misery.

Me: You got that right.

We moved the Northwest Mansion and all of the town of Gravity Falls to the Gotham Royal York area and it was in the forest sector. We moved the Northwest Mansion to the estate grounds and it was connected to the estate. Dipper and Mabel and the Pines family live in the mansion and so does Pacifica. Preston and Priscilla Northwest were found guilty of their crimes and sentenced to 20 Life terms plus 10,742 years without parole in Federal Prison and were ordered to pay the entire city of Gravity Falls $928,827,826,829,637,846,978.00 in restitution. Most of that money went to Pacifica and Dipper. Odd and Wendy Corduroy got hitched.

THE END

Another Fanfiction Complete and two more bad parents brought to justice and another Clow Card caught.

I did some submissions on Deviantart for Gravity Falls and The Loud House and we thought it would be cool to do a chapter for it. Gravity Falls is an awesome show from Disney! I love the theme song and it's awesome! NicoChan11 gave me the ideas for this one. Thanks man as usual. The next Clow Card we're going after is the Big Card. Let me know what you all think.

See you all next time.

# Hawaiian Mystery Mayhem

At the estate we were watching nature documentaries.

Sydney: Hey guys we're going to the mall.

Leni: The Mall!? Let me clear my schedule for the day. (Grabs Lori's phone) Delete, delete, delete, delete. (Realizes she has Lori's phone) Oh whoops. This is your phone Lori.

Lori: Ugh. (Takes it back)

Me: Have a good time at the mall girls.

Qin: Will do J.D.

Me: You can go with them if you want Leni.

Leni: Sure J.D.!

Leni went with them.

Ace: Can I go with the five of you to the mall?

Sydney: Sure Mariah.

Ace went with them.

They left for the mall.

Dipper: So J.D. I heard you have a Constellation Birthmark like me.

Me: I sure do Dipper.

I showed him my Phoenix the Firebird Birthmark.

Me: It's the constellation of Phoenix the Firebird. It's a constellation usually found in the Southern Hemisphere.

Dipper: That's so cool!

Pacifica: It sure is.

Nico: I was amazed myself. J.D. got that birthmark when he was born in New Zealand while his family was on vacation.

Me: Yep.

Dipper: Here's mine.

Dipper showed me his birthmark. It was in the shape of the Big Dipper.

Me: That's the Big Dipper all right. It's a mini-constellation in the constellation of Ursa Major the Great Bear in the Northern Hemisphere.

Dipper: Yep. That's why I always keep it covered and how I got my name. Everyone teased me and picked on me because of it.

Lola: Those rotten neanderthals!

Lisa: Agreed. Those people that tormented Dipper like this are a bunch of imbecilic moronic monsters.

Pacifica: Wow! Lisa you are very smart for a 4-year-old girl.

Laney: Lisa is a prodigy Pacifica. She has a really high IQ and more.

Pacifica: That's amazing.

Dipper: It sure is. J.D. I have a question?

Me: What's up Dipper?

Dipper: You mentioned that there are lots of planets in a place all over the universe called the Unknown Zone. What is that?

Me: Well it's an area of the entire infinitely vast web of galaxies that remains left to be explored.

I pulled up the computer and showed everyone. The area in green is our corner of the entire universe. That is the 5% of the entire universe that we are familiar with.

Me: The green area lit up is where we are. This is the 5% of the entire universe that we are familiar with.

Nico: Wow.

Mabel: That is so cool!

Dipper: And the other 95% is the area that's unknown?

Me: Yep. And we've only begun to scratch the surface of the entire universe waiting to be explored. Oh that reminds me. I got to call George, Roy, Max and Ken to see if we can help them identify what species of creatures they were spliced with.

Donny: That's a good idea J.D.

Leo: Yeah!

At the Mall, Sydney, Nanette, Sheila, Ace, Qin and Leni were at a popular clothing store trying on all kinds of awesome clothes. Qin was wearing a green and black stripe t-shirt, black pants and blue sandals. Sydney was wearing a blue tank top and blue pants and blue shoes. Sheila was wearing a dark green shirt with black pants and brown shoes. Nanette was wearing a red summer shirt and plaid skirt and red sandals. Leni was wearing a sea foam green summer dress with flowers on it and she had a green flower beret in her hair and she had green sandals and Ace had a red t-shirt with Native American designs on it and she had a yellow New Mexico skirt and she had her hair in a cronmage.

Leni: These clothes are totes adorbs!

Sydney: They sure are. I look amazing!

Nanette: Me too.

Ace: I've always been a huge lover of the American Southwest. It's so beautiful.

Sheila: My favorite place is the Grand Canyon. It's so beautiful.

Qin: I love the Grand Canyon. It's so amazing.

Later they paid for their new clothes and they were having lunch in the cafeteria.

Qin: I haven't eaten at the mall since I got gene slammed.

Leni: That must've been bad for you Qin.

Qin: It was Leni. But Sydney, what happened to you girls? How did you become those monsters Nico told us about?

Sydney: That was an awful experience.

Nanette: We were abducted by the Shredder and his Foot Clan and they spliced us with alien DNA that turned us into Alien Creatures.

Sydney: Yeah. J.D. helped identify what creatures we were turned into.

Nanette: I've been turned into what's called a Xepthorgan Stormbeetle.

Sheila: I'm what's called a Uintahzian Rockspider.

Sydney: And I'm what's called a Manitouan Cave Hopper.

Qin: I've never heard of creatures like those.

Sydney: Let us show you.

Sydney, Nanette and Sheila showed her what they looked like on a holographic projector ring on their middle fingers.

Qin: Those are terrifying!

Leni: They were really scary when we saw them.

Qin: And I heard from Nico that you all were cured in the Underground City.

Sydney: That's right. Our friends the Teenage Mutant Ninja Turtles found us and they were gonna do everything in their power to cure

us.

Nanette: They also got the assistance of Team Loud Phoenix Storm to help them.

Sheila: Thanks to our friends we were cured and we were given back what we lost: Our humanity and our freedom.

Qin: Wow! That's amazing!

Ace: It was.

Qin: I heard from Nico that you guys also killed the Shredder. What was he like?

Ace: He was the worst monster of them all.

Sydney: He wanted to destroy the planet Earth.

Sydney revealed the detailed history of the Shredder.

---

Ch'rell was a malevolent member of peaceful alien race named the Utrom and went from planet to planet, unleashing wars, creating chaos and causing destruction. He was eventually captured by the other Utroms who wanted to judge him for his crimes, but some time after being taken into custody, he somehow managed to free himself and caused the transport ship to crash on Earth in 11th century Japan. Ch'rell survived the crash and went into hiding. After the Utroms managed to create exo-suits so they could blend in with humans, Ch'rell stole one. Later he became an incarnation of the Shredder, inspired by the legends he'd heard about the Tengu Shredder. Ch'rell also proceeded to form the Foot Clan to aid his plans and also created the Sword of Tengu, but he lost it at some time in the past.

At some point in modern times, Ch'rell as Shredder adopted and trained an orphan named Karai, to whom he left the duty of watching over the Foot Clan's Japanese branch. He went to New York, where Shredder established himself as Oroku Saki, a billionaire businessman and took over the criminal underworld. One of very few people that could oppose Shredder was Hamato Yoshi, who worked for the Utroms but refused to give up their location, and was killed.

As the years went by, Shredder continued to rule New York's underworld until the Ninja Turtles stopped a group of Purple Dragons who tried to steal an armored car full of money. Next they stopped Baxter Stockman's Mousers from robbing banks in New York. Finally Shredder managed to retrieve the Sword of Tengu, along with one of the Utrom's exo-suits, so he knew that they were still around.

But then the Turtles got their hands on it and Shredder decided that he had to get rid of them, assigning Hun and Stockman to find some way to deal with them. Hun managed to capture Raphael, then let him go so Stockman's Foot Tech Ninjas could follow him. The plan failed, but from what Hun found out from Raphael, Shredder learned that Turtles knew nothing about the Utrom, so they could be useful to him.

He invited Leonardo to his home as Oroku Saki, telling him that there was a great evil that his Foot Clan fought and that they should join forces to stop it. However Splinter told Leonardo and the other Turtles what Oroku Saki really was and they went to confront him. After they refused to join Shredder, a fight started and though they managed to fight off his Foot Ninjas and Hun, Shredder was able to send them running.

Splinter managed to help them regroup and they faced the Foot Clan again, but Shredder took them down one by one. However Splinter tricked him into cutting the support for a water tower, which was then kicked onto him. The water swept Shredder off the building, before the water tower itself fell on him.

Thinking that they'd heard the last of him, the Ninja Turtles left with Splinter, but Shredder was very far from done. However immediately afterwards, Leonardo, who'd accidentally ended up in the past, came across Shredder, but beat him. Shredder and the Foot Clan followed Leonardo through time portals, ending up on Sh'Okanabo's space ship. They tried to take the technology, but with Sh'Okanabo and the Turtles to deal with, Shredder and his Foot Clan were defeated, ending up in their normal time.

Months later, Leonardo was attacked and almost beaten to death by the Foot Clan, along with Shredder who snapped his swords in half. After tossing Leonardo through the window of April's Second Time Around shop, Shredder led the Foot Clan to attack it. Eventually, the Turtles, along with Casey and April were forced into a walk-in freezer (since the store used to be a supermarket). As the police showed up, Shredder barred the door, cut a gas pipe, and dropped a fire bomb, which caused a explosion. However the Turtles, Splinter, Casey, and April escaped the explosion, retreating to a farmhouse in North Hampton that belonged to Casey's grandmother.

They returned to New York, before storming the Foot Clan's headquarters and fought their way through the Foot Ninjas, Hun, mutated Shredder clones, and Foot Mystics.

The Turtles finally reached Shredder's location, where they faced the Foot Elite, before Stockman appeared, now in cyborg armor that he'd reverse engineered from the Utrom exo-suit Shredder let him to study. Shredder and the Turtles were forced to team up to fight him and after he was defeated, they took the fight out to the balcony of the building.

However, the Guardians showed up to help the Turtles and though the Shredder managed to claim the Sword of Tengu, Leonardo took it from him. With the Sword of Tengu, Leo faced off against Shredder, who was using the Turtle's katanas, in one final clash.

It ended with Shredder being beheaded, but after the Ninja Turtles left, he just picked up his head and walked away. After the battle, Splinter went missing and the Turtles found him at the T.C.R.I. building, but Shredder was following them. He sent Stockman into the building to tamper with the VR technology that the Utroms were using to show the Turtles their history. This forced them to fight a feudal version of Shredder and the Foot Clan, but they managed to get back to reality.

Shredder faced the Turtles and Splinter again, but Stockman turned on him, though Shredder set a timebomb to blow up the T.C.R.I. building. However his exo-suit became so damaged that Shredder was forced to reveal himself as Ch'rell by abandoning his suit. Though the Turtles and Utrom escaped the bomb, the explosion went off before Ch'rell could get to the Transmat to get away.

With his supposed demise, the mob, the Purple Dragon, and the Foot, under the leadership of the Foot Elite, began a power struggle. Karai and the Foot, with help from the Turtles in exchange for a truce, managed to get back control of the city. However, it turned out that Ch'rell had survived and was placed in a capsule of worms to heal him while Karai watched over him. But after being fully healed, Shredder's first order of business was to have revenge on the Turtles. He found out that Hun had reduced Stockman to nothing more than a brain and recruited them again.

At that point, Stockman had created the Foot Mechs, mainly in the form of armored ninja robots, but also versions of the U.S. President, English Prime Minister, and Splinter. However, Shredder lost again to the Turtles with help from the Triceraton, Zog, as well as the fact that Karai was questioning her loyalty. Shredder was defeated after Zog gave his life to keep him on his freighter when it exploded, but Karai rescued him on a helicopter. Soon afterwards, the Triceratons launched an invasion of Earth and Shredder used it to gain favor in the city. He did so through his Oroku Saki persona by paying to restore the city.

Shredder would also make changes to the Foot Clan, such as Karai being his new second in command, above Hun, and Dr. Chaplin getting hired as a replacement for Stockman. However, while Shredder was involved in the city's politics, at the same time he was working on a spaceship in the hopes that he could destroy the Utroms, as well as other planets. With his ship finished, Shredder left Karai in control of the Foot Clan, but Splinter, the Ninja Turtles, Leatherhead, and Agent Bishop interfered. During that battle, Hun discovered that Shredder was really an Utrom after his exo-suit was damaged again.

Despite numerous complications, including Baxter sabotaging his ship and attack by Agent Bishop and his men, Ch'rell managed to get onboard the ship with Karai and Chaplin.

As he entered a final battle with the Turtles, he used his more powerful exo-suit, easily defeating both them and Splinter. However, Shredder was forced to fall back after Bishop started firing on his ship and the Turtles decided to use their last resort. They used the Fugitoid Program to overload the ship's core, which would destroy everything including themselves, so as to stop Shredder. However, the Utroms stopped the explosion using time stasis and put Ch'rell on trial for his actions.

As punishment for all the chaos and destruction he'd wrought throughout the universe, he was banished to the ice planet, Mor'Tal, to freeze to death. With Shredder gone, Hun would turn the Purple Dragons into an organized crime syndicate and Karai would take over the Foot Clan as the new Shredder with Chaplin at her side.

At one point, Donatello was trapped in alternate future where Ch'rell successfully took over the world. Splinter and Casey Jones were already dead, Michelangelo lost his left arm, Raphael lost his left eye, and Hun was in a wheelchair with Stockman's brain sewn into his shoulder and helping the Turtles.

In a final showdown with Ch'rell, all the future Turtles, Hun, Stockman, and Karai were killed and Donatello faced off against Ch'rell himself in a powerful new exo-suit. He easily beat Donatello, but was killed after the Turtle shoved the turtle Tunneler into his face. However Donatello went back to the past, preventing that future from occurring.

In the future, the Utrom Shredder was seen locked in combat with the Tengu Shredder and Cyber Shredder. Around them, the Foot Ninja loyal to Utrom Shredder battled those loyal to the Cyber Shredder.

After the Shredder from the universe of the 1987 TMNT show ended up in that of the 2003 show, he began looking for his counterpart. He eventually located Ch'rell, frozen and teleported him to the Technodrome, where he revived the Utrom. However, it didn't work out as the 1987 Shredder had hoped, since the Ch'rell proceeded to take de facto control of the Technodrome with help from Karai. He used technology from Krang's body to construct a more powerful exo-suit for himself and upgraded the Technodrome with Utrom technology.

Ch'rell also created more advanced versions of the Foot Soldiers, as well as an army of mutants from his human soldiers. He proceeded to view all other dimensions using the Technodrome's dimensional portal, but what he saw shook him. Utrom Shredder saw that there were Ninja Turtles in every dimension and resolved to destroy each version. He used the Technodrome to attack New York along with his army of advanced Foot Soldiers and mutants. When the 1987 turtles and 2003 Turtles confronted Ch'rell, he managed to capture them and revealed his full plan.

He told them that each dimension branched off of one original dimension, "Turtle Prime", which was the dimension of the original TMNT comics. Ch'rell proceeded to scan both groups of Turtles for the DNA he needed to find Turtle Prime and destroy it, thus destroying Ninja Turtles in every dimension. With this done, Utrom Shredder headed to Turtle Prime to destroy it, but the 1987 and 2003 Turtles managed to follow him.

After meeting and joining forces with their comic book incarnations, they went to deal with Utrom Shredder in Technodrome as he continued destroying the dimension. The comic Turtles managed to taunt Utrom Shredder into coming out to face them, but he soon found himself confronted by three teams of Turtles, 1987 Shredder, Krang, 2003 Splinter, along with Karai, who'd realized that his actions would destroy them all.

However, Ch'rell grew his exo-suit to giant size and proceeded to overwhelm them all with his suit's new technology. He eventually had the original Turtles in his grasp, almost crushing them to death, but failed to finish them. Ch'rell was forced into the laser of the Technodrome, apparently destroying him for good, all because Bebop and Rocksteady unplugged then replugged in the laser (which was apparently powered by a power outlet). However, Splinter remarked that he was seldom gone for long and Karai agreed that he would return again.

Qin was absolutely horrified.

Qin: The Shredder was a monster!

Ace: He was the worst monster we ever encountered.

Sydney: We're all glad that J.D. and everyone killed him.

Nanette: The Shredder did this to us and he took away our humanity.

Sheila: But thanks to everyone curing us and killing the Shredder, we got our lives back.

Qin: I'm glad the Shredder is dead for good. He will never terrorize our planet again.

Ace: Amen to that.

Leni: Totes.

Qin: I also heard from Nico that you all went to Atlanta, Georgia to save the Ed's from an event called The Vengeance Express?

Ace: That was a terrifying event.

Sydney: That was an awful event. It's the reason why the Ed's were scarred for life.

Nanette pulled out a copy of the Newspaper from that time and Qin read it. It was an awful event.

Qin: I can't believe that the Kanker's would destroy all of Atlanta like that for something so petty!

Sheila: They also were going to rape the Eds.

Qin: That is completely sick! Marie told me all about what her sisters were like and they were monsters!

Ace: They don't deserve to call themselves human.

Qin: I'm glad Marie redeemed herself.

Sheila: Me too.

Qin: I was told you guys are now going after the Goosebumps

Monsters. You know which monster it was that scared me the most?

Leni: No we don't.

Qin: Lord High Executioner from A Night in Terror Tower.

Sheila: That was a creepy but strange one.

Nanette: Yeah.

Sydney: Well he's on the Goosebumps Monster Busters Hit List. So we'll go after him when we do.

Qin: I hope so. I want to show that monster that I'm not scared anymore. Like Nico, I read all the Goosebumps books and A Night In Terror Tower is the one that terrified me the most.

Sydney: Nico was terrified of Slappy. That book and the monster in real life terrified him badly back when he was young. It scarred him for life.

Qin: That's awful. I remember that Nico was not his only victim.

Sheila: We know. It was a nightmare for a lot of people.

Qin: Yeah.

Sheila: I think we need to find boyfriends. We've been single since we became human again.

Qin: I agree. Nico is already taken because he has May. But I hope we do find boyfriends.

Leni: I already have Ed as my boyfriend

They continued to talk at the mall as well as shop.

---

Back at the estate, George, Roy, Max and Ken were with us.

George: So you guys are gonna try to identify the monsters species we were turned into?

Me: That's right. It worked with Sheila, Nanette and Sydney. All it took was one drop of blood.

Roy: That works.

Ken: Okay lets do it.

George: I'll go first.

Me: Okay.

George went first and he put a drop of blood in the analyzer. It found out that he was spliced with Sangurahuan Rockgolem DNA.

Me: Wow! So that's what Stonebiter Is.

George: A Sangurahuan Rockgolem?

Me: They come from a volcano planet in the Pinwheel Galaxy called Sangurahua.

Planet Sangurahua is a Volcano Planet located in the Pinwheel Galaxy. It's name is a fusion of Tungurahua and Sangay Volcanoes in Ecuador. It orbits close to a red dwarf star and it has volcanoes that erupt all the time and the sky is dark always. The glow from the lava provides the only light.

George: That is an unusual planet. I never heard of a planet like that.

Laney: That's a really interesting planet.

Lynn: It sure is.

Me: It says that they are powerful golem creatures that can withstand the extremely high temperatures of the lava on the planet.

George: That's amazing!

Max: Lets see what I am.

Me: Okay.

Max put a drop of his blood in the machine and it found out that King Nail's species is a Nyamuragiran Scorpioclaw.

Me: A Nyamuragiran Scorpioclaw? That's an interesting creature.

The Nyamuragiran Scorpioclaw comes from the volcano planet Nyamuragira. Named after Nyamuragira Volcano in the Democratic Republic of the Congo (Formerly Zaire), Planet Nyamuragira is located in the unknown zone of the universe 82 quadrillion light-years away from Earth. It is home to over 100,000 volcanoes that are all active and the sky is a storm filled with lightning. Volcanoes erupt all day long.

Max: So that's what King Nail is.

Nico: I never heard of something like that.

Laney: Me neither.

Roy: I wonder what I am.

Me: Lets find out.

Roy put a drop of blood in and it told us that he was a Calbucoan Slashcrab.

Me: A Calbucoan Slashcrab?

Roy: That's what Razorfist is?

Lola: I never even knew that's what it was.

The Calbucoan Slashcrabs come from the volcano planet Calbuco. Planet Calbuco is a volcano planet located in the Unknown Zone. It is named after Calbuco Volcano in Chile which erupted on April 22nd, 2015 after laying dormant for 43 years since 1972. It has ash clouds that cover the whole sky, lightning strikes everywhere, ash rains down and even lava bombs rain down. Totally hostile world.

Brittney: I remember the planet Calbuco. That's where I got this nasty burn.

Brittney revealed that she had a nasty burn scar on her right elbow and it looks like a really nasty star burn.

Me: (Whistles) That's a nasty one Brittney.

Brittney: I know dad. Lava from a lava bomb landed on my arm and it burned me bad. It was a nasty 3rd degree burn.

Lincoln: That must've hurt.

Brittney: It did. Naruto treated my wound.

Naruto: I'm glad I did sis.

Me: Good. Lets see what it says about the Calbucoan Slashcrabs. It says here that they can survive the extremely hot temperatures of any hostile environment. And they can swim in lava.

Roy: That's amazing!

Ken: Lets find out what Armorsight's species is.

Me: Okay.

Ken took a drop of blood and it showed that Armorsight was a Vesuvian Golemcyclops.

Me: A Vesuvian Golemcyclops?

Ken: So that's what Armorsight is.

Me: Lets see what it says.

Armorsight comes from the volcano planet Vesuvius Prime. Planet Vesuvius Prime is a Volcanic Ruin Planet located in the Unknown Zone. It is named after Mount Vesuvius in Italy. The infamous volcano erupted in 79 A.D. and destroyed the cities of Pompeii and Herculaneum with volcanic pyroclastic flows. Vesuvius Prime is home to Pompeii before it was destroyed. This time however the people are more prepared with volcanoes.

Me: Wow. It says that Vesuvian Golemcyclops are the protectors of the cities of the planet Vesuvius Prime and that they can withstand the temperatures there on the planet.

Ken: That's amazing!

Lola: That is incredible!

Sydney and the girls then came back.

Me: Hey girls.

Backstop: How was the mall?

Leni: It was totes amazing!

Sydney: We had a great time guys.

Nanette: We got so many clothes and more.

Qin: We sure did.

Me: Cool. Well so far there's no crime. Lets go over to Hawaii for some fun!

Everyone cheered.

Tori Hanson: I've always wanted to surf in Hawaii.

Blake Bradley: You've told me that once.

Me: I love surfing and the waves are perfect.

Lincoln: I won the Big Kahuna of Hawaii Surfing Contest there.

Tori Hanson: That is so cool Lincoln! You'll have to show me.

Lincoln: Sure.

Me: And it's also where Lincoln reunited with Lilly after 222 years.

Lincoln: Yep.

Lilly: I remember that.

Me: Lets head to Hawaii!

Everyone cheered.

We were off to Hawaii!

## HANAHUNA BAY, HAWAII

We arrived at Hawaii and we were in Hanahuna Bay. One of the most amazing places ever and it's perfect for surfing.

Me: Here we are guys. Hanahuna Bay, Hawaii on the island of Lenai.

Laney: It's so beautiful.

Me: It sure is. Lets get changed and have fun!

We did so. Maria was in her blue one piece swimsuit. Stacy had a yellow and purple bikini, Qin had a green and black bikini, Sydney had a Blue and Grey bikini and Nanette had a Red and orange bikini. Sheila had a olive green and brown one piece and Ace had a Red and yellow one piece.

We were having fun. Maria was playing with Horsea in the ocean and they saw all kinds of fish and more.

Horsea: This is so fun!

Maria: It's awesome!

They went back to the beach.

A man bumped into Maria. It was Manu Tuiama.

Manu Tuiama (to Maria): What's a beautiful lady like you doing here in Hawaii?

Maria blushes at this.

William: (growls) She's my girlfriend, thank you very much!

Manu Tuiama: The Wiki-Tiki is gonna get you if you keep this up.

He left.

William: Ulrich, is this how you feel when someone flirts with Yumi?

Ulrich: Most of the time, yeah.

Thunderblast: Except your jealousy might be justified. There's something off about Manu.

Me: Boy it sure is breathtaking here. What was that about guys?

William: No idea. Some crazy local legend about the Wiki-Tiki.

Me: One of the legendary demons of ancient Hawaiian Lore?

William: Is that what it was?

?: Hey what are you all doing here?

We turned and we saw Fred, Daphne, Velma, Shaggy, Crystal, Scooby and Amber.

Me: I don't believe it! Fred, guys! We're here for relaxation.

Velma: It's great you're all here.

Daphne: We didn't expect to see you all here.

Me: Small world huh?

Lori: What brings you all here to Hawaii?

Fred: We're here on vacation.

Suddenly there was a volcanic eruption and we saw a billowing cloud of smoke come out of the volcano.

Me: We got company!

We saw little Tiki Spirits come out of the trees towards us.

Lana: What are those things!?

Nico: I got this!

Nico punched the ground and razor sharp rocks were upheaved and they skewered the little creatures. But what we saw was unusual. They were little robots.

Me: They're little robots.

Lisa: Very fascinating mechanical machines.

Me: Yeah. But who would use them?

Me and Freddy: (In unison) Well gang, Looks like we have another mystery on our hands.

We look at each other.

Me: Just like old times Freddy.

Freddy: You know it J.D.

Shaggy: Like, no way. We came here to relax, not investigate a Hawaiian monster!

Maria: Ok. Then I guess you two don't want this box of Scooby Snacks. (Holds out box)

Shaggy: Like, no way!

Me: Oh yeah?

I grabbed them and lifted them up off the ground.

Me: Just like old times huh? We're gonna find the Wiki-Tiki and bring him down.

William: Let's split up and look for clues. If anyone runs into trouble, call the rest of us.

Maria: Ok. Let's gather the clues that each of us found and put them together.

Me: Okay.

We split up into 2 groups and we got to work and we found some interesting clues both electronically and physically. We found an electronic purchase made for lots of robotic parts. These robot parts were for the little tiki spirit robots we destroyed. We also found out that the smoke from the volcano was caused by special effects when water was poured onto the lava. We also found an old rickety surfboard and it was for something. We put the pieces together and it was all part of a real estate scam. The motive was to scare the locals the houses cheep. We then set out to find and capture the Wiki-Tiki.

Me: Okay. I sense that Snookie is around here.

Eddy: Lets find her first.

Sakura Avalon: Lets do it.

We went into the jungle and we saw footprints in the sand along the path. But we also saw Pokemon paw prints.

Me: Pokemon Paw prints?

Nico: There's more than two of them.

Vince: 11 species.

But then we came across a rather unusual sight. We saw ginormous palm trees and big coconuts. The Palm Trees were over 1,300 feet tall and the trunks were over 50 feet wide. The Coconuts were over 20 feet in size.

Me: Wow! These are the biggest palm trees ever!

Laney: And these coconuts are massive!

Lola: Boy you would need a sledgehammer to crack these open!

Daphne: No kidding!

Lincoln then saw a coconut fall.

Lincoln: Look out!

Lincoln dodged it and it slammed into the ground with the force of a 2 ton weight.

WHAM!

Me: Whoa! These coconuts are not only huge but they are super heavy!

Lori: No kidding.

Then I sensed a Clow Card in the area.

Me: I sense a Clow Card here.

Sakura Avalon: I sense it too.

Me: This is the work of the Big Card. 大

Lola: What does the Big Card do?

Me: Obviously makes things grow to gigantic size. And without a shadow of a doubt it's the sister card to the Little Card.

Kero: That's right J.D. The Little Card makes things shrink, where as the Big Card makes things grow.

Me: Wow.

We followed the forest path and we saw another set of human footprints. We followed the second footprints and we saw the Big Card. Its physical form manifests as an extremely tall, slim and lithe, blue-colored, young woman. Big is dressed like a medieval princess, draped all in cognate shades of blue, with long sleeves that obscure its hands and it wears a divided hennin atop its head. In addition, the card also wears a long, billowing blue cape draped across its shoulders that falls down along its back. Its intimidating height belays its actual gentle nature.

Me: So that's the Big Card.

Lola: She looks beautiful!

Me: She looks like a medieval princess.

Kero: She does look like that huh? But she's very gentle.

Laney: That's cool.

Me: But she's still a Clow Card nonetheless. RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and sucked in the Big Card. The Big Card was a Clow Card again.

Me: That's that. Now we have to find out where that second set of footprints leads.

I signed the card and we went to see the 2nd footprints. We followed them to a clearing and we saw Snookie and she had 11 shadow Pokemon with her! She had a Eelektross, Beheeyem, Deoxys, Scizor, Glaceon, Liepard, Mienshao, Blaziken, Electivirem, Absol and Aegislash.

Snookie Waeawa: It's time for my beloved to strike fear into the locals once again. And you're going to help out this time. You're a Shadow Pokemon now, Deoxys. Do not fail us.

Deoxys: I won't, Snookie.

Ash: Deoxys!

May: And a Scizor, Glaceon, Liepard, Mienshao, Blaziken, and Electivire as well!

Lilo: They've all been turned into Shadow Pokemon!

Me: Wait. I sense that Snookie has been forced into doing Manu dirty work.

Lincoln: I feel it too.

Me: Lets go!

We went at her and we confronted her.

Me: Snookie!

Snookie saw us.

Snookie: Team Loud Phoenix Storm and those Meddling Kids.

Me: Snookie please don't do this.

Snookie: I need the money.

Then numerous robot tikis appeared.

Captain America: I thought the Robo Tikis obeyed Manu.

Snookie: (laughs) They don't. Manu gave me the remote control for them. Too bad that was a mistake!

Iron Boy: At the very least, they should give us a helping hand against the Shadow Pokemon!

Luna: Dude, don't you see that Manu is only using you?

Snookie: How did you know?

Eddy: The clues we found gave it away. Do you really think your boyfriend's gonna keep you around for long? He seems to trust his precious Shadow Pokemon more!

Me: He's right Snookie. Manu is only using you. You need to realize that you've been duped. Let me show you.

I revealed everything Manu was doing through my eyes and showed her his thoughts. Snookie then broke down crying and she realized that I was right.

I comforted her.

Me: It's not too late for you Snookie. You still have a chance to set things right.

Snookie: I do?

Laney: Sure Snookie. First lets deal with these Shadow Pokemon and then go after the Wiki-Tiki.

Me: Right.

Laney: Lets get them!

Ooh, ooh, ooh

Ooh, ooh

Somewhere over the rainbow

Way up high

And the dreams that you dream of

Once in a lullaby

Somewhere over the rainbow

Bluebirds fly

And the dreams that you dream of

Dreams really do come true

Someday, I wish upon a star

Wake up where the clouds are far behind me

Where trouble melts like lemon drops

High above the chimney top

That's where you'll find me

Somewhere over the rainbow

Bluebirds fly

And the dreams that you dare to

Oh why, oh why can't I?

Well, I see trees of green and red roses too

I'll watch them bloom for me and you

And I think to myself

What a wonderful world

Well, I see skies of blue and I see clouds of white

And the brightness of day

I like the dark

And I think to myself what a wonderful world

The colors of the rainbow so pretty in the sky

And also on the faces of people passing by

I see friends shaking hands saying

How do you do?

They're really saying I, I love you

I hear babies cry and I watch them grow

They'll learn much more then we'll know

And I think to myself what a wonderful world

World

Someday I wish upon a star

Wake up where the clouds are far behind me

Where trouble melts like lemon drops

High above the chimney top

That's where you'll find me

Oh, somewhere over the rainbow

Way up high

And the dreams that you dare to

Why oh, why can't I?

Ooh, ooh

Ooh, ooh

Everyone cheered wildly.

Nico: That was awesome!

Me: It sure was.

Shaggy: Like, Yeah! Lily sure can sing!

# Orphans & The Wishing Star

In the laboratory of Lisa Loud at the estate, Shockwave and Wheeljack were working on a dangerous experiment. They were gonna try to bring Roxas, Sora's Nobody back to life and give him humanity. They had Sora strapped to a table

Sora: You sure this is going to work, Shockwave?

Shockwave: Sora, me and Wheeljack are scientists. We know what we're doing.

They activated the machine and in a massive flash of light Roxas was separated from Sora and he was reborn!

Roxas: What happened?

Sora: Roxas!

Roxas: Sora. I'm back? How?

Sora explained every detail.

Roxas: Wow! So I'm back for good?

Sora: Yep.

Pence, Hayner and Olette came in and they saw Roxas for the first time in a while!

Olette: Roxas!

Pence: Roxas!

Hayner: Roxas!

Roxas: Hey guys!

They hugged him!

Olette: We thought we would never see you again!

Pence: We missed you!

Hayner: We thought you were dead!

Roxas: I'm now back for good guys.

Sora: Thanks to Wheeljack and Shockwave here.

Olette: That's so awesome!

Pence: I'm glad they brought him back.

Sora: Me too Pence.

Roxas: It's good to be back.

I came in.

Me: Roxas. It's good to see you again.

Roxas: You too J.D. I heard that everyone on Organization XIII is dead.

Me: Not everyone. Aeleus, Lea and Elrena are still here and so is Xion. Elrena changed her name to Elena. But Luxord is still alive. But he's now forever bound to the Flying Dutchman in the world of Pirates of The Caribbean. But we still have to deal with Xemnas, Xehanort, Xigbar and Luxord's heartless still roaming about and come to think of it I don't think we ever encountered your Heartless, Sora.

Sora: I don't think so either.

Roxas: Well if we do we'll face it together.

Me: And we will. Also we never encountered Riku and Kairi's Heartless.

Sora: Yeah.

Me: Like Roxas said if we do we will face them together.

Xion then came in and when she saw him she was shocked.

Xion: Roxas?

Roxas: Xion?

Xion then went to her room and she broke down crying.

Me: Oh no.

Roxas: Xion wait!

We heard sniffling. We turned around and saw that Xion was starting to cry a little. Roxas ran up to her and placed his hand on her shoulder. Xion just looked at him with a small smile, tears falling down her face.

Lea: (walks up to them awkwardly) Guess I… shoulda brought some ice cream.

Roxas and Xion smiled a little. Lea smiled too, but it began to falter as he began to tear up as well. Without warning, Lea ran towards the two, embracing Roxas and Xion in a tearful hug. The three cried tears of happiness as the hugged, happy to finally be reunited after what felt like forever.

Ember McClain: Lea, you know that you and Xion have been with us for over a year, right?

Lea: Yeah. It's hard to imagine.

Me: But it's actually been 2 and a half years. We killed Xehanort almost 3 years ago.

Roxas: I'm glad he's dead.

Me: I know. But we still have all of his fragments to clean up that have been scattered all over the universe.

Roxas: Yeah.

---

In the garden, everyone was having an awesome talk and it was a beautiful garden that was worthy of Eden.

Qin: Nico can I ask you a quick question?

Nico: Sure Qin.

Qin: During the fight with the Evil Carol, I saw in J.D.'s hand a strange purple and black sphere. What was that?

Nico: Those are called the Dark Orbs of Xehanort.

Qin: Xehanort?

Nico: You would hate this guy Qin.

Nico revealed the full detailed history of Xehanort.

---

Xehanort was born in Destiny Islands, feeling his home was a prison. But due to an encounter of a future incarnation of himself, Xehanort's destiny was set in stone as he acted on his future self's will before losing his memory and leaving the islands to become an apprentice under a Keyblade Master alongside a fellow apprentice named Eraqus. When the two became Keyblade Masters, Eraqus was made steward of the Land of Departure so Xehanort can freely travel the worlds.

However, over extears of research and travel, Xehanort became obsessed with the events of the Keyblade War. He felt that there was no balance between the light and the darkness, so he planned to recreate the χ-blade to cause a second Keyblade War with hopes to establish balance. By the time he confided his goals to Eraqus, Xehanort had mastered the powers of darkness and used them to scar his former friend in defense.

He attempted to utilize the darkness of a Keyblade wielder named Ventus to recreate the χ-Blade and serve as a host for his heart to prolong his life long enough for his plan to come to fruition. However, Ventus refused to succumb to his darkness and Xehanort is forced to extract the darkness and create Vanitas before leaving a weakened Ven to die on the Destiny Islands.

But, seeing the boy pulling through, Xehanort has Ven sent to be trained by Eraqus so he can become Vanitas' equal in order for their reunion to recreate the χ-blade. By that time, Xehanort found a more ideal host in one of Eraqus' two students: Terra.

While Vanitas traveled the worlds spreading the Unversed to prepare Ventus for their reunion, Xehanort was looking for the Princesses of Heart (seven princesses with hearts of pure light). He managed to find one, Princess Aurora. It was also at that time that he arranged for Maleficent to find the other Princesses of Heart for him.

He also came to Radiant Garden to employ the services of Braig, offering him a Keyblade of his own in return for helping him in getting Terra to embrace his darkness.

Though Braig was scarred as a result of Terra using his darkness, winning the youth's trust as a result, Xehanort threateningly calmed him down before infusing part of his heart into Braig's body. By tricking Terra into defeating Eraqus, Xehanort kills his old friend and casts the entire Land of Departure into darkness before telling Terra to meet him in the Keyblade Graveyard where his plan will be completed.

Managing to separate Terra from the others, with Braig holding them off, Xehanort sends Vanitas to enact his reunion with Ven. Managing to get Terra to unleash his full fury on him before seeing the light marking the restoration of the χ-blade, Xehanort uses his Keyblade to transfer his heart into Terra's body, turning the youth into his vessel Terra-Xehanort.

However, with a new younger body, Xehanort found resistance from Terra through both his Lingering Will and the heart of Terra itself as he attempts to aid Aqua. It was only when Terra-Xehanort attempted to purge Terra's heart that the vessel loses all his memories except the name "Xehanort" which he took.

However, unable to fully rid himself of Terra, Xehanort reveals the series of backup plans he arranged that were ultimately carried by

Terra-Xehanort's splinter selves, false Ansem and Xemnas. Even though Sora and his friends foil their schemes, Xehanort had another plan set into motion.

After the defeat of Ansem and Xemnas, Yen Sid explains to King Mickey that those actions actually freed Xehanort's heart from the Heartless Ansem and vanquished Terra-Xehanort's leftover body which had become his Nobody Xemnas, thus both halves' destruction has now lead to the reconstruction of Xehanort's pure and original incarnation: Master Xehanort.

Having expecting it, Xehanort arranged for his past self to gather every incarnation or vessel of himself together at the World That Never Was to witness Master Xehanort's return while capturing Sora as he and Riku were in the Sleeping Worlds. Eventually, ten Xehanort's, which included his Heartless and Nobody as well as Braig and Isa, were gathered.

When Riku arrives to rescue Sora, who is in the Organization's clutches, King Mickey freezes time to allow Riku to escape. However, Master Xehanort's soul possesses his younger self and duels Riku.

After the battle, Master Xehanort finally revives. Xehanort callously admits he misjudged the χ-blade being recreated with only Ventus and Vanitas, stating that their fate, along with Aqua and Terra's, was all predestined. He further elaborates that his Thirteen Seekers of Darkness, the true Organization XIII, with be able to recreate the χ-blade by clashing with seven lights, the seven wielders of the Keyblade. Though Xehanort attempts to add Sora to his rank to complete the members, Lea's interference ruins it as he and his followers scatter, but he promises that the final battle will come soon.

Master Xehanort appears as the main antagonist of Kingdom Hearts III, the finale of the Dark Seeker Saga.

Master Xehanort first appears approaching the guardians of light once they arrive at the Keyblade Graveyard for the final showdown. He and his direct incarnations repeat his speech to Eraqus about the χ-blade and the Keyblade War from years ago before summoning thousands of Heartless to attack them.

Master Xehanort appears again later on, this time with the rest of the Real Organization XIII by his side. Declaring that the χ-blade would be forged, Xehanort creates a massive labyrinth, the Skein of Severance, keeping most of the key players inside while his Heartless, Nobody, and younger self watching just shortly overhead, with Xehanort himself watching all from a large pillar.

After the other darknesses are defeated, Sora, Riku, and Mickey confront Ansem, Xemnas, and Young Xehanort at the Tower of Endings. Master Xehanort reveals that the battles between light and dark, and the subsequent defeat of those darknesses, created nine out of thirteen keys needed to forge the χ-blade, watching as his other incarnations are defeated, leaving just one left. Xehanort, having planned for every eventuality, brings out Kairi, whom Xemnas had kidnapped earlier. In order to motivate Sora to fight him, Xehanort mercilessly slays Kairi in front of him. Sora tearfully and angrily attacks Xehanort, creating the thirteenth key. Mickey and Riku attack him as well, but are easily repelled. Xehanort opens Kingdom Hearts and with the thirteen keys, his own Keyblade, No Name, transforms into the χ-blade. Having obtained the χ-blade at long last, Xehanort uses its power to corrupt Kingdom Hearts into darkness.

However, because his younger self had frequently traveled through time, Xehanort himself served as a portal, something the guardians of light use to their advantage. They trap Xehanort within himself, and while the other guardians keep Kingdom Hearts at bay, Sora, Donald, and Goofy go inside the portal to Scala ad Caelum, the old training grounds for Keyblade wielders where Xehanort and Eraqus themselves became Keyblade Masters. There, the trio find that the defeat of the other twelve Organization members created Replica Xehanort's, twisted shells that Xehanort uses to power himself up for the final battle. In his Armored Form, Xehanort battled the trio throughout the city before they shattered his armor. Xehanort teleported up to the top of the tower, wielding the χ-blade as Sora, Donald, and Goofy battled him one last time.

Near the climax of their battle, Xehanort nearly kills Sora during his final attack, but Donald and Goofy managed to bring him back from the brink and unite for one final attack, Trinity Limit, defeating Xehanort and fatally wounding him. However, Xehanort still refuses to give up, stating it is too late to stop Kingdom Hearts, revealing he used it to trigger a purge that would destroy all the worlds and remake them free of darkness, and that he alone would lead the new era. Sora rejects his claims saying it was not his decision to make, and even after the other guardians arrive, Xehanort still holds onto his desires.

But to his own surprise, Terra steps forward saying "There's more to light than meets the eye.", something Eraqus told him in their youth, right as Eraqus appears from Terra, his heart being in Terra the entire time, telling Xehanort to hand over the χ-blade. Xehanort eventually concedes, giving in to his old friend and handing the χ-blade over to Sora. Eraqus and Xehanort then go together to the afterlife, having repaired their fractured friendship in his final moments.

Qin was shocked and horrified!

Qin: That's awful!

Nico: Yeah. Had we not stopped Xehanort, he would've ultimately destroyed the entire universe and reshape it in his own image.

Lincoln: I'm glad we did.

Qin: I am too. So what are these Dark Orbs?

Nico: They are the fragments of Xehanort's ultimate evil. After J.D. and everyone destroyed him, his evil essence was scattered throughout the entirety of the Virgo Supercluster in the form of numerous dark spheres of negative energy. There's 47,000 galaxies all over this cluster and we have numerous dark orbs to find and destroy. That's our ultimate mission: To cleanse the entire universe of Xehanort's ultimate evil.

Qin: That is a huge job! That'll take thousands of years!

Laney: It will. But we can do it. We have to work together to defeat the evil villains and destroy the Dark Orbs.

Lana: That's right.

Qin: I'll gladly help you all out.

May: We greatly appreciate it Qin.

Iris: Qin, did you ever have feelings for Nico in your early days?

Qin: Yes. But now, I'm just happy to be like a sister to him.

Nico: I appreciate that Qin.

Qin: I'm glad. Maria I heard you have another sister.

Maria: That's right. Her name is Arixam and she's my Nobody.

Qin: But I thought you have to be turned into a Heartless before you become a Nobody.

Maria: That was my first thought too. She is the result of my Bang Baby days. Would you like to meet her?

Qin: Sure.

Maria: AQUAMARIA!

Her necklace glowed and out came Arixam.

Arixam: Hello Qin. It's a pleasure to meet you.

Qin: You too Arixam. Your hair is very pretty.

Arixam: Thank you.

Lucy Loud: We have had a lot of fun adventures.

Me: We sure did.

Then something really unusual came. It was a bunch of bubbles.

Me: Bubbles? Who's blowing bubbles?

Lincoln: None of us are.

I then sensed a Clow Card.

Me: A Clow Card is here.

Laney: I can feel it.

Then I got covered in soap and bubbles and they smelled like strawberries and grapes. They were tickling me!

Me: (Laughs) HEY THAT TICKLES!

Kero: Hey it's the Bubbles Card. It was made for cleaning things like dishes, and mostly me.

Lana: I didn't know that.

When they got off me I was sparkling clean and I smelled awesome!

Me: Wow! I'm so clean I can see my reflection in my skin!

Lola: That is what I call squeaky clean! I like this card!

The Bubbles Card revealed it's true form. On its main body, Bubbles appears as a young, mermaid-like little girl wearing a blue gem necklace along with some pearls tied around her bubbly head and turns her blue tail into her blue legs. 泡

Me: Wow! That is a beautiful card. I can't believe she made me this clean. But she has to go home. RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Bubbles Card and it was a Clow Card again.

Me: Awesome!

I signed the card.

Later in the living room we were watching one of my favorite movies:

Wakko's Wish. It's a movie from Animaniacs, one of my favorite shows that made me laugh a lot.

---

In the town of Acme Falls within the kingdom of Warnerstock, all the people (including the Mime) live happily together. However, upon the death of their beloved king, Sir William the Good, Warnerstock enters a state of civil war. Taking advantage of the situation, the neighboring kingdom of Ticktockia (a parody of Time Inc. at the time of its merger with Warner Communications), led by King Salazar the Pushy, takes over Warnerstock, and makes all its people poor and miserable due to overtaxing (also a parody of the formation of Time Warner, now WarnerMedia, owned by telecom conglomerate AT&T). Three orphans, Yakko, Wakko, and Dot Warner, are particularly troubled, as Dot needs an operation. Wakko finds work in another town to pay for it, but Plotz takes his pay - a half penny - from him, lying that it is for taxes.

Wakko, saddened about Dot's illness and finding no other choice, wishes upon a star. A fairy (who calls himself a "Desire Fulfillment Facilitator" or "Pip") falls from the star and explains that Wakko had just chosen the only wishing star in the sky. The star itself [which Rita and Runt witness] falls shortly after in the mountains and the fairy tells Wakko that whoever touches the star first gets one wish. The following morning, the siblings tell the whole town about the star in their excitement, and all rush towards the glow in the mountains. King Salazar finds out about the star, orders Taxman Plotz to stop the Warners from reaching the star alive, and orders his troops to secure it.

Plotz does not stop the Warners from reaching the star at the same time as all the other townsfolk. However, the King's army has already built a military base around the star, and a small ice palace to the side of it, and the townspeople (including Plotz) are all captured and locked up so that the King may have his wish. The Warners hint that the wishing process is not as simple as the king thinks in a desperate bluff. The King captures the Warners and tortures them in outlandish ways, from Mr. Director's terrible singing (Mr. Director being a parody of Jerry Lewis), then a filthy gas station restroom, and lastly Baloney the Dinosaur (who is a parody of

Barney the Dinosaur). The Warners tell the King that any wish, which he makes, may have an ironic twist and demonstrate this to his annoyance. He orders the Warners executed, but Dot uses her charms to save them. The Warners escape.

As the King is about to make his wish (for the Warners to leave him alone), the Warners show up, and he tries shooting them himself with a cannon. The cannonball explodes after landing just short of hitting the Warners, injuring Dot from the shock wave of the blast. Wakko seizes his chance to head to the star, and Yakko drops behind, trying to convince Dot that she can make it. Yakko then tells Dot the story of how Dot was born one last time. Dot appears to die, causing the people of Acme Falls to cry in sorrow, along with some of the royal army, who become furious with King Salazar for his cruel nature. As everyone turns on the King (who seemingly appears a little remorseful), Wakko reaches the star. Dot reveals that she had been acting and was not actually injured/dead; the two were buying time for Wakko. Wakko wishes for two half pennies.

Wakko uses the second of these to buy food and "season tickets for the Lakers". The first one pays for Dot's operation, which is revealed to be a plastic surgery to give her a beauty mark. Wakko's first half penny, however, returns prosperity to the town as the butcher, the baker, and the grocer spend the money that they earned, and the people from whom they make purchases in turn do the same.

The hospital finds Yakko, Wakko, and Dot's birth certificates, and reveals they are the heirs to the throne. Their parents, seen for the first (and only) time in a portrait, were the king and queen of Warnerstock. They (literally) boot Salazar out of their palace, and he is attacked by his own dogs. The Warners use their newfound royal authorities to grant the citizens of Acme Falls their wishes - except for the Mime (who is promptly crushed by a safe and Yakko stating, "I don't know about him, but that sure was my wish!"). Yakko then spins the Wheel of Morality, which specifies the moral of the story is "just cheer up and never ever give up hope".

We saw what King Salazar did throughout the movie and it really made our blood boil!

Upon the death of the king, Sir William the Good, Warnerstock enters a state of civil war. Taking advantage of the situation, the neighboring fictional kingdom of Ticktockia (a parody of Time Inc., at the time of its merger with Warner Communications), lead by King Salazar the Pushy, takes over Warnerstock, and makes all its people poor and miserable due to overtaxing.

Three orphans, Yakko, Wakko, and Dot Warner, are particularly troubled, as Dot needs an operation.

Wakko, saddened about Dot's illness, tries wishing upon a star. A fairy (who calls himself a "desire fulfillment facilitator") falls from the star he picks and explains that Wakko had just chosen the only wishing star in the sky. The star itself (which Rita and Runt witness) falls shortly after in the mountains and the fairy tells Wakko that whoever touches the star first gets one wish. The following morning, the siblings tell the whole town about the star in their excitement, which makes them all rush towards the glow in the mountains. King Salazar finds out about the star, orders Taxman Plotz to stop the Warners from reaching the star alive, and orders his troops to head to the star first and secure it. When he learned they escaped, he remarks "Just like their parents, I should've gotten rid of those kids years ago when I had the chance.", hinting that he probably killed their parents during his invasion. As the King approaches the star and is about to make his wish, that the Warners would leave him alone forever, the Warners show up, and he tries shooting them himself with a cannon. He misses, but Dot seems mortally wounded by the force of the explosion created when the cannonball hits the ground. Wakko seizes his chance to head to the star, and Yakko drops behind, trying to convince Dot that she can make it. Yakko then tells Dot the story of how Dot was born one last time, Dot then seemingly dies, causing the people of Acme Falls to cry in sorrow, along with some of the royal army, who become furious with King Salazar for his cruel nature. As everyone turns on the King, Wakko reaches the star. Dot reveals that she had been acting and was not actually injured, while Wakko wishes for two ha'pennies.

They then boot Salazar out of their palace (literally) where he is attacked by his own dogs. It was revealed that he killed Yakko, Wakko and Dot's parents and took the castle and threw the three kids away to the orphanage to be sure to not see them again.

It is unknown what has happened to Salazar afterwards.

---

When the movie was done we were laughing our heads off and it was so funny!

Me: It was all so funny!

Varie: (Laughs) That was so funny!

Luan: That Salazar really got the Boot! (Laughs to Rimshot) Get it?

Me: (Laughs) Good one!

Eddy: (Laughs) That was funny!

Rachel S.D.: I love Animaniacs! It always makes me laugh every time I watch it!

Me: Me too Rach. But still what King Salazar did really is the worst of the worst.

Lori: He literally disgusts me.

Me: How about we go and show King Salazar what happens when you mess with those that need family?

Everyone: YEAH!

We went to the Simulator and we were gonna head out over to Warnerstock to kill Salazar.

---

In the Simulator we were getting ready. Nico caught a Chandelure and a Haxorus before we came into the Simulator.

The Simulator activated and we saw the story unfold.

Narrator - Over a century ago, in the foothills of the old river valley, there stood the village of Acme Falls. It was a town filled with happy inhabitants, including the butcher-

Butcher - Hi!

Narrator - The baker-

Baker - Hi!

Narrator - And the candlestick maker-

Candlestick Maker - Hi!

Narrator - And a mime.

Yakko - Well no place is perfect.

Narrator - That's true. But Acme Falls was as close to perfect as possible - except for the mime, that is.

Yakko - Right!

Narrator - Now this village was part of a peace-loving, picturesque little country called Warnerstock, which was ruled by a benevolent king, Sir William the Good. Everyone loved King William. Peace and prosperity covered the land, but then King William passed away and there was a struggle for control of the kingdom. And the struggle ended with Warnerstock being overthrown in a hostile takeover by the nation of Tictockia. Now the new leader of Warnerstock was Salazar the Pushy, a ruthless corporate raider who vowed to rule with a tight fist. But the international community didn't support his regime, and the country's fortunes plummeted.

Additional Voice - [mumbling] We're broke!

Narrator - Salazar's treasury grew dangerously low, so he sent out an edict for the country to start turning a profit or perish. To fill the royal coffers, all cities and towns were to be taxed, and this included Acme Falls. There, the king sent his tax collector, Baron von Plotz, who was taxing to the extreme.

Ralph - Duh, that's right, keep it moving! Please give 'til it hurts! Next!

Plotz - [chewing] Well?

Additional Voice (Old Man) - Forgive me, Baron von Plotz, sir, but I've nothing to pay my taxes with. Why, you've taken my livestock, my land, my home, and left me with nothing to eat!

Plotz - Yes, yes, these are hard times. I can hardly keep the fire burning myself.

Additional Voice (Old Man) - Oof!

Plotz - Next!

Narrator - The baron squeezed the life out of Acme Falls until the once prosperous town was crushed. And so our story begins, in the miserable little village of Acme Falls, with this pathetic band of downtrodden and destitute townsfolk - oh, and a mime, too. And three orphans who live on the street ever since the orphanage shut down; Yakko, Wakko, and Dot.

Yakko (singing) - Some folks say that life is cruel.

Wakko (singing) - At the orphanage they fed us inedible gruel.

Dot (singing) - We slept on beds with springs that hurt.

Yakko (singing) - The faucets had hot and cold running dirt.

Wakko (singing) - The windows were broken, the roof was leaky.

Dot (singing) - The walls were cracked, the floors were creaky.

Yakko (singing) - They shut down the orphanage and now we know-

Warners (singing) - [sigh] Those were the days, we miss it so!

Dot - And ever since then-

Additional Voice (Bass - Singing) - I've been feeling low.

Yakko (singing) - Another subzero morning!

Dot (singing) - And still there's nothing to eat!

Yakko (singing) - My feet couldn't get much colder.

Dot (singing) - Our breath is our main source of heat.

Yakko (singing) - We're so far below the poverty line we're off the graph!

Wakko (singing) - But don't fret, sibs, 'cause things'll get better in time, then you're gonna laugh!

Dot - Ha!

Rita (singing) - Poverty and hunger abound here.

Runt (singing) - Yeah, looks like a city dump!

Dot (singing) - There's only one job to be found here-

Yakko (singing) - The town needs a new speed bump!

Otto (singing) - Acme Falls was a paradise-

Nurse (singing) - Happiest place on earth!

Chorus (singing) - But the tax collector's avarice took us for all we're worth!

Plotz (singing) - My coffers are overflowing!

Additional Voices (Shopkeeper Trio - Singing) - All of our shelves are bare!

Plotz (singing) - My profit margin is growing.

Additional Voices (Shopkeeper Trio - Singing) - We're broke, it seems so unfair!

Chorus (singing) - Life's so lousy we can no longer cope!

Wakko (singing) - You gotta cheer up and never, ever give up hope!

Yakko (singing) - All of the shops are closing.

Dot (singing) - Things couldn't get much worse!

Skippy (singing) - Even my nuts are frozen.

Slappy (singing) - Be careful with that last verse!

Otto (singing) - Hey, step up, and try our elixir - it's good for what hurts!

Nurse (singing) - Whatever ails you, it can fix 'er!

Otto (singing) - And it's great on desserts!

Brain (singing) - Drat, the temperature's falling!

Pinky (singing) - I love when the weather is cool!

Brain (singing) - A new ice age is calling.

Pinky (singing) - Look, I can freeze my drool!

Brain (singing) - I have hopes and dreams of ruling the earth, but here I sit watching Pinky make ice sculptures-

Pinky (singing) - Out of spit! Narf!

Slappy - This old tree is finished!

Skippy (singing) - Our acorn supply's gone too!

Slappy - So for dinner we're having creamed spinach.

Skippy (singing) - All I can say is 'Spew!'

Yakko, Dot (singing) - As a town we're so down, so we mope.

Wakko (singing) - You gotta cheer up and never give up hope!

Chorus (singing) - We can't cope!

Wakko (singing) - You gotta cheer up and never give up hope!

Chorus - Are you a dope?

Wakko - Nope!

Chorus (singing) - Just cheer up and never, ever give up hope, hope, hope, hope, hope! Yeah!

Narrator - And so the folks in Acme Falls hoped through the winter, they hoped through the spring, they hoped through the summer, and they hoped through the fall. But after a year of hoping, hope was running out for poor little Dot, who needed an operation.

Dot - [cough, cough]

Narrator - And while Yakko stayed behind to look after his sister, Wakko went out into the world to seek his fortune.

Yakko, Dot - [cough]

Narrator - And the town waited for Wakko's return. They waited through the winter, they waited through the spring, they waited through the summer, and they waited through the fall. And by the following winter, they were still waiting when a young mouse's fancy turned to romance.

Pinky - Oh, Pharfignewton, Pharfignewton! Wherefore art thou, Pharfignewton?

Pharfignewton - [whinnies]

Pinky - Oh, therefore you art. And lookie! Narf! I brought you a snacky-wacky!

Pharfignewton - [whinnies, slurps]

Pinky - [laughs] Tronsk! Feeding you is like taking a really smelly bath!

Brain - Pinky, I need you!

Pinky - [gasps] Pharfignewton, I didn't know you could talk.

Brain - Pinky, stop this foolishness.

Pinky - You know, Pharfignewton, you sound an little like Brain- oof! [laughs] Oh, and you bop like Brain, too! Brain, hehe, we were just talking about you.

Brain - I knew I would find you out here wasting time with this horse. Come!

Pinky - but Pharfignewton and I have pledged our hearts to each other!

Brain - Pinky, that is a horse. You are a mouse.

Pinky - Oh Brain, don't be so intolerant! Why can't the horses and the mice live together in harmony along with the fairies and the wood sprites and the bean sprouts?

Brain - I stand corrected, Pinky. That is a horse. You are an imbecile.

Pinky - Thank you.

Brain - Now come. We must prepare for tonight.

Pinky - Why? What are we going to do tonight?

Brain - Guess.

Pinky - Try to take over the world?

Brain - Bingo!

Pinky - Egad, I love bingo! Narf! It's so much more fun than trying to take over- oof! [laughs]

Yakko - [light snores]

Dot - Hm?

Yakko - Huh?

Nurse - [gasps]

Slappy, Skippy - Huh?

Ralph - [muches]

Yakko, Dot - [gasp]

Yakko (singing) - Oh-ho the train bringing Wakko is a-rollin' down the track!

Dot (singing) - I'm sure that is train my brother's on!

Chorus (singing) - Wakko went to see the world and now he's coming back!

Dot (singing) - I've missed him every day that he's been gone.

Minerva (singing) - He went to seek his fortune and now he's returned.

Rita (singing) - Bringing back the treasures of everything he's learned.

Dot (singing) - Oh-ho the train with my brother is a-comin' closer!

Chorus (singing) - Bearing Wakko down the track-o, back home! Chug-chug-chug-chug-chug! Wakko - Hi!

Chorus - Hooray!

Wakko - My friends of Acme Falls! I give you my fortune - a ha'penny!

Additional Voices (Female Trio - Singing) - **Root is B flat above middle C. The chord is major. If it helps, think 'do-mi-sol'.**

Ralph - Duh, huh.

Nurse - A ha'penny?

Yakko - It's real!

Otto - He has a whole ha'penny!

Chorus - [cheers]

Wakko (singing) - I've got a ha'penny today!

Yakko, Dot (singing) - He's got a ha'penny, hooray!

Otto (singing) - How did you do it?

Wakko (singing) - All work and no play.

Dot (singing) - He chopped wood.

Yakko (singing) - He chopped suey.

Wakko (singing) - I pitched horse shoes and hay.

Yakko (singing) - He milks jokes and cows for his fee.

Wakko (singing) - It was more than I thought it would be.

Chorus (singing) - An entire full year's salary!

Wakko (singing) - And now I've got a ha'penny!

Chorus (singing) - He's got a ha'penny today! He's got a ha'penny, hooray!

Yakko, Dot (singing) - All those days of hard work and here's your reward!

Wakko (singing) - Now there's nothing in this world that I can't afford!

Dot (singing) - You can buy any toys you pick!

Yakko (singing) - And eat candy until you're sick!

Additional Voice (Chef - Singing) - Plus a gourmet meal for monsieur!

Yakko, Dot (singing) And still you'd never be poor!

Chorus (singing) - Because he's got a ha'penny today! He's got a ha'penny hooray!

Wakko (singing) - Our water tower shanty we can finally repair. I can even buy my brother some new underwear. It's like I won the lottery!

Chorus (singing) - Because he's got a ha'penny!

Wakko - I'll buy burgers at the butcher's and blintzes and the baker's, groceries at the grocer's, season tickets for the Lakers!

Otto - You can buy my new elixir!

Warners - Blech!

Nurse - You can buy it by the bucket!

Dot - There's just one little problem.

Yakko - It's lousy, you should chuck it!

Wakko (singing) - It's so to believe it really happened to me, I'm going shopping with my ha'penny!

Chorus (singing) - He's going shopping with his ha'penny!

Ralph - Duh, newses from the village to report, sir!

Plotz - What is it?

Ralph - Duh, seems that one of the townsfolks is happy.

Plotz - What do you mean?

Ralph - Wakko's Warner's has come into the possession of a ha'penny.

Plotz - Ka-ching.

Chorus (singing) - [cheers] He's got a ha'penny today! He's got a ha'penny hooray! With it he could buy himself a tropical cruise!

Wakko (singing) - But first there's one important thing that I have to choose. My sister has been ailing quite a lot.

Yakko (singing) - We don't exactly know what she has got.

Chorus (singing) - You plan to spend your ha'penny on what?

Wakko (singing) - An operation to save my sister Dot!

Chorus (singing) - To cure whatever problem she's got! An operation to save his sister Dot!

Wakko (singing) - It's a present to her from me all because I've a got a ha'penny.

Chorus (singing) - Because he's got a ha'penny! In the village that's called Acme, he's going shopping! So let's get hopping! He's going shopping with his ha'penny! [cheer]

Plotz - And we're all thrilled for your good fortune. Now, about your taxes.

---

In the Control room we saw our moment!

Me: Now!

---

We rushed in and everyone saw a portal emerge and out came a massive fiery explosion and a Phoenix Cry was heard and we came out and landed in front of the townsfolk.

Plotz: Who are you!?

Me: Your worst nightmare!

Stacy then turned into Shredgirl! Her skin turned pink, her mouth grew wider and she grew a sawblade out of her forehead and her hair fell out and her teeth turned into razors and she became Shredgirl!

Qin: Wow! So this is you when you become Shredgirl!?

Shredgirl: Yep.

Then Shredgirl chomped on Baron Von Plotz's butt and he screamed like a little girl as she bit his whole butt clean off!

I grabbed Baron Von Plotz by his shirt.

Me: Listen here you little fat freak! You better give these people back everything they own and all their money or that butt chomp will be the least of your worries!

Baron Von Plotz: And what if I don't?

Me: Then I will slash off your whole head and kill you!

Plotz: (Scared) You wouldn't!

Me: Oh wouldn't I?

I held up a dagger to his neck and began cutting it slowly from the left side.

Nico: You better do what he says if you want to keep your head.

Plotz was so scared that he peed his pants!

Plotz: Okay okay okay!

Me: Good.

Baron Von Plotz did as I told him and all of Acme Acres was getting back to normal.

Spiderman: (to the citizens of Warnerstock) Folks, kiss your troubles goodbye. Because we're getting rid of taxes!

Everyone cheered wildly.

Me: Now for the fun part. Citizens of Acme Falls. We apologize for arriving so suddenly. We are Team Loud Phoenix Storm.

Yakko: Oh wow! You guys are awesome legends!

Wakko: You all are an amazing force for good!

Dot: Yeah! (Cough)

Me: That's right. We came here to help you all and kill King Salazar.

Otto Scratchansniff: (Austrian Accent) How can you do that?

Me: We can help you all. But first lets get all your lives back.

Laney: And if any of King Salazar's men come we'll blast them.

Hello Nurse: We are grateful you all came.

Me: Thanks Hello Nurse. And you and Minerva Mink are the hottest girls ever here.

Hello Nurse: (Giggles and Blushes) Why thank you.

Minerva: You are a charmer J.D.

Wakko: So how are we going to kill King Salazar?

Me: We'll figure something out later. But first we got to help out Dot.

Later that night we went to the reopened orphanage and Hello Nurse and Ratchet looked her over.

Hello Nurse: Sorry, guys. But Dot's not getting any better.

Me: Oh man.

Wakko: Darn it! If only there was some way to help Dot!

Laney: I have an idea.

Laney got down on her knees and prayed. She prayed to the Wishing Star in latin and then a blinding light was seen and we saw a meteor crash in the mountains!

Me: There it is! Lets get to the Wishing Star first thing in the morning.

Later in the morning we got ready.

Me: Here we go guys. We have to make sure that King Salazar never gets to the Wishing Star. We have to make sure that Wakko Warner gets to the Star first.

Lori: Right!

Naruto: This is gonna be so awesome!

Lola: Oh yeah!

Warners [singing] - We're leaving Acme Falls to find the wishing star! We're heading off to seek our dream come true! It's waiting right out there, the answer to our prayer.

Wakko [singing] - A wish for free!

Yakko, Dot [singing] - Hey, you might be a multimillionaire!

Warners [singing] - That's why we're off to seek our destiny together!

Yakko [singing] - It's one for all!

Wakko [singing] - And all for one!

Dot [singing] - Times three!

Warners [singing] - Who cares about the stuff we lack? We're on our way and we won't be back-

Wakko [singing] - Until we find that star!

Dot - Gee, it looks kinda far!

Yakko [singing] - Too bad we don't have a car!

Warners [singing] - Oh, what the hey, we're on our way to find the wishing star! We're leaving Acme Falls to find the wishing star! And when we do our troubles are gonna be through. It's just around the bend, it's where the mountains end. We're packing our load, we're hitting the road, let's sing it together again, hey, hey! We wanna be the first to touch the wishing star! We're northward bound, we're leaving town today!

Yakko [singing] - We're taking a stand!

Wakko [singing] - We're making a vow!

Dot [singing] - This is the place-

Warners [singing] - The moment is now! We, Yakko, Wakko and Dot! We're giving it all we got!

Dot [singing] - We're coming so ready or not!

Warners [singing] - Today's the day, we're on our way to find the wishing star!

This section spoken in rhythm*

Otto - Hey, what's up, what's all the noise?

Additional Voices (Candlestick Maker) - The Warner girl and the Warner boys!

Additional Voices (Chef) - They're gather round in the village square.

Additional Voices (Candlestick Maker) - They say there's something way out there!

Minerva - Something weird and something strange!

Additional Voices (Three Village Men) - Beyond the farthest mountain range!

Otto - What are you saying?

Nurse - What do you mean?

Chorus - It's something no one's ever seen!

Rita - What's the story?

Runt - What's the fuss?

Yakko - We're about to leave, and that's because-

Dot - We're on our way to the wishing star!

Otto - The wishing star?

Nurse - The wishing star?

Brain - What is that?

Pinky - Haven't you heard?

Brain - There's no such thing, it's too absurd!

Slappy - What's the story?

Skippy - What's the dish?

Wakko - Touch the star and you get one wish!

Otto - You get one wish if you touch the star?

Slappy - Where's it at?

Skippy - Is it way out far?

Dot - It could well be, but we just don't know.

Yakko - We'll soon find out, 'cause we're going to go-

Warners [singing] - To the wishing star!

Chorus [singing] - To the wishing star!

Warners [singing] - It's something weird and so bizarre, it fell to earth from way up far!

Chorus [singing] - They're on their way to the wishing star!

Warners [singing] - The wishing star! Oh yes, we are! On our way, so we'll say "Bonsoir!" Ciao, you guys, and au revoir! Now we're off to the wishing star!

Chorus [singing] - Yes, it's true! The Warners are! On their way to the wishing star!

Otto [singing] - They'll be rich as a king or czar!

Chorus [singing] - When they get their wish from the wishing star!

Wakko [singing] - I looked up in the sky last night and all the stars were shining bright, and I wished I may and I wished I might just have the wish I wished last night!

Chorus [singing] - He looked up in the sky so bright and he saw the stars up in the night, and he wished he may and he wished he might have the wish that he wished last night!

Wakko [singing] - Then right there before my eyes I saw a light up in the skies, the wishing star lit up the night and then exploded really bright! It fell to earth and it came on down in a great big piece that hit the ground. And then some fairy said to me, "Whoever gets there first, you see, just touch the star, that's all you do, and then you get your wish come true!"

Chorus - Touch the star, that's all you do and then you get your wish come true!

Rhythmic speaking ends*

Otto [singing] - Wait, now. Let me get this straight, now. You mean whoever gets there first can have a wish all to himself?

Rita [singing] - We have to go now, because we know now, that if I'm the first to touch the star that wish belongs to me!

Slappy, Skippy [singing] - We've got to run now, before they're done now, so we can get a big head start and beat the others to the punch!

Ralph [singing] - I can't be slow now!

Additional Voices (Three Village Men - Singing) - We have to go now!

Minerva [singing] - And I have got to get there first because-

Chorus - That wish belongs to me!

Otto - Belongs to me!

Slappy - Belongs to me!

Nurse - Belongs to me!

Skippy - Belongs to me!

Rita - Belongs to me!

Runt - Me!

Warners - Me!

Chicken Boo - Ba-caw!

Plotz - It all belongs to me! Let's roll!

Ralph - Duh, hyah!

Otto [singing] - We're on our way to the wishing star, it could be near or it could be far!

Warners [singing] - But we're gonna get there first, you see, the one who gets there first will be in a super wagon, wrapped and bowed, then on the snow it's gonna blow! It has a sail, it's like a sleigh. Look out world, we're on our way!

Otto [singing] - Pharfignewton, come on, scurry!

Nurse [singing] - Time to go, we've got to hurry!

Pinky [singing] - Farewell to my life-long mate!

Brain [singing] - Pinky needs a mousie date.

Cast [singing] - On the road, can't stop us now, through the town the oxen plough!

Plotz [singing] - Clear the way, you stupid mime!

Chorus [singing] - He gets trampled all the time.

Warners [singing] - It's over hill and over dale, sailing down the snowy trail.

Slappy [singing] - Through the trees is plenty quick.

Skippy [singing] - We can go by pogo stick.

Brain [singing] - Pinky, are you pondering exactly what I'm pondering?

Pinky [singing] - I think so, Brain, but just how will we get the weasel to hold still?

Brain [singing] - No, that wish is all we need, our plan could finally succeed!

Warners [singing] - Onwards through the snow and drifts, onwards towards the mountain cliffs.

Plotz [singing] - The one who findsthat wishing star will soon be eating caviar.

Otto [singing] - Und that my friend is going to be no one else except for me!

Rita [singing] - 'Cause this is definitely gonna be our golden opportunity!

Three Village Men - Singing - We're going to get that wish, you see.

Additional Voices (Minerva, Butcher, Candlestick Maker - Singing) - The star belongs to me!

Additional Voices (Three Village Men - Singing) - No, no, the star belongs to me!

Otto, Nurse - To me!

Slappy, Skippy - To me!

Rita, Runt - To me!

Chorus - To me!

We were off!

Warners - I've got to get to the wishing star!

Otto, Nurse - I gotta get to the wishing star!

Rita, Runt - I hope it's near and not too far!

Chorus - Gotta be first to the wishing star!

Pinky [singing] - Here we are. My love and all the rest have gone to find the wishing star.

Brain [singing] - You'll find that they won't get too far, for we will get there first.

Pinky - Oh, well that's different then, isn't it? Tronsk!

Chorus [singing] - I've got to get to the wishing star, we're doing really good so far!

Plotz - Out of my way, whoever you are!

Chorus - I'm gonna get to the wishing star!

Otto - Wishing!

Nurse - Wishing!

Ralph - Wishing!

Dot - Wishing!

Wakko - Wishing!

Yakko - Wishing!

Warners [singing] - The wishing!

Chorus [singing] - The wishing… star!

We continued on. Maria and Carmen were flying and they saw Pinky and The Brain flying on a Renaissance Era flying machine.

Carmen: (sees Pinky and Brain) Think we should…

Maria: Don't worry about them, sis. They're only annoyances at best. In fact, when we face them in the future, we'll just make them our archenemies. Just like how me and Lily have the Alternate Krabs as an archenemy.

Carmen: Good idea.

We were flying and we were in a falcon formation and we were watching from the sky and we saw King Salazar taking the fastest route to the Wishing Star: Train.

Me: Oh no you don't!

I fired an energy blast and blew the tracks apart at where they go into the mountains!

We were going over the mountains and more and we were making sure that Baron Von Plotz never gets to the Warner's by blasting his wagon with energy and fire blasts as well as elemental powers.

We blasted his wagon apart. We then got to the star and it was beautiful. It was a small star as big as a skyscraper and it was as bright as the Sun.

Me: Wow!

Wakko: It's beautiful!

Me: It sure is. Go touch it Wakko. It's what you would've done.

Laney: Go for it.

King Salazar then appeared and he was infuriated!

King Salazar: Not so fast!

We saw him.

King Salazar: Give me the wishing star or you're all dead!

Me: Not gonna happen you fucked up tyrant!

Kevin Levin: (absorbs the ground) Neither of those is gonna happen!

Me: You are also the monster that murdered Yakko, Wakko and Dot's parents! You killed King William the Good in Cold Blood and plunged this whole country into absolute chaos!

King Salazar: And I would do it again! This land is mine and I will not stop until those brats are dead!

Lana: You are a monster Salazar!

Nico: Salazar the Pushy, you have failed this universe!

Me: You are a fucked up monster Salazar! You make me sick just looking at you! Now we're going to avenge King William and give the Warner's their rightful place on the throne! Lets take him down!

We went at him and I kicked King Salazar in the face and punched him in the stomach.

Nico punched him in the face and knocked out his teeth.

Lincoln and Linka fired powerful blasts of lightning and electrocuted him!

Edzilla: (tail whips Salazar's men) ED SMASH PUNY KING!

I kicked him in the face and knocked him down.

He got up.

Me: You destroyed so many lives and made so many people miserable! You are a monster that has absolutely no regard for the value of human life!

Lori: And you will literally never be welcome as king anywhere!

Luna: You make me sick dude!

Luan: I'm so mad I can't even think of a joke!

Me: Even Rush Limbaugh is much more sane than you! Lets take him down with combos and Final Smashes!

Ratchet: Lets! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his laser scalpels and arc welders 100-fold to weapon levels.

Iris: Time for some dragon power Axew! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Iris's right arm and it enhanced her Axew's abilities 100-fold.

Iris: Axew, use Dragon Rage!

Ratchet and Iris: LASER DRAGON FIRESTORM!

Ratcher fired a laser blast from his laser scalpel and Axew fired a powerful blast of blue energy from his mouth that turned into a powerful dragon and the blasts combined and they hit Salazar and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Shockwave: Lets do this! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his Electromagnetic Spectral Gun 100-fold.

Ember McClain: Lets do it! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm and it enhanced her guitar's ghost powers 100-fold.

Shockwave and Ember McClain: ULTRAVIOLET FIRESTORM BURST!

Shockwave fired a powerful blast of ultraviolet fire and Ember McClain fired a powerful blast of fire waves and they combined and hit Salazar and exploded!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Final Smash Time!

Hello Nurse: Lets do it! FIRESTORM KISS OF PAIN!

Hello Nurse blew a deadly kiss made of pure fire from her lips and it slammed into him and burned him bad!

Wakko: Lets see you like this! (Drinks a Soda) HYPERSONIC MEGABELCH SURPRISE!

BBBBBEEEEEEEEEEELLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLL

The belch he released was so loud that it blew Salazar into a rock and he crashed into it with Devastating force!

CRASH!

Me: Now it's time for Wakko to make his wish.

He went to the Wishing Star and touched it and it glowed.

Pip - Nice job, Wakko! You've done well. The power of the wishing star is yours. At the sound of the tone, please make any wish you desire.

Wakko - Ok, here goes. I wish for…

Chorus - [gasps]

Wakko - Not one, but two ha'pennies!

Yakko - They're real!

Chorus - [cheers]

Salazar - No. No. [sobs]

Chorus (singing) - He's got two ha'pennies today! He's got two ha'pennies hooray! No more worries or cares, while it may sound cliché, it's the answer to our prayers and no more taxes to pay! Now it's back to the town of Acme to go shopping with his whole penny!

Narrator - And, as it turned out, Wakko had made the perfect wish, because with one of his ha'pennies he paid for his sister's long overdue operation.

Otto - It was a complete success!

Yakko, Wakko - Yay! Hooray!

Plotz - What was the operation for, anyway?

Otto - Plastic surgery, to implant a beauty mark on her cheek.

Dot - I call it a cutie mark. Cindy Crawford, eat your heart out! So, do I look cuter now?

Captain - Your cuteness is like, out of control, man! It's perfect!

Dot - Perfect, huh? [yawns] Well, I suppose that'll have to do.

Lola: You are beyond cute now Dot.

Dot: Thanks Lola.

Narrator - And with the ha'penny he earned with Dot's operation, Dr. Scratchansniff bought all the ingredients for his new elixir, which was mixed together by his crack team of beverage technologists.

Rita - More sugar?

Runt - [slurps][smacks lips] Yeah, yeah, definitely, definitely more sugar.

Narrator - At the same time, Hello Nurse came up with a new bottle design- one with a slightly more attractive shape.

Nurse - It just came to me- from who knows where.

Yakko, Wakko - Hello Nurse!

Narrator - Then they put their formula to the ultimate taste test.

Otto - Well?

Wakko - [belches]

The burp was so loud that it shattered all the glass. Including Lisa and Dr. Scratchansniff's glasses

Yakko - That's a big thumbs-up!

Narrator - So while they went off to market with their new drink, Wakko went to town with his other ha'penny and he bought-

Wakko - Burgers at the butcher's, blintzes at the baker's! Groceries at the grocer's, season tickets for the Lakers!

A man got hit with a basketball and was knocked out and Wakko honked an air horn.

Narrator - That ha'penny exchanged hands all over town and everyone prospered, including the butcher-

Additional Voices (Butcher) - Hi!

Narrator - The baker-

Additional Voices (Baker) - Hi!

Narrator - And the candlestick maker.

Additional Voices (Candlestick Maker) - Hi!

Narrator - And a mime.

Yakko - Like we said, no place is perfect!

Narrator - But Acme Falls was as close to perfect as possible. And thanks to Wakko's wish, other wishes came true as well. With the spring thaw, Slappy's tree came back to life.

Slappy - Ah, sweet bliss.

Skippy - [laughs]

Additional Voices (Squirrel Boy) - [laughs]

Narrator - And Skippy's social life warmed up considerably.

Additional Voices (Squirrel Girl) - [sighs and giggles]

Skippy - Huh? Squirrel chicks, yowza! Duh. Yeah!

Slappy - He used to like nuts, now he's discovered dates.

Narrator - Buttons returned Mindy to her home.

Buttons - [sighs]

Mindy's Mother - Mindy, darling, you're back! You're safe! Oh, thank goodness!

Mindy - Hi, Mom!

Mindy's Mother - Mindy, you called me Mom! You called me Mom! It's a miracle!

Narrator - And Buttons received his wish- to be rewarded for his loyalty.

He was given a plate full of steaks.

Buttons - [sighs][munches]

Narrator - Rita and Runt's wish came true, too.

Rita - [yawns] Life is good.

Runt - Yeah, good. Definitely, definitely good.

Narrator - They found a happy home with Dr Scratchansniff, whose elixir was renamed Scratchy Cola and was a huge success thanks to the corporation's savvy CEO.

Yakko, Wakko - Hello Nurse!

Narrator - Who was finally appreciated for her figuring, and not just her figure. Baron von Plotz achieved his wish, too; to be king.

Plotz - Burgermeister King, that is! May I take your order, please?

Narrator - He opened a chain of fast food restaurants that sell Scratchy Cola and Baron von Plotz Burgers.

And they are really tasty too.

Plotz - You want fries with that?

Narrator - And Ralph, who ultimately wanted to direct, got his wish, too. He's directing traffic in the village of Acme Falls.

Ralph - Duh, it's my dream come true.

Additional Voices (Angry Drivers) - [yelling]

Narrator - Even the pigeons, who wanted a little respect, got their wish.

Additional Voices (Candlestick Maker) - There they are!

Additional Voices (A Village Man) - Our heroes!

Minerva - Those three are the best!

Pesto - Finally, people are looking up to us!

Narrator - As for Yakko, Wakko, and Dot, they wound up with more than they'd ever dreamed. The hospital tracked down their birth certificates which proved the Warners to be of royal heritage.

Dot - Works for me!

Narrator - In fact, their parents had been the king and queen of Warnerstock, making Yakko, Wakko, and Dot the heirs to the throne.

Wakko - Faboo!

Narrator - It seems that when Salazar took control of the nation, he sent the royal Warner orphans into exile, never expecting to see them again.

Wakko - Ha! Fooled ya, didn't we?

Eddy: I have an idea on what to do with Salazar.

10 minutes later…

Salazar was tied up wearing only his underwear.

Eddy: Step right up, folks. And join for free in throwing rotten tomatoes at Salazar!

Everyone threw rotten tomatoes at him.

Narrator - So King Salazar was officially booted out, and the Warners became co-rulers of the kingdom. As for Pinky, he was appointed royal stablemouse so he could stay close to Pharfignewton.

Pinky - [singing a tune]

Narrator - His job was given to him by the Warners' most trusted advisor- Prime Minister Brain.

Brain - Yes! Come, Pinky. We must prepare for tomorrow night.

Pinky - Gee Brain, what are we going to do tomorrow night?

Brain - The same thing we do every night, Pinky. Plan for the sequel when we'll try to take over the kingdom and the world!

Chorus (singing) - They're dinky, they're Pinky and the Brain, Brain,

Brain, Brain, Brain.

Narrator - So in the end, everyone in Acme Falls got his or her wish. (Mime gets hit with a safe) Except for the mime, that is.

Yakko - Ehhhh, I dunno about him, but that sure was my wish.

Chorus (singing) - The good old days were a bummer, our town was a total dive! But now every day's like summer, it feels great to be alive! To state our message with greater clarity we now spin the Wheel of Morality!

Chorus - Wheel of Morality, turn, turn, turn! Tell us the lesson that we should learn!

Yakko - And the moral of our story is-

Chorus (singing) - When you're blue, buy a clue, try not to mope! You gotta cheer up and never give up hope! Don't be a dope. Just cheer up and never give up hope- try to cope! Just cheer up and never, ever give up hope, hope, hope, hope, hope!

After we beat King Salazar we killed him by having Edzilla eat him. But Edzilla threw up his guts because of the taste Salazar had. He tasted like puke. Probably because he was pelted with rotten tomatoes. We then decided to move Acme Falls to Gotham Royal York. We then had Pinky and The Brain kept under our watchful eyes to make sure that they don't take over the world or else.

Wakko: (To the Viewers) As long as hope exists, anything can happen if you believe.

Me: You got that right Wakko.

Yakko: Thank you so much for helping us all J.D.

Me: Any time Yakko. We love Animaniacs and you guys make us laugh so hard to the point where we split our sides.

Lola: That's right and Dot don't you stop being cute!

Dot: Count on it Lola.

Me: Just be careful around the Warner Bros. Studio in Los Angeles, California. But you guys are big stars in everyone's hearts.

Wakko: Aw. Thanks J.D.

Me: Oh and Dot if anyone calls you Dottie, kill them.

We laughed.

THE END

Another Awesome chapter complete and another bad king dead.

Animaniacs Wakko's Wish was so funny! I loved watching that movie back when I was a kid. Animaniacs was so funny from September 13th, 1993 to November 14th, 1998. It was so funny! I love how they used all references and more! The Pesto Rants are from the Animaniacs series. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. Next Card is the Maze Card.

See you all next time.

# Showdown At The Green River Corral

At the estate I was monitoring the Earth and then the computer detected some seismic activity brewing over in Isla Nublar.

Me: Uh oh. We have seismic activity near Isla Nublar.

I looked up some models on the island and it showed that the volcano of Isla Nublar, Mount Siba, was going to erupt with much greater explosive power than that of Mount Tambora when it erupted back in 1815 and it was gonna destroy the whole island and sink it into the ocean!

Me: Holy shit!

I immediately called John Hammond.

Me: We got to get those dinosaurs out of there!

John H.: Hello? John Hammond?

Me: John it's J.D. We got big problems! The volcano on Isla Nublar is going to erupt and destroy the whole island!

John H.: How big are we talking?

Me: Mount Tambora 1815 eruption strength. It will cause the whole island to sink into the sea!

John H.: How much time do we have?

Me: Projections say about 48 to 72 hours. The volcanic pressure is 2,000 times greater than that of Mount Tambora when it erupted back in 1815. But not only that. When Isla Nublar sinks because of the eruption, It's going to create a massive 3,000 foot high megatsunami that will slam into Central America, western South America, and the Pacific Coastline!

John H.: That's a catastrophic travesty!

Me: It is. But I have an awesome solution. We're going to create a manmade island in Lake Huron protected by a giant greenhouse dome to keep the Ecosystem of Jurassic Park at tropical prehistoric climates.

John H.: That works perfectly J.D.! But what about the volcanic aftermath?

Me: The global temperatures are going to drop by 3˚ Celcius for the next 3 years.

John H.: Almost ice age weather.

Me: Yeah. We got to get moving fast. Millions of lives are hanging in the balance!

John H.: I wish you all luck J.D.

Me: Not that we'll need it but thanks John.

I hung up and pressed the Prime Omega Emergency button. The alarms sounded and pulled out a microphone.

Me: ATTENTION ALL OF TEAM LOUD PHOENIX STORM, THIS IS J.D. KNUDSON ISSUING A PRIME OMEGA EMERGENCY ALERT! THIS IS NOT A DRILL! I REPEAT, THIS IS NOT A DRILL!

Everyone came down and we were ready.

Nico: What's the problem J.D.?

Me: We got huge problems.

I revealed everything and everyone gasped in sheer horror!

Lori: This is gonna be a catastrophe!

Lola: We got to get those Dinosaurs out of there!

Me: And not just that but when Isla Nublar sinks into the ocean it will cause a massive 3,000 foot Megatsunami that will destroy this area.

I showed on a holographic globe where the Megatsunami will destroy.

Lincoln: That's a huge area!

Lisa: A massive megatsunami like that will ravage a 7,447 square kilometer radius.

Qin: That's awful!

Me: More than that. Millions of people will die. But I have an idea. We're going to put up force field barriers around the Central America, the Pacific Coastline and the entirety of western South America.

Lana: That just might work!

Lisa: It sure will. But for it to work we'll have to have the barriers to be at 5,280 feet high.

Quicksilver: Me, Breach and Flash can help get the dinosaurs out of there.

Me: Okay. Lynn, you and Earth will make an island in the middle of Lake Huron that is as big as twice the size of Isla Nublar. Laney, you, Sam Manson and Riley will make the plants and vegetation for the island. Luna, you and Lily and Maria will get make the lakes, rivers, streams and waterfalls for the island.

Laney: Roger that!

Lynn: You got it J.D.!

Luna: Roger that dude!

Me: Lets get moving guys!

We set out to relocate the entirety of Jurassic Park. Lynn and Earth made a big island in the middle of Lake Huron and after it cooled down, Gaara made sandy beaches and Laney, Sam M. and Riley made prehistoric palm trees and more as well as prehistoric trees from before the age of dinosaurs and Luna, Lily and Maria made lakes, rivers, streams, waterfalls and more. The dome was done.

On Isla Nublar, Breach formed portals leading to the new Jurassic Park Island in Lake Huron.

Killer Frost: What if I freeze the volcano with ice?

Nicole: No Louise! That's insane! It will cause the pressure to build up more and destroy the whole planet!

Polar Claw: There's nothing we can do about the volcano now. Just focus on getting the dinosaurs out of here!

We got all the dinosaurs and creatures out of there. We decided to expand all of Jurassic Park and have it include creatures from all over prehistoric times. 2 days later it was eruption time. We placed barriers all over the area that was gonna be destroyed. Bobby made 5,280 foot high indestructible Diamond Crystal Wall.

Me: Here it comes!

My seismographs then showed a massive earthquake registered at 9.7 on the Richter Scale and then we saw the volcano explode with incredible force!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We saw the entire volcano explode with incredible power and it sent a massive explosion of lava, ash, fire and rock billowing high into the sky. The ash clouds went miles into the air and the ash ejecta ratio was massive! The volcano eruption registered at level 7 on the Volcanic Explosivity Index and just as the projections predicted we saw the whole island sink right into the sea! We saw the whole island disappear and it was an incredibly horrifying sight to see! Then we saw a massive megatsunami form! It was 3,000 feet high and it was heading for the Pacific Coastline and we saw the wave slam into the wall with devastating force!

KRASSSSSPPPPPPPLLLLLLLLAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

But luckily the whole Crystal Wall held and it saved millions of people from certain death!

Everyone all over cheered for us and we cheered ourselves knowing that we saved a lot of people. We later made the entirety of Jurassic Park even better. We resurrect prehistoric creatures from the Cambrian, Ordovician, Silurian, Devonian, Carboniferous and Permian periods. The park had sections for each period. We also included an ice age area for creatures from the Tertiary period and of the Ice ages. The park also had sections for each of the Tertiary Epochs. We changed it to Paleozoic World. It was a much bigger success and John Hammond was one of our partners. During the rescue Nico caught a Beartic and a Cryogonal.

Later after saving much of the world from doom we were watching one of my favorite movies from 1991: An American Tail: Fievel Goes West.

A few years after immigrating to the United States in 1885, in the year 1890, the impoverished Mousekewitz family discovers that conditions are not as ideal as they had hoped, as they find themselves still struggling against the attacks of mouse-hungry cats. Fievel spends his days thinking about the Wild West sheriff dog Wylie Burp, while his older sister, Tanya, dreams of becoming a singer. Meanwhile, Tiger's girlfriend, Miss Kitty, leaves him to find a new life out west, remarking that perhaps she is looking for "a cat that's more like a dog."

Soon after, Cat R. Waul, (a British-accented aristocratic cat) forces the mice into the sewers, including the Mousekewitzes. Using a mouse marionette, Cat R. Waul entices the mice into moving yet again to a better life out west. Tiger chases the train, trying to catch up with his friends, but is thrown off course by a pack of angry dogs. While on the train, Fievel wanders into the livestock car, where he overhears the cats revealing their plot to turn them into "mouse burgers." After being discovered, he is thrown from the train by Cat R.'s hench-spider, T.R. Chula, landing him in the middle of the desert. His family is devastated once again over his loss and arrive in Green River, Utah with heavy hearts, though this time they are hopeful that Fievel will still be alive.

Upon arrival at Green River, Chula blocks up the water tower, drying up the river. Cat R. approaches the mice and proposes to build a new saloon together, although intending to trick the mice into doing the bulk of the work and then eat them afterwards. Meanwhile, Fievel is wandering aimlessly through the desert, as is Tiger, who has found his way out west as well, and they pass each other. However, they each figure that the other is a mirage and continue on their separate ways. Tiger is captured by mouse Indians and hailed as a god. Fievel is picked up by a hawk, dropped over the Indian mouse village and reunites with Tiger. Tiger chooses to stay in while Fievel catches a passing tumbleweed, which takes him to Green River. As soon as he makes his arrival, he quickly reunites with his family but is unable to convince them of Cat R.'s plans to kill them. However, Cat R. hears Tanya singing and is enchanted by her voice.

He sends Tanya to Miss Kitty, who is now a saloon-girl cat, and she reveals that she came at Cat R.'s request. He tells Miss Kitty to put her on stage. With a little encouragement from Miss Kitty, she pulls off a performance for the cats. Meanwhile, Fievel is chased by Chula and briefly taken prisoner, but flees.

While walking out of town, Fievel stops to talk with an elderly bloodhound sleeping outside the jail, discovering that he is actually Wylie Burp. Fievel convinces him to help and train Tiger as a lawman and a dog. Tiger is reluctant at first, but relents at the suggestion that a new persona might win back Miss Kitty. They go back to Green River to fight the cats, who attempt to kill the mice at sunset during the opening of Cat R.'s saloon using a giant mouse trap. Tiger, Wylie and Fievel intervene and fight the cats. When Chula threatens to kill Miss Kitty, Tiger rescues her and uses a pitchfork and Chula's web as a lasso with him trapped on it to hurtle Cat R. and his underlings out of town by having them piled on part of the trap, which the heroes use as a catapult. The cats fly into the air and land into a mailbag, which a passing train picks up and leaves.

Enamored by his new personality, Miss Kitty and Tiger are reunited. Tanya becomes a famous singer and the tower flows with 1,000 gallons of water again, making Green River bloom with thousands of flowers. Fievel finds Wylie away from the party who hands him his sheriff badge. Fievel is unsure about taking it, but realizes that his journey is not over.

Natilee loves movies like this and she loves the Old West like all of the Celtic World.

When the movie was done we cheered wildly!

Me: That was so awesome!

Nico: Boy Fievel you were awesome there.

Fievel: I sure was Nico.

Tanya: That's my brother.

Me: This was also James Stewart's last movie he did in his entire career. He did this movie before he retired.

Lola: James Stewart was awesome! He starred in the movie It's a Wonderful Life.

Me: From 1946. My dad knows that movie all too well. That movie was the best film he was ever known for.

Lincoln: That is so cool!

Lana: It sure is.

Laney: I love western movies. But I hate that cat Cat R. Waul.

Me: Me too. He was the worst cat ever.

---

Waul is an evil, greedy, devious, conceited, manipulative but ingenious feline criminal, who pretended to be the champion of a "brave new world" where cats and mice would peacefully coexist in harmony while actually secretly plotting to turn all the mice of Green River into "mouse burgers" once they had outlived their usefulness to him in building a town in the Old West, and a giant mousetrap that he intended for killing them all. Like the villainous Warren T. Rat before him, Waul was defeated by an older Fievel, who teamed up with his old friend, Tiger, and the reluctant former Sheriff Wily Burp in order to stop his evil plan, and drive Waul and his band of outlaws out of town for good.

Waul is a polite, classy, cultured and persuasive gentleman by nature, yet underneath his civilized exterior lay a violent streak and the natural predatory instincts of a feline - he had a way with words and refrained from violence (unless it was in his favor), but would deal with any threats to his plans with ruthless efficiency. He held the law in little regard and saw himself as superior to almost everyone, making him rather arrogant as a result. He also has an extreme dislike of humans, especially those who treat him as a pet, such as his buxom owner.

Waul also has a softer side to his nature, however, as he was genuinely fascinated with Tanya and her singing voice to the point of putting her on stage, despite the initial hostility of the other patrons over having a mouse performing. He also planned to spare Tanya the fate of the other mice.

Waul was served by a number of feline thugs who lacked his "level of sophistication", yet helped him in their own ways, such as when he ordered them to attack the mice sector of New York in order to drive the mice underground and (via the use of a puppet) trick them into buying tickets out West to a "safer world". He also had a henchman in the form of T.R. Chula, the tarantula, who had a sadistic streak even for a spider.

Waul's genius was shown in the way he designed a giant mouse-trap with the intent of gathering all the mice who had helped build the town onto it in the guise of a stage only to kill them; however, Fievel, Wylie Burp and Tiger showed up and foiled his evil plan. In the resulting battle, Cat R. Waul and his entire gang were catapulted (literally) out of the town via this mouse-trap device. Unfortunately, Waul is instantly spotted by a heavy-set, cat-fancying woman on a train (presumably his owner), who immediately grabs him and puts a bow on him promising to take care of him "for ever, and ever and ever!".

Lucy Loud: I can't believe he was that evil.

Two hands came from behind and covered Nico's eyes.

?: Guess who!

Nico: (humorously) Hmm… Is it Maria?

?: No. Guess again.

Nico: Qin?

?" No. Come on, Nico! Is it really that hard?

Nico: (grins) Maybe. Can you give me a hint?

?" Okay, here's your hint: It's someone that you care about, and if you don't guess right this time, you'll be in a world of hurt.

Nico: (chuckles) Good morning, May.

May: You got it Nico.

We laughed.

Me: Lets not forget that the movie takes place in Green River, Utah and my mom has a terrible history with that town.

Natilee: Yeah. Grandma got a speeding ticket there.

Nico: That stinks.

Me: Yeah. But with only 952 people it really is what I would call a true one horse town.

Vince: That really is a small town.

Natilee: Lets show what happens when you mess with our animal friends. Green River is a bad town for Fievel and his family. We're gonna face Cat R. Waul and take him down.

Lincoln: Lets do it.

We went to the simulator for this.

Natilee, Qin, Nico, Poromon, Sydney, Lincoln, Laney, Lola, Polar Claw, Steeljaw, The Penguins, Odd, Wendy, Ravage, Killer Frost, and Fievel were getting ready.

Blaster: Steeljaw, if you ever get in trouble, just transform into your cassette mode.

Steeljaw: Thanks Blaster.

G1 Soundwave: Please take good care of Ravage.

Natilee: Thanks Soundwave. I will.

Wendy: (to Odd) Would this count as our first date?

Odd: Let's just call it a mission date.

Wendy then kissed Odd passionately.

Private (sees Odd and Wendy kissing): Isn't it romantic? And they've only been a couple for a week.

Poromon: Qin, what kind of sensations do you feel whenever you start to transform?

Qin: My blood and body temperature would turn cold.

Nico: That's cold.

Skipper: Kowalski, give me options on how to deal with Waul.

Kowalski: We'll think of something during the adventure.

Nico: Okay.

Natilee: Check me out.

We saw Natilee and she was wearing an awesome old west outfit. She was dressed up like famous outlaw Calamity Jane. She also had a Winchester Rifle and a 50 caliber pistol.

Me: Wow! You look like Calamity Jane.

Natilee: Calamity Jane is one of my favorite western Outlaws.

The Simulator activated and they found themselves in the small western town of Green River, Utah in 1890.

Natilee: Green River, Utah 1890. Small town but very western like.

Lola: This town is very small and amazing.

Nico: Lets find Cat R. Waul and see what he's doing.

Qin: Okay.

They saw a cat go into a saloon and they saw a lot of cats drinking and smoking and gambling like an ordinary western saloon.

Doctor: (Austrian Accent) What's your problem?

Cat 1: Being nice to these mices, it's driving me nuts!

Cat R. Waul slammed a magnifying glass onto his head and shattered it.

Cat R. Waul: Oh, get on with it, you morons!

They heard their plan.

Doctor: After ze saloon is finished tomorrow, we announce that we are going to have a special ceremony.

He unveiled his plan with a flip book.

Doctor: We invite all of ze mice und seat zem in ze stands und when the sun goes down, snappo, (Draws a bun on mice) Mouseburgers.

Everyone: MOUSEBURGERS!

Cat R. Waul: Let me hear that again!

Everyone: MOUSEBURGERS!

Cat R. Waul: LET THE SALIVA FLOW!

Everyone: MOUSEBURGERS!

Natilee: Not if we have anything to say about it.

Fievel then grabbed a fork and stabbed Cat R. Waul in the butt and sent him crashing through the ceiling and he landed back down seconds later and he heard a record play and saw Fievel.

Cat R. Waul: Well, if it isn't my diminutive friend from the train!

Fievel: Cat R. Waul! I heard what you said about the Mouseburgers, and I'm gonna tell everyone. I'm gonna get Wylie Burp. Cause he's the law.

Cat R. Waul: The Wylie Burp? [The saloon erupts in laughter] That quaint historical figure? [he picks Fievel up on a fork] Put simply put, mouseling: I am the law here, and you're a mere hors d'oeuvre.

Qin: Not for long! (drops to the ground in pain)

Qin then transformed. Her skin turned into scales and her eyes turned green and slit, her black hair fell out and her mouth turned wider and had razor sharp teeth and her hands turned into claws and she grew her tail and her tongue turned into that of a snakes and she had become Scalebreath! She breathed a blast of fire and it provided a distraction and they got Fievel and Tanya out of there.

Qin reverted back.

The blast of fire hit the wall and exploded and blew a huge hole in the wall.

Natilee: Lets formulate a plan. But we have to hurry. We have until sunset tomorrow afternoon.

Qin: I know. Sydney, if I had been mutated at the same time as you and your friends, I would have definitely be classified as an Underground Monster.

Sydney: How so?

Qin: Well I was slammed the same time as you were mutated by the

Shredder and that qualifies me as part of the Underground City people.

Sydney: I guess that would make sense.

Nico then saw Qin with tears in her eyes.

Nico: What's wrong Qin?

Qin (tears in her eyes): I'm glad that I'm like a sister to you, Nico. Especially since my family is dead!

Nico and Qin hugged and Nico whispered comforting words for her.

Later they settled down until they could formulate a plan. They met the famous sheriff dog Wylie Burp and he was Fievel's hero. He may have been old but he was more than willing to help them. Luckily Fievel knew just the person to help them. He went and got Tiger and told him everything. It was not gonna be easy. Tiger was gonna be turned into a dog and a brave cat for his girlfriend Ms. Kitty. They had to save all the mice. They trained Tiger and when it was done he was a dog ready for action. They were all ready to shoot some cats and end their 9 lives.

At sundown they were ready. They walked like in the Old West movies towards the saloon. All the animals were shaking in fear.

Cat R. Waul: Jolly good. Now, pay attention. Cats and gentle mice, lend me your ears. It is my distinguished pleasure to invite all of you to share our dinner-triumph! Triumph, to share our triumph. Today we herald in a momentous new feast-ival. Feastival-festival. To mark this brilliant and illustrious snac-occasion, I will with these golden scissors hereby cut the red ribbon.

The red ribbon was tied to a giant mouse trap that will trap all the mice all at once. He began cutting it and just as it was about to be cut, Tiger shot the scissors out of his hands with a slingshot.

Wylie Burp: Hey, Cat R. Waul, we've come to close you down.

Lincoln: And end your nine lives!

Laney: (Cowboy Accent) Permanently friend!

Cat R. Waul: And who are all of you?

Natilee: (Cowboy Accent) The name's Natilee. Golden Oldies Natilee.

Suddenly the area was enveloped in a light and a massive green maze appeared out of nowhere. But it was unlike any kind of maze. It was a giant three-dimensional maze that looked very similar to M.C. Escher's Relativity.

Laney: Wow!

Qin: What a maze!

Natilee: This is the Maze Card. 迷

Lincoln: Mazes are more Laney's thing. But I have a feeling it trapped us in here to fight like some kind of a game.

Natilee: That's what I'm thinking.

Cat R. Waul: Okay, chaps, it's become necessary to put these dogs through obedience school. Kill them.

They were ready for them. On a wall of the maze was 2 cats with slingshots ready.

Wylie Burp: Oh, look out behind you, kid.

Tiger fired a rock from his slingshot and it hit the first cat and Lincoln fired his six shooter at the 2nd cat and blew his head off. The cats fell off the wall and they crashed onto the maze floor.

More cats fired rocks from their slingshots and Laney and Qin fired their guns and blew their heads off and Tiger fired two rocks and they bounced off the walls and flew through their hats and destroyed them.

A cat with a red bandana covering his mouth came out and Tiger had his slingshot pointed at him. But the cat had a bigger slingshot with multiple rubber bands on it and Tiger's Slingshot went limp.

Natilee pulled out her rifle and fired it and blew the cats head off.

Qin: You have really good shots Natilee.

Natilee: Much obliged partner. Lets give them the Lazy Eye!

They had their eyes bug out and they did all kinds of crazy faces.

Cats: RUN FOR YOUR LIVES!

The cats ran and a bullet fired from a gun.

BANG!

It blasted a hole through Tiger's hat.

Cat R. Waul: Morons. Trigger the mousetrap!

Ms. Kitty gasped.

Ms. Kitty: It's a giant mousetrap!

Natilee: Go get the mice out of there Tanya!

Natilee fired a bullet and it blew Cat R. Waul's hat to pieces.

Tanya: Run! Run! Run everybody! Run for your lives!

Cat R. Waul: Freeze you miserable vermin!

He fired his gun at the mice!

BANG!

Natilee fired her 50 Caliber pistol and blew the whole gun to pieces in a fiery explosion.

BOOM!

Nico: Cat R. Waul you have failed this world and universe!

Laney: Warren T. Rat tried this kind of thing before, Waul. What makes you think you're any different?

Cat R. Waul: We never wanted to help these mice! You are a little girl!

Natilee: Lets show them some teamwork!

Killer Frost: You got it Natilee! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Killer Frost's arm and it enhanced her ice powers 100-fold.

G1 Ravage: Lets do it! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his missiles 100-fold.

Killer Frost and G1 Ravage: SUBZERO MISSILESTORM BARRAGE!

Killer Frost fired a massive blast of ice energy and Ravage fired his heat seeking missiles and they hit the cats and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Polar Claw: Time for action. Polar Claw MAXIMIZE!

Polar Claw turned into his robot form.

Polar Claw: Lets get them! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Polar Claw's back and it enhanced his strength and power 100-fold and it caused claws to pop out of his hands.

Steeljaw: Lets do it! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Solar Pellet Gun Blaster 100-fold.

Steeljaw and Polar Claw: SOLAR CLAW BURSTSLASH!

Polar Claw slashed numerous cats and Steeljaw fired numerous Solar Pellets and they them and exploded.

Natilee: Time for final smashes! Lets do it Fievel!

Fievel: You got it Natilee! CHEDDAR BOMB BOMBARDMENT!

Fievel fired numerous bombs of cheddar cheese and they slammed into Cat R. Waul and exploded!

Laney: Time for some shooting Annie Oakley Style! SHARPSHOOTER GUN BARRAGE!

Laney fired a massive barrage of bullets and they hit Cat R. Waul all only and pumped him full of lead.

Natilee: This is for your crimes against the world of mice! CELTIC BULLETSTORM EXPLOSION!

Natilee fired a massive barrage of bullets that were energized with green energy and they hit Cat R. Waul and exploded and killed him. Natilee sent Cat R. Waul's evil spirit into the dimension of the Book of Vile Darkness.

Nico: Yeah!

Natilee: Never mess with the rights of mice.

Fievel: That's right. (To the viewers) You can help both mice and save them from the evil of cats like Cat R. Waul.

Natilee: Now to capture the Maze Card! RETURN TO YOUR POWER CONFINED!

Natilee held out her hand and formed an energy card and it sucked in the Maze Card. It turned back into a Clow Card.

Later they were celebrated as heroes. Natilee and Fievel saw Wylie Burp heading out somewhere as the sun was sitting. They followed him and sat with him on a rock.

Wylie Burp: Here you two. I want you two to have these.

Wylie Burp handed them two Sheriff Stars.

Fievel: I can't. I'm not a hero like you. Well, not really.

Wylie Burp: Maybe not. Maybe a real hero is the last one to hear about it, but you two pulled me out of a gutter and for that I owe you two some thanks. Just remember, Fievel and Natilee, One man's sunset is another man's dawn.

He looked out over Monument Valley as the sun was setting.

Wylie Burp: I don't know what's out there beyond those hills… but if you ride yonder, head up, eyes steady, heart open, I think one day you'll find that you're the hero you've been looking for.

Natilee: Thanks Wylie Burp. We'll remember that.

It was an awesome honor to fight along side Wylie Burp.

They went back and we cheered wildly for them. We built a statue of Wylie Burp in his honor in our backyard. We put the quote Natilee told us on a plaque.

THE END

Another Fanfiction Complete and another bad guy gone.

An American Tail Fievel Goes west was one of my favorite childhood movies from 1991. I loved how Fievel was gonna stop Cat R. Waul from killing the mice. This was James Stewart last movie he was in before he retired in 1991 and he died in 1997. This chapter was also made as a tribute to James Stewart. He starred in the awesome Christmas Movie It's A Wonderful Life back in 1946. It's one of my dad's favorite movies.

R.I.P. James Stewart - May 20th, 1908 to July 2nd, 1997

My mom's history with Green River, Utah is all true in real life. She got a speeding ticket there in 1985. NicoChan11 gave me the ideas for this one. Let me know what you all think. The next Clow Card is the Libra Card. One of the cards not shown in the show.

See you all next time.

# A Bad Cop Gone Worse!

At Gotham Royal York High School, I was getting my supplies ready for a big Trigonometry Test. Math was never my strong suit but I had to try. By my side was Meg Griffin and she had a major change in her appearance. She had a major amount of reconstructive surgery done on her and she went from how she looked in Quahog to a beautiful teenage girl. She had beautiful black hair with a red streak in it, purple headband, purple eye shadow, blue eyes, her black sleeveless goth clothes which revealed part of her chest, a black skirt and black boots.

Me: So you ready for the trig test Meg?

Meg: I sure am J.D. Despite after everything I've been through in Quahog, I couldn't be more free of my evil former home.

Me: Quahog was a fucked up town from the start. It should not have been made an official town of the United States.

Meg: You got that right.

Maria: I'm glad we destroyed it.

Carol: Me too.

?: Meg!

We turned and we saw Meg's arch-nemesis Connie D'Amico.

Me: Connie D'Amico. How's life going as a disgraced whore?

Connie: You ruined me, Meg Griffin! If you hadn't opened your big mouth, Quahog wouldn't have been destroyed and my life would still be intact!

Meg: It's not my fault!

Maria: Yeah! You did that all to yourself when you bullied Meg!

Connie: Don't you even start, Rockell! You were one of the people who destroyed my home!

Carol: She had a good reason to do that!

Me: Quahog was a town that was doomed from the start. That's why we had to destroy it! It's people were nothing but a bunch of lying, scheming con artists and douchebags. There were only a few people there that were given a second chance and that was Meg, Stewie, Brian and the children as well as a few others.

Connie: I don't care! Meg ruined my life and now I'm going to return the favor!

Qin: Who is that girl?

Maria: That's Connie D'Amico. She's an extremely abusive bully.

Maria went over Connie's history.

---

Connie is the captain of the James Woods Regional High School cheerleading squad, the same school attended by Meg and Chris Griffin. She has numerous friends amongst the socially powerful student body and is mostly seen with her closest friends: Gina, Scott, and Doug. Portrayed as being mean, cruel, and possibly spoiled as she is attractive, Connie is well reputated as the meanest yet most popular female bully of her class and generally bullies unpopular students, with Meg being her most frequent victim. The Griffins have also taken up for Meg on these occasions. In the episode Let's Go to the Hop, Peter, while disguised as "Lando Griffin" was fooled into going to the Winter Snowball with Connie, however dumped her in front of everyone for Meg. She has done toad, but was impressed with Peter (as Lando) who got her and other students to quit. In the episode And the Wiener is… , Connie publicly humiliated Meg at her Birthday Party, persuading Lois to send Quagmire over for his own fun.

In the episode Barely Legal, Brian (who is incredibly drunk) comments harshly to Connie and tells her his views on her behaviour (then tells her the reason why she teases Meg is to avoid the fact that she will end up as a "chalky-skinned burlap sack" nobody, not even her stepfather will want, causing her to run away crying). Briefly in the Peter's Daughter, Connie confronts Meg and makes a fat joke, this endues Peter to brutally smash her head into a fire extinguisher, severely bruising and uglifying Connie, but in typical Family Guy "reset button" fashion, Connie is fully healed and back to her pretty self in future episodes. In McStroke, Stewie tricks Connie into dating him only for her to find out he's a baby. Stewie yells out to the school that Connie made out with a baby, leaving everyone to think she's a pedophile; she is last seen getting arrested for this. In "Stew-Roids" she dates Chris briefly. Originally this is a challenge she takes on to make him popular, but she soon develops true feeling for him and is fully willing to give her popularity for him and shows she is willing to change and embrace some new morals, possibly because she has been given true love towards her for the first time in her life. Later, Chris becomes egotistical from his newfound popularity and dumps her to gain a variety of girls, causing her to lose her popularity for a short time. It is possible that she still likes him, although this relationship is never mentioned again. She has dated all three of the human male Griffins, Stewie in McStroke, Peter in Let's Go to the Hop, and Chris in Stew-Roids. Also in Stew-Roids, Peter had a strong attraction to Connie, and when she gets knocked unconscious by Chris and two other girls Peter says "Oh, Connie's hurt, I'd best lie on top of her to keep her warm." much to the disapproval of the party guests, only for him to break the fourth wall and say "What are you looking at? It's a cartoon!" in "Dial Meg for Murder", Meg finally gets revenge on Connie, along with her friends by whacking her with a sack of unopened soda cans. After that, Meg French kisses her. In Leggo My Meg O, Connie is picked as the captain for a dodgeball team during the girl's gym class and picks everyone for the team except Meg and she and the other girls then ruthlessly pelt Meg with dodgeballs. In "Follow the Money", her latest appearance in the show so far, she is shown as a stripper pole dancing at the local strip club.

In the Italian version of Family Guy, Connie DiMico is spelled Connie D'Amico, in order to make Family Guy names more local, although it is apparent Connie is Italian-American.

Qin: She's that dangerous!?

Maria: Yep.

Qin: Alright! This is my first time dealing with bullies! What do I do?

Megan: Simple. Beat them up with everything you have.

Cornelia: But try not to kill them.

Qin: I can do that. Here I go!

Qin rushed in and kicked Connie in the back of her head and knocked her out.

I took Connie to the Nurse's office and informed the principal about what happened. The police came and arrested Connie and took her to prison.

Later we walked to math class.

Qin: I'm confused about something J.D. What did Connie mean when she said that Quahog wouldn't have been destroyed?

Me: Oh that's right. You haven't heard about this. Over a year ago we destroyed the town of Quahog, Rhode Island. Quahog was a nice town but it was a total dump. Meg here came from Quahog and she was badly abused by her horrible family, the Griffin's. Peter Griffin the most. He was a fat, alcoholic, lazy, selfish, uneducated motherfucking son of a bitch.

I went over Peter Griffin's history.

---

In "E. Peterbus Unum" Peter proclaimed an independent micronation that involved the ownership of his home as soon as he knew this did not formally belong to the United States and called it "Petoria". He became anti-American and proceeded to invite the leaders of several countries hostile to the United States (including

Slobodan Milošević of Yugoslavia, Saddam Hussein of Iraq, Muammar Gaddafi of Libya, Osama Bin Laden of Al-Qaeda, Kim Jong-il of North Korea, Fidel Castro of Cuba and Ali Khamenei of Iran) over for a pool party and barbecue using his pool stolen from Joe's backyard after annexing it.

Probably his most villainous act was in "Tales of a Third Grade Nothing"; his attempt to get a promotion at work by blowing up a billboard advertising a rival brewery. Unfortunately, he had placed the explosives in the wrong building which just so happened to be a children's hospital. When Peter had his boss, Angela, look out the window to watch the billboard explode, he had caused the destruction of the hospital instead. Though Peter was initially shocked by what he had done, he quickly got over it when the resulting fire began to burn the billboard. By the end of the episode, when Peter had passed the third grade and was eligible for a promotion (so he could use the Executive Bathroom) Angela refused to give it to him. Her reason was that nobody had forgotten the burning of the children's hospital which resulted in fourteen deaths. The FBI eventually learned it was Peter but he was only sentenced to seven days in prison.

Peter constantly abuses his teenage daughter Meg, whether talking down to her, farting in her face, beating her up, telling her to shut up, carelessly nearly drowning her and in a cutaway gag from "Peter's Daughter" shooting her simply because she said "Hi Dad."

In "The Story On Page One" he even went to Meg's school to create a false story that Luke Perry was gay and burned Meg's story about Quahog's mayor Adam West. However, this was in order to help Meg get more readers as he believed the Mayor West story would put people to sleep.

There's even some occasion where Peter even forgets Meg. In "Screwed the Pooch" Peter and Brian bring up a man named Stan Thompson who they claim is Meg's real father.

Occasionally seen in cutaway gags of trying to abandon Meg.

However, it is revealed in "Peter's Sister" that the true reason behind Peter's mistreatment towards Meg was because he was severely abused by his older sister Karen as a child. Upon learning of this and realizing that Karen's treatment was what transformed Peter into the abusive man he was known for being Meg helped Peter fight Karen during a boxing match, managing to knock Karen out with a chair and putting her in a coma. A grateful Peter thanked Meg for her help, even genuinely apologizing for his mistreatment towards her and admitting that he was stupid to take out his pain on her. Ever since then Peter starts to show some respect and care for Meg, even defending her from bullies, an example being in "The Peter Principal".

Another person that Peter abuses is Lois. He sometimes shows little to no respect towards her. He would sometimes ignore her and would make her do several things against her will.

One example is in "Baby You Knock Me Out" when Peter and his friend are attending a woman's boxing match on his birthday. After watching the match and the announcer asked if any woman wanted to fight the champ Peter forced Lois to enter the ring and fight. After witnessing Lois beating the champ, he then forces her to enter into more boxing matches so he can get rich.

In "Sibling Rivalry" Peter ruthlessly insults Lois for gaining weight, at least until he discovers the wonders of fat sex. Then he encourages her to gain weight which is even worse than him putting her down. He insists she get fatter and literally stuffs her face with cake. She gains so much weight that she has a heart attack and almost dies. But that does not stop Peter from having sex with her.

In "Lois Comes Out of Her Shell" Lois starts to feel insecure about getting older but during a surprise birthday party with all of her friends Peter refers to her as a plow horse whose only use is menial labor and sex; something which sends Lois on a midlife crisis.

In "The Courtship of Stewie's Father" Peter learned about Stewie's real interest in tormenting Lois; in a successful attempt to bond with Stewie he helped the latter pull deadly pranks on Lois (such as smashing a glass jar of pickles on Lois' head, spraying Lois with a gardening hose while going to the bathroom which caused her to to fall down the stairs and pushing her unconscious body into a lake nearly drowning her).

In "Dammit Janet" he convinces Lois to keep a flight attendant job which she hates due to uptight passengers only because he gets free plane flights.

Peter once wrote hate letters to his family though on that occasion he did not realize what he was doing was wrong.

In "Death Lives" Peter was attended a golf game during their anniversary, but to prevent Lois from knowing he set up a fake anniversary scavenger hunt so he can play a game a golf with his friends. This one moment nearly ruined their marriage, but with help from Death he managed to save their marriage.

In "Family Goy" he attempts to shoot her while imitating Amon Goeth when he learns she is Jewish.

He crosses the Moral Event Horizon in "Brian Griffin's House of Payne" when he threw an unconscious Stewie with heavily infected head wounds underneath Lois' car so she would run him over after weeks of no medical treatment just so she would not ask how Stewie got hurt.

Peter also abuses his son Chris as well:

In "If I'm Dyin, I'm Lyin" Peter pretended that Chris was dying so he could save a cancelled TV show, and after being confronted by the city, claimed he cured Chris, causing everyone to call him God, which arouses the anger of the real God who plagues the Griffin House. Despite everyone demanding he tell the truth, Peter refuses to, until Chris almost dies. Peter would have crossed the Moral Event Horizon if he had not plead forgiveness.

In "Long John Peter" Peter made Chris lose his girlfriend by giving him bad advice on how to date a girl and act around her.

In "And the Wiener Is…" Peter always thought that he's better that Chris in every way, but when he found out that Chris had a bigger "junk" that he did Peter got jealous and tried to prove he has the bigger "junk" and even unintentionally tells Lois that Chris' "junk" was the reason why he's trying to become the bigger man.

In "He's Too Sexy Fat" Peter and Chris try to lose weight and find out about liposuction. Chris refused to take the procedure but Peter takes liposuction to make himself skinnier. At first he was still interacting with and helping his son lose weight but when he used the liposuction to add muscle he began to forget Chris several times, especially when Peter joined the Handsome Guy's Clubs.

In "Hannah Banana" Peter attempted to ruin Chris' life by disguising as Chris and saying that he's gay all because the Evil Monkey was more of a father figure toward Chris than Peter is. Chris retaliates by luring Peter into a log trap using a hat as bait. Of course Peter falls for the trick causing Chris to cut the rope restraining the logs which brutally smashes Peter's face.

In that same episode before they found out the Evil Monkey was real both Peter and Quagmire placed Chris' fingers into a bowl of water causing Chris to urinate in his pants while Quagmire punched him in the face to give him a black eye before leaving.

In "Petarded" Peter found out he was mentally retarded and also that no charges would be held against him if he did anything wrong, he decided to take advantage of the situation. He went into the ladies' room and kick the doors while women were going onto the bathroom and destroyed some of Lois' plates after he finished dinner. When he went to a fast food restaurant he grabbed a fryolator and burned Lois.

And because there was no mentally-sane adult Meg, Chris and Stewie had to live at Cleveland's house. So Peter put seven prostitutes into Cleveland's house so he could get his kids back only to be put on trial for their custody which he lost.

In "Jerome Is the New Black" Peter is angry in finding out that Lois slept with Jerome, Cleveland's replacement; he flies into a jealous rage and spends the rest of the evening drinking. Stopping by Jerome's house, Peter throws his bottle through a window and hits a lamp accidentally causing a fire which burns the house down.

In "420" after Quagmire got a cat Peter, Joe, Cleveland and Brian sneak into his house while he was out and decide to shave it as a prank. But Peter killed the cat with a straight razor (this was an accident but he was unconcerned about it) and added further insult by stealing Quagmire's beer afterwards. At the end of the episode Quagmire asks where his cat is outside of the Griffin household and before Peter slams the door on him he apathetically says "I killed your cat." Earlier in the same episode Peter does a cutaway gag saying that he used to lure sailors to their deaths with siren songs while dressing up as a mermaid.

In "April in Quahog" Peter's comment seconds before the supposed "end of the world" expressing shame and disgust for his children ("I just hate being around the kids") was uttered deliberately in thinking that he will have no price to pay. How sadly mistaken he is once the April Fools Day hoax passes without incident… and even Peter's heartfelt apology is fruitless - Meg, Chris and Stewie are still very mad at their father. In the end he buys back their love with an Xbox 360.

In "No Meals On Wheels" the Griffin family run a restaurant but Peter refuses to allow Joe and his other cop friends in because they are "gross cripples" to which they respond by forming themselves into a giant robot which attacks and destroys the restaurant which falls on Peter breaking his legs.

In "Stew-Roids" he put Stewie on steroids after he was beaten up by Joe's daughter Susie Swanson.

In "The Tan Aquatic with Steve Zissou" when he finds out that Chris was being bullied by a teenager named Kyle, he decided to go to Kyle's house to try to talk to him but beat him up after losing his temper. Though Peter only hit him out of anger and was never willing to do so this was still a serious crime because Kyle was only 13 while Peter was 43. And also, being an adult he should've known better than to get angry. Later, upon realizing how good it felt to bully people he started bullying his family and friends.

When he realized he was like his high-school bully Randy Fulcher he went to see Fulcher to pay him back. However, it turned out that growing up Fulcher suffered multiple sclerosis which led to him being physically disabled. But instead of feeling sorry for him Peter attempt to beat up a disabled Fulcher only to be beaten up by Chris. After being beaten Peter finally realized that bullying is wrong and stopped trying to beat up Fulcher.

In "A Fistful of Meg" he continuously torments Brian with his nude body. He only stops when Brian shaves his fur to reveal his hideous bald appearance which he uses to scare Peter and convince him to put his clothes back on.

In "The Juice is Loose" Peter accidentally murdered the fourth Griffin child (who was a baby at the time) by shaking him to make him stop crying. This seems like more of a misdeed since Peter did not mean it.

In "Peter Problems" he kills and eviscerates a beached whale with a forklift, trying to get it back in the ocean. To add insult to injury, he then carefully and gently picks up a seashell with the same forklift and says "You're whale-come" to a horrified crowd.

It is shown in "Fresh Heir" Peter is holding a hairless twin hostage in his storm shed and feeding him garbage. He also murders whom he thought was a boy who bullied Chris and presents his severed head to him, but as it turns out it was a deaf student. The main plot of the episode involved Peter attempting to marry Chris who was made the heir of Carter's will.

At the beginning of "Herpe The Love Sore" he menaced numerous people (including Meg, Stewie and even Cleveland) with a whip he received from the mail which was supposed to go to Quagmire.

In "Meg Stinks" it was revealed he pays off his shenanigans by (frequently) robbing a bank. After Meg accidentally killed the bank manager Peter told her to kill everyone else.

In "Brian's Got a Brand New Bag" while having dinner he, along with his family except Brian does things that will make Rita say her age. After they failed he yelled at her and forces her to say her age which caused her to run away crying after she says 50.

In "He's Bla-ack!" when Lois and Cleveland's new wife Donna Tubbs-Brown had an argument on parenting the two banned him and Cleveland from seeing each other again. To try to get Lois and Donna to be friends as well they performed various (and rather questionable) stunts to bring their wives together. One of them was showing Lois and Donna naked babies. However, Cleveland asked why Peter had pictures of them in suggestive positions and taken long before they made the plan. This indicated Peter may have been a pedophile at one point. After realizing this Peter burst into tears and admitted he had problems. He also intentionally crashed his car by driving it into a pole with him and Cleveland still inside, resulting in the latter ending up hospitalized and in critical condition due to only Peter being protected by the car's airbags; this attempt only further cemented the hostility between his and Cleveland's wives.

In "Underage Peter" when drinking becomes banned for people under 50 he manipulates Brian into buying him alcohol because Brian is 56 in dog years. When a police officer catches him drunk he tells on Brian, leaving him to do community service. Peter does not care about what he did to Brian and he still asks him to buy them alcohol when Brian is doing community service. Additionally, when Brian is doing community service he drinks alcohol, burps at him, litters and insults a glaring policeman making Peter do community service as well.

In "The Simpsons Guy", he got into an extremely long and violent fight with Homer Simpson that destroyed much of Springfield and killed or injured many residents (although this may be non-canon). However, the two thankfully made up by the end of the episode.

In "Brian the Closer" Peter desperately tries to get Brian's old toy rope, to the point when he ties the rope to his car and drives off in an attempt get it away from Brian. This greatly injures Brian, causing him to collide headfirst on a fire hydrant, making him lose all his teeth and break his nose. Peter uncaringly gives Brian the rope back, having grown bored of it.

In "Turkey Guy" Peter, as usual gets drunk and ends up eating the entire Thanksgiving turkey with Brian. The two head out to find a replacement turkey. Through Peter's stupidity, the two encounter bad luck and misfortune, some of which endangers Brian. When Brian cannot take anymore of Peter's stupidity, he yells at him, to which Peter reveals Brian had nothing to do with eating the turkey and he just framed him, so he did not have to take all the blame. He furthered this insult by telling Brian that he's a dog and that he could throw him off a bridge, and unless it hits a person, he is fine.

In "Finders Keepers" he presumably beats an innocent boy to death with a shovel because he thinks he's after the treasure. And in the beginning of the episode, he disgusts his family with his putrid breath.

In "Lottery Fever" he torments Quagmire and Joe for his own amusement after becoming richer than them, he forces them to perform for him while he criticizes them and repeatedly shoots them with a BB gun with one pellet blowing out Joe's eye forcing him to get a glass eye, he tries to justify this behavior by saying that the money caused him to do it. Also he defecated on Angela's desk after resigning from his job.

In "A Shot in the Dark" he shot Cleveland's son Cleveland Jr. in the arm and was arrested by Joe and charged with a hate crime. However, he did not mean to shoot Cleveland's son because while in the neighborhood watch it was dark and he thought Cleveland Jr. was trying to rob Cleveland's house since was trying to get into the window; though at the end Peter confessed that he did something stupid and Cleveland "confessed" that he shot his son in the arm.

In "Ratings Guy" he stole Nielsen boxes and ruined television causing everybody to hate him.

In "Vestigial Peter" after he becomes annoyed with Chip, he attempts to use a dingo to eat him. This fails and Chip realizes that Peter wants to kill him so he angrily leaves the house. But after Chip saves Peter when he fell to the basement, Peter is grateful and they reconcile.

In "The Peanut Butter Kid" he and Lois forced Stewie to do a commercial which tired him and kept giving him drugs to keep him active and pressuring him to succeed as well as using Stewie's earned money they planned for his college fund for themselves instead.

In "Padre de Familia" Peter became a patriot and convinced his employer Angela to check workers if they were legitimate US citizens only to find out he was an immigrant himself, after which he is fired. He started looking for a new job. He cycled through many and a scene of his job as a nanny was shown. In it he fell through a window killing two children by falling on them and showed no remorse, only being disgusted as he puked. After that he proceeded to push the children's corpses under the bed in the room with the top of his umbrella. And in an earlier scene when doing his job as a maid he entered a motel room even though the person specifically told him not to.

In "Brian's a Bad Father" he shot Quagmire just to prove a hunting rifle was not in safety mode and revealed he lost a Huey Louis CD in a game of poker making Quagmire end their friendship.

In "Perfect Castaway" once Peter returns from being lost on an island at sea he becomes distraught when he realized Brian married Lois. He then seduced Lois into having intercourse with him; while this could be considered less villainous since it was justifiable because they were previously married Peter still did not respect the marriage between Brian and Lois or Brian in general, secretly cheating behind Brian's back and when she attempts to explain that it is not right to do so Peter simply says he loves her more and Brian was simply a dog, demeaning him as simply a pet instead of an actual and deserving husband.

In "Hot-Pocket Dial" he became furious when he learned Quagmire also loved Lois. Unable to control his jealousy, he ignored Brian's suggestions of ignoring it and got into a fight with Quagmire. Later, still angry at Quagmire, Peter flips him off when he moves away. He even blames Lois for Quagmire loving her.

In "High School English" he drove his car into a rich person's house and broke into his library where he decided to tell the stories of The Great Gatsby, Huckleberry Finn and Of Mice and Men. He tried to escape from the police while hiding in the attic but was apprehended and battered by them at the end of the episode.

In "Veteran Guy" he and his friends impersonated military officials though they were arrested and charged and he later beat an innocent boy to death so he could steal a jetski.

In "The Woof of Wall Street" while he and the guys are temporarily in charge of the Drunken Clam he brought a real bull into the Clam for entertainment which destroyed the bar and the only portrait of Jerome's mother who passed away recently resulting in Peter later being attacked by Jerome after failing to evacuate himself from the Clam's premises as part of a ploy for him and the others to avoid being hurt by replacing themselves with straw-filled scarecrow replicas.

Although he does not actually do anything in "You Can't Do That On Television, Peter" it was implied he's interested in raping 3-year-old girls.

In "Family Gay" Peter put a brain-damaged horse on top of his car after it died of a fatal heart attack and drove the car too fast only for Peter to put his foot on the brake pedal, in the result of the horse getting knocked over at Mort Goldman's pharmacy and it made the Griffin family pay the damage of the building even though he was responsible for the damage.

Qin: That's awful! What did he do to Meg?

Me: It's not my place to say. It's Meg's.

Meg: My father Peter Griffin was a monster. For 18 years he had abused me so much that he nearly drove me to where I wanted to commit suicide several times. I was beaten up for no reason, and Peter would shove my face in his butt and fart in it.

Carol: That is disgusting!

Me: I know. He's a rotten father that should've never been a parent, period.

Meg: I know. But the worst part was in my school days. I was the victim of constant bullying and I was constantly picked on because I was fat and big. The teachers added to it and did nothing.

Me: We launched a major investigation and found out that everyone at James Woods Regional High School sabotaged her whole education there. She was a mess from day one. No offense Meg.

Meg: None taken J.D.

Qin: That's horrible! I can't believe the people of Quahog were that stupid and imbecilic!

Carol: Yeah.

Me: Lois Griffin was really bad.

I went over her history.

---

In "Breaking Out Is Hard to Do", Lois became addicted to stealing. When she was about purchase a ham, but found out that she didn't have enough money, she stole the ham rather than putting it back. And after she stole the ham, Lois developed kleptomania. Even though Brian convinced Lois to quit her addiction and return everything she stole, she attempted to escape from Joe Swanson when he found out but was caught and sentenced to 3 years in prison.

In "Brian Griffin's House of Payne"; when Stewie was both injured and comatose, both Chris and Meg, and eventually Peter, tried to hide the fact the he's injured by putting a hat on his head and telling everyone he's asleep. When Peter tosses an injured Stewie while Lois was backing up she accidentally runs over Stewie. When she thought that she "injured" Stewie, instead of taking him to a hospital, she tried to hide the fact the Stewie was injured by doing the exact same thing that Peter, Meg, and Chris did.

In "Jungle Love", Lois reassures a worried Chris that his first day of high school will be alright. After dropping him off, she honks the horn and yells "Freshman!", exposing her son to be victimized through hazing by students and Adam West. This eventually leads to Chris running away to another country.

In "A Fish out of Water", Lois decides that Meg and her should have their own Spring Break. Even though she tries to give Meg the time of her life, Lois lets her younger wild side get the best of her and starts to party, and as a result, she consistently Meg embarrasses and overshadows Meg, forgetting that the trip is supposed to be for Meg's happiness, by winning over the favor and attention of the teenage party goers including Meg's classmates.

In a flashback in "Ratings Guy", Peter and Lois were attempting to abandon Meg by leaving her outside the fire station.

But when everything went wrong, Lois tried to remain calm, until, Meg told them that there was no paper towels. This caused Lois to go on a rampage throughout Quahog. While she was on a rampage, in two cutaway gags, she shoved George Bailey off a bridge and burned Frosty the Snowman alive. She even attempted to destroy the star on the town's Christmas Tree.

In "Go, Stewie, Go!", Lois has developed a crush, as well as a perverted nature, towards one of Meg's boyfriend, Anthony. After being scolded and driven away by Meg, Lois confronts Peter, accusing him of making her feel bad about herself which drove her over the edge.

And when she wanted to buy a fur coat that cost $4,300 she nearly made a deal with Bob Grossbeard that if he paid for the fur coat Lois would allow him to reopen his company and continue polluting the lake. Lois realizes the error of her ways and closes the pipe of the drain and resigns her position as mayor.

In "And I'm Joyce Kinney", it is revealed that, as a teenager, Lois pulled a truly cruel joke on a then overweight and possibly unpopular Joyce Kinney (then Joyce Chevapravatdumrong) in high school. Tricking her into thinking she had become part of the cheerleading squad (which Lois herself was the captain of), Lois blindfolded her, walked her into the middle of the gym, pulled down her pants and put a hot dog in her mouth. This was done in front of the entire school and everyone laughed at Joyce. Lois probably only did this to simply be nasty and had an evil expression while she was laughing at Joyce. In the same episode, she is revealed to have been a cocaine addict.

In "Bill and Peter's Bogus Journey", when Stewie showed her and Peter a drawing he made they made some nice compliments towards it, but after he left the room he overheard them laughing and making some insulting and vituperative comments towards his drawing. Later, she sleeps with Bill Clinton, whom Peter befriended, a friendship which nearly destroys Peter and Lois' marriage seduces Lois into having sex with him, only to be caught by Peter.

In "Seahorse Seashell Party", she mistreated Meg, even blaming the bad things that happen to the Griffin family.

But instead of being grateful, she physically assaults her husband and throws a can at her son's head, because she believes getting groceries was her thing alone. Peter argues with the fact that Lois complains that he never does anything around the house, but then Lois admits that she likes saying that more than she like Peter actually doing things.

In "Throw it Away", after being inspired by Trisha Takanawa's book, Lois is determined to get rid of the things the Griffin Family don't actually need, but her attempt to remove the clutter ends up going too far and it causes her to become very obsessive and domineering over the rest of the Griffin family. It gets to the point where she throws out just about everything, including forcing the rest of the family to leave the house as well, believing them to also be clutter.

Qin: She's a poor excuse of a woman.

Nico: Lois has failed in being a mother.

Qin: Did they arrest Meg's Parents after that?

Me: We did yes. We brought them to trial and they sentenced them to 50 years in prison plus life of public humiliation.

Nico: You should've seen what we did Qin. It was so funny.

Me: Oh yeah. Good times.

Qin: What did you guys do?

Me: We did all kinds of awesome pranks and fun on Peter and Lois and we really gave them their just desserts.

Carol: We have videos of them at home if you want to watch them.

Qin: I would like that. But how come Lois is still there?

Me: Lois was the victim of abuse because of her evil father Carter Pewterschmidt. He abused her with a lot of terrible things and it made her do unspeakable crimes. After the trial, the FBI found out about his shady activities and arrested him for treason. He was sentenced to be executed. But he died after being beaten to death by fellow inmates.

Qin: Good riddance.

Me: Yep. And they buried him in an unmarked grave. But William and Maria separated the pure Lois from her bad self and purified her.

Qin: Wow! That's amazing.

Carol: It was cool.

Meg: I've forgiven my mom. But I can never forgive Peter, Bad Lois and Chris for their crimes.

Qin: Isn't Chris your brother Meg?

Meg: Yes he is my brother.

Me: But he also has a bad streak.

I went over Chris Griffin's history.

Qin: He deserved it. But what happened to Chris?

Me: He got 50 years in prison and a life sentence of extremely bad paddling.

Nico: Yep. After school we'll take you to where he is.

Qin: Okay. Hey Nico I heard you all defeated the Ghost King.

Nico: That was one of our most epic adventures.

Me: That was what we call Reign Storm 2. His name was Pariah Dark, the King of Ghosts.

I revealed the detailed history of the Ghost King.

Long ago, Pariah Dark was the all-powerful king of the Ghost Zone and ruled with an iron fist with the Fright Knight as his chief servant. None dared rise against him due to the seemingly limitless power granted to him by the two items in his possession, the Ring of Rage and the Crown of Fire. However, a group of ancient ghosts joined forces to defeat Pariah Dark and succeeded in sealing away the Fright Knight, before taking the Ring of Rage from him and sealed him away in the Sarcophagus of Forever Sleep. His kingdom was destroyed, with the exception of his castle so as to ensure Pariah Dark remained dormant.

However, Vlad Plasmius inadvertently freed Pariah Dark in an attempt to get his Crown of Fire and the ghost king drove him off. However, he soon learned that the half-ghost had his Ring of Rage and angrily ordered his army of skeletons and the Fright Knight to find it. Vlad gave Valerie Gray the ring to keep safe and soon enough, Pariah Dark's army descended upon Amity Park. Eventually the Fright Knight drove his sword into the ground, claiming the town for the ghost king and surrounding Amity Park in a ghostly shield. Its removal was a "signal of doom", a sign of surrender that would mean the people had given up the town to Pariah Dark. Danny removed the sword, not knowing this, and Amity Park was sent to the Ghost Zone. Eventually the ghost king realized that Valerie had the Ring of Rage and went to claim it, but she bought some time by firing it away on a missile. However, Pariah Dark eventually got his ring back and began planning for further conquest, but Danny, aided by a number of ghosts and his father's experimental ecto-skeleton armored suit, fought his way into the ghost king's castle. Pariah Dark and Danny faced off, but the half-ghost started running out of energy due to the suit's unstable qualities. However, he managed to knock off the ghost king's Crown of Fire and throw Pariah Dark back into the Sarcophagus of Forever Sleep. Vlad succeeded in locking the sarcophagus, imprisoning the ghost king once more.

Qin: Unbelievable!

Me: I know. It was one of the most epic battles we've ever had.

Nico: But the battle that really tested the full limits of my power was the battle with Dark Danny.

Qin: Dark Danny? Who was he?

Me: He was Danny Phantom turned pure evil.

I revealed the history of Dark Danny.

---

In the original timeline (before Clockwork intervened), Danny Fenton used his powers to cheat on the Career Aptitude Test. However, Danny's teacher, Mr. Lancer who'd been suspicious of him, asked his family to come to the Nasty Burger for a meeting. Sam and Tucker were also there, but the Nasty Burger's vat of condiments exploded, killing everyone present except Danny.

Left orphaned and alone by the tragedy, Danny was forced to move in with Vlad Masters, since no one else could understand his situation and despite the hatred that the two had shared for each other prior, Vlad treated Danny with great sympathy. However, Danny couldn't deal with the guilt anymore and asked his former archenemy to remove his ghost powers, believing that it was responsible for the deaths of his family and friends. He also thought that his ghost half would be free of all emotion, ridding him of the pain and guilt that he was feeling.

Vlad agreed to help and tore Danny Phantom out of Danny Fenton with the Ghost Gauntlets, but after the procedure, Danny Phantom turned hostile and did the same to Vlad. He then bonded with his ghost half, resulting in the two selves fusing together, with Danny's ghost half as the dominant personality. As a result, Vlad's evil overwhelmed and destroyed any humanity that Danny Phantom may have had and as such, Dark Danny was born. Now, no longer possessing any empathy or remorse, Dark Danny responded by brutally murdering his former human self before blowing up Vlad's mansion. With that mission complete, Dark Danny then flew off to unleash a ten year period of destruction throughout the Human and

Ghost Worlds.

When the Observants saw the terrible future that Dark Danny had unleashed, they commanded Clockwork to destroy Danny in the past so as to prevent Dark Danny from ever coming into being. However, the time ghost instead sent in various future ghosts that set off a series of events that caused Danny to end up in the future to confront Dark Danny, who was reducing the future Amity Park to rubble, having finally gotten through its ghost shield with his Ghostly Wail power. Danny was no match for his evil older self and eventually Dark Danny fused him with a time medallion that trapped him in the future so that the half-ghost wouldn't be able to stop him from coming into being.

Realizing that Clockwork was trying to stop Danny from turning into him, he threw his past self into the Ghost Zone to make sure he stayed out of the way and then transformed himself into a fourteen year old version of his human self. Dark Danny used another time medallion to go to the past to ensure the events that created him would happen, however Danny's sister, Jazz, found out what he really was.

He successfully cheated on the C.A.T. using the answers (which Danny had obtained earlier by accident), causing Lancer to call his parents over to the Nasty Burger as a demonstration of what awaited those who failed the test.

Sam and Tucker came to try and warn them of the imminent explosion and Jazz arrived, proceeding to use the Fenton Ghost Peeler to reveal Dark Danny. He managed to used ectoplasm to trap them on the condiment vat,which was coming close to exploding, but then Danny Phantom arrived, having succeeded in getting the time medallion out of him with help from the future version of Vlad.

Dark Danny could not kill his younger self, since he needed to ensure his existence but only had to hold him off until the sauce exploded. They fought but even with the Specter Deflector and Ghost Gauntlets, Danny couldn't defeat his evil older self.

However his determination to save his family and friends caused Danny to unleash the Ghostly Wail power, which he had used earlier while under attack by future versions of ghosts he had fought. This shocked Dark Danny, since he was not supposed to gain that power for another 10 years and Danny told him that the future apparently was never as predetermined as he'd thought. He unleashed a second Ghostly Wail that blasted Dark Danny into a building, who emerged extremely battered and weakened and was trapped in the Fenton Thermos.

However, he pointed out that Danny was too late to save his family and friends in time, but Clockwork's intervention saved them and he sent the half-ghost back to before the test so as to give him a chance to change his future. Danny then gave the test answers back to Mr. Lancer. Therefore creating a new timeline where Dark Danny was never born and all the harm he cased was erased.

The time ghost then took charge of Dark Danny, who now existed outside of the time stream since Danny would never become him. At the end, he was seen smashing against the sides of thermos, apparently attempting to escape.

Qin gasped in horror.

Qin: That is so awful!

Nico: I know. But it was the biggest battle I've done. It was a battle that really tested the full extent of my power. It overwhelmed Dark Danny and we all got justice for all of the billions of people he senselessly slaughtered over the course of 10 years.

Qin: When did all this happen?

Me: That's the confusing part. It happened in an alternate time in the year 2015.

Qin: So you all went back in time to 4 years ago?

Me: Yeah. It was really confusing. Dark Danny was Danny Phantom's most deadliest enemy. He pummeled the living shit out of him the first time.

Qin: Wow!

Nico: But he paid for his crimes.

Qin: I'm glad. But how did Lori's children come into being?

Me: That was during when we faced the evil Ghost of Sleep, Nocturne. That was an unforgettable adventure.

Nico: It sure was. J.D., Danny and Lincoln went into a lot of dreams to help wake everyone up.

Me: First here's the story of Nocturne.

I told her the history of Nocturne.

---

Nocturne set his Sleepwalkers on Amity Park, at one point battling Danny Phantom and defeated him, before putting him to sleep and having his minions toss him into the Ghost Zone. He then put the rest of the town to sleep and began harnessing their dream energy, however Danny managed to wake up.

He returned to Amity Park to find everyone fast asleep and was confronted by the Sleepwalkers and Nocturne. They subdued him and the sleep ghost brought Danny back to his parent's lab, then proceeded to introduce himself, before explaining what he was doing. Nocturne and the Sleepwalkers went from town to town, putting the people to sleep and harnessing dream energy from them. Danny broke free of his bonds and fight ensued between the two, with Danny emerging the victor after he succeeded in freezing, then shattering Nocturne.

He went off to deal with the Sleepwalkers, not knowing the dream ghost had reformed, though he was still weakened, and had teleported back to his base. Danny managed to figure out the only way to get one of the sleep helmets off was by shocking the sleeper in their dream. He managed to use his overshadowing powers to enter the dreams of Sam, Tucker, and Jazz and woke them up, then managed to track down Nocturne's base, an abandoned mattress factory. They found him asleep in a chamber in his lair that would allow him to gain more energy.

Danny and Sam went to face Nocturne in his dream, but their attempts to fight him did little due to the amount of power he'd gained. However Tucker managed to jam the frequency of the antenna that the sleep ghost was using to harness dream energy. Nocturne was weakened enough that Danny and Sam managed to beat him and wake him up, along with everyone else. He was left powerless and was easily subdued with the Fenton Thermos. Nocturne later appeared amongst the countless other ghosts to help Danny turn the planet intangible, to save it from the Disasteroid.

---

Qin: And he wanted to use the power of the peoples dreams to make himself all powerful? That's horrible!

Me: Yeah. But the dreams we went into were amazing. Natilee, Danny and Sam went into Lori's dream first.

Qin: What was her dream about?

Carol: She told me that her dream was about her and Bobby having a picnic in a beautiful mountainous park while her septuplet kids were playing.

Me: It was a beautiful dream. Natilee said that she has the power to make dreams become a reality.

Qin: Oh that is so awesome!

Nico: That's how she got her title: The Guardian of Dreams. Not only is she called the Celtic Princess but she also has this magnificent power that enables her to see into the world of Dreams.

Qin: That's amazing!

Me: Yep. It's one of the most amazing powers I've ever seen.

---

Later at Gotham Royal York Maximum Security Prison, we showed

Qin what was happening to Chris Griffin. He was in a special Titanium Reinforced Pillory and he was getting whacked in the butt with powerful metal paddles. They hurt him so bad to the point where they made his butt bleed.

WHACK!

Qin: Oooh! That's got to hurt!

Meg: Yeah but he deserves this. This testicle-chinned blond fat tub of lard is not my brother anymore. He's a monster.

Me: He deserves to spend every second of his miserable life being beaten to death by paddling. I would call this torture, but it's a perfect form of capital punishment.

Qin: Yep.

We then went back home and Nico caught a Stunfisk and Accelgor.

* * *

At the estate we were helping Lynn Loud Sr. with cooking dinner.

Lynn Sr.: Can you get that bag of potatoes for me J.D.?

Me: Sure Mr. Lynn.

I grabbed them with an octopus tentacle and got them for Lynn Sr.

Lynn Sr.: Thanks J.D.

Qin: That is so cool.

Me: Thanks Qin.

Qin: J.D. I heard you have something called Magiswords. What are those?

Me: Oh you will love these Qin. This is one of my favorites.

I spun my Magisword Bracelet and out came a Magisword.

Announcer: BACON MAGISWORD!

Me: Ta da! This is a Magisword. It's the Bacon Magisword.

Qin: It looks like a strip of bacon.

Me: They come in many different kinds of shapes and there are many different kinds of Magiswords.

Qin: This is so cool! What do they do? Are they like regular swords?

Me: They are not like a regular sword. They have all kinds of awesome magical powers and abilities. Watch. Hold out your hand.

She did so and I pointed the Bacon Magisword at her hand and fired a strip of bacon. It went into her hand.

Qin: That is so awesome!

Me: It sure is. There are many different kinds of Magiswords and they are awesome and amazing!

Qin: I want to try them out.

Me: That's what I like to hear. It's easy.

I got to teaching her how to use Magiswords. I gave her a lot of them and she was a quick learner. She even mastered the Legendary Magiswords quickly.

Qin: This is so cool!

Me: You're a natural Qin!

Lana: I'll say. It took me a while to master the arts of Magiswords and it was awesome!

Me: Lana got us into the Magisword Craze and it's awesome! Prohyas and Vambre are the greatest teachers as well.

Qin: That's amazing! Magiswords are just as awesome as real swords.

In my room that night I was playing the events of Tricked over in my mind. I was thinking about what Lynn Loud Sr. said about hating Halloween.

Me: Why would Mr. Lynn hate Halloween like that? I know it's the time when we get to be scary, but this doesn't make sense.

Varie: Maybe something happened in his past that affected him in some way.

Me: Hmm. That could very well be it. I'm gonna go ask him.

I went down to the Loud Parents room.

In front of the Loud Parents room, I knocked on their door.

Rita: Come in.

I went in.

Me: Mr. Lynn, Ms. Rita, I hope I didn't interrupt anything.

Lynn Sr.: No J.D. What's up?

Me: Well I've been replaying everything that happened during 2016's Halloween over and over in my mind and I want to know. Why do you hate Halloween, Mr. Lynn?

Lynn Sr.: (Sighs) It's something I don't want to talk about. But you have a right to know.

The Loud Kids came.

Lori: We want to hear about it too.

Lynn Sr.: Okay. It was back when I was 11 years old.

FLASHBACK - 30 years ago - October 31st, 1989.

Lynn Sr. (Narrating) **It was Halloween back when I was 11 years**

**old. I was so excited to go trick-or-treating. I got home from school and went to go get ready to go trick-or-treating. But suddenly I heard my dad scream and I went to go see. I went into his room and I saw that he was lying on the floor completely covered in blood. I thought it was him playing some kind of terrifying prank on me and I told him to wake up. But he didn't move and he was really dead! He was totally dead. Someone had killed him! Someone came and broke into our house and killed my father!** (CRYING HARD)

FLASHBACK ENDS!

We gasped in sheer horror! Someone had murdered Lynn Sr.'s father in cold blood and he was traumatized as a result and it was the primary reason why he was so terrified of Halloween ever since.

Me: Oh my god!

Lori: That's literally horrible!

Leni: We had no idea!

Luna: Pop Star that's awful!

Luan: We had no idea dad!

Lynn: That's awful!

Lincoln: Dad I had no idea.

Liberty: None of us did.

Lyra: Me neither.

Lee: Same here.

Lucy Loud: That is an awful experience to see someone you love die.

Laney: I had no idea that happened to you dad.

Lana: That's why you're so scared of Halloween?

Lola: That's horrible!

Lisa: Whoever that monster was that killed our grandpa has absolutely no regard for the value of human life.

Lily: No kidding.

Me: I'm so sorry Mr. Lynn. I didn't know that happened to you.

Lynn Sr: And that's why I don't really like Halloween.

Rita: Oh honey. I didn't know you went through all that.

Me: Having a family member murdered changes people and not in a good way. Murder tears families and lives apart. Did they catch the guy?

Lynn Sr.: I don't know.

Me: Let me find out if they did. What was your fathers name?

Lynn Sr.: Samuel Loud.

Me: Okay.

I went to the computer and I typed in the info and I found an incredibly major discovery. Samuel Loud was murdered by the infamous serial killer called the Knifeblade Slasher. His real name is Daniel Derek Monroe, A convicted sexual predator, rapist, thief, burglar and mass murderer responsible for the deaths of 35 people and is believed to be responsible for the deaths of 125 people. The span of the killings were from 1973 to 2000 and he was identified thanks to modern DNA Forensic Technology and I am the one that arrested him. I remember that all too well. I arrested him on August 22nd, 2011. He was convicted of all his crimes and he was sentenced to death. He committed the killings in 27 states and he was on the FBI's Top 10 most wanted list. He was executed on November 17th, 2015.

When I found out this info I was shocked.

Me: Holy fucking shit!

I printed the info and showed it to Lynn Sr.

Lynn Sr.: So this is the man that did it?

Me: Yep. I am the one that caught him as he was on the run and I got him sent to death row in Florida. He was a major monster. I got justice for the people he senselessly butchered in cold blood.

Lynn Sr. came up to me and hugged me. He was crying hard into my shoulder knowing that his father can now finally rest in peace. I comforted him and he was totally grateful knowing that justice has been served to a monster that was terrorizing America.

* * *

Later the next day we were having an awesome breakfast.

Me: So how do you like using Magiswords, Qin?

Qin: It's awesome! I love using the Breakfast Magiswords the best.

Qin spun her Magisword bracelet and pulled out a Magisword.

Announcer: PANCAKE MAGISWORD!

Qin made more pancakes for us.

Me: Pancakes are my favorites.

Nico: Mine too. But still I can't believe that Lynn Sr.'s father was murdered in cold blood.

Me: We all were horrified.

Nico: Daniel Derek Monroe, you have failed this world and this universe.

Me: He died 4 years ago Nico. But yes he did. I'm glad he's now burning in the fire of Hell.

Then a Breaking News report came on.

News Reporter: We interrupt this program to bring you this breaking news report! Convicted traitor and former disgraced police officer Mike Brikowski has escaped from Gotham Royal York Maximum Security Prison! We believe that he is seeking to get revenge on the Powerpuff Girls. These images from the former Townsville Police Department Evidence Warehouse were taken back 10 years ago and Mike Brickowski is seen trying to kill the Powerpuff Girls by trying to dunk them in a tank of acid.

Adult Blossom: I thought we had seen the last of him!

Me: Who is Mike Brikowski?

Adult Bubbles: He's a corrupt cop that thinks that we are making all the cops in the city look bad.

We gasped.

Me: That is absolute horseshit! Lets see what it says about him.

I pulled up the info on him.

---

Mike Brikowski is the worst officer in the Townsville Police Department, as he never fights crime or helps the citizens of Townsville. Instead, he lets his fellow police officers do all of the hard work, while he just lazes around eating doughnuts, stopping at each doughnut shop, and sleeping in the car.

One day, Brikowski falls asleep during a bank robbery, forcing his partner Miguel Perez to call for backup. The rest of the cops arrive at the scene. However, his boss, the Chief, notices Brikowski sleeping and yells at him to wake up, but to no avail. Soon, the Powerpuff Girls show up and stop the robber and all the cops drive away. Brikowski wakes up to hear Perez tell him that he missed the best part: the girls saved the day. But Brikowski says that the girls are taking all the credit from the police. As Brikowski then requests Perez to stop for his first doughnut of the day, he states that he is up for a promotion any day now (despite the fact that he never actually did any police work).

Once at the TPD, Brikowski is called to the Chief's office. Brikowski believes he is finally going to get his promotion, but instead, he is fired for making absolutely no work effort and sleeping on the job. Brikowski initially thinks that the chief is joking, but his now former boss yells at him that he is dead serious and calls him out on his incompetence. The chief then forces Brikowski to hand over his badge, sunglasses, and doughnut (but allows him to keep his gun as a souvenir). Brikowski thinks the chief layed him off because he has to make cutbacks and blames the Powerpuff Girls, since they are the ones saving the day and "making the police look bad". Brikowski then punches a framed photo of the chief with the girls before storming out, much to the Chief's shock.

That night, Brikowski watches television in his apartment when he sees the girls on the news and him being lazy and sleeping on the job. He flies into a rage and throws the TV out the window, planning on getting rid of the girls once and for all.

The next day, Brikowski tricks the mayor into calling the Powerpuff Girls to lure them into his trap (under a false claim that crooks plan to steal confiscated weapons from the police warehouse). The girls arrive and he tells them where the "crooks" are. As the girls enter the warehouse, Brikowski he warns them to be careful with an evil smirk forming on his face. Unknown to Brikowski, however, his former partner Perez had followed him and saw the whole ordeal and he calls the chief, telling him that Brikowski is up to no good.

Brikowski uses a gas gun to put the girls to sleep and threatens to drop them into a vat of acid. He blames the girls for making the police look bad. The girls say that's not true, they need the police as they're an important part of the city, but Brikowski refuses to listen and begins to lower the girls into the vat of acid. Brikowski is then arrested by the other police, including the Chief and Perez. Perez tries to stop the crane, but he is too late and the girls are doused in the acid. Fortunately, the girls survive due to their powers (though the acid still leaves them slightly bruised).

As he is being taken to jail, Brikowski claims he is a good cop gone bad. Blossom corrects him saying that he's not a good cop gone bad; he's a bad cop gone worse, much to the amusement of the narrator, who tells him that he will not get any doughnuts while serving time in prison.

We laughed at what Blossom called him.

Me: (Laughs) Bad Cop Gone Worse! That's so funny!

Luan: (Laughs) Good one Blossom.

Eddy: (Laughs) That was a good one.

Adult Blossom: Thanks guys. That was a good one.

Syd: It sure was. But I would never want to have a cop like that roaming the streets.

Me: Me neither.

Leo: Sheila, do you sometimes have to deal with corrupt cops?

Sheila: All the time Leo. It was a really good experience taking them down.

Me: In all honesty I don't know what the police department was even thinking letting a lazy bum like him be a cop. But we won't let him get away with this! Lets fly!

We went out to get him.

---

A view of the Gotham Royal York skyline is shown.

Narrator: The City of Gotham Royal York… loves its police force.

(Camera zooms out to reveal it inside the office of one of the precincts of the Townsville Police Department, then shift to the right showing policemen and policewomen working. Then a flashback is shown and zooms in to reveal the open box of doughnuts on the desk.)

Narrator: A group of hard-working men and woman, doing their best to keep Gotham Royal York safe.

(A policeman takes one of his old-fashion glazed from the box, the scene changes to a side view of a policeman who is wearing sunglasses and has a white mustache. He opens his mouth as he puts his doughnut in front of his face. He bites and chews it very loudly as the camera zooms out to reveal the policeman is very fat.)

Narrator: Except for this guy.

(Inside the doughnut shop, the same fat policeman points to each doughnut he wishes to purchase with a pleased look on his face.)

Narrator: Officer Mike Brikowski, the worst cop on the force. (A woman screams as she points at a thief off-camera and two policemen chase after the unseen thief, then she looks at Brikowski and glares at him for just standing there and doing nothing but eating his doughnut.) He makes no effort to fight crime or help the citizens of Gotham Royal York. (A boy wants Brikowski to help to get his cat down from a tree, but Brikowski is still eating.)

(Three men try to lift a turned-over police car, and he is shown cheerfully watching while still holding his doughnut, enjoying their struggling.)

Narrator: He'd rather let his fellow officers do all the work. (Each of three scenes depicts him exiting a different doughnut shop at different times of the day while his partner waits in the squad car) He likes things easy. (Now while his partner, Miguel Perez, drives the police car, Brikowski silently moves his mouth) Enjoy your ride when it lasts, Officer Brikowski. (He takes a bite of his doughnut and the car passes. Now, back in the car, Brikowski is napping and snoring, while Perez is reading the newspaper at the wheel)…. 'cause you're in for a rude awakening.

FLASHBACK ENDS

Mike Brikowski: THOSE FUCKING POWERPUFF GIRLS! THEY RUINED MY LIFE!

He was in a warehouse in the middle of town. He was looking for something.

In the skies we found him because he had a Dark Orb on him. The penguins, Randy, Ed and Kid Flash were there.

Brikowski: Those Powerpuff Girls are around here somewhere.

Unknown to him, Rico was nearby while getting a bazooka ready. He fired.

Brikowski: (sees a penny) Hey, a penny!

Brikowski bends over to pick it up, narrowly avoiding the missile as it explodes harmlessly. Rico groans at this.

KRABBBOOOOOOMMMMM!

Randy: Don't worry, Rico. I'll get his attention. (goes invisible)

He snuck up on him and scared him bad and he went into an old beat up car.

Kid Flash: The idiot locked himself in his police car!

Ed: We've got him now!

We bursted in through the warehouse with a powerful fiery explosion and a phoenix cry was heard. We landed and we confronted him.

Me: Officer Mike Brikowski!

Adult Blossom: Hello Brikowski.

Mike Brikowski: You Powerpuff Girls are a menace to us Police Officers! You make us cops look like total idiots!

Me: What kind of fucked up delusional world do you live in!?

Blossom: You think we're making the police look bad? Look who's talking!

G1 Soundwave: Brikowski: hypocrite. Police: dead without Powerpuff girls.

Nico: That's right Soundwave.

Me: He's nothing but a fucked up hypocrite. You don't know how wrong you are Brikowski. Without the Powerpuff Girls, you would all be dead because of all the villains that are plaguing the world as we speak. Just like Team Loud Phoenix Storm. You would all be dead without us.

Mike Brikowski: FUCK YOU!

Me: Did you kiss your mother with that Goddamn Mouth?

Nico: Mike Brickowski, you have failed this city!

Qin: As a cop and as a Human Being.

May: Well said Qin.

Sheila: Mike Brikowski you are under arrest.

Mike Brikowski: Who are you?

Sheila: Officer Sheila Castille of the Gotham Royal York Police Department.

Mike Brikowski: You'll never take me in again!

Me: You are the worst cop ever Brikowski! In all honesty I don't know what they were thinking letting you join the force. You must've cheated your way in the exams. You have be the most incompetent cop ever!

Mike Brikowski: SHUT YOUR FUCKING TRAP!

Me: Make me!

Then a bunch of police car robots appeared. They looked a lot like Prowl.

Me: Wow! Look at these robots!

Laney: They look like Prowl.

G1 Prowl: (sees the police car robots) I don't know whether to be impressed or insulted.

Me: We beat robots before. No offense Prowl.

G1 Prowl: None taken.

Me: Lets dance!

We went at the robots while Ed, Leni, Luan and Eddy were facing Mike Brikowski.

We blasted and bashed the robots.

Qin fired a powerful blast of pure dragon fire from her hands. The fire was over 12,000˚ Fahrenheit and it melted the robots into molten metal.

Sheila fired web from her hands like Spiderman does and she threw the robots and slammed them into the ground.

SMASH!

Nico: You Prowl Impersonators have failed all of Cybertron!

Nico blasted them into scrap metal!

Me: Lets show them some teamwork!

G1 Prowl: You got it boss! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his weapons 100-fold.

Kid Flash: Lets get him! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his super speed powers 100-fold.

G1 Prowl and Kid Flash: HYPERSONIC MISSILESTORM MATRIX ASSAULT!

Kid Flash went at the robots with hypersonic speed and the speed seemed to cause all of Time to slow down and more. He bashed them all with incredible speed and hit them all. Prowl fired numerous wire missiles and they hit the robots and exploded.

Soundwave: Lets do this! CYBER KEY POWER!

The Planet X Cyber Planet Key went into his arm and it enhanced his Concussion Blaster Gun 100-fold.

Randy: Lets do this! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Randy's arm device and it enabled him to fire laser vision.

G1 Soundwave and Randy: SONIC LASER VISION STORM!

G1 Soundwave fired a massive blast of sonic energy from his concussion blaster and Randy fired a massive blast of laser vision from his eyes and they destroyed all the robots.

Adult Blossom ripped the door off the car and threw Brikowski to the ground.

Ed: Prepare to meet your maker!

He pounced onto Brikowski and threw him to Leni and she punched him in the face with devastating force. Luan and Eddy punched him all over the place.

Blossom: Lets get him with our final smashes! BALLISTIC BARRAGE!

Blossom ran fast and bounced off the walls and she unleashed a ferocious flurry of punches onto Mike Brikowski and he was getting the living shit pulverized out of him! She stopped 20 seconds later.

Sheila: My turn! SHREDLEGS WEB MACE!

Sheila formed a powerful mace club out of Shredlegs webbing and she slammed it into Mike Brikowski!

WHHAAAAAAAAAMMMM!

The powerful punch knocked him out.

Me: You are going to a much better prison Brikowski.

Blossom: (To the viewers) All Corrupt Cops will never be welcome in the city or anywhere.

Me: No they won't.

* * *

Mike Brikowski's escape and repeat offense trial got underway. We were the key witnesses. As the trial went on I noticed a strange scale being held by the statue of Lady Theia - Goddess of Justice. It was the Libra Card. 秤 The Libra Card shows a pan-scale, one side holding a sun and the other holding a moon. Libra's form is reminiscent of the astrological sign of Libra. The idea of the scale is also used as a symbol of justice and truth. It has the power to know when someone is telling the truth or is lying.

We listened to his words and I saw the Libra Card scale tip and it meant that he was lying about it all. The Jury saw through his lies and convicted him of his crimes. He was sentenced to spend 50 life sentences without parole in the Neptune Prison for Traitors. He became a traitor when he broke the oath of the Police Department: To Protect and Serve. I sealed the Libra Card after the Trial was over.

At the Neptune Prison we were putting Mike Brikowski in with Mandy, Caitlin and Dominque. Caitlin and Dominque had been totally miserable in the prison because of Mandy.

Nico: You see what you made us do, Mandy? You forced us to arrest 2 girls that you coerced into being your minions!

William: We honestly had no idea what you two had gone through in here.

Caitlin: Of course you didn't. But hey, you already locked us up with Mandy!

Dominique: Yeah! Screw what we think, right? As long as everyone in the universe is safe, that's all that matters to any of you!

Nico: (to Caitlin and Dominique) You think we want to leave you two in here?! We do want to release you two from this cell! But the people in Beverly Hills will still despise you for what's happened! And you almost killed Lincoln's rage personality. It's gonna be a while before he forgive you two for that!

Me: Nico is right. But because you were forced to do all this against your wills because of Mandy the Bitch, we'll get your sentence reduced. We'll place you in different prison cells here for the time being.

Nico: (to Caitlin and Dominique) You two need to grin and bare with staying here a little while longer. At least, until I'm able to make some new I.D.s for you.

Caitlin: Thank you Nico.

Dominique: We don't know what we were thinking teaming up with this fucking whore!

Maria: She got what was coming to her.

Me: Yep. Mandy has failed this world and this universe. And now she has a cellmate that's a Bad Cop Gone Worse!

We laughed.

PPG Narrator: (Laughing) That Always cracks me up! Sorry Officer Brikowski. No donuts in prison. So once again the day is saved thanks to Team Loud Phoenix Storm!

We were standing in the background in our poses.

THE END

---

Another Fanfiction Complete and another Powerpuff Girls Villain Brought to Justice.

Officer Mike Brikowski was beyond a shadow of a doubt the worst cop ever. He only appeared in one episode though and that episode was Cop Out. What a rip off! I got the idea for Lynn Sr.'s father being murdered out of inspiration from another Deviantart user. I made up the Serial Killer and no I didn't catch a guy like that. NicoChan11 gave me the ideas for this one. Thanks man as usual. It was a great chapter. The next Clow Card is the Create Card and that one is gonna be interesting.

See you all next time.

# Magic of The Shrunken Heads

In Paleozoic World we were all so excited to see what the newest version of Jurassic Park is like since Isla Nublar was destroyed.

Me: This is gonna be so awesome!

Lisa: Indeed 2nd Elder Brother. I am most excited to see what the fruits of our new theme park attraction has produced.

Nico: Me too Lisa. This is gonna be so awesome!

?: Nico?

We turned and we saw a friend from Nico's past. She was a blonde hair girl with blue eyes and she had a beautiful sparkling red shirt and a blue dragonfly broach and a blue skirt and blue shoes. Her name was Candie Delisle and she was 16 years old.

Nico: Candie!

They went and hugged.

Me: Another childhood friend Nico?

Nico: Actually this is my ex-girlfriend. This is Candie Delisle.

Me: It's a pleasure to meet you Candie.

Candie: You too J.D. You are all an amazing force to be reckoned with.

G1 Smokescreen: So, you're not wanting to kill Nico?

Candie: Of course not. What makes you say that?

Kowalski: Apologies. Before me, Skipper, Rico, and Private met J.D. and the others, they met several ex-girlfriends and boyfriends who tried to kill them. Except Julie Yamamoto. (to Julie Yamamoto) No offense.

Julie Y.: None taken.

Candie: I'm glad I'm not like that.

Me: So you're here to visit Paleozoic World as well?

Candie: I sure am. I heard so much about this place and I heard about what happened to Jurassic Park.

Me: We had to relocate it after what happened to it. So we moved it all the way up here to Michigan.

Candie: I'm glad you all did. My favorite adventure was when you killed Dr. Blight during Earth Week.

Energon Scorponok: I remember that.

Skywarp: I still say you guys should've let me kill her. I mean, I had her in my crosshairs.

Me: I know Skywarp. But we can never forgive that Anti-God monster for her crimes against the world.

Lori J.: Not to mention that she killed my mother.

Candie: I heard about that Lori. I'm so sorry that happened.

Lori J.: It's all right Candie. But thank you.

May: It's a pleasure to meet you Candie. I'm May and I'm Nico's Girlfriend.

Candie: Pleasure to meet you May. You do your best to take care of Nico okay?

May: You have my word.

Me: Lets all explore shall we?

Everyone cheered.

We went around the park and we saw an amazing spectacle. We saw all kinds of magnificent creatures spanning from all over the entirety of life's history over the course of 700 Million Years. In Lake Cambrian was were in an aquarium and we saw an unbelievable sight. We saw the creatures from what the world was like from 541 to 485.4 Million years ago. Most of the Earth was all underwater back then and all of life was in the oceans. We saw all kinds of prehistoric crustaceans, fish and sea plants. We saw lots of Cambrian Crustaceans unlike anything we've ever seen before. It was a magnificent marvel.

Next we went to Ordovician Lake and we were in another aquarium that showed what the creatures of the Earth were like from 485.4 to 443.8 million years ago. We saw Trilobites and more and we even saw prehistoric Jellyfish.

Next we went to Silurian Lake and we saw what the world was like from 443.8 to 419.2 million years ago. We saw the first ever sharks that ever swam the oceans from back then and it was a magnificent sight. We saw the first ever species of shark that started the Shark evolutionary chain: Elegestolepis. This was the first ever species of shark that gave birth to one of natures most powerful and strongest survivors.

Next we were in Devonian Forest. It was a forest that showed what the Earth was like 419.2 to 358.9 million years ago. We saw lots of different species of plants, fish and insects. We saw awesome creatures and more.

Next we were in Carboniferous Swamp and this was the most magnificent feature of all. We were in what the world was like back from 358.9 to 298.9 million years ago. It was a magnificent wonder to behold. We were in the Carboniferous Coal Swamps and it was a massive oxygen rich environment. The oxygen levels were at 35% and the humidity was 100% and it was amazing! We saw huge insects, amazing plants and more.

Next we were in Permian Glade and this showed us what the world was like from 298.9 to 251.902 million years ago. It was a magnificent place and we saw Dimetrodon's, many creatures and more.

Next we were in Triassic Savanna and it showed us what the world was like from 251.902 to 201.3 million years ago. It showed us the first ever dinosaurs to walk the Earth. We saw Herrarasaurus, Nothosaurus, Eoraptor, Phytosaur's, Coelophysis, Massospondylus, and many species of dinosaurs from then.

Next we were in Jurassic Mountains and it showed us what the world was like from 201.3 to 145 million years ago. Here we saw all kinds of amazing dinosaurs and there was a lot of them! We saw Apatosaurus, Brachiosaurus, Barosaurus, Mamenchisaurus, Diplodicus, Allosaurus, Stegosaurus, Kentrosaurus, Ramphorhynchus, Amphicoelias, Pterodactyls and so much more! It was a prime example of the age of dinosaurs at its peak.

Lastly was the Cretaceous Plains and it showed us what the world was like from 145 to 66 million years ago. We saw a massive plethora of dinosaurs from all over and saw all different types of dinosaurs! We saw Maiasaura, Corythosaurus, Parasaurolophus, Albertosaurus, Tarbosaurus, Triceratops, Protoceratops, Oviraptor, Tyrannosaurus, Carnotaurus, Ouranosaurus, Iguanodon, Quetzalcoatlus, Eudimorphodon, Kronosaurus, Argentinosaurus, and many more! It was an awesome example of what the pinnacle of the age of the dinosaurs was like back millions of years ago.

At the end we saw a video of what happened during the Chicxulub Impact that wiped out all of the dinosaurs. A massive asteroid 6 1/2 miles wide slammed into the Yucatan Peninsula and destroyed all the dinosaurs. Massive amounts of debris rained down and all the plants died and the dinosaurs died.

Me: This park is even better than what it was before!

Candie: It sure is!

Nico: Well J.D. you have officially succeeded in making an awesome park!

Qin: I learned so much about the world of dinosaurs. It was so awesome!

Me: I'm glad you all had so much fun. We have the habitats for the Tertiary and the Quaternary periods under construction. So we're gonna see what the world was like back during the times of cavemen and what they were like back then later.

Lana: That would be so cool!

Lisa: Indeed Lana. I too am excited to see what Homo Sapiens were like during the events of the great ice age.

Syd: Same here. But this was all amazing! I love dinosaurs now as much as animals!

Me: I do too.

Candie: It was so awesome going with you all. I'm a paleontologist in training and I'm learning so much about dinosaurs and all of prehistoric life.

Nicole: We would make a great team Candie. I'm a volcanologist, astronomer, paleobotanist, paleontologist and geologist.

Candie: Wow! That's amazing Nicole. I would love to work with you.

Nico: I'm glad Candie.

Paleozoic World was a huge success and it is gonna be very popular all over the world.

In the Jupiter Prison it was time for another rant session with the most hated babysitter in the whole world: Icky Vicky.

Qin: So who is Icky Vicky?

Nico: You would absolutely despise her Qin. She is the worst ever babysitter ever to walk the face of the Earth.

Nico went over the history of Icky Vicky.

* * *

As revealed in Abra-Catastrophe!, Vicky first started babysitting Timmy Turner when he was eight and she was fourteen. Timmy had found a flier advertising Vicky's babysitting service, and panicked and called this number when his parents tricked him into thinking he was being left alone. When Vicky arrived, she convinced Timmy's parents that they could use a babysitter so they would have time for each other to go out and do adult things. From that point on, Vicky tormented Timmy whenever she babysat him, and his parents would continue to spend time away leaving him under Vicky's cruel care. Timmy became so miserable that he needed fairy godparents. With them, he was able to use magic to get even with Vicky. Even with his fairies, Timmy is still challenged by Vicky over the course of the show. She has also worked other non-babysitting jobs, usually if they involve hurting others or holding sharp objects. In most of her early appearance, the simple act of saying her name would cause thunder and lightning to flash in the sky.

Vicky appears to have started babysitting at age fourteen or possibly earlier. When she first met Timmy when he was eight, she was just as mean as she is now. It is never explained why Vicky is the way that she is, although several conflicting plots have been put forth. In the episode Snow Bound, she reveals that she had a rough childhood. In Tiny Timmy, it is said that her niceness never showed up to work inside her brain. In Vicky Loses Her Icky, the cause of her evilness is attributed to an evil bug that crawled up her butt (although it is equally likely that the bug was a pure concentration of her evil personality). In the episode The Switch Glitch, after Timmy wished for Vicky to turn into a five-year-old, she was actually nice but turned bad when she wanted revenge on Timmy for being a mean babysitter. It has also been suggested in fanon that her sister Tootie being born was the cause of her disliking younger kids, and although this has never been explicitly stated, although, in the episode The Masked Magician, Vicky lists Tootie first as she went through various enemies she had made in her life, as well as her own parents. Hanging in her house is a picture of an infant-aged Vicky is shown with the same evil scowl she has in her later life, so it's possible she was born this way.

After Timmy Turner successfully defeated Vicky in the past and changed the bad future into a good one, twenty years passed by and Timmy is revealed to have two children, a son, and a daughter. The children bear a resemblance to Vicky's little sister Tootie among other characters, meaning that these children would be Vicky's nephew and niece if Tootie married Timmy. Some fans even believe that Vicky herself could have been the mother, and even if so, it's possible that her children could have inherited genes from their grandmother. The two children are babysat by a robot that looks and acts like Vicky, so it is likely that Timmy has some connection with her in the future, or has at the very least reconciled with her. It is also possible, even implied in some of Adult Timmy's dialogue, that because he forgot about his fairies in his later life, Timmy eventually assumed that it was his parents, and by extension Vicky, who helped shape him into becoming a responsible adult instead of his fairies. Therefore he believes that hiring a babysitter that resembles Vicky will help shape his own children into responsible adults too. Vicky's exact connection with the robot is unknown, but if she makes and designs these robots, she is likely very rich and successful like she always wanted to be.

In the episode "Vicky Gets Fired", Timmy's parents attend a cinema and leave Timmy alone with Vicky, but this time, Timmy, determined to prove Vicky is evil, shows his parents a video in which she tapes over their extremely important videotape, causing her to be fired. Vicky then attempts to seek a new line of employment, although she only succeeds in torturing others, resulting in her getting fired by all her bosses, both literally and figuratively. Eventually, she goes to the mayor and reveals to Chompy the Goat that the mayor indulges himself in eating goat meat, causing the goat to chase him out of his office. Vicky then names herself the new mayor and takes over Dimmsdale, rename it "Vickyland" and attacks it with his newly established ape army. Timmy, who is enjoying the time of his life with his god-family, soon discovers that getting Vicky out of his life causes her to ruin everyone else's. Wanda proposes that they take fire-breathing battle-rhinos and a lion-cloth warrior to Vicky to depose her; however, they lose badly, and Timmy tries wishing that Vicky wasn't the mayor. Unfortunately, Vicky, not being mayor, becomes president of the U.S.A. instead and attacks the country with another armored ape army. Timmy tries unwishing the Vicky dominated reality again, only for Vicky to become the "Dark Empress of Everything that Breathes", and began attacking Earth with her Star-Destroyer-like warship. To save the Earth, Timmy reluctantly wishes that Vicky was his babysitter again in order to maintain peace.

Vicky was formerly a member of B.R.A.T. (Babysitters Raging Against Twerps) until she was rescued by Timmy Turner and felt grateful. Vicky tried to make a new life being Timmy's friend but he rejected her favors and Vicky return to her organization more abusive than ever, so much so that their companions named her their new leader. On another occasion, she joined and subsequently lead L.O.S.E.R.S. (composed of Crocker, Dark Laser and Foop) and advised them on how to destroy Timmy once and for all, but, after Timmy wished that this four enemies wanted to be him, all members (including her) ended up destroying each other. Vicky subsequently left the team after their initial failure and ends up being replaced by Timmy's dad (who thought he was joining a sewing club).

Qin was horrified.

Qin: Vicky is a monster! She should've been executed!

Nico: Qin, she's only 16-years-old and killing a person at that age is totally barbaric unless they are pure evil to the core. Some people are the exception.

Qin: Like who?

Nico: There were two kids that did incredibly unspeakable crimes of pure evil. It's not my place to say but these two kids were beyond all form of pure evil to the core.

Qin: That bad? Wow.

Nico: I know. It's horrible.

Qin: But that is a good point. I can't wait until it's my turn to do a rant!

Kevin Levin: Get in line! I've been wanting to do one since I saw Ben do his rant.

Nico: (Imitating Hades) (ECHOING) LETS GET READY TO (FIRE

HAIR FLARES UP) RUMBLE!

Kevin Levin: This is gonna be so fun.

Kevin walked up to Icky Vicky's cell and he cleared his throat.

Kevin Levin: (Takes a deep breath) The day I would have you as my babysitter is (YELLING) THE DAY WHEN I SHOVE YOUR FUCKING TONGUE UP YOUR FUCKING BUTT AND PUNCH YOUR TEETH OUT OF YOUR MOUTH AND SHOVE THEM DOWN YOUR THROAT! YOU MAKE ME SICK JUST LOOKING AT YOU! YOU MAKE ME WANT TO HURL MY GUTS OUT AND THROW UP ALL OVER THE SIDEWALK AT THE MERE SIGHT OF YOUR FUCKING FACE! YOU MAKE EVEN VILGAX'S FACE LOOK LIKE A NICE ONE COMPARED TO YOURS!

Everyone cheered for him!

Prisoner 1: Yeah! You tell that bitch Kevin!

Prisoner 2: You show her!

Qin: That was awesome!

Manboy: That was really well done!

Kevin Levin: Thanks guys.

Qin: My turn.

Nico: She may look harmless on the outside. She has the face of an angel but the heart of a devil. She's a Psychopathic Maniac.

Qin: I'm going to enjoy this.

Qin walked up to Icky Vicky's cell.

Qin: (Takes a deep breath) YOU MAKE ME SICK JUST LOOKING AT YOU AND I WOULD RATHER LICK A TOILET THAT HASN'T BEEN FLUSHED FOR THOUSANDS OF YEARS THAN LOOK AT YOUR FUCKING UGLY MOTHERFUCKING FUCKED UP FACE! YOU ARE NOTHING BUT A MISTAKE THAT DESERVES TO DIE! I

WISH YOU WOULD JUST DIE! YOU SICK MOTHERFUCKING FUCKED UP BITCH!

Everyone cheered for her!

Nico: Way to go Qin!

Prisoner 1: Yeah you tell that bitch!

Manboy: Very impressive!

Kevin Levin: You tell her Qin.

Back at the estate, Nico, May and Qin were looking over which Goosebumps monster to go after as we were watching TV and reading books.

Catwoman: Candie, you know that if you help us with our adventures, the bad guys are going to want to kill you.

Candie: I'll take that chance.

Lana: Do you have any powers Candie?

Candie: I sure do Lana. Watch.

Candie held out her hand and to our shock and surprise we saw black licorice whips form and she slashed the wall with it.

Me: Wow!

Lola: That is amazing!

Laney: Candy powers? That is unusual but really cool!

Candie: I can form any weapon out of candy.

Me: That is so awesome! How did this happen to you?

Candie: I was in an accident.

---

Candie: (Narrating) **2 years ago after I broke up with Nico and we became great friends, I was on a field trip to an experimental laboratory in Trenton, New Jersey. It was a really interesting laboratory. We were watching a matter transporter in action. It was the coolest thing ever. I saw them teleporting a jawbreaker from point A to point B. It was neat. They then called for a volunteer and I volunteered. I got into the transporter, but then there was a contamination source in it and it turned out that it was a few jellybeans someone left in the transporter and then they accidentally turned it on and I transported and felt strange. But when I emerged I looked normal. Everything looked all right. But then some bullies came and just as they were about to attack me I saw a jawbreaker fire out of my hand and it slammed into the bullies face with the power of a cannonball being shot out of a cannon. I gasped in shock and I somehow got strange Candy powers.**

FLASHBACK ENDS

Me: That is really amazing!

Lisa: Hmm. The candy confectionaries left in the matter transporter merged with your DNA structure and it appears to have given you the ability to utilize Candy as a weapon.

Candie: That's a very unusual power but it's a sweet one. (Rimshot)

We laughed at Candie's joke.

Me: (Laughs) Good one Candie.

Luan: (Laughs) That was funny!

Eddy: (Laughs) That was a good one.

Candie: Thanks.

Me: That is an awesome power. Princess Bubblegum has Candy Powers too and she can form anything sweet.

Candie: That's so awesome!

Me: It is.

Nico: Boy this is amazing Candie. You've been given a great gift as a result.

May: But you have to remember that with Great Power comes Great Responsibility.

Candie: I know.

Nico saw the next target.

Nico: I found our next target guys.

Nico showed us our next target: How I Got My Shrunken Head.

Me: How I Got My Shrunken Head. I remember that one.

May: Me too. That's a cool one.

I read the book and it was a rather interesting story.

---

Twelve-year-old Mark Rowe loves playing Jungle King on his computer. Whenever he succeeds in the game, he screams "Kah-Lee-Ah!", a phrase which popped in his head one day. While Mark is playing the game, a woman arrives at his front door. The woman introduces herself as Carolyn Hawlings, the assistant of Mark's Aunt Benna. The woman brought with her a hundred-year-old shrunken head, a gift from his Aunt Benna, an explorer.

The head is from the jungles of Baladora, which Aunt Benna has been exploring for over ten years. That night, when Mark goes to bed, he suddenly hears his name being whispered and believes it to he the head, but when he investigates, it's only Mark's sister, Jessica, playing tricks on him, jealous that he got the head and not her. Later that night, he thinks he sees the head levitate, and its eyes begin to glow. However, when he tries to tell his family, the head appears in a lifeless state.

The next morning Mark learns from Mrs. Hawlings that his Aunt

Benna needs him in Baladora immediately. He is promptly flown there by airplane, and he's brought his shrunken head as well. Mark meets Carolyn's brother, Dr. Richard Hawlings, and his daughter, Kareen. They inform Mark that his aunt has been missing for weeks, and they will only be able to find her if Mark can harness the Jungle Magic he possesses. It is explained to Mark that, when he was four, Aunt Benna taught him the secret of Jungle Magic. Sadly, this was so long ago that Mark can't remember how to activate it.

Mark walks into a room filled with shrunken heads and finds a journal from Aunt Benna. It reveals that Dr. Hawlings and Carolyn are secretly plotting to use Jungle Magic to destroy the jungle and Baladora. Mark asks Kareen about what the journal said, but Kareen claims that she didn't know anything it, adding that she likes Aunt Benna. Mark believes Kareen and sets out into the jungle by himself, determined to find his aunt.

Mark travels deep into the jungle. Eventually, the boy falls asleep, dreaming of dozens of shrunken heads surrounding him, telling him to hurry. When he wakes up, he sees that he is almost completely covered in red ants. He panics and screams "Kah-Lee-Ah!", which makes the ants leave suddenly. Mark deduces that he unknowingly used Jungle Magic. As he ponders aloud, the shrunken head's eyes glow. After trekking further, Mark gets caught in quicksand. He tries the magic words again, but they don't free him. When he holds the shrunken head high, it lifts him up, out of the quicksand.

Soon, Mark encounters a tiger. The animal is on the verge of attacking him, but Mark uses the magic words, causing the ground beneath him to open up. Mark is lowered enough to avoid the tiger. Kareen arrives and frees Mark from the hole. The two eventually find Aunt Benna, but she is suspicious of Kareen. However, Kareen reveals she was working with her father and Carolyn this whole time. Now, the evil trio knows where Mark and his aunt are.

After locking up Mark and Aunt Benna for a while, the Hawlings eventually bring the two to a pile of shrunken heads and a giant pot of boiling water. Dr. Hawlings tries to intimidate them into telling him the secret of Jungle Magic; he threatens to shrink their heads if they don't tell him how to perform it. Mark tries to use his shrunken head to stop Dr. Hawlings, but it gets knocked into the pile of heads. Aunt

Benna starts to wrestle with Dr. Hawlings, and Mark dives into the pile of heads. Mark manages to find the right one due to a scratch put on it by his sister, Jessica. Dr. Hawlings tries to attack Mark, but, before he can, Mark recites the magic words while holding the shrunken head. This causes Dr. Hawlings, Carolyn, and Kareen to shrink to the size of mice. The three panic and run off into the jungle, never to be seen again.

Mark and Aunt Benna soon return home. While Benna has stripped Mark of his Jungle Magic, he gets to keep the shrunken head and plans to take it to school with him. Unexpectedly, the shrunken head opens its mouth and informs Mark that it wants to tell everyone about the tiger he encountered in the jungle.

---

Me: Boy that really infuriates me! Dr. Hawlings, Carolyn and Karen don't deserve to call themselves human!

Nico: I know. They double-crossed Mark Rowe and it was despicable.

Me: And it's all for wanting to use the secrets of Jungle Magic all for themselves.

Brittney: That is really despicable. The secrets of Jungle Magic are too powerful for one to fully understand.

Jackson Gerard: Are we going to run into those shrunken heads?

Brittney: I already have a Shrunken Head.

Brittney pulled out a Shrunken Head. It was half the size of a regular human head.

Jackson Gerard: So that's a Shrunken Head.

Brittney: Yep.

Jillian Gerard: It sure is strange looking.

Trudy: It sure is freaky.

Stacy: No kidding.

Brittney: For centuries, Shrunken Heads have been used by headhunters as trophies and to scare off their enemies.

Lucy Loud: I read about all that. Shrunken Heads are also said to hold many magical powers.

Grim: (Jamaican Accent) I know. Shrunken Heads are very interesting.

Me: Lets see where Mark Rowe is.

I pulled up the computer and it showed that he's over in Borneo.

Me: He's over in Borneo.

Vince: Then we have to get over there fast.

Lola: But is there a Goosebumps Monster in How I Got My Shrunken Head?

Me: No. The villain is actually Dr. Hawlings, Carolyn and Kareen. But the computer is also picking up a Dark Orb in that area.

Nico: There's a strong chance that Dr. Hawlings may have found it and it returned them to normal.

Me: Then we have to get there! LETS FLY!

We were off to Borneo in Indonesia.

We saw that Candie can fly with wings made of bubblegum.

---

## BORNEO, INDONESIA

---

We arrived in the dense jungles of Borneo. It was a massive and beautiful rainforest.

Me: Borneo, Indonesia. It's just as amazing and beautiful as I remember.

Qin: It sure is beautiful. But were you here before?

Me: Oh that's right you don't know about this. We were on a massive worldwide adventure that Nicole took us on to look at the worlds volcanoes.

Nico: It was amazing Qin. Everyone told me so much about it.

Qin: Wow! That must've been an amazing trip.

Me: It was. Lets go.

We followed to where the Dark Orb was. We followed to where it was on my Dark Orb detector. When we got close we saw that it was in a long forgotten ancient jungle temple. It was left in the jungle to rot.

Me: Wow.

Laney: What an amazing temple!

Me: It sure is breathtaking. Lets use the trees to hide.

We did so. We hid in the trees and looked out for Dr. Hawlings, Carolyn and Kareen and to our shock we saw them and that they were reverted back to normal size thanks to a dark orb imbedded in his right arm. They had Mark Rowe tied up and right next to him much to our shock was Dark Samus reborn as a Heartless!

Janeen: I don't believe it! That's Dark Samus and she's a Heartless!

Samus: How is that possible?

Megan: It's the dark orb. She was brought back because of it.

Tarzan: This is not good. We have to stop them and this Dark Samus Heartless?

Me: I'm afraid so. This is gonna be a difficult battle. But we're gonna be ready.

Lincoln: How are we gonna face them?

Me: We need to come up with a plan. But first we need to get Mark out of there.

Superman: Flash, get Mark out of there and bring him to us.

Flash: You got it!

Flash ran fast and got him out of there faster than anything and he brought him over to us.

Mark saw us.

Mark: Wow! Team Loud Phoenix Storm!

Me: That's right Mark. It's a pleasure to meet you.

Mark: I love all your adventures. But we're not stopping Hawlings now because…

Nico: Because we need to come up with a plan first.

Me: Trust me Mark. We'll think of something.

We went to a hidden cave in the jungle mountain that we were using as our base of operations for the time being.

Me: Okay guys. This is gonna be a tough one. We're gonna have to take the fight to another planet to avoid destroying the entire jungle.

Laney: That's a good idea.

Janeen: The presence of Dark Samus will bring incredible destruction to the jungle and burn everything. So we need to be extra careful.

Nico: Good thinking. That temple she's at is bound to have some kind of treasure inside it.

Lincoln: It's bound to.

Mark: There's a great treasure. The treasure of an ancient tribe here in Borneo.

Me: Okay. But before we fight Dr. Hawlings, what can you tell us about him Mark?

Mark went over the history of Dr. Hawlings.

---

When Mark Rowe arrives on the island of Baladora with Carolyn Hawlings to meet with his Aunt Benna, instead of being greeted by her, he is instead greeted by Carolyn's brother Dr. Hawlings and his twelve-year-old daughter Kareen. They inform Mark that his aunt has been missing for weeks and that they need the jungle magic that was bestowed on Mark to find her. It is revealed that Mark was bestowed the magic when he was four by Aunt Benna, however Mark has no idea how to call upon it. Mark walks off, only to find a room filled with shrunken heads and Aunt Benna's journal. It reads that Dr. Hawlings and Carolyn are actually evil, and if they were to discover the secret of jungle magic, it could destroy the entire jungle. He ends up running into Kareen, who claims she doesn't know anything about her dad being evil. Mark believes her, but goes off into the jungle to find his Aunt Benna.

After several harrowing incidents in the jungle, he is eventually rescued by Kareen. The two find Aunt Benna, who is horrified to see Mark with Kareen, as it turns out that she was working with her father all along. And due to him saying "Kah-lee-ah" in front of her, she now knows the magic words. However, they can't get the magic to work. They threaten to shrink Mark and Aunt Benna's heads. Mark attempts to use his Shrunken Head on them, but it gets knocked into a pile of shrunken heads. As Aunt Benna fights with Dr. Hawlings, Mark dives into the pile, says the magic words, and causes Dr. Hawlings, Carolyn and Kareen to shrink to the size of mice and run off into the jungle, never to be seen again. In the televison adaptation, the villains are still shrunk, but Mark manages to catch them and keep them in a lizard tank in his room where he takes care of them.

---

Me: He is a monster!

Nico: He sure is. We need a really strong source of help.

Then we heard a loud snake hiss. We then saw glowing red eyes appear in the darkness. We were surprised but they were looking at Nico. Then an orange light appeared and it was an Animal Crystal. It landed in Nico's hand and it was a King Cobra Wild Zord!

Me: A new Wild Zord?

Nico: It's a King Cobra.

Me: Wow! A King Cobra Wild Zord?

Laney: That is so cool!

Nico: It chose me to be it's friend and master.

Me: Your first wild lord man. Way to go. I think this could be the help we need.

Then a Crystal Saber appeared in a holster on Nico's left hip.

Me: Lets do this!

Mark: Hold on Aunt Benna!

We went for Dr. Hawlings.

---

At the temple Dr. Hawlings was enraged.

Me: Dr. Hawlings!

They saw us.

Dr. Hawlings: Team Loud Phoenix Storm!

Carolyn: What are you all doing here?

Me: What else? We're here to stop you.

Samus: Hello Dark Samus. Long time no see.

The Dark Samus Heartless was now called the Corruption Typhoon.

Corruption Typhoon: So you have come.

Megan: Dark Samus. I didn't expect to see you alive again.

Corruption Typhoon: Well, if it isn't the disgrace to the Dark Samus name.

Megan: You took Janeen's mom away from her and I will nev…

Corruption Typhoon (grabs Megan by the throat): Pathetic. And you call yourself my successor. You're not even as ruthless as I am.

I punched her in the face and she let go.

Me: You're a monster Dark Samus.

Nico: And we have some Special help.

Nico put the King Cobra Crystal into his saber.

Nico: KING COBRA ZORD ARISE!

The Crystal Saber glowed and it sang its tune and the King Cobra Zord appeared. It was a massive orange King Cobra with red eyes and it had a powerful energy. It hissed with extreme ferociousness at Dr. Hawling.

Me: That is so cool! Lets take this battle somewhere away from the jungle!

I snapped my fingers and we were on the perilous swamp planet Siigala!

Planet Siigala is a swamp planet located 85,000 light-years away from Earth on the Opposite side of the Galaxy. Siigala is home to giant predatory plants, insects and lots of danger.

Lincoln: Wow!

Lana: What planet is this?

Me: This is the planet Siigala. It's a swamp planet.

Laney: It sure looks like a dangerous place.

Nico: I would not want to come here for vacation.

Me: No one should. It's loaded with all kinds of predatory plants and insects. But lets get these monsters!

We went at them.

Megan fired a powerful blast of Phazon Energy at Dark Samus's Heartless and it hit her and exploded.

KRABBOOOOOOOOOOOOOOOOOOOOMMMMMMMMMM!

Janeen fired a massive blast of lightning and electrocuted her and Samus fired a Hyperbeam Blast and it hit her and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Gandrayda fired a massive blast of lightning and electrocuted Dark Samus's Heartless.

Janeen: Lets finish this monster for good!

Janeen and Gandrayda fired a massive blast of lightning and Megan fired a massive blast of Phazon energy and Samus fired a massive Hyperbeam blast.

Janeen, Gandrayda, Megan and Samus: LIGHTNING PHAZON HYPERBLAST!

The blasts combined and slammed into the Dark Samus Heartless and exploded with incredible power!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful and so devastating that it obliterated her in an instant.

Dark Samus was then sent into the River Of Fire for all eternity.

Nico: Dark Samus you have failed this universe.

Qin: Who was that Nico?

Nico: That was Dark Samus. She was created when Metroid Prime sucked out Samus's Phazon Suit on the planet Tallon IV after Metroid Prime was defeated.

Nico explained all about Dark Samus and how she was made and her history.

---

After she defeated Metroid Prime, the Metroid Prime clung onto Samus's Power suit and tore the Phazon suit off of her in a desperate move to save itself. After Samus leaves the planet, the DNA of Metroid Prime combines with the DNA of Samus and the Phazon Suit in order to reincarnate itself as Dark Samus.

Dark Samus serves as a central antagonist and final boss. She left planet Tallon IV and she traveled the Universe in search of Phazon, driven by her instincts from Metroid Prime. Samus eventually found a planet named Aether, which had suffered a war with a dark dimension when strange dark creatures had invaded Aether and its native species, the Luminoth. Dark Samus traveled through Aether and found portals to a dark dimension which she entered, and to her delight, she found tons of Phazon from the meteor impact. Coming and going through the portals, Dark Samus ate all the Phazon she wanted, and grew in power, regenerating herself after her defeat on Tallon IV.

The Galactic Federation, who would later be her enemies, came to Aether and were attacked and killed by the Ing. Dark Samus later found her old nemesis, Samus Aran, come to Aether, in search of the Troopers. Samus did not get far before she met Dark Samus, and Dark Samus lured her almost to death in Dark Aether, where the Ing attacked, but only barely missed the bounty hunter. So Dark Samus traversed Dark Aether for awhile.

Samus later met Dark Samus again when she was in the Agon Wastes. Dark Samus was feeding off of Phazon crystals, and Samus entered, unaware of who Dark Samus was. She soon learned she was the Metroid Prime when she used Phazon to attack. This became a fight to the death which Samus won.

Dark Samus exploded into blue particles upon "death", however it was just a maximum overload and she repaired herself. The particles reached the Torvus Bog, where she solidified and laughed at Samus before flying off. Dark Samus then returned in the Sanctuary Fortress, where she was seen sadistically laughing after gunning down some Space Pirates trying to protect their Phazon. Samus challenged her to an epic elevator battle, which Dark Samus became invisible after a while due to all the Phazon power. Later, rather than admit defeat, Dark Samus committed suicide by jumping off the elevator tower and falling into the city below.

Dark Samus was unseen through the rest of Samus' adventure, but right at the end, she made a surprise return. Dark Samus returned and she was now skeletal, bereft of armor, and her organs resembled Metroid Prime's, thus confirming who she truly was. Enraged, Dark Samus blocked off Samus' escape from Dark Aether by gliding and firing Phazon missiles at her, Samus noted that if she repelled them back at Dark Samus it would cause another overload. After enough hits, Dark Samus crashed to the ground and crawled towards Samus, trying to absorb her Light Suit, but she disintegrates and was believed destroyed in Dark Aether.

Dark Samus serves as the main antagonist. Despite her disintegration, Dark Samus' particles re-formed in space around Aether. In Metroid Prime 3: Corruption, on the planet Phaaze, the source of all Phazon, she controls the Leviathan Seeds: living creatures that are spawned from Phaaze and contain rooms within their bodies, and carry massive amounts of Phazon.

She plants a seed first into the Pirate Homeworld. Then, Dark Samus, along with the help of the space pirates, leads an attack on the Galactic Federation and manages to implant one of the gigantic Seeds in the planet Bryyo.

Samus manages to stop one seed from crashing into Norion, a planet important to the Galactic Federation. Dark Samus appears then and hits Samus and her bounty hunter allies and implants Phazon within their bodies. Soon after, a Seed is implanted into the planet, Elysia. The Seeds begin to corrupt the planets and the forms of life (In Elysia's case).

To destroy each of the Leviathan Seeds, Samus enters them and must destroy a monster who is powered by the Phazon energy inside (probably inside a lung-like cavity). Every time she destroys a monster, the Phazon released begins to corrupt her even further.

In the end, Dark Samus merges with Aurora Unit 313 to fight Samus, but is defeated, and is destroyed for good.

---

Qin gasped in sheer horror.

Qin: That's horrifying!

Janeen: And Dark Samus is also the monster that murdered my mother Gandrayda.

Qin gasped.

Qin: Janeen I'm so sorry.

Janeen: It's all right Qin. But I beat Dark Samus and not only avenged the millions of people she slaughtered but also got my mother back.

Gandrayda: That's right. I'm glad I have family.

Samus: Both of us are.

Qin: I'm happy for you all. Lets go help J.D. beat Dr. Hawlings.

Nico: Right!

Energon Scoponok: Lets do it boss!

They joined the battle with us and Dr. Hawlings.

I punched Dr. Hawlings in the face. Mark Rowe punched him in the face and knocked out some of his teeth. The King Cobra Zord fired a powerful blast of fire and it was hotter than that of the surface of the sun and it went at Carolyn and she and Kareen ducked behind a rock and the rock melted when the fire hit it.

Kareen was punched in the face by Laney.

Lori punched Carolyn in the mouth and knocked out some of her teeth.

Lori: You literally disgust me Carolyn. We won't let you use the power of Jungle Magic for your own selfish actions!

Carolyn: I will use it and you won't stop me!

Me: We all will and you will pay for your crimes!

Nico: Dr. Richard Hawlins, you have failed this world and universe!

Me: Lets finish them!

Qin: I've always wanted to try this! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and it enhanced her powers 100-fold.

G1 Smokescreen: Lets do it! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his missiles and Electro-Disruptor Rifle 100-fold.

Qin and G1 Smokescreen: LIGHTNING FIRESTORM BURNCLOUD!

G1 Smokescreen fired a massive blast of lightning and Qin fired a massive blast of fire and the blasts combined and turned into a burning fiery cloud that burned Carolyn and Dr. Hawlins on contact and it was impossible to see through it.

Catwoman: Time for some cat power! ANIMATRON CYBER KEY

POWER!

The Animatron Cyber Planet Key went into Catwoman's right arm device and it enhanced her cat abilities and strength 100-fold.

Energon Scorponok: Time to sting you! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Energon Scorponok's back and it enhanced his flip-out laser cannon crane arm 100-fold.

Catwoman and Energon Scorponok: CATCLAW SCORPION BLASTSLASH!

Catwoman Slashed Carolyn with her claws and speed and Energon Scorponok fired a powerful laser cannon and it hit the ground and exploded with amazing power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOMMMMMM!

The blasts knocked her out.

Kareen began to realize that everything her father and her mother said was all bullshit and that she was used as a pawn in her parents own diabolical plots to destroy her life!

Kareen then punched her father in the face!

POW!

Dr. Hawlins: What do you think you're doing Kareen!?

Kareen: I will not follow you anymore father! You used me for the last time!

Laney: I did not see that coming! Kareen let us handle this!

Kareen: Okay.

Me: Lets do this!

Tarzan: With pleasure! JUNGLE GORILLA DEATHPUNCH!

Tarzan unleashed a massive ferocious flurry of punches with the strength of a hundred gorillas onto Dr. Hawlins.

Brittney: This is for messing with magic. DESTROYER BLACK CRYSTAL SHARDSTORM!

Brittney chanted an incantation and a massive barrage of black crystal shards fired at him and exploded.

KRABBBOOOOOOOMMM! KRABBBOOOOOMMMM!

Mark: This is for my aunt and my family! JUNGLE PREDATOR SPIRIT STRIKE!

Mark Rowe fired a blast of energy and it turned into the most powerful predatory animals in the animal kingdom. They went at him and roared ferociously and they hit him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOMMM!

Dr. Hawlins was weak and was almost down.

Dr. Hawlins: You haven't beaten me yet! I have my secret weapon!

He walked up to me and I was shocked at what he was about to do.

Dr. Hawlins: KALI MAAA! KALI MAAA! KALI MAAA!

He plunged his hand into my chest and ripped out my beating heart!

Dr. Hawlings: (holds my heart) I believe this is how you killed some of your enemies. Not so fun now that you're on the recieving end, is it?!

I laughed in sheer amusement.

Me: Nice try Dr. Hawlins!

My heart grew back and my chest closed.

Dr. Hawlins: But that's impossible! You should've died!

Me: I'm immortal and invincible! I can't die and my organs regenerate.

Brittney: Pay close attention. THIS is how you rip out someone's heart!

Brittney plunged her hand into Dr. Hawlins chest and ripped out his beating heart!

Mark Rowe: YEAH! Eat that you jackass!

With only seconds to live I gave Dr. Hawlins his final goodbye gift.

Me: Dr. Richard Hawlins, prepare to meet Kali, in Hell! BOOM!

My heart in Dr. Hawlins hand exploded with the power of a a 400 Kiloton Nuclear Blast!

KRABBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion completely obliterated Dr. Hawlins in an instant. There was nothing left on him.

I had everyone protected in a force field. Dr. Hawlins was then sent into the River of Fire for all eternity. We went back to Earth and we rescued Mark's aunt and we went back home after getting the treasure. The Treasure was a massive amount of gold, jewels and more and we had a bunch of Shrunken Heads as souvenirs. Nico also caught a Mienshao and Druddigon.

Mark: (To the viewers) Never mess with the laws of the Jungle or else you'll answer to me and Team Loud Phoenix Storm.

Me: You said it Mark. Well done today though.

Mark: Thanks J.D. It was awesome helping you.

Me: No problem.

Mark was inducted into the Goosebumps Monster Busters. Because Kareen helped us in the end, she redeemed herself and was made an honorary member of the Goosebumps Monster Busters and the Redemption Squad both. Carolyn was sentenced to 232 years in the Jupiter prison.

Later that night Laney decided to try and write a book. She found one in her bookshelf that wasn't there before.

Laney: I don't remember this book being here.

But she found an awesome story to write about. It was about an awesome magician. She got to writing and it was an awesome story.

By the lake I was relaxing when suddenly I saw a cute mouse with wings and it had swirly eyes.

Me: Oh you are a cute little guy.

I then sensed a Clow Card.

Me: I sense a Clow Card.

Suddenly I saw numerous creatures being created.

Me: Wow! These creatures are amazing.

Kero: This is the work of the Create Card.

Me: The Create Card? That sounds like an interesting one. What does that one do?

Kero: It comes in the form of a book. Someone writes it down and it becomes real.

Me: Does it come from that persons imagination?

Kero: No they get written in a story.

Me: Sounds like a kind of card perfect for an author.

Kero: Which would be fine if someone doesn't write to much. But somehow the Create Book has managed to connect up with someone who has a pretty fantastic imagination and isn't afraid to use it.

Me: I bet I know who it is. Laney.

I went into Laney's room and saw her writing in the Create Card.

Me: Laney. That book you have is a Clow Card.

Laney: Really? Which one is it?

Kero: It's the Create Card. It has the power to bring anything you write in it to life.

Me: But it works when it's written in a story. You have an amazing knack of Creativity.

Laney: I had no idea. But this is cool.

Me: Allow me. RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card appeared and it sucked in the Create Card and turned it back into a Clow Card. It was the Create Card. 創 The Create card's physical manifestation takes the form of a narrow book with a brown spine and dark orange front and back. A prominent green and brown star-shaped symbol with eight points fills the cover while a noticeably-smaller one is centered on the back. Create's composition is similar to an ordinary, Japanese book in that it is read and written from right-to-left and top-to-bottom.

Me: That was a neat catch.

Laney: That was cool though.

Kero: It sure was. You have an amazing imagination Laney.

Laney: Thanks Kero.

We then went to bed after.

Another Fanfiction Complete and another Goosebumps villain bites the dust.

How I Got My Shrunken Head was a strange story for the

Goosebumps books. But it was a cool one! I got the idea for Dr. Hawlins using that ritual on me from Indiana Jones and the Temple of Doom. That was such a cool scene. I figured it would be perfect for this one. NicoChan11 gave me the ideas for this one. Thanks man as usual. The Next card we're facing is the Dream Card and that one is gonna be interesting because of it's power over dreams. Let me know what you all think.

See you all next time.

# Magic of The Slumberland Dreams

In the early morning hours at 1:45 AM everyone was fast asleep. But the Transformers were wide awake. They were out on patrol looking for crimes to stop. But suddenly they saw Ed.

G1 Sideswipe: Is that Ed?

G1 Smokescreen: It sure is. I

G1 Sideswipe: Ed? What are you doing up?

Ed just ignored him and headed towards the McCallister's house.

He went inside the house through the window. He was sleepwalking.

G1 Sideswipe: He's sleepwalking! We have to tell everyone.

They went to get us.

I was fast asleep and then I got a call on my Omnitrix.

Me: Huh? (Answers) Hello?

G1 Sideswipe: J.D. It's Sideswipe.

Me: What's wrong Sideswipe?

G1 Sideswipe: You won't believe what's going on with Ed. He's sleepwalking. He's inside the McCallister's house and he's eating all their food.

Me: What!? We got to bring him back.

G1 Sideswipe: I'll tell Blitzwing and have him get everyone.

Me: Okay. Is he going as Edzilla?

G1 Sideswipe: Negative. He's just normal Ed.

Me: Well that's a relief. We'll get everyone and try to snap him out of it.

G1 Sideswipe: Copy that.

We went and got everyone up.

Blitzwing: Guys, you won't believe what Ed's doing right now!

G1 Sideswipe told them everything.

Eddy: Ed's sleepwalking again?

Edd: This has become a major problem.

We went to follow Ed. We saw him raiding the fridges of Mr. Grouse's house, The Hawkins and our friends and neighbors. But he was really fast moving and he was really having a ball. But when he was done he was back in his bed.

Eddy saw him and he laughed hard.

Me: Boy he really is like a blimp.

Blitzwing: Wow. I can't believe he ate all that food.

Nico: No kidding.

Lori: He literally must be bloated.

Edd: Ed has a major sleepwalking problem Lori. It's like this for him.

Eddy crawled onto him.

Eddy: He looks so natural. Oh Ed? Ed? (Shakes him awake) WAKE UP GOLDILOCKS!

(Donkey brays)

Ed: Hi guys.

Me: Geez Ed. You weren't kidding when you said you had a major sleepwalking problem.

Nico: Yeah you raided the fridges of our friends and neighbors.

Ed: I do feel really full.

Laney: You're more than full Ed. You look like an oversized overstuffed Thanksgiving Turkey.

Ed: Where did I go?

Me: We followed you all over the place and you raided all of the neighborhoods houses of their food.

Qin: I didn't know this happens to you Ed.

Eddy: It happened all the time to him when we lived in Peach Creek.

We told him which houses that he went to.

Lisa: Need I remind you all that it's 3:15 AM and we got 4 hours of our recommended 8 hours of sleep?

Me: Sorry Lisa. We're gonna have to keep an eye on Ed. I'll take first watch.

Ed: I'm sorry, guys.

Rex Salazar: Well, at least you did it as yourself and not Edzilla.

Me: That's true.

We went back to sleep and watched out for Ed. Luckily my ninja training paid off and Ed didn't sleepwalk again. Later the following morning we told everyone what happened.

Harold McBride: So Ed has a sleepwalking problem?

Me: Yeah. He can't help it for some reason Mr. Harold. He walks around all over the place and eats everything in sight.

Nico: He can't control it for some reason.

Robert Hawkins: It must be some kind of experience he had in his earlier days.

Nico: That could be the case Mr. Hawkins.

Cybertron Sideways (to Kate McCallister and Robert Hawkins): I'm extremely sorry about this. If you want, we can replace any food Ed might've eaten.

Kate McCallister: We can always get more.

Me: That won't be necessary.

I snapped my fingers and refilled all their fridges with fresh good food.

Me: There.

Horsea: Qin, is it true that you're Asian?

Qin: It sure is. I have Thailand, Vietnam and China in my blood.

Later the following night we were fast asleep. But Natilee was wide awake. She was deep in heavy thought and she pulled out a fancy key. It was a golden key with a dragon symbol. It was the Universal Dream Key. She had it wrapped around her neck like a necklace.

Natilee: I can't believe that the forbidden door was the door into Nightmare Land. Nemo. I'm glad you didn't get this key. Flip sure was a nuisance. But he was funny.

Also on Natilee's back was the Royal Scepter of Slumberland. It was given to her by King Morpheus when she was made the Guardian of Dreams.

Natilee: I have a major responsibility for all the dreams.

Laney came down.

Laney: Natilee?

Natilee saw Laney.

Laney: Are you in thought?

Natilee: Yeah. Just thinking. Laney I have to tell you something.

Laney: What is it?

Laney went over and sat beside her. She saw the key and the Scepter.

Laney: That's an interesting key and that's a Beautiful Scepter.

Natilee: Thanks Laney. It's the reason why I was made the Guardian of Dreams.

Laney: You never told me about that.

Natilee: It was a long time ago. Before we came here into the past. When I was a little girl, I was chosen by the King of the land of dreams, Slumberland. The name of the king was King Morpheus. He was the King of dreams. His big job is to protect the dreams. My friend Nemo was made the heir to the throne of Slumberland. It was a big day for him and it was a huge deal.

Laney: I never knew about that. What is this Scepter?

Natilee: This is the Royal Scepter of Slumberland. It's a powerful artifact. It was given to me when I was made the Guardian of Dreams. I was also given this key. It's a universal key that can open any door in Slumberland.

Laney: That's an interesting key. What's the dragon on it?

Natilee: That's part of the major responsibility that I was bestowed. There's one door that must NEVER be opened there under any circumstances. It's got this dragon symbol on it.

Laney: What's the door for?

Natilee: It's the door that leads into Nightmare Land. I have the biggest mission of them all as the Guardian of Dreams.

Laney: What's that?

Natilee: Destroy the Nightmare King. He's the ultimate dark lord of Nightmare Land. He's as bad as the devil himself and he is the ultimate personification of fear.

Laney: I would not like him.

Natilee: No one would. That's my biggest mission of them all. As the Guardian of Dreams I have to destroy the Nightmare King and end his reign of terror.

Laney: That's a huge burden and a major responsibility.

Then the scepter glowed.

Natilee: Uh oh.

She looked into the orb of the Scepter and she saw a horrifying sight! She saw King Morpheus being taken into Nightmare Land by a living black mass with glowing red flashes on it.

Natilee: (GASPS IN HORROR!) King Morpheus!

Laney: What happened?

Natilee went to the computer and pressed the Prime Omega Emegency Alert Button! The alarm sounded and she pulled out a microphone.

Natilee: ATTENTION ALL MEMBERS OF TEAM LOUD PHOENIX STORM, THIS IS NATILEE CECILIA KNUDSON ISSUING AN EMERGENCY CODE: DREAM INVASION ΘΖΣΩ! THIS IS NOT A DRILL! I REPEAT! THIS IS NOT A DRILL!

Everyone rushed down to the living room.

Me: What's wrong Natilee?

Lola: I was in the middle of my beauty sleep!

Natilee: Sorry guys but we have really big problems!

Natilee told us what was going on and we gasped in Sheer Horror.

Me: Natilee that's terrible!

Lana: I had no idea you were given a huge mission.

Lola: So that's how you know so much about the Dream World.

Lisa: Very interesting.

Lori: That is literally as big as Team Loud Phoenix Storm's responsibilities.

Natilee: That's right. My biggest mission of them all is to destroy the Nightmare King and end his reign of terror and bad dreams once and for all.

Natilee went through the history of the Nightmare King.

---

The origins and history of the Nightmare King are unknown, but he is apparently the embodiment of nightmares, he rules over Nightmare Land, a dark world which represents all the fear and darkness of the world's nightmares. At some point in the past, he was imprisoned beneath Slumberland by his enemy, King Morpheus, the king of Slumberland. He was locked behind a giant door which all residents of Slumberland were forbidden to open lest the evil king be set free again.

During the movie, Morpheus summons a young boy named Nemo to Slumberland to be his heir and playmate to his lonely daughter, Princess Camille. Nemo is a boy who suffers from constant nightmares and while his parents say the reason is because of his habit of sneaking pies late at night, it is strongly hinted several times that the Nightmare King may, in fact, be the one responsible for his endless nightmares.

When Nemo and his pet flying squirrel, Icarus are brought to Slumberland, the Nightmare King is released after Flip tempted Nemo into unlocking the door that Morpheus warned him not to open using a royal golden key. Nemo rushes back to Morpheus' palace in time for his coronation ceremony, where Nemo is handed the royal scepter, the only thing capable of defending Slumberland in the event of the Nightmare King's return. In the middle of a dance session between Morpheus and Professor Genius, the Nightmare King reaches the castle and steals Morpheus away. As the party goers search for a scapegoat, Flip and Nemo reveal each other to be responsible for the Nightmare King's escape.

Nemo awakens in his home, which floods with seawater and ejects him into the ocean. Genius discovers Nemo and tells him not to blame himself for all that has happened and that Flip is responsible. When the two return to Slumberland, Flip reveals that he has a map to Nightmare Land, where Morpheus is currently being held. Nemo, Icarus, Camille, Genius, and Flip set off in a tugboat in search of Morpheus.

They are soon sucked into a whirlpool and find themselves in the monster-infested Nightmare Land. The group comes across a group of shape-shifting goblins who wish to aid in the quest to find Morpheus. The Nightmare King sends a flock of giant bats creatures to seize the rescue party. Nemo attempts to use the scepter, but once again awakens back in his bed. The goblins appear in Nemo's room and the group travels together to the Nightmare Castle within the Nightmare Land by flying through a hole in the sky called the "Gate of Wind".

At his castle, the Nightmare King is informed that Nemo has been terminated, but his giant Manta Ray soon informs him that Nemo is in the castle with the scepter, enraged the Nightmare King absorbs his army due to their failure. He then sucks Nemo and his friends into his lair where he demands possession of the scepter. When Nemo fails to reply, the King reveals the Professor, Princess Camille, and Flip whom he has imprisoned in giant reliquaries and begins to taunt the boy. When even this fails, he tops it off by imprisoning King Morpheus in a reliquary of his own right before Nemo's eyes.

Nemo tries to save him but the Nightmare King has his giant sting ray try to kill him but Nemo soon destroys it with the scepter. He again asks Nemo to give him the scepter because, after all, Nemo cannot even remember the words necessary to use it. Nemo refuses and valiantly uses the scepter to fight off the Nightmare King by destroying his left hand. Now enraged, the Nightmare King tries to absorb Nemo and his friends and finish them for good. In a last desperate effort, Nemo just barely manages to say the full incantation to the scepter unleashing it's full power to destroy the

Nightmare King once and for all, albeit at the cost of his own life, ending his evil reign along with Nemo's own nightmares.

Shortly afterwards, all the Nightmare King's spells are lifted freeing everyone and Nemo is quickly revived by King Morpheus, who forgives Nemo for breaking his promise as his courage destroyed the Nightmare King and ended his evil reign. Sometime later, Slumberland celebrates the fall of the Nightmare Kingdom. After which Nemo returns home and once more awakens in his room, this time peacefully, now forever free from his endless nightmares due to the Nightmare King's destruction.

---

We were horrified.

Me: The Nightmare King is like the Devil Himself!

Nico: We have to stop him.

Vince: Natilee, we'll gladly help you out.

Natilee: Thanks guys. Here we go.

Natilee took the key and opened a portal and it was the door to Slumberland and we all went into the portal. We then came out and we saw that we were in SLUMBERLAND - The World of Dreams.

Natilee: Here we are guys. Slumberland.

Laney: It's beautiful!

Lola: It sure is.

Lana: This place is amazing!

Nico: I would love coming here for vacation someday.

Qin: Me too.

May: Same here.

Me: Wow.

Carol: It's so beautiful.

Vince: It sure is.

Carla: I would love coming here.

Lincoln: Me too.

We went to the palace and we went in.

Me: Wow! The palace is amazing.

Varie: It sure is.

Aylene C: It's amazing.

Rachel S.D.: It sure is a beautiful marvel.

Hunter: (German Accent) Ja. Und it's a magnificent marvel.

Eddy: So how're we gonna find Nemo?

Natilee: Follow me guys.

We followed Natilee and we were taking in the magnificent sights of the Slumberland Palace.

Me: Boy it's like we all went to Heaven.

Natilee: (Laughs) It does feel that way huh dad?

Linka: It sure does.

G1 Sideswipe: Wow. I would come here for some R&R.

Varie: We all would.

Me: Lets focus on the matter at hand.

We continued to follow Natilee and we saw King Nemo comforting Queen Camille who was crying over the loss of her father.

Natilee: Nemo, Princess?

They saw us.

Nemo: Natilee!

Camille: Natilee!

They went and hugged her.

Natilee: It's great to see you both again. I got word about what happened to King Morpheus. We won't let the Nightmare King get away with this.

Nemo: Wow! Team Loud Phoenix Storm!

Me: It's a pleasure to meet you Nemo.

Nemo: It's a pleasure to meet you guys.

Natilee: We want to help you all out and destroy the Nightmare King.

Camille: I'm glad.

Camille saw Natilee with the Golden Dragon key.

Camille: Where did you find the Golden Dragon Key?!

Natilee: It was given to me long ago for my birthday. Dad gave it to me.

Nemo: I see.

Iron Boy: Nemo, by any chance, have you seen a card anywhere?

Nemo: A card?

Natilee: It's a strange story. We're looking for the mystical Clow Cards. And I sense one here.

Then a Clow Card appeared. It was The Dream Card! 夢 She was a female humanoid with long, straight hair, dressed in a flowing caplet, cut in short points in front, with a tall, wide, elaborate headdress that obscures its eyes.

Me: It's the Dream Card.

Natilee: The Dream Card.

Dream Card: Yes Natilee. I am the one that let you know that King Morpheus was in danger. My dream powers helped tell you.

Natilee: I'm glad you did. Thank you. We need to go into Nightmare Land and destroy the Nightmare King once and for all. He has terrorized the realm of dreams for far too long.

Dream Card: I understand.

Camille: I want to come too.

Nemo: Count us in Natilee.

Natilee: Lets do it!

The Dream Card opened up the portal into Nightmare Land and we were off. We went into the portal and we had arrived into NIGHTMARE LAND - WORLD OF FEAR!

We were riding our horses across the land and it looked like a world straight from the darkness of Hell in its entirety. The sky was dark and filled with darkness and despair and the mountains were sharp and scary and the sea was made of living black water that represented all of the darkness and fear of everyone.

Me: Nightmare Land.

Laney: This place is horrifying!

Lana: It's really scary.

Natilee: This place is the source of all the nightmares in the world.

We saw up ahead a massive mountain. We saw the lair of the Nightmare King:

**NIGHTMARE CASTLE - SUPREME PINNACLE OF ULTIMATE FEAR!**

It looked like a true castle from the darkness of Hell itself and it was a mountainous castle. It looked like a super tall mountain surrounded by large sharp pointed rocks and the level of pure evil coming off of it was incredible. It was a true castle of pure ultimate evil.

Me: Nightmare Castle!

Natilee: The Home of the Nightmare King!

Lincoln: It looks like a true castle of pure evil.

Nemo: It sure is scary.

Lola: It looks like a castle that the Devil Himself would live in.

Me: That's exactly what I was thinking.

Natilee: It's protected by a force field. We need to go inside by going under it.

Me: Okay. Lead the way.

Natilee took us under the castle and we were in a cave and we were sucked into the castle through the gate of winds and we were right inside the castle.

Me: We're inside the castle.

Natilee: This place is really dark.

Lana: Where's the Nightmare King?

Natilee: He's here. I can feel it. NIGHTMARE KING! COME OUT AND FACE US!

Then a black figure came out and it had black horns, razor sharp teeth, glowing piercing red eyes, black cloak and razor sharp claws! It was the Ultimate Personification of Fear itself:

**THE NIGHTMARE KING - SUPREME RULER OF ULTIMATE FEAR!**

Nightmare King: So you've all come. Natilee Knudson, Nemo, Princess Camille and Team Loud Phoenix Storm.

Natilee: That's right! We've come to make sure you never terrorize another soul ever again!

Me: Your terror will end right now!

Nemo: That's right! Let King Morpheus go!

Laney: Yeah!

Nightmare King: If you want him then come and get him! (LAUGHS MANIACALLY)

Me: Lets power up and take him down!

We transformed and powered up!

Edzilla (punches Nightmare King): ED SMASH DEMON!

I punched the Nightmare King in the face and knocked out a tooth and Laney fired a powerful barrage of poisonous barbs and blew off some of his teeth and Lola, Sam S.L. and Nico fired a massive blast of fire and burned him! Lincoln and Linka fired a massive blast of lightning and electrocuted him.

We fired numerous energy blasts and more and they all hit him and exploded with incredible power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

We let loose all hell on the Nightmare King and fired a powerful assault of energy blasts and more and we were really going to make sure that he pays for causing centuries of fear and bad dreams and more.

Nico: Nightmare King, you have failed this world and the universe!

Me: Time for some teamwork!

Cybertron Sideways: You got it boss! CYBER KEY POWER!

The Planet X Cyber Planet Key went into his blade shield and blades popped out.

Blitzwing: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into Blitzwing's back and it enhanced his speed and his heat-seeking concussion missiles 100-fold.

Cybertron Sideways and Blitzwing: HYPERSONIC HEAT-SEEKING SLASH BURST!

Cybertron Sideways slashed the Nightmare King with incredible speed and fury and Blitzwing flew in at 10,000 miles per hour and he fired numerous missiles and they hit where Cybertron Sideways slashed him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

G1 Sideswipe: Lets do this! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his pile driver arms 100-fold.

Rex Salazar: Time to bring the pain! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Rex's right arm device and it enhanced his E.V.O. abilities 100-fold.

G1 Sideswipe and Rex Salazar: OMEGA FUNCHUCK PULVERIZER!

Rex Salazar and G1 Sideswipe got onto the Nightmare King's head and pulverized him with a massive and devastating barrage of powerful punches!

Nemo: Lets use the power of Final Smashes Camille!

Camille: Okay!

Nemo: Ladies first.

Camille: You are too kind. SLUMBERLAND DREAMBEAM BURST!

Princess Camille fired a massive blast of green energy and it slammed into the Nightmare King and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Nemo: My turn! TRAINSLAM SURPRISE STRIKE!

Nemo summoned a massive train and it slammed into the Nightmare King and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Natilee: You will never be welcome in the world of dreams again Nightmare King!

Natilee went Super Angel 10,000 Night Dream and she pulled out the Scepter and pointed the orb at the nightmare king and began to chant the Incantation.

Natilee: (CHANTS INCANTATION)

**JAZAMA PAJAMA, PAJAMA JAZAMA**

**SHIMERA-KAZAM, KIMERA-KAZAM IMERATAZAM**

**PAJA-PAJAP SHAZAMA, SHAZAMA-PAJAMA**

**PAJAMA!**

The Scepter orb fired a massive blast of super powerful energy and it hit the Nightmare King and went all the way through his black heart! It killed him in an instant and it made him explode! All of Nightmare Land felt his destruction and the castle exploded with unbelievable power!

***KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

When the smoke cleared, The Nightmare King was defeated and his reign of terror and his evil kingdom was destroyed for good.

King Morpheus was free and we saw him.

Natilee: King Morpheus, your majesty. We're so glad you're all right.

King Morpheus: Thanks to you Natilee. You and all of your friends and family saved me and all of us.

Me: It was our pleasure your majesty. We all did it together to save you and all of Slumberland.

Natilee: I have completed my mission your majesty. But I couldn't have done it without the help of my friends and my family.

King Morpheus: You sure did Natilee. I'm so proud of you. Nemo, Camille you did a great job.

Princess Camille: Thanks father.

Nemo: It was amazing your majesty.

We went back to Slumberland and we were rewarded medals for our heroism in saving King Morpheus and it was a grand time.

Nemo: (To the viewers) Dreams are a magnificent world of endless possibilities and in a dream you can achieve great things and do many things.

Me: You got that right.

We decided to spend some time in Slumberland for a while. When we got back home, Nico caught a Bisharp and a Golurk. The Dream Card turned back into a Clow Card and recognized me as its master and I signed my name on it. It was a magnificent time in the world of dreams. But Natilee's job as the Guardian of Dreams in never finished. She has a long journey ahead of her.

Another Fanfiction Complete and a Nightmarish Villain destroyed.

Little Nemo: Adventures in Slumberland was an awesome movie I know from back when I was a kid. It was so cool! It was made back in 1989 and it was an awesome movie! It was a box office bomb because of no to low audience attendance. A Lot of stars were in this movie. The movie was made over in Japan and it was made here in America as well.

Gabriel Damon (Takuma Gōno in the Japanese adaptation) as Nemo: He is a human boy living in New York City who is taken to Slumberland to be the official playmate of Princess Camille; in actuality, however, he is being summoned to be the heir to the elderly King Morpheus. He is given the key to Slumberland, but is warned by the king to leave a door with a coiled dragon emblazoned on it closed. Sadly, he opens the aforementioned door when he is tempted by Flip and goes on a quest to restore Slumberland to its rightful glory, save King Morpheus and defeat the Nightmare King.

Mickey Rooney (Chikao Ōtsuka in the Japanese adaptation) as Flip: He is described as a "frightful fellow" by Professor Genius, he is wanted throughout Slumberland for "having fun" (the bounty on his head is a sizeable one) and his only friend is his partner-in-crime: a bird named Flap. He tricks Nemo into accidentally releasing the Nightmare King and blames Nemo for the ruin of Slumberland. He is in possession of a map of Nightmare Land (hand-drawn and written in his own special code) and serves as the guide to the Nightmare Castle until he is replaced by the Boomps. He has a serious smoking addiction. In the real world, he is a clown in a circus that stops in Nemo's town.

René Auberjonois (Kōichi Kitamura in the Japanese adaptation) as Professor Genius: King Morpheus' advisor. He comes to the real world to bring Nemo to Slumberland. As a sophisticated man, he is quite punctual and prefers order as opposed to madness. He is quite a dancer, as he dances quite a bit during Nemo's coronation ceremony. In the real world, he is an organ player in a circus that stops in Nemo's town.

Danny Mann as Icarus: a flying squirrel, Nemo's best friend and a supporting protagonist. Icarus is Nemo's only friend from the real world. He shows great concern for Nemo's wellbeing in a sense similar to that of two siblings. He speaks a mix of both squirrel and some English. His screech is painful to the ears of the Boomps. He detests being called a "little rat" (which Princess Camille mistakes him for). Unlike other squirrels, Icarus eats human food, like cookies. His initial relationship with Princess Camille, though rough, eventually changes for the better.

Bernard Erhard (Kenji Utsumi in the Japanese adaptation) as King Morpheus: the elderly sovereign of Slumberland. He has protected Slumberland for years with the help of the royal scepter: an ancient weapon of great power. Though he is a child at heart, he knows when to be serious. He has Nemo brought to Slumberland so that he may become his heir to the throne. He gives Nemo the key to Slumberland, which can open any door; however, he warns Nemo of one door with a dragon symbol emblazoned on it that must never be opened. Like Professor Genius, he is quite a dancer, as he dances alongside the Professor during Nemo's coronation ceremony. When Nemo accidentally releases the Nightmare King, King Morpheus is captured and Nemo has to go and rescue him from Nightmare Land. In the real world, he is the ringmaster of a circus that stops in Nemo's town.

Bill Martin (Tarō Ishida in the Japanese adaptation) as the Nightmare King: He is a demonic creature who was locked behind a massive door until he was accidentally set free by Nemo, who was given the key to the door by King Morpheus. Once free, he captures King Morpheus as revenge for his imprisonment and then retreats to the Nightmare Castle in Nightmare Land. When Nemo goes to Nightmare Land to save King Morpheus, the Nightmare King has his minions capture Nemo's friends (Professor Genius, Flip and Princess Camille). He is shown to be quite temperamental, as he destroys several minions for the failure of just one of his underlings (the general of his army). The only thing that can vanquish him is the legendary royal scepter.

Laura Mooney (Hiroko Kasahara in the Japanese adaptation) as Princess Camille: the daughter of King Morpheus. Though she initially acts somewhat spoiled, she eventually grows to like Nemo. She also grows fond of Icarus (and vice versa, despite a rough start). When her father is kidnapped by the Nightmare King, she takes over as sovereign but decides to join Nemo in his quest to save King Morpheus. In the real world, she is the daughter of the ringmaster of a circus that stops in Nemo's town.

Greg Burson (Tesshō Genda in the Japanese adaptation) as Nemo's father and Flap

Jennifer Darling (Mari Yokō in the Japanese adaptation) as Nemo's mother

Neil Ross (Hiroshi Ōtake in the Japanese adaptation) as Oompa

Alan Oppenheimer (Keiichi Nanba in the Japanese adaptation) as Oomp

John Stephenson (Masaharu Satō in the Japanese adaptation) as Oompo and the Dirigible Captain

Sidney Miller (Kōzō Shioya in the Japanese adaptation) as Oompe

Michael Bell (Hiroko Emori in the Japanese adaptation) as Oompy

Kathleen Freeman (Kimie Nakajima in the Japanese adaptation) as the dance teacher

# Food Animal Island

In the bathroom, Sydney was washing her face before she looked into the mirror.

Sydney: Okay, Quarry, we need to have a talk. (no response) Quarry, we need to talk, now.

Sydney closed her eyes and when she opened them, she stared into the mirror. Rather than seeing her own reflection, he saw Quarry staring back at her.

Quarry (bitterly): What do you want?

Sydney: Our last conversation was pleasant. What changed?

Quarry: I only told you about my species because it was required. But it seems you don't need me anymore. Not like you ever did ever since you got your humanity back.

Sydney: That's one of the things we need to talk about.

Quarry (angrily): There's nothing to talk about! I've been trapped inside you for months since Donatello gave you the cure. And it's all because you hate me!

Sydney (honestly): I don't hate you. (Quarry's surprised) I never hated you. Not even when the Shredder mutated me into you, costing me my humanity until I got cured. No, I hated that I couldn't control myself sometimes when I transformed into you, that I didn't know what you'd do if I surrendered my human mind to you, if you would hurt anyone. This whole time, I've been treating you like the disease, but… you're a part of me. Maybe you're not the disease, but the cure.

Quarry: Are you saying that we shouldn't fight each other anymore?

Sydney: We don't have to. We can work together, help our friends fight bad guys. We can do this together, if we try.

Quarry then agreed to work together with Sydney and that she would turn into him when needed. Now she has the power to turn into him at will. She told us what happened and we were amazed.

Nico: So you can now turn into Quarry at will? That's awesome!

Gears (to Sydney): You can still use that sword of yours, right?

Sydney: I sure can.

Qin: Hey J.D. I heard you guys went and saw the 2017 Solar Eclipse.

Me: We sure did Qin. That was a really unforgettable time.

Nico: That eclipse was amazing. I saw it on TV and it was amazing.

Me: Yeah we saw it in Nebraska and it was amazing seeing the night sky in the day. That's where I got to sing my favorite song The Night Begins to Shine.

Qin: That's one of my favorite songs!

Nico: Mine too.

May: I heard about you all going to see the Eclipse. That was so awesome!

Lincoln: That was an amazing day for us.

Laney: It was so cool seeing a Total Solar Eclipse.

Lana: Yeah.

Lola: It was amazing.

Lily: Yeah.

Later at lunchtime I was in deep thought. I was thinking about what would've happened to Swallow Falls had it had all that food on it and more.

Me: Hmm. I wonder.

Nico: What is it?

I told everyone what I was thinking.

Lori: There's literally no way that's possible.

Lisa: Our firstborn eldest sister is right. There is absolutely no way possible that could happen.

Me: Not in real life. But in the simulator it can. Lets go see.

We went to the simulator.

---

In the simulator we got ready. Flint Lockwood, Sam Sparks, Manny, Officer Devereaux, Brent, Steve and Cal were with us. The Simulator activated and we found ourselves on a huge pie rock and what we saw next was absolutely astonishing beyond all forms of words! We saw the Island of Swallow Falls completely changed beyond all forms of recognition! It was now an island completely transmogrified into an island completely covered in environments of food! All food!

Me: Wow!

Lori: What happened to Swallow Falls!?

Nico: This is completely unbelievable!

Vince: This is amazing! It's completely different from what happened when we were here the last time!

Carol: No kidding.

Qin: What did you all come here for the first time?

Me: We got word of the people only having to eat Sardines and they were starving. So we set out to help them out and give them more food. We met Flint and he was doing everything that he could to help the town.

Qin: So everyone here was forced to eat only sardines?

Me: Yeah. The reason for that is because its sardine cannery closed its doors forever.

Lori: Because everyone in the world literally realized that sardines are super gross.

Me: Even though they are supposed to be good for your heart and help lower cholesterol. But Sardines taste like puke. The people were starving and we had to help them out.

Flint Lockwood: Yeah. So I invented a special machine that turns water into food.

Me: It's a very genius device.

Flint pulled out the blueprints for it and Qin looked them over.

Qin: The Flint Lockwood Diatonic Super Mutating Dynamic Food Replicator? Very interesting.

Me: He came up with these kooky short names for his inventions. But we helped him shorten it. We called it the Flint Lockwood Fooderizer.

Qin: That helps. How does it work?

Me: It takes a lot of water and uses microwave radiation to transform water molecules into any food.

Qin: Wow! That's really complex but really amazing!

Stacy: I've studied a lot about particle physics and that is really interesting.

Me: Lets explore this island and see what is going on.

We walked into the jungle and what we saw was incredible. The jungles went on for miles. Then we saw what looked like Cheese Spiderwebbing.

Me: Spiderwebs made of pure cheese.

Laney: That is so unusual.

Flint Lockwood: It sure is weird.

I took a chunk of it and it was on my finger. I licked it off.

Me: American Cheese. This is fresh too. Whatever made it was here less then an hour ago.

Lana: This is cool thought.

We saw an abandoned station and it was cut off by the cheese.

Me: Lets see what's in here.

I chopped the cheese and it just farted!?

FART!

Lola: Uch! Lori!

Lori: That was my shoe!

Me: Uh that was actually the cheese.

Luan: That's one way to Cut The Cheese! (Laughs) Get it?

Most of us laughed while everyone else sighed.

We went in and we saw a lot of boxes and more. Flint picked one up and opened it and inside it was a mondo strawberry as big as my head.

Me: Wow! That's a huge strawberry!

Sam Sparks: That is the biggest strawberry I've ever seen.

Nico: That is a huge one.

Qin: It sure looks big and juicy.

Then it had eyes open and it had a mouth. It was so cute!

Strawberry: Nwoo.

We were shocked.

Me: It's alive!

Flint Lockwood: It's really amazing!

Me: This is like what happened with the Sentient Food we faced.

Flint Lockwood: Exactly what I was thinking.

Me: Yeah.

Sam Sparks: Aw you are so cute! We'll call you Berry.

He liked that name.

Me: Lets see if there's anymore in here.

We looked and opened up more boxes and in them were living blueberries, raspberries and cherries.

Me: Lots of living fruit. Lets keep looking.

We walked around the island some more and then we came upon an unbelievable and magnificent sight! In a lake we saw all kinds of Food Animals! We saw Mangos that acted like Flamingos, Potatoes that acted like Hippopotamuses, Kiwi Fruits that acted like Kiwi Birds, Bananas that acted like Ostriches, Eggplants that acted like Manatees, Cantaloupes that acted like Antelopes, Green Onions that acted like horses and so much more! We were gasping all in sheer absolute astonishment!

Lincoln: This is absolutely unbelievable!

Laney: The creatures here are food acting like animals!

Lana: This is incredible!

Lisa: This is a magnificent scientific wonder that defies the laws of nature and physics!

Me: Flint this is amazing! I can't believe your machine did all this!

Flint Lockwood: It's amazing! I can't believe all this is possible!

Nico: This is incredible! It's hard to imagine that all this was made by Flint's machine!

Qin: No kidding!

Reflector: I didn't know that there were foods that looked and acted like animals. Or is it the other way around?

Me: I think this is incredible! Lets go check it out.

We walked onto the water and we saw more Food Animals. We saw fruit cocktails that looked like Cockatiel Birds, We saw Shrimp acting like Chimpanzees swinging through some vines, we saw some Peanut Butter and Jelly Sandwiches that act like jellyfish in the water, we saw Beets that acted like Wildebeests, we saw Meatloafs that acted like buffalos, and we saw watermelons that acted like Elephants, we saw Sushi that acts like Sheep, Meatballs that acted like Walruses, Lemons that act like Lemmings and more.

Lynn: This is amazing! I can't believe Swallow Falls was made into all this!

Luan: It sure is Food-Tastic. (Laughs to rimshot) Get it?

We all laughed.

Eddy: (Laughs) Good one.

Naruto: That was funny. I hope there's a ramen food animal.

Me: That would be cool bro. But hey that gives me an idea. We'll call these creatures Foodimals.

Sakura: That works perfectly.

Sakura Avalon: I think it's a great name.

Flint Lockwood: (Screams) THERE'S A LEEK IN YOUR SHOE LUAN!

We saw a Leek on Luan's shoe and we laughed as it screamed.

Me: Oh that is so funny!

Nico: Flint that is a good joke!

We then saw a waterfall up ahead and we went down it and we saw a large coconut and in it was a lake of Coconut Milk.

Me: It's a lake of Coconut Milk.

Lori: And we're literally inside a giant coconut!

Leni: Coconuts are totes supposed to be very good for you.

Me: That's what they say Leni.

We went down a waterfall of Coconut Milk and down a river and rapids made of giant tropical fruit and we landed in another lake.

Me: That was a rush. But that was awesome!

Vince: It sure was.

We decided to come up with names for the creatures. I made a list of them.

After getting to land we encountered CHESTER V!

---

Chester V's origins are quite unknown, but in his early years, he made his first invention known as the food bar, and then began to invent and founded Live Corp. A world renowned scientist (very clearly a parody of the late Steve Jobs), apparent super-inventor, and the CEO of Live Corp, Chester invented various items, such as Live Corp's ever so popular food bars, his assistant: Barb, and presumably; his own holograms programmed to travel and run errands where the real Chester couldn't go.

However, he was extremely greedy, malicious and acquisitive, as he eventually went insane trying to expand his company's popularity, calling it "the coolest, hippest factory in the world". Around some point, his orange facial hair went white and he began to wore a Live Corp vest instead of a lab coat. He also discovered Flint's latest, "destroyed" FLDSMDFR, and tracked down the invention; discovering that the FLDSMDFR survived the explosion.

Immediately, Chester sent one of his holograms and Live Corp members to the food covered Swallow Falls in search of the machine, which Chester wanted in order of improving his latest food bar: the Live Corp Food Bar 8.0.

He relocated Flint, his friends, and the citizens of Swallow Falls to San Franjose, California. Unbeknownst to Flint, the FLDSMDFR survived the explosion and landed in the center of the island, and Chester was determined to find it.

Chester invited Flint, his biggest fan, to work at Live Corp, where he meets Chester's assistant Barb, a talking orangutan with a human brain. Meanwhile, Chester was informed that his search-parties on the island were been attacked by monstrous cheeseburgers which were learning how to swim.

Fearing the world's inevitable doom, Chester tasks Flint to find the FLDSMDFR and destroy it once and for all. Despite Chester's demands to keep the mission classified, Flint recruits his girlfriend and meteorologist Sam Sparks, her cameraman Manny, police officer Earl Devereaux, and "Chicken" Brent. Much to Flint's dismay, his father Tim joins the crew and they travel to Swallow Falls on his fishing boat.

Later, Chester discovers that Flint allowed his friends to join on the mission and arrives on the island with Barb, chagrined and determined to separate them. After escaping a Tacodile attack, Sam notices that the foodimal was protecting its family, and begins to suspect Chester is up to no good. Sam attempts to convince Flint to spare the Foodimals, but Flint is intent on making Chester proud. Sam leaves in anger, along with the others (including his pet monkey named Steve). In the jungle, Sam proves that the Foodimals mean no harm by taming a Cheespider. Upon realizing Chester's intentions, the group is taken hostage by Live Corp employees.

Flint finds the FLDSMDFR, but notices a family of cute marshmallows and becomes hesitant to destroy the machine. Chester immediately seizes control of the FLDSMDFR and announces his plot to make his updated line of food bars out of the Foodimals. A crushed Flint is knocked into the river but rescued by the marshmallows. Flint is taken to his father, who along with the Foodimals, help him infiltrate the Live Corp building that is under construction on the island. Flint frees the trapped Foodimals and confronts Chester, who threatens to make food bars out of his friends who are wrapped by police tape.

Chester makes several holograms of himself to overwhelm Flint, but Flint uses the "Party-In-A-Box" to expose the real Chester. An army of Foodimals arrive and Flint's friends are freed by Barb, having a change of heart.

Chester is catapulted into the Live Corp Food Bar 8.0 Maker. His limbs and his head retract into his vest right before he hits the bottom of the grinder. He ricochets erratically between the blades of the machine before he is sling-shot out of the machine. However, as he attempts to escape, he is immediately grabbed by the Cheespider's special sauce web and into the mouth of the Cheespider. The Cheespider spits out Chester V's vest. After a suspenseful moment, it deflates, revealing that Chester V had been eaten alive and killed as well by the Cheespider.

---

Chester V: Greetings Team Loud Phoenix Storm.

Flint Lockwood: (GIDDY) CHESTER V?

Me: Who is he Flint?

Flink Lockwood: Only the Greatest Scientific Mind in the world next to my favorite scientist! He is the founder of Live Corp!

Me: Wow!

Chester V: That's right and it's a pleasure to meet all of you. We have a terrible problem. The Food Animals here are very dangerous.

Me: Why do you say that?

Chester V: They want to swim across the land so they can reek havoc across the land.

I was beginning to have suspicions about him.

Me: Can you excuse us for a minute?

Chester V: Certainly.

We went into the forest to discuss things in private.

Me: (Whispering) I'm beginning to have really big and bad suspicions about this guy.

Laney: (Whispering) I feel it too. Something is terribly wrong.

Lana: (Whispering) Why is Chester V here?

Me: He's up to something and we really need to find out what it is.

Miranda: (Whispering) Yeah.

Nico: (Whispering) We'll have to play along until the time comes.

Me: Good idea.

We came back out and we went with Chester to get rid of the machine.

We followed Chester.

William: It's odd, really. Chester said that the Foodimals were dangerous. But they look pretty harmless to me.

Maria: I sensed they were good as well. In fact, the only reason they even attacked us was when they saw Chester and his assistants with us.

Chester: Hey there, you two!

William and Maria turned to see Chester there.

Chester: Enjoying the scenery.

Maria: (dryly) Yeah. Pretty much.

Chester: (sighs) Look, I know you're concerned about the Foodimals. But they're mindless beasts. And you two of all people should understand the importance of making the hard choices to protect humanity.

William: (scowls) You just worry about yourself. We're gonna be keeping a very close eye on you.

Chester: (frowns) Maybe this is something you two want to take up with me personally.

Flint: (sees the three of them) Hey, guys. Hurry or we'll leave you three behind!

Chester: (smiles) Coming, Flint!

They caught up to them and we continued on. We trekked through the Breakfast Bog and we saw a massive swamp with trees made of bacon and pancake stacks. We saw Toads made of butter and Toast that acts like mosquitoes and more. The water was maple syrup and it was sweet and tasty. We got to the Foodimal Jungle and it was amazing. Miranda then got separated and she wound up in a savanna and she saw a bunch of robot suits with Foodimals being loaded up.

Miranda: Oh no!

Miranda then spread big bat wings and flew at the minions and punched and kicked them and slashed them and she blasted them with energy beams and blew them apart. She also kicked them around and knocked them down. But then a minion came up to her.

Live Corp woman: End of the line, kid!

The Live Corp goons were about to fire but suddenly, some blaster fire knocked them back. A figure jumped down. She saw that it was JACK SPICER!

Miranda (smiles): Jack!

But Jack Spicer looked a little different. He had goggles that glowed red and a blaster that was red colored.

Jack Spicer (smiles at Miranda): How's my favorite student?

Miranda: Good. I have lots to tell you.

Jack Spicer: That can wait until after these screwballs are dead!

They blasted and destroyed them all and freed the Foodimals.

Miranda: Thanks Jack.

Jack: No problem Miranda.

Miranda: C'mon! J.D. and the others are probably at Chester's hideout by now.

Jack: You go. I'm not ready to speak to the Xiaolin losers yet. I still have a lot of bad feelings towards them.

Miranda (sighs): Look, I know that you guys haven't been on good terms lately. But eventually, you have to face them sooner or later.

Jack: I know. I plan to settle our issues eventually. But it'll be in the future. For now, just keep me saving you a secret, ok?

Miranda: Alright.

Jack: Miranda, Chester V is up to serious no good here. He's planning to kill all the Foodimals here by chopping them up for his new food bars and he also is planning to kill anyone that will tell everyone.

Miranda gasped in sheer horror!

Miranda: I knew he was up to no good here.

Jack: I know. You'll need this.

Jack gave Miranda the Star Hanabi and the Sword of Lucida.

Jack: You'll need these to help you.

Miranda: Thank you. Good luck, Jack. (runs to find us)

Jack flew off too.

Later Miranda caught up to us.

Teresa: Miranda! You ok?

Miranda: I'm fine. I had a run in with some of Chester's minions.

Maria: Did you kill them?

Miranda (remembering her promise to Jack): Was there really any doubt? J.D. I need to tell you all in private.

Me: Okay Miranda.

Miranda then told us what Chester is planning in private and we were horrified.

Me: I knew something was evil about him. This is all for his own greed.

Miranda: That's what I'm thinking too.

Me: Good work Miranda. Lets play along with him until the time is right.

Laney: Right.

We continued on and we were at the main heart of the island: The Big Rock Candy Mountain. It was a mountain made entirely out of rock candy crystals and the machine was the source of the creation of the foodimals.

Me: Wow!

Lori: This is literally amazing.

Varie: This is incredible!

We saw the machine. It was the heart of the whole island.

Laney: The machine.

Flint: It's the genesis chamber of all the Foodimals!

Sam Sparks: This is amazing!

Brent: It sure is.

But then we saw Chester went for the machine and I kicked him in the face and sent him crashing into a rock candy wall. He got up.

Chester: What are you all doing!?

Me: Don't play dumb with us you crook!

Varie: We knew what you were trying to do here.

Laney: You were gonna kill all the Foodimals here to turn them into your newest food bars and kill anyone that finds out about it!

Ash (his Tauros snarls): I knew something was off about you. I just didn't know how off!

Me: We won't let you do this Chester! Now you will send you to prison for your crimes!

Chester: How did you find out!?

Miranda: I did and I told them!

Flint Lockwood: We were onto your plan the whole time Chester!

Sam Sparks: That's right.

Me: You are all washed up Chester!

Chester: You will never take me alive!

He ran fast!

Me: After him!

We flew after him!

He was running fast. Laney and Lana did animal calls and all the foodimals followed us. We found his hideout in the forest and he went into it and closed the door.

But we busted down the door and we were ready to fight him! All the foodimals were ready to face him as well.

Officer Devereaux was being carried by a bunch of Fruit Cockatiels

Officer Devereaux: If anyone is gonna be protecting the law in this town it's gonna be me!

Brent came on a Man-Eating Chicken.

Brent: Ba-gawk-oh!

Manny came on a Tacodile Supreme!

Manny: Tacodile Supreme!

The Tacodile roared ferociously.

Cal came on a Cheespider.

Cal: You're finished Chester!

Me: And not even your holograms can save you. Lets get him!

We went at Chester and I punched him in the face and knocked out some of his teeth!

Flint chopped him in the face and Sam Sparks kicked him where the sun doesn't shine!

CRUNCH!

We winced.

We punched him ferociously.

Manny punched him in the face and kicked him in the stomach.

Brent and the Man-Eating Chicken punched him and kicked him and Officer Devereaux kicked him.

Cal bit him in the crotch and Chester screamed in excruciating pain after there was an extremely sickening crunch!

Me: (Winces) OOOHH!

Lori: That's literally gonna leave a mark!

The foodimals all pulverized Chester and ferociously ripped into him.

Nico: Chester V, you have failed this world!

Me: And then some!

?: I'm inclined to agree.

We turned and we saw a Clow Card! It was the Erase Card! 消 Erase appears in a harlequin-esque design. Her hair is pointed and short with a diamond under her left eye. She wears checkered tights with a ruffled collar under which is a circular gem. She also has a similarly-patterned hat which ends in two points. Balls dangle from her hat, sleeves and the cloth she carries with her.

Me: The Erase Card!

Sakura Avalon: Be careful about this one. It has the power to erase anything from existance and even erase memories.

Me: Wow! That's a deadly power.

Erase Card: I may have a malicious personality but what Chester does is where I draw the line!

The Erase Card used her powers to erase the whole ship.

Me: Thanks for helping us.

Erase Card: No problem J.D.

The Erase Card turned back into a Clow Card and went into my hands.

I signed it.

Sydney: J.D. can you hold onto my Trench Coat?

Me: Sure Sydney.

She took it off and gave it to me.

Sydney then transformed into Quarry! Her changed happened so fast that it was impossible to see what's happening to her. She turned into QUARRY! She slashed at Chester and burned his vest off with acid.

Me: Lets show him some team work!

Teresa: Right! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Teresa's right arm and it enhanced her sonic blasters power 100-fold.

Reflector: Lets show him what happens when you mess with the laws of life! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his flash explosion powers 100-fold to the point where it permanently blinds the target.

Teresa and Reflector: SUPERSONIC VERTIGO FLASH!

Teresa fired a powerful sonic blast and Reflector fired a massive flash explosion that hit Chest in the eyes and burned them out of his sockets. He was now permanently blind.

Gears: Time for some action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his power and strength 100-fold.

Ash: Lets get him! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Ash's right arm device and it enhanced his Tauros's abilities 100-fold.

Ash: Tauros, use Giga Impact!

Gears and Ash: SUPER STRENGTH HEADBUTT RAM!

Gears and Tauros rammed Chester with devastating force and slammed him into a tree.

Me: Final Smash time!

Sam Sparks: You got it J.D.! JELLO PRISON BOUNCE!

Sam Sparks fired a powerful yellow ray blast and it hit Chester and imprisoned him in a mold of gelatin.

Me: Now he knows how the Loud Siblings felt.

Lincoln: He sure is getting Jiggly with it. (Laughs to rimshot)

We all laughed.

Luan: (Laughs) Good one Linc!

Eddy: (Laughs) That was funny!

Lensay: You tell him uncle Lincoln!

Me: That was a good one buddy.

Flint Lockwood: Time for some food spirit power. FOODIMAL SPIRIT STRIKE!

Flint Lockwood fired energy waves in the forms of all the Foodimals and they slammed into Chester and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM

Berry: My turn!

Ben: Go get him, Berry!

Berry: Lets do this! STRAWBERRY JAM BOMBS!

Berry fired a massive barrage of Strawberry Jam bombs and they hit Chester and got him sticky in a massive explosion of jam.

Me: It's over for you Chester!

Chester: I am not beaten yet! I will be back and I will make you all suffer!

He ran fast and then a cheese web caught him and the Cheespider ate him.

Tommy Oliver: Eaten by food. That's ironic.

Me: It sure is.

But the Cheespider spit him out because he tasted awful.

I slapped the cuffs on him as he was covered in cheese.

Me: You're going to prison for a long, long time Chester.

Quarry then turned back to Sydney and she was naked. But Maria gave her a spare set of clothes.

We beamed the entire island to Lake Huron and made the Transformed Swallow Falls a new Nature Preserve for Foodimals. It was also one of the most popular parks ever. Chester was sentenced to 40 terms of Life Without Parole in the Enceladus Prison for Mad Scientists. Nico caught a Braviary and a Bouffalant.

Flint Lockwood: (to the Viewers) Never mess with the rights of having all animals live. Especially if those animals are made of food.

Me: You got that right Flint.

We enjoyed the rest of the day.

THE END

Another Fanfiction complete and another villainous scientist brought to justice.

Cloudy With A Chance of Meatballs 2 from 2012 was a funny one! I loved how they made all kinds of awesome Food Animals and it was so awesome! 2 years ago today I saw the 2017 Solar Eclipse with my friends and it was an amazing experience. NicoChan11 gave me the ideas for this one. Thanks man as usual. The next Clow Card is the Mist Card. Let me know what you all think.

See you all next time.

# An Evil Medieval Executioner

In Maria's room, Horsea was writing in her diary and she was writing down the fun times we've been having and more.

Carmen: What'cha doing, Horsea?

Horsea: Writing in my diary.

Carmen: Writing more fun times down?

Horsea: Yep.

Horsea saw that Carmen's hair was now red, orange and yellow.

Horsea: Carmen wow! You dyed your hair.

Carmen: I sure did. Thank you for noticing. I went with fire colors and figured it would fit perfectly.

Horsea: It looks amazing! It fits you and your fire powers.

Carmen: Thanks Horsea.

In the living room, we were watching TV and reading books and playing card games.

Qin: I don't understand something.

Lincoln: What is it Qin?

Qin: So why exactly did the humilations stop? You guys had so much fun doing them. (our faces get serious) I'm sorry if I offended-

Falcon: You didn't. But I think it's time we showed you something. Follow us.

Falcon, Nico, Azula, Me, Lincoln, Laney, Qin and Lori went down a wall and Qin saw mementos of our villain fights.

Qin: Vulture's wings? Scorpion's tail? Trap Jaw's robot arm?

Azula (chuckles): J.D. and the others sure have beaten a lot of my former fellow villains. But that's not why we're here.

Me: This is our Hall of Defeated Villains. Every time we defeat a villain and kill them or capture them, we put a piece of that villain in this hall as a trophy.

Qin: This is so cool!

Me: This is the reason why we sacrificed the Griffin's.

We went into the vault room.

Qin: Wow! What an awesome vault!

Me: This is our vault. It's where we have some amazing stuff. Inside is not just our fortune, but also powerful artifacts from all over the universe.

Nico: Yep. This is the strongest and most powerful vault door we have and it's made of indestructible Neutronium, the hardest and strongest metal in the universe.

Qin: Wow!

I went to a hand scanner that also had a retina scanner, and a DNA scanner.

Computer: Authorized Access Only. Please provide hand, retina and DNA scan.

I scanned my hand and my eye and it took a tiny blood and tissue sample.

Computer: Access approved. Welcome back J.D. Knudson.

Me: Thank you.

A compartment opened up and in it was two keys for the vault. I take them.

Me: We also have to open two locks on the door simultaneously.

Nico got on one lock and I got on the other.

Me: Okay on my count.

Nico: Okay.

Me: 3… 2… 1…

We turned both keys at the same time and the door opened and a laser grid turned off. In the vault was numerous massive piles of gold, jewels, diamonds and more.

Me: This is our treasury.

Qin: Wow! Look at all this gold and stuff!

Falcon: Look at all this!

Me: I know.

We went down a hall and we were in what looked like a bunch of safety deposit box safes and we stopped in front of one. In it was a big compartment with a code panel on it.

Me: Here we are.

I typed in a code and the compartment opened and in it was the Infinity Stones.

Me: This is why.

Qin: What are those?

Me: These are the Infinity Stones. They are the most powerful artifacts in the entire universe and their power is completely immeasurable.

Qin: I saw these in a comic book! So they are real?

Me: They sure are. Each of the Infinity Stones packs an incredible amount of power. There are six stones and they were found in 6 locations.

Qin: And what are they?

Me: The blue one is the Space Stone and it was found in the Cosmic Cube. We found the Cosmic Cube when we killed M.O.D.O.K. He was the smartest villain we faced. But he was very weak.

Nico: I thought we threw him in prison.

Me: We did. But technically without his super-intelligence he's dead. He's still alive but he just is incredibly stupid.

Nico: Oh. That's a good point.

Qin: Who is M.O.D.O.K.?

Me: His real name is George Tarleton. But his supervillain name is an acronym and it stands for **M** ental **O** rganism **D** esigned **O** nly for **K** illing.

I revealed his history.

---

A creation of the villainous society known as A.I.M., he used to be a A.I.M. scientist named George Tarleton but was forcibly mutated into a grotesque and horrific monster/machine both in appearance and attitude. A.I.M. origanally wanted to use him as their weapon but he took over them instead. As his name suggests, he is a cruel, ruthless and treacherous killer and is also a brilliant but short-sighted megalomaniac who is forever scheming up new ways to seize more power for himself and cause problems for those who oppose him. He also teams up with other villains as well.

---

Qin: This guy is sick!

Nico: He was.

Qin: What does The Space Stone do?

Me: The Space Infinity Stone has the power to open portals that lead from 1 universe to another.

Qin: That sounds dangerous.

Me: It is. Here's the 2nd of the Infinity Stones we got. The red one. That's the Reality Stone.

Qin: What does that one do?

Me: It has the power to bend the laws of reality and physics.

Qin: Wow! Who had that one?

Me: That was one of our most infuriating adventures. We faced the evil Circus Ringmaster, Freakshow.

Qin: The Circus Gothica Ringmaster?

Me: That's him and you would hate this guy to the core.

Nico: His real name is Frederich Isak Showenhower and he comes from a long line of Ghost Artifact enthusiasts. He turned to a life of crime and he tried to kill us by turning Aqua against us.

Me: Yeah. I was so enraged at what he did, that I killed him with the Reality Stone.

Lincoln: He was a total monster.

Laney: He sure was.

Carmen: I remember that. That was awful.

Me: But he got what he deserved. The purple stone is the Power Stone.

Qin: What does that one do?

Me: It gives the wielder incredible power and they can fire powerful destructive beams of purple energy and with one touch they can annihilate all organic life on a planet.

Qin: Wow! That's intense! Who had that stone?

Me: You would hate this guy more than Freakshow. His name was Ronan the Accuser.

Qin: The number one enemy of the Guardians of The Galaxy?

Me: That's him.

I went over Ronan's whole history.

---

A Kree radical, Ronan continues to fight an ancient war between his people and the Xandarians. Ronan has struck a bargain with the Machiavellian Thanos - retrieve the Orb, and in exchange, Xandar will finally be eradicated. Ronan leads his army of Sakaaran mercenaries to hunt down the Guardians of the Galaxy when they come between him and his genocidal goal.

Ronan briefly appeared leading a fleet of warships after being contacted by Yon-Rogg about the Skrulls' current location on Earth. Under the Supreme Intelligence's orders, Ronan gets his ships to fire ballistic missiles in order to destroy Earth and eradicate all of its life. However, former Starforce member Carol Danvers utilized her powers to attack the fleet and destroy the missiles in order to save the Earth, forcing a horrified Ronan to have his remaining forces to retreat.

Ronan abandoned his plan to kidnap Captain Marvel. Determined not to miss the opportunity to take revenge on the Xandarians, Ronan sent Gamora to retrieve the Orb without knowing that she planned to betray him and Thanos. Later, Ronan is called by the Other because Thanos wants to talk to him. During the meeting the Other passes belittling Ronan, eventually yelling at him for raising his voice in Thanos' presence. Ronan, tired of the Other's insults, kills him with his Universal Weapon, prompting Thanos to turn around and speak to him directly, saying their deal is still in place but he will kill him if he does not bring him the Orb.

Ronan finally tracks Gamora thanks to a message from Drax, Ronan pursues Gamora but is stopped by Drax that only seeks revenge against him for murdering his family. Ronan easily defeats Drax, Nebula called to inform him that she has recovered the Orb. Having recovered the Orb, Thanos contact him that he hand over the Orb, then Ronan decides to stay with the Infinity Stone and informs him that after destroying Xandar, he will be the next.

Ronan arrives at Xandar in his Dark Aster, when he is about to destroy Xandar the Nova Corps stop him obstructing his vision, while the Ravagers and Rocket protect the civilians and the others decide to confront Ronan, but they are no problem for Ronan who easily wins. When Ronan is prepared to kill, Rocket collides his ship with the Dark Aster causing the destruction of this. When it seemed that they had defeated the Accuser, Ronan appears from the rubble, and starts making fun of them by calling them "Guardians of the Galaxy", but only stops when Star-Lord distracts him with a dance duel, in that Drax destroys the Universal Weapon.

Quill immediately grabs the Orb that almost killed him for his power, but his teammates hold his hands to help him against Ronan, who didn't understand how simple mortals could withstand the power of an Infinity Stone and demanded to know how they could do that; with Quill proclaiming that they truly are the "Guardians of the Galaxy". Enraged, Ronan tries to attack again with his hammer, only to find out that it has already been destroyed moments before Quill and his teammates use the power of the Orb to disintegrate Ronan. In his last painful moments, Ronan screams out of in raging pain before his body explodes, killing him and ending his tyranny for good. With Ronan finally defeated, the Orb is handed over to the Nova Corps for safekeeping.

Despite his death, Ronan's actions had serious consequences for the entire universe: his death outraged many Kree citizens, who declare the Guardians as heretics and enemies of the Kree Empire. Even worse, his betrayal of Thanos led the latter to personally embark on a ruthless quest for the Infinity Stones. After acquiring the Infinity Gauntlet, Thanos completed Ronan's work by personally invading Xandar and stealing the Orb before using it to kill all of Xandar's populace (including the Nova Corps). Even after acquiring the Infinity Stones, Thanos sends out a death wave that wipes out half of the universe's populace; even the Guardians (except for Rocket) suffer Ronan's fate as they disintegrate to their deaths by Thanos' death wave.

Although he does not physically appear in the film, Ronan is briefly mentioned by the 2014 Thanos when he first assigns Gamora and Nebula to assist him in acquiring the Power Stone; also mentioning that his ambitions must be kept in check. However, this plan is seemingly abandoned when, through Nebula's sensors intercepting her future counterpart's, Thanos and his other minions realize that the Avengers and their allies had traveled back in time to collect the Infinity Stones for themselves to undo his actions in the future. Due Thanos' departure, however, it can be deduced that as their reunion never came to happen, Ronan was left unable to be instructed by Thanos in how to retrieve the Power Stone, not only possibly delaying his planned genocidal attack on Xandar, but likely preventing the formation of the Guardians of the Galaxy as well. But it is also possible that Ronan searches the Orb for himself and was killed by the Guardians of the Galaxy as the original timeline.

---

Qin: (Gasp) Ronan is a monster!

Me: He was a monster. But in the end I used the Power Infinity Stone to kill him and obliterate him from existence forever.

Nico: I remember that. That was an epic fight!

Lincoln: It sure was.

Me: Yep. The Orange Stone is the Soul Stone.

Qin: What does that one do?

Me: The Soul Stone grants the user the power to control all life in the universe.

Nico: But there's a major catch to getting the Soul Stone. You have to sacrifice someone that is most precious to you.

Qin: That's crazy!

Me: I know. But we did find a loophole to get it. We sacrificed the Griffin's and got it that way. It was located on the planet Vormir. We had to sacrifice Peter and Bad Lois to get it.

Nico: Yep.

Qin: They sure deserved it. But why is that?

Me: We just ran out of ideas for what pranks to do on them.

Qin: Oh.

Me: The Green Stone is the Time Stone. That stone grants the user the power to control time. They can rewind or move forward with it.

Nico: Dr. Strange had the Time Stone in his necklace, the Eye of Agamotto.

Qin: That's amazing!

Me: Lastly the Yellow Stone is the Mind Stone.

Qin: Who had that one?

Nico: It was in the possession of Loki.

Qin: Loki the God of Mischief in Norse Myth?

Me: That's him. He was the traitorous brother of Thor, God of Thunder.

Nico: We beat Loki and stripped him of his god powers and made him an immortal man on Earth. He lives with Mr. Grouse now.

Me: It was a fitting punishment for him.

Qin: What does the Mind Stone do?

Me: It allows the user to enhance their mental and psychic powers and can allow them to see people's dreams and thoughts.

Qin: Wow! That's amazing!

Falcon: It sure is.

Me: Yep. But there's one person out to find them and rule the entire universe. His name in Thanos.

I revealed the history of Thanos.

---

He was an extremely powerful alien warlord who commanded two massive armies called the Chitauri and the Outriders, as well as a small group of fanatical followers known as the Black Order.

He formed an alliance with Loki to invade Earth, and later forged a partnership with Ronan the Accuser to destroy Xandar - both in exchange for the deliverance of two powerful Infinity Stones, only for the pair to end up failing their tasks before betraying Thanos afterwards. He was also indirectly responsible for the creation of Ultron as his supplying of the Mind Stone to Loki is what gave Ultron free will to rebel against humanity in the first place.

He later obtained all six Infinity stones, fought with the Avengers and Guardians of the Galaxy and successfully wiped out half the life in the universe. His actions would ultimately be undone, however, after the Avengers successfully retrieved the Infinity Stones through time travel. Soon after, an alternate version of Thanos from the past time traveled to the present in an effort to destroy the Avengers and this time erase the whole universe in order to create a new one, but he was defeated and erased from existence once and for all before he could carry out that plan. However, even after his demise, his actions still haunt the Avengers.

---

Qin gasped in horror.

Qin: I can't believe he's that bad!

Nico: Thanos is a monster. But we have all the Infinity Stones under our protection and he won't get them.

Laney: And we'll make sure of that.

I closed the compartment and we exited the vault.

Qin: That was amazing!

Me: Yep. It would take the force of a massive supernova explosion to get through this vault door. It's a 30 foot thick Indestructible Neutronium door.

Nico: That's amazing!

Qin: It sure is.

---

In the Living Room we were watching TV and reading books.

Me and Nico were deciding which Goosebumps monster to find next.

Me: Lets see. Wait. Qin said that she's terrified of Lord High Executioner.

Nico: That's right.

Me: Lets go after him next.

Nico: A Night In Terror Tower it is.

Me: I remember reading this one. The Executioner was from over 1,000 years ago.

Nico: That's right and he wants to kill Sue Morgan and her brother Eddie.

Nico went over the history of the Lord High Executioner.

---

In A Night in Terror Tower, The Lord High Executioner is the head of the prison tower that was originally a walled fort built by Romans where prisoners were cruelly treated. Some of these prisoners were imprisoned for just being unable to pay their taxes. The Lord High Executioner was always ready to do away with whomever was sentenced to death. One day, King Robert took reign of the kingdom and ordered his nephew and niece Edward and Susannah of York to the tower after the deaths of their parents. The Lord High Executioner and his men were ordered to smother the two children. Before they could do so, the real king's sorcerer Morgred used some magic stones to send Susannah and Edward to the future to save them. The Lord High Executioner was spying on Morgred, so he stole the stones and teleported to the future himself.

In the future, the Lord High Executioner caught up with Susannah and Edward (now calling themselves Sue and Eddie) in Terror Tower when they got lost from their tour group. He attempted to persuade the two children to come with him, telling them that he will have no choice but to hurt them if they don't come quietly. He didn't realize that Sue and Eddie had their memories erased by Morgred, so they thought he was a staff for the tour. They eventually realized the Lord High Executioner was for real and he pursued the children throughout the Tower and had eventually had them cornered in a sewer. He almost had Sue in his grasp, but ended up being chased away by rats.

The Lord High Executioner eventually escaped the rats and located Sue and Eddie at The Barclay. There, he ordered Eddie to give the three stones back to him as Eddie pick-pocketed them from him. Eddie attempted to bargain with the Executioner to let them go if he got them back, but the Executioner teleported all three of them back to their real time. Later, he grabbed Eddie while he and Sue were looking around in the village. The Lord High Executioner eventually caught up with Sue and told her that she cannot delay her fate. Sue declined defiantly and tried to hide from him in a peasant's cottage, only to have the peasant give her away. The Lord High Executioner then took Sue back to Terror Tower with Eddie.

At the tower, the Lord High Executioner once again got ready to execute the young prince and princess. But before he could carry out his duties, Sue and Eddie, who got their memories back after being told by Morgred what had happened managed to teleport themselves and the sorcerer into the future.

We gasped in sheer horror.

Breakdown: Eddie and Sue's parents are dead?! Normally, the parents of the Goosebumps protagonists are alive.

Abby Martin: Unless you don't count me and Peter's parents, who died when we were at an early age.

Qin: I'm sorry that happened to you Abby.

Abby Martin: Thanks Qin.

Me: But still, that Executioner is in the wrong time period. 1,000 years to be precise. In a way, Sue and Eddie are Edward and Susannah of York reincarnated. We got to get over there and kill this Executioner.

Qin then grabbed me and she was shaking in fear.

Me: Qin I know you're scared but you have the strength and power to conquer your fear. We won't let this executioner live to kill them.

Nico: Also this is a strange part. Sue and Eddie are both the prince and princess from 1,000 years ago.

Me: I read about that. That is so strange. But we are also no strangers to time travel. We went 10,000 years into the future to help Samurai Jack, We went 20,000 years into the future to help kill Godzilla and we went with Clockwork to kill Dark Danny in 2015.

Qin: That's incredible!

Me: It sure is. But we got to get over to England.

Wolfcastle: (Arnold Schwarzenegger Accent) Let me come with you all as well.

Me: Are you sure Mr. Wolfcastle?

Wolfcastle: It's time for me to make a difference in the world and fight for real.

Me: Okay then.

We were off to England.

---

CARLISLE, ENGLAND

---

We arrived at the hotel Sue and Eddie are staying at.

Me: Here we are guys.

We went in.

Hotel Clerk: (British Accent) Team Loud Phoenix Storm. Welcome.

Me: Good day to you ma'am. We would like to visit Sue and Eddie Morgan if we could please.

Hotel Clerk: Certainly. They are in room 231 on the 2nd floor.

Me: Thank you ma'am.

We went up to the room and we arrived at the door.

Me: Here it is. 231.

I knocked on the door.

Eddie: Who is it?

Me: We're Team Loud Phoenix Storm and we came to help you out.

Eddie opened the door and he and Sue saw us.

Sue: Wow! Team Loud Phoenix Storm.

Eddie: It's such an honor to meet you all.

Me: Pleasure is ours.

Laney: Same here.

We went down to the grand hall and they told us everything.

Sue: When me and Eddie were sent to modern times, we were lost and confused about who we were. It felt so overwhelming.

Me: We know just how you feel Sue and we are no strangers to Time Travel.

Eddie: How so?

Me: We went to many time periods across a lot of periods of history. We journeyed into the future 10,000 years from now to help Samurai Jack get back to his time and destroy the malevolent shapeshifting wizard Aku.

Yuko: We also went 20,000 years into the future to destroy Godzilla.

Me: It's all very complicated.

Sue: That's really interesting.

Me: It takes a long time for people from the past to adjust into the future.

Lola: It took a long time for Samurai Jack to adjust being in the world we helped him in.

Me: That's right.

Eddie: That is amazing.

Me: It sure is. I know it's rough adjusting to life here in the 21st century. But we can help you in any way we can.

Qin: That's right.

Me: First we got to kill that Executioner that's out to kill you.

Sue: We greatly appreciate it.

Me: Great. Lets head to Terror Tower.

We were off to Terror Tower.

(The Night Begins to Shine plays)

We were riding our horses, flying and driving. We saw the beautiful countryside of northern England and it was breathtaking. Nico caught a Mandibuzz and Heatmor on the way.

Luna: This is so amazing dudes.

Laney: I love coming here to England.

Lucy Loud: It's loaded with all kinds of history and more.

Lori: This place is literally amazing.

Leni: It totes is amazing.

Sunstreaker: Ok, Qin. We need to talk about this fear of yours! (hits the brakes and stops)

Qin: We should probably get farther away from the Exectutioner before we stop.

Sunstreaker: I've driven 30 miles with you inside me. There's no way he can cover that kind of distance on foot. (an axe hits the ground right in front of him)

Executioner: (British Accent) You cannot escape me!

Sunstreaker: But I've been wrong before! (continues driving)

Me: Catch us if you can you asshole!

We pressed on and we arrived at Terror Castle! It was a malevolent and extremely foreboding castle. Lightning struck everywhere from electrical storm clouds above it.

Me: Here we are guys. Terror Castle.

Lori: This place literally gives me the creeps.

Nico: 1,000 years worth of creeps.

?: Those creeps are going to be on your fucking tombstones!

We then saw a figure come out and it was HUN! He was reborn as a Heartless! He was now called the Hateful Turtle Dragon

Me: Hun!

Maria: Hun?! What the hell happened to you?! You don't look like a Heartless version of your normal self at all!

Hateful Turtle Dragon: The Darkness in my heart and the Dark Orb turned me into the very thing that I hate - mutant-turtle filth.

Raph (offended): Hey! That ain't true. We shower regularly!

Qin: Who is he?

Me: He's the Leader of The Purple Dragons - Hun. The Purple Dragons were the most ruthless crime gang of all and they did all kinds of terrible crimes.

I revealed the history of Hun and the Purple Dragons.

---

Hun

Hun started his criminal career in his teen years and became the leader of Purple Dragons. He and a group of Purple Dragons burned down the store of Arnold Jones (Casey's father) after he refused to pay the Purple Dragons protection money. Hun told Casey to tell his father to pay up next time or else. However, Arnold went to the police which made Hun kill him. Sometime later, the Shredder found him and took him as a protege after he realized his potential. In the beginning of the 2003 series, he left his operations to Johnny and Dragon Face while he serves the Shredder. In "Attack of the Mousers", he was sent by the Shredder to bring Dr. Baxter Stockman to the Foot HQ and gave him his punishment by drilling out his left eye. He delivered the Sword of Tengu to Saki in "Darkness on the Edge of Town" and punished two Foot technicians for losing it to the TMNT. Hun was later ordered by the Shredder to team up with Stockman to find info on the Turtles in "The Way of

Invisibility". Hun let Raph escape so the Foot Tech ninjas follow him to the other Turtles. The TMNT defeated the ninjas and Baxter Stockman blamed Hun for the failure of the mission. However, Stockman was taken away by two Foot Tech Ninjas. Hun reported to Oroku Saki that based on his interrogation, the Turtles don't know anything about Saki's enemies. Oroku Saki decides that the Turtles may be useful to him when the time is right.

Purple Dragons

In "Fallen Angel", he hosts the Purple Dragons cage match. He knocked out Casey Jones and took him hostage. Later he fought the Turtles. In their first fight against him, he actually overpowered them, they were only saved by Casey Jones.

They mostly commit robberies and threaten people. They're one of the most dangerous street gangs in all of New York City (if not the most dangerous), and they work for the Shredder on most occasions.

In MNT Gaiden, Purple Dragons are a favorite target of vigilante fights involving Raphael Hamato, Casey Jones and Shadow Jones, the latter two fighting the Purple Dragons while masked.

According to Chapter 13: Back into the Shadows, the renegade NYC Foot Clan leader Eikichi Gotoh holds the Purple Dragons in contempt as an organization, because Purple Dragon members only follow their own individual desires, whereas the NYC Foot Clan establishes a common group goal that is served by all its members as a whole. An unnamed gang that is similar to Purple Dragons was featured in 1987 TV Series. They were led by Bebop & Rocksteady.

In the 2012 series, the Purple Dragons are a Chinese American gang that, up until Casey Jones vs The Underworld, consisted of 3 members, Fong, the unofficial leader who (occasionally) wields a butcher knife, Sid, the muscle who (occasionally) wields an axe and Tsoi, a mustached middle-man who (occasionally) wields a sledgehammer. The Purple Dragons mostly commit stereotypical street level crimes, mugging citizens, robbing bank vaults, forcing business owners to pay protection money and doing lackey work for bigger crime lords (Shredder and one off villain Ho Pan). Unlike in other versions, the Purple Dragons are portrayed as straight up joke villains who couldn't put up a single decent fight with the teenage Casey Jones, much less the turtles.

Despite their numerous failures, the Dragons are a respected and feared gang who commit crimes in broad daylight unopposed. In Casey Jones vs The Underworld, the Dragons become a much bigger threat when they are now lead by Hun, who, unlike in the 2003 version, is a quick and nimble martial arts master who is clearly a homage to Bruce Lee. With Hun in tow, the Purple Dragons are now seen as a much bigger, yet slightly inconsistent, threat who now can easily take on the likes of Casey Jones, Michelangelo and Karai with her friend Shinigami at the same time.

---

Qin was horrified!

Qin: Those guys are monsters!

Me: They were monsters. We killed every single one of them. They're all dead now.

Hateful Turtle Dragon: Do you know the thing I hate the most in the world?

Mikey: (hits Hun with his nunchucks) Puppies?

Hateful Turtle Dragon: (punches him) No. Turtles! (grabs Leo by the throat) Now, when I look in the mirror, all I see is you! (slams him into the ground) And I hate you all even more because of this!

Donnie: (aura flares up) That hate's only gonna makes a lot stronger.

Leo: And you did this all to yourself by working for the Shredder. You allying with the Lord High Executioner doesn't change a thing!

Hateful Turtle Dragon: Forget the Executioner! You're gonna pay for all the things you've done to me!

I kicked him in the face and sent him crashing into the castle wall!

Me: You will die like you did when I killed you Hun. And for the record I'm not the same as I was before when we fought the last time.

Hun got up.

Hateful Turtle Dragon: How so you fuck!?

Me: Also for the record, I was holding back.

I flared up my aura and I released the full extent of my power and went Super Ebonwu 30,000 Phoenix Firestorm!

Me: Now you will face my ultimate power.

Lord High Executioner appeared.

Hateful Turtle Dragon: Did you really think you could've taken us by yourself?

Wolfcastle: Who says I am by myself?

Me: Lets do this!

We went at them and we engaged in a massively explosive and ferocious fight! Massive fiery explosions were blowing the land around the castle apart and more. Lightning struck everywhere and the entire land of Great Britain felt the massive fight. Laney punched Hun in the face and fired poisonous barbs loaded with Strychnine Ω and it poisoned him. Francis fired a massive blast of fire and burned him. We were mercilessly thrashing Hun and the Executioner all over the place at an extremely ferocious level.

Nico: Hun, you and the Purple Dragons have failed this world!

Me: Time for some teamwork!

Sunstreaker: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his electron pulse blaster 100-fold.

Falcon: Lets do it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his wing strength and enabled him to fire lasers from his wings.

Sunstreaker and Falcon: ELECTRON LASERSTORM BARRAGE!

Sunstreaker fired numerous electron pulse blasts and Falcon fired numerous laser blasts from his wings. The blasts combined and they hit the Hun heartless and exploded.

Azula: Time to burn! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm and enhanced her Firebending powers 10,000-fold.

Breakdown: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his concussion rifle 100-fold.

Azula and Breakdown: INFERNO SONIC BURST FIRESTORM!

Azula fired a massive blast of fire and Breakdown fired a massive concussion blast and the blasts combined and slammed into the Hun heartless and exploded with incredible power. Killing him.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Hun's spirit was sucked into the River of Fire and he and the Purple dragons were gone for good. Forever erased from existence for all eternity.

We then faced Lord High Executioner.

Sue punched him in the face and Nico kicked him in the stomach.

Qin was really scared. She was forever scarred because of Lord High Executioner. Ever since she read A Night In Terror Tower it scarred her for life.

Qin: I can't do this! I'm too scared!

Laney: I know you're scared Qin. But you can do it! Do it for your mom and dad and for everyone you love!

Laney's words got through to her and something snapped inside Qin.

Qin: (In her head) Laney's right! I have to do something!

---

Qin: (In her head, Narrating) Ever since the death of my family at the hands of those mobster monsters, I was too scared to do anything. All I did was stand there watching on in sheer horror like a little helpless child! If only I was stronger back then! I lost my family and everything I had as a result! But because of Dr. Roland Paradigm, I was gene-slammed and turned into the humanoid Komodo Dragon, Scalebreath and I got stronger! But that day still haunts me before and after. I was then reunited with my childhood friend Nico and we did all kinds of awesome adventures! But my past still haunts me! If I don't stand up for myself and face my fear, I will have let the sacrifices of my family be in vain!

The flashback shows everything that happened to her.

FLASHBACK ENDS

Qin: (In her head) And I won't let the past torment me anymore! Mom and dad, I know you're watching me, I'll make you all proud!

Qin then screamed at the top of her lungs and she then released a massive explosion of power and a green aura was swirling around her. Lightning flashed and flickered around her and then she screamed and in a massive blinding flash of light, she released her power and transformed!

When the light faded we saw Qin and she was forever changed! She had green angel wings and her hair was now green and her eyes were now dark blue. She had transformed into a SUPER ANGEL 2! Her power was unreal!

Me: Whoa!

Nico: Qin? What happened?

Laney: Her power is unreal!

Lana: Incredible!

Qin: I am not scared of you anymore Executioner! You've tormented Sue and Eddie's lives for the last time! And you've tormented my life for far too long! You will now die! And now I'm going to make sure that their parents are avenged!

Qin then went at incredible speed and punched Lord High Executioner with devastating force and she dealt him a deadly uppercut! With two mighty and powerful punches, she brought him right to his knees! He was belching up a tremendous amount of blood.

Qin: Time for you to die! Final Smash time!

Rainier Wolfcastle: You got it Qin! MCBAIN GUNSHOT BURST!

Rainer Wolfcastle fired a powerful blast from his gun and blew a huge hole into his chest and it exposed his black heart.

Eddie: This is for our family! LIGHTAXE SLASHSTORM!

Eddie formed an axe of light and slashed him all over the place.

Sue: Lets do this! VINEMACE SLAM!

Sue formed a vine mace and slammed it into him.

Qin: Now you will never terrorize my life again! SPIRIT KOMODO DEATH CHOMP!

Qin fired a spirit energy wave and it turned into a deadly Komodo Dragon and it slammed into him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Sue then took his axe.

Qin: Lets do it together Sue.

Sue: Okay.

Lord High Executioner: You can't do this to me princess!

Sue: I stopped being a princess 1,000 years ago! This is for my family!

Qin: And this is for torturing my life with fear!

Nico: Lord High Executioner, you have failed this world for 1,000 years!

Qin and Sue screamed and they slashed his whole head off and killed him instantly! He was sucked into the River of Fire.

Qin: Never again.

Qin powered down and then she hugged Nico and cried hard. Her fear has been conquered. She was grieving for her family and Nico was comforting her.

May: Poor Qin.

Then we saw the Castle collapse and it was gone forever. Sue and Eddie's parents were avenged after 1,000 years. Qin had gotten justice for Sue and Eddie's parents and she made her parents proud as well. They watched down from Heaven and smiled on her. We then smelled something really foul.

Me: P.U.! What is that smell!? Ed?

Ed: Not I J.D.

?: (Polish Accent) I missed the battle.

Double D: Look, Ed! A skunk!

We turned and we saw a gene-slammer that was half human, half skunk.

Olga: That voice. Natasha?

Natasha: That's right. Olga, It's great to see you again.

Olga: (Speaking Russian) Что с тобой случилось, Наташа? (What happened to you Natasha?)

Natasha: (Speaking Polish) Zostałem zamieniony w Ludzkiego Skunksa z powodu Paradygmatu! (I was turned into a Human Skunk because of Paradigm!)

Me: Dr. Roland Paradigm did this.

Natasha: That's right. I'm Natasha Vamenovyov. But in this form I'm called Stinktail.

Me: How did this happen to you Natasha?

Stinktail: I don't know.

Me: Olga what do you know about Natasha?

Olga: Me and my sisters met her when we were in Poland 2 years ago. Natasha is an orphan girl. Her parents were murdered when she was 5 and she has no family to turn to.

We gasped.

Lori: Oh poor thing.

Me: Oh no. Natasha we can help you change back and get a new home with us.

Stinktail: You can do that for me?

Me: We sure can. But this is gonna hurt bad okay?

Stinktail: If it'll help me get back to normal then okay.

Me: Okay. Boys cover your eyes.

They did so.

I snapped my fingers and she was in pain. Her fur was vanishing back into her skin, her tail went back into her butt, her blonde hair came back and her chest was back and so was her arms and feet. She was back to normal.

Natasha: I'm normal again!

Eddy: You might be topless. But at least the smell's gone.

Maria gave her a robe.

Me: Lets go home.

We did so.

---

Back at the estate, Natasha was taking a bath. After that she was in Leni's room where she got new clothes. She was dressed in a black t-shirt with a skunk on it and she had blue jeans and blue flip flops and she had a yellow hair ribbon in her hair.

Natasha: I look incredible! Thank you Leni.

Leni: You are totes welcome Natasha.

Natasha's stomach growled loudly.

Natasha: I'm really hungry.

Leni: Lets get you some food.

Me and Sakura Avalon cooked up Natasha a bunch of hamburgers and sandwiches. She was really hungry and she ate them all.

Natasha: (BURPS) Excuse me.

Me: You sure were hungry.

Sakura Avalon: She sure was.

Natasha: Thanks for helping me out.

Me: No problem.

Olga then decided to adopt Natasha into her family as her little sister.

Sue: (To the viewers) We've had an awesome 1,000 year journey. But it will never be over as long as evil terrorizes the world.

Me: No it won't.

---

Later at the Park we were having a relaxing time.

Then we heard screaming.

Me: Uh oh!

I sensed a Clow Card and we saw a green fog roll in.

Me: That's the Mist Card!

Kero: That's right. It covers everything in a corrosive fog and destroys it.

Me: This is bad!

Kero: Better hurry or people will get hurt because of the playground equipment getting destroyed!

Mist's visible form is a thick bank of green fog, and its Card form, never seen as a visible spirit, is a young woman with elf-like ears, and long, straight hair sprinkled with ball shapes, like drops of dew left from a mist. Her hands are crossed in front of her heart. 霧

Me: This requires some darkness.

I formed a sphere of darkness and trapped Mist inside it.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Mist Card and turned it into a Clow Card.

Me: That was close.

Laney: I'll say.

Sakura Avalon: That was clever though J.D.

Me: Thanks.

I signed the Mist Card.

We had a great time after fixing the park. Sue and Eddie were inducted into the Goosebumps Monster Busters.

THE END

---

Another Fanfiction complete and another Goosebumps monster destroyed.

A Night In Terror Tower was one of the strangest books I've seen in the Goosebumps series. I never even knew that Sue and Eddie were from 1,000 years ago. But I was too little to understand. NicoChan11 gave me the ideas for this one. Thanks man as usual. The next Clow Card is the Arrow Card. Let me know what you all think.

See you all next time

# A Bad Beauty Pageant Star

In the living room, we were watching Documentaries about how the Earth Formed.

Qin: Hey guys, I have a question.

Me: Sure Qin. What's up?

Qin: I was wondering. What was this Earth Week you all did?

Me: That was one of our most amazing and most charitable adventures. From April 15th to April 22nd we did all kinds of amazing deeds that revitalized the Earth and made it better than ever.

We went over our Earth Week Adventures and how we destroyed the villains of the Planeteers.

---

Duke Nukem

Duke Nukem, also called Nukem, is one of the Eco-Villains in the animated show Captain Planet and the Planeteers.

He is a dangerous mutant that can shoot radioactive blasts from his hands. He is also a walking disaster area and so his henchman, Leadsuit, like his name implies, has to wear a lead suit to be near him. His primary goal is to cover the entire planet in radiation and turn everyone into mutants like himself.

He is also physically strong as he is the only Eco-Villain aside from Captain Pollution to actually defeat Captain Planet.

The ecological disaster he represents is the misuse of nuclear power. In the two-part Captain Planet episode, Mission to Save Earth, Duke is among the five Eco Villains who create Captain Pollution. They did this by creating and using five Anti-Elemental

Rings consisting of Deforestation, Toxins, Smog, Super Radiation, and Hate. Duke's element was Super Radiation. Unfortunately for the Eco Villains, Captain Pollution was destroyed and the Anti-Elemental rings along with him, leading Duke and the other villains to flee.

## Looten Plunder

Looten Plunder is one of the Eco-Villains in the show, Captain Planet and the Planeteers.

He is a businessman who only cares about money and will do anything to obtain more, even cause a lot of harm to the planet and let other people suffer. He is even willing to sell out the other Eco-Villains if he could benefit from it. He has also done poaching in order to obtain more wealth. His primary source of income may be the lumber industry as his pollution ring was the power of deforestation, though as stated before he will do anything to obtain more money.

Whenever the Eco-Villains team up, he would usually become the leader of the group due to his vast wealth, except for when Zarm grouped them together.

Looten Plunder is also the only Eco-Villain to ever truly defeat the Planeteers allowing himself to cut down a whole forest.

Looten Plunder symbolises unethical business actions and uncontrolled capitalism. In the two-part Captain Planet Episode, Mission to Save Earth, Looten Plunder is among the five Eco Villains who create Captain Pollution. They did this by creating and using five Anti-Elemental Rings consisting of Deforestation, Toxins, Smog, Super Radiation, and Hate. Looten Plunder's element was Deforestation. Unfortunately for the Eco Villains, Captain Pollution was destroyed and the Anti-Elemental rings along with him, leading Looten and the other villains to flee.

## Sly Sludge

Sly Sludge is a recurring villain in the educational children's superhero TV series Captain Planet.

Sly Sludge is a pollutionist/con man who specialises in tricking others into thinking he and his crew are helping to build something to help the environment just so he can get free space to dump his wastes (oil, toxic sludge, and gunk).

Sly and his dumping crew do not seem to have any real reason for doing this-one would assume he is building dumps to make money, but he is never shown collecting any money, however it has been stated that "he'll pollute anything for a buck".

Sly is portrayed as a fat, lazy, greedy, money grubbing slimeball with a fondness for trickery and little care for the planet. If Sludge and his workers can not dump it in the ocean or into landspaces than they will burn it and make acid rain.

Strangely, despite being a dumper, instead of polluter clothes, he instead wears the uniform that an army soldier would, and despite being a human, his unusual last name and strange facial look makes him seem like a monster. In the series, the Planeteers must unite to summon Captain Planet to help stop men like Sludge from harming the earth.

Despite his run-ins with the superhero he continues his evil work, on some occasions he and his men load guns with oil to try and stop Captain Planet. He also appeared in the comic books based on the series.

Sly symbolizes ignorance and short term-thinking. In the two-part Captain Planet episode, Mission to Save Earth, Sly is among the five Eco Villains who create Captain Pollution. They did this by creating and using five Anti-Elemental Rings consisting of Deforestation, Toxins, Smog, Super Radiation, and Hate. Sly's element was Smog. Unfortunately for the Eco Villains, Captain Pollution was destroyed and the Anti-Elemental rings along with him, leading Sly and the other villains to flee.

Verminous Skumm

He is a real dirty rat. Born and raised in a sewer, this towering "Ver-man" aims to mold the world in his image, and is determined to inherit the Earth. He is quite likely the most evil Captain Planet villain, as he is responsible for killing Linka's cousin by selling him a designer drug which he fatally overdosed upon, and harassed Todd Andrews, an HIV positive kid by making people hate and fear him by lying to them about HIV and AIDS.

Skumm fancies himself an agent of entropy with a mission to instigate chaos and degeneration in the natural order. He exults in humanity's every ecological mistake and helps to accelerate the environment's decline. His weapons are a loathsome intelligence combined with the cunning of a trapped rat, in addition to apparently quite skilled knowledge of chemistry and pathology. His rat pack inhabits only the most vile, degenerate environments of sewage and toxic waste, which they often use to aid in Skumm's odious plots.

Though standing seven-and-a-half feet tall, Verminous Skumm truly resembles a disease-ridden rat in every way, including the tail and claws. He wears a tattered blue jumpsuit and a red scarf around his head and face. His clothes are always dirty, torn and disheveled, as he spends most of his time underground - in sewers or the like.

Like all the villains in Captain Planet and the Planeteers, Skumm represents an ecological threat. In his unique case, he mainly represents not one but two evils: poor sanitation (With a particular focus on the spread of disease that comes about as a result of it), and social/ urban ills such as crime and bigotry. In the two-part Captain Planet episode, Mission to Save Earth, Verminous Skumm is among the five Eco Villains who create Captain Pollution. They did this by creating and using five Anti-Elemental Rings consisting of Deforestation, Toxins, Smog, Super Radiation, and Hate. Skumm's element was Toxins, perhaps used as an evil counterpart for Gi's Water ring. Unfortunately for the Eco Villains, Captain Pollution was destroyed and the Anti-Elemental rings along with him, leading Skumm and the other villains to flee.

One episode revealed that Skumm was (possibly) from an alternate/ past civilization that he helped guide into destruction through massive overpopulation. Alternate future versions of him are shown to be even more mutated, sporting an extra smaller head on his shoulders.

Captain Pollution

Captain Pollution is an antagonist in the animated TV series Captain Planet and the Planeteers.

He is an evil clone of Captain Planet who exists with a completely destructive and insane personality to make the world a pollution-filled cesspool. He is one of the superhero's most powerful enemies due to Captain Planet weakness to pollution, though Captain Pollution, in turn, is weakened by the natural elements of the Earth, such as water, clean air, sunshine, and many more.

Dr. Barbara Blight

Dr. Blight began her career researching biological and chemical warfare and, thus, has a host of deadly and dangerous weapons at her disposal. She represents the dark side of science, using her vast knowledge to create biological monstrosities, wipe out entire populations of plants and animals, and generally wreak havoc on Earth. She even used a time machine in order to sell an atomic bomb to Adolf Hitler himself, which was considered her most evil act by the Planeteers. Bambi Blight was the first person to reveal that Dr. Blight will often flirt or flatter in order to get her way, though she is unafraid to stand up for herself if one of the other Eco-Villains dares to upset her.

Her supercomputer, MAL, is programmed for pure evil. MAL's high level of artificial intelligence is often devoted solely to calculating new and diabolical ways to destroy Captain Planet and the Planeteers, leaving Dr. Blight to pursue more creative research. Sometimes, she will be very pleasant and flirtatious towards MAL, while at other times, she will become extremely angry, violent and aggressive when dealing with him.

Dr. Blight sees herself a fashion plate, often appearing in a chic long-sleeved jump suit and high-cut boots. She wears a utility belt to which various items may be attached. Her hairstyle help hide the huge scar on the left side of her face. The scar's origin has never been explained, but it was likely caused by one of her experiments. Blight likes to show off her figure by wearing skin-tight jumpsuits, usually colored pink.

As an Eco-Villain, her character symbolizes the dangers of uncontrolled technology and scientific experimentation. In the two-part Captain Planet episode, Mission to Save Earth, Dr. Blight was one of the five Eco Villains who created Captain Pollution. They did this by creating and using five Anti-Elemental Rings consisting of Super Radiation, Deforestation, Smog, Toxins, and Hate. Barbara's element was Hate. Unfortunately for the Eco Villains, though, Captain Pollution was destroyed along with the rings, leading Blight and the other villains to flee.

The Fossil Fuel 4

Charcoal Briquette - She, along with the rest of The Fossil Fuel Four, defeated and killed Radioactive Man.

Old King Coal - Together, he and the rest of The Fossil Fuel Four defeated and killed Radioactive Man.

Petroleus Rex - Before becoming a supervillain, he was an environmental scientist known as Rex Bernstein. He, along with the rest of The Fossil Fuel Four, defeated and killed Radioactive Man.

Qin gasped.

Qin: Wow! You guys did the world a huge favor!

Natasha: (Polish Accent) That is amazing!

Sakura Avalon: It sure was. I heard all about that. That was so amazing that you all did that.

Me: Well we don't like to brag. But lets show you the amazing trophy we got.

I went to the trophy case and showed them the Earth Week trophy.

Me: This was an unforgettable week for us and we were awarded this trophy for helping the world.

Qin: That's an amazing trophy!

Sakura Avalon: It's amazing. That trophy is a beautiful one.

Then the doorbell rang.

Lana: I'll get it.

Lana went to the door and got it. It was the Street Sharks long time friend Bends.

Bends: Hey there. Are the Street Sharks here? My name is Bends and I'm a long time friend of theirs.

Lana: Pleasure to meet you. Come on in.

He did and John saw him.

John: Bends! Long time no see!

Bends: You too dude! You have your humanity back.

Me: Pleasure to meet you Bends. John and his sibs told us so much about you.

Bends: You too J.D. I heard that you all killed Paradigm and his fish-faced freaks. (To the Bolton's) No offense.

Clint: None taken dude.

Me: We did kill him yes. But we found out from Nicole Pottor here and Abigail Florence here that there are two more Paradigm's out there.

Bends: Really? Who are they?

Me: The one that Nicole Pottor got Gene-Slammed from is Dr. Roland Paradigm and he specializes in Gene-Slamming with Land Animals. The one that Abigail Florence here got Gene-Slammed from is Dr. Albert Paradigm and he specializes in Gene-Slamming with Air Animals.

Stacy: I had a suspicion that there was a Dr. Paradigm for Air Animals and our battle in Horrorland confirmed it.

Bends: So the Paradigm brothers are using the three great powers of Land, Air and Sea.

Laney: That's right. The Paradigm Brothers destroyed and ruined so many lives.

Trudy: Yeah.

Olivia: He ruined many of our lives.

Nico: All three of the Paradigm Brothers will pay for their crimes.

Lana: That's right.

Qin: I was spliced with a Komodo Dragon because of Roland Paradigm.

Me: It's a long story. Dr. Luther Paradigm even turned on his own students.

Lena: It's true Bends. He got us spliced and slammed too.

Lincoln: He paid the ultimate price for his crimes.

Bends: I'm glad Dr. P is dead. He deserved to die.

Me: Another Mad Scientist sent off to hell where he belongs.

The Doorbell rang.

Lola: I'll get it.

Lola went and answered the door. At the door was a girl with black hair, blue eyes, a white tank top, blue jeans and high-top sneakers.

?: I heard the Street Sharks are here. May I please talk to them?

Lola: Sure.

She came in and Qin saw her and recognized her.

Qin: (Gasp) Jenna!

Jenna: Qin!

They hugged and were reunited for the first time in a while.

Jenna: It's great to see you again.

Qin: I missed you.

Jenna: Me too.

Me: So are you a friend of Qin's?

Jenna: I sure am. It's an honor to meet you J.D. I'm Jenna Mcckay.

Me: Pleasure to meet you.

Jenna: Same here.

John: Hey Jenna.

Jenna: John, guys. I'm glad you're all right. But I thought you all were turned into the Street Sharks.

Stacy: We were because of Dr. Paradigm.

Me: Are you a gene-slammer too Jenna?

Jenna: I sure am. Let me tell you all my story.

---

Jenna Mcckay is a college student who has an interest in the study of marine biology. She has black hair, and wears a white tank top, blue jeans, and black hi-top sneakers. Her personality is that she's very brave, yet kind of quiet.

Jenna "There are so many sea creatures out there. But I really like sharks the most!"

Ever since the disappearance of Dr. Robert Bolton, she's been trying to do her own research of sharks to see if this is connected to the mystery itself.

Jenna: "I wonder if Dr. Bolton's disappearance is related to the Street Sharks. I can't believe there aren't girl Street Sharks! I mean, that's so sexist!"

Then she decided to investigate the matter.

Soon enough, Jenna stumbled upon a needle with a picture of a great white shark on it.

Jenna: "I wonder who left this needle here. I think it turns someone into a great white shark when it's injected. But should I try it on myself? If I transform, it might be permanent."

After a while, she injects the needle to her arm. She gritted her teeth in pain.

Jenna: "God, this hurts so much!"

Jenna looked at herself for a few minutes. She wanted to take one last look at her human self before she changed into a great white shark forever. But after a while, nothing happened.

Jenna: "I guess it'll be a while before I transform."

She reaches for a magazine in her backpack so she could read it while waiting.

Jenna: "I wonder why that needle was lying down there."

Jenna read a label on the needle.

Jenna: " 'Note: the person injected with this needle will be able switch between human form and shark form.' Well, it looks like I'll still be able to go to college."

She was very relieved. Now she didn't have to be worried about being trapped in shark form.

She then started to feel lightheaded.

Jenna: (Groaning in pain) "Oh, my head."

She went to the restroom to wash her face.

Jenna: "What's going on with me?!"

Then she saw fangs growing out of her mouth.

Jenna: "Oh God! It's starting!"

She noticed her hands are changing. Her hands turned into claws!

Jenna: "My hands!"

Then her head is turning into that of a great white shark.

Jenna: "AARGH! I-I didn't know it would hurt this much!"

Jenna's jet black hair fell out of her head.

Jenna: "There goes my hair!"

Jenna then began to feel a slight itching feeling in the center of her back. She felt something protruding against the back of her tank top.

JennaP: "Oh God! At least I remembered to bring an extra tank top!"

In a matter of seconds, a giant fin burst out of her back, destroying her shirt and completing her transformation.

Next, she walks into a mirror.

Jenna: "Wow! I look good! Wait until the Street Sharks get a load of me! Alright, let's test out my new form."

Her voice got a bit deeper thanks to her transformation.

Jenna decided to punch a wall in the restroom to test out her new Great White Shark form.

CRASH!

The result was that the wall was destroyed.

Jenna: "Ok, now I should try to change back."

She closed her eyes and concentrated. Then she felt her fin beginning to shrink.

Her hands began to turn back to normal. Her shark teeth retracted into her gums as they were replaced by her normal teeth. Then her head turned back to normal.

Jenna groaned in pain as her hair sprouted out of her head. Finally, her skin changed back into her normal human color.

Jenna: "I should be back to normal."

That's when she noticed that her voice was normal again. Jenna looked in the mirror and smiled at her human reflection. But she then felt a bit bare and realized that she was topless. She covered her chest in embarrassment.

Jenna: (Blushing) "I can't believe this happened to me. I'm the first gene slammed person to be able to switch back to human form. Man, I can't wait to wait to eat some delicious fish later!"

Jenna: (Shocked) "No! That's my Great White Shark half talking. Alright, Jenna. You need to start thinking human thoughts. Think of things like cute boys and your education!"

After a few minutes of thinking, she no longer had a craving for fish and said with a sigh.

Jenna: "Good. I'm not craving fish anymore. Now to put on my spare tank top."

She quickly opened her bag and pulled out her spare tank top.

Jenna: (To herself) "Good thing I plan ahead."

She puts on her spare tank top.

Jenna (Determined) "Now to help the Street Sharks."

FLASHBACK ENDS

Jenna: I went out to find you guys. But you weren't in the city. So I went to find you at Team Loud Phoenix Storm Estate and it looks like my intuition was right.

John: I'm glad you found us Jenna.

Me: We are too. So you found a formula that enabled you to change at will. That's cool.

Lisa: Indeed it is.

Jenna: It sure is. But how did you all get your human forms back John?

John: J.D. and everyone gave us all the power to change into our Gene-Slammer forms at will.

Me: Turns out that sharks aren't the only creatures Dr. Luther Paradigm spliced into people.

Trudy: That's right. I'm half Flying Fish.

Dayna: I'm half Octopus.

Olga: I'm half Sea Wasp.

Yuna: I'm half Viperfish.

Everyone that was gene-slammed revealed what they were slammed with.

Jenna: Wow! You guys have been through a lot!

Qin: I know.

Natasha: It was a nightmare.

Me: The Paradigm Brothers are a total menace to the laws of Mother Nature and to the entire animal kingdom in general. We have to kill them or it'll spell disaster for the whole planet.

Lisa: Indubitably.

The alarm sounded.

Computer: INCOMING CALL FROM W.O.O.H.P.

Me: On screen.

On a holographic screen was Jerry.

Jerry: Hello J.D. and Team Loud Phoenix Storm.

Me: Usually you suck us into a tube that goes into your office. Never call us.

Jerry: Sorry, everyone. It turns out that the intended W.O.O.H.P. entrance I had for you is broken. Is it ok if you find another one?

Flik: That's fine by us.

Me: I know a way.

I beamed all of us all over there.

---

We then appeared in the office of Jerry Lewis at W.O.O.H.P. headquarters.

Me: Hello Jerry.

Jerry: Hello everyone.

Lincoln: So what's wrong with the usual way?

Jerry: Sorry about that. Turns out that specific tunnel had a broken tube.

Arcee: Don't worry about it, Jerry. These things happen.

Me: That stinks.

Kim: So what's the sitch?

Me: I take it this isn't a social visit?

Jerry: I'm afraid not.

Jerry pulled up an image of a beautiful woman.

Sam (TS): Bertha Bombshell escaped?

Jerry: Indeed she has.

Me: I take it you all have a history with her.

Sam (TS): We do.

Sam told us about her history.

---

Bertha Bombshell (nee Crackenshell) appears in "Pageant Problems". She was a former girlfriend of Jerry Lewis. She stole the WOOHP aging reversal serum after Jerry dropped his WOOHP ID in the outdoor parking lot. The girls arrive at headquarters after being WOOHPed and Jerry discovers that the aging reversal serum that he developed is missing. Alexandra discovers a hair strand. After analysis it is revealed that Bertha Bombshell is responsible for stealing the serum. Jerry sends the girls to investigate to Liverpool, England where Bertha lives.

While they investigate her house they discover a picture of her winning second place as "Ms. Fish and Chips". They realize Bertha wants revenge for being picked as second place. When they communicate with Jerry he reveals to them that he once dated Bertha much to their shock. He then tells them that the aging serum eventually deteriorates and orders them to take Bertha into custody to remove the serum's effects. The girls realize that Bertha is a contestant in the upcoming charitable teen contest and that is why she stole the aging serum to become her youthful self.

Before the talent portion the girls attempt to stop Bertha. Samantha uses the Web Sling Ring to stop her but backfires and the girls get caught instead. While they are trapped Bertha explains that her aim is to be the winner of the charitable teen contest. As she leaves the girls behind, the serum's effects come into effect and her body begins to mutate soon becoming elastic. Noticing her condition during the talent portion of the competition, the host eliminates her from the competition.

Angered, Bertha goes on a rampage. In her mutated form she stretches both of her legs and stomps on the stage causing the audience to flee. The girls free themselves and fight Bertha. Clover and Samantha manage to hit her with sonic missiles from the Motorboat leaving her to fall into the ocean. Still refusing to give up Bertha attacks the boat with punches. Eventually the girls succeed in defeating her with their gadgets. Jerry finally shows up and Bertha apologizes to her former boyfriend. Jerry comments that she is still the second place of "Ms. Fish and Chips" before taking her into custody.

---

Lola gasped in horror!

Lola: She is an absolute disgrace to Beauty Pageant stars!

Me: And we had no idea she is your ex-Girlfriend Jerry.

Laney: Talk about a bad relationship.

Me: I've seen a lot of crime documentaries where the love the woman has for the man is a lie and that they want only their money and assets. Did this happen to you Jerry?

Jerry: Yes it did.

Me: What does she plan to do?

Jerry: We believe she is going to get revenge on all beauty pageant stages.

Me: Then we have to stop her. This time we're not going to kill her.

Cybertron Scourge: Since Bertha's your ex girlfriend, we'll simply throw her in prison.

Jerry: That's fine. But I'll come with you all this time.

Me: Are you sure Jerry?

Jerry: I am positive J.D. Our sources say that she is sailing on her sea fortress to Europe. She is moving across the Atlantic Ocean at a slow and even pace.

We saw her moving sea fortress and it was an impressive piece of machinery. (Think of the Floating Sea Fortress from Campaign Master)

Me: Then we need to use our new pirate ship on her.

Rainier Wolfcastle: (Arnold Schwarzenegger Accent) I have a plan to get myself inside Bertha's home.

Maria: And that is?

Rainier Wolfcastle: First, I'll need some ice.

Nightbird: And I'll get in through a vent shaft.

Me: Good ideas and I know what you're gonna do Mr. Wolfcastle. Like in your McBain movies.

Rainier Wolfcastle: Bingo.

Me: All right then. Lets do it.

We were off. Along the way, Nico caught a a Durant and a Hydreigon.

---

We were sailing on the Atlantic and we were on our ship the T.L.P.S. Phoenix Maelstrom.

Me: Steady as she goes Mr. Lincoln.

Lincoln: Aye aye captain.

Mindy C.: This is so cool being in a ship.

Nico: We built it ourselves sis.

Laney: Captain, Sea Fortress off the port bow!

We saw Bertha's Sea Fortress.

Me: Target sighted. Man your stations!

We manned our stations at the weapons and more.

Me: Time to call in the big guns to help.

I pulled out the Flute of The Flying Dutchman.

Me: Luxord, Flying Dutchman, we need your help.

I blew the flute and then out of the water breached the Flying Dutchman!

It pulled up to us.

Luxord: Hello J.D.

Me: Hello Luxord. We're going after that ship there. We're going after an evil Ex-Girlfriend of Jerry Lewis.

I revealed her history.

Luxord: You called the right people.

Me: Lets do it.

We got on both sides of it.

Me: Blow the engines of the fortress out! FIRE!

Luxord: FIRE!

We blew the engines of the fortress out.

Me: Prepare to board mateys!

We rushed into the ship.

Inside the ship in a luxurious ballroom Bertha and her followers were having an awesome party, completely unaware about us coming aboard. A magnificent ice sculpture of the statue of Aphrodite came in.

Bertha: I don't know where this ice sculpture came from. But it's perfect for me!

Suddenly, the ice sculpture shatteres to reveal Wolfcastle.

Bertha: What the?!

Wolfcastle: Ice to see you! (punches Bertha as Nightbird gets in from the vents)

We burst in and we were ready for action!

Me: Bertha Bombshell. You certainly live up to your name as a beautiful and voluptuous host.

Bertha: You just got to love this serum, Knudson. Not only do I have powers again, but it'll make sure I live forever. Just like you!

Lola: Immortality is earned, not gained!

Me: By the time we're finished with you Bombshell, you'll wish you were dead. You'll be completely helpless. Try to imagine how it would feel to live on forever, unable to do anything with all of your power. An eternity where there's nothing but you.

Lola: You are an absolute disgrace to the worlds of Beauty Pageants! True Beauty comes from your heart!

Me: That's right. Haven't you ever heard of that old saying: True Beauty Lies in the Eye of The Beholder?

Bertha: I know that saying.

Me: Good. Then you know this old saying: Beauty is Only Skin Deep. What your beauty hides, reveals your true nature.

Bertha: Why you!?

We went at her and I punched her in the face.

Lincoln just tried to zap Bertha with a massive blast of lightning, but it didn't have any effect.

Bertha: Silly Lincoln Loud! My elastic powers make me insulated to your lightning!

Me: Are you made of rubber?

Bertha: Yes.

Bertha used a stretchy fist to knock down Edd, Eddy, and Ed.

Bertha: Your 3 most powerful members got defeated in only a few seconds? I'm not impressed.

Nico: Bertha Bombshell, you have failed this world!

Rubberband Man: You're not the only one with stretchy powers!

Rubberband Man stretched his fist and slammed it into Bertha's face and it was slammed into like a fist through silly putty.

Jenna: Lets see you survive this!

Jenna turned into her Street Shark form and she bit Bertha in the leg and she screamed in excruciating pain.

Nami: You are really stretchy like my friend Luffy. Too bad you aren't as goofy as he is.

Nami bashed her in the face with her staff.

Lola bashed Bertha in her face with a powerful punch and she fired a powerful blast of fire and burned her.

Lola: Lightning may not be powerful to go through rubber but fire will melt it.

Suzi fired a powerful blast of fire and burned Bertha.

Suzi: I'm a beauty pageant star myself and you make us all look bad!

Lola: That's right Suzi!

Jerry punched her in the stomach and kicked her in the face and punched her in the stomach again.

Me: Time for some teamwork!

Cybertron Scourge: Roger that! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Cybertron Scourge's back and 2 more heads popped out and they roared.

Cybertron Scourge: Witness the 3-Headed Dragon!

Nightbird: Right with you boss! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into her back and enhanced her laser guns 100-fold.

Cybertron Scourge and Nightbird: FIRESTORM LASER BURN!

Cybertron Scourge fired a massive blast of fire from all three of his mouths and Nightbird fired two powerful laser blasts and they hit Bertha and burned her.

Flik: Time for some awesome helping! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enabled him to grow butterfly wings made of grass out of his backpack and he had a sword of lightning in his hand.

Arcee: Time for some fun. CYBER KEY POWER!

The Autobot Cyber Planet Key went into her arm and enhanced her laser blasters 100-fold.

Flik (A Bug's Life) and G1 Arcee: LIGHTNING GRASS LASERSTORM!

Flik flew into the air and fired a massive lightning blast and Arcee fired lasers and they hit Bertha and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMM

Bertha was down but not out.

Bertha: Get them!

Her lackeys came at us. Suddenly from out of nowhere, a massive volley of arrows flew at all the lackeys and skewered them through their heads. Killing them.

Me: Wow!

Lana: Where did all those arrows come from?

Me: Not even I can fire that many arrows all at once.

Luan: J.D. I sense a Clow Card.

Sakura Avalon: I feel it too!

Me: It's the Arrow Card.

I looked behind me and I saw The Arrow Card. 矢 Arrow is a smallish, pink girl, wearing a bluish-purple outfit consisting of shorts, a top with long, back tails, long gloves, and long boots topped with balls on the foot, with a pudding basin haircut, a red, circular gem on her hair, and two, long pigtails held by balls. Arrow carries a short bow.

Kero: The Arrow Card is an awesome marksman. She has a very good shot and can hit any target from any distance.

Me: She sure is a good shot. But she needs to go home. RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card appeared and sucked her into it. She was a Clow Card again.

Me: Yes!

I signed the card.

Me: Final Smash time guys!

Lola: You got it J.D.! FIRESTORM TORNADO SPIN!

Lola fired a massive blast of fire and it spun Bertha around in a massive tornado made of pure fire. Burning her.

Jerry: You are a bad girlfriend Bertha! MEGA KICK SLAM!

Jerry ran and kicked Bertha in her face with such devastating force that the impact imploded her whole face.

Bends kicked Bertha in her face and did the same thing.

Bends: Seriously babe, you need to get a real makeup stylist.

Me: You said it Bends.

Lola: (To the viewers) Never mess with true beauty from deep in your heart.

Me: You said it Lola.

Suddenly the whole fortress creaked and rocked and we were being lifted up. We went out and we saw a huge machine lifting us up. It made a loud noise like a whale.

Me: Wow!

Lana: What a machine.

Then an aqua blue light appeared and Lana saw that it was an animal crystal. It landed in her hands and it was a new Wild Zord. It was the Blue Whale Zord. It was a big whale that was aqua blue and it had gold lines on it and it had glowing blue eyes.

Lana: Wow! It's a new Wild Zord! A Blue Whale!

Me: This has to be the largest zord of them all!

Nico: Amazing! You have your very first Wild Zord, Lana.

Me: It's magnificent.

Lola: Way to go sis.

Lana: Thanks Lola.

A Crystal Saber appeared on in a holster on her left hip. Bertha Bombshell was sentenced to 90 life terms in prison without parole. She was also cursed with Eternal Life Without Eternal Youth. We put her floating fortress in Lake Huron Harbor. Bends and Jenna joined us.

THE END

Another Fanfiction and another Totally Spies Villain busted.

Bertha Bombshell was the most beautiful villain but she had an extremely rotten temper. Like how Lola did on the show. NicoChan11 gave me the ideas for this one and thanks for letting me use your Deviantart fanfic Female Street Sharks Transformation. Credit goes to you dude. The next Clow Card is The Rain. Let me know what you all think.

See you all next time.

# A Birthday-Wedding Adventure

HAPPY 24TH BIRTHDAY VINCE!

At the estate we were setting up a special ceremony in our backyard for a very special day. We were setting up decorations for a wedding and a birthday. We were also dressed up in nice clothes.

Lori: Everything literally looks perfect.

Lincoln: It sure does. This is gonna be awesome!

Me: It sure is buddy. (To the viewers) Hello everyone. I'm sure you're all wondering why everything is all decorated for a wedding. Well. Today is the wedding for Vince and Carol and it's also his 24th birthday. A Double Whammy Celebration. Never have we had a wedding celebrated here. It's a first here. All of us, Vince's family and Carol's family are here. So are the teachers of our schools as well as our friends. I'm so excited. Vince named me his man of the hour for his wedding and it's gonna be great. Even the supervillains at large have a soft spot when it comes to weddings. So they are not attacking today as everyone loves weddings. We even have a special television news crew broadcasting it.

After everything was ready, Vince came out and he was dressed in an amazing white tuxedo with a cowboy hat on.

Vince: Thanks for helping me out J.D.

Me: No problem partner. I'm just as excited for this as you are.

Vince: Yeah. I'm really nervous.

Me: I know. It's stressful. Weddings usually are. But we've been through a lot over the last 3 years. It's also your 24th birthday.

Vince: I know. Talk about a double whammy.

Then the organ played the wedding march and Carla, Evelyn and Pearl were coming down the isle as flower girls spreading flowers.

Vince: Aw. My little girls are so cute.

Me: They sure are partner. They are adorable as Flower Girls.

Carol then came out and she was being escorted down the isle by Conner Pingrey and she was dressed in a beautiful wedding dress and she was so beautiful.

Vince: Wow.

Me: Carol is so beautiful in that dress.

Vince: She sure is.

Carol got to the alter. The priests were Lady Tsunade and Optimus Prime.

Lady Tsunade: Good morning everyone. Dearly Beloved, we are gathered here today to join this man and this woman together in holy matrimony. If there are any objections as to why these two should not be married, speak now or forever hold your piece.

Cosmo: Uhhh.

Wanda: (Angry) Talk, and I'll kill you.

Cosmo turned into a clam and shut up.

Lady Tsunade: Vincent Pusateri, do you take this woman to be your wife, to live together in holy matrimony, to love her, to honor her, to comfort her, and to keep her in sickness and in health, forsaking all others, for as long as you both shall live?

Vince: I do.

Lady Tsunade: Caroline Pingrey Loud, do you take this man to be your husband, to live together in holy matrimony, to love him, to honor him, to comfort him, and to keep him in sickness and in health, forsaking all others, for as long as you both shall live?

Carol: I do.

After exchanging vows and the rings Lady Tsunade made her final statement.

Lady Tsunade: By virtue of the authority vested in me under the laws of the State of Michigan, the United States of America and under the grace and love of God,

Optimus Prime: I now pronounce you two husband and wife. You may kiss each other to express your happiness.

They did so and it was a beautiful sight. Everyone cheered wildly and we were so happy for them both. Vince and Carol were now Vince, Carol, Carla, Evelyn and Pearl Pusateri.

We had an awesome reception at the estate and we were having soda, and everything. Luan caught the bouquet.

Horsea, Poliwag, Poromon, and Manaphy: HAPPY BIRTHDAY, VINCE!

Vince: Thanks guys.

Me: Happy Birthday and Congratulations to you partner.

Vince: Thanks J.D. You all made me so happy.

Me: Think nothing of it.

Nico: We're so happy for you man.

Vince: Thanks Nico.

Me: If you ever need any help, you know where to find us.

Lori: Carol, we're literally so happy for you and Vince.

Carol: Thanks Lori.

Leni: You totes deserve to be with him.

Later we celebrated Vince's Birthday as a bonus with a special Simulator Adventure. Vince, Carol, Carla, Evelyn and Pearl were in the Simulator. It activated and they all found themselves in the Shinobi World during the 4th Great Ninja War! In the middle of the battlefield, they saw what looked like a massive tree that reached all the way up to the stars! It was the SHINJU - THE GOD TREE! It was a massively super tall tree that stretched all the way up to the edge of the sky and it had a tremendous level of power and they saw that the moon was red like blood.

Carla: That tree is massive!

Evelyn: It's huge!

Pearl: Yeah!

Vince then sensed a tremendously strong energy signal and it was mindbogglingly strong!

Vince: Holy shit! What in the world is emitting that enormous power!?

Carol: Whatever it is, it's unbelievable!

Vince: Oh no. He's done it!

Carol: Who?

Vince: Obito has succeeded in becoming the 10-Tails Jinchuriki!

Carla: Whoa!

Evelyn: All that power is coming from him!?

Pearl: Terrifying!

Vince: And we have to make sure that he never succeeds in destroying the planet!

Vince looked up at the moon and knew what he had to do. He fired a massive energy blast right at it.

Obito: Just stay right there. Your suffering will come to an end.

Suddenly a massive explosion illuminated the sky with a deafening boom!

***KRABBBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

When the smoke cleared there was absolutely nothing left of the whole moon! It was completely obliterated! Black Zetsu saw this and he was infuriated!

Vince, Carol and the girls landed! They were now in their Super Angel 20,000 and Super Angel forms.

Obito: So you all came.

Vince: That's right. My name is Vince Pusateri.

Carol: Carol Pusateri.

Carla: I'm Carla.

Evelyn: Evelyn.

Pearl: And I'm Pearl.

Vince: It's over Obito. It stops here.

Obito: Do you have any idea what you have just done!?

Carol: Destroyed your plan, that's what!

Vince: And now we're going to destroy you!

Carla: You're going to pay for your crimes!

Obito: We'll see.

Without warning, Vince punched Obito in the face with devastating force and sent him crashing into the ground. Carla and Carol fired a massive blast of Godzilla's Spiral Ray and it hit him and exploded into a massive fiery explosion.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Obito got up and flew at them and Carol fired King Ghidorah's Gravity Lightning and it hit him and exploded all over. Evelyn fired Destoroyah's Micro-Oxygen Ray and it him him and exploded. Pearl slashed him with Destoroyah's Horn Katana with her hand in a karate chop and cleaved him right in half!

Vince: Now you will pay for your crimes in Hell! (Cups Hands to Side) KAAAAAAAAAAAAAA! MEEEEEEEEEEEEEEE! HAAAAAAAAAAAAA! MEEEEEEEEEEEEEEEEE! HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

Vince fired a massive red Kamehameha Wave and it hit Obito and engulfed him!

Obito: FUCK YOU ALL TO HELL!

Obito was completely obliterated in an instant and the blast killed him.

Carol: Now it's time for us to kill Madara and send him back to Hell.

Vince: You read my mind. But first.

Vince found Black Zetsu and fired a massive energy blast and it hit him as he was hiding under a rock and obliterated him in a massive explosion.

KRABBBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Vince: That's it for him.

They went and faced Madara Uchiha.

Madara Uchiha's most defining trait is his monumental ego. He is an extremely overconfident, egocentric, manipulative and conceited man who cares only about might and skills, which shows as he belittles everyone he deems weaker; including the immensely powerful Kage and the formidable Kurama. The only one he respects is Hashirama Senju, whom he admired immensely but grew to hate fiercely.

Madara is a staunch and dependable battle-lover who lives and breathes to fight, which he calls "dancing". However, he only involves himself in battles he deems challenging, going as far as to keep his foes alive as long as he is having fun. On the other hand, he will slaughter mercilessly those who do not interest him or worse. Although he never bothers fighting at full strength, he shows off his powerful techniques for no other reason than that he can.

Despite this, he remains very cautious no matter what the situation. He also proves to be quite praiseworthy and honorable, giving genuine praise whenever someone exceeds his expectations and harsh but constructive criticism when he sees it necessary. However, most of his praises are followed with a statement about how superior he and Hashirama are.

Madara is cruel, aloof, self-righteous and spiteful, with a macabre sense of humour. He cannot stand being surpassed, and displays a childish obsession in settling his score with Hashirama. Growing up in an era of permanent war made him highly warmongering, belligerent, malicious and vindictive. He hated the Senju so much that he was unable to ever conceive the possibility of an armistice. He was persuaded that their offers of friendship concealed attempts to subdue his clan and sought to maintain hatred against everyone's wishes. His disregard for the welfare of anyone around him has seen him commit some fairly horrific deeds, such as manipulating events to crush Obito's spirit and dismembering both allies and enemies so he can replace missing body parts.

In stark contrast with the angry and obstreperous outburst, he frequently had as a child, Madara has near-unshakable composure, due to the loss of his former ideals. The only times he shows any signs of real emotion are when facing Hashirama or a real challenge, at which point he becomes ecstatic and acts like an overly eager child. He also proves to be a very intelligent and manipulative strategist and an expert manipulator, who devises many safeguards to ensure that things go in the direction he wants to, even when it seems he might lose. However, his inability to fathom that he could get outsmarted proved his undoing.

Madara believes that hope is seemingly irrelevant, that cooperation is nothing but a silent conflict, and that peace and war cannot exist without each other. He scorns visions of the world other than his own and believes that he is the only one who is able to fix the precursors' failures. He also demonstrates a very strong desire for domination, which first made him want Konohagakure to dominate every other nation, and culminated in his desire to rule reality itself. Although he believes that the Eye of the Moon Plan is the only way to make the world better, everyone else rightfully points out that his vision of a better world is in fact him being in control of everything.

All in all, Madara appears as someone utterly repulsive, whimsical and petty, who not even the Tailed Beast or his own apprentice can stand. He is unable to accept being beneath Hashirama or less worthy of the title of Hokage, and cannot bear the thought of not being the greatest in every subject, like a bratty child denied of a fancy toy. All he wants is to rise higher than Hashirama ever could, with everyone worshipping him as the god he thinks he is. He would sacrifice anyone, including his clansmen, to further his plan without remorse.

However, in every fairness, Madara is entirely complete of qualities, as he dearly loved his little brother Izuna Uchiha, even more than Itachi Uchiha did his brother Sasuke Uchiha. As a child, Madara strived to make a world safe for his family and believed that peace could be attained by coming to an understanding with his enemies, hence his friendship with Hashirama who shared his ideals. Even at this time though, he was already very pompous, domineering, boastful, and quick to blame others for his own shortcomings. Unfortunately his selfishness and rampant egomania eventually got the best of him.

While he did genuinely want the best for his clan, he could never fathom that they did not share his wishes, instead feeling they did not respect him enough. Tobirama Senju has stated that the Uchiha's Sharingan is powered by their grief and rage and fuels it in turn, at the risk of corrupting them; partly explaining why Madara sunk so low. Despite this, however, as Madara genuinely believed the Eye of the Moon Plan was for the greater good of all humanity, it is shown that his time in Konoha did influence his actions and it was not out of blind rage and hatred for Izuna's death.

However, after learning that Black Zetsu had both manipulated and betrayed him to revive Kaguya, Madara laments on the mistakes he had made and re-accepts Hashirama's friendship, effectively freeing him from his Curse of Hatred.

---

Hashirama Senju, the 1st Hokage was fighting Madara.

Hashirama: You have no idea what you're doing Madara.

Madara: I don't huh? I will become a god and bring peace to this world!

An Energy blast was fired offscreen and Madara saw it and it hit him and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

When the smoke cleared, Madara was blown half to pieces and was regenerating.

Vince, Carol and the girls landed.

Madara: So you've come to kill me?

Vince: And send you back to Hell where you belong.

Carol: You've caused so much pain and suffering Madara!

Carla: Now you will die again!

They teleported and punched Madara in the face and kicked him. Madara teleported and Vince sensed where he was and punched him in the stomach.

Madara was in a lot of pain and he fired a massive blast of fire from his mouth.

They teleported and kicked him in the face and Madara crashed into the ground. He got up and growled at them.

Madara: I HATE YOU!

Their auras flared up with incredible intensity.

Vince: You hate the fact that you're powerless to stop us. That you're completely outmatched.

Carol: Well imagine feeling the way you do now all of the time like everyone else on this planet do.

Vince: You fool! How do you think everyone here felt when you senselessly ended their lives for your own selfish gain to destroy the planet?

Carol: Well now it's your turn.

Vince: We hope you enjoy it!

They went at him and kicked him in the face together and knocked him down and flew into the air. Then they fired a massive energy blast and it hit him and exploded and he was completely obliterated in a massive fiery explosion!

***KRABBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

Madara Uchiha was dead and sent back to Hell where he belongs.

Vince: Go back to Hell and stay there.

Carol: It's over. His energy signal has disappeared.

All the Shinobi cheered wildly. The war was over. Vince snapped his fingers and resurrected everyone that was killed because of Madara and Obito.

They left the Simulator and we cheered wildly for them.

Me: Way to go guys!

Varie: That was so awesome!

Vince: Thanks guys and thank you all so much for making this the best ever birthday and wedding ever!

Me: No problem partner.

Laney: We're so glad you all had fun.

Vince: Thank you all so much. All of you.

Carol: Thank you.

Everyone: You're Welcome!

It was the beginning of an awesome life together for Vince and Carol.

# A Genetic Teenage Scientist

At the Neptune Prison, Nico was talking to Caitlin and Dominique.

Nico: (to Caitlin and Dominique) Ok. Here are the new IDs for you. Now, just lay low until I can clear your names in Beverly Hills.

Their names for the time being are gonna be Peggy and Jenny.

Caitlin: Thanks Nico.

Dominique: Yeah as long as we're free from that bitch Mandy.

Nico: No problem. She has failed this world because of her own selfishness.

Caitlin: You got that right.

Caitlin and Dominique were placed on supervised probation and protection in San Francisco.

---

Back at the estate we were watching TV, playing card games, reading books and playing portable video games. Lincoln was reading comics in his underwear.

Rhinox: Where are Caitlin and Dominique now?

Nico: They are on Supervised Probation in San Francisco, California.

Riley: I would not want to be in their shoes now.

Me: Me neither.

Beast Wars Inferno: You did the right thing helping them, boss. Now, they'll be free of any further villainous influence.

Nico: Thanks Inferno.

Maria: Vince, promise me you'll never cheat on Carol. Because if you do, (cracks her knuckles) I won't be happy!

Lincoln: That was cool though.

Me: Yep. Sidney how did you all transform the first time?

Nate: We're now free.

FLASHBACK ENDS

We laughed.

Qin was reading the Cooper Clan's book and guide to thieving: The Thievius Raccoonus.

Qin: Sly, this book your family made is incredible.

Sly: Its been in my family for generations.

Qin: How long has you and your family been stealing?

Sly: I come from a long line of master thieves. All our family's secrets of sneaking and stealing were written here and its been passed down over the ages. You see the Cooper Clan specializes in stealing from criminals. After all, there's no honor, no challenge, no fun stealing from Ordinary People. You rip off a master criminal, you know you're a master thief.

Brittney: It's true. Sly and the Cooper Clan are truly honorable thieves.

Qin: Who are the members of your family?

Sly: My family name goes back to prehistoric man, 12,000 years ago.

Sly went over the members of his family.

---

Caveman "Bob" Cooper - The first known Cooper, Bob was a thief from Gungathal Valley, 10,000 BC. He stole pterodactyl eggs as food for his tribe. His major contribution was the invention of the tool that became the very first cane. His special ability was being able to climb on icy surfaces, but could not do common Cooper moves such as the Ninja Spire Jump or Rail Walk. He was the first Cooper alive.

Slytunkhamen Cooper I - Sly's ancestor from ancient Egypt circa 1350 BC, he was the father of Slytunkhamen II and the creator of the Thievius Raccoonus. His signature ability was to turn invisible to aid in stealing from corrupt Pharaohs and greedy noblemen. He was the first known ancestor before the Cooper Gang's escapades in the Ice Age.

Slytunkhamen Cooper II - He was Sly's ancestor from ancient Egypt circa 1300 BC and supposed creator of the Cooper Vault. He had two canes that bore a striking resemblance to the Egyptian Khopesh. He was skilled at creating the traps that were used in ancient Egyptian tombs.

Salim al-Kupar - Sly's ancestor from Arabia, 1001 AD, Salim is said to hold the stealth of forty thieves. His weapon was a sword with a curved, hooked blade sporting a scimitar-like look, but with a much thicker blade. Naturally, he wore a turban in his Cooper Vault portrait. He has perfected a move called the Cobra Climb ability and owned a magic flying carpet. He loved to eat.

Sir Galleth Cooper - Sly's ancestor from the Medieval age, 1301 AD.

He was an honorable knight and cunning thief who fought with a lance featuring a hook point. In Sly Cooper: Thieves in Time, it is shown that he perfected the wall hook climbing technique. He was also able to smash through barriers to get to his next point using the Catapult Crash.

Slaigh MacCooper - He was Sly's ancestor from 15th Century Scotland. The strongest of all of the Coopers, he could break any lock with a single blow using his large stone cane. He was the Cooper who created the wall-edge sneak.

Rioichi Cooper - Sly's ninja ancestor from Feudal Japan, 1603 AD. He created the Ninja Spire Jump and implemented Japanese artwork of himself in his part of the vault. His weapons were two small canes, resembling hooked sais. He used the Spire Jump to sneak into heavily fortified castles in Japan. He was also responsible for the creation of the Leaping Dragon technique, allowing him to jump far distances from a ninja spire point.

Henriette Cooper - She was a female ancestor of Sly who sailed the seas circa 1616 AD and stole from other pirates. Originally wielding a hooked dagger, she lost a hand and replaced it with a hook shaped like that of the trademark Cooper cane.

"Tennessee Kid" Cooper - He was Sly's outlaw ancestor from the western United States, 1884. He carried a six-shot revolver with a hooked handle. "Tennessee Kid" also invented the Raccoon Rail Walk and Rail Slide. He used these to his advantage, due to the fact that there were many train rails all over the land.

Thaddeus Winslow Cooper III - He was a Cooper from Victorian-era London, 1839 or 1893, who was the most "gentlemanly" thief and a master of disguise. He had a cane similar to Sly's; the only difference is a red ruby-like gem at the end of its hook.

Otto Van Cooper - He was an ancestor of Sly from Germany in World War I who was a genius mechanic and skilled fighter pilot, much like Penelope. Due to his physical ineptitude, he used his talent to pull off heists with his machines facilitating his thievery. He kept some of his technical blueprints in the Thievius Raccoonus. The propeller blades of his biplane were shaped like the trademark

Cooper hook.

Conner Cooper - He was Sly's father, who used the same cane that now belongs to Sly. Before being killed by the Fiendish Five, he pulled heists with Jim McSweeney and Dr. M, and created a technique to slide along lasers. He is seen as nothing more than a silhouette throughout the series. He did not write his "laser slide" move in the Thievius Raccoonus; rather, Sly learned the move while in the Cooper Vault.

Slytunkhamen Cooper III

He appears in the opening cutscene of Sly Cooper and the Thievius Raccoonus, shown stealing from corrupt Pharaohs, much like his father and grandfather. His cane is very similar to Sly Cooper's cane. He was presumably born between 1300 and 1280 B.C.

Drake Cooper

He created the Dive technique. The main use of this is spinning the cane while lunging forward. This move is also available as an unlockable power-up in Sly 2: Band of Thieves, and as a purchasable power-up in Sly 3: Honor Among Thieves.

Sally Cooper

"Old" Sally Cooper was a female member of the Cooper Clan. She created a mobile move, the Raccoon Roll, which is only available for Sly in Sly Cooper and the Thievius Raccoonus. Later, it was upgraded by Kelle McCooper so that it could project an electric field around the user.

Dev Cooperinda

Dev is the creator of the Slow Motion Jumps. This move is dubbed "Slow" in Sly Cooper and the Thievius Raccoonus, and "Thief Reflexes" in Sly 2 and Sly 3.

Chris Cooper

He invented the coin-collecting dive technique by modifying the Knockout Dive. The move comes standard in all three sequels, however, after Sly Cooper and the Thievius Raccoonus, it no longer collects coins as it makes its impact, rather relying on its brute force to daze or stun enemies.

Karin Coopergiwa

She invented the Coin Magnetism technique. The name "Karin Coopergiwa" is a reference to the name of Karin Yamagiwa, who was one of the level designers for the Sly Cooper series.

Rob McCooper

Responsible for the creation of the Mine technique. He is named after Rob McDaniel, who can be seen in the credits for Sly Cooper and the Thievius Raccoonus.

B.F. Cooper

He is Sly's hyperactive ancestor who invented the Speed up the Clock technique, an ability that not only allowed security to go faster but himself in addition. He could be described as the opposite persona of Dev Cooperinda. Bentley said that he might have used it to speed up long stakeouts.

Suzanne Cooper

She had a strong aversion to water, and to counter this, she designed and documented Water Safety, a move that allowed her to jump out of water without losing a Lucky Charm. Sly used the move to his own advantage during his battles against the Fiendish Five.

Andrew Cooper

Known as Sir Andrew Cooper, he created the thief replica, or "Decoy" technique. This allowed one to distract guards, giving the user the chance to slip past them. This trick is only used in in Sly Cooper and the Thievius Raccoonus. Seeing as he was known as "Sir" Andrew Cooper, he likely lived during Medieval times, and might be directly related to Sir Galleth Cooper.

Kelle McCooper

Kelle McCooper was a male member of the Cooper Gang who discovered how to harness the electromagnetic field created by rolling, and augmented Sally Cooper's rolling technique with an electrical aura.

Bruce O'Coop

He was an expert hacker, and was known as the smartest of all Coopers. He presumably lived in the 60s or later, due to his hacking abilities.

Matthew de la Coopeur

He was French and the slowest Cooper, creating the perpetual slow motion technique. This is available in all of the Sly games, but renamed "Thief Reflexes" in Sly 2 and Sly 3. In Thieves in Time, Bentley wondered if he was influenced by the Thief Costume's ability to slow time.

Huckleberry Cooper

Taking after the famous fictional Huckleberry Finn, he was the inventor of the ability to move, albeit slowly, while invisible. The technique itself is available in all of the Sly Cooper games.

Colonel Reid Cooper

He was the inventor of the Stun move. The freeze move is in the first game and works on all guards including bosses.

Sir Augestine of Cooper

Sir Augestine of Cooper was the inventor of the ability to briefly Defy Gravity. It is an incredible power that will let Sly fall in bottomless pits without losing a horseshoe. It is even said that Augestine could levitate for days on end and not even break a sweat; while at it, he could rob anyone he chose blind, and they wouldn't even know where he went because of the lack of tracks. This move also proves helpful when accidentally falling off of large edges and cliffs.

Qin was amazed!

Qin: Whoa! That's a long ancestry.

Me: We were surprised ourselves.

Nico: Yeah. It was something.

Qin: But I noticed in some of the pictures of Sly's ancestors what looks like a big Shadowy Owl. What is that?

Brittney: Oh that is the ultimate evil enemy of the Cooper Clan: Clockwerk.

Qin: Who or what is Clockwerk?

Brittney: He's the rival of the Cooper Clan.

Brittney went over the history of Clockwerk.

---

Clockwerk was born a long time before the events of the Thievius Racoonus as a Eurasian Eagle-owl with red eyes and brown plumage. No information is given of his family, real name, or early life, though it is known that, at some point he learned of the great fame of the Cooper Clan and was overcome with rage, hatred and jealousy. Due to this burning hate, he knew he had to carry on in order to wipe out the Cooper family. He made a final decision and began replacing his own body with machinery. How such advanced technology was acquired back then is still a mystery, though it may be that Clockwerk was an inventor or builder of sorts. He may have been born in the Ice Age as Clockwerk was sighted there in Thieves in Time.

Clockwerk is more than a thousand years old, enough that even in some of the oldest pictures Sly has of his family, Clockwerk's shadow can be seen in the background against the sky or moon. He has been kept alive by his fierce, fiery hatred for the Cooper family, a line he made himself a rival of. Either when, before, or after Sly was born, he formed the Fiendish Five. When Sly was around the age of eight, he led them in an attack against the Cooper family, slaying Sly's father and mother. In the process, he stole the family's sacred book of thieving, the "Thievius Raccoonus", tore the pages out of the book, and gave some of the other pages to the other four members. Even though Clockwerk was aware of Sly's existence, he doesn't hurt him. The reason for this is can be found by a famous quote from Clockwerk during their confrontation over a volcano, "… I wanted to show the world that without your precious book, the Cooper line was nothing."

Sly Cooper traveled the world with Bentley and Murray once he left the orphanage, seeking to recover The Thievius Raccoonus from The Fiendish Five, which are Sir Raleigh, Muggshot, Mz. Ruby, Panda King, and of course Clockwerk himself.

Sly studied the pictures in the book as he recovered them; seeing Clockwerk's frame in each photo, he began to piece it together. However, it was Bentley who figured out where the evil owl was hiding, and they traveled to a volcano in Russia to finally face the murderer of his family. They went to the fictitious Krackarov Volcano on the Kamchatka Peninsula in Russia. Clockwerk didn't directly meet Sly at first; instead he caught Carmelita and used her to lure Sly into a gas chamber, where Bentley saved him by hacking into the device, shutting it off. Sending one of his smaller Robot Falcons, nicknamed "Falcons", he stole Sly's cane in which Carmelita promptly helped the raccoon get it back. Finally, borrowing the Inspector's jet pack, Sly faced his robotic foe, who answered Sly's questions with what he thought to be the correct answers. The metal in Clockwerk's armor was too strong for the jet pack's bullets to break alone, so Carmelita shot the owl's body with her gun, which weakened the armor and allowed Sly to strike his foe down. Clockwerk falls into the lava only to fly back out, no longer with his wings but jets, which hold the massive owl aloft. Shooting more deadly missiles now, they continue to fight over the lava until finally the owl falls again. Sly lands on the Clockwerk pieces with Bentley's warning in his ears, that the owl will reconstruct himself if Sly doesn't finish him off fast. Sly slams Clockwerk's face with his cane, while Clockwerk shouts out, "Cooper! You will never be rid of me! Clockwork is superior!"

Though thought to be defeated, an end cutscene shows Clockwerk's head floating in the lava, as one red eye opens slowly then Murray screams after that have happened after the credits. He regenerated after Sly destroyed his head in the final battle.

Neyla betrayed Sly and the Klaww Gang, sealing her body and soul into Clockwerk. During the battle with Clock-La she claims that a new power is growing inside her, this is actually Clockwerk taking control of her body, during the final phase of the fight Clockwerk is in control of Clock-La and uses Neyla's hate to fuel himself.

Clock-La was destroyed by Sly, Carmelita, Bentley and Murray, but not before its beak clamped down and broke Bentley's legs. After Neyla's death, Sly and Carmelita destroy the Hate Chip, thus destroying Clockwerk and his remaining parts for good.

---

Qin gasped in horror!

Qin: That's horrible! Sly, I'm so sorry that all happened.

Sly: It's all right Qin. But thank you.

Bentley: Sly coming to the Orphanage we were in was really a blessing in disguise. Me, Murray and him were destined to become the next Cooper Gang.

Murray: You said it Bentley.

Penelope: I agree.

Qin: Did you guys beat all of the Fiendish 5?

Brittney: We sure did. Let me explain what they all did.

Qin: Okay.

Brittney revealed the history of Sir Raleigh the Frog.

---

Bored with a life of wealth and privilege among the aristocracy, Raleigh's criminal mind blossomed when he discovered a life of piracy. Raleigh quickly became addicted to crime, which got him noticed by the Fiendish Five. His genius for designing evil machinery also won this crime addict his place in the Fiendish Five.

After the attack on the Cooper home, Raleigh took off with the notes of Rioichi Cooper.

Years later, he had established himself near the fictitious Isle O'Wrath, situated in the center of his artificially created Welsh Triangle. Using his storm machine, he caused ships to crash, allowing him to loot them for treasure. Boarding the machine, which was contained in a blimp, Sly confronted Raleigh. Raleigh mocked Sly, saying that he and the rest of the Fiendish Five should have "finished the job" when he helped slaughter Sly's parents. Raleigh then swallowed special bees and bloated to gargantuan size, previously stating that he would "crush Sly like the insignificant bug that he is". Raleigh fought Sly on retracting platforms within the command centre of his blimp.

Despite his powerful attacks, Raleigh was beaten. Still conscious, Raleigh warned Sly of the dangers that awaited in Mesa City, where Muggshot resided. He began claiming that not even a snake could slither in without setting off alarms. Right on cue, Carmelita Fox arrived to arrest him and his crew, ending the legend of the Welsh Triangle.

---

Qin: So Sir Raleigh was wealthy like us.

Me: Yes. His mansion boat is in Lake Huron and it's the home of Minato and Kushina. But he was the weakest member of the Fiendish 5 from what we saw.

Sakura: Next we faced Muggshot.

Brittney: And he was a big bruiser.

Brittney revealed all of Muggshot's history.

---

Once a rather puny specimen of a canine, Muggshot would change dramatically after he watched the film the "Dogfather" (a pun on "Godfather") and became obsessed with becoming a gangster himself.

Dedicating himself to training the once "runt" Muggshot grew into a muscular monstrosity who soon lay waste to his enemies and became a powerful crime-lord complete with his own army of henchmen, guns and heavily guarded casinos. He then became a member of the Fiendish Five.

Muggshot was present, along with the other members of the Fiendish Five, at Sly Cooper's house when Clockwerk had them attack and kill the thief's parents so they could steal the pages of the Thievious Raccoonus, the tome detailing the Cooper's thieving skills. It is unknown what is exact roll was. He took a portion of the pages and hid them in vaults around the fictitious city of Mesa City, Utah, prompting Sly Cooper to track him down thirteen years later to retrieve the pages and defeat him.

Muggshot was the second member of the five to be defeated by Sly, the first being Sir Raleigh. After retrieving all of the pages held by Muggshot, Sly used several of his 'treasure keys' to gain access to his penthouse, where Muggshot lay in wait for him. The two fought, Sly using his agility and Mugghsot with his massive pistols. Cooper defeated Muggshot by using glass lamps to reflect light at him and make his pistols explode.

After the fight ended, Muggshot expressed his amazement at being bested by Cooper, but stated he would not be able to overcome the third member, Mz. Ruby. He was then captured by Inspector Carmelita Fox of Interpol as the Cooper Gang escaped Mesa City.

---

Qin: Wow. He must've been really tough.

Sakura: He was. But thanks to everything I learned from Lady Tsunade and everyone, I beat him with my strength.

Me: Yep. One of the most humiliating defeats is being beaten by a girl.

We laughed.

Sakura: (Laughs) That is true.

Me: And Utah is one of the states where Gambling is Illegal.

Qin: What are the other ones?

Me: Just Hawaii. It used to be Utah, Hawaii and Tennessee. But now it's down to Utah and Hawaii.

Brittney: But the one that really steamed me was the black Voodoo Magic Mystic, Mz. Ruby.

Qin: What was she like?

Brittney went over the history of Mz. Ruby.

---

She is a large anthropomorphic alligator named after the jewel she has embedded in her belly button - she acts as one of the game's main antagonists and is a mistress of voodoo who resides in a dark and forbidden swamp where she commands an army of ghosts and voodoo-based monsters loyal to her will.

Coming from a long line of voodoo mystics, Mz. Ruby was feared by all the other children, and delved into learning her family's magic as an escape from her loneliness. Learning how to summon the undead provided her with the only companions she had. Growing into a powerful, but deeply embittered, voodoo priestess as an adult, she turned to a life of crime to punish the world for fearing her as a child, eventually becoming the chief mystic of the Fiendish Five.

---

Qin: That's awful!

Brittney: Her use of the Mystic Arts for evil really infuriated me.

Laney: The saddest story was with the Panda King.

Panda King: Yes. My story was a sad one.

Brittney went over the history of the Panda King.

---

Panda King grew up in a small village in the Kunlun Mountains of western China. There he was astonished by the colorful fireworks displays given by noblemen every year, and yearned to become just like them. Over the years he set about perfecting his craft, until he was ready to show off his creations to the noblemen. However, they scoffed and turned him away after what they saw as a pitiful display, enraging Panda King greatly.

He again set about perfecting his craft and eventually crafted fireworks so that they could be used for military purposes. This must have been about the time he also discovered his firework "technique" called Flame-Fu. Panda King then used his new fireworks to gain his revenge on the noblemen who has shunned him before.

It wasn't long until Panda King was noticed by the Fiendish Five and taken on as their demolitions expert, gaining himself the title of "The Mad Bomber".

Panda King utilized fireworks to crush his opponents and bomb entire villages into submission - making him quite a ruthless character. In Sly Cooper and the Thievious Raccoonus, Panda King used his fireworks to bury an entire village in snow. Sly arrived to witness this and eventually came to face the villain in a pagoda atop a giant stone statue of his likeness - using, ironically, one of the fireworks to reach the top. Panda King stated he would kill Sly, but honor his Cooper ancestry by using "the beauty" of his new firework technique, "Flame-Fu".

Sly and Panda King fought, the former running to avoid the flame-throwing attacks of the latter. Sly defeated Panda King by hitting him with his hooked cane, which eventually made the panda collapse. Panda King said that he was surprised to have been defeated and was in admiration of Sly's fighting skills, fainting immediately afterwords.

Later, he was accosted by Carmelita Fox and her Interpol forces, who had been in pursuit of the Cooper Gang.

At some point between the first and third game, he escaped or was released from police-custody and returned to his daughter Jing King in China. But when a warlord named general Tsao arrived and kidnapped her, he was unable to rescue her and thus tried to become stronger through meditation. When the Cooper-gang found him they offered to save his daughter in return for him joining their gang. He reluctantly accepted.

---

Qin: Wow! So you redeemed yourself in the end.

Panda King: You are correct Qin.

Qin: So was Clockwerk defeated after being thrown into the volcano?

Brittney: No. Things quickly went from bad to worse when the KLAWW Gang emerged and stole his parts.

Qin: Who are the KLAWW Gang?

Neyla: They were the worst gang ever.

Brittney went over the goals and history of the KLAWW Gang.

---

The Klaww Gang are the primary antagonists of Sly 2: Band of Thieves. They stole the Clockwerk Parts before the game from a Museum in Cyro, Egypt, which caused the Cooper Gang to hunt them down. In order, they are Dimitri Lousteau in Paris, France, Rajan in India, The Contessa in Prague, Jean Bison in Canada, and Arpeggio and Neyla on a gigantic blimp in the sky. Dimitri has the Clockwerk Tail Feathers, which he used to illegally print fake money to become rich. He also managed a nightclub, and was a drug dealer. Rajan first had the Clockwerk Wings, which he displayed at his Ball in the hopes that they'd make him seem more like nobility. After that, he had the Clockwerk Heart, which would allow him to speed up spice production 10 fold. The Contessa had the Clockwerk Eyes, which she used to hypnotize criminals and force them to reveal where they'd hidden their fortunes, so she could become rich. She was a member of Interpol so she could get these criminals. Jean Bison desired to cut down every tree and dam every river in the world, a goal which he originally had before he was frozen originally. Basically, he was just a product of his time. And Neyla was power hungry, working for Arpeggio, but secretly plotting to betray him and steal away the immortality that he wanted.

---

Qin gasped in horror!

Qin: They were going to enslave the world!

Me: Yeah. And in the process, they would make Earth the most feared and most terrifying planet in the universe. It would be a planet of pure evil from the Darkness of Hell amplified 10 billion-fold.

Nico: I heard about that. That was terrifying.

Qin: Who are the members of the KLAWW Gang?

Laney: The first one we encountered was Dimitri Lousteau. He was in Monaco, France.

Brittney went over his history.

---

Dimitri grew up listening to stories of his grandfather, Reme Lousteau, recovering treasure from pirate ship wrecks. He learned English by listening to music videos and mimicking their speech.

His life of crime began when he was a passionate young art student. He developed his own style, dubbed "kinetic aesthetic," which consisted of him swinging back and forth from a rope tied around his waist and painting the canvas as he swung by. It was rejected outright by closed-minded critics and Dimitri was cast out of the art community. Angry with such, he began forging old masterpieces; his idea of punishing those with bad taste. At some point, Dimitri came into ownership of a nightclub located on the west-side of Paris, drawing in "young, chic patrons from far and wide," called the Parisian Nigthclub.

Later he and the Klaww gang robbed the Cairo Museum of Natural history where he was given Clockwerk's tail feathers. Turning the tail feathers into printing plates, he was able to counterfeit untold amounts of money. In coordination with fellow gang member Rajan, he funneled spice into his nightclub that may have been a front for his printing operation in the basement of the club.

Dimitri soon learned that Sly Cooper and his team had arrived in Paris looking to steal Clockwerk's tail feathers. After several acts of sabotage by the Cooper Gang, Dimitri ordered his guards to shoot them on sight. Dimitri's efforts to get rid of the Cooper Gang were proven to be unsuccessful when Sly confronted him in his printing press room. Dimitri tried to get Sly to leave him alone by bribing him, but Sly, befuddled by Dimitri's strange English, refused the bribe and insulted his suit. Enraged, Dimitri challenged Sly to a fight but was defeated when Sly knocked him into the printing press machine. Incapacitated, Dimitri could only watch as Sly took Clockwerk's tail feathers.

---

Qin: Wow. I'm sorry that happened to him.

Nico: He redeemed himself when Laney got through to him.

Brittney: Yep.

Qin: I'm glad.

Brittney: Next was the Spice Lord, Rajan. He was in India.

Brittney revealed the history of Rajan.

---

Rajan grew up poor on the streets of Calcutta. He started his life of crime by selling illegal spices on the black market. As he got older, his business expanded and he eventually earned a seat in the prestigious Klaww Gang.

The Cooper Gang targeted Rajan after Bentley learned that he was in possession of the Clockwerk Wings. They broke into his party at his newly purchased Ancestral Palace in India. Soon after Sly arrived at the ballroom's balcony, he took recon pictures of Rajan and the Clockwerk Wings, along with some pictures of the Klaww Gang and the police. As Sly headed back to the hideout, Bentley presented their first operation on the heist is to use the cops to their advantage and to deal with the chopper patrolling the palace as Bentley said it was a menace to future air assaults.

Since Bentley and Murray could not get to the palace because the entrance was closed, Sly was to pickpocket five guards at separate posts for their keys to gain access to the winch to open the drawbridge.

As Bentley planned to use the cops to their advantage on the heist, he sent Sly over to the palace's doors. As Sly knocked on the door, however, the bouncer denied to let Sly in as he told him about the dress code. In order to get a tuxedo, Sly broke into the guest's house and found a separate piece of clothing as he raided every bedroom. Sly then returned to the palace doors and gained entry to the party. As Sly arrived at the party wearing a tuxedo, Bentley advised him to dance with Carmelita while on the heist to keep everyone distracted, but told him to impress her first. Sly encountered Neyla at the party and offered her a dance. After the two danced, Carmelita went up to Sly and accepted his offer to dance with her.

Once Murray passed through the entrance, he made his way towards a pre war turret and used it to take out the chopper after having an aerial attack with it.

The Cooper Gang regrouped at their hideout as Bentley now planned their heist to steal the Clockwerk wings that involves an electronic winch and a saw blade.

In order to create the saw blade, Sly headed over to the elephant's pen to collect their gemstones off their head dresses. Once Sly entered beneath the pen, however, he scared some mice that ran to where the elephants are, scaring them and driving them outside. As Sly rushed outside, he found the elephants rampaging around the palace. Sly managed to collect their gemstones as jumped on top their backs and whacked them off with his cane.

Sly broke into the vault room where he searched underneath tables to find the combination to the vault. Once Sly found it, he typed it down on a number pad, opening the doors and allowing Murray and Bentley in the boardroom. Bentley planned to hack into the palace's computers to gain access to the ballroom's electronic winch. While doing that, Sly and Murray defended him as the guards appeared and attacked them. After gaining access, Bentley left the boardroom with Murray.

The Cooper Gang was ready to pull their heist operation: Hippo-Drop. Bentley planted explosives upon the bridge leading to the guest room as a way to lure the guards watching the wings away. Sly then distracted Carmelita and the party guests while Murray lowered himself down on an electronic winch above the ballroom to quickly detach the Clockwerk Wings and escape. As soon as Murray escaped, Sly ditched Carmelita. As Murray left the party, Bentley defended him with his RC Chopper, after which, they fled back to their hideout.

When Carmelita realized she was tricked by Sly, she revealed herself to the public and began making arrests left and right. With the wings stolen and his reputation ruined, Rajan went into hiding, deep in the Indian jungle. Although the gang was victorious, Sly knew that Rajan was still out there and that it wasn't over just yet.

After a small break, the gang headed back to the now closed temple and found out that Rajan had gone into hiding deep in an old abandoned temple, reconstructing it into a spice production facility. Sly entered the temple and took some recon photos of Rajan and the Clockwerk Heart. One half of the Clockwerk Heart was being used to increase Spice Production and the other was used by Rajan as a weapon on his staff.

Rajan had an satelite array driven by an elephant. Bentley planned to get rid of it as he sent Sly to feed the elephant spices to make it run away in rage.

Sly picked up a water bug to carry to Rajan's office for Bentley to monitor from its radio frequency. In order to keep it from getting angry and from alerting the guards, Sly placed the water bug in little pools to calm it down. Once Sly made to Rajan's office, he placed the water bug in a pool after getting past laser security.

As Rajan kept his operation blueprints on his person, the gang needed a safe way of getting close to steal them, but Rajan was impervious to Bentley's sleep darts so Bentley had to find another way of putting him to sleep. He discovered that Rajan had an insatiable appetite for Indian watermelons which, if eaten whole, would put even Rajan into a deep sleep. By leading Rajan to three different watermelons, Bentley was able to steal all three blueprints but the violation of his personal space spooked Rajan and forced him into hiding in his temple.

To get Rajan out of hiding, the gang decided to flood him out by destroying the dam behind the temple. Bentley planned to destroy it with an auto piloted helicopter, but did little damage as the helicopter was stuck by a piece of the dam, causing it to crash.

Sly entered the spice grinding facility to destroy the spice grinder. He managed to get past laser fences by destroying them with a tnt barrol he walked over in. Once Sly reached the spice grinder, Bentley informed him that destroying the grinder will put Rajan out of business and give him no reason to stay. As soon as Sly destroyed the grinder with a tnt barrel, Rajan's voice was heard through a speaker, shocked to see spice production stopped.

As Sly went after the Clockwerk Heart producing spice, he ran into Neyla who led Sly to the entrance of it. To gain control of the crane holding the heart, Sly pickpocketed two guards with keys. Once Sly used the keys on the controls, the crane dropped the Clockwerk Heart. Sly then walked over to the heart and took it.

Bentley made a contract to acquire a cherry bomb 500 for the heist in exchange for a giant ruby. Sly acquired a ruby from the roof of a temple. Bentley and Murray soon appeared and took the ruby to their contractors who gave them the ruby, in honor of their bargain.

The Cooper Gang planned their final operation: Wet Tiger. To start the operation, Murray lifted a lever to open the elephant statue's mouth revealing a door filled with water, while Bentley covered him in the helicopter as he destroyed hunter seeker bombs. Once Murray finally lifted the lever, Sly hid inside a tnt barrel and walked it to the elephant's mouth, causing it to explode and flood the temple with water. When this was successful, a mad Rajan finally showed his face and yelled at the Cooper Gang to face him.

Neyla reappeared right after, seemingly wanting to help the gang in their battle against Rajan. However, she betrayed them, knocked Sly out and watched as Murray and Rajan were pitted against each other. Even with the help of his guards and his upgraded staff, Rajan was defeated and passed out, leaving Murray to claim the Clockwerk heart, but leaving him very tired and no match for the incoming police. Neyla quickly turned the Contessa against Carmelita and got Rajan, Sly, Murray and Carmelita arrested, as Bentley watched helplessly from a distance.

As was revealed in the games ending credits, after his incarceration, Rajan reformed and became an owner of a rug dealership franchise in North America.

---

Qin Gasped.

Qin: That's horrible!

Neyla: I know. I was a member of the KLAWW Gang myself. But thanks to Brittney and everyone, I was redeemed and saved from myself.

Brittney went over Neyla's history.

---

Neyla was born into poverty on the streets of New Delhi in India, and the deprived life she had there propelled her to aim high. She attended a university in Britain, where she set up an elaborate ring of students to complete her homework for her. When the ring was broken, Interpol were so impressed at her ability to foment criminal schemes that they offered her a job, as she could access the mind of the lawbreaker, which would be an invaluable asset in this capacity.

Constable Neyla was the assistant of Inspector Carmelita Fox. She was partnered with the Inspector following the events of the Thievius Raccoonus affair, and was present during a Cooper Gang-engineered break-in at the Museum of Natural History in Cairo. During a situation in which Sly looked complicit in the absence of the Clockwerk Parts, she seemingly bought time for Sly by mentioning the KLAWW Gang's possible involvement. It was not only a distraction but a lead to encourage Sly into chasing them down to retrieve all the Clockwerk Parts for her. Neyla's distraction worked, as Carmelita was unable to stop Sly from fleeing.

Later, Neyla met up with Sly in Paris and offered a key to Sly for the back door of Dimitri's nightclub. Seemingly now an ally of the Cooper Gang, she continued to offer help and support to them.

In India she was, along with Carmelita, the Contessa and many other Interpol agents, present at KLAWW Gang member Rajan's palace undercover. She clandestinely met up with Sly and danced with him. Carmelita interjected, requesting a dance from Sly. Fox was unaware of his true identity due to an elaborate disguise employed by the thief, and Neyla stood back at this point, taking an incriminating picture of the two together. At Rajan's spice factory in the same country, Neyla once more offered her services to Sly, but machinated events to land Carmelita, Sly, Murray and Rajan in the custody of Interpol. Murray did not yet understand why she didn't help when Sly was hurt. She was commended by the Contessa, who took charge of the arrested captives.

Neyla was subsequently ordered to arrest the Contessa in Prague, and was afforded a team of mercenaries equipped with planes, tanks and other weaponry to do this. She succeeded in arresting the Contessa, and was promoted to Captain.

She later tailed the Cooper Gang to Nunavut Bay in Canada, where she flew a special aircraft against the Cooper Gang during a daring train robbery. She was defeated by Bentley's RC chopper, but stayed in Canada to command a police unit to track down the escaped Interpol captives- including Carmelita.

It was revealed aboard the blimp of Arpeggio, KLAWW Gang engineer, that Neyla was in fact an employee of Arpeggio, and that she had assisted the KLAWW Gang during the entire affair. After Sly failed to pull Clockwerk apart, Neyla soon betrayed Arpeggio, killing him, and commandeered the Clockwerk Frame, which Arpeggio had reconstructed.

While making their way to Paris, Neyla had to keep up her strength by draining power from the blimp's engines. The Cooper Gang planned to destroy the engines to weaken Neyla to a state in which they can attack. Once done, Inspector Fox soon contacted Bentley and offered her services to help the Cooper Gang fight Neyla in her new form, but had trouble locating the blimp. Sly flew to the top of four radio towers, boosting their energy to give alert to Carmelita. Once she arrived in her helicopter, Sly hopped on and used its turret to take down Neyla. However, Neyla suddenly crashed into the blimp, causing it to explode. She then noticed Bentley and Murray inside the Northern Light battery and snatched them in it to lure Sly. Once Sly made his way to Neyla after soaring the blimp's debris, he attacked her in the face, causing her to crash into the streets of Paris. Before the Cooper Gang could celebrate their victory, however, Neyla was still active as she summoned a laser barrier around them. As the Cooper Gang took cover, Bentley recalled Neyla mentioning a hate chip as her source of power. This encouraged Murray to make his way to Clockwerk's head where the hate chip is and opened its mouth to reveal Neyla, now as a holographic head, vowing to have revenge on the Cooper Gang and destroy them. Bentley then approached Clockwerk's head and placed bombs by its sides to take out the laser field. Before disappearing, Neyla threatened the Cooper Gang that they will not defeat her ever. The hate chip was soon revealed, and Bentley grabbed it, but was then crippled as Clockwerk's head fell on top of him. Luckily, Murray saved him. Neyla was soon killed as Carmelita showed up and destroyed the hate chip, causing the Clockwerk parts to slowly disappear along with Neyla.

Qin gasped.

Neyla: I know. It was my dark self that was the source of it all.

Qin: I'm glad that she's dead and gone for good.

Me: Me too Qin.

Qin: Who was the 3rd member?

Lucy Loud: That would be The Contessa.

Brittney: Leni would hate her.

Brittney revealed the history of The Contessa.

* * *

When she was younger, the Contessa once married a wealthy aristocrat who "mysteriously" died of poisoning after the wedding. After gaining her fortune, the widowed Contessa used her psychology and psychiatry skills she learned in school to become Interpol's top interrogator. She would use her hypnosis techniques to reform criminals to a better life, but only after she makes them tell her where they keep their loots so she can have them for herself.

The Contessa first appeared in Episode 2 at Rajan's ball, accompanying Carmelita Fox and Constable Neyla undercover. She later appeared with them at Rajan's spice temple, where she placed Sly, Murray, and Carmelita under arrest (after Neyla betrayed all three of them). Following her to Prague, Bentley bugged her with his sleep darts, which he had discovered would transmit the sound of her voice after making contact, resulting in her unwittingly revealing Sly's location in her prison. Later on, Murray is held hostage by the Contessa who is working on controlling Murray's mind with her hypnosis. He discovered her to be a secret member of the Klaww Gang, hypnotizing criminals to learn the location of their loot. She was also using illegal spice to help with the hypnosis and contributed hypnosis light wave generators to Arpeggio's blimp.

After failing to hypnotize Murray, the Contessa fled from her clinic and escaped to her castle estate, where she held possession of the Clockwerk Eyes and had Carmelita bound to an Iron Tech 250 in her re-education tower, where she tortured her and attempted to brainwash her with the Eyes and make her take the fall for her at Interpol.

Whilst the gang headed there to get the Eyes back, a war broke out between the Contessa and Constable Neyla, in which both had their own respective armies at their disposal. The Contessa's immediate plan, and one Sly and his friends would not allow, was to brainwash Carmelita with a Mind Shuffler into becoming her personal slave, so that she would take the fall at Interpol. However, Sly, Bentley, and Murray stopped her plans and Sly defeated her in combat.

Apparently, the Contessa knew all about Sly's family line, and even taunted him into fighting. Even after losing once and playing the innocent routine, she still declared herself mentally superior to Sly's gang. However, after fighting and defeating her for a second time, it is clear that Sly, Murray, and Bentley are a much tougher match. The Contessa is then arrested and stripped of her title.

She is mentioned by Arpeggio later on in the game when he reveals his master plan to Sly, speaking of her skills in hypnosis aiding the plan to hypnotize Paris. During the credits of Sly 2, it is said that after her incarceration, the Contessa became a highly successful real estate broker, with her clients displaying eerie hypnosis-like symptoms. Nonetheless, it is not known if this is actually true, seeing as how Dimitri was revealed to be a criminal even though he was stated to have become a dance teacher. In the second Sly Cooper comic, she is shown as serving time in Heathrow Prison, with her cell underneath Muggshot's. The time stamps for these events are not given. The slide could be years in the future the jail being the present.

Qin gasped.

Qin: Another good cop gone bad.

Brittney: We blew up her rehabilitation prison and her nice estate is now the house of The Goths of Darkness.

Qin: I saw that. That house is amazing!

Lucy Loud: It's an amazing and perfect house for us.

Olga: Yep.

Lana: But we then faced Jean Bison.

Brittney went over Jean Bison's history.

---

Jean Bison first appeared in Episode 2: "A Starry-Eyed Encounter", along with the first appearances of the Contessa and Arpeggio, at a ball Rajan was hosting. It is safe to assume he was a VIP at the event. He later appeared beside Rajan as they watch Sly dance with Neyla, commenting that he wished Rajan's spice shipments moved as well as Sly.

Despite his backwards, low-tech ways and old-style thinking, Jean Bison ended up with four of the Clockwerk Parts: the Lungs, Stomach, and Talons. When Sly first encountered him in a log cabin to take pictures of the train routes, he overhead him talking to Arpeggio through a speaker, Sly learned that Jean Bison attached the Lungs and Stomach to his three Iron Horse trains, allowing them to run day and night without stopping. Sly also learned that he hid the blueprints of them in his trophy bass, which Sly managed to steal one in the cabin Bison was in. Sly then went over to another cabin where the second blueprint was being guarded by ducks. Sly acquired the blueprint from the trophy bass there and then went after the third blueprint in a cabin guarded by mooses. As Sly managed to acquire all the blueprints, he went to the top of mountain where a satelite dish is to intercept with Iron Horses GPS data.

The only way into the Iron Horse trains was through the caboose which were locked tight. In order to open them, Sly had to collect spices from several balloons in the sky to use as explosives as

Murray flew him in an ice plane. After finishing collecting spices, Sly then had to land directly on the train's cabooses in order to open them. After that, however, Murray was captured by Inspector Fox. Sly was to follow Inspector Fox to pickpocket her for her three keys to Murray's cell.

Bentley entered the first Iron Horse train and made his way to the front of the train where one of the lungs is. Bentley stole the part and got off the train.

On the second Iron Horse train, Bentley used his RC chopper to destroy the train's defense system.

Murray snatched two bear cubs in order to lure a bear and destroy and cage protecting a hand rail. As he brought the two bears to over the hand rail's cage, the begin to fight which the mother bear noticed and destroyed the cage to stop the cobs from fighting.

Sly made his way inside Iron Horse 2. He made his way to the front of the train and stole the other lung there.

Iron Horse 3 was going too fast for the Cooper Gang to follow in town, so they drive in the hand cart from earlier and after the train. As Sly made halfway through the train, Neyla appeared in her biplane, preventing Sly from moving forward. Luckily, Bentley unleashed his RC chopper upon Neyla and defeated her with it. Once Sly made it to the front of the train, he found the Clockwerk stomach to be bolted down by Jean Bison. Neyla reappeared in her biplane, but was defeated again by Bentley's RC chopper. Bentley then crashed his RC chopper into the train's smoke stack, freeing the Clockwerk Stomach.

After losing three of his Clockwerk parts, Jean Bison escaped to his large lumber camp on the coast of Northern Canada and continued his true operation-using his giant attractor to collect the light energy of the Aurora Borealis into his Northern Light Battery for Arpeggio's blimp. While Sly heard him talking to himself, he also began preparations for his Lumberjack Games, a competition for which he put up his Clockwerk Talons - that he'd been using to cut down trees - as a trophy to bring in the competition. This drew Sly and the Cooper Gang like moths to a flame. After setting up the northern lights battery for their transport to Arpeggio's blimp, they entered the games.

However, during the games, Jean Bison persuaded the judges to give him tens, making the Cooper Gang knock them out and dressed up like them. Despite stellar performances and cheating to make Jean Bison lose, the three were captured as Jean saw threw their disguises and threw the talons at them. While the Cooper Gang was in his custody, Bison had his men raid the gang's hideout and steal all of the Clockwerk Parts that the gang had collected and sold them to Arpeggio (including the talons). He then revealed this to Bentley after he escaped and called him stupid for being a turtle. Bentley was then forced into a battle with Bison and, using the lumber camp's equipment, Bentley was able to beat him. As he laid there in defeat, he claimed how times have changed after losing. Just then, a man on the speaker told Bison that Arpeggio is coming to pick up the Northern Light battery.

According to the ending of Sly 2, although he was not arrested, Jean Bison somehow turned over a new leaf and went to work for the EPA, and froze yet again on a mission to save baby penguins.

* * *

Qin: That's awful. I feel sorry for him.

Sly: I feel the same way too.

Jean Bison: I appreciate your concern Qin. Thank you.

Qin: You're welcome.

Brittney: But then we faced Arpeggio. He was the leader and mastermind of it all.

Brittney revealed the history of Arpeggio.

* * *

Arpeggio attended a prestigious boarding school, so his background life and information on his parents are a mystery. He was at the top of his class intellectually, excelling in all subjects, but due to his tiny body and wings, he was unable to fly, and fell behind the other kids physically. Furious at his feeble body, he focused his powerful mind to find a cure. His studies led him to the works of the Italian Renaissance Masters, whose notes and machinery designs served as a spring board for the sinister young genius. Eventually, Arpeggio constructed a large blimp, which served as his home and base of operations. He also had an army of toucan individuals equipped with his weapon designs act as his security forces and servants. Arpeggio's blimp fortress managed to act as a slight substitute for him to be able to be in the air. His small size was also compensated for when he used a mechanical birdcage on wheels to travel. Still, the evil mastermind wanted a way to make up for his feeble body.

At some point, Arpeggio became fixated on the infamous owl, Clockwerk. The ancient bird had kept himself alive for thousands of years with a new, robotic body, and immense feelings of jealousy, anger and hate. After being defeated by Sly Cooper and his allies, Clockwerk was reduced to a pile of immobile parts put on museum display. Arpeggio was determined to use this mechanical frame to give himself a new body. However, his purpose was no longer merely to be able to fly, but to become immortal, through Clockwerk's mastery of hatred. At some other point, Arpeggio met the young Neyla, who had an impressive ability of persuasion and manipulation of others. She was said to be his protégé, though the extent of their relationship is unknown. She agreed to serve as his lieutenant in his endeavors to gain power through Clockwerk. Despite her seemingly unwavering loyalty, Arpeggio was unaware that Neyla was truly only concerned with her personal interests. Their affiliation to each other was kept a dark secret to all but themselves.

At some point, a criminal organization, the Klaww Gang, was assembled, with Arpeggio as chief inventor and leader. His brilliance made him the mastermind behind their illegal spice trading ring, which would be the starting point of his ultimate goal. Arpeggio knew that bringing together the Clockwerk parts would not be as difficult as creating a large amount of hatred. The Clockwerk Frame needed hatred in order to be fueled to immortality. Arpeggio concluded that spice consumption made one mad, and they could then be hypnotized into a state of hatred. The negative energies would bring forth Clockwerk's immortality, which Arpeggio desired more than anything. Each individual member of the gang contributed a significant factor for Arpeggio's plot. Dimitri was the owner of a night club in Paris, which he used to widely distribute spices. The spices were grown by Rajan in India. The Contessa used her hypnotist expertise to be used on Arpeggio's blimp, which would transmit flashing lights to hypnotize those that consumed the spices. Jean Bison managed to collect the energies of the Northern Lights to use as waves in this mesmerizing process. Ultimately, Arpeggio would use his blimp to create a hypnotic light show to hypnotize the citizens of Paris into extreme hatred.

Despite their contributions, the Klaww Gang was unaware of Arpeggio's intent to become immortal. After he had been defeated by Sly Cooper and his allies, Clockwerk was reduced to a pile of immobile components put on display in a Cairo museum. Arpeggio and his gang orchestrated a break in of the museum and stole the parts. Each member was given some of Clockwerk's pieces, which they used in their own trivial schemes. Arpeggio held onto the Clockwerk Brain. He then prepared for the next portion of his plan alongside Neyla, whom the rest of the Klaww Gang saw as a mere police officer; she had gone undercover within Interpol as a constable and partner to Carmelita Fox. Behind-the-scenes, Arpeggio and Neyla devised a way to get the other parts back from the rest of the gang. Sly Cooper and his close friends, Bentley and Murray, broke into the same museum in hopes of stealing and destroying their old foe's pieces. They were confronted by Inspector Fox and Constable Neyla. Carmelita revealed that the parts had already been stolen, believing Sly had the motive, and Neyla pointed out that the crime scene made it look more like a Klaww Gang operation. Sly was interested in the gang name, it being his only lead on finding Clockwerk's parts, and escaped.

With Sly on the scent, Arpeggio waited while he defeated the other members and collected to parts for him. All the while, Neyla assisted Sly and his gang, though she truly just wanted to go after the parts herself. Arpeggio was first seen by the Cooper Gang while attending a ball at Rajan's palace along with the rest of the Klaww Gang. He was taken in a recon photo, and Bentley described him as a specialist in exotic technology. Neyla later revealed her true colors to the Cooper Gang, and was allowed to toss them in jail by Arpeggio, overjoyed to finally be able to pursue to parts alone. She then betrayed Interpol, even after being promoted to Captain Neyla due to her actions in apprehending the Contessa. Sly and his gang made it out of prison and continued gathering parts. In Jean Bison's camp, Sly overheard a telephone conversation between Bison and Arpeggio, the latter being heard on speaker. Bison was trying to convince his friend to sell him the Clockwerk Brain, but Arpeggio pointed out that Bison already had more parts than anyone else. Later, in Bison's second base, he discovered the Cooper Gang and took them prisoner. His men raided their hideout and stole all of their accumulated Clockwerk parts.

Jean Bison sold every part to Arpeggio and had them transported to his blimp, which was en route to pick up the large battery containing the Northern Lights. Sly and his allies escaped imprisonment, defeated Bison, and went to stow away on Arpeggio's blimp. They were lifted into the air when the blimp picked up the battery, Arpeggio unaware that the gang had emptied it of its electric charge to stuff themselves inside. They devised a plan to get inside Arpeggio's Blimp HQ and stop Clockwerk from being reassembled. Time was short, however. The blimp was on its way to Paris, where Arpeggio's plans would come together, though the Cooper Gang was unaware of this. Inside the Blimp HQ, Sly took recon photos, and found that Clockwerk's body had already been put back together. A pair of spinning magnetic inducers circling the Blimp HQ's walls were holding the parts together. At the front of the HQ, Sly discovered that Arpeggio and Neyla were aboard, waiting to power up the Clockwerk Frame. Bentley told him to reverse the polarity of the magnetic inducers, hoping that the result would pull Clockwerk apart. This, however, had the opposite effect. The parts fell from their wires holding them up to the ceiling, but locked together instead of breaking.

Arpeggio and Neyla were alerted by the shocking boom, which also destroyed the equipment and desk in Arpeggio's office. They came out to see what had happened, and Arpeggio was greatly pleased to discover that Clockwerk was locked together. He and Neyla went down to the lower platform, where Clockwerk's body lay in wait. Sly revealed himself, much to Neyla's dismay. However, rather than being angered with Sly's appearance, Arpeggio was grateful for his inadvertent contribution to his plans. He explained how everything had played out to his and Neyla's exact specifications, and how he was getting ready to fuse with Clockwerk to become a new, immortal being as the Paris light show caused immense hatred among the city's population. Sly described Arpeggio's forced hatred on the Paris citizens as "outlandishly cruel," but Arpeggio was unconcerned with all but his success and eternal life. He then told Neyla to keep Sly covered as he approached Clockwerk, but at that instant, she betrayed him. Using her whip, Neyla knocked over Arpeggio's birdcage, leaving him helpless on the floor. She then leaped in front of him, and knelt down to her former master, taunting him. Neyla had been manipulating Arpeggio all along to get Clockwerk for herself.

Neyla called Arpeggio stupid for not believing she would double-cross him just as she did everyone else. She then turned to Clockwerk and jumped inside his open mouth. The body then slowly rose, its eyes glowing. Arpeggio was distraught at Neyla's betrayal, saying that she was his protégé, not the next candidate for his immortality. He demanded that she exit the Clockwerk Frame, trying to conjure some threat. Before he could finish speaking, Arpeggio was grabbed by and crushed in Clock-La's beak, killing him. His feathers scattered, his wheel-cage was shattered, and his monocle rolled to a stop at Sly's feet. Neyla then proclaimed herself to be "Clock-La," and flew through the Blimp HQ's front window. However, the maniacal monstrosity was defeated by the Cooper Gang, and Arpeggio's plans never came to fruition.

Qin gasped in horror.

Qin: That's horrifying!

Arpeggio: (British Accent) It was. I don't know what I was thinking. But I let powerlust take hold of me.

Qin: But I'm glad Brittney and everyone helped you redeem yourself. But how did Clockwerk die?

Me: That was the confusing part. Clockwerk lived for 12,000 years because of his extremely intense burning hatred and jealousy towards the Cooper Clan. The reason for this is because of his power source: The Hate Chip.

Brittney: It was his energy source. It was the power from that chip that kept him going for 12 millennia. Fueling him with indescribable levels of hatred and jealousy. I crushed that chip with my bare hands and destroyed it. I also got a massive mega power boost as a result. The parts aged and deteriorated in front of our eyes. 12,000 years have caught up to him fast and disintegrated him into dust.

Me: And now he's fried chicken in the darkness and fire of Hell.

Qin: Good riddance.

Me: We all teamed up and took him down. We ended the Terror of Clockwerk after he caused 12,000 years worth of pain and death.

Nico: Clockwerk, you have failed this world for 12,000 years.

We laughed.

Rice: That was funny.

Natasha: (Polish Accent) I'm glad he got what he deserved,

Hunter: (German Accent) Ja. Clockwerk was a monster from the pit of evil.

Rachel S.D.: I'm glad he got what he deserved.

Vince: Me too.

Qin: Oh yeah. Carmen, I heard you and Maria know the Get Help strategy?

Maria groaned.

Maria: (Groans in humiliation)

Carmen: As a matter of fact we do. It was an idea we got from Thor.

Maria: It's so humiliating.

Me: It may be humiliating but it works sometimes.

Maria: Easy for you to say.

Then the alarm went off.

Me: Uh oh.

We went to the computer and we found out that DNAmy was up to no good.

Kim P.: DNAmy? I thought she stopped her ways.

Me: You dealt with her before Kim?

Kim P.: I sure did.

Kim told us her history.

---

Amy is possibly the most dedicated "cuddler" (or Cuddle Buddy collector) in the world. After collecting every cuddle buddy ever made, she still wasn't satisfied so she began splicing the DNA of real animals to reflect the chimeric nature of the stuffed toys. Amy Hall, known as DNAmy by her former colleagues, is a disgraced geneticist who was shunned by the scientific community for her unorthodox and unethical splicing experiments.

She was first encountered in the Season 1 episode "Downhill" by Ron and Mr. Barkin when they stumbled across her while searching for the Mount Middleton monster, which turned out to be one of her creations. DNAmy took Ron and Mr. Barkin prisoner after their presence near to her lair which threatened to expose experiments to the authorities. She successfully melded Mr. Barkin with Rufus to create a naked-molerat-man creature, before being defeated by Kim Possible. She was then briefly referenced, though not explicitly named, in the episode "Monkey Fist Strikes", as the scientist who genetically altered the villain Montgomery Fisk, so that he could become Lord Monkey Fist. (Based on production order, this occurred prior to "Downhill").

DNAmy went underground for the rest of Season 1, reappearing in the Season 2 episode "Partners", in which she co-stared alongside Dr. Drakken, who sweet talked her into creating a giant reptilian hybrid creature with which to destroy Middleton as a prelude to taking over the world. DNAmy's second cameo at the end of the episode "Oh Boyz", in which she briefly appeared in the audience during a prison concert given by Señor Senior Junior.

DNAmy's next appearance, originally scheduled to be her last, was 2 episodes prior to the Season 3 finale when she kidnapped the Sensei of the Yamaguchi Ninja School in Japan in order to attract the attention of fellow villain Monkey Fist with whom she was infatuated. For much of the episode, she used the alias "Gorilla Fist", her true identity was not revealed until the closing scenes of the episode.

Her first appearance of Season 4 was in "Grande Size Me" (minus her bio-engineered "Gorilla suit"), amongst a bunch of other villains at Jack Hench's attempt to sell off his latest invention. She later appeared in "Homecoming Upset", where she made a surprise cameo in the crowd during homecoming game. Her last appearance was in "Graduation" were appeared at Drakken's award ceremony, clearly not happy for his success. She also appears during the credits with Adrena Lynn admiring the statute form of Monkey Fist.

* * *

Me: Just what the universe needs. Another fucked up mad scientist running amok.

Kim P.: Thankfully she's not like the Paradigm Brothers.

Maria: Well, DNAmy doesn't seem the type of evil scientist to experiment on humans. At least, not on the same level as the Paradigm brothers anyway.

Kim: Well, there's still the matter of her other crimes.

Me: Then we won't have to kill her. But still she has to pay for her

crimes.

Nico: We'll put her in prison with Monkey Fist.

Lincoln: It says here that she has a mad crush on Monkey Fist.

Me: (Shudders) I know that feeling. But it says here that she is hiding in a mountain in Idaho. Lets get her!

We were off to the Sawtooth Mountains in Idaho.

## SAWTOOTH MOUNTAINS, IDAHO

We were flying over the Sawtooth Mountains in South Central Western Idaho. It was a beautiful place.

Me: Wow. The Sawtooth Mountains in Idaho. One of the Rocky Mountains most beautiful mountain ranges.

Lynn: They sure are beautiful.

Sakura Avalon: They sure are pretty. I wouldn't mind coming here for vacation.

Madison: Me neither.

Nico: Same here.

Me: Idaho has a lot of history here. Idaho is known for it's potatoes and they don't call it the Spud State for nothing.

Lana: Oh yeah! Also these mountains were home to the Sawtooth Wolf Pack.

Me: I saw those wolves and they were beautiful.

Laney: They sure were.

Me: Wolves are my favorite creatures on Earth and they are so

beautiful.

Isabel: They are a majestic symbol of leadership, compassion and energy.

Me: Yep. And they are yours and my spirit animal.

Isabel: Yep.

I sensed out for DNAmy's signature and we saw a house in the middle of the mountains.

Me: Target sighted.

We flew down and we saw DNAmy!

DNAmy: Team Loud Phoenix Storm. Welcome.

Me: DNAmy, I presume?

DNAmy: That's right. Hello Kim. It's a pleasure to see you again.

Kim P.: I take it you know what we are here for.

DNAmy: I do. You want to throw me in prison.

Nico: That's right.

Then numerous Mutated Animals appeared.

Me: Wow! Look at all of them!

William: You know, I'm surprised you don't mutate humans like the Paradigm brothers do.

DNAmy: Oh, come now. I have done human testing. But I always made sure that the test subjects would retain their humanity. And besides, using mutated animals is much more simple!

Spiderman: At least you've got standards. But we're still locking you up!

Me: You got that right.

DNAmy: You're more then welcome to take me to prison.

Sydney: Good!

DNAmy: If you can defeat 1000 of my minions!

Eddy: (the mutated animals charge at us) Oh, fuck me!

Me: Wow! You sure have been busy.

Sakura Avalon: Look at all of them!

Nico: At least you respect human life DNAmy. Dr. Paradigm and his brothers don't give a flying shit about it.

Carol: No they don't.

Stacy: Yeah. They robbed us of our humanity and destroyed many lives.

DNAmy: That's awful he did that. I may be a genetic scientist but even I have standards.

Me: That's true. Lets get them!

We went at the monsters and faced them with sheer ferociousness.

Sakura called upon the power of the Sword Card and slashed a bunch of monsters all over the place.

Nico blasted them and blew them apart.

Laney fired numerous poisonous barbs at a bunch of them and the monsters melted from the poison.

Naruto slammed a Rasenshuriken into one and obliterated a bunch of them all at once.

Sakura punched the ground and it sent a bunch of the monsters flying into the air and I flew up and slashed a lot of them with the power of the Sword Card.

I fired a massive blast of fire and incinerated them.

Me: Time to finish them with teamwork!

Rhinox: You got it. Rhinox, MAXIMIZE!

Rhinox transformed into his robot for.

Rhinox: Lets get serious! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm and enhanced his weapons power 100-fold.

Humongousaur: Lets do this! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his strength and turned his hands into powerful bazooka blasters.

Rhinox and Humungousaur: STAMPEDING ARSENAL BURST!

Rhinox and Humongousaur fired machine gun blasts and missiles and they hit the monsters and exploded!

KRABBBOOOOOOOOOOOOOOOOOOOOMMMMM!

Volcana: Time for some serious burning firepower! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and it enhanced her fire powers 100-fold.

Inferno (BW): Time to show the Boss our power. Inferno, TERRORIZE!

Inferno transformed.

Inferno (BW): Time to defend the royalty! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his arm and it enhanced his weapons 100-fold.

Volcana and Inferno (BW): INFERNO FIRESTORM INCINERATION!

Volcana and Inferno fired a massive blast of fire and incinerated a bunch of monsters in one fell swoop.

We kept on blasting monsters. Then I sensed a Clow Card.

Me: A Clow Card is here.

Sakura Avalon: I feel it.

Then a little puff of Cloud appeared and out came what looked like a Jester. It was drenching a bunch of monsters with massive torrents of rain and killing them with water.

Me: It's the Rain Card! 雨

Rain's physical form resembles a young and cute little girl with a jesters hat that falls into two long points, tipped in teardrop shapes like rain drops. She has long straight bangs parted on either side of her face, like the Cloud, and hers end in rain drops. Her collar is cut in many points, like the Twin, and tipped in droplet shapes. Her outfit consists of poofy pants in a harlequin pattern, a poofy sleeved top, and pointed boots, the cuffs of which are also tipped in raindrops. In Card form, like the Cloud holds a cloud puff, the Rain holds a drop of rain in her hands. She rides a cloud and has a blue teardrop shaped jewel on its forehead. She is very similar in appearance to The Cloud, and it has been assumed that the two are sisters.

Kero: The Rain Card is a mischievous one.

Me: It would be perfect for helping around the garden.

I fired a bubble of water and trapped it inside it.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and sucked it inside it. The Rain Card was in my hands.

Me: Awesome!

I signed it.

Edzilla: (punches mutated crocodile) ED SMASH MUTANTS!

Sydney: Time for some Final Smash power!

Sydney turned into Quarry!

Quarry: GRASSHOPPER ACID BATH!

Quarry fired a massive deluge of acid from her mouth and melted a bunch of monsters in one fell swoop.

Then a moose call was heard and suddenly from out of the blue came a big Brown Moose Zord.

Me: Wow! A new Wild Zord! The Moose!

Laney: It's breathtaking and beautiful.

The Moose Zord looked at Laney. Then a Brown light was seen and she saw an Animal Crystal appear and it landed in her hand.

Laney: Wow. The Moose Zord is amazing. I have 2 Wild Zords now.

Lucy Loud: Way to go Laney.

Laney: Thanks Lucy. Lets show these monsters the power of the moose.

The Moose Zord agreed and it rammed a bunch of them and pulverized them.

Kim P.: This is for all my friends! SOLAR STAR FIRESTORM!

Kim Possible fired a massive blast of solar fire and burned the rest of them!

Me: That's all of them.

DNAmy: (puts her hands up) A deal's a deal. You defeated my minions. So, I'll come quietly.

May: Don't think of this as defeat, DNAmy. We're going to put you in the Uranus Prison as Monkey Fist's cellmate.

DNAmy: Yes! I get to be with my beloved forever!

Me: (Shudders)

DNAmy: Oh, and Carol? I know I'm the last person to tell you this, but congratulations for getting married to Vince.

Carol: Thank you. We got married yesterday. It's the start of an amazing life together.

DNAmy: I'm happy for you.

During the battle, Nico caught a Volcarona and a Chesnaught.

Kim P.: (To the Viewers) All my adventures pale in comparison to the powers of Team Loud Phoenix Storm. But we have another of the villains I faced brought to justice.

Me: You got that right Kim.

We went back home. We had a great adventure in Idaho. Monkey Fist now had DNAmy with him as his cell mate.

THE END

---

Another Fanfiction complete and another Kim Possible Villain brought to justice.

DNAmy thankfully is not like the Paradigm Brothers thankfully. But she was cool. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think. Next Clow Card is the Shield Card.

See you all next time.

# Exorcism of an Evil Mermaid

In the middle of the city, powerful explosions of water were bursting out.

Qin: Are those Anti Fairies throwing water balloons at people?

Raph: Looks like it.

Wolfcastle: (Arnold Schwarzenegger Accent) Time to eliminate some pests!

Me: Time to kick some Anti-Fairy Butt!

We were armed with guns, rifles, machine guns and bazookas loaded with ammo that was loaded with my poisonous blood.

We fired the ammo at the Anti-Fairies and when it hit them they disintegrated into nothing and died in an instant!

Nico: You Anti-Fairies have failed this universe!

Nico fired bullets from an AK-47 and killed a lot of them.

Shanan: Time for some special help! ANGRY BIRD CRUSADE, HIIIYOO HAAAAAAAAAAAAAA!

Shanan held her hand up and a beam of green energy fired from a ring on her middle finger and a portal opened up. Out came the Angry Birds!

Red: Hey Shanan.

Shanan: Hey Red.

Shanan gave them the low-down.

Matilda: So these Anti-Fairies are the source of all the worlds bad luck?

Shanan: That's right and we have a huge war with them coming up on Friday, September 13th next month.

Chuck: Wow.

Bubbles: That's a big war.

Willow: But these monsters deserve it!

Shanan: Lets get them!

They went at them and Shanan punched an Anti-Fairy with spiked knuckledusters coated in my poisonous blood. Killing him.

Red punched an Anti-Fairy. Chuck used his speed and bashed a bunch of them all at once.

Bomb saw a bunch of Anti-Fairies coming.

Bomb: Uh oh! OH NO YOU DON'T!

Then he exploded and obliterated then in a huge explosion.

KRABBBBBOOOOOOOOOOOOOOOOOOOOMMMMM!

Bubbles (AB): Give me a lift Shanan.

Shanan: You got it Bubbles!

Shanan threw him and he slammed into a bunch of Anti-Fairies.

Bubbles (AB): DON'T MESS WITH BUBBLES!

POW! BIFF! CRACK! BOOF! BLAM!

Then another Anti-Fairy was in his way and he inflated to as big as a house!

Bubbles (AB): I TOLD YOU NOT TO MESS WITH ME!

Shanan: Wow! That blows. In a good way.

Hal: Shanan!

Shanan: Right Hal.

Shanan picked him up and threw him behind her and he opened his beak and turned into a boomerang and slammed into a bunch of Anti-Fairies.

Ten Anti-Fairies then stood in a bowling pin triangle.

Terrance was ready.

Shanan: Time for some pain!

Shanan grew giant and picked up Terrance and rolled him like a bowling ball and he crashed into them and knocked them all down and killed them.

Shanan: STEERIKE!

Luan: How does that Strike ya!? (Laughs to rimshot) Get it?

Red: (Laughs) Good one!

Eddy: (Laughs) Good one!

Matilda: This little Anti-Fairy popped!

She fired an energy egg and it slammed into a couple of Anti-Fairies and exploded.

KRABOOOM!

Matilda: This little Anti-Fairy Exploded!

She fired another one and blew a couple of them apart.

KRABBBOOOOOOOOOOOOOOOOOOOMMMMM!

Matilda: And this little Anti-Fairy went Wee Wee Wee I want my dead mama!

She fired another one and blew more of them apart!

KRABBBOOOOOOOOOOOOOOOMMMMM!

I was facing Anti-Cosmo.

Anti-Cosmo: (British Accent) You are a dumb idiot J.D.!

Me: That's the pot calling the kettle black. You caused so much trouble over the eons.

Anti-Cosmo: You destroyed our homes and our magic and ruined our lives!

Me: Well now we're even.

I punched him in the face and sent him back to what's left of Anti-Fairy World.

Me: When the Anti-Fairy Apocalypse comes, you will die.

We killed 100 Anti-Fairies total.

---

Back at the estate, everyone was watching TV and reading books.

We came in.

Zuko: So, how was the Anti Fairy hunting?

Me: 100 successful kills. This'll minimize their forces significantly before the war.

Shane Clarke: This should give us a fighting chance against those creeps.

Laney: And when we go to war against them, it'll be the end of the terror of the Anti-Fairies.

Lana: I hate those guys. They are monsters.

Lola: Yep.

Me: We have 19 days until the war. So we need to minimize all their forces as much as possible if we're gonna have an advantage.

Nico: That's true.

Zuko: When do we fight them?

Me: Friday September 13th. Normally that day is It.

Zuko: What is It?

Me: We are not allowed to say it. But it's two words. One is a 3 letter word that starts with a B and ends with a D and the 2nd word is a 4 letter word that starts with an L and Ends with a K.

Zuko: You mean Bad Luck.

Me: Bingo.

Zuko: Why aren't we allowed to say that?

Me: Lynn had a very terrible nightmare about a terrible event that was gonna happen in the future and we had an encounter with a Lincoln that joined an evil Doomsday Cult that was going to destroy the planet with nuclear warheads.

Zuko: That's terrible!

Natilee: Here's a picture of the dream.

Natilee showed Zuko the dream she drew on her sketchpad.

Zuko: That's horrible!

Me: It was. But we invented some new rules to prevent everyone from talking about it.

Zuko: That's understandable.

The Alarm then sounded.

Me: Uh oh.

The computer showed that there was abnormal levels of high heat coming from Antarctica.

Me: This is not good. Something is going on down in Antarctica.

Then rumbling was heard and a huge ship appeared and landed in our front yard.

Me: Wow!

Lola: That's Stickybeard's Ship.

We went out and saw him.

Stickybeard: Good to see you again, lass!

Lola: Same here, Stickybeard!

Blaster: A lot's changed since you last met Lola.

Stickybeard: That be true. But we have a major problem down at he South Pole.

Skipper: Alright. Stickybeard told us that Dyris and her Shadow Pokemon are building something in Antartica. Looks like a giant heat cannon.

Brawl: If they melt the ice glaciers there, the world's gonna be nothing but ocean!

We gasped in sheer horror!

Me: It'll be the end of the world! But who is Dyris?

Omi: (Tibetan Accent) She is an evil mermaid that wants to destroy the world by flooding it.

---

Dyris was a beautiful mermaid who sought to put the world underwater. She however only remained beautiful when she was in the water. On land, she returned back into her true form.

---

Me: We got to get over to Antarctica and stop her.

Heidi: Lets do it!

We went on board Stickybeard's pirate ship and we were off to Antarctica.

---

We were sailing the ocean to Antarctica.

Qin: So Lola, how do you know Stickybeard?

Lola: Me and the Kids Next Door fought a bunch of Adult Villains. He's a candy pirate. He and his crew stole candy from kids before I changed him.

Stickybeard: That's true lass.

Yuko: It was a great story.

Yuko went over Stickybeard's history.

---

Stickybeard is a candy-loving pirate who sails around the suburbs where the members of Sector V live in his ship the Sweet Revenge (which is a reference to the Queen Anne's Revenge). Along with his crew of Candy Pirates, Stickybeard hoards candy in the same manner that traditional pirates horde gold, primarily by stealing it from various children. Stickybeard's name references the notorious real-life pirate Blackbeard, as well as the fact that his beard has several pieces of candy stuck to it. The candy of Stickybeard and his crew is very prominent to the point that parts of the ship itself is made of candy, and they use weapons made of candy, such as candy cane swords and gumball cannons.

Stickybeard frequently targets the Kids Next Door due to their large stash of candy, and is most closely associated with Numbuh 5, also a lover of candy, who he respects as a rival; he even offered her the position of First Mate and heir aboard his ship in Operation P.I.R.A.T.E., which she turned down. He has aided members of the KND on multiple occasions, including saving them from the great white asparagus monster and escorting them home in Operation

A.F.L.O.A.T. and teaming up with Numbuh 5 in Operation L.I.C.O.R.I.C.E. to save Heinrich Von Marzipan (his former cabin boy) from evil pirates made out of licorice under the command of Black John Licorice, who Stickybeard was worked for as a cabin boy on their ship in his youth. He was also on Numbuh 4's bowling team in Operation M.I.S.S.I.O.N.. He especially eats candy in a rush, as seen in Operation Q.U.I.E.T..

In Operation V.I.D.E.O.G.A.M.E., Stickybeard is the boss of Operation S.H.I.P.S.H.A.P.E., fought by Numbuh 5. In Operation A.W.A.R.D.S., Stickybeard was nominated for best villain at the Villains' Choice Awards, along with Gramma Stuffum, Mr. Boss, and Father. In Operation G.I.R.L.F.R.I.E.N.D., he tried to steal the Sweater of Sweetness, but was foiled by Numbuh 1. He last appeared in Operation I.N.T.E.R.V.I.E.W.S., where he stole Yipper Card 87 from the Nerd Zombies, which resulted in the Nerd Zombies chasing Stickybeard and his Candy Pirates away.

In real-life, Stickybeard would likely be arrested for breaking and entering, robbery, property destruction, and possibly involuntary manslaughter if anyone was in the houses destroyed by his ship.

---

Qin: Wow! That's an adventurous tale.

Lola: I told him that because the Adults were gonna destroy the entire human race, that there would be no more candy ever. So he now steals candy from evil villains and give them to kids.

Qin: Wow. That's amazing Lola.

Lola: I know.

Qin: Hey J.D. I saw a strange sight over by a giant star wand antenna.

Me: Oh you saw the disembodied brain Mr. Denzel Crocker.

Qin: Who is he?

Me: You would hate this guy Qin. He is the… Uh how should I put this delicately? He is the most evil, most fucked up teacher ever.

I revealed his whole history.

---

Denzel Crocker worked at a number of different schools and colleges before ending up in Dimmsdale Elementary School. He was once an aspiring professor for Dimmsdale University, but his proclamation of his belief in fairies led to him becoming a laughing stock in all the city of Dimmsdale. He was also kicked out of a New Baltimore Community College for spending money on fairy tracking inventions. Even after landing a job in Dimmsdale Elementary, he was still scorned and laughed at by his colleagues, including Principal Waxelplax.

In Crocker's past life, he was an adorable and kind child who enjoyed helping others. His mother was never around very often and got babysat by Vick. Because of this, he was very miserable. However, his sadness ended after having received his own Fairy Godparents, Cosmo and Wanda.

Unfortunately, after Timmy time travels to the year 1972, Timmy and Cosmo accidentally reveals Crocker's secret about his fairies in front of the whole town who had gathered to celebrate a day honoring Crocker. Because of this, Jorgen Von Strangle is forced to erase Crocker's memory of him ever having fairies, and because of an overdose from the memory wiper, Crocker becomes horribly disfigured, and the town's people, who had now completely forgotten all the nice things that Crocker did with his fairies, assumes that they must be an angry mob and chased him down. He remembers nothing but he finds a DNA tracker device that Timmy left behind in the past on which he wrote 'Fairy Godparents exist' on the back before his mind was wiped, Crocker uses it to try and find real fairies. Timmy later wanted to return back to March 14, 1972, but he was stopped by two Jorgen Von Strangles (1970's version and current version). After that, the event ends with Jorgen and his other self dancing on the dance floor 1970's style.

Crocker's life of a teacher is comical in a way that Timmy's principal, Geraldine Waxaplax beats him up for such situations such as going in to the girl's bathroom. He had to switch jobs three times, changing into a ham salesman, a tour guide in the episode Nega Timmy, and a crossing guard in the episode No Substitute for Crazy!.

His family includes his mother and his uncle. His uncle is obsessed with genies and owns a collection of lamps. One of which contains Norm, although he is kept safe so his craziness is stable. His mother is a polite person, once rich and groovy. But when Crocker was young, she was non-attentive, pretty much like Timmy's parents. Crocker's father is never seen in the series, not even in The Secret Origin of Denzel Crocker, where his childhood is revisited, suggesting Crocker lost him at an early age or that he never had one. This lack of a father figure is implied to be the reason Crocker quickly accepted his stepfather, Ricky, from The Odd Couple as his father and even wanted to play childish games with him and having an allowance.

---

Qin: Crocker should've never been made a teacher.

Me: I agree. That's why he's over 13,500% fucked up and now he's a disembodied brain forever forced to power the giant wand of Fairy World.

Qin: So all the magic that powers the magic of the fairies comes from Mr. Crocker?

Me: Pretty ironic huh?

Nico: We were shocked when we found that out.

Qin: What would've happened if Mr. Crocker stopped powering the wand?

Me: Well that was the strange part. For eons Fairy World has relied on harnessing the energy that comes from the spazzing of people who believed that fairies existed. Back in the 1970's when Mr. Crocker began to spazz about fairies, his energy from said spazzes were so powerful that they harnessed it to fuel the big wand alone.

Qin: That must've been a very stupid idea.

Me: It was. Relying just on Mr. Crocker's spazzing was a bad idea. When a Psychiatrist cured him and got him to stop believing in Fairies, it caused all the power from Fairy World to stop and eventually fall out of the sky and plunge into Giant Bucket of Acid World.

Qin: That's an even bigger stupid idea.

Me: It was. But luckily Timmy got him to believe in fairies again and save Fairy World.

Qin: That's good. So you all moved Fairy World to Earth where it will be safe under your protection?

Me: That and to prevent things with Crocker from happening again.

Then we felt it get really cold.

Me: Man that's cold! We're getting close.

Laney: LAND HO!

We went on deck and saw Antarctica.

Me: Antarctica dead ahead.

We arrived and bundled up with our warmest fur coats. We were walking over the ice and we were in the Dry Valley. The Driest place on Earth.

Me: The Dry Valley of Antarctica. One of the driest and most desolate places on the planet.

Lori: It literally is deserted.

Luna: It sure is a dangerous place dudes.

Lynn: Look up there!

She pointed to a mountain and on top of it was a massive heat cannon.

Maria: There's the heat cannon!

Kowalski: If it charges up, it'll be able to destroy the glaciers!

William: We can't let that happen.

Me: That's not just a heat cannon! That a Solar Plasma Inferno Fusion Cannon!

Lisa: A blast from a powerful cannon like that would thaw out the polar ice caps in less than a minute!

We got to get up there and stop it!

We flew up to the cannon.

Then we saw Dyris!

Dyris: Soon the world will be mine and all of it will be underwater!

Suddenly Kimiko swooped in and punched her in the face with devastating force and sent her into the wall of her pool. She saw her.

Dyris: Never been hit that hard before. Looks like you Xiaolin idiots decided to grow backbones.

Me: Because of us.

She saw us with her.

Dyris: Who are you all?

Me: We are Team Loud Phoenix Storm.

Lincoln: We won't let you destroy the planet Dyris!

J.D. 2: I sense a Shen Gong Wu here.

Me: Which one is it?

J.D. 2: It's the Black Beetle.

Me: What does that one do?

J.D. 2: It coats the user in a heat resistant black body armor and protects the user from extreme heat. It can also take the form of a heat-resistant raft when used to protect more than one person.

Me: That sounds like a handy one.

J.D. 2: It's over on that table over there.

Me: I see it.

Like its name stated, the Black Beetle was a large metallic armor in the form of a beetle. It possesed red eyes and golden markings on its back.

Omi: You will never get that Shen Gong Wu, Dyris!

Nico: And this cannon will be stopped!

Dyris: Then you'll have to face me and my friends!

Me: What friends?

9 figures came out and they were Shadow Pokemon! A Bisharp, Crawdaunt, Garchomp, Starmie, Sableye, Greninja, Delphox, Gyarados and Flygon.

Me: Shadow Pokemon!

Nico: A Bisharp, Crawdaunt, Garchomp, Starmie, Sableye, Greninja, Delphox, Gyarados and Flygon.

Ash: You can catch the Greninja and Delphox, Nico.

Nico: Okay and you can catch the rest Ash.

Ash: Okay.

Me: Lets split them off and take them on. Me, Maria and Heidi will face Dyris.

Heidi: Okay Grandpa. I sense a demonic spirit inside her.

Me: A demonic spirit?

Heidi: Yeah. We have to exorcise it out of her. It's the reason why she's doing all this.

Me: Okay then.

We went at the Shadow Pokemon and Dyris.

### Battle 1: Raymundo VS Shadow Bisharp

Raymundo was facing Shadow Bisharp in a deadly sword fight. He clashed his Sword of Lucida with it and fired a massive blast of wind at it and knocked it down with massive super hurricane force winds. It slammed into the wall and it was purified after it was knocked out. Ash threw a Pokeball and caught it.

Raymundo: Never mess with a true master of wind.

### Battle 2: Omi VS Shadow Crawdaunt

Omi was facing the Shadow Crawdaunt and he fired a massive blast of water from the Orb of Torpedo and knocked it out with the force of a massive Megatsunami! Ash caught it.

Omi: Never underestimate the purifying properties of water.

### Battle 3: Kimiko VS Shadow Garchomp

Kimiko was facing Shadow Garchomp and it moved at an incredible Speed. It was moving at 710 miles per hour and Kimiko fired massive blasts of fire at it with the Hanabi Star and it burned it and knocked it down. Ash caught it.

Kimiko: Fire will incinerate even the strongest of evil.

---

Battle 4: Clay VS Shadow Starmie.

---

Clay was facing Shadow Starmie and he used the Fist of The Iron Bear and punched it and knocked it down. It was knocked out and Ash caught it.

Clay: (Southern Accent) You Shadow Pokemon are ornery sidewinders.

---

Battle 5: Dojo VS Shadow Sableye

---

Dojo was facing Shadow Sableye. He fired a powerful blast of fire from his mouth and burned it and knocked him down. Ash caught it.

Dojo: OH YEAH! I Rock! I rock!

---

Battle 6: Emma Gilbert VS Shadow Greninja

Emma Gilbert was facing Shadow Greninja. She fired a powerful blast of water that froze it in ice with it's head exposed. Nico caught it.

Emma: Nice job Nico.

Nico: Thanks to you Emma.

---

Battle 7: Rikki Chadwick VS Shadow Delphox

---

Rikki Chadwick was facing Shadow Delphox and she fired a powerful blast of fire at it and it hit it with the force of a massive thermonuclear explosion and blew him into the wall and knocked him out. Nico caught him.

Rikki: That was amazing!

Nico: It sure was. Good job Rikki.

Rikki: Thanks Nico.

---

Battle 8: Bella Hartley VS Shadow Gyarados

---

Bella Hartley was facing Shadow Gyarados and she fired a massive blast of water that turned into a gelatin substance and Ash caught it.

Bella: Never mess with the power of good water.

---

Battle 9: Cleo Sertori VS Shadow Flygon

---

Cleo Sertori was facing Shadow Flygon and she fired a massive blast of wind that trapped him in a powerful tornado and it made him really dizzy. It knocked him down and Ash caught him.

Cleo: Never underestimate Wind's mighty power.

---

Battle 10: J.D., Maria, Lily and Heidi VS Dyris

---

Me, Lily, Heidi and Maria were facing Dyris.

Dyris: Thanks for telling me how a Xialon Showdown works, Omi!

Maria: I guess me and Lily are fighting you in this Xiaolin Showdown. Let's make it a challenge of us not getting knocked into the water.

Dyris: And let's make it interesting. If you win, you get the Black Beetle and all my Shadow Pokemon. But if I win, I get the Black Beetle and Omi as my husband forever!

Lily: I thought you were only using Omi.

Dyris: True. But now that he's become ruthless as all of you, he's perfect for me.

Me: We are not ruthless Dyris. We fight to protect everyone from evil villains all over the universe. We fight to protect everyone that we care about.

Dyris: Lets see how you fight then.

Maria: Lets go! XIAOLIN SHOWDOWN!

The arena around us turned into a water fighting arena like the one Master Goku is familiar with.

Maria and Dyris: GONG YI TAN PAI!

Maria went at Dyris and punched her in the face and kicked her in the stomach and punched her in the face. Lily fired a massive blast of water and slammed her fists into her face 5 times. (Think of how the Minions of Set mercilessly pounded Samurai Jack)

Dyris was defeated.

Omi: I would have never agreed to be Dyris; husband even if she had won the Xiaolin Showdown.

Heidi: I know Omi. Dyris, let me save you from the demon within you. (Chants Exorcism Incantation)

**Exorcizamus te, omnis immunde spiritus, omni satanica potestas, omnis incursio**

**infernalis adversarii, omnis legio, omnis congregatio et secta diabolica, in nomini et**

**virtute Domini nostri Jesu Christi, eradicare et effugare a Dei Ecclesia, ab animabus**

**ad imaginem Dei conditis ac pretioso divini Agni sanguini redemptis.**

**Amen!**

A black blob of darkness appeared out of Dyris and it separated from her. It revealed her TRUE FORM! It was an ugly amphibious monster!

Me: So that is your true form. Lets get her!

Shane: NINJA STORM! RANGER FORM! HA! (Transforms into his Power Ranger Form) (Echoing) POWER OF AIR!

We went at the demon and I punched it in the face and kicked it in its stomach and Shane fired a massive blast of wind and slashed it with his sword.

Lucy Loud: Lets see what you fear.

Lucy fired a massive blast of black lightning and electrocuted the Dyris Demon.

Suddenly a black light appeared.

Lucy Loud: What's that?

A black Animal Crystal appeared in Lucy's hand and it was a new Wild Zord. It was a Black Vampire Bat.

Lucy Loud: Gasp! It's a Vampire Bat Zord.

A Super Loud Sonic Shriek hit the demon Dyris from out of nowhere and it caused incredible pain to it. We then saw a big black Vampire Bat appear and it was the Vampire Bat Zord.

Laney: Wow!

Lori: That is literally the coolest Zord I've ever seen.

Lola: Bats may be creepy but that one is cool.

Me: Wow!

It then swooped in behind the Dyrus Demon and drained it by biting into its neck. It sucked out some of its blood. It landed by Lucy and looked at her.

Lucy Loud: You chose me because you want to be my friend.

It nodded.

A Crystal Saber and holster appeared on Lucy's left hip.

Lucy Loud: Wow!

Me: Awesome. Your first Wild Zord Lucy.

Lucy Loud: I know.

Me: Lets finish this monster for good!

Blaster: Right with you boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his electro-scrambler gun 100-fold.

Shane Clarke: Lets do it! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his powers and strength 100-fold.

Blaster and Shane Clarke: LIGHTNING DRAGON STRIKEBURST!

Shane turned into a powerful dragon and Blaster fired a powerful blast of lightning from his blaster and it merged with him and Shane hit the Dyris Demon and electrocuted it and exploded.

Brawl: Time for some heavy firepower! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and enhanced his 10-Megawatt Electron Gun 1,000-Fold.

Zuko: Time for some burning power. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm and he sprouted phoenix wings made of pure fire and it enhanced his Firebending powers 100-fold.

Brawl and Zuko: LIGHTNING PHOENIX FIRESTORM BURST!

Zuko flew into the air and Brawl fired a massive blast of lightning and Zuko fired a powerful blast of fire and the blasts combined turned into a massive Phoenix and the blasts combined and hit the Demon Dyris and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOMMMMMMM!

Heidi: Time for you to get soaked! SEIRYU TORRENT DELUGE!

Heidi swung her scythe and the symbol of Seiryu the Blue Dragon of the East appeared in the background and Heidi slashed the Demon Dyris and a massive blade of water slashed it.

Omi: Time to get you all wet! ORB OF TORPEDO MEGATSUNAMI!

Omi fired a massive blast of water from the Orb of Torpedo and drenched it.

Cleo: Time to get you all wet! HYDRODRAGON MAELSTROM STRIKE!

Cleo fired a massive blast of water and it turned into a powerful dragon made of pure water and it slammed into the Demon Dyris with incredible power!

Cleo saw that the cannon was almost fully charged.

Cleo: Guys, the heat cannon's almost charged! We need to destroy it now!

Me: Then it's time to destroy them both in one fell swoop! Dyris, you are never welcome here!

I flew at her fast.

Me: It's time for your spree of destruction to end!

I held out my fist and went at her and charged it with powerful energy. Then I slammed into her with devastating force and plowed all the way through her chest and out her back with incredibly devastating power!

***KRAAAAAABBBBBBBBBBLLLLLLLLLLLLLLLLLAAAAAAAAAAAAA***

Then the attack caused her to explode with the power of a 4 megaton nuke!

***KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

The explosion completely obliterated the Demon Dyris and the cannon in an instant. We saved the world from total destruction!

Me: That's it for that.

Nico: Wow! J.D. that was unbelievable!

Lana: That was incredible!

Lola: You destroyed her with just one powerful punch!

Goku: That is exactly how I killed King Piccolo.

Me: I guess I learned so much more from you than I thought huh Master Goku.

Goku: (Laughs) You sure did.

Vince: Yeah.

Omi: But we got the Black Beetle and defeated the Demon Dyris. (To the viewers) Never trust a mermaid that's evil. Especially if one is possessed by a demon.

Me: You said it Omi.

We went back home.

---

At the estate, I was reading a book when I sensed a Clow Card.

Me: There's a Clow Card here.

I went downstairs and I found it in the Loud Parent's room.

Rita: Something is wrong with my jewelry box J.D.

Me: Lets see.

I touched it and there was some kind of barrier around it.

Me: I know this card. It's the Shield Card. 盾

Rita: So it's a Clow Card?

Me: Yeah but this one is a very smart one and has a real purpose for everything it does. The Shield Card protects things that are precious. That's it's nature Ms. Rita: Protecting things that are very special.

Rita: I see.

Me: Is this box very important to you Ms. Rita?

Rita: It is. This box was given to me by my dad after my mom died.

Me: Wow. So it's very important. But I can cut through its barrier with the Sword Card.

I summoned the Sword Card and it formed in my hand. I slashed the barrier of the Shield Card and it let go of the box and formed into it's visible form. When guarding an object, Shield appears as a blue-white-green sphere or dome. In its real form, it resembles a single 'Clow Wing' shield with a red jewel on both sides. In its card form, The Shield is restrained by several chains.

Me: Now to seal it! RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card appeared and sucked in the Shield. It was back as a Clow Card.

Me: Yes!

I signed it.

Rita: That is so amazing J.D.!

Me: Thanks Ms. Rita.

Another Clow Card caught. Dyris now lives in our lake and she is part of the Redemption Squad.

THE END

---

Another Fanfiction Complete and another villain destroyed.

Dyris is a beautiful mermaid on Xiaolin Showdown. She is a mermaid with the face of an angel but the heart of a monster bent on destroying the world. NicoChan11 gave me the ideas for this one. Thanks man as usual. The next Clow Card is the Shot Card and get ready for some serious pain from that one. Let me know what you all think.

See you all next time.

# Jurassic Park Chaos

At Gotham Royal York elementary school, Me, Lincoln and his sisters were walking home from another awesome day of school.

Me: Another great day at school.

Lincoln: Yep. Thanks for helping us with our project on how Nebula Gas is made.

Me: No problem buddy. When you know all the secrets of the universe, you practically know the entire universe like the back of your hand.

Laney: That is really cool.

Lana: I thought so too. I found some peanuts in the dumpster. You guys want any?

Me: No thanks Lana. They're all yours.

Lana: Okay.

Me: I went back to Paleozoic World and I was training as an alpha of a velociraptor pack.

Lisa: I heard about that and that is quite an astonishing and very amazing feat that goes on there.

Me: I know. I have a friend from the United States Navy that is a Velociraptor Trainer. His name is Owen Grady. He taught me all of his stuff that he does and I thought it was so cool.

Lucy Loud: I think so too.

Nico: Hey guys.

Me: Hey Nico. We were talking about what I learned over in Paleozoic World.

Nico: I heard about that and I saw it in Jurassic World. That was so cool!

Me: So the Jurassic Park movies are all real.

Nico: It looks like it. I mean we met Mr. John Hammond, toured Jurassic Park, Stopped Dennis Nedry from ruining it, and we saved all the dinosaurs from Isla Nublar when Mount Sibo blew and sunk the whole island into the sea.

Me: I know. And we built our new upgraded version of Jurassic Park and formed an awesome partnership with John Hammond.

Aylene C.: I know. Now Paleozoic World is as awesome as Jurassic Park.

Lincoln: Where does all the money it makes go to?

Me: To major companies and charities all over the world.

Nico: That's good.

Lola: Can you believe that Jurassic Park started with finding perfectly preserved Dinosaur Blood inside a Mosquito preserved in Amber?

Me: I know. According to paleontologists, usually Dinosaur Blood only lasts 1,000 years when it's inside a mosquito that was stuck in sap.

Lisa: That is correct. Time would cause the blood to degrade and be illegible.

Me: But something about that Mosquito that John Hammond found preserved in Amber was really special.

Laney: No kidding. After 66 million years we brought the dinosaurs back to life. It's hard to imagine.

Me: I know. That used an incredible amount of genetic study and genetic research and genetic sequencing for studying about the genetic code.

Lisa: Indeed. And they had to fill in the genetic holes in the code to complete it.

Lincoln: They used the DNA of frogs didn't they?

Me: That's right. And frogs have been around for 200 million years. Almost just as long as dinosaurs.

Lana: That is amazing.

Qin: That's incredible. I was never good at studying all that complex DNA stuff. It's all too complicated for me.

Me: I know. It's still amazing that we brought back all the dinosaurs after being dead for 66 million years.

Qin: I know. I'm as shocked as everyone is.

Aylene C.: I know. We all are.

Me: But learning about all that genetic stuff really hurts my head because it's that complicated.

Lincoln: Me too.

Linka: Same here.

Lisa: Eh, it's not that complicated for me.

Me: I know it's not for you Lisa. A genius of your caliber thrives on all that.

Lisa: That is true.

Suddenly a man crashed into someones mailbox and we saw Shredlegs appear and wrap him up in webbing.

Me: Looks like Sheila and Shredlegs caught another bad guy.

Qin: They sure did.

Shredlegs turned back into Sheila and she was naked. We boys had our eyes covered.

Sheila: (holds her stomach in pain) Oh, crap! There goes another police uniform!

I pulled out a robe and gave it to her.

Sheila: Oh thanks J.D.

Me: You're welcome Sheila. Lets get you new clothes.

Sheila: Okay.

She put on the robe and we walked home.

?: (French Accent) Sheila?

We then saw a man come out and he had black hair and stereotypical French Clothes.

Sheila: Rex?

Rex: Oui my darling.

Me: You know this guy Sheila?

Sheila: Unfortunately yes. His name is Rex Monsior. He's my ex-boyfriend.

Nico: What's his story?

Sheila: He's a cheating womanizing rapist.

We gasped.

Rex: Come on darling. Don't I give you happiness?

Sheila: You hurt several women! But luckily you didn't hurt me.

Nico: Rex Monsior, you have failed this city!

Me: Now we're going to teach you how to show respect to women. (Cracks knuckles) Painfully!

Qin: Let me face him.

Qin went at Rex and punched him in the face and knocked out some of his teeth.

Ash: Staraptor, make sure to peck at Rex's groin!

Staraptor did so and boy did it hurt. BAD!

Me: (Winces) That's gonna hurt!

The police arrived and slapped the handcuffs on him. Turns out, he's actually on Interpol's most wanted list for raping several women across all of Europe. They busted him.

Me: That takes care of that loser.

Nico: What a waste of a man.

May: He deserves to go to prison.

Nico: Yep.

Rex Monsior was sentenced to life in the Uranus Prison without parole. Plus 2,100 years.

---

Back at the estate we were watching TV and reading books.

Me: I'm glad we put Sheila's evil ex in prison forever.

Varie: Me too.

G1 Razorclaw: So, Qin. How did it feel beating up a hostile ex?

Qin: It felt great.

Sheila was back in her regular indestructible clothes.

Sheila: Much better.

Later the next day it was movie day and for our choices we were watching the Jurassic Park movies. First we watched the first movie from 1993.

Industrialist John Hammond, head of bioengineering company InGen, creates a theme park called Jurassic Park featuring cloned dinosaurs and prehistoric plants, on the Costa Rican island of Isla Nublar. Following an accident at the site, lawyer Donald Gennaro, representing his investors, orders he gets experts to certify his park is safe. Hammond takes a group consisting of Gennaro, mathematician and chaos theorist Ian Malcolm, paleontologist Dr. Alan Grant and paleobotanist Dr. Ellie Sattler, to see the park he has created, all of whom are shocked to see living dinosaurs upon arriving. Hammond reveals that InGen created the dinosaurs through cloning - the process used preserved DNA in amber, with DNA from frogs used to fill in missing genomes. When Hammond points out breeding is prevented by having all dinosaurs genetically engineered as females, Malcolm theorises that nature will overcome this obstacle in time. Hammond arranges for the group, joined by his grandchildren Tim and Lex, to take a tour of the island, while he oversees things with his chief engineer Ray Arnold, and lead computer programmer Dennis Nedry.

However, the tour is cut short after being a failure, as a tropical storm approaches the island; while Sattler stays to help treat a sick Triceratops, the rest head back for the center. With most of the park's employees having left for the mainland, Nedry begins sabotaging the park's security systems, having been approached by a representative of a rival corporation to steal fertilized dinosaur embryos for them. As the storm hits, the power goes out, causing the dinosaurs to escape, while stranding the tour vehicles near the pen of a Tyrannosaurus rex. The dinosaur soon attacks the vehicles, devouring Gennaro, injuring Malcolm, and forcing Grant, Tim and Lex into the park's dinosaur reserves. Sattler, joining the park's game warden Robert Muldoon, attempt to rescue them, but are forced to bring Malcolm back when the Tyrannosaurus pursues them. Nedry, having acquired the embryos, attempts to reach the island's dock, but loses his way in the storm and is killed when stranded by a Dilophosaurus.

After the storm passes the following morning, Grant comes across broken egg shells with the children and realises the dinosaurs were given the DNA of Common reed frogs who can overcome a single-sex environment, thus proving Malcolm right that breeding control methods would fail. The group soon proceed to return to the visitor center. Meanwhile, Arnold decides to reboot the park's systems to undo Nedry's damage, heading to a maintenance shed to complete the process while the others at the center take shelter in an emergency bunker. When Arnold fails to return, Sattler and Muldoon head for the shed, and discover that the shutdown has freed the Velociraptors. Muldoon opts to distract them and is subsequently killed in the process, while Sattler reaches the shed and completes the reboot, before being forced to flee after finding Arnold was killed by the freed dinosaurs.

Grant, Tim and Lex manage to reach the center, following a mishap at the park's perimeter fence, and reunite with Sattler. With the park falling into chaos, the group find themselves being pursued by the Velociraptors across the center, but manage to escape from them when the Tyrannosaurus arrives and distracts the predators. Picked up by Hammond, transporting Malcolm after calling for help, Grant announces he won't endorse the park, much to Hammond's understanding. The group swiftly reach a helicopter sent out to rescue them and flee the island, whereupon the group watch the island disappear as they head for the mainland.

Next we watched The Lost World: Jurassic Park from 1997.

John Hammond invites mathematician Dr. Ian Malcolm to discuss a recent incident, four years after the chaos on Isla Nublar. Malcolm learns that InGen, now headed by Hammond's nephew Peter Ludlow, created the dinosaurs for Jurassic Park on Isla Sorna, which has recently been discovered by a wealthy family. To prevent Ludlow exploiting the creatures in order to save InGen's future, Hammond asks Malcolm to lead a team who will document the dinosaurs in order to attract support against human interference. Malcolm reluctantly agrees when he learns that his girlfriend, paleontologist Dr. Sarah Harding, was hired and went on ahead, but states his intention to retrieve her. Malcolm travels to Isla Sorna with Eddie Carr, an equipment specialist and engineer, and Nick Van Owen, a video documentarian and activist, but is shocked to find his daughter Kelly stowed away with them on their mobile base. Shortly after finding Sarah, the group discover Ludlow is also on the island with a team of hunters and mercenaries, including big game hunters

Roland Tembo and Ajay Sidhu; Roland's second-in-command, Dieter Stark; and paleontologist Dr. Robert Burke.

Visiting their camp at night, the group find that Ludlow is planning to ship the captured specimens to a theme park in San Diego. Nick and Sarah raid the site, freeing the captured dinosaurs who soon proceed to wreck havoc across the camp. Before returning to their base, Nick retrieves an injured Tyrannosaurus rex infant that Roland hoped to use to hunt its male parent, and Nick and Sarah treat the animal. Despite their good intentions when the parents find the infant, the Tyrannosaurus destroy the base, killing Carr as he tries to save the others. After the dinosaurs leave, the group find themselves rescued by Ludlow's team, both of whom are forced to work together after losing all their equipment. With the parents pursuing them, both teams focus on reaching an abandoned InGen site to call for help. However, the journey proves disastrous - Dieter is separated and killed by a pack of Compsognathus; the parents catch up with the group, causing most to panic into a field of long grass, where both they and Ajay are slaughtered by Velociraptors; and Burke is devoured by the female Tyrannosaurus while trying to hide with some of the group in a waterfall cave.

While Roland and Ludlow go missing, Malcolm, Sarah, Kelly and Nick manage to reach the InGen base despite being pursued by Velociraptors, and call for help. After being rescued, Nick reveals that he stole Roland's ammunition to prevent him killing his intended trophy, but witness that Roland and Ludlow survived and secured the male Tyrannosaurus with tranquilizers. As Ludlow congratulates the hunter on his success, while InGen personnel arrive on the island to secure it and its infant for transportation, Roland declines a job offer at the San Diego park, questioning the cost of Ludlow's scheme. Later, Malcolm and Sarah attempt to meet with Ludlow in San Diego to convince him to abandon his plans, only for the ship carrying the male Tyrannosaurus to suddenly crash into the docks. Unaware of the danger when the crew is found to have been killed, the male is accidentally released and goes on a rampage to secure food and water.

To end its rampage, Malcolm and Sarah secure the infant, after learning from Ludlow that it was taken to the San Diego park, and use it to lure the parent back to the docks. Ludlow pursues after them when they lead the parent to the ship, whereupon he chases after the infant when it is left in the hold, and is promptly killed by both it and its parent. Police soon secure the site, after Sarah tranquilizes the male and Malcolm seals it and the infant in the ship's hold. In the aftermath of chaos, with both dinosaurs returned to Isla Sorna, Hammond reveals in a televised news interview that the American and Costa Rican governments have declared the island as a nature preserve, finishing the interview with same words Malcolm once said to him before - "life will find a way".

Next we watched Jurassic Park III from 2001.

Ben Hildebrand and Eric Kirby go parasailing, tethered to a boat, over the waters near Isla Sorna. The boat's crew disappears, prompting Ben to detach the line before the boat crashes. He and Eric drift towards the island.

Eight weeks later, paleontologist Dr. Alan Grant has made a new discovery about the intelligence of Velociraptors, but struggles to secure funding for his research. Grant discusses his discovery of a resonating larynx on fossilized raptor remains with his longtime colleague Ellie. This, and his experience at Jurassic Park, leads him to believe that the original Velociraptors were socially sophisticated. He hypothesizes that if they had not gone extinct and continued to evolve, their descendants-rather than humans-would have become Earth's dominant species. His assistant Billy Brennan uses a 3D printer to replicate the Velociraptor larynx.

Paul and Amanda Kirby, posing as a wealthy couple, offer funding for Grant's research if he will give them an aerial tour of Isla Sorna. Grant reluctantly agrees and flies there with Paul, Amanda, Billy, and the Kirbys' mercenary associates Udesky, Cooper, and their pilot Nash. During the flight, Grant learns that the Kirbys plan to land on the island; he protests but Cooper knocks him unconscious.

Grant awakens to discover that they have landed. A Spinosaurus approaches the group, who board the plane to escape, leaving Cooper behind as he tries to reach the plane. The Spinosaurus emerges on the runway and devours Cooper. In avoiding the Spinosaurus, the plane crashes into the forest. The Spinosaurus destroys the plane and consumes Nash along with Paul's satellite phone. Fleeing, the survivors briefly lose the Spinosaurus but encounter a Tyrannosaurus rex. The Spinosaurus returns but the group escapes while the two dinosaurs fight. The Spinosaurus kills the T. rex by snapping its neck.

Grant learns that the Kirbys are a middle-class, divorced couple who are looking for their son Eric and Amanda's boyfriend Ben, who are missing on the island. The group finds the parasail attached to Ben's corpse. They take the parasail and then encounter raptor nests, and find an abandoned InGen compound. A raptor chases them and summons the rest of its pack. The humans flee into a herd of Corythosaurus and Parasaurolophus, causing a stampede, and separating Grant and Udesky from the others. Raptors attack Udesky in an attempt to lure the others out of a tree. The raptors almost capture Amanda when she tries to descend to help Udesky. The raptors' trap fails and they kill Udesky before departing.

Elsewhere, Grant watches the raptors communicating and suspects that they are searching for something. They ambush him but he is rescued by Eric, who survives in an overturned water truck. The next day, Grant and Eric are reunited with Billy and the Kirbys. The group is then chased by the Spinosaurus, but manage to lock it out by entering an abandoned observatory.

Grant discovers that Billy has taken two raptor eggs to use for funding, which provoked the raptor attacks. Grant decides to keep the eggs to ensure the group's survival. The group unknowingly enters a large aviary used to house Pteranodons, which attack the group and fly away with Eric. Billy rescues Eric using Ben's parasail, but is then attacked and seemingly killed by the Pteranodons. The rest of the group escapes the aviary, unknowingly leaving the door unlocked. They find a boat and make their way down a river.

That night, the group retrieves the ringing satellite phone from the feces of the Spinosaurus. Grant contacts Ellie and tells her where they are but the Spinosaurus attacks the boat. Grant ignites the boat's fuel, causing the Spinosaurus to flee. The next morning, the group makes its way towards the coast but are surrounded by the raptors. They surrender the eggs to the raptors while Grant uses the replica raptor larynx to confuse the pack, which runs off with the eggs.

The group reach the coast and see that Ellie had called in the Marine Corps and the Navy to rescue them. They discover that Billy, while seriously injured, is still alive, and has also been rescued. As they leave the island, they see the Pteranodons fly by.

Next we watched Jurassic World from 2015.

Brothers Zach and Gray Mitchell visit Jurassic World, a dinosaur theme park on Isla Nublar, of which their aunt Claire Dearing is the operations manager. Claire assigns her assistant Zara Young as the boys' guide, but they evade her and explore on their own. Elsewhere on the island, U.S. Navy veteran and ethologist Owen Grady has been training four Velociraptors and researching their intelligence. Based on the raptors' ability to follow commands, head of InGen security Vic Hoskins believes that the animals can be weaponized, an idea Owen and his assistant Barry begrudgingly oppose.

Prior to its opening, Claire and park owner Simon Masrani inspect the park's newest attraction, the Indominus rex, a genetically-engineered dinosaur created by geneticist Dr. Henry Wu. Masrani tasks Owen with evaluating the enclosure. Owen warns Claire that the Indominus lacks social skills, making it dangerous and unpredictable. When it seems that the Indominus has escaped, Owen and two park workers enter the enclosure. The Indominus, which can camouflage itself and mask its heat signature, suddenly appears. Owen survives, but it devours the other two men before escaping into the island's interior. Owen advises Masrani to have the Indominus killed, but with an interest to protect his company's investment, Masrani dispatches a specialized unit to subdue it with non-lethal weaponry. After most of the unit is slaughtered, Claire orders the evacuation of the island's northern sector.

While exploring the park in a gyrosphere, Zach and Gray enter a restricted area. The Indominus arrives and destroys the gyrosphere but the boys narrowly escape. They find the ruins of the original Jurassic Park visitor center, repair an old Jeep Wrangler, and drive back to the park resort. As Claire and Owen search for the boys, they barely escape the Indominus. Masrani and two troopers hunt the Indominus by helicopter but it breaks into the park's aviary, releasing pterosaurs - Pteranodon and Dimorphodon species - which collide with the helicopter, causing it to crash, killing Masrani and his troopers in the process. Gray and Zach find Owen and Claire at the resort as armed personnel shoot down swarming pterosaurs with tranquilizers.

Assuming command, Hoskins orders the raptors to be used to track the Indominus. Forced to comply, Owen leads the raptors. Upon finding the Indominus, the dinosaurs begin communicating among themselves. Owen realizes that the Indominus has Velociraptor DNA, and it usurps Owen's dominance, becoming the pack's new alpha. Troops fire on the Indominus, but it escapes. The raptors slaughter most of the troops, but one raptor is killed. Hoskins evacuates Wu and the dinosaur embryos from the island to protect Wu's research. Owen, Claire, and the boys find Hoskins at the lab, but a raptor breaks in and kills him.

Owen re-establishes his bond with the three raptors before the Indominus reappears. They attack the Indominus but two are killed. Claire releases the park's Tyrannosaurus rex and lures it into a battle with the Indominus, which gains the advantage over the T. rex until Blue, the last surviving raptor, joins the battle. The Indominus is cornered at the lagoon's edge, where it is dragged underwater by the park's Mosasaurus. The survivors are evacuated and the island is abandoned again. Zach and Gray are reunited with their parents, while Owen and Claire decide to stay together.

Lastly we watched 2018's Jurassic World: Fallen Kingdom.

A small mercenary team arrives on the abandoned Isla Nublar to collect DNA from the Indominus rex remains lying on the bottom of the park's lagoon. After collecting a bone, the team's survivors barely escape the island following attacks by the Mosasaurus and the Tyrannosaurus rex.

A U.S. Senate hearing in Washington, D.C. debates whether Isla Nublar's dinosaurs should be saved from an impending volcanic eruption. Mathematician Dr. Ian Malcolm testifies that the dinosaurs should be allowed to perish to correct John Hammond wrongfully cloning them. Meanwhile, Jurassic World's former operations manager, Claire Dearing, has established the Dinosaur Protection

Group to save the animals. After the Senate rules against rescuing the animals, Hammond's former partner, Benjamin Lockwood, summons Claire to his Northern California estate. Lockwood and his aide, Eli Mills, reveal a plan to relocate the dinosaurs to a new island sanctuary. Claire is needed to reactivate the park's dinosaur tracking system to locate the animals, particularly Blue, the last surviving Velociraptor. Though they are now estranged, Claire recruits Owen Grady, Jurassic World's former Velociraptor trainer, to help capture her.

On Isla Nublar, Claire and former park technician Franklin Webb reactivate the online tracking system. Owen, paleo-veterinarian Zia Rodriguez, and a mercenary team led by Ken Wheatley, track and find Blue. The encounter escalates, resulting in Blue being shot and Wheatley tranquilizing Owen. Wheatley then abandons Owen, Claire, and Franklin on the island while forcibly taking Zia hostage to treat Blue. The mercenary ship, loaded with captured dinosaurs, departs for the U.S. mainland as the remaining animals are left behind to die in the eruption. Claire, Franklin, and Owen sneak aboard the ship and help Zia transfuse Blue with Tyrannosaurus blood. The group realize that the captured dinosaurs are being transported to an unidentified location for an unknown purpose.

At the estate, Lockwood's orphaned pre-teen granddaughter Maisie overhears Mills and auctioneer Gunnar Eversol secretly planning to auction the captured dinosaurs on the black market. They will also unveil the Indoraptor, a new genetically-modified dinosaur created by geneticist Dr. Henry Wu using Indominus rex and Velociraptor DNA. Wu needs Blue's DNA to create an enhanced Indoraptor that is obedient to commands, unaware that Blue's blood has been contaminated. After Maisie informs Lockwood about the auction, he confronts Mills, who murders him. Maisie is later revealed to have been cloned from Lockwood's deceased daughter and to be the reason John Hammond, who opposed human cloning, ended their association.

The dinosaurs are transported to Lockwood's estate. Zia and Franklin narrowly evade capture, but Owen and Claire are apprehended. Owen incites a Stygimoloch into breaking open their cell. The two encounter Maisie, who leads them to the auction where the Indoraptor is being sold despite Wu's protests that it is a prototype. Owen disrupts the proceedings by luring the Stygimoloch into the room. In the ensuing chaos, Wheatley tranquilizes the Indoraptor to extract a tooth as a trophy. The hybrid feigned being sedated before killing Wheatley, Eversol, and others as it escapes. The Indoraptor then hunts Owen, Claire, and Maisie throughout the mansion until Zia releases Blue, who attacks and fights the Indoraptor. Atop a high glass roof, both animals crash through it, killing the Indoraptor and leaving Blue unharmed.

When a hydrogen cyanide gas leak threatens the caged dinosaurs, Maisie frees them, despite Owen's objections. Mills attempts to flee with the Indominus rex bone but the T. rex, devours him then tramples the bone, destroying it. Owen, Claire, Maisie, Zia, and Franklin escape, while Blue and the other released dinosaurs flee the estate grounds.

In a new U.S. Senate hearing, Dr. Malcolm declares the beginning of a Neo-Jurassic Age, where humans and dinosaurs must coexist. The closing scenes depict the freed dinosaurs roaming wilderness and outer urban areas.

When they were done, we cheered wildly. We watched 10 hours of movies in one day.

Me: That series is so awesome!

With us was Owen Grady from Paleozoic World.

Owen G.: I had no idea that they made movies about all this.

Me: It's amazing Owen and it is so cool how you train Velociraptors.

Owen G.: Thanks. You learned a lot from me as well.

Me: True.

Luan: I also heard that Jurassic World 3 is coming out soon.

Me: Not for another 2 years in 2021.

Luna: These movies are rockin' dudes!

Lori: But those hybrid dinosaurs were literally scary.

Me: I know. The Indominous Rex was really terrifying. It was made as a combination of multiple creatures all together.

I pulled up it's information on the computer and it showed that it was a creature that was made from different species of dinosaurs and modern day reptiles and amphibians: Giganotosaurus + Majungasaurus + Carnotaurus + Rugops + Therizinosaurus + Tyrannosaurus rex + Pycnonemosaurus + Quilmesaurus + Viavenator + Velociraptor + Deinosuchus + Cuttlefish + Tree frog + Pit viper + Unspecified number of modern animals.

Me: Holy shit! That dinosaur is an abomination!

Lisa: Agreed. A monster like that would be considered the ultimate terror of the world of dinosaurs in general.

Lana: Those scientists that made it were really playing with fire.

Nico: What about Indoraptor? What was that one made with?

Me: Lets see.

I looked it up and it showed that Indoraptor was made with the same things but in a Velociraptor Body.

Me: It's a fusion of Indominous Rex and Velociraptor. But in a Velociraptor's body.

Owen G.: I would not want to train that beast.

Me: Me neither. But what really shocked me was that Maisie was cloned. Human cloning is incredibly dangerous and it can have some dangerous and unpredictable side effects.

Lisa: That is correct.

Lily: Well look at the Ultramen. They were clones and they were cured by me.

Me: That's true.

Owen G.: That's is what really shocks me. Maisie is a good girl and she is mine and Claire's adopted daughter.

Me: I'm glad she now has a family. But what really infuriates me is that Dennis Nedry ruined Jurassic Park for his own greed. Lets see what happened in the park first hand in the movie with the Simulator.

Nico: That's a great idea.

G1 Grimlock: Me, Grimlock want to fight T Rex. Prove that Me, Grimlock strongest Dinobot.

Me: All right then.

Cole: Lets all go. I want to see how the Wild Force and Ninja Storm rangers can help out.

Me: All right then. Lets go.

G1 Scavenger: Think I can find the embryos if I dig in my vehicle mode?

Me: It's possible. Lets go.

We went to the Simulator.

---

We got ready for the most perilous adventure ever in the simulator. We went into the Simulator. It activated and we found ourselves on Isla Nublar in the middle of a tropical storm drenching the island with rain.

Me: Wow. What a rainstorm.

Laney: It's really coming down.

Suddenly we felt stomping.

Me: Uh oh.

Hulk: Hulk feel that.

Lana: That's not what I think it is, is it?

Me: I'm afraid so. Tyrannosaurus Rex is coming.

Suddenly we saw a goat limb fly out and hit the car in front of us and thunder crashed and we saw Tyrannosaurus appear and eat the goat. It ripped the wires of the fence down and came out and roared.

ROOOOOOAAAAAAARRRRR!

Me: Here we go!

Wild Force Rangers: WILD ACCESS!

The Wild Force Rangers turned into their ranger forms!

Shane Hunter: Lets do it!

Ninja Storm Rangers: Ninja Storm/Thunder Storm/Samurai Storm! RANGER FORM HA!

The Ninja Storm Rangers transformed.

Shane Hunter: (Echoing) Power of Air!

Dustin: (Echoing) Power of Earth!

Tori Hanson: (Echoing) Power of Water!

Hunter and Drake Bradley: (Echoing) Power of Thunder!

Cam: (Echoing) Samurai power!

The Tyrannosaurus went at the car Lex and Tim were in and turned it over!

Edzilla: ED SMASH DINOSAURS! (tail whips T Rex)

Hulk: HULK SMASH T-REX! (Punches the T-Rex!)

We scared it away.

Me: Yes! That scared it away.

We freed Lex and Tim from the car.

Lex: Thank you all.

Me: No problem. Are you all right?

Lex: Thanks to you.

Tim: WOW! You're all Team Loud Phoenix Storm!

Me: That's right. It's a pleasure to meet you.

Lex: Why didn't the fences stop the T-Rex?

Me: The whole park was sabotaged and the fences were turned off. The Dinosaurs are now free.

Tim: That's terrible.

Lex: Who would do such a thing?

Me: Someone in the control room planted a virus that caused all the security systems and the power fences to shut down. The phones and everything are out as well.

Lex: We're cut off.

Dr. Grant: Do you know where he might have gone?

Me: I have a strong feeling I know where he went.

Lori: We got to find him.

Cole: Right.

Me: We're gonna have to walk all over the island to find him. We know this island like the back of our hands. Follow me.

We were off. We went to explore the island and it was an amazing island.

We were on the east side of the island and we found the docks sign.

Me: We're on the road to the east docks.

Lori: Look up there.

We saw a jeep with it's lights still on. But there was blood all over the windshield on the inside.

Me: Oh man.

We climbed a small waterfall and we got to the jeep. I opened it and found a horrifyingly gruesome sight! It was a man that was ripped to shreds!

Nico: Oh god!

Me: Holy shit! He was literally ripped apart!

Lynn: This was freshly done.

Lori: This guy is literally dismembered!

Lex: What did this to him?

Me: A meat-eating dinosaur no doubt. This was not the Tyrannosaurus's work. Something smaller did this.

Luna: What was it dude?

Lana: The embryos are right here!

Lana came back with a shaving cream can she dug out of the mud.

Me: It's a shaving cream can.

Lana: Yeah but the embryos are inside it.

She lifted the cover off and inside it were little vials full of fertilized Dinosaur Embryos.

Me: So that's how he did it. He put the embryos in a cryogenically modified shaving cream can to smuggle the embryos out of the island.

Lori: That is literally very clever.

Luna: He sure knew what he was doing.

Lisa: I'll put these in a freezer unit for the time being.

Lisa did so.

Nico: Wait. What's this on his face?

Nico wiped a slimy sticky substance from Nedry's eyes and Lisa analyzed it.

Lisa: It's a poisonous sticky venom.

Me: Probably used to blind whatever creature's prey.

Lex: What kind of creature would do that?

I wipe the venom and smelled it.

Me: Neurotoxin Venom. Paralyzed him no doubt.

Squealing was heard and we turned and we saw a Dilophosaurus!

Me: A Dilophosaurus.

Tim: They lived in the Jurassic.

Me: 193 million years ago. This one is a juvenile. Still a baby.

Then we saw it unveil a frill and it spit venom at me and it landed on my shirt. It roared ferociously.

Me: Yuck!

It was sticky.

Aylene C.: Dilophosaurus has never been shown to do that.

Me: There's no evidence from Paleontologists that showed it was capable of doing that.

Laney: There's blood on it's teeth.

Lucy Loud: This is no doubt the dinosaur that killed that man.

Me: Lets get it!

I punched it in its face and knocked out one of his teeth.

Cole: Lets show it some teamwork! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm and it enhanced his strength and his weapons 100-fold.

Shane Hunter: Lets do it! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into the his right arm and it enhanced his ranger powers and weapons 100-fold.

Cole Evans and Shane Clarke: FLYING LION SAVAGE CLAW!

Cole fired a burst of red light and it turned into a lion and Shane fired a blast of energy and they merged and turned into a gryphon and they hit the Dilophosaurus and exploded. Killing it.

Me: YEAH!

Laney: That was awesome!

Cole: Thanks guys.

Shane Hunter: It was cool doing a combo.

Me: Yep. We got the embryos back. But we have to get the power back on.

Maria: At least we'll have more dinosaurs for our version of Jurassic Park.

Me: Yep.

We continued exploring the island and then we saw a Pteranodon perched on a tree.

Me: Wow! Pteranodon.

Tim: Amazing dinosaur.

Me: Technically they aren't dinosaurs. They are flying reptiles. They lived 86 million years ago.

Nico: It's amazing.

It saw us and flew at us.

Me: Here it comes!

Taylor: Lets do this!

Dustin: You got it Taylor!

Taylor: EAGLE TALON SLASH!

Taylor swung her Crystal Saber and an eagle called was heard.

Dustin fired a powerful blast of lava from his sword.

Taylor Earhardt and Dustin Brooks: VOLCANIC EAGLE STRIKE!

The slash energy turned into an eagle and the lava covered it and turned it into an eagle of lava and it hit the Pteranodon and incinerated it.

Me: Yeah!

We were on the north side of the island and we saw Triceratops!

Me: Triceratops.

Tim: These are awesome dinosaurs.

Dr. Grant: They are amazing.

Me: 67 million years ago they lived.

A roar was heard and we saw a Deinosuchus!

Me: A Deinosuchus!

Lana: Wow!

Tim: One of the first Crocodiles.

Me: 82 million years ago they lived.

Laney: That is a terrifying one.

Me: They were one the largest of all crocodiles back then.

Max Cooper: Triceratops are very territorial aren't they?

Me: Yes they are Max.

Max Cooper: Time to stop that creature! SHARK CHOMP BITE!

Max Cooper fired a blast of blue energy from his crystal saber at it.

Tori Hanson fired a massive blast of energy water.

Max Cooper and Tori Hanson: AQUA SHARK STRIKE!

The blasts combined and turned into a deadly blue energy shark made of pure water and it hit the Deinosuchus and killed it.

Me: Yeah!

Lola: That dinosaur would make a great leather skin purse.

We laughed.

Luan: No one can Skin it better. (Laughs) Get it?

We laughed.

Lex: (Laughs) That was a good one.

Me: Luan cracks us up.

We continued and we were on the western side of the island and then we spotted a heard of Gallimimus.

Tim: Gallimimus.

Me: 70 million years ago they lived.

Lex: Are those meat-eating?

Me: They mostly eat eggs.

Lex: Oh.

Lori: They literally act like ostriches do today.

Me: They sure do.

Alyssa Enrilé: Lets do this! WHITE TIGER SLASH STRIKE!

Alyssa fired a blast of pink energy and it turned into tiger claws.

Blake Bradley: Lets do it! LIGHTNING STORM SCARAB STRIKE!

Blake fired a massive blast of lightning that turned into a scarab of pure lightning.

Alyssa Enrilé and Blake Bradley: LIGHTNING STORM TIGER BLAST!

The blasts combined and turned into a lightning tiger with scarab wings and it slammed into the Gallimimus and destroyed them.

But the the attack caught the attention of another dinosaur. It was the Largest Carnivorous Dinosaur ever discovered: SPINOSAURUS!

Me: Spinosaurus!

Tim: That is a big one.

Me: 112 million years ago it lived and it's the largest carnivorous dinosaur ever known. They can grow up to 59 feet long and weigh 35 tons.

Lori: That is literally the biggest one of them all.

Nico: But no dinosaur is meaner than Tyrannosaurus Rex.

Lana: Cool!

Lola: What's that sail on its back for?

Me: It's used for thermoregulation. It uses the light of the sun to warm its blood.

Spinosaurus roared ferociously.

RRROOOOOOOOOOOAAAAARRRRRR!

Me: Here it comes!

Danny Delgado: Lets get him! BISON CHARGE RAM!

Danny fired a blast of black energy from his Crystal Saber.

Hunter Bradley: Time for action! RED LIGHTNING STRIKE STORM!

Hunter fired a powerful blast of red lightning.

Danny Delgado and Hunter Bradley: STORM BISON ELECTROCUTION!

The blasts combined and formed into a Bison made of pure lightning and it hit the Spinosaurus and electrocuting it and incinerating it.

Me: Yeah!

Dr. Grant: I guess humans have bested the largest carnivorous dinosaur ever discovered.

Me: Yep.

We continued on and we saw in the South part of the island, we saw CARNOTAURUS!

Me: Carnotaurus!

Tim: That's a scary one.

Me: It lived 72 million years ago.

It roared ferociously.

Me: Here it comes!

Merrick: Lets get him! WOLF HOWL BURST!

A Wolf Howl was heard and a sonic energy blast was seen.

Cam Watanabe: HURRICANE SABER SLASH!

Cam fired a powerful green energy blast from his sword.

Merrick Baliton and Cam Watanabe: WOLF SABER HURRICANE!

The blasts combined and slashed the Carnotaurus in half and killed it.

Me: Wow! We are too strong for even the deadliest dinosaurs of all.

Aylene C.: We sure are. If we can destroy Sharptooth, then we can defeat any kind of carnivorous dinosaur.

Laney: We sure can.

We later headed to the visitors center.

Owen: (to Star Lord) I just noticed that you and I look exactly alike.

Star Lord: We sure do huh?

Me: That is very coincidental.

We arrived at the visitors center and it was deserted.

Lana: Hello?

Lisa: There appears to be no one here.

Me: Where is everybody?

Lola: I don't know but it's not good.

Dr. Grant: I have a bad feeling about this.

Me: Me too.

Suddenly there was snorting heard.

Me: Uh oh.

We heard a roar and we turned and we saw Velociraptors!

Me: Velociraptors!

Tim: There's 4 of them.

Hulk: HULK SMASH VELOCIRAPTORS! (punches velociraptor)

Me: Wait Hulk. I got this. Time to put everything I learned from Owen to the test.

I went over to them and using my body language and the things I learned from Owen, I tamed them and they saw me as the leader of the pack. They followed me.

Owen: Well done J.D.!

Lex: How did you do that?

Me: It takes a huge amount of body language and understanding the role as leader of the pack. Velociraptors act like wolves do today.

Merrick: That's really interesting.

Me: It is.

Suddenly there was thunderous stomping heard.

Me: Uh oh. Here comes T-Rex.

Lex: We have to hide.

Me: No. We don't hide from battle. We fight until we win.

Tim: J.D. is right! I'm through running!

Naruto: That's the spirit.

Lex: Lets do it!

Then the Tyrannosaurus came out and it saw us and roared!

ROOOOOAAAAAAARRRRRRRRR!

We were ready to face it!

Me: Time to show this monster the powers of dinosaurs over the course of millions of years!

Aylene C.: Lets do it!

We went at him and I punched the Tyrannosaurus in the snout and knocked out some of his teeth. Lex then summoned all of her strength.

Lex: BRACHIOSAURUS TAIL WHIP!

She slammed a devastating punch that carried the strength of a Brachiosaurus into the side of the Tyrannosaurus's side with devastating force and sent him crashing into the wall.

Lex: Wha!? How did I do that!?

Me: That was your first taste of the power we have.

Tim: That was so cool Lex! Let me see if I can try.

Tim went at the Tyrannosaurus with amazing speed.

Tim: DROMICEIOMIMUS SPEED PUNCH!

Tim ran at 50 miles per hour and dealt the Tyrannosaurus a powerful punch to its face.

Me: Wow! That was impressive!

Dr. Grant: It sure was.

Me: Dromiceiomimus lived 80 million years ago and it was the fastest dinosaur ever discovered.

Nico: That is amazing!

Carol: It sure is.

Me: Lets show this monster some teamwork!

Razorclaw: You got it boss! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his Lion Form's powers 100-fold.

Scavenger: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his abilities and weapons 100-fold.

Razorclaw and Scavenger: SUPER LION DEATHSLAM!

Razorclaw and Scavenger went at the Tyrannosaurus and slammed into it with devastating force!

G1 Grimlock: Me, Grimlock, ready. CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his abilities 100-fold. It also enhanced his energon sword 100-fold.

Ash: Lets get him Staraptor! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and enhanced his Staraptor's abilities 100-fold.

Ash: Staraptor, use Whirlwind!

G1 Grimlock and Ash: MISSILE TORNADO FIRESTORM!

Grimlock fired numerous galaxial missiles and Staraptor flapped his wings really fast and created a massive tornado. The blasts combined and hit the Tyrannosaurus and exploded.

Me: Lets dethrone the meanest dinosaur ever! Final Smash time!

Lex: Right! STEGOSAURUS SPIKETAIL SLAM!

Lex formed some spikes on her fist and slammed it into the Tyrannosaurus's chest with devastating force.

Tim: Lets do it! ANKYLOSAURUS TAIL CLUB SLAM!

Tim formed his hand into an Ankylosaurus Tail Club and slammed it into the Tyrannosaurus's face and knocked out some of his teeth.

Aylene: Time for action! TRICERATOPS FURIOUS RAM!

Aylene charged and she was surrounded in an aura that turned into a Triceratops head and she slammed into the Tyrannosaurus with incredible force.

Lana: Time to freeze this beast! ICE AGE FREEZE MAMMOTH!

Lana formed an ice aura and it turned into a Mammoth from 75,000 years ago and it charged and slammed into the Tyrannosaurus.

Owen G.: Time to show this beast the power of teamwork. VELOCIRAPTOR PACK CARNAGE!

Owen ran and the spirits of the raptors from Jurassic World appeared and they slashed and mutilated the Tyrannosaurus until he was nothing but a skeleton.

Me: Yeah! That's it for the meanest of all dinosaurs.

Nico: That was so awesome!

Owen G.: It sure was.

Lex: This was so cool!

Me: Lets get back home and bring the dinosaurs with us to our world.

We did so.

Nico caught a Diggersby and Talonflame.

Lana: (To the viewers) Greed can end up with terrifying consequences to a lot of people. Nedry had to learn the hard way in the movie and in the adventure.

Me: Yep.

We returned the embryos and told John Hammond what happened and what would've happened.

---

Later in the training grounds I was helping Sakura Avalon get stronger and stronger with her magic and her new powers she got from me and everyone.

Sakura Avalon: This is amazing! I didn't know you all had so many powers.

Me: There are lots of things you don't know.

Madison then arrived.

Madison: Hey guys! I have a Clow card!

Me: Which one?

I looked at it. It was the Shot Card! 撃

Me: That's the Shot Card! That card is really dangerous Madison. If you say that cards name out loud, the first person the card sees becomes its target.

Madison: I remember that! The Shot Card almost killed Li!

Me: Uh oh! Its been activated!

The Shot Card flew into the air and formed into a ball of light! It fired a beam of energy at Sakura.

Me: Oh shit! Sakura is the target!

It was firing beams of light at her and she was dodging them and then it hit Sakura in the leg and went through her and she screamed in pain!

Me: Oh no!

I fired an energy blast at it and knocked down the Shot Card. It revealed it's true form.

Once activated, Shot transforms into a body of light that fires out beams of energy, like lasers, that become increasingly more accurate with each attack. When attacking, Shot appears as a fast moving bolt of energy. Its visible form is a young, elfish spirit with red and yellow hair and large, pink eyes.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Shot Card and it was back as a Clow Card.

Me: Got it!

I went over to Sakura and she had a bad wound on her leg.

Me: You'll be all right Sakura.

Madison: Yeah.

Me: That wound is bad. Lets get it looked at.

We took her to the infirmary and her leg looked like it had a bullet wound in it.

She was gonna be all right. But she'll have to stay off her leg for 5 weeks.

THE END

Another Fanfiction complete and an epic adventure in the books.

The true Jurassic Park scenario was so crazy that it was unbelievable. NicoChan11 gave me the ideas for this one. Thanks man as usual. The next card is the Mirror Card and prepare to see double. Let me know what you all think.

See you all next time.

Captain Underpants And Team Loud Phoenix Storm And The Treacherous Plot Of The Cafeteria Worker That Serves Bad Food

---

At the Team Loud Phoenix Storm Estate, everyone was rooting on Horsea, Poromon, Poliwag, and Manaphy as they were playing checkers against each other.

Maria: C'mon, Horsea! You can do it!

May: C'mon, Manaphy! Mama and Beautifly believe in you!

There were two black pieces and a bunch of red pieces.

Manaphy claimed the last two pieces and she won.

Manaphy: YES!

They cheered.

Horsea: Good game Manaphy.

I was in Sakura's room.

Me: How are you feeling Sakura?

Sakura Avalon: I'm still sore. The Shot Card really did a number on me.

Me: It sure did. But it was an accident.

Sakura Avalon: I know.

Me: Nico and Qin are getting more potions from the Radiant Garden to help you heal faster. Sora ran out of Potions and they went to get some more.

Sakura Avalon: Okay. I hope they will help me.

Me: They will. So far we caught 28 Clow Cards. We're half way finished.

Sakura Avalon: I know. But you are doing great J.D.

Me: Thanks. I got to go into town to pick up some food.

Kero: Don't forget to get me some cake.

Me: You have a tremendous love of cake huh Kero?

Kero: I sure do.

Me: I'll be back later.

I went into town.

---

I went to the store and I bought a slice of cake and then I sensed a Clow Card.

Me: A Clow Card is here.

I then saw the strangest sight! It was SAKURA up and about and she was in the store!? What the Fuck!

Me: What the!? Sakura?

I saw her smash a display of boxes of cereal and she ran off.

Me: That is not Sakura.

I ran after her and cut her off.

Me: You are not Sakura Avalon! You're a Clow Card. Wait a second. I know you. You're the Mirror Card!

In a Blinding flash of light she revealed her true form. It was the Mirror Card! 鏡 Mirror appears as a young girl with a circular mirror in hand, her hair is parted with two tails tied in front. A smaller mirror rests on her forehead, but in the anime, this is replaced by a diamond-like symbol. The Mirror wears a lengthy, Chinese style dress which usually obscures her feet, underneath she wears a pair of baggy pants and thin slippers. The Mirror appears to possess "wings" which are shards of glass protruding from her back.

Me: Wow.

Mirror Card: I'm sorry.

Me: I forgive you. RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Mirror Card and it turned into a Clow Card. It was mine.

Me: Got it.

I resumed my shopping after signing it and paid for my groceries.

---

In space, the Gummiship was heading to the Radiant Garden.

Kup: Why are we heading to Radiant Garden again?

Sora: Because I ran out of potions for healing. So I need to go to Radiant Garden to buy some more.

Nico: We have to also heal Sakura's leg.

Qin: Sakura really took a nasty one to her leg.

Nico: I know. The Shot Card really did a number on her leg.

Kup: Poor girl.

Nico: But it's not her fault. It was all an accident.

Qin: I know.

Sora: We're here guys.

They landed in the Radiant Garden.

Qin: So this is Radiant Garden?

Cheetah: It looks amazing, doesn't it?

Qin: It sure does.

They were walking around and they saw that it was mostly fully reconstructed.

Nico: It sure has changed the last time we were here.

Qin: I remember that.

They were at a shop.

Swindle: Excuse me. My friend here ran out of potions. Can he have some more?

They were surprised to see Dewey at the shop.

Dewey: Sure.

Nico: Hey Dewey.

Dewey: Oh hey guys.

Sora: So you are the shopowner.

Dewey: Yep.

Nico: How are your brothers doing?

Dewey: Been doing great.

They bought 99 potions for Sora.

---

Back at the estate I was talking to Tory.

Tory: So the Mirror Card looked like Sakura again?

Me: Yeah. I can tell that it was the Clow Card you've had an encounter with before.

Tory: Yeah. It was. How's Sakura doing?

Me: Her leg is in really bad shape. But Nico and Sora are heading to the Radiant Garden to get more potions to heal her.

Tory: Okay.

Nico: We're back!

Me: Coming down!

I went to him. Sakura was given the potion and she was amazed when she was fully healed!

Sakura Avalon: Wow! I feel better than ever!

Me: Those potions really help out a lot.

Sakura Avalon: They sure do.

Sakura slammed the cast onto the floor and it shattered and her leg was better than ever.

Me: Wow! You are strong Sakura.

Sakura Avalon: I got my athletic Skills from dad. And it's how I'm so talented.

Me: I believe it.

---

At school we were having lunch in the cafeteria.

Me: Hey George I heard you tried growing avocado trees.

George B.: Yep. But that was a boring time. It was called Avocad-grow.

Captain Underpants Narrator: Yes, Avocad-grow, the annual avocado growing contest. Generally considered one of the most boring contests in existence, except for the prize.

Harold H.: But the prize was good. The winner gets an all you can eat lunch of anything you want.

Me: Wow! That's a great prize.

Lori: That is literally a great prize.

Laney: Why is it so boring?

Me: Well I think I know the reason. Avocados take a long time to grow and they need the right conditions for that to happen.

Lincoln: How long does it usually take for them to grow?

Me: 8 to 15 years.

Harold H.: 8 to 15 years!?

George B.: That's a long time.

Me: Yeah and you need the right conditions for them to grow. Usually right around Florida, Mexico, Central America or South America.

Lana: So tropical climates.

Me: Yep.

Mr. Krupp: I love guacamole a lot and it's really good. But I can't believe I let a boring contest like that get to me.

Nico: I know. I like guacamole too and it's good.

?: Soon you will be pounded into Guacamole!

We turned and we saw the former lunch lady of Jerome Horwitz Elementary: MISS CREANT!

Krupp: Miss Creant?!

Creant: Miss me, traitor?!

Me: Another disgraced teacher here to get revenge?

Creant: That's right. And it was because of those brats that I lost my job and the school was closed down! (Points to George and Harold)

Me: That school was a nightmare to kids! It was a menace to all kids everywhere.

Nico: It should've never been made a school at all!

Creant: Then you will be eaten by my children!

Then she pulled out a pot and she made a bunch of food minions!

Numbuh Two: Food minions? I hope they're as tasty as Stuffum's was!

Lola: Lets hope so too Hoagie.

Qin: Who is Stuffum?

Nico: She was one of the villains that the Kids Next Door faced. She was a fat old lady that force feeds kids her disgusting food to kids so that they will become fat and unable to move. She believes that it would not get them in trouble.

Qin: That's torture!

Numbuh 2: Her food may be disgusting. But it was tasty.

Lola: It sure was.

Qin: What kind of food did she have?

Nico: She had an army of living food of many kinds. It's a really long list.

Qin: Wow.

Me: I'm getting hungry.

Lynn: Me too.

Nico: Creant, you aren't the only one that has an army of food minions!

Nico held out his hands and formed a bunch of minions of food! It was the army of Gramma Stuffum!

Qin: Wow!

Lola: You made Gramma Stuffum's army of food?

Nico: Yep. When you killed her I got her powers.

Me: TIME TO FIGHT FOOD WITH FOOD!

We went at Creant and her food Minions and it was turning into the biggest food fight of them all!

We were chomping, biting, gulping and gorging on all the food minions and eating them.

Lynn: (eats a spicy food minion) Tasty. But it needs salt.

Nico and Laney ate a bunch of spicy food minions and belched out a lot of fire and burned some of the minions.

Me: Barbecued chicken and beef. My favorites.

I ate all the burned minions.

Some vegetable minions went at Jared.

Jared: How did she know that I am a vegetarian?

Jared ate all the vegetable minions and they were good.

Jared: (Gulp) Yummy.

Lola ate some pie and candy.

Lola then went on a roadrunner sugar rush!

She was running really fast like a race car and more. She was gobbling up more minions than anyone else can count.

Lana ate a bunch of minions and more.

Lana: (BURPS) What a meal.

George B.: Lets show her some underpants power Mr. Krupp! (Snaps Fingers)

Mr. Krupp turned into CAPTAIN UNDERPANTS.

Captain Underpants: TRA-LA-LA! Whoa. We got a lot of mess to work with.

Captain Underpants fired a massive fart at Miss Creant and it smelled horrible.

Nico: Hey Creant! Check out what else my food minions can do.

Nico sent them out and when they got close they exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO
SPLAT!

It was a mess!

Me: Wow! Kamikaze Food Minions. Awesome!

Qin: That was so cool!

May: It sure was.

Me: Lets show them some teamwork!

Swindle: You got it boss! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his Gyro Gun 100-fold.

Cheetah: Lets do it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Cheetah's right arm device and it enhanced her speed, strength and claws 100-fold.

Swindle and Cheetah: SUPERSONIC VERTIGO SLASHSTORM!

Swindle fired his Gyro Gun and it made a bunch of food minions extremely dizzy and Cheetah slashed them all apart and killed them and ate them.

Kup: Time for some action! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and enhanced his Hydrochloric Acid Gun 100-fold.

May: Lets do it Beautifly! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and it enhanced her Beautifly's abilities 100-fold.

May: Beautifly, use Air Cutter!

Kup and May: ACID BLADE WIND!

Kup fired a massive blast of Hydrochloric Acid and May's Beautifly fired a powerful blade wind and the blasts combined and slashed and melted a bunch of food minions.

Then a roar was heard and we saw MEATMAN!

---

He was a one-time villain to Lazlo, Clam, and Raj in the episode "Meat Man," who was once a small, lifeless action figure that Lazlo had made out of an unidentified meat luncheon served to them by an irritated Chef McMuesli as a punishment for mocking him. He was first intended to amuse the boys, but as they grew bored with him, he was eventually ignored altogether and later became a sentient meat, and ever menacing shape-shifting being who was angered by their neglect and mistreatment; tormenting and battling with Lazlo, Clam, and Raj, and this culminated into him almost eating Lazlo alive. However, before the deed is done, the screen fades to black and that entire experience turns out to be a ghost story told by Lazlo to the other Bean Scouts over a campfire. Lazlo claims that they had defeated and vanquished the creature; however, at the end of the episode it's been eerily implied that Meatman won the battle and ate Lazlo, Clam, and Raj alive, morphing and posing as them in order to deceive and fool the other campers, which he is ready to devour all of them as well.

---

Lazlo: IT'S MEATMAN!

Me: What is he made with?

Lori: Looks like mystery meat.

Raj: (India Accent) It's true. He's made entirely out of mystery meat.

Meatman: NOW I'M GOING TO ENJOY EATING ALL OF YOU FOR LUNCH!

Nico: Come and try it!

Nico fired a powerful blast of fire and burned the mystery meatman into ash.

When all the food minions were destroyed and eaten, we set our sights on Miss Creant.

Me: Now it's your turn to be afraid!

Lynn: I'm going to pulverize you into pulp with fire! SPICY SUB INFERNO BLAST!

Lynn bit a nuclear hot Spicy Sub and blew out a massive blast of fire that was blazing and it burned her.

Lynn: How's that for love of Spice!

Creant: You ruined my life!

George: Hey, you were the one who tried to attack us with food minions. You basically begged us to eat them!

Then a fast jumping figure appeared and it kicked Miss Creant with devastating force and slammed her into the wall!

CRASH!

Lynn: Wow!

Lynn saw the figure and it was a red Kangaroo Zord!

Lynn: Wow! A Kangaroo Zord!

Nico: Kangaroos are awesome in Australia.

Then a red light was seen and it landed in Lynn's hand and it was the Kangaroo Zord Animal Crystal.

Lynn: Wow! The Kangaroo Zord chose me.

A crystal saber appeared on Lynn's left hip.

She looked at her Spirit Animal ring and it was a Kangaroo in a Red Gem.

Lynn: My spirit animal has called it too me!

Then Lily fired a massive blast of water and it slammed Creant out through the window and then Creant was pushed high into the air by a powerful force.

Lily saw it and it was a beautiful Green Ibex Zord.

Lily: Wow! It's an Ibex Zord!

Nico: The Ibex is a beautiful goat in the European Alps.

Me: They are very amazing animals. And strong too.

Creant crashed into the ground.

A green light shined above Lily and it landed in Lily's hand and it was an Animal Crystal.

Lily: The Ibex Animal Crystal. Wow.

Lily looked at her spirit animal ring and it had a green gem with an ibex in it and it meant Independence.

Lily: The Ibex Spirit Animal called it to me.

Creant got up.

George B.: Time for some stinky feet. STINKY FEET SURPRISE!

George took off his shoe and sock and his foot smelled so horrible that it was unbelievable! It smelled worse than puke! Creant vomited her guts out all over the place and she surrendered.

Nico picked her up.

Nico: Don't worry, Creant. I know how you can still be useful.

Creant was sentenced to life working in the Neptune Prison for Traitors. She was now the cafeteria worker at the prison. She serves good food to the prisoners. But she serves bad food to Mandy. Because she hates her.

Nico caught a Vivillon and a Pyroar during the battle.

George B.: (To the viewers) Never betray the love of the food. Or you will regret it.

Me: You said it.

THE END

Another Fanfiction complete and another Captain Underpants villain brought to justice.

I had to make up the villain we had to face in this one. It was a challenge but it paid off. NicoChan11 gave me the ideas for this one. Thanks man. Next Clow Card is the Jump Card. Let me know what you all think.

See you all next time.

# Enter the Punished Dragon

In the city, I was chasing after another Clow Card. It was the Jump Card. 跳 When it first appears before being sealed, Jump appears as a squishy, pink animal with thin, angry lime-coloured eyes; a long tail, ears, feet, and stubby hands.

It looked more like a small pink rabbit.

Me: The Jump Card is a fast one!

Kero: It may be fast, but it's also a good and fast hopper.

Me: Wow!

I caught up to it and jumped and caught it. Then it jumped and lifted me up with it and we were 15,000 feet into the air! WOW!

Me: Wow! We're high up.

I spread my wings and flew after it and I grabbed it.

Me: Gotcha! RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and it sucked in the Jump Card. It turned into a Clow Card again. I got the card.

Me: Yes! Now to join up with the others.

I landed and ran fast to join up with the rest of the team.

---

Everyone was finished with school 20 minutes ago and I caught up with everyone.

Me: Hey guys.

Nico: Hey man. Caught another Clow Card?

Me: Yep. It was the Jump Card. It didn't put up that much of a fight but it sure is one helluva jumper.

Lori: No kidding.

Qin: Wow!

?: (Chinese Accent) Qin!

We turned and we saw a Chinese boy with black hair, a mean demeanor, a blue shirt, black pants and red shoes.

Qin: Xin!? What are you doing here!?

Xin: You have brought great dishonor to Fa name!

Me: You know this guy Qin?

Qin: Unfortunately yes. His name is Xin Fa. He's my ex-boyfriend.

Nico: He looks like a stereotypical Chinese guy.

Xin: No stereotype! Now here to avenge honor!

Me: Meg did all the people of China talk like this?

Meg: Only in Quahog.

Me: So what is this guy's story?

Qin: He's a total control freak and all he ever cared about was honor. He's a chauvinistic monster and he did all kinds of terrible crimes to me. He assaulted me all the time and he also slashed me in the back.

Qin lifted up her shirt and she had a nasty slash mark on her back. We gasped in horror!

Me: Oh jeez!

Nico: You are truly a monster Xin! Qin did nothing to deserve this!

Xin Fa: You have no say in this!

Nico: Shut your fucking trap you psychopath! You hurt my sister and I will never forgive you for that!

Me: You're a disgrace to all of China!

Qin: To quote Nico: "Xin Fa, you have failed China and this city!"

Nico: Nicely done!

We went at Xin.

Xin Fa was punching Maria, who was in her water form. Maria just backed away with a smirk on her face as the punches went though her. However, Bastion Misawa and Hydrogeddon were nearby as Maria got Xin Fa where he wanted him.

Bastion: Maria, move out of the way! Now!

Maria: Right! (moves to the side)

Bastion: Hydrogeddon, attack with Hydro Gust!

Hydrogeddon fired a muddy blast from it's mouth at the lamp post near Xin Fa, causing it to crash down towards him. But at the last second, Xin Fa got out of the way, causing the lamp post to hit the ground instead.

Bastion (shocked): What?! That should've worked!

Xin Fa: (laughs as he got out a bazooka) Next time, keep it simple. Like a bazooka! (fires rocket at Bastion)

I grabbed the rocket and threw it into the air.

Lincoln fired a massive blast of lightning and electrocuted Xin Fa.

Lincoln: You are an absolute disgrace to China and as a boyfriend.

Qin: He sure is.

Nico: You are hereby sentenced to death! I summon BLACK TYRANNO!

Nico summoned Black Tyranno and it roared ferociously.

RRROOOOOOOOOAAAAAARRRRRRRR!

Nico: Dinner time Black Tyranno!

Black Tyranno then ate Xin in one bite and splattered his blood and guts everywhere!

Me: Nice!

Lana: That was cool!

Lola: It sure was.

Luna: That guy really deserved that dudes.

Lucy Loud: Wicked.

---

Back at the estate we were scolding Bastion.

Bastion: This is the third time in a row where I had a villain exactly where I wanted him. And then… I completely blow it!

Nico. No kidding! The first time was against some leftover M.A.D agents. The second time was against those group of Jokerz.

Nico Miltank nods.

Me: (To the viewers) We fought those agents and Jokerz offscreen, just so you know.

Alexis (to Bastion): The problem is that you're playing a head game. You're overthinking your battles.

Jaden: Yeah, Bastion. Your strategies might be good in duels. But in other battles, you have to be more physical.

Katniss: When I said that you have to incorporate more strategy in your battles, I meant for you all to have a healthy combination of brain and brawn.

Me: That's right Bastion. To win the fight, you must use both your head and your strength.

Bastion: I never thought about it that way.

Me: It's all right Bastion.

Lynn: Bastion, kiss your losing streak bye bye! I got you a new trainer. Two of them, in fact!

Bastion: Really? Where will I meet them?

Drag Strip: Well, you know about the Valley, right?

Bastion: My coaches want to meet me there? I thought we would meet here in Gotham Royal York.

Lynn: It's the valley or no place. Part of their deal.

Bastion: Wow! These coaches sound strict.

Lynn: Strict but good. So we definitely don't want to keep them waiting.

Me: The Valley? You mean the Valley that's at war with Dragon?

Lynn: That's it.

Qin: You mean like a real fire-breathing dragon?

Me: Yep.

I went over to the computer and pulled up Dragon's info.

---

Dragon was the guardian of the valley and a childhood friend of Panda. Sometime before the show began, Heaven sent a horrible drought to "test Dragon's loyalty". Dragon could not bear to watch his friends die so, despite Panda's warnings, used his power of water to make it rain. Of course when he did this Heaven was angered and punished him by taking away his power to fly and made his once beautiful scales black and ugly and hurled into the mountain and attracting the attention of the mysterious hooded bat named the Overlord.

Overlord, who's been too, shunned by the world by exiling into the mountain, offer the battered Dragon of his position as his disicple. For the use of his knowledge of the valley resistance's movement, Overlord grant this ancient creature back of his inconceivable power and immortality. Having nothing left to lose, Dragon immersed himself into a life long study of magics and studies and persuade the Ninja Monkeys to burn down the valley, hoping of attacking the animals and blaming them for his punishment, chasing them from the mountain with his power of fire. In this rampage he ended up burning a mysterious lotus flower, which took away his power of water and burning him with his own fire. Despite being burnt, He retreated with his newfound mentor into the icy lake, in which the overlord created to suppress Dragon's already burned skin, of Lung mountain to sooth his burns. The Overlord, using the combination of ancient technology and the spa, transformed the ex-protector of the valley into the menacingly creature that the valley dweller and what we knew today.

Harboring true hatred and a need for revenge, Dragon plots to destroy the Valley animals completely, waging war against them. Being the dragon that he is, his temper can get outrageous with almost everyone he knows, even his own minions. He'll often burn Baboon and the Ninja Monkeys over trivial matters. Given his decision to blame the animals for his punishment, as well as his continued abuse of Baboon over trivial things, it appears Dragon has a tendency to negate blame from from himself onto everyone else. Besides being angry, Dragon has little humor left in him (except when it comes at someone else's expense). He doesn't entertain Baboon's jokes or attempts to please him. He also demands respect from his minions to the point of threatening to kill a "monkey" for speaking gibberish at him.

Dragon is persistent about destroying the animals and will do anything to see the Valley perish for what he went through. He seems to still have some respect for Panda and also misses his old life as seen in The Art of Kung Fruit. Panda and him were even willing to make a bet outside of Baboon and Skunk's Wushu competition on who would win. Still he doesn't appreciate Panda cursing his dreams to forever be filled with blueberry pies (which he hates).

---

Everyone gasped.

Lola: So Dragon wants to see the animals of the Valley die!?

Lana: Why would he want that when they clearly haven't even done anything to him?

Me: He blames everyone in the valley for his punishment.

Laney: That is not right! He saved everyone and Heaven wrongfully punished him for it! It turned him into a monster!

Qin: A monster of pure evil!

Me: I don't think the Heaven's did this. I think it was an act of the Devil. He made him this way and he lied to him and made him blame the animals for his punishment.

Nico: I think the good him is in there. We can bring it back and destroy the dark side.

Me: That's a great idea Nico. Qin, this is how we were able to help some of the former Supervillains renounce their evil ways and free them from the darkness that poisoned their minds. We have to find a spark of good inside them and bring it out into the real world.

Qin: That's amazing!

Varie: Where is this valley located though?

Me: It says here that it's located in southern China.

Qin: Wow! I'm descended from China. I have ancestry from Shanghai.

Me: That's cool Qin. We can visit Shanghai after we finish Dragon off for good. Lets get moving!

We were off to Southern China.

---

The Valley, Southern China.

---

After 10,000 miles of traveling, we arrived at the Valley. It was a beautiful and tranquil place.

Laney: Wow!

Me: The Valley. It's so beautiful.

Nico: It sure is. I can't believe Dragon wants to destroy the animals here.

Qin: I know. It's not right.

Nico's Miltank agreed.

May: I wouldn't mind coming here for a vacation one of these days.

Me: It would make a perfect relaxation spot. Lets find the animals of the valley.

We did so and we saw Panda and his students Rabbit, Skunk, Fox and many animals.

Panda saw us.

Panda: Ah, Team Loud Phoenix Storm. Welcome to the Valley.

Me: (Kung Fu Bow) It's truly an honor to meet you Panda-sensei.

Rabbit: It's such an honor to meet you guys! I like how you all show no mercy to scumbags. You're everything I want to be.

Poison Ivy: Glad to know we have a fan.

Bastion: Panda and Fox are my coaches?! Are you crazy, Lynn?! How can they train a duelist?!

Rabbit: No offense, but there's no way Panda and Fox can train you.

Fox: I agree with Rabbit for once, Lynn. Bastion here looks… scrawny.

Lynn: Guys, guys! Let's open the minds here a bit. (to Bastion) Bastion, Fox and Panda are one of the greatest teachers in the Valley. Perfect for you to learn awesome battle skills. (to Panda and Fox) Panda. Fox. I know that Bastion doesn't look like much. But trust me. He has the heart and mind of a warrior. Hell, he even helped beat Sartorius before.

Panda: The host of the Light of Destruction?

Lynn: Yep. But Bastion's been off his game lately. (points to her brain) Too much brainpower and not enough muscle! (points to her muscles)

Me: It's true. We're also here to help you defeat Dragon. But I have a strong feeling that the friend you know is still in there Panda-sensei.

Panda: How so J.D.?

Me: I can sense a spark of good still inside him and I have a strong feeling that his punishment was caused by the devil himself and not Heaven.

Panda: That could very well be J.D. You are very wise beyond your years J.D.

Me: Thank you sensei. If I may, with your permission, we would like to train all your students in everything we know.

Panda: You have my permission J.D.

Me: Thank you sensei.

We got to work.

Hours later we were training everyone in the valley in everything we knew.

G1 Blades: So, how are things going here?

Bastion: (to Lynn) You were ight, Lynn. This training's really paying off. Panda and Fox are great coaches. (karate chops a training dummy and it tears in half easily)

Me: Wow! You are a fast learner Bastion.

Alexis: Great job.

Panda: You are ready now. It is time.

Bastion: Time for what?

Panda: For us to face Dragon and Baboon.

Me: Lets do it.

We were walking to Lung Mountain, Dragon's base of operations.

---

We were walking through the forest on the way to Dragon's lair when we heard a roar.

Bastion: What was that?

Ed: My stomach?

Eddy: Shut up Ed.

Panda: Baboon must've used his Dark Orb to summon a Heartless.

My Dark Orb detector showed that he was right.

Me: You're right sensei. It's close and it's coming this way!

Bastion: (to Lynn) How did I ever let you talk me into this, Lynn?!

Lynn: Oh, c'mon! When I heard Panda, Skunk, and the others needed help against Dragon and Baboon, I thought it would be the perfect opportunity to get the coaching you needed.

Bastion: But now I have to help fight whatever Heartless Baboon summoned.

Rabbit: (laughs) You're really a glass half empty kind of guy, aren't you? Did you really expect to get coached for free? This is a play by play world, my friend.

Bastion: I don't care what kind of world this is. I didn't train just to fight a Heartless that might be more stronger then me!

Skunk: Bastion, you can't back out now. All of us need your help.

Lynn: Skunk's right. If you bail out, the others back hom will think you're a coward. And I don't think that well bode well for your reputation.

Bastion: So, I'm stuck here. Thank a lot, Lynn!

Lynn: Trust me. Do your part in this fight and you'll have agreat time. This whole experience is gonna help you for sure. (hears the roar again) Now, if you excuse me, I have a dentist appointment.

Bastion (grabs Lynn before she runs): Nice try! But you're keeping me company!

Me: Here it comes!

We saw the ground lift up and it was a giant worm heartless! It jumped out and it was a massive worm with 7 tentacle mouths and it had a ferociously big spiked mouth. It was a heartless called the Sandworm Carnage!

Me: Wow!

Lana: That is a big earthworm!

Lola: You would not want to eat that one Lana!

Lily: I agree.

Lila: Same here.

Bastion: Let me do this. I saw this in a book I read about.

Bastion jumped high into the air and fired a powerful blast of lightning at the ground and the Sandworm Carnage came out and roared ferociously in pain.

Lincoln, Linka, Stacy and Lizzy Morris fired a massive blast of lightning at its mouth and it exploded all over the place as a pile of slop! We got a massive power boost as well. (Think of how the Queen Bitch Worm died in Tremors 5: Bloodlines)

Lola: EEEWWW!

Lana: (Licks off the guts) Taste's delicious!

Laney: Lana you are gross.

Lily: But that was awesome!

Me: Well done Bastion!

Bastion: Thanks J.D. I feel more confident and stronger than ever.

Me: I'm glad. But don't let overconfidence and arrogance cloud your judgement.

Bastion: I understand.

Me: Lets continue on.

We did so. Half way into the forest we saw a massive army of Ninja Monkeys! They were a massive army of black monkeys as dark as the night.

Me: Ninja Monkeys at 10:00!

Leni: It's not 10:00. It's 5:30.

Lisa: Leni, 10:00 is the way to describe the West-Northwest direction.

Leni: Oh right. I see what you're saying.

Jaden: I got this. I summon Elemental HERO Flare Neo!

Jaden summoned his Elemental HERO Flare Neos.

Me: Let me get some action in. I summon Nine-Headed Dragon!

Out of the card came a massive serpentine dragon and it had 9 heads! Each of one of 9 elemental forces!

Alexis: Wow!

May: That monster is so cool!

Jaden: I've never seen a monster like that one before.

Me: It's an extremely rare and ultra powerful monster. It's a level 13 monster and it has 10,000 attack.

Axel: 10,000 all by itself!? That's incredible!

Me: I was shocked myself Axel.

Alexis: Level 13!? That's unbelievable!

Jaden: That's amazing J.D.! Get your game on!

Me: (Chuckles) I may collect the cards but that doesn't mean that I can't use them for battle.

Bastion: That's amazing J.D.

Me: All right! Nine-Headed Dragon! Attack! Elemental Typhoon Obliteration!

It roared and fired a massive blast of elements from each of its nine heads. They combined and slammed into the Ninja Monkeys and exploded with incredible power.

KRABBBBBBBBBBBBBBBBBBBBBBBBBBBBBBOOOOOOOOOOOOOO

The explosion completely obliterated 75% of the monkeys all in an instant and a massive mushroom cloud could be seen for miles. A crater was where the monkeys was now stands.

Nico: Wow! What power!

Alexis: That was unbelievable!

Axel: It sure was. I can't believe that it packs incredible power.

Me: Wow! That was amazing!

Jaden: That was amazing J.D.!

Me: Thanks Jaden. But we're not finished yet. It's your turn.

Jaden: You got it. Flare Neos attack! Firestorm Beetle Swarm!

Elemental Hero Flare Neos fired a massive blast of fire and it turned into a powerful swarm of beetles made of pure fire and they slammed into the monkeys and incinerated them.

Me: Barbecued monkeys.

Luan: This sure is Monkey Business. (Laughs) Get it?

We laughed at Luan's joke.

Me: (Laughs) That was a good one Luan!

Xion: It sure was.

Eddy: (Laughs) That was a good one.

Jaden: Time for a Final Smash Panda!

Panda: It will be an honor Jaden. You go first.

Jaden: Thank you sensei. ELEMENTAL HERO SPIRIT STRIKE!

Jaden summoned the spirits of his Elemental Hero monsters from his deck and they went at the rest of the Ninja Monkeys and destroyed most of them.

Panda: Time for some monkey brain soup! PANDA PANCAKE SLAM!

Panda jumped high into the air and slammed into the rest of the monkeys and flattened them into pancakes.

Me: You repulsive monkeys have failed this valley.

Nico: Nice!

Jaden: You're starting to get the hang of it J.D.

Me: I sure am. But I'm nowhere near as good as you and Yugi, Jaden.

Jaden: That's okay. It takes practice and good strategy.

Me: That's true. Lets keep moving.

We continued on.

We were in the desert and we were almost at Lung Mountain. And we saw Baboon!

Skunk: Baboon!

Lola: Is he I.R. Baboon's cousin?

Baboon (laughs): If you're all planning to stop me and Dragon permanently, you're doing a lousy job of showing it by bringing along that weak student of yours!

Me: Oh we shall see!

Bastion punched Baboon in the face and kicked him in the stomach and punched him in the nose, eyes, mouth and chest and kicked him into a tree with devastating force and slammed him into the ground.

Me: Nice! Well done Bastion!

Panda: You have learned really well Bastion.

Bastion: Thank you sensei.

Me: Had enough Baboon?

Baboon: Never!

Double D: If you won't surrender, then you give me and Ben no choice.

Me: Uh oh! Look away guys!

Qin: Why?

Me: Trust me. You don't want to know.

We looked away!

Baboon: What are you talking about?

Toepick: We're talking about this! (shows his face while Double D removes his hat)

Baboon saw their ugly hideous features and he was so scared that it made him pee and shit all over the place and it made him so scared that he crashed into the tree again and scar him for life and knock him out.

They covered their hideous looks and Ben reverted back.

Me: Okay lets finish him!

Alexis: Right! WHITE NIGHT SPIRIT ICE!

Alexis summoned the spirits of the White Night monsters from her deck and they went at Baboon and froze him in ice!

Fox: Lets do it. FOXFIRE FIRESTORM STRIKE!

Fox fired a powerful blast of blue fire and it thawed him out and burned him.

Princess Bubblegum: Time to make sure you never hurt anyone again.

She fired a stream of jawbreakers and they slammed into Baboon and he was now imprisoned for all eternity in a giant jawbreaker.

Me: He's now a giant jawbreaker for all eternity.

Ed: JAWBREAKER! (Runs at it!) YUM YUM YUM!

Me: Hold on there Ed. This jawbreaker is baboon flavored and you would not want to eat that.

Ed: Oh. Mums the word.

We sent the baboon jawbreaker to the Candy Kingdom Prison for all eternity.

We continued on.

But then we got an unexpected surprise.

Tiffany: Tiffany!

Finn: Tiffany Oiler!

Tiffany: Yeah! I'm gonna kill you Finn!

Me: You know this brat Finn?

Finn: Unfortunately I do.

Me: Why do you want to kill Finn!?

Laney: What has he ever done to you?

Tiffany: I was friends with Jake. Then some baritone herb stole him away from me.

Finn: I didn't steal him. We're broth-

Tiffany: And when that snow-white wiener dog is finally dead, Jake will be devastated. [Imagines Jake crying on his shoulder at Finn's tombstone.] He'll need a shoulder to cry whiny, Finn-style tears on, and that shoulder will be mine-Tiffany's! Then I can get busy with undoing your cheesy influence, plus more! With my help, Jake will become the criminal juggernaut he was always meant to be. [In Tiffany's imagination, a giant Jake roars and beats his chest over a city, while helicopters with searchlights hover nearby.] We won't just be robbing banks anymore. [Jake grabs hold of two buildings and rips them off their foundations.] We'll be robbing the actual banks. The whole banks! [Jake swallows the buildings.] You get it? We're gonna steal actual whole buildings.

Finn: Yeah, I get it.

Tiffany: So don't tell me we're not so different, okay?! We're opposites, you and me. Oil and goody-goody snow-white baby-vanilla bean mitten water! Go, Tiffany!

Me: This brat is delusional.

Finn: He wants to kill me and make Jake a monster!

Me: That's insane!

Lincoln: He sounds like me back when I was younger.

Lori: Boy I will literally never forget that.

Tiffany: Time to die!

He came at us and punched me in the face and his fist hurt when it hit me. But it tickled me.

Me: (Giggles) That tickled.

Tiffany's fist was broken, red, purple and swollen.

Me: Geez. I had no idea I was that tough.

Lana: Wow.

Me: But this kid is a menace to Finn and all of Ooo. So prison is his home.

I snapped my fingers and beamed him over to the Venus Maximum Security Prison. Tiffany Oiler was sentenced to life in the maximum security section and he was the cell mate of Marie K.L.'s evil former sisters.

Me: That menace is done for. Now we have to face Dragon.

We went on and we arrived in the snowy mountains and we were at Lung Mountain.

Me: Here we are guys. Lung Mountain.

Panda: Lets go.

We went up to the mountain and we saw the skeletal remains of a bat.

Me: A Bat Skeleton? What's that doing here?

Lucy Loud: That is an evil bat called the Overlord.

Panda: So it was the Overlord that corrupted Dragon and made him this way.

Me: I have a feeling it was because of him. Lets keep moving.

We went into a cave on the side of the mountain and went down some stairs and we saw DRAGON! He was a black dragon with no wings, and he had green hair and he was filled with pure evil.

Dragon: Panda! And you have Team Loud Phoenix Storm with you!

Panda: This ends now Dragon. You will be defeated where you stand.

Me: And we will make sure you never terrorize the Valley again! Your minions are finished forever!

Skunk: That's right! Your ninja monkeys bought the farm and Baboon has been sent to a prison far away!

Me: We brought the pain to your minions and played all your diabolical games and now it's time to finish you off!

Nico: Dragon, you have failed this valley!

Dragon: Little Skunk. This is the first and last time you will ever challenge me!

Skunk: And it will be one worth remembering!

Rabbit just punched Dragon in the face.

POW!

Rabbit: (chuckles darkly) You don't know how long I've wanted to do that!

Me: Lets get him!

We went at Dragon and I punched him in the face and kicked him in the stomach and he belched out a tremendous amount of fire and melted all the ice in the cave!

Lola absorbed all the fire.

Edzilla (punches Dragon): ED SMASH DRAGON!

Me: (In my head) There is a spark of good in him. The overlord turned him evil and he was responsible for this. I'm glad he's dead. (Out Loud) Dragon! I know you are impervious to magic but this will help you.

I knelt and chanted a prayer and a powerful beam of light hit the dragon and the real dragon was separated from the evil one. The Good Dragon came out and he was back to normal! He had his golden skin and his powers back.

Dragon: I'm back.

Panda: Dragon!

Dragon: Panda!

They hugged.

Dragon: I'm so sorry I tried to kill all of you.

Panda: It's all right Dragon. Lets take down your evil self that you became.

Dragon: Way ahead of you friend!

Dark Dragon: You ruined everything!

Dragon: You made me become you! I will never forgive you!

Qin: Let me show you true firepower!

Qin fired a massive blast of fire and it hit Dark Dragon and burned him bad.

Dragon and Lola fired a massive blast of fire and burned him.

Eddy: (fires blaster at Dragon) I hope you like smelling extra crispy!

Me: Yeah!

The Animals of the Valley punched and kicked and blasted the Dark Dragon and pulverized him all over the place.

Me: Time for some teamwork!

Drag Strip: You got it boss! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and enhanced his Gravity-Gun 100-fold!

Poison: Time to poison you! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into into her right arm device and it enhanced her plant powers 100-fold.

Drag Strip and Poison Ivy: IVY MACE GRAVITY-SLAM!

Poison Ivy formed a powerful spiked mace ball made of ivy vines and Drag Strip's gravity gun slammed it into Dark Dragon and crushed him!

BLAM!

G1 Blades: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his photon pistol 100-fold.

Nico: Lets do this Miltank! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and enhanced his Miltank's abilities 100-fold.

Nico: Miltank, use Zen Headbutt!

G1 Blades and My Miltank: PHOTON HEADBUTT SMASH!

Miltank ran fast and its head glowed a powerful pink and Blades fired a powerful blast of photons and Miltank slammed into Dark Dragon and the photon's hit him and exploded.

Rabbit: Any last words before I snap your neck!

Dark Dragon was too weak to talk.

Me: Time to finish this monster for good!

Bastion: Lets do this! PERIODIC TABLE SPIRIT EXPLOSION!

Bastion formed spirits of the monsters from his Earth and Water decks and sent them at Dark Dragon and they hit him and exploded with incredible power!

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Skunk: Never again will you terrorize my home and friends! SUPER STINKRAY OBLITERATION!

Skunk fired a massive blast of energy from his tail and it slammed into Dark Dragon and completely obliterated him in an instant! Dark Dragon was dead.

Me: It's over Dark Dragon!

The Spirit of Dark Dragon appeared.

Nicole: The Book of Vile Darkness is too good for you. The River of Fire is perfect for you!

The portal into the River of Fire opened and it sucked in Dark Dragon.

Dark Dragon: CURSE YOU VALLEY ANIMALS!

He was sucked into it and he was gone for good!

Me: That's it for him.

Suddenly there was an explosion and the mountain was rumbling!

Me: The Mountain is collapsing! Lets get out of here!

We ran back the way we came and got out of the mountain just in time as the whole mountain caved in.

Me: That was a close one.

Panda: Thank you all for hepling us to stop Dragon.

William: No problem, Panda.

Lynn: And if you ever need to train someone again, Bastion will be more then happy to-

Bastion: (elbows her) Thank you, Panda-sensei. You and Fox are excellent coaches.

Panda: I'm glad we could help out Bastion.

They did a kung fu bow.

Dragon: Thank you all for returning me to my happy good and magical self. Overlord poisoned me with lies and evil. He did the drought and ruined me.

Me: We had a feeling it was him. But there are other evil villains out there. So we have to always be ready for anything.

Panda: That is true.

Skunk: (To the viewers) Whether there are forces of good or evil, we will always be there to answer the call and help out and stop evil.

Me: You said it Skunk.

Nico caught a Florges and a Gogoat during the battle. We went back home and we would call on the animals of the Valley whenever needed. Bastion has redeemed himself.

THE END

---

Another Fanfiction Complete and another monster villain destroyed.

Skunk Fu is a really funny cartoon and it was awesome! The arts of Kung Fu were awesome in that show! But Dragon was an amazing bad guy but at the same time, I couldn't help but feel sorry for him because he was punished for doing what he thought was right and he blamed his friends even though they haven't done anything to him. Tiffany Oiler on Adventure Time was the example of a killer in the making. He wanted Finn dead for stealing Jake? How stupid is that? NicoChan11 gave me the ideas for this one. Thanks man. Next up is the Dash Card. Get ready for a speedy run. Let me know what you all think.

See you all next time.

Skunk Fu is owned by Aiden Harte and Cartoon Network.

# Legend of The Gobblewonker

In the middle of the city we were fighting a massive army of Jokerz. They were armed with a plethora if weapons and deadly pranks designed to kill.

Paige fired a massive blast of fire and burned a bunch of Jokerz and incinerated them in an instant.

Paige: You freakish clowns make every clown everywhere look bad!

Laney: You said it Paige!

Me: Anyone that carries on the dark legacy of the Joker will be killed in an instant.

Superman: The Joker was a monster.

Lana: He sure was.

Oxygeddon tried to charge at a Jokerz member but he avoided it as it crashed into a wall instead.

Jokerz member: You're still a little rusty, Misawa!

Bastion ran at the Jokerz member, grabbed him by the collar, and threw him at a fire hydrant.

Bastion: How's that for rusty?

Nico fired a powerful blast of fire and incinerated him.

Nico: You Jokerz have failed this city!

For 2 hours we killed and arrested numerous members of the Jokerz and rid the city of their savage crime spree on the city.

Suddenly there were buildings smashing apart and we turned and we saw a Groudon!

Me: A Groudon!

Out of the lake came a Kyogre!

Me: A Kyogre!

And soaring in the air was a Rayquaza.

Nico: And a Rayquaza!

Me: Wow! What are they doing here?

Lori: I don't know. But you guys already caught them.

Me: True.

They saw us.

Me: Wow!

Groudon: You guys are Team Loud Phoenix Storm?

Me: We sure are.

Lana: Wow! You can talk?

Kyogre: You have to help us.

Rayquaza: We are girls that were transformed into Pokemon.

Panda King: Three girls gene slammed into Pokemon? This is a new one.

Me: This was not the work of Dr. Paradigm. This must've been the work of the scientists of Team Rocket.

Jessie (Pokemon): We were told about this kind of project. Giovanni had this special project in development where he turns people into pokemon to use as weapons.

Me: That is really fucked up!

Jake (Adventure Time): You three got turned into Pokemon? That's rough.

Nico: No kidding! Giovanni is dead now. But the remnants of Team Rocket still exist.

Dawn: I know your voices. Sophie, Leia, Mina? Is that you guys?

Groudon: It sure is Dawn. It's great to see you again.

Dawn: How did this happen to you three?

Groudon: We were inspired by Ash Ketchem into wanting to become the greatest Pokemon trainers ever.

* * *

Groudon: (Narrating) I was working at the Pokemon Center. I am a master of Fire Pokemon and I wanted to be the greatest Fire Pokemon Master. I even have the Legendary Moltres as one of my Pokemon. I felt something sting me and thought it was nothing. But then I started to change.

Sophie: I DON'T FEEL SO GOOD!

She vomited out a glob of red hot lava and she started to change. She ran out of the pokemon center as she was changing. Her changes were happening so fast that it was almost instantaneous. She turned into a GROUDON!

Kyogre: (Narrating) I wanted to become the worlds greatest master of Water Pokemon. I even have a Kyogre of my own as one of my pokemon. I was relaxing on the beach and then I started to change when I felt something bite me!

Leia felt excruciating pain!

Leia: SOMETHING'S ATTACKING ME!

She ran and jumped into the ocean and her shredded bikini was seen floating in the water and in its place was Leia, turned into a KYOGRE!

Rayquaza: (Narrating) I was in the middle of a gym battle when I started changing. I wanted to become the world greatest Pokemon master of Grass Pokemon. I even have one of the legendary birds. But it was a Grass Legendary Bird called Floratro. It's a grass Legendary Bird. I felt something bite me and then I started to change.

Mina was in excruciating pain.

Mina: WHAT'S HAPPENING TO ME!?

Her body grew longer and she turned into a RAYQUAZA!

They regrouped and they looked at themselves and gasped in sheer horror and screamed!

Groudon: We knew of only one person that can help us get back to normal.

FLASHBACK ENDS

Groudon: So we set out to find you guys.

Me: Those Team Rocket Scientists are gonna pay for this.

Nico: I think we killed them earlier.

Me: I think we did but I'm having a hard time remembering.

May: Yeah we did kill them! It was when we went after Teams Aqua and Magma.

Me: I remember now! They got what was coming to them.

Nico: Those scientists have failed this world.

Me: They sure have. Girls, I can bring you back to human again. But it's gonna be really painful. Also you're gonna have the ability to transform into your Pokemon Gene-Slammer forms at will.

Kyogre: Thank you J.D. In this form I am known as Tsunami Kyogre.

Groudon: I'm Volcanic Groudon.

Rayquaza: And I'm Hurricane Rayquaza.

Me: Great names. Now it's gonna be painful.

Groudon: We're ready.

Me: Okay. Boys, cover your eyes.

They did so. And I snapped my fingers and I covered my eyes and the girls were changing back. They shrunk and their skin turned back and they regained their human forms. Sophie had red hair and red eyes, Leia had blue hair and blue eyes and Mina had green hair and green eyes. When they were fully changed back, they were back to their human forms.

They got up and saw that they were naked.

Mina: (covers her boobs) Don't look, you perverts!

Sophie: (covers her boobs) If you do, we'll snap your necks!

Cybertron Jetfire: (Australian Accent) Okay! No need to bite our heads off!

Leia: (tears in her eyes) I'm sorry. Our bodies might be human now. But or minds might be still be Pokemon. (MASSIVE BELCH!) Excuse me. I feel like I ate a massive amount of burgers.

Maria and Teresa went to them and wrapped them in blankets.

Maria: It takes a while to adjust to being human again. But we can help you out.

Teresa: Lets get you back to the estate and get you some new clothes.

Leia: Thank you all.

Maria: Ok, girls. Me and Teresa know the perfect way for your minds to become human again.

Mina: And that is?

Teresa: Think of things that you three love. Like your family and cute boys.

Mina: Thanks Maria.

They thought about what Teresa said and it worked.

We went back to the estate.

---

We arrived back at the estate and Maria and Teresa took Sophie, Leia and Mina up to Leni's room to get some new clothes.

But we also had a guest on the sofa watching TV.

Me: Hello there.

?: Oh hello there. It's a pleasure meet you. My name is Bella.

Me: Pleasure to meet you Bella. I take it you are here to join the Team?

Bella: That's right.

We interviewed her.

Appearance: she is 17 year old that is petite with a boyish face and frame, fair skin and short boyish hair cut with brown-blonde hair and brown eyes. Her outfit comprises of a black short sleeved shirt, Khaki pants and brown sandles, and the omnitrix on her right wrist and around her neck is a intelligent device orb in the center of Triforce that is grey with glowing triforce of power, a side back that is blue with one oval eye and one star eye she calls… bag.

Her hobbies include:

-Watching cartoons

-Writing

-Drawing

-Shapeshifting into cartoons and pulling pranks

-collecting things to put in her bag called… bag

-inventing magical items and stuff.

-Singing

Her favorite things are pranking and perfecting her powers and abilities and the omnitrix skills with her partner Skurd (and magical familiar) and Alchemy (Altier alchemy) and going into ID (Instant Dungon Barriers) to collect items.

Her occupation is hero, using the omnitrix and her power to transform into cartoons and perfecting the art of alchemy, inventing new magical items, singing in private

Her father is King Eclipse shine of the hidden magical isle of Asillia and is the youngest of 11 sisters, though she is in conflict with her sister Ice star or Ghost as she is calling herself.

Her likes are Cartoons, Sweets and inventing and writing

Dislikes are racists, murders, people who see her as a monster, Parodys (like the Teen titans go Titans, she can turn into them but only when its a comical situation that docent need a serious face and according to Skurd, she makes it look good), those who have no sense of humor, being discovered she can sing (she is gun shy sharing that she can sing beautifully)

Special powers

she has high (very high) magical powers she inherited from her father who is a Demi-god and has high magical power, and with it she can use Arts from the tales series, and recreated the CLow cards, Clear cards and even made her own (check out the T.O.H.F Bella skills on Bella 10… its a work in progress of Hyna Clow cards).

Most of her special powers is her ability to become Cartoons, both good guys and bad guys and use there powers, along with her magic spells (channeled through her intelligent device Daiguchie). No matter what toon form Bella is in, the omnitrix and her intelligent device is always on her neck/wrist, the same with Bag and at times, she can use her powers to put on a collection of shirts she has.

She wields the omnitrix, and can transform into a lot of aliens (though they keep there male gender), and with Skurd can create a wide variety of DNA weapons.

She also possesses super strength (due to trying to shine like her magical incline sisters she worked out to raise her strength from the age of 5)

Me: Well we're more than willing to give you a shot Bella. You have a lot of talent. And you don't have to hide your talent for singing. We're really good singers ourselves.

Bella: That's what I heard. But okay.

I was surprised that she also had an Omnitrix as well but it was like the one Ben had when he was 10. Mine was gold and blue and hers was black and green.

---

In Leni's room, Sophie, Leia and Mina were given new and most beautiful clothes.

Sophie had a Red shirt and red pants with red high tops and a sleeveless red trench coat with volcanoes on it and the kanji for Volcanic Earthquake Firestorm. 火山性地震火災

Leia had a Blue shirt, blue pants and blue flattops and a sleeveless blue trench coat with ocean waves on it and the kanji for Ocean Maelstrom Megatsunami. 海洋大渦大津波

Mina had a Green shirt, green pants, green combat boots and a sleeveless trench coat with a jungle on it and the kanji for Jungle Camouflage Justice. ジャングル迷彩正義

Sophie: Wow! Maria, these clothes are amazing.

Leia: I love these clothes.

Maria: We learned a lot from Leni. When it comes to clothes, Leni is a genius.

Mina: She is a great fashion designer.

Dawn: She sure is. I missed you guys.

Sophie: Same here Dawn.

Leia: Yeah.

Dawn: Oh yeah! I found a bunch of Pokeballs and they had Pokemon in them. I think they are yours.

Dawn handed them a bunch of Pokeballs.

Leia: Thanks Dawn. You're a true friend.

Dawn: Anytime.

---

Later in the Living Room we were having a nice talk with Bella and Qin. Dipper and Mabel and Pacifica were with us.

Qin: So I heard you all encountered an amazing creature called the Gobblewonker?

Dipper: We sure did. It turned out to be a fake monster to get people to believe it.

Me: That is a big and very elaborate hoax.

Laney: What is the Gobblewonker?

Mabel: It's a mysterious sea monster that lives in the lake outside of Gravity Falls.

Dipper: It turns out that it was all a hoax set up by an old codger we know. Old Man McGucket orchestrated it.

Me: Very elaborate. But lets go check it out and prove it's existence.

Nico: This is gonna be interesting.

Laney: I haven't gone fishing in a while.

Lana: Me neither.

Me: Lets head out to Gravity Falls people! I have a great new series of Rescue Zords for me, Laney and Nico to try out.

Nico: Sweet!

Laney: Lets go see!

We went to the garage and we saw amazing new zords! We saw a big purple boat with a purple triangle with the number 6, a brown helicopter with a square with the number 7 in it and an aqua blue snow cat with the number 8 in an X.

Me: These are our new zords guys. The boat is mine and it's called Island Rescue 6.

Laney: Mine is called Forest Rescue 7 and it's for forest and Jungle Rescues.

Me: And yours Nico is called Arctic Rescue 8. It'll be used for rescues in subzero freezing cold and bone-chilling temperatures.

Nico: Awesome!

Me: Shall we try them out?

Laney: Lets do it!

Nico: Yeah!

We got into the zords and put our blaster grips into the ignition switches and turned them on.

Me: Zords online!

We launched. My zord is connected to all the lakes, seas and oceans all over the world and I was going down a water tube. Laney launched into the air and Nico went on land. His Zord can change from land to snow.

We were off.

(Power Rangers Lightspeed Rescue Theme Song plays)

Me: Wow! It works really well. Lisa did an amazing job.

Laney was flying her zord really well. She took Flight Simulator lessons and they are really paying off.

Laney: Wow! Those Flight Simulator Lessons are really paying off.

Nico's zord came out of a snow covered mountain in the Rocky Mountains.

Nico: I don't even have a drivers license and this is so cool!

We were flying, driving our cars and riding our horses.

---

GRAVITY FALLS, OREGON.

---

We arrived at Gravity Falls, Oregon.

My new zord arrived in the lake and everyone was in awe.

Me: Wow! It works well.

The zord was the size of a yacht and it dwarved the smaller boats.

Laney and Nico arrived in their Zords.

Bludgeon: Guys, there's something in the water down there!

We looked and we saw nothing.

William: There's nothing there. Man, we must be getting paranoid.

But then something came out of the water and we saw people under attack by the real Gobblewonker.

Optimus Prime: What is that thing?!

Dipper: That… is the Gobblewonker.

Me: Whoa! So that's the Gobblewonker!

Nico: Wow! It's a sea dragon!

Laney: It's magnificent!

Me: Time to see what Aqua Rescue 6 can do!

I pulled the throttle and increased speed and a hatch opened in the front.

Man: I see hope.

I zoomed fast and grabbed the boat just as the Gobblewonker was gonna eat him.

Me: Now that was a close one.

Man: Thank you so much!

Me: No problem.

Man: I know that voice! J.D. Knudson of Team Loud Phoenix Storm!

Me: The one and only. And I thought that was a good rescue.

Man: You said it.

Kelsey: (Offscreen) That was a crazy stunt you did J.D.

Me: Kelsey?

I turned and saw Kelsey in her Haz Rescue 4 Zord and the other Lightspeed Rescue Rangers were with her in their zords.

Me: Hey you all arrived.

Carter: We sure did J.D.

Chad: Love the new zords guys.

Me: We built them ourselves utilizing Ms. Fairweather's designs.

Dana: You did a great job.

Laney: Thanks Dana.

We landed.

Me: Here it comes guys!

We saw the Gobblewonker coming!

Edzilla: (punches Gobblewonker) ED SMASH WATER DRAGON!

Ben: Time for Ripjaws to do his thing.

Ben turned into Ripjaws!

Ben: RIPJAWS!

He dove into the water and he swam around the Gobblewonker and slapped him with his tail and claws and more

Nico: Time for some serious reinforcements! VALLEY ANIMAL KINGDOM, ARISE!

Nico held up his hand and an orange ring fired a beam of energy and an orange portal formed and out came the animals of the Valley emerged from the portal!

Panda: Nico. It's great of you to call us.

Nico: Thanks Panda-sensei.

Frog: We're happy we could help you out.

Nico: (to Frog and the others) Alright, Valley Animals. Go help out against that Gobblewonker!

Frog: Right!

They went at it and bashed him around.

Alexis: If I freeze the water around it, it'll be trapped.

Gwen Tennyson: Wait until Ripjaws gets out first!

Ripjaws got out and Alexis fired a massive burst of cold fire and froze the lake around it.

Ripjaws knocked it out and reverted back.

?: You all ruined everything!

We turned and we saw Virgil Hawkins old classmate and old enemy, Madelyn Spaulding!

---

One night when she interviewed a homeless man about the homelessness in Dakota for an extra credit assignment, the Big Bang occurred, and the Bang Baby gas infected both Madelyn and the homeless man.

On that night, Madelyn unknowingly gained telepathy. She later ran against Joey Bombora and Richie Foley for freshman class president. Using her powers, she made the voters vote for her and Joey to drop out of the election. Static tries to interfere, but he finds out that his electric powers block Madelyn's telepathic powers. However, she probed Richie's mind and found out that Virgil and Static were one and the same person.

Madelyn later brainwashed Static's neighborhood and the students from Dakota Union High into attacking him. The students gathered around Madelyn as she proclaims her intentions to take over not only the school and Dakota but the world as well. When she led a zombie-like raid against Static, Static easily defeats her by sending an electric shock to Madelyn, knocking her unconscious. Madelyn was later taken to a hospital and Joey Bombora reentered the election.

During Madelyn's time in jail, the doctors examined her, finding that parts of her memory (such as the identity of Static) were gone and that she had lost her telepathy powers as well.

Madelyn was released from jail and the hospital, and later found work at a comic book store; one night, Virgil and Richie found her there. When Virgil asked her what she was doing, she replied by asking him if he meant out of the hospital before explaining that they said she was OK now, but that the school still wouldn't take her back. When Virgil tried to explain that she had tried to take over Dakota Union High School, Madelyn began to recall that night. However, she refused to admit that it was her fault, instead saying, "Well, everybody had been so mean to me. And then I got those amazing powers" before asking Virgil and Richie what they had expected. When Richie wondered if she still had her powers, Madelyn replied, "Who knows? If I do, I can't remember how I made them work."

In her anger, she realized that that the electric shock Static delivered to her augmented her powers, giving her telekinesis (causing her to remark that "new powers wouldn't hurt either"). Madelyn swore revenge and broke Ebon, Hotstreak, and Talon from prison. After breaking them out of prison, Madelyn assumed leadership of the Meta-Breed.

Madelyn and her gang attacked City Hall, but Static and Gear arrived to stop them. After Hotstreak accidentally injured Talon with one of his fireballs, Madelyn made a statue fall so her and her gang could escape, which made Ebon's anger grow. Madelyn later captured She-Bang and took her to their hideout in the junkyard; by doing so, she made up for her mistake in City Hall. After a scuffle between Madelyn and Ebon, Ebon fought Madelyn and initially got the upper hand, but was eventually defeated.

Static and Gear arrived shortly after and released She-Bang. Madelyn fought Static and was boasting that she was a force of nature, while Hotstreak and Talon dealt with Gear and She-Bang. Static sent a positive charge on a pile of garbage that was next to Madelyn, shocking her into submission with the negative charge from the lightning.

Madelyn was later hospitalized and taken into custody.

---

Static Shock: Madelyn Spaulding!

Me: You know her Virgil?

Static: Unfortunately, yes. She went to school with us. But she too was exposed to the Bang Baby Gas. It gave her telepathic powers and she controlled everyone.

Me: She turned everyone into zombies!

Static: Yes. And my electric powers gave her new powers.

Me: Oh man. An old classmate gone bad.

Madelyn: Teresa. Francis. My old friends!

Teresa: We never did like teaming up with you, Madelyn.

Francis: Yeah. That was Ebon's call.

Madelyn: All three of us have deserted Ebon. So tell me. What exactly is the difference between us?

Me: Was she one of the Metabreed?

Teresa: Unfortunately she was. After she got new powers, she busted us out of prison and assumed leadership of the Metabreed.

Me: So she was exposed to the Bang Baby gas and is one of the Metabreed that got away before she was cured.

Francis: That's right.

Madelyn: That's right. I was forced to move here because my parents disowned me! And it's all your fault Virgil!

Static: You brought all that on yourself!

Maria: I don't know what Ebon was thinking letting you lead. When we send you to prison, I think he and my former comrades will enjoy destroying you.

Horsea: (to Madeline) You leave Maria alone! (uses Bubblebeam on Madeline)

The Bubblebeam hit Madelyn and burned her.

Me: But you are now going back to prison to answer for your crimes! Lets get her!

We went at her and I punched her in the face. She then surprised us by floating in the air and she fired a powerful blast of lightning at us and Lincoln fired a massive blast of lightning at us. Lincoln fired a powerful blast of lightning at the blast and the blasts collided and they were generating an incredible amount of energy and it was so powerful that it generating a massive amount of electromagnetic energy!

Bella: Time for some action!

Bella activated her Ultimate Bella form and activated Amphibion's power.

Bella: AMPHIBION!

She fired a super powerful blast of lightning and it slammed into Madelyn and electrocuted her. It was too much for her. Amperi lightning was far too powerful for her to handle.

Ben: Wow! You have an Ultimate form Bella.

Bella: Thanks. I call it Ultimate Bella.

Me: How many aliens can you access Bella?

Bella: Over 1 million. I figured out how to use Ultimate Bella from studying Ben 10's adventures over the last five years.

Me: You're a very fast learner Bella. Lets make this witch pay for her crimes!

Bella: You got it! SPITTOR!

She activated Spittor's power and fired a massive blast of water from her mouth and it went all over Madelyn and got her really wet.

Bella: Time for more lightning!

Me: I'll help out too.

Lincoln: Same here!

Linka: Count me and Lizzy in too!

Lizzy Morris: Yeah!

I activated my Ultimate J.D. form.

Me: AMPHIBION!

Bella: BUZZSHOCK!

We fired a massive blast of lightning and it hit Madelyn and electrocuted her with 600 billion volts of electricity.

Lori: That was literally shocking.

Lisa: Over 600 gigawatts of electricity.

Lola: Wow!

Bella: That's like getting hit with 600 lightning strikes.

Me: A lot of power. Lets show her some teamwork!

Bludgeon: Right with you boss! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and into his back and it enhanced his Electrical Fireball Antennae 100-fold.

Panda King: Time to fight for the fire of Honor! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and enhanced his Flame Fu and Fireworks powers 100-fold.

Bludgeon and Panda King: FLAMING ELECTRIC FIREWORK CASCADE!

Bludgeon fired lightning balls and Panda King fired a powerful barrage of fireworks and fireballs and they hit Madelyn and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Jake (Adventure Time): Time for some pain and pounding! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his powers 100-fold.

Cybertron Jetfire: Lets do this mate! CYBER KEY POWER!

The Earth Cyber Planet Key went into Jetfire's back and it had a powerful energy cannon pop out of his back.

Jake (Adventure Time) and Cybertron Jetfire: SUPER ELASTIC ENERGY GRENADE!

Jake was on Jetfire's cannon and he fired Jake and he was a cannonball and he slammed into Madelyn with incredible force and knocked out some of her teeth.

Edzilla (punches Madelyn): ED SMASH PUNY META!

Me: Lets see what else the Quasar Sabers can do!

I unsheathed my Quasar Saber.

Me: LIGHTS OF ORION, ACTIVATE!

I glowed and got an awesome belt buckle, an armband, an awesome claw device and my Quasar Saber had an awesome crossguard.

Me: Nice! Lets see how you like this Madelyn! SIRIUS FLARE

STRIKE!

My sword glowed Neon Purple and the Star Sirius in the Constellation of Canis Major the Great Dog appeared in the background and I slashed her as a flare of White Solar Fire burned her and she screamed in pain.

Me: Time to show some heavy firepower! UY SCUTI FLARE PULVERIZER!

My sword glowed and the star UY Scuti in the Constellation of Scutum the Shield appeared in the background. The star is 5,100 light-years from Earth and is 1.41 billion miles in diameter. Making it the largest known discovered star in the galaxy. I swung my sword and a hammer made of pure solar fire appeared and it slammed into Madelyn and sent her splashing into the lake with a tremendous splash!

KRAAAASSSSSSPPPPPPPPPPLLLLLLLAAAAAAAAAAAAAAAAAAAAAA

Lana: Wow! What a splash!

Madelyn got out of the lake and she was infuriated!

Me: Time for some final smashes!

Dipper: You got it J.D.! BIG DIPPER SPOONSLAM!

Dipper formed a massive spoon made of stars and slammed it into Madelyn and knocked her down!

Alexis: This is what you get for being a bad girl! CYBER ANGEL SPIRIT STRIKE!

Alexis fired a massive beam of energy and it turned into the spirits of her Cyber Angel Deck and they hit Madelyn and exploded.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The attack knocked her out.

Me: You are a bad girl Madelyn.

I stripped her of her powers and administered the antidote for the Bang Baby Gas.

Nico: Madelyn Spaulding, you have failed this country.

Nico caught a Pangoro and a Furfrou during the fight.

Francis: (to the unconscious Madeline) The difference between us? Me and Teresa are still standing.

Maria: And me too.

Dipper: (To the viewers) Never mess with the power of Team Loud Phoenix Storm.

Me: You said it Dipper.

Alexis: (To the viewers) You mess with us and there will be hell to pay in the form of justice.

Bella: This was so awesome!

Me: It sure was Bella. You did a great job.

Bella: Thanks J.D.

Then we got a surprise when we saw a huge purple Narwhal lift up Madelyn with its tooth. It was a Purple Narwhal Zord.

Me: Wow! It's a Narwhal Zord!

Luna: Wow! It sure is amazing dudes!

Chad: I've never seen a Narwhal Zord before.

Me: It's a Wild Zord. We promised Princess Shayla that if we found anymore Wild Zords, that we would bring them back to her on Animarium.

Joel: That's amazing J.D.

Me: It is.

A purple light was seen and it landed in Luna's hand and it was an Animal Crystal. It was a Narwhal Animal Crystal.

Luna: Look dudes! The Narwhal Zord chose me!

Laney: That is so cool Luna!

Lincoln: Your first ever Wild Zord. Way to go Luna.

Luna: Thanks dude.

A Crystal Saber Appeared on her left hip in a holster.

* * *

Madelyn was sentenced to life in the Dakota City Prison.

Madeline: I'm gonna get out of this cell someday! And when I do-

Shiv: Well, well, well.

Madeline turned around to see Ebon, Kangor and Shiv there with smirks on their faces.

Ebon: If it isn't Madelyn Spaulding.

Shiv: I'm so gonna enjoy pummeling you!

Kangor: (Jamaican Accent) Same here mon.

Madeline: C'mon, guys. You wouldn't hurt an old friend, would you?

Ebon: Friend? No. You? Yes! (punches her)

They are gonna kill her there.

After we got back home, me, Flash and Quicksilver were chasing after the Dash Card! 駆 Dash's visible form is a small, blue, fox-like creature with long, rabbit-like ears and a long, slender tail. On its forehead is a small, diamond-shaped mark.

Me: Wow! The Dash Card is really fast!

Flash: It sure is. It's hard to imagine it's fast like us.

Quicksilver: No kidding.

Me: Yeah.

I got a powerful burst of speed and I got the Dash Card.

Me: Gotcha! RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Dash Card and it was a Clow Card.

Me: Yes.

Flash: That was a fast one.

Me: No kidding Wally.

Quicksilver: Great job though.

Me: Thanks Pietro. It's hard to imagine that we outran the Dash Card.

Bella was made an official member of Team Loud Phoenix Storm and was put on the Omnitrix Brigade.

THE END

Another Fanfiction complete and another Static Shock Villain defeated and brought to justice.

The Gobblewonker of Gravity Falls was an awesome creature and I thought it was a neat dragon. But Madelyn Spaulding of Static Shock was the most narcissistic, self-absorbed and most arrogant villain and girl ever. She was a monster. Hynageneral let me debut her OC Bella and she is gonna make a fine addition to the team. Thank you. NicoChan11 gave me the ideas for this one. Thanks man. The next card is the Loop Card. I hope you like repeating the same thing over and over. Because this is gonna be weird. Let me know what you all think.

See you all next time.

# Thief of Cleopatra's Cursed Tomb

We were over in Shanghai, China. One of the largest and busiest cities in the world. It was the 2nd Largest city in the world with 26.32 million people. We were there to visit and find out more about Qin's ancestral heritage.

Nico: Well, here we are! Shanghai, China.

Me: It sure is breathtaking. Shanghai is one of the busiest and largest cities in the world.

Lana: It's amazing!

Lola: I love learning about China.

Laney: We all do.

Bella: This is my first time over in China.

Qin: Mine too. It's where I'm descended from.

Me: We promised to find out what Qin's ancestry is.

Lincoln: That's cool.

We went to the Shanghai family archives building.

Me: Lets see what we got here.

I looked up Qin Cheng's info and it revealed a magnificent family tree. It showed that she was descended from the Chen Dynasty back in the 6th century in 575 A.D. And we made an incredible discovery as well! We saw that she was descended from Mulan!

Lincoln: Wow!

Me: Mulan is Qin's ancestor!?

Riku: (to Qin) I didn't know Mulan was your ancestor.

Qin: Hard to imagine. Mulan was the greatest hero in all of China back during the Han Dynasty 2,000 years ago.

Lori: Mulan is literally more than that. She is the bravest woman ever in Chinese history. She saved everyone from the ruthless hun, Shan Yu.

Leni: She totes did.

Qin: Hard to imagine that I'm descended from royalty here in China.

Me: China has a lot of history that dates back to 10,000 B.C. Making it one of the longest known countries in the world. Egypt is number 2.

Nico: That's amazing!

Bella: It sure is.

May: I never knew that China and Egypt were the longest countries here.

Me: It's a major surprise.

Landmine: Hey, Kari. Have you ever been to Shanghai before?

Kari: We sure have. Back when we got word of numerous Digimon appearing all over the world.

Nico: I remember that. That was an epic adventure. We had to work around the clock all over the world teaming up with many international Digidestined and send all the Digimon back to the Digital World. We encountered numerous Digimon of many kinds and it was not an easy task.

T.K.: I'll never forget that.

Mulan then showed up.

Mulan: Oh hey guys.

Me: Hey Mulan.

Mulan: You here to look up ancestral history?

Me: We are.

Qin: (Speaking Chinese) 祖先木兰，很荣幸见到你。我是你两千年的后代。(Ancestor Mulan, it's an honor to meet you. I am your descendent from 2,000 years.)

Mulan: (Speaking Chinese) 你太秦了。我不知道你是我的后裔。家庭以神秘的方式工作。(You too Qin. I had no idea you are descended from me. Family works in mysterious ways.)

Qin: It sure does.

Later we were having a great lunch. Now that Qin has had her questions about her family history found out.

Poromon and Poliwag were eating a lot of Chinese food.

Me: Mmm. China is home to a lot of great food as well.

Nico: You said it. It's great food.

Poromon: I love Chinese Food.

Sakura Avalon: It's so delicious.

Lana: It's all great food.

?: (Joyous!) LI!

Li: Oh no!

Sakura Avalon: I know that voice!

Madison: It's Meilin Rey!

We saw a black hair girl with reddish-pink eyes and a Chinese dress glomp Li and knocked him down.

Sakura Avalon: Meilin.

Meilin saw her.

Meilin: Avalon! You have a lot of nerve coming here.

Sakura Avalon: Why?

Meilin: You took Li away from me and took the Clow Cards away from him!

Nico: Hey! What is your problem Meilin?

Me: For your information, Sakura and Li are now in love with each other. And now I found the Clow Book. Somehow it wound up in my basement in America.

Meilin: So you are now the new wannabe Cardcaptor.

Me: That's right. And for the record, I am far more powerful than I look.

Meilin: I will make sure Li gets the Clow Book and the Clow Cards back after I pulverize you and Avalon into dead meat!

I was not intimidated by her threat and my eyes turned red, slit and demonic and I shot a powerful glare and powerful murderous intent at her and she keeled over and was vomiting all over.

Madison: What's wrong with her?

Me: That's the ferocious power of murderous intent. It's a powerful move Shinobi use in the Leaf.

We left the restaurant after finishing our meal and we were off.

Meilin saw that we were gone.

Meilin: I WILL FIND YOU AVALON AND KNUDSON! AND I WILL DESTROY YOU BOTH AND RECLAIM MY LI!

Give it a rest already.

Gear: Something wrong, V?

Static: Well, I think I probably shouldn't have revealed my identity so soon.

Teresa: Why's that?

Static: I unmasked myself because I thought all the bad Bang Babies were cured. But it turned out that MAdelyn was out of the city at the time.

Francis: Well, there's nothing to worry about. As far as we're concerned, she's the last one.

Static: But there's also the matter of my non meta human enemies. Like Osebo, Speedwarp, Professor Menace, and Specs and Trapper. They probably know who I am now.

Wildrider: Let's take it one step at a time, Virgil.

Maria: Wildrider's right. If any of them show up, we'll teach them a lesson.

Me: That's right Virgil. All your enemies will pay for their crimes.

Lincoln: They will and we'll make sure of that.

Me: Yep.

* * *

Later, back at the estate we were watching TV and reading books. Bella had her own Pokemon too. She had a male Dusknoir she named Noir, a Cofagrigus female she named Nefitari, A Metang she named Milt that loves to attach to her chest and back like a backpack, and a Bulbasaur male with a notch in his right ear she names Vivi, a female Charmander she named Chinchi, and a male Alolian Geodude she named Elvis. She gave him to Luna due to him liking rock and roll like her.

Me: You have an awesome group of Pokemon, Bella.

Bella: Thanks. I keep Noir and Milt out of their Pokeballs.

Me: That's all right.

Nico: We all have a lot of Pokemon. I just caught an Aegislash and a

Meowstic just now.

Bella: Cool!

Luna: Elvis is a great rock star dudes.

Me: He sure is Luna.

Qin: Thank you for taking me to Shanghai to get my questions answered.

Me: Our pleasure Qin.

William: Hey, Eevee. Why don't you show Qin your special power by going Espeon?

Eevee squealed in agreement and he turned into an Espeon.

Qin: Wow! That's so cool!

William: I'm glad you like his power. Eevee has the power to change into any of his 8 Evolutionary forms.

Bella: That is so cool.

Then the alarm went off.

Me: Uh oh.

We went to the computer and we saw that the Sphinx is about to be defiled for the great treasure of the tomb of Cleopatra VII.

Nico: The Tomb of Cleopatra?

Cody: That tomb is supposed to be cursed. Lord Anubis said that before Cleopatra died in 41 B.C. she cursed that tomb with a terrifying curse that would unleash the army of the undead. It has 1,000 mummified warriors ready to awaken and defend Egypt's last great treasure.

Me: Whoa! Cleopatra lived 2,100 years ago and she was called the Last of The Pharaohs.

Laney: Where is Cleopatra's Treasure buried?

Me: It says it's right underneath the Great Sphinx.

Sam S.L.: I remember seeing the Great Sphinx. It was amazing.

Lana: It was amazing. But who is after the treasure?

Me: I have a strong feeling I know who.

I typed in some info and found out that it was being sought out by notorious treasure thief AMELIA VON BUTCH!

---

She encountered Mystery Inc. when she decided to go after the treasure of Cleopatra, hidden under the Sphinx. However, she and her crew ran right into Velma Dinkley's Ghost of Cleopatra plan to protect the treasure. After avoiding the "army of the undead" and watching her henchmen seemingly be turned to stone, she finally reached the crown. In grabbing it, however, she set off a trap, flooding the tunnels. Amelia made it out of the Sphinx only to be caught in a prearranged trap set up by Fred, and have the crown snatched by Triple A's hawk.

---

Me: Amelia Von Butch.

Nico: Who is she?

Me: She's a notorious treasure thief. She wants to steal the Golden Crown of Isis so that she can sell it on the worlds black market. She is a very dangerous thief wanted in 20 countries for treasure theft and is on Interpol's 10 most wanted list.

Sly: Wow. And I thought I was on Interpol's most wanted spot.

Me: You still are Sly. You are on the #1 spot. Amelia Von Butch is #2.

Naruto: Wow! She must be really dangerous.

Me: She is bro. According to this, is also a destroyer of tombs and is responsible for destroying the tombs of many ancient figures all over the world. She is very good at covering her tracks. But we are gonna make sure that Butch and her lackeys get a one way ticket to prison for eternity. Lets head to Egypt guys!

We were off to Egypt!

---

CAIRO, EGYPT

---

We arrived in front of the Great Sphinx in Cairo, Egypt and we saw Amelia Von Butch's helicopter and a bunch of jeeps there. We were running fast.

Me: They're here. And they went into the Sphinx.

We went into the Sphinx and went into the Tomb. We saw that it was an ancient tomb loaded with Hieroglyphs and pictures of what Cleopatra's life and story was like.

Me: It's the Tomb of Cleopatra.

Cody: This is incredible! For almost 2,100 years it was hidden.

Lori: These Hieroglyphs must tell about Cleopatra's life.

Me: They do. Cleopatra was the last of the Pharaoh's of Egypt. After the Roman Empire declared war Egypt back in 32 B.C., Rome overwhelmed all of Egypt and brought an end to the Pharaoh reign.

Lincoln: Wow.

Me: It was horrible.

Lola: Who was the most famous of all the Pharaoh's of Egypt?

Me: The most famous of the Pharaohs was King Tutankhamen.

Cody: King Tut was widely known all over Egypt and the world.

Me: He lived 3,400 years ago from 1341 to 1323 B.C. He died at a really young age.

Laney: Wow.

Lana: How did he die?

Me: No one knows. That's considered one of the greatest mysteries in the world. But they think he died from a broken leg.

Nico: Really?

Me: Yeah. But they still don't know. It's a big mystery dating back to 3400 years ago.

Cody: King Tut's death is a major mystery. Not even the gods of Egypt know what happened to him.

Then we heard voices.

Me: Voices.

We snuck in and in the tomb we saw Amelia Von Butch and with her was 2 of Ben's old enemies: Thunderpig and Exo-Skull

---

Thunderpig.

He was first seen in The More Things Change: Part 2, as a member of Psyphon's Gang. He was instantly defeated by Armodrillo.

In Special Delivery, he came to Ben's house and tried to kill him for eating his father. Ben said that he is not the person he is looking for and defeated him as Echo Echo.

In Rad, someone throws him and Bug-Lite out of the Black Hole.

In Mud Is Thicker Than Water, he, along with the other thugs, attacked a Plumber Ship. Later, with the other members of Psyphon's gang, he received highly advanced Plumber Tech from Gorvan. After the Plumbers and Ben arrived, he was defeated by

Crashhopper.

In Cough It Up, he, along with several other bounty hunters, was hired by Psyphon to get him a precious item. He was defeated by Spidermonkey and later banned from Undertown by Argit.

In Blukic and Driba Go to Area 51, he escaped from his cell and attacked Ben for eating his father. He was defeated by Luhley.

In No Honor Among Bros, he defeated a Bouncer at the Golden Fist Tournament but didn't make it to the finals. He was later amazed by an alien kid's strength.

In Universe vs. Tennyson, he got out from jail thanks to Chadzmuth but was taken back after Perk Upchuck ate his flail and spit it onto him. Before they could have put him back to his cell, Chadzmuth helped him once again, much to Ben's annoyance.

In Clyde Five, he and Liam attacked Ben, Rook and Clyde to get back the Mark 5 Nanoshift Enabled Exo-Armor. After Clyde rubbed Liam's neck and made him fall asleep, Thunderpig started to panic and stated that Clyde was a wizard. He grabbed Liam and ran away. In the Black Hole, after Liam woke up, Thunderpig told him that he is out since nobody told him that he was going after a wizard.

Exo-Skull

In Ben 10,000, Exo-Skull mistook young Ben as XLR8 for his future self and attacked him, but was soon after easily defeated by the older Ben as XLR8.

Exo-Skull reappeared in Special Delivery, where he was seen attending Psyphon's auction in order to obtain the Dwarf Star.

In Fight at the Museum, Exo-Skull and Subdora are hired to steal a valuable artifact for Maltruant. Exo-Skull gives Subdora two chances to steal the artifact through her "artistic" methods. However, after she was thwarted a second time by Ben Tennyson and his associates, Exo-Skull insisted on doing things his way. He launched a devastating attack on the museum where the artifact was stored, and continued to pose a threat despite being immobilized by

Gravattack. Eventually, he and Subdora escape with their prize and met with Maltruant to deliver it.

In It's a Mad, Mad, Mad Ben World: Part 1, Exo-Skull and Subdora rob an emporium and are confronted by Ben and Ben 23. Though they manage to escape, the Bens follow them to the warehouse where Maltruant is hiding. During their second battle, Maltruant'sCchrono cog is activated, and they are all transported to Mad Ben's Dimension. A short while after, they battle with the Bens once more over Maltruant's key. Both Exo-Skull and Subdora are defeated by the Clockwork/Techno-Bubble combination but are pulled away by Maltruant after he is reunited with his key.

In Let's Do the Time War Again, Exo-Skull and Subdora attack Ben and Rook, keeping them busy while Eon steals a pair of Time Beast eggs.

In Secret of Dos Santos, he follows Ben, Rook, and Kai as they enter the Temple of the Sky. After the trio discoversMaltruant's mainspring, Exo-Skull attacks them. He is defeated, but both he and the mainspring are pulled away by Maltruant.

In The End of an Era, he infiltrates Plumber Headquarters and steals the dwarf star from Argit, using its power to demolish his Techadons. When the present-day Ben and Rook are brought in to help, Whampire manages to defeat Exo-Skull by ramming into him with a Diamondhead-based helmet.

He and Subdora are ultimately abandoned by Maltruant as he travels back to the beginning of the universe, and are most likely taken into custody.

Ben: That's Thunderpig and Exo-Skull.

Me: Are they old enemies of yours Ben?

Ben: They are. And they are very dangerous.

Riley: They sure look really tough.

Julie Y.: They are dangerous Riley.

Me: So Von Butch hired them to help her kill anyone that gets in her way. We're gonna have to take the fight to another planet to avoid having more of the tomb damaged.

Nico: That's a good idea.

Me: Wait. Something's happening.

I pulled out my binoculars and I saw Shaggy and Scooby tied up.

Me: Shaggy and Scooby Doo are tied up.

Exo Skull: Bye, meddling kids!

Shaggy: That's nice of them to say goodbye.

Shaggy and Scooby Doo scream when they see they're about to go over a waterfall.

Suddenly a figure swooped in and we saw a girl grab Shaggy and Scooby by the ropes that tied them up and she flew over Von Butch. But we saw that the girl was flying with Angel Wings made of pure sapphire crystal. She had black hair with blue highlights, blue eyes, a blue summer shirt, blue pants and blue combat boots and she was around 9 years old.

Me: Wow. That was a close one.

Laney: Wow. I've never seen crystal Angel Wings before.

Max R.: Looks like she went through the same things we did.

Me: How can you tell Max?

Max R.: I just have this feeling.

Qin: I know that girl. That's Tanya Paradigm.

We gasped when we heard that last name.

Me: Is she the daughter of Dr. Roland Paradigm?

Qin: No. She's his niece. The Paradigm Brothers are her uncles. She was in a special project called Project Crystal Angel.

Lori: What is that project?

Me: Project Crystal Angel. (Gasp) I remember that project. It was a special project designed to create angels with wings made of pure crystal. What they do is, they splice the genetic components of birds into a human and fuse the wings with the molecular structure of precious gems like sapphires, diamonds, emeralds, anything.

Everyone gasped.

Lana: That is extremely dangerous.

Lola: This project was really playing with fire.

Lisa: That is a very fascinating project. Fusing silicon-based materials into carbon-based organic organisms is an amazing stroke of genius.

Lucy Loud: That is very complicated for me.

Me: It sure is. But this project was declared a failure because all the children it was apart of died in rapid succession. But it looks like Tanya is the sole survivor of the whole thing.

Nico: Wow. When was the project shut down?

Me: 9 years ago. It's just like what happened with Orochimaru and Captain Yamato.

Qin: What happened to them?

Me: It actually happened to Captain Yamato because of Orochimaru.

I revealed the full history of Captain Yamato.

---

Yamato graduated from the Academy at the age of six, and at that same age, was promoted to the rank of chūnin. As a infant (child in the anime), he was abducted by Orochimaru and became one of sixty children that were his test subjects. They were injected with the First Hokage's DNA in the hopes that they could replicate the First's ability to use Wood Release. Before Orochimaru could finalize the results of the experiments, he was caught by Hiruzen for his other experiments and had to flee the village. Because every child who had been subjected to the experiment had died after a certain amount of time, Orochimaru believed all remaining test subjects would perish as well. In actuality, this boy was the lone survivor and found himself endowed with an unquantified Wood Release and likewise the First's abilities to control tailed beasts. In the anime, while contained in a test tube, he was fully conscious of his surroundings, watching in horror as other children died from failed experiments. Not wanting to die all by himself, he used his Wood Release to escape. He was soon afterwards found by Danzō Shimura. Having lost all memory of who he was, the boy was taken in by Danzō, where he was recruited into the Anbu's Root division under the codename Kinoe (甲, Kinoe).

Having high hopes for Kinoe, Danzō began to personally train him as a Root operative. He also gave Kinoe a scroll containing the secrets and various techniques of the Wood Release. As Hiruzen Sarutobi began to resume his post as Hokage after Minato Namikaze's untimely passing, Danzō sent Root members, including Kinoe, to assassinate the Third. However, Kakashi, a recent recruit to Root, warned the Hokage and went in his place. Kakashi quickly defeated Kinoe, but chose to spare him in the belief that he would become a valuable ally in the future. After the battle, Kinoe began following Kakashi from afar. Kinoe later informed Danzō of Orochimaru's defection from Konoha and was instructed to meet up with Orochimaru at an underground cave that secretly housed the Iburi clan. After delivering his message to the clan, who promised to help Orochimaru escape the country, he met a young girl named Yukimi who insisted that Kinoe was her brother, Tenzō. While Yukimi began to show Kinoe around, word soon reached them that an unknown individual had entered the cave.

When the intruder, Kakashi, was subdued by the Iburi clan, Kinoe convinced them to let him interrogate Kakashi. While seemingly alone, Kinoe revealed that his actual mission was the same as Kakashi's, ensuring that Orochimaru did not escape the country. Gotta, the clan's leader, overheard this while spying and quickly ordered for both Konoha-nin to be killed, though Yukimi refused to let Kinoe die, saving them both. Leaving Kakashi behind, Yukimi possessed Kinoe's body and the two travelled to a carnival, where they took part in the festivities. Kakashi later caught up, planning to use Yukimi to capture Orochimaru, since she was of great importance to him. Refusing to let Yukimi be used as bait, Kinoe ran off with her, announcing that his name was "Tenzō".

Quickly catching up to them, Kakashi explained that Yukimi's blood could temporarily bestow Orochimaru with the Iburi clan's smoke transformation, allowing him to slip across the border. Overhearing that, Yukimi slipped away and returned to the cave. Recognising that Kinoe cared for Yukimi not unlike he had cared for Rin Nohara, Kakashi agreed to work together with Kinoe to save her. Upon returning to the cave, the two discovered that Orochimaru had killed the Iburi clan and captured Yukimi. The spirits of the Iburi guided Kinoe and Kakashi to Yukimi, causing Orochimaru to flee. Yukimi's body then began to destabilise, but the spirits of the Iburi used their power along with Kinoe's Wood Release to re-stabilise her ability. Kakashi decided to leave and not report anything about the Iburi or Root's involvement. Yukimi, no longer needing to fear the wind, parted ways with Kinoe to see the world, while the latter was happy to know that he did have the power to save people.

Three years later, Danzō, fearing that his transplanted Sharingan would eventually go blind from its over-usage, assigned Kinoe and Kinoto to steal the Sharingan from Kakashi as a substitute. Kinoe found Kakashi while on a mission to investigate one of Orochimaru's abandoned labs. While initially working alongside Kakashi, he quickly attacked the older shinobi. As Kakashi tried to reason with him that friends should not kill each other, Kinoe retorted that comment, knowing that Kakashi killed his friend Rin. Enraged that Kinoe believed Kakashi killed her on purpose, Kakashi quickly overpowered him, telling Kinoe that she died because he couldn't protect her, making Kinoe remember the other test subjects he wanted to save. Refusing to kill Kinoe as he still viewed him a friend and ally, Kakashi instead chose to take him to the Third Hokage.

Before he could, one of Orochimaru's snake experiments escaped its test tube and attacked the duo. As Kinoe was taken captive, Kakashi managed to slay the creature. While saving Kinoe, the creature's corpse began emitting a poisonous vapour which quickly infected Kakashi. Kinoe got Kakashi out safely and, having accepting Kakashi's words, Kinoe gave Kakashi an antidote and chose to abandoned his mission, leaving Kakashi a message of it.

Upon returning to Danzō, the elder was furious at Kinoe's blatant choice to defy his orders. While Kinoe insisted that Root should not target fellow Konoha members as they are allies, Danzō countered by stating that Root exists as a separate section of Konoha. Remembering the feelings of friendship from Yukimi, Kinoe ultimately decided that Root's philosophies were not for him. Disgusted at Kinoe's new view, Danzō knocked him out with his Sharingan, ordering his men to have Kinoe's cursed seal activated. As Kinoe was prepped for the operation, Kakashi arrived and freed him. The two were quickly surrounded by Danzō and several Root members. Before Danzō could act, the Third Hokage appeared, vouching for Kakashi's unsanctioned arrival and convincing Danzō to give Kinoe over to him, though Danzō refused to remove the cursed seal on Kinoe's tongue. Later, Kinoe was re-assigned to Team Ro under Kakashi's command. Joining his new squad, Kinoe was given a warm welcome to his new allies and insisted by Kakashi that he go by his chosen name of "Tenzō", which he happily agreed to.

During this time in the Anbu, he served under the guidance of Kakashi and learned much from him, developing great respect for his captain. Two years after joining Team Ro, a new Anbu was added to their team, Itachi Uchiha, who was the youngest Anbu of all time. While many on the team members questioned the wisdom of allowing someone so young to join Anbu, Tenzō and Kakashi took a great interest in the prodigy's talents. Two years later, Tenzō was shocked to learn that Itachi was made an Anbu captain while being even younger than Kakashi was. He and Kakashi were then approached by Yūgao Uzuki, who would act as Itachi's replacement for Team Ro. Later, Team Ro was mobilised to intercept the planned coup d'état, which was however already stopped by the slaughter of the clan. As they began gathering the corpses, Danzō told them that the culprit was their former comrade Itachi. Some time after the genocide, Tenzō tried to comfort Kakashi, who was saddened by his inability to help or even understand his former friend. Later, after Kakashi was honourably discharged from Anbu and reassigned as a jōnin sensei, Tenzō went to meet with his former captain, noting a positive change in Kakashi's demeanour from his new position. As Tenzō continued his career in Anbu, he would come to have the best performance record of any Anbu serving under the Third Hokage.

In the anime, when Team 10 and Naruto Uzumaki were given a B-rank, potentially A-rank, mission of rescuing the son of a daimyō, Shū, who was an ally to the Land of Fire, Tsunade called for Yamato. Because of rumours about there being suspicious activity going on in the Land of This where Team 10 was heading, she had Yamato secretly tail the younger Konoha-nin in the event things became S-rank danger and also gather any information possible. Later, after Team 10 completed the initial phase of their plan, capturing Shū, the nation was suddenly attacked by Akatsuki. Yamato took action and destroyed several of Sasori's puppets. Despite his help, the nation ultimately fell to the Akatsuki's attack. With Team 10's mission still going to return Shū home, Yamato tailed them until they crossed the country borders. Afterwards, Yamato returned to Konohagakure to report to Tsunade, who became troubled by the news.

---

Qin: That's awful. But I'm glad he is helping you when needed.

Naruto: That is a small sense of Deja Vu.

Sakura: It sure is.

Qin: But the good news is that Tanya is not like her twisted uncles. She is doing everything in her power to destroy her uncles evil plans.

Me: And we killed her uncle Dr. Luther Paradigm. Now lets defend the treasure from this monster.

We swooped down and landed in front of Von Butch.

Von Butch: Team Loud Phoenix Storm!

Me: Amelia Von Butch.

Kevin Levin (to Exo Skull and Thunderpig): Never thought me and Ben would see you morons again.

Spiderman (to Exo Skull): You from Finland or something?

Thunderpig: Nah. Me and Skull have always been aliens.

Exo Skull: But I wish I was from Finnish. 'Cause when I start a beatdown, I always FINNISH it!

Thunderpig: What!

Exo Skull: Yeah, I said it!

Thunderpig: Did you hear that?

Exo Skull: I said it!

Thunderpig: [laughs] My man!

Exo Skull: My man!

Thunderpig: Gimme that hand!

Exo Skull and Thunderpig proceed to high five each other with their feet.

Von Butch (clearly annoyed): Will you two be quiet for two minutes?!

Natasha: God, you both are giving me a headache!

Campbell: Why did we recruit them again?

Luan: Sheesh and I thought my family thinks my jokes are bad.

Lily: That was really pathetic.

Tanya: Wow! Team Loud Phoenix Storm! It's such an honor.

Me: It's a pleasure to meet you too Tanya.

Qin: Tanya.

Tanya: Qin!

They hugged.

Tanya: You have your humanity back.

Qin: I sure do. J.D. and everyone on Team Loud Phoenix Storm helped me and numerous Gene-Slammers out. We now have the power to transform at will.

Tanya: That's amazing!

Me: We can talk later. Right now we have a treasure to defend and share it with the world.

Von Butch: Just hand over the treasure in the tomb and I'll be on my way.

Cody: Over our dead bodies!

Von Butch (smirks): As you wish.

Then we heard a voice.

Velma: Unworthy!

Von Butch: Wha? Who said that?

Velma: The spirits of the tomb have decreed. You do not deserve the treasure. You are unworthy!

Me: (In my head) That's Velma's voice.

A figure came out dressed in a mask and it was CLEOPATRA!

Me: Cleopatra!

Von Butch: But that's impossible!

I snapped my fingers and we all were teleported to a big gas giant planet. We were floating on the clouds in the planet.

Nico: Whoa!

Lisa: Gadzooks! We're on a Gas Giant Planet!

Me: This is the Planet Zerzam.

The Planet Zerzam is a gas giant planet located in the Cartwheel Galaxy, 500 million light-years away from Earth and it orbits a black dwarf star. It is flooded with supernatural energy and it has ghosts, demons and spooks of all kinds and is called one of the spookiest planets in the universe.

Lincoln: Wow!

Lola: This planet is really terrifying!

We saw real ghosts and spirits. Sakura Avalon was hiding behind my back and she was scared.

Kero: This planet is amazing and scary at the same time!

Me: It sure is Kero. I took us here to avoid having the tomb get damaged. I used my magic to have us stand on the clouds.

Li: Good thinking.

Nicole: This planet is sure amazing. But how can a gas giant planet still have life in it after its parent star is dead?

Me: That's what really stumps me. Some stars are still active even after they die. But anyway, lets get this fight done!

We went at Thunderpig, Exo-Skull and Von Butch.

Ben: (To Thunderpig and Exo-Skull) This time, you two are gonna stay in the Null Void!

I punched Thunderpig in his nose and knocked him down.

Me: Let me show you some good friends.

I pulled out the Sword of Omens. I held the hilt up to my eyes.

Me: THUNDER! THUNDER! THUNDER! THUNDERCATS! HOOOOO!

I held the sword blade up to the air the eye turned into the symbol of the ThunderCats formed in the jewel and a red beam of light fired from the blade and the symbol of the ThunderCats was projected into the sky and it roared ferociously.

RRRRROOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

It turned into a portal and out of it came our friends, THE THUNDERCATS!

Chorus: (Singing) THUNDERCATS ARE ON THE MOVE. THUNDERCATS ARE LOOSE. FEEL THE MAGIC, HEAR THE ROAR, THUNDERCATS ARE LOOSE!

They arrived in the ThunderTank!

Lion-O: Hello J.D.

Me: Hello Lion-O.

I explained the situation for them and we went back to the fight.

We pulverized Thunderpig and Exo-Skull mercilessly and brought them to their knees.

Luke Morris: Dude, bringing back the mohawk? Good for you!

Thunderpig: Oh, you got jokes, huh?! Well, let's see how funny you are after I pound your face in!

Thunderpig charges at Luke and Shocker while Exo Skull charges at Molly Molloy and Rhino.

Rhino charged and bashed Exo-Skull with devastating force and slammed his face in.

Luke and Shocker fired a massive blast of lightning and electrocuted Thunderpig with 1 trillion volts of electricity.

Bella: Time for some deadly firepower!

Bella turned into Ultimate Bella and activated Heatblast's power.

Bella: HEATBLAST!

Bella fired a massive blast of fire at Thunderpig and burned him badly.

The ThunderCats punches and bashed and blasted them all over the place with their weapons and skills.

Me: Time for some teamwork!

Landmine: You got it J.D.! CYBER KEY POWER!

The Earth Cyber Planet Key went into his right wheel and turned his wheels into powerful windtunnel turbines.

William: Lets do it! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into William's right arm device and it enhanced his Espeon's powers 100-fold.

William: Espeon, use Psybeam!

Landmine and William: PSYBEAM TORNADO TEMPEST!

Espeon fired a rainbow beam of energy and Landmine fired a massive blast of wind. The blasts combined and they slammed into Thunderpig with the massive power of a massive blast of dynamite.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Time to make sure you stay in the Null Void forever Thunderpig.

I grabbed him and stripped him of his powers. Now he was as weak as a toothpick. I threw him into the Null Void after I opened up the portal.

Wildrider: Time for some action. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his scattershot laser gun 100-fold.

Riku: Lets do this! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm device and it enhanced his Keyblade Powers 100-fold.

Wildrider and Riku: DARKFIRE SCATTERSHOT BARRAGE!

Wildrider fired a powerful scattershot laser blast and Riku fired a massive blast of darkfire and the blasts combined and they hit Exo-Skull and burned him and damaged his cybernetic parts.

Me: You are never gonna be welcome on our planet.

I grabbed Exo-Skull and stripped him of his powers and made him as weak as a toothpick. I opened the portal into the Null Void and threw him in.

Me: That's it for them.

Kevin Levin: Ok. If Exo-Skull and Thunderpig end up getting out of the Null Void again, I'm gonna lose it!

Me: Don't worry Kevin. They will be placed into the maximum security section of the prison and kept under 24/7 watch.

Kevin Levin: Good.

Me: Now it's time to show Von Butch the power of our Final Smashes.

Cody: You got it boss! This is for messing with Egyptian History! NEPHTHYS AIRBURST HURRICANE!

Cody fired a massive blast of wind and it turned into a massive tornado and it blew Von Butch around with incredible force.

Velma: You will never get the treasure of Cleopatra! PHYSICS

EQUATION STRIKE!

Velma fired a powerful energy stream that showed a very complex math equation and it slammed into Von Butch and exploded. Knocking her out.

The area reverted back.

Me: It's over for you Von Butch.

I pulled out some handcuffs.

Natasha and Campbell were tied up and arrested and I slapped the cuffs on Von Butch.

Nico: Amelia Von Butch, you have failed this city and this world.

Interpol arrived after we brought them out of the tomb and she and her lackeys were arrested.

Cody: (To the viewers) Egypt's history has to be shared with the whole world and not be sold on the black market. If you do that, we will find you and bring you to justice.

Me: That's right.

Tanya: It was so cool how you stopped that wretched woman.

Qin: Thanks Tanya.

Velma: Thanks for helping us J.D.

Me: Anytime Velma. I'm glad we got here in time or else Shaggy and Scooby would've been seafood. (Laughs) Get it guys? Sea Food?

Shaggy: Sea Food?

We laughed at my joke.

Luan: (Laughs) Good one J.D.!

Me: Thanks Luan.

Amelia Von Butch was condemned to 15,234 years in the Lake Vostok Prison without parole. She was a disgrace to archaeologists and treasure hunters everywhere. Nicole punched her in the face and gave her a nasty black eye that would last a year.

We went back home after giving all of the treasure of Cleopatra to the museums of the world. Tanya now lives at the estate.

---

In the middle of the city, there was a massive marathon going on. However I saw something wrong happening. I kept my eye on one runner and she was going back and forth around the race in a 5 minute interval.

Me: Something is really wrong here. I sense a Clow card here.

I called Kero.

Me: The Loop Card?

Kero: That's right. Loop is behind this. It attached itself to the street and turned it into a loop.

Me: You mean like a repeated cycle? It has the power to bend the Space Time Continuum.

Kero: That's right.

Me: How can I see where it is?

Kero: You can't see it until it becomes untied.

Me: That's gonna be like finding a needle in a haystack. Wait.

I saw a strange red line on the street.

Me: I see a glowing red line.

I stuck my hand through it and it showed that it was at the street a mile back leading up to my current position.

Me: I found it.

Kero: You found it?

Me: Affirmative.

Kero: Excellent. Now you've got to break through it somehow and seal it before it reconnects the street again.

Me: I know how to do it.

I summoned the Sword Card and went Super Angel and slashed the line and cut it. Its visible form was revealed. Loop is a simple, small band or loop, red on one side and black on the other. It is often pictured with one twist so that it resembles an infinity symbol (∞) or a Möbius strip. 輪

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Loop Card and it turned back into a Clow Card. It was mine.

Me: Got it.

Kero: Great job J.D.!

Me: Thanks Kero.

Later we were over in New Orleans, Louisiana. We were there to pay our respects to the people that lost their lives during the most costliest and strongest Hurricane in the 2005 Atlantic Hurricane Season: Hurricane Katrina. It was August 29th, 2019 - the 14th anniversary of Hurricane Katrina. Over 1,836 people dead and $125,000,000,000 in damage.

---

Hurricane Katrina was a Category 5 hurricane that made landfall on Florida and Louisiana in August 2005, causing catastrophic damage, particularly in the city of New Orleans and the surrounding areas. Subsequent flooding, caused largely as a result of fatal engineering flaws in the flood protection system known as levees around the city of New Orleans, precipitated most of the loss of lives. The storm was the third major hurricane of the record-breaking 2005 Atlantic hurricane season, as well as the fourth-most intense Atlantic hurricane on record to make landfall in the contiguous United States, behind only the 1935 Labor Day hurricane, Hurricane Camille in 1969, and Hurricane Michael in 2018.

The storm originated over the Bahamas on August 23, 2005, from the merger of a tropical wave and the remnants of Tropical Depression Ten. Early on the following day, the tropical depression then intensified into a tropical storm as it headed generally westward toward Florida, strengthening into a hurricane only two hours before making landfall at Hallandale Beach and Aventura on August 25. After very briefly weakening again to a tropical storm, Katrina emerged into the Gulf of Mexico on August 26 and began to rapidly intensify. The storm strengthened into a Category 5 hurricane over the warm waters of the Gulf of Mexico but weakened before making its second landfall as a Category 3 hurricane on August 29, over southeast Louisiana and Mississippi. As Katrina made landfall, its front right quadrant, which held the strongest winds, slammed into Gulfport, Mississippi, devastating it.

Katrina caused extensive destruction and casualties: overall, at least 1,836 people died in the hurricane and subsequent floods, making Katrina the deadliest United States hurricane since the 1928 Okeechobee hurricane. Severe property damage occurred in numerous coastal areas, such as Mississippi beachfront towns where boats and casino barges rammed buildings, pushing cars and houses inland; water reached 6-12 miles (10-19 km) from the beach. The total property damage was estimated at $125 billion (2005 USD), roughly four times the damage wrought by Hurricane Andrew in 1992, tying Katrina with Hurricane Harvey of 2017 as the costliest Atlantic tropical cyclone on record.

Over fifty breaches in surge protection levees surrounding the city of New Orleans, Louisiana was the cause of the majority of the death and destruction during Katrina. Eventually, 80% of the city, as well as large tracts of neighboring parishes, became flooded, and the floodwaters lingered for weeks. Most of the transportation and communication networks servicing New Orleans were damaged or disabled by the flooding, and tens of thousands of people who had not evacuated the city prior to landfall became stranded with little access to food, shelter or basic necessities. The scale of the disaster in New Orleans provoked massive national and international response efforts; federal, local and private rescue operations evacuated displaced persons out of the city over the following weeks. Multiple investigations in the aftermath of the storm concluded that the U.S. Army Corps of Engineers, which had designed and built the region's levees decades earlier, was responsible for the failure of the flood-control systems, though federal courts later ruled that the Corps could not be held financially liable because of sovereign immunity in the Flood Control Act of 1928.

There were also widespread criticisms and investigations of the emergency responses from federal, state and local governments, which resulted in the resignations of Federal Emergency Management Agency (FEMA) director Michael D. Brown and New Orleans Police Department (NOPD) Superintendent Eddie Compass. Many other government officials were criticized for their responses, especially New Orleans Mayor Ray Nagin, Louisiana Governor Kathleen Blanco, and President George W. Bush. Several agencies including the United States Coast Guard (USCG), National Hurricane Center (NHC) and National Weather Service (NWS) were commended for their actions. The NHC was found to have provided accurate hurricane forecasts with sufficient lead time.

Hurricane Katrina formed as Tropical Depression Twelve over the southeastern Bahamas on August 23, 2005, as the result of the merger of a tropical wave and the remnants of Tropical Depression Ten four days earlier. The storm strengthened into Tropical Storm Katrina on the morning of August 24. The tropical storm moved towards Florida and became a hurricane only two hours before making landfall between Hallandale Beach and Aventura on the morning of August 25. The storm weakened over land, but it regained hurricane status about one hour after entering the Gulf of Mexico, and it continued strengthening over open waters. On August 27, the storm reached Category 3 intensity on the Saffir-Simpson hurricane wind scale, becoming the third major hurricane of the season. An eyewall replacement cycle disrupted the intensification but caused the storm to nearly double in size. The storm rapidly intensified after entering the Gulf, growing from a Category 3 hurricane to a Category 5 hurricane in just nine hours. This rapid growth was due to the storm's movement over the "unusually warm" waters of the Loop Current.

Katrina attained Category 5 status on the morning of August 28 and reached its peak strength at 1800 UTC that day, with maximum sustained winds of 175 mph (280 km/h) and a minimum central pressure of 902 mbar (26.6 inHg). The pressure measurement made Katrina the fifth most intense Atlantic hurricane on record at the time, only to be surpassed by Hurricanes Rita and Wilma later in the season; it was also the strongest hurricane ever recorded in the Gulf of Mexico at the time. However, this record was later broken by Hurricane Rita. The hurricane subsequently weakened due to another eyewall replacement cycle, and Katrina made its second landfall at 1110 UTC on August 29, as a Category 3 hurricane with sustained winds of 125 mph (205 km/h), near Buras-Triumph, Louisiana. At landfall, hurricane-force winds extended outward 120 miles (190 km) from the center and the storm's central pressure was 920 mbar (27 inHg). After moving over southeastern Louisiana and Breton Sound, it made its third landfall near the Louisiana-Mississippi border with 120 mph (190 km/h) sustained winds, still at Category 3 intensity. Katrina maintained strength well into Mississippi, finally losing hurricane strength more than 150 miles (240 km) inland near Meridian, Mississippi. It was downgraded to a tropical depression near Clarksville, Tennessee, but its remnants were last distinguishable in the eastern Great Lakes region on August 31, when it was absorbed by a frontal boundary. The resulting extratropical storm moved rapidly to the northeast and affected eastern Canada.

Flanked by Michael Chertoff, Secretary of Homeland Security, left, and Secretary of Defense Donald Rumsfeld, President George W. Bush meets with members of the White House Task Force on Hurricane Katrina Recovery on August 31, 2005, in the Cabinet Room of the White House.

The United States Coast Guard began pre-positioning resources in a ring around the expected impact zone and activated more than

400 reservists. On August 27, it moved its personnel out of the New Orleans region prior to the mandatory evacuation. Aircrews from the Aviation Training Center, in Mobile, staged rescue aircraft from Texas to Florida. All aircraft were returning towards the Gulf of Mexico by the afternoon of August 29. Aircrews, many of whom lost their homes during the hurricane, began a round-the-clock rescue effort in New Orleans, and along the Mississippi and Alabama coastlines.

President of the United States George W. Bush declared a state of emergency in selected regions of Louisiana, Alabama, and Mississippi on August 27. "On Sunday, August 28, President Bush spoke with Governor Blanco to encourage her to order a mandatory evacuation of New Orleans." However, during the testimony by former Federal Emergency Management Agency (FEMA) chief Michael Brown before a U.S. House subcommittee on September 26, Representative Stephen Buyer (R-IN) inquired as to why President Bush's declaration of state of emergency of August 27 had not included the coastal parishes of Orleans, Jefferson, and Plaquemines. The declaration actually did not include any of Louisiana's coastal parishes, whereas the coastal counties were included in the declarations for Mississippi and Alabama. Brown testified that this was because Louisiana Governor Blanco had not included those parishes in her initial request for aid, a decision that he found "shocking." After the hearing, Blanco released a copy of her letter, which showed she had requested assistance for "all the southeastern parishes including the City of New Orleans" as well specifically naming 14 parishes, including Jefferson, Orleans, St. Bernard, and Plaquemines.

Voluntary and mandatory evacuations were issued for large areas of southeast Louisiana as well as coastal Mississippi and Alabama. About 1.2 million residents of the Gulf Coast were covered under a voluntary or mandatory evacuation order.

On the afternoon of August 26, the National Hurricane Center (NHC) realized that Katrina had yet to make the turn toward the Florida Panhandle and ended up revising the predicted track of the storm from the panhandle to the Mississippi coast. The National Weather Service's New Orleans/Baton Rouge office issued a vividly worded bulletin on August 28 predicting that the area would be "uninhabitable for weeks" after "devastating damage" caused by Katrina, which at that time rivaled the intensity of Hurricane Camille. During video conferences involving the president later that day and on August 29, NHC director Max Mayfield expressed concern that Katrina might push its storm surge over the city's levees and flood walls. In one conference, he stated, "I do not think anyone can tell you with confidence right now whether the levees will be topped or not, but that's obviously a very, very great concern."

In Florida, Governor Jeb Bush declared a state of emergency on August 24 in advance of Hurricane Katrina's landfall. By the following day, Florida's Emergency Operations Center was activated in Tallahassee to monitor the progress of the hurricane. Before Katrina moved ashore, schools and businesses were closed in the Miami area. Cruise ships altered their paths due to seaports in southeastern Florida closing. Officials in Miami-Dade County advised residents in mobile homes or with special needs to evacuate. To the north in Broward County, residents east of the Intracoastal Waterway or in mobile homes were advised to leave their homes. Evacuation orders were issued for offshore islands in Palm Beach County, and for residents in mobile homes south of Lantana Road. Additionally, a mandatory evacuation was ordered for vulnerable housing in Martin County. Shelters were opened across the region.[30] Officials closed the Miami International Airport, Fort Lauderdale - Hollywood International Airport, Key West International Airport, and Florida Keys Marathon Airport due to the storm. In Monroe and Collier counties, schools were closed, and a shelter was opened in Immokalee.

On August 28, Alabama Governor Bob Riley declared a state of emergency for the approaching Hurricane Katrina. On the same day, he requested President Bush to declare "expedited major disaster declaration" for six counties of South Alabama, which was quickly approved. Three-hundred and fifty national guardsmen were called on duty by August 30. The state of Mississippi activated its National Guard on August 26 in preparation for the storm's landfall. Additionally, the state government activated its Emergency Operations Center the next day, and local governments began issuing evacuation orders. By 6:00 pm CDT on August 28, 11 counties and cities issued evacuation orders, a number which increased to 41 counties and 61 cities by the following morning. Moreover, 57 emergency shelters were established on coastal communities, with 31 additional shelters available to open if needed.

By Sunday, August 28, most infrastructure along the Gulf Coast had been shut down, including all freight and Amtrak rail traffic into the evacuation areas as well as the Waterford Nuclear Generating Station.

In Louisiana, the state's hurricane evacuation plan calls for local governments in areas along and near the coast to evacuate in three phases, starting with the immediate coast 50 hours before the start of tropical storm force winds. Persons in areas designated Phase II begin evacuating 40 hours before the onset of tropical storm winds and those in Phase III areas (including New Orleans) evacuate 30 hours before the start of such winds. Many private caregiving facilities that relied on bus companies and ambulance services for evacuation were unable to evacuate their charges because they waited too long. Louisiana's Emergency Operations Plan Supplement 1C (Part II, Section II, Paragraph D) calls for use of school and other public buses in evacuations. Although buses that later flooded were available to transport those dependent upon public transportation, not enough bus drivers were available to drive them as Governor Blanco did not sign an emergency waiver to allow any licensed driver to transport evacuees on school buses.

By August 26, the possibility of unprecedented cataclysm was already being considered. Many of the computer models had shifted the potential path of Katrina 150 miles (240 km) westward from the Florida Panhandle, putting the city of New Orleans directly in the center of their track probabilities; the chances of a direct hit were forecast at 17%, with strike probability rising to 29% by August 28. [39] This scenario was considered a potential catastrophe because some parts of New Orleans and the metro area are below sea level. Since the storm surge produced by the hurricane's right-front quadrant (containing the strongest winds) was forecast to be 28 feet (8.5 m), while the levees offered protection to 23 feet (7.0 m), emergency management officials in New Orleans feared that the storm surge could go over the tops of levees protecting the city, causing major flooding.

At a news conference at 10 a.m. EDT on August 28, shortly after Katrina was upgraded to a Category 5 storm, New Orleans mayor Ray Nagin ordered the first-ever mandatory evacuation of the city, calling Katrina "a storm that most of us have long feared." The city government also established several "refuges of last resort" for citizens who could not leave the city, including the massive Louisiana Superdome, which sheltered approximately 26,000 people and provided them with food and water for several days as the storm came ashore. Some estimates claimed that 80% of the 1.3 million residents of the greater New Orleans metropolitan area evacuated, leaving behind substantially fewer people than remained in the city during the Hurricane Ivan evacuation.

On August 29, 2005, Katrina's storm surge caused 53 breaches to various flood protection structures in and around the greater New Orleans area, submerging 80% of the city. A June 2007 report by the American Society of Civil Engineers indicated that two-thirds of the flooding was caused by the multiple failures of the city's floodwalls. The storm surge also devastated the coasts of Mississippi and Alabama, making Katrina one of the most destructive hurricanes, the costliest natural disaster in the history of the United States, tied with Hurricane Harvey in 2017, and the deadliest hurricane since the 1928 Okeechobee hurricane. The total damage from Katrina is estimated at $125 billion (2005 U.S. dollars).

The death toll from Katrina is uncertain, with reports differing by hundreds. According to the National Hurricane Center, 1,836 fatalities can be attributed to the storm: 1 in Kentucky, 2 each in Alabama, Georgia, and Ohio, 14 in Florida, 238 in Mississippi, and 1,577 in Louisiana. However, 135 people remain categorized as missing in Louisiana, and many of the deaths are indirect, but it is almost impossible to determine the exact cause of some of the fatalities. A 2008 report by the Disaster Medicine and Public Health Preparedness journal indicates that 966 deaths can be directly attributed to the storm in Louisiana, including out of state evacuees, and another 20 indirectly (such as firearm-related deaths and gas poisoning). Due to uncertain causes of death with 454 evacuees, an upper-bound of 1,440 is noted in the paper. A follow-up study by the

Louisiana Department of Health & Hospitals determined that the storm was directly responsible for 1,170 fatalities in Louisiana.

Federal disaster declarations covered 90,000 square miles (230,000 km2) of the United States, an area almost as large as the United Kingdom. The hurricane left an estimated three million people without electricity. On September 3, 2005, Homeland Security Secretary Michael Chertoff described the aftermath of Hurricane Katrina as "probably the worst catastrophe or set of catastrophes," in the country's history, referring to the hurricane itself plus the flooding of New Orleans.

Hurricane Katrina first made landfall between Hallandale Beach and Aventura, Florida on August 25. The storm dropped heavy rainfall in portions of the Miami metropolitan area, with a peak total of 16.43 in (417 mm) in Perrine. As a result, local flooding occurred in Miami-Dade County, damaging approximately 100 homes. Farther south in the Florida Keys, a tornado was spawned in Marathon on August 26. The tornado damaged a hangar at the airport there and caused an estimated $5 million in damage. The rains caused flooding, and the combination of rains and winds downed trees and power lines, leaving 1.45 million people without power. Damage in South Florida was estimated at $523 million, mostly as a result of crop damage. Twelve deaths occurred in South Florida, of which three were caused by downed trees in Broward County, three from drowning in Miami-Dade County, three were from carbon monoxide poisoning caused by generators, one was due to a vehicle accident, one occurred during debris cleanup, and one was associated with a lack of electricity.

Significant impacts were also reported in the Florida Panhandle. Although Katrina moved ashore in Louisiana and Mississippi, its outer periphery produced a 5.37 ft (1.64 m) storm surge in Pensacola. High waves caused beach erosion and closed nearby roadways. There were five tornadoes in the northwestern portion of the state, though none of them caused significant damage. Throughout the Florida Panhandle, the storm resulted in an estimated $100 million in damage. There were two indirect fatalities from Katrina in Walton County as a result of a traffic accident. In the Florida Panhandle, 77,000 customers lost power. Overall, the hurricane killed 14 people and caused at least $623 million in damage.

Before striking South Florida, Katrina traversed the Bahamas as a tropical storm. However, minimal impact was reported, with only "fresh breezes" on various islands.

Although Hurricane Katrina stayed well to the north of Cuba, on August 29 it brought tropical-storm force winds and rainfall of over 8 in (200 mm) to western regions of the island. Telephone and power lines were damaged and around 8,000 people were evacuated in the Pinar del Río Province. According to Cuban television reports the coastal town of Surgidero de Batabanó was 90% underwater.

On August 29, 2005, Hurricane Katrina made landfall near Buras-Triumph, Louisiana, with 125 mph (200 km/h) winds, a strong Category 3 storm. However, as it had only just weakened from Category 4 strength and the radius of maximum winds was large, it is possible that sustained winds of Category 4 strength briefly impacted extreme southeastern Louisiana. Although the storm surge to the east of the path of the eye in Mississippi was higher, a very significant surge affected the Louisiana coast. The height of the surge is uncertain because of a lack of data, although a tide gauge in Plaquemines Parish indicated a storm tide in excess of 14 feet (4.3 m) and a 12-foot (3.7 m) storm surge was recorded in Grand Isle. Hurricane Katrina made final landfall near the mouth of the Pearl River, with the eye straddling St. Tammany Parish, Louisiana, and Hancock County, Mississippi, on the morning of August 29 at about 9:45M CST.

Hurricane Katrina also brought heavy rain to Louisiana, with 8-10 inches (200-250 mm) falling on a wide swath of the eastern part of the state. In the area around Slidell, the rainfall was even higher, and the highest rainfall recorded in the state was approximately 15 inches (380 mm). As a result of the rainfall and storm surge the level of Lake Pontchartrain rose and caused significant flooding along its northeastern shore, affecting communities from Slidell to Mandeville. Several bridges were destroyed, including the I-10 Twin Span Bridge connecting Slidell to New Orleans. Almost 900,000 people in Louisiana lost power as a result of Hurricane Katrina.

Katrina's storm surge inundated all parishes surrounding Lake Pontchartrain, including St. Tammany, Tangipahoa, St. John the Baptist, and St. Charles Parishes. St. Tammany Parish received a two-part storm surge. The first surge came as Lake Pontchartrain rose and the storm blew water from the Gulf of Mexico into the lake. The second came as the eye of Katrina passed, westerly winds pushed water into a bottleneck at the Rigolets Pass, forcing it farther inland. The range of surge levels in eastern St. Tammany Parish is estimated at 13-16 feet (4.0-4.9 m), not including wave action.

Hard-hit St. Bernard Parish was flooded because of breaching of the levees that contained a navigation channel called the Mississippi River Gulf Outlet (MR-GO) and the breach of the 40 Arpent canal levee that was designed and built by the Orleans Levee Board. The search for the missing was undertaken by the St. Bernard Fire Department because of the assets of the United States Coast Guard being diverted to New Orleans. In the months after the storm, many of the missing were tracked down by searching flooded homes, tracking credit card records, and visiting homes of family and relatives.

According to the U.S. Dept. of Housing and Urban Development, in St. Bernard Parish, 81% (20,229) of the housing units were damaged. In St. Tammany Parish, 70% (48,792) were damaged and in Plaquemines Parish 80% (7,212) were damaged.

In addition, the combined effect of Hurricanes Katrina and Rita was the destruction of an estimated 562 square kilometres (217 sq mi) of coastal wetlands in Louisiana.

As the eye of Hurricane Katrina swept to the northeast, it subjected the city to hurricane conditions for hours. Although power failures prevented accurate measurement of wind speeds in New Orleans, there were a few measurements of hurricane-force winds. From this the NHC concluded that it is likely that much of the city experienced sustained winds of Category 1 or Category 2 strength.

Katrina's storm surge led to 53 levee breaches in the federally built levee system protecting metro New Orleans and the failure of the 40 Arpent Canal levee. Many levees in metro New Orleans were breached as Hurricane Katrina passed just east of the city limits.

There were no breaches of Mississippi River levees in metro New Orleans. Failures occurred in New Orleans and surrounding communities, especially St. Bernard Parish. The Mississippi River Gulf Outlet (MR-GO) breached its levees in approximately 20 places, flooding much of eastern New Orleans, most of St. Bernard Parish and the East Bank of Plaquemines Parish. The major levee breaches in the city included breaches at the 17th Street Canal levee, the London Avenue Canal, and the wide, navigable Industrial Canal, which left approximately 80% of the city flooded.

Most of the major roads traveling into and out of the city were damaged. The only major highway routes out of the city were the westbound Crescent City Connection and the Huey P. Long Bridge, as large portions of the I-10 Twin Span Bridge traveling eastbound towards Slidell, Louisiana had collapsed. Both the Lake Pontchartrain Causeway and the Crescent City Connection only carried emergency traffic. However, access to downtown New Orleans and the "shelter of last resort" at the Convention Center was never closed because River Road in Jefferson Parish and Leake Avenue and Tchoupitoulas Street in New Orleans were not flooded, and would have allowed access throughout the immediate post-storm emergency period.

On August 29, at 7:40 am CDT, it was reported that most of the windows on the north side of the Hyatt Regency New Orleans had been blown out, and many other high rise buildings had extensive window damage. The Hyatt was the most severely damaged hotel in the city, with beds reported to be flying out of the windows. Insulation tubes were exposed as the hotel's glass exterior was completely sheared off.

The Superdome, which was sheltering many people who had not evacuated, sustained significant damage.[66] Two sections of the Superdome's roof were compromised and the dome's waterproof membrane had essentially been peeled off. Louis Armstrong New Orleans International Airport was closed before the storm but did not flood. On August 30, it was reopened to humanitarian and rescue operations. Limited commercial passenger service resumed at the airport on September 13 and regular carrier operations resumed in early October.

Levee breaches in New Orleans also caused a significant number of deaths, with over 700 bodies recovered in New Orleans by October 23, 2005. Some survivors and evacuees reported seeing dead bodies lying in city streets and floating in still-flooded sections, especially in the east of the city. The advanced state of decomposition of many corpses, some of which were left in the water or sun for days before being collected, hindered efforts by coroners to identify many of the dead.

The first deaths reported from the city were reported shortly before midnight on August 28, as three nursing home patients died during an evacuation to Baton Rouge, most likely from dehydration. An estimated 215 bodies were found in nursing homes and hospitals in New Orleans, the largest number being at Memorial Medical Center where 45 corpses were recovered. Some 200 patients at Charity Hospital were not evacuated until Friday, September 2, having been without power or fresh water for five days.

While there were also early reports of fatalities amid mayhem at the Superdome, only six deaths were confirmed there, with four of these originating from natural causes, one from a drug overdose, and one a suicide. At the Convention Center, four bodies were recovered. One of the four is believed to be the result of a homicide.

There is evidence that many prisoners were abandoned in their cells during the storm, while the guards sought shelter. Hundreds of prisoners were later registered as "unaccounted for".

The Gulf coast of Mississippi suffered massive damage from the impact of Hurricane Katrina on August 29, 2005, leaving 238 people dead, 67 missing, and billions of dollars in damage: bridges, barges, boats, piers, houses, and cars were washed inland. Katrina traveled up the entire state, and afterward, all 82 counties in Mississippi were declared disaster areas for federal assistance, 47 for full assistance.

After making a brief initial landfall in Louisiana, Katrina had made its final landfall near the state line, and the eyewall passed over the cities of Bay St. Louis and Waveland as a Category 3 hurricane with sustained winds of 120 mph (190 km/h). Katrina's powerful right-front quadrant passed over the west and central Mississippi coast, causing a powerful 27-foot (8.2 m) storm surge, which penetrated 6 miles (10 km) inland in many areas and up to 12 miles (19 km) inland along bays and rivers; in some areas, the surge crossed Interstate 10 for several miles. Hurricane Katrina brought strong winds to Mississippi, which caused significant tree damage throughout the state. The highest unofficial reported wind gust recorded from Katrina was one of 135 mph (217 km/h) in Poplarville, in Pearl River County.

The storm also brought heavy rains with 8-10 inches (200-250 mm) falling in southwestern Mississippi and rain in excess of 4 inches (100 mm) falling throughout the majority of the state. Katrina caused eleven tornadoes in Mississippi on August 29, some of which damaged trees and power lines.

Battered by wind, rain and storm surge, some beachfront neighborhoods were completely leveled. Preliminary estimates by Mississippi officials calculated that 90% of the structures within half a mile of the coastline were completely destroyed, and that storm surges traveled as much as 6 miles (10 km) inland in portions of the state's coast. One apartment complex with approximately thirty residents seeking shelter inside collapsed. More than half of the 13 casinos in the state, which were floated on barges to comply with Mississippi land-based gambling laws, were washed hundreds of yards inland by waves.

A number of streets and bridges were washed away. On U.S. Highway 90 along the Mississippi Gulf Coast, two major bridges were completely destroyed: the Bay St. Louis-Pass Christian[1] bridge, and the Biloxi-Ocean Springs bridge. In addition, the eastbound span of the I-10 bridge over the Pascagoula River estuary was damaged. In the weeks after the storm, with the connectivity of the coastal U.S. Highway 90 shattered, traffic traveling parallel to the coast was reduced first to State Road 11 (parallel to I-10) then to two lanes on the remaining I-10 span when it was opened.

All three coastal counties of the state were severely affected by the storm. Katrina's surge was the most extensive, as well as the highest, in the documented history of the United States; large portions of Hancock, Harrison and Jackson counties were inundated by the storm surge, in all three cases affecting most of the populated areas. Surge covered almost the entire lower half of Hancock County, destroying the coastal communities of Clermont Harbor and Waveland, much of Bay St. Louis, and flowed up the Jourdan River, flooding Diamondhead and Kiln. In Harrison County, Pass Christian was completely inundated, along with a narrow strip of land to the east along the coast, which includes the cities of Long Beach and Gulfport; the flooding was more extensive in communities such as D'Iberville, which borders Back Bay. Biloxi, on a peninsula between the Back Bay and the coast, was particularly hard hit, especially the low-lying Point Cadet area. In Jackson County, storm surge flowed up the wide river estuary, with the combined surge and freshwater flooding cutting the county in half. Remarkably, over 90% of Pascagoula, the easternmost coastal city in Mississippi, and about 75 miles (120 km) east of Katrina's landfall near the Louisiana-Mississippi border was flooded from storm surge at the height of the storm. Other large Jackson County neighborhoods such as Porteaux Bay and Gulf Hills were severely damaged with large portions being completely destroyed, and St. Martin was hard hit; Ocean Springs, Moss Point, Gautier and Escatawpa also suffered major surge damage.

Mississippi Emergency Management Agency officials also recorded deaths in Forrest, Hinds, Warren, and Leake counties. Over 900,000 people throughout the state experienced power outages.

Although Hurricane Katrina made landfall well to the west, Alabama and the Florida Panhandle were both affected by tropical-storm force winds and a storm surge varying from 12 to 16 feet (3.7-4.9 m) around Mobile Bay, with higher waves on top. Sustained winds of 67 mph (108 km/h) were recorded in Mobile, Alabama, and the storm surge there was approximately 12 feet (3.7 m). The surge caused significant flooding several miles inland along Mobile Bay. Four tornadoes were also reported in Alabama. Ships, oil rigs, boats and fishing piers were washed ashore along Mobile Bay: the cargo ship M/V Caribbean Clipper and many fishing boats were grounded at Bayou La Batre.

An oil rig under construction along the Mobile River broke its moorings and floated 1.5 miles (2.4 km) northwards before striking the Cochrane Bridge just outside Mobile. No significant damage resulted to the bridge and it was soon reopened. The damage on Dauphin Island was severe, with the surge destroying many houses and cutting a new canal through the western portion of the island. An offshore oil rig also became grounded on the island. As in Mississippi, the storm surge caused significant beach erosion along the Alabama coastline. More than 600,000 people lost power in Alabama as a result of Hurricane Katrina and two people died in a traffic accident in the state. Residents in some areas, such as Selma, were without power for several days.

Northern and central Georgia were affected by heavy rains and strong winds from Hurricane Katrina as the storm moved inland, with more than 3 inches (75 mm) of rain falling in several areas. At least 18 tornadoes formed in Georgia on August 29, 2005, the most on record in that state for one day in August. The most serious of these tornadoes was an F2 tornado which affected Heard County and Carroll County. This tornado caused three injuries and one fatality and damaged several houses. The other tornadoes caused significant damages to buildings and agricultural facilities. In addition to the fatality caused by the F2 tornado, there was another fatality in a traffic accident.

Eastern Arkansas received light rain from the passage of Katrina. Gusty winds downed some trees and power lines, though damage was minimal. Katrina also caused a number of power outages in many areas, with over 100,000 customers affected in Tennessee, primarily in the Memphis and Nashville areas.

In Kentucky, a storm that had moved through the weekend before had already produced flooding and the rainfall from Katrina added to this. A 10-year-old girl drowned in Hopkinsville. Dozens of business were closed and several families evacuated due to rising flood waters. As a result of the flooding, Kentucky Governor Ernie Fletcher declared three counties disaster areas and a statewide state of emergency. Additionally, wind gusts up to 72 mph (116 km/h) resulted in some damage. Downed trees and power lines were reported in several counties in western Kentucky, especially Calloway and Christian counties. Overall, more than 10,000 utility customers in western Kentucky experienced power outages. The remnants of Katrina spawned a tornado in Virginia, damaging at least 13 homes in Marshall. In addition, approximately 4,000 people lost electricity. Over 3 in (76 mm) of rain fell in portions of West Virginia, causing localized flooding in several counties. At least 103 homes and 7 buildings suffered some degree of water damage. A number of roads and bridges were inundated or washed out. The remnants of Katrina produced locally heavy precipitation in northeast Ohio, ranging from about 2 to 4 in (51 to 102 mm). Numerous streams and rivers overflowed their banks, forcing the closure of several roads, including Interstate 90 in Cleveland. Two deaths occurred due to a flood-related automobile accident in Huron County. Additionally, hundreds of homes and businesses suffered flood damage.

Katrina spawned five tornadoes in Pennsylvania, though none resulted in significant damage. Up to 5 in (130 mm) of rain fell in western New York. Gusty winds also left approximately 4,500 people in Buffalo without electricity. The remnants of Katrina brought 3 to 6 in (76 to 152 mm) of rain to portions of Massachusetts, causing flash flooding in Bristol and Plymouth counties. Several roads were closed due to floodwater inundation in Acushnet, Dartmouth, New Bedford, and Wareham, including Route 18 in New Bedford. Very minimal impact was reported in Rhode Island, with winds downing a tree and two electrical poles in the city of Warwick. In Vermont, 2.5 in (64 mm) of rain in Chittenden County caused cars to hydroplane on Interstate 89, resulting in many automobile accidents. The storm brought 3 to 5 in (76 to 127 mm) of precipitation to isolated areas of Maine and up to 9 in (230 mm) near Patten. Several roads were inundated or washed out by overflowing brooks and streams, including sections of U.S. Route 1 and Maine routes 11 and 159. Several structures and one parked vehicle were also affected by the waters. Wind gusts up to 60 mph (97 km/h) also impacted parts of Maine, felling trees and causing power outages in Bar Harbor, Blue Hill, Dover-Foxcroft, Sedgwick Ridge, and Sorrento.

In Canada, the remnants of Katrina brought rainfall amounts in excess of 3.94 in (100 mm) to many locations between the Niagara Peninsula and the Saint Lawrence River valley. Severe local flooding occurred in Quebec, forcing the evacuations of dozens of homes in some communities as rivers began overflowing their banks and sewage systems were becoming overwhelmed by the influx of precipitation. Inundated and washed out roads, including Route 138 along the north shore of the Saint Lawrence River, Route 172 north of Tadoussac, and Route 385 near Forestville left several communities isolated for at least a week.

The economic effects of the storm reached high levels. The Bush Administration sought $105 billion for repairs and reconstruction in the region, which did not account for damage to the economy caused by potential interruption of the oil supply, destruction of the Gulf Coast's highway infrastructure, and exports of commodities such as grain. Katrina damaged or destroyed 30 oil platforms and caused the closure of nine refineries; the total shut-in oil production from the Gulf of Mexico in the six-month period following Katrina was approximately 24% of the annual production and the shut-in gas production for the same period was about 18%. The forestry industry in Mississippi was also affected, as 1.3 million acres (5,300 km2) of forest lands were destroyed. The total loss to the forestry industry from Katrina is calculated to rise to about $5 billion. Furthermore, hundreds of thousands of local residents were left unemployed. Before the hurricane, the region supported approximately one million non-farm jobs, with 600,000 of them in New Orleans. It is estimated that the total economic impact in Louisiana and Mississippi may eventually exceed $150 billion. Forensic accountants were involved in the assessment of economic damages resulting from this catastrophe.

Katrina displaced over one million people from the central Gulf coast to elsewhere across the United States, becoming the largest diaspora in the history of the United States. Houston, Texas, had an increase of 35,000 people; Mobile, Alabama, gained over 24,000; Baton Rouge, Louisiana, over 15,000; and Hammond, Louisiana, received over 10,000, nearly doubling its size. Chicago, Illinois received over 6,000 people, the most of any non-southern city. By late January 2006, about 200,000 people were once again living in New Orleans, less than half of the pre-storm population. By July 1, 2006, when new population estimates were calculated by the U.S. Census Bureau, the state of Louisiana showed a population decline of 219,563 or 4.87%. Additionally, some insurance companies have stopped insuring homeowners in the area because of the high costs from Hurricanes Katrina and Rita, or have raised homeowners' insurance premiums to cover their risk.

Me: It's awful what happened back then.

Lori: I know. Hurricane Katrina destroyed much of New Orleans.

Nico: That was terrible.

Me: It was the strongest hurricane of the 2005 season.

Lisa: Hurricane Harvey of 2017 was also of equal damages and is tied with Hurricane Katrina of 2005.

Me: They dealt $250 billion in damages over the course of 12 years. It's just horrible that hurricanes pack so much destructive power.

Lily: How is a hurricane formed?

Me: They are massive storms that are over 500 miles wide and over 50,000 feet high. In order for them to form, the water temperatures around the Summer and Fall has to be heated up to 82˚ Fahrenheit. Warm moist air rises over these hot spots and creates bands of thunderstorms. The wind pushes storm systems westward and swirls them around low pressure beneath the clouds. When a spinning wheel of thunderstorms gathers strength by feeding on moisture and heat, they become tropical storms. When wind speeds reach 74 miles per hour, a hurricane is born. When you look at a hurricane from the ground, it looks like a massive spinning and swirling wall of clouds coming right at you. A hurricane's architecture is highly organized. Rain bands up to 300 miles long converge on the hurricanes most violent sector: The Eye Wall. The eye wall can have winds of up to 200 miles per hour and they spiral upward. And the eye of a hurricane is the calmest part of the storm. And downdrafts of dry air create an eerie calm.

Lori: That is scary.

Leni: Totes.

Luna: It's hard to imagine that hurricanes pack that much power.

Me: Hurricanes get all their power from warm water and very high moisture. That's their engines that get them going.

Laney: Have you ever experienced a hurricane J.D.?

Me: Back 4 years ago in 2015. Hurricane Joaquin in the Bahamas.

Lincoln: Wow. What was that like?

Me: It was terrifying.

FLASHBACK.

Me: (Narrating) **I was standing on the beaches of San Salvador Island in the Bahamas and I was out in the middle of Hurricane Joaquin's eye wall. Winds were blasting all over the place at 155 miles per hour and torrential rain was drenching the land and the storm surge was incredible! The waves from the storm surge were 10 to 12 feet high. It was like being in a wind tunnel from the winds of Jupiter and it was as scary as hell.**

I was standing on the beach and the wind was blowing at a tremendous speed and it was unbelievable.

Me: **But then I saw the storms placid eye hover over the island. The speed of the wind completely vanished and I saw the sun's light shine on the island. It looked like the storm ended right there. But the island looked like it went through a war zone. There was debris and stuff all over the area. I knew the storm wasn't over and Hurricane Joaquin was moving at about 30 miles per hour. But then the other side of the eye wall came over us and the winds were blowing in the opposite direction.**

FLASHBACK ENDS

Me: Going through a hurricane like that was a major experience I will never forget.

Laney: Wow!

Qin: That's incredible.

Nico: Being in a hurricane is a nightmare for a lot of people.

Lana: That must've been terrifying.

Me: It was.

We paid our respects to the people of that day.

Elsewhere, four friends were getting ready. These friends were the awesome Dino Thunder Power Rangers, students of Tommy Oliver and the Power Rangers that destroyed Mesogog.

Connor McKnight: This is gonna be cool seeing Team Loud Phoenix Storm.

Kira Ford: Yeah. I can't wait to meet them.

Connor McKnight: Ready guys?

Dino Thunder Power Rangers: DINO THUNDER! POWER UP! HA!

A blinding flash of light was seen as the camera zoomed out.

Another Fanfiction complete and another villain of Scooby Doo brought to justice.

Amelia Von Butch of Scooby Doo in Where's My Mummy was a very bad girl that was bad enough to make my blood boil. I did this chapter as a tribute to those affected by Hurricane Katrina on August 29th, 2005. It was a horrible day back then and I was in high school back then. No I did not experience a hurricane first hand in real life. That would be a nightmare. The super high winds and the torrential rain and violent storm surges would be powerful enough to kill me. Today is August 30th and I was intending to do the tribute yesterday but it slipped my mind. NicoChan11 gave me the ideas for this one. Thanks man as usual. The Next Clow Card is the Song

Card. Get ready to have a great song contest. Let me know what you all think. I'm gonna take a break until Sunday to rest my brain for a while before I continue the next chapter.

See you all next time.

Ren: Yes, Ren Starblade.

Me: You know this guy Cornelia?

Cornelia: Unfortunately yes. His name is Ren Starblade and he was the worst ever bully in school before I met Irma, Taranee, Hay Lin and Will and all of you guys.

Nico: This guy is a monster!

Tara: Apologize to Cornelia and walk away.

Ren: Not gonna happen.

Me: Then we'll show no mercy on you.

Tara: Well, then. Good news. Today's the day a girl touches you in your little special place. (Kicks him in the crotch)

DING!

Me: (Winces) Oooh! Right where the sun doesn't shine.

Tara: Now say sorry to Cornelia and leave.

Ren: Never!

Nico then picked him up by his shirt.

Nico: Ren Starblade, you have failed this city.

Me: And he has failed at being a human being. Torture him Nico.

Nico: With pleasure.

Nico electrocuted Ren with 50,000,000 volts of electricity and he screamed in pain as he was being electrocuted.

Me: You ready to apologize yet?

Ren: Never!

Me: Administer more.

Nico did so.

Ren was a stubborn guy.

But he was not gonna apologize no matter how hard he tried.

Me: You are a disgrace of a human being Ren.

Then we got a surprise visit from the Dino Thunder Power Rangers, Connor McKnight, Kira Ford, Ethan James and Trent Fernandez.

Connor Mcknight (glares at Ren): Is there a problem here?

William: Nope. Ren here was just leaving!

Kira: Aww! You guys kicked him in the groin already?

Cutthroat: If he doesn't get out of here, we're gonna do worse to him.

Ren: You already hit me in the groin! What more could you do to me!

G1 Bumblebee: Be happy that we're letting you walk away!

Me: And into prison. Wow! The Dino Thunder Power Rangers!

Laney: Awesome!

Nico: It's so cool to meet all of you.

Connor M.: You too Nico. We heard so much about all of you.

Kira: You all are an amazing force.

Ethan: Yeah.

Trent: Same here.

Tommy Oliver: Hey guys.

Kira: Dr. Oliver!

Connor M.: You're now working for Team Loud Phoenix Storm as well?

Tommy Oliver: I sure am guys.

Numbuh 3: I didn't know that Tommy had you guys as students.

Tommy Oliver: You never asked.

Me: Touche. We watched you all on TV and you guys really kicked some butt.

Laney: And Kira you have an awesome singing voice.

Kira: Thanks Laney. I want to be a singer.

We beamed him to the Uranus prison. He was sentenced to life in prison for his crimes. I looked up his info and it showed that he was responsible for numerous sexual offenses and has been in prison several times.

Me: Geez! This guy should've never been around all women in general.

Kira: I agree.

Me: Yep.

We went back home.

We were walking back to the estate.

Me: Connor, it was awesome that you guys kicked all of Mesogog's monsters and Tommy I'm so sorry about what happened to Smitty.

Tommy Oliver: It's all right J.D.

Lana: That was horrible that happened to him.

Me: Yeah. Tommy what field of study do you do? Paleontology?

Tommy Oliver: That's right.

Nicole: You and I are so alike Tommy. I'm a Paleontologist, Geologist, Volcanologist and Astronomer.

Kira: Wow! You have a lot of fields of science Nicole.

Nicole: I went to college for a long time. It helped me become all those.

Ethan: You sure are a talented girl Nicole.

Qin: She sure is. Stacy when you turned back into a human, have you aged at all when you changed back?

Stacy: Hmm. I don't really know.

Nico: That's all right. Oh James. I have a friend here you might know.

Nico opened a pokeball and out came a Victreebel. It was James's Victreebel!

James: Victreebel!

They hugged and the Victreebel chomped on him in joy.

James: I never thought that I would see you again, Victreebel!

Me: You have a lot of pokemon huh James?

James: Yep.

We arrived back at the estate.

---

In the training yards, G1 Grimlock and the Tyrannosaurus Zord were competing with each other.

G1 Grimlock (to Tyrannozord): Me Grimlock strongest Dinobot. You only part of Megazord!

The Tyrannozord roared at him.

G1 Grimlock: That not roar! This roar! (roars)

Ratchet (face palms): Oh no! I was afraid of this!

Wheeljack: Grimlock's trying to prove that he's the better t rex.

Kira: That's not gonna be a good way to decide it.

---

In the kitchen Nico was making himself some lunch.

Lisa: 3rd Elder brother, I require your assistance.

Nico: What's up Lisa? Lab explosion, radiation leak, chemical cleanup?

Lisa: No. I have a hankering for a PB&J.

Nico: You got it little sis.

Nico got the stuff ready.

Lisa: I can isolate uranium but they won't let me use a butter knife. Also I like the way Lincoln, J.D. and Nico fix my sandwiches.

Tanya: That's okay.

Nico: Here you go Lisa. Easy on the jelly, crusts cut off and sliced into four right triangles for optimum mouth fit.

Lisa: (Takes the plate) Thank you. Technically they're isosceles but I'm not gonna bite the hand that feeds me.

Lisa left.

Nico looked at the grape jelly in the jar and he then got an idea.

Nico: I have an idea!

Bella: What is it Nico?

Nico: I got the idea for the next target that the Goosebumps Monster Busters can go after.

Tanya: Who do you have in mind Nico?

Nico went into the living room and showed us the next target. He pulled out the book called The Horror at Camp Jellyjam.

Nico: King Jellyjam from The Horror at Camp Jellyjam.

Me: I heard about him. He is a living blob of jelly that smells like a rotten corpse.

Lucy Loud: Wicked.

Me: Sorry Lucy.

Lucy Loud: It's okay J.D.

Me: Not only that, but what he was doing infuriates me. He uses the kids as slaves to keep himself stable with his slime and keep him together. Or else he turns into a puddle of slime.

Lana: Cool!

Lola: EW!

Laney: I hate that creep already.

Tanya: Me too.

Kira: I know.

Me: Lets see what it says about Jellyjam.

I pulled up King Jellyjam's info on the computer.

---

Initially appearing as the cute and benevolent-looking mascot of Camp Jellyjam, a sports camp with a fiercely competitive spirit, the truth was far more sinister. The camp was secretly being controlled by the monstrous King Jellyjam, who had hypnotized the camp counselors into serving him. Due to being unable to stand his own smell, King Jellyjam uses the counselors to acquire the strongest children to be his slaves, cleaning and washing him endlessly. To decide this, campers are awarded King Coins for winning, and those who manage to earn six of them participate in a victory march called the Winner's Walk. In secret, though, these campers are then taken to King Jellyjam's underground lair to serve as his slaves. Any campers who stop washing Jellyjam, even for a moment, are devoured.

One of the campers, Alicia, learned of the insidious truth behind the camp, and tried to warn the other campers, including new arrival Wendy. However, she was captured and sent into the caves to wash Jellyjam along with the other winners. Wendy eventually found out the truth as well and resolved to save the campers forced to serve the evil blob monster.

After stopping her brother, Elliot, from winning a race and acquiring his final King Coin, Wendy returned to the cave to put an end to King Jellyjam's tyranny. She called out for the campers stop washing him and lay flat on the floor. The campers obeyed, much to King Jellyjam's fury. He attempted to devour the kids in retaliation, but found that his fingers were too large and clumsy to grab the children who lay on the ground. As a result of not being washed, King Jellyjam immediately began to suffocate from his own smell. Blaming Wendy for his impending doom, the blob monster attempted to devour her in revenge, but melted into a slimy puddle before he could do her any harm, thus ending his control over the camp and freeing the campers he had enslaved.

---

When I found out about this info I was infuriated!

Me: (GROWLS) King Jellyjam is a monster tyrant!

Laney: I hate this freak!

Lana: Me too!

Lisa: Slavery is a disgusting thing.

Me: It is. During the American Civil War we were fighting to emancipate slaves forever. Now it's time for us to go to war against a blob of slime.

There was a knock at the door.

Lily: I'll get that.

Me: Okay Lily.

Lily got the door and she saw a girl named Wendy. Wendy is twelve years old, tall, and skinny with brown hair and brown eyes. In the book, Wendy is said to have a dark complexion, similar to that of her father, but completely unlike that of her fair-skinned mother. With her was her brother Elliot. Elliot is eleven years old, tall, and skinny, with brown hair and brown eyes.

Wendy (Goosebumps): Hello. May we please speak to J.D.?

Lily: Sure. Come on in.

They came in and we saw them.

Nico: I know you two. You're Wendy and Elliot.

Wendy (Goosebumps): That's right Nico. It's an honor to meet you all.

Me: Same here. We were just talking about going after King Jellyjam.

We explained what was going on.

Wendy: (Goosebumps) This time, I'll make sure that disgusting pile of gelatin stays dead.

Me: We all will. Okay. I have a plan. The brainwashed counsellors are gonna expect us to attack from the air. So we're gonna have to go undercover. Nico, you will take Maria, Carol, Qin, Cornelia and Megan with you and pose as Campers in order to lead us to where King Jellyjam is. Nico, you are gonna wear this hidden tracer button on your belt.

Nico: Roger that J.D.

Me: Okay. The camp is located in northwestern Minnesota. Lets roll!

We were off to Camp Jellyjam.

---

## CAMP JELLYJAM, MINNESOTA

---

We were hiding in the bushes outside of Camp Jellyjam. We put our plan into action.

Nico had Blue and black camp clothes.

Maria had Blue and aqua blue.

Qin had Blue and Black.

Cornelia had Brown and Green

Megan had Purple and Black.

And Carol had all purple.

Carol: Maria, let's choose swimming in order to get King Coins.

Maria: Okay.

Our plan was in motion.

I was watching them with binoculars while we were hiding. I saw the winners walk path and it was a long that goes into the forest. We watched them play archery, swim and more. They got their coins.

Swampfire: Gwen, remember when we chased down an escaped Goop and you told me that methane's flammable?

Gwen: Yeah. Why?

Swampfire: Well, Swampfire can produce methane. And we can use that against Jellyjam!

Me: Shhh.

They were walking.

Me: They're walking.

I took out my radar and we saw Nico's radar signature blip and it was a red blip. We were following him from the shadows. We then saw an abandoned mine tunnel.

Me: An abandoned mine tunnel.

Deirdre: Yeah. It's the abandoned Joshua Mine. It was shut down due to a cave in that killed 62 people.

Me: Jeez. The radar shows that this leads into the cave that King Jellyjam is in. Follow me and keep quiet.

We went into the mine and we saw that it was a deep mine tunnel. It was a creepy tunnel and more. We were seeing a lot of strange things in the mine.

Me: This mine gives me the creeps.

Lucy Loud: I wouldn't mind living here.

I looked at the radar and I saw that we were catching up to them. We saw them up ahead.

Me: There they are.

We saw them go down a tunnel and we saw on the radar move down a tunnel and they were coming down to a big room at the end of the cave.

Me: That room must be where he's at.

We were hiding behind the wall of the cave and we saw a living mass of slime and a bunch of kids were scrubbing him with mops full of soap and water. The blob of slime had a crown on his head.

Me: There he is.

King Jellyjam: **KEEP SCRUBBING YOU BRATS! I WILL EAT YOU IF YOU DON'T!**

Me: That is sick.

Lori: That blob literally disgusts me.

Me: We don't attack until Nico gives us the signal. He's going to fire Electro's lightning into the air like a signal flare.

Lisa: I called the army and they are on their way.

Me: Excellent. After we burn Jellyjam we're gonna bomb this mountain and bury him for good.

Nicole: Good idea.

Nico: Can I say something before we start?

Buddy: Sure.

Nico: I'd like to invite the rest of my friends to this special occasion. They'll make sure that this will be the last Winner's Walk ever!

Nico fired a blast of lightning into the air and it exploded into a bright light.

Me: There's the signal!

We went into the room!

Me: Your reign of terror is over Jellyjam!

Kid 1: It's Team Loud Phoenix Storm!

Me: That's right kids. We're here to save you.

Nico: Now you will pay for your crimes Jellyjam!

Jellyjam: **YOU ALL TRICKED ME!**

Me: And now it's time to burn you.

Jellyjam: LIKE HELL YOU WILL!

Jellyjam then formed a bunch of Jelly Minions.

Me: Jelly minions. That's a first. Lets dance!

We all fired laser and energy blasts and obliterated them all.

Nico: King Jellyjam, you have failed this world!

We fired blasts of fire and lightning and more and burned all the minions and Jellyjam. Jellyjam screamed in pain as he was being burned.

Me: Lets see how you like this! **DRAGON OF THE DARKNESS**

**FLAME!**

I fired a powerful blast of black fire as black as the night and as hot as the sun and it took the form of a malevolent black dragon and it completely incinerated most of the minions in an instant.

Lana: Lets see how ice shatters you! (Echoing) **ICE STYLE: ABSOLUTE ZERO RASENSHURIKEN!**

Lana threw an aqua blue Rasenshuriken made of pure ice and it roared with the power of a billion howling blizzards at -459.69˚ Fahrenheit. It hit the minions and froze them all in a massive explosion of ice instantly and they shattered into a million pieces.

Nicole: How about this for you!?

Nicole formed a blade made of Storm Style Chakra and it was emitting the super loud roar of crackling lightning and thunder from the blade. She called it Stormsave.

Nicole: (Echoing) **STORM STYLE: LIGHTNING FLOOD MAYSAK!**

Nicole swung her sword and released an enormous field of lightning that was powerful enough to light several dozen cities for years and it electrucuted all the minions and reduced them to ash.

Nico: NUOVA STAR!

The 4-Star Dragonball on his bracelet glowed and he fired a powerful ball of fire and it slammed into the minions and incinerated them in a fiery explosion.

Tanya: Try this on for size!

Tanya grew a massive crystal cluster of ocean blue sapphire in seconds and they skewered Jellyjam all over the place.

Qin: Wow!

Nico: Tanya, that was awesome!

Me: Time to send this monster to hell with some teamwork!

Ratchet: You got it J.D.! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his laser scalpels 100-fold.

Numbuh 3: Time for some cute power! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and it turned her Rainbow Monkeys into flying bombs.

Ratchet and Numbuh 3: RAINBOW MONKEY LASERBOMB BARRAGE!

Numbuh 3 fired numerous Rainbow Monkey Plushes and Ratchet fired powerful lasers from his laser scalpels and they hit Jellyjam and exploded.

KRABBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMMM

Cutthroat: Time for action! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his flame breath 100-fold.

James: Lets get him Victreebel! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into James's right arm device and it enhanced his Victreebel's abilities 100-fold.

James: Victreebel, use Leaf Tornado!

Cutthroat and James: FLAMING LEAF CYCLONE BURN!

Cutthroat fired a powerful fire breath blast and Victreebel fired a massive tornado of leaves and the blasts combined and burned Jellyjam.

Me: Lets blast him with Final Smashes!

Carol: Right! GODZILLA 2016 ATOMIC RAY BURN!

Carol fired 2016's Godzilla's focused purple atomic ray and it slashed apart Jellyjam with incredible power. It cut through him like a powerful deadly laser.

Wendy (Goosebumps): This is for all the pain you put me and my brother and friends through! FIRESTORM INCINERATOR FLAME!

Wendy fired a massive blast of fire from her hands and it hit Jellyjam and he screamed in excruciating pain as he was being incinerated.

His crown flew off and landed by my feet.

Me: Long live the king.

I took the crown and kept it as a trophy. The counsellors were free from his control.

Me: That takes care of him. Lets get out of this cave.

We left.

We got out of the cave and we saw a bunch of army tanks and missile tanks and more.

Me: And just in time too.

We joined the General.

Me: Time to blow up this mountain and bury that monster alive.

Cybertron Scattershot was helping out too.

Me: Okay all units ready general?

General: That's right.

Me: Okay. Fire at will.

General: Fire at will!

The tanks fired first and they fired at the mountain walls.

BOOOM! BOOOOOMMM!

The missile tanks and Cybertron Scattershot fired missiles at the mountain.

Cybertron Scattershot: TAKE THIS YOU MONSTER!

BBOOOOOMMMM! BOOOOMMM! BOOOOOMM!
BOOOOOOMMM!

Ballistic missiles were being fired at the mountain too.

KRABBOOOOOOOOOMMMMMM!

The mountain was starting to collapse as we kept on firing.

BOOOOMMM! BOOOMM! BOOOOMMM! BOOOOOOOOMMMM!
BOOOOOOMMM! BBOOOOOOOMMM!

KRABBBOOOOOOOOOOOOOOOOOOOOMMMMMM!
KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!
KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

The whole mountain was imploding in on itself.

BOOOOMM! BOOOOOOMMM! BOOOOOOOMMM!
BOOOOOOMM! BOOOOOOOMM! BOOOOOOM!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

BOOOMM! BOOOOMM!

KRABBOOOOOOOOOOOOOOOOMMM!

BOOOOOMMMM! BOOOOOMMM!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM
KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

The whole mountain was gone and the cave was completely sealed up.

Me: That seals the cave.

General: Glad we came here.

Me: Thanks for helping us General.

General: My pleasure J.D.

Carol: (To the viewers) Not even a Goosebumps monster is a match for the power of the might of the military and Team Loud Phoenix Storm.

Me: You got that right Carol.

Vince: Yep.

Vince and Carol kissed.

Kira: That was so cool how you all did all that.

Me: Thanks Kira.

Nico caught an Aromatisse and a Slurpuff.

---

Later when we got home we were searching for a Clow Card. We heard it singing?

Me: Is that singing?

Kero: Yeah. It's the Song Card.

Me: It sure is talented.

Kira: Let me capture the Song Card, guys. After all, I am a good singer.

Me: That's what we saw on TV Kira. You are very gifted.

Kira: Thanks.

The Song Card came. 歌 Song's visible form resembles a young girl wearing a long dress, all in lavender-white, and bluish-lavender headgear. The headgear resembles a treble clef, and the dress resembles the front of a stringed-instrument. Her dress also has the 'F holes', which are long to look like the cello. Her hair is purple, and split into two sides with the ends in a curl. In Clow Card form, Song has musical notes in the background.

Kira: Wow. So you are the song card.

Me: She's beautiful.

Kero: And she can sing really well. She has the power to sing the best song.

Me: Wow.

Kira pulled out her guitar and she started playing Sheryl Crow's Soak Up The Sun.

Kira and Song Card: (Singing)

My friend the communist

Holds meetings in his RV

I can't afford his gas

So I'm stuck here watching tv

I don't have digital

I don't have diddly squat

It's not having what you want

It's wanting what you've got

I'm gonna soak up the sun

I'm gonna tell everyone

To lighten up

I'm gonna tell 'em that

I've got no one to blame

For every time I feel lame

I'm looking up

I'm gonna soak up the sun

I'm gonna soak up the sun

I've got a crummy job

It don't pay near enough

To buy the things it takes

To win me some of your love

Every time I turn around

I'm looking up, you're looking down

Maybe something's wrong with you

That makes you act the way you do

I'm gonna soak up the sun

I'm gonna tell everyone

To lighten up

I'm gonna tell 'em that

I've got no one to blame

For every time I feel lame

I'm looking up

I'm gonna soak up the sun

While it's still free

I'm gonna soak up the sun

Before it goes out on me

Don't have no master suite

But I'm still the king of me

You have a fancy ride, but baby

I'm the one who has the key

Every time I turn around

I'm looking up, you're looking down

Maybe something's wrong with you

That makes you act the way you do

Maybe I am crazy too

I'm gonna soak up the sun

I'm gonna tell everyone

To lighten up

I'm gonna tell 'em that

I've got no one to blame

For every time I feel lame

I'm looking up

I'm gonna soak up the sun

I'm gonna tell everyone

To lighten up (to lighten up)

I'm gonna tell 'em that

I've got no one to blame

For every time I feel lame

I'm looking up (I'm looking up)

I'm gonna soak up the sun

Got my 45 on

So I can rock on

The beauty of the Ocean Sun was seen in the background.

We gave them an encore cheer.

Me: Way to go!

Kira: Thank you J.D. RETURN TO YOUR POWER CONFINED!

Kira held out her hand and an energy card formed and sucked in the Song Card. It was a Clow Card again.

Me: That was really well done Kira!

Kira: Thanks J.D.

Me: You sure do have a great voice Kira. You have a great talent.

Kira: I know. But you'll give me a swollen head.

Me: Sorry.

We went back home to the estate and told everyone. Wendy, Elliot and Deirdre were inducted into the Goosebumps Monster Busters.

THE END

---

Another Fanfiction Complete and another Goosebumps monster bites the dust.

Nico got me into Power Rangers Dino Thunder and I watched the whole series on Netflix. It was so cool! And it was awesome that

Tommy was Connor, Ethan and Kira's teacher and helper. King Jellyjam from the Goosebumps Book The Horror at Camp Jellyjam was a gross and ugly monstrosity. Plus, what he was doing was completely gross and disgusting! NicoChan11 gave me the ideas for this one. Thanks man. The next card is gonna be the Firey card. Get ready for a card with a fiery temper. Let me know what you all think.

See you all next time.

# Shell of A Man

In the middle of the park we were surrounded with everything burning in an incredibly intense fire.

Me: Wow! Why is everything on fire!

Kero: J.D.! This is Firey! It's a special card.

Me: It's one of the 4 elements.

Then flames built up and took on the Firey's visible form. 火 The Firey resembles an adolescent angel and a little bit an inspiration of a phoenix with flaming hair. He has a red, bejewelled circlet with elf-like ears, as well as bright, orange wings.

The energy coming from Firey was unbelievable.

Me: Wow! Firey's power is incredible!

Kero: J.D.! You got to act fast!

Me: No need to tell me twice.

I flew up to the Firey card.

Me: Firey. So we meet at last.

Heatblast: Don't worry, J.D. I'll just absorb the flames for the Firey card and you can seal it. Simple.

Me: That just might work.

I fired a powerful energy blast at Firey and it hit it and exploded.

KRABOOOOOOOOMMMM!

Firey fired massive blasts of fire at me, Lola, Yuko, Sam S.L., Paige and Heatblast. But we were absorbing all its fire and its fire was so strong and so powerful that it was making us far more powerful than ever before!

Me: Wow! What power!

Lola: I didn't know Firey would make us this strong!

Sam S.L.: Incredible!

Yuko: I didn't know it has that much power.

I fired powerful energy blasts and more at it and they hit it and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOMMMMM!

Firey fired an incredibly massive blast of fire at me and I absorbed it and it made me more powerful than ever before. I flew behind the Firey card and grabbed him and absorbed his power and it weakened him.

Me: Now's my chance! RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Firey and it was a Clow Card again.

Me: Yeah!

I got the Firey Card.

Kero: Way to go J.D.!

Then Kero started glowing.

Me: Whoa! What's wrong Kero?

Kero: Nothing's wrong J.D. By capturing the Firey Card, you have enabled me to begin my retransformation.

Me: So you have some of your power back. Awesome!

Kero: Thanks to you J.D.

Me: I'm glad we could help out.

We later went back home.

---

Back at the estate we were telling everyone about what happened.

Lori: So you captured the Firey Card?

Me: Yep. It was a powerful one.

Sakura Avalon: I had to use the Windy and Watery Cards to help immobilize it.

Me: That's amazing.

Kira: Hey J.D. I heard you are all are getting a bunch of new Wild Zords.

Me: We sure are Kira.

Connor M.: If there can be more Wild Zords, there can be more Dino Zords, right?

Stacy: I hope a pink Dino Zord can be made.

Me: It's a strong possibility. But if we find Dino Zord eggs we will find them.

Ethan: Thanks J.D.

The doorbell rang.

Lily: I'll get it.

Lily went to the door and she saw another version of Mantaman and she had blue skin and she had glider flaps on her arms and she had fanged teeth and brown hair and she had blue pants.

Lily: Wow! You're a female Mantaman.

Mantawoman: I'm Dr. Teri Morton. But you can also call me Mantawoman.

Mantaman: Wow. So you are my genderbent self.

Mantawoman: I guess so.

Joan: Mantawoman! It's great to see you.

Mantawoman: You too Joan.

Jaime: Hey Teri!

Mantawoman: Hey Jaime.

Me: Wow. You look like a female Mantaman.

Lori: How did this happen to you?

Mantawoman: Well like my male self I became like this on purpose.

FLASHBACK.

Mantawoman: (Narrating) I was on the International Space Station working on DNA experiments and I saw Latricia Paradigm come on board and she was planning to steal DNA experiments for a terrible project. I heard about the stories of the Street Sharks and decided to join their cause in stopping her. So I injected myself with Manta Ray DNA on purpose and help the Street Sharks fight her.

Teri took a syringe full of Manta Ray DNA and injected it into herself and then she started to change! Her skin turned blue and her shirt ripped and her arms grew flaps that help her fly and her mouth grew wider and her teeth turned into fangs and her brown hair fell out and her woman features vanished! MANTAWOMAN WAS BORN!

FLASHBACK ENDS

Chloe: Teri has helped us expose Dr. Latricia Paradigm for the monster she really is. Like the one you all fought here, she was slammed with Piranha DNA and made into Dr. Piranoid.

Me: Very coincidental.

Jaime: Yep.

William: You and Mantaman are the shortest of the gene slammers.

Mantaman: I guess we are.

Me: How would you both like to have the ability to change into your Mantaman and Mantawoman forms at will?

Lincoln: Yeah we forgot to do that when we killed Teams Magma and Aqua.

Qin: I remember about that.

Mantawoman: We would like that.

Mantaman: Same here.

Me: Okay. But this is gonna hurt. A lot.

Mantaman: I'm ready guys.

Mantawoman: Same here.

Me: Okay. Boys cover your eyes.

We did so and I snap my fingers and cover my eyes and Mantaman and Mantawoman were in a lot of pain. They were reverting back. Their skin turned back and their teeth were back to human and their brown hair came back and their hands came back.

Mantawoman: THIS HURTS!

Mantaman: I KNOW!

They were back to normal.

Me: How do you guys feel?

Terry: Better than ever!

Maria formed a mirror and they saw themselves!

Terry: I'm back to normal!

Teri: (covers her boobs) Eyes to yourself, perverts!

Terry: Are my glasses still intact?

Chloe: I have them right here.

Chloe handed them to him.

Maria: We'll get you both some new clothes.

Teresa: Yeah.

Mantaman: Okay.

They went up to Leni's room.

Teri and Terry got new clothes. They got a Blue shirt with a manta ray on it, blue plaid skirt with blue jeans and a sleeveless trench coat with the Great Barrier Reef on it and the kanji for Flying Manta Ray of The Ocean's Justice. Same with Terry but without the skirt. 海の正義の飛行マンタ

Teri: Wow! I look amazing!

Terry: Me too. You and I look like twins Teri.

Teri: We sure do.

Teresa: It's an awesome fashion trend here at the estate.

Maria: Leni taught us how to make awesome clothes like this. When it comes to fashion, she is a master.

Terry: I believe it.

* * *

Later the next morning, Me, Laney, Nicole, Maria and Lily were back over in the Indian Ocean at the uncharted archipelago. We ran out of our Goldenberry Froot Loops Cereal. So we're going after the next treasure of Black Beak.

Me: Here we are guys. Colossal Island!

We saw an island with a giant red Froot Loop Shaped rock.

Laney: Wow! That is a big Froot Loop!

Nicole: And I have a feeling the treasure is inside that rock.

We flew up to the top of the rock and we saw a hole that slides down into it.

Me: There's a light in here.

Laney: You first Lily.

Lily: Okay.

We slide down into the rock and we saw the treasure!

Lily: The treasure cereal!

We saw Froot Loops cereal but with big red loops!

Laney: Wow! Giant!

Maria: Humongous!

Lily: Enormous loops!

Nicole: I'd say Colossal.

Me: Here's our new breakfast guys.

---

We brought the cereal treasure back and ate it.

Me: Mmm! Delicious and big on taste.

Lori: These are literally the biggest froot loops I've ever seen.

Me: They are 3 times bigger than normal Froot Loops cereal.

Lincoln: They sure are tasty though.

Lola: They taste like strawberries 3 times.

Lana: I'll say.

Lucy Loud: They are big on taste.

Lily: They sure do taste great though.

Lisa: Affirmative. They do taste delicious and savory.

Lily: Mmm. Well I'm off to work.

Me: Okay Lily. Have a great day.

---

Lily was working at the Krusty Krab.

Lily: [putting the meat on the patty] Easy… [takes all the condiments and throws them in the air. They all land nicely stacked on top of the patty] Perfection!

Karen: Is the order ready Lily?

Lily: Just a second, Karen. Well, Krabby Patty, it's time for you to go now. [sniffles, starts to tear] You grew up so fast, I…

Lily gave it to Karen.

Karen: Thank you Lily.

Maria: Thanks Karen

Lily then notices something.

Lily: Hello, what's this? [gets close to the window of the door where her eyes and Mr. Krabs' eyes meet]

Mr. Krabs: Come out here, lass.

Lily: [walks outside] Mr. Krabs?

Mr. Krabs: [grabs Lily's legs and drags her under the dumpster]

Hush lass, or you'll give away the location of me hidey-hole.

Lily: [whispering] What's a hidey-hole?

Mr. Krabs: It's where I hide me treasure. [pushes the dumpster aside and throws Lily out of the hole] Catch! [throws a treasure chest at Lily] Let's get that chest to the office, lass, pronto!

Lily: What's in this thing Mr. Krabs? Treasure?

Mr. Krabs: A treasure trove of sorts. It's me memory chest from my years in the navy.

Lily: Wow.

SpongeBob: Why'd you dig up your navy chest, Mr. Krabs?

Mr. Krabs: Well, my navy buddies and I are having a reunion. And I wanted to wear me old uniform. [opens chest]

SpongeBob: Wow, look at all your cool navy stuff!

Lily: You sure have a lot of neat stuff Mr. Krabs.

SpongeBob: What's that?

Mr. Krabs: Arrgh! [takes out a tattoo] It's me first tattoo.

SpongeBob: Neat.

Lily: That's a nice Tattoo. Maria has a couple cool tattoos.

Mr. Krabs: I saw that lass. And this is me 'Manly Toughness Trophy'. [shows a trophy with an arm at the top]

Lily: That is a cool trophy.

SpongeBob: How'd you win that?

Mr. Krabs: By being the toughest of the tough!

SpongeBob: Wow!

Lily: Neat.

SpongeBob: Oh-oh. Who are those guys? [pointing to a picture with 5 sailors in it]

Mr. Krabs: Me shipmates. The toughest bunch to ever sail the briny deep. There's "'Ol Iron Eye", [shows guy with iron for an eye], and "Mutton Chop", [shows guy holding a wrench], me, [shows Mr. Krabs in a navy suit], "Torpedo Belly", [shows big guy with torpedo in his belly], and "Lockjaw Jones". [shows guy with a big jaw & leaning on an anchor]

Lily: You and your buddies looked awesome Mr. Krabs.

Mr. Krabs: Thanks lass.

SpongeBob: Did you have a cool nickname, Mr. Krabs?

Mr. Krabs: Of course! I was called "Armor Abs Krabs".

Lily: Wow! That is a tough name!

SpongeBob: You were called that?

Mr. Krabs: What do you mean?

SpongeBob: Well, I guess you were thinner back then.

Mr. Krabs: Oh, really? [takes his navy suit] This is me navy cadet uniform. Prepare to eat your words 'cause I haven't put on more than a couple of pounds. [rips navy suit while trying to put it on] Ok, maybe I'm a bit bigger. But I'm still the toughest of the tough. Go ahead, lad, give em a punch.

SpongeBob: You want me to punch you in the stomach?

Mr. Krabs: Not in the stomach! In me armor abs!

SpongeBob: [punches Mr Krabs in the abs, but his arm breaks into little pieces] wow, my entire arm disintegrated.

Lily: Let me see here.

Lily punched Mr. Krabs in the abs and a nasty clang was heard.

CLANG!

Lily: OW! Wow! Mr. Krabs your abs must be made of solid diamond!

Mr. Krabs: I still got it. Now be a good lad and go get your station in ship shape. And leave an old sea-dog to revel in his memories.

SpongeBob: Aye Aye sir!

Lily: Aye, aye, sir! [opens kitchen door] Alright, let's get this place ship shape. You men, stop laying around! [point to potatoes] To battle stations. [pouring fries into the grease fryer] All hands on deck! [puts 10 Krabby Patties on the grill] Set course for full flavor. [turns knob on stove to the right] Ketchup and mustard off the port bow. [stepping on ketchup and mustard containers] One Krabby Patty ready to set sail. [holding krabby patty up]

Mr. Krabs: No! [Lily drops her Krabby Patty]

Lily: Uh oh!

Maria: Oh no!

Bai Tza: Uh oh!

SpongeBob: [gasps] Mr. Krabs.

Lily: Mr. Krabs? [knocks once on Mr. Krabs door and it opens] Hello? Mr. Krabs? [Mr. Krabs is shown head down on his desk] You alright? Are you sleepy? [pokes Mr. Krabs body knocking it to the floor, revealing an empty shell] Mr. Krabs!

SpongeBob: [sniffs his arm] I don't smell his pulse. [in the background, a fleshy and pink Mr. Krabs rushes past SpongeBob] What's that? [figure is behind a barrel] Is somebody there?

Mr. Krabs: Don't look at me!

Lily: Mr. Krabs?

Mr. Krabs: Leave me be!

SpongeBob: [throws barrel away] You're alive! And naked…

Mr. Krabs: [crying] It's true. I've molted.

Lily: Molted?

Maria: Molted?

SpongeBob: What's molted?

Mr. Krabs: It's when a crab gets too fat- um, er, outgrows his shell. It falls off!

SpongeBob: Wow.

Mr. Krabs: 'Armor Abs Krabs' can't show up at the reunion like this. All pink and soft and unmanly. I'm all flab and no ab! [sobs]

Lana: Mr. Krabs it's not that bad.

Mr. Krabs: (sobs) Look at me! I can't be seen like this!

Maria: Honestly, you don't look that bad!

Mr. Krabs: I guess this is karma for all the rotten things I did.

Nokama: No, it isn't! You already paid for your past crimes. This is a result of nature. So this was unavoidable.

Skipper: I think it's time we reject nature!

SpongeBob: Barnacles!

Mr. Krabs: SpongeBob!

SpongeBob: Sorry about the foul language, Mr. Krabs, but you're acting like there never was a man in that shell. The Krabs of his navy days was fearless. He wouldn't let something as insignificant as a missing shell slow him down.

Lily: That's right!

Mr. Krabs: Yeah.

SpongeBob: Who cares how silly, pink & fleshy you look. How non-threatening, limp & soft you are. How… [Mr. Krabs cries]… oops.

Bai Tza: Maybe Clayface or Mystique can take Mr. Krabs' place.

Kowalski: Negative. It will take them 2 hours to get here. By that time, the reunion will already be over.

Mr. Krabs: I can't go anywhere ever again. Stupid, no good… [kicks shell into the wall which ricochets back at SpongeBob. He screams. The shell lands on his hand and he runs around, screaming. Then he falls over and goes in his shell]

SpongeBob: Wow, it sure is dark in here. [pokes head through the shell] Look, Mr. Krabs, I'm you!

Mr. Krabs: SpongeBob, you're a genius.

SpongeBob: Well, I'm glad you got my point. It's not what's about on the outside. It's what's on the in…

Mr. Krabs: No, you barnacle brain. Not your silly metaphor. You, in me shell. It gives me an idea. You can go to the reunion and pretend to be me.

SpongeBob: I get to be a navy buddy?

Mr. Krabs: Course, you'll need some time to approximate me personality.

SpongeBob: Oh, that'll be a snap. Squidward and I have been doing it behind your back for years. [laughs] Er… Before we sent Squidward to the nuthouse that is.

Lily: That just might work.

Mr. Krabs: Alright, show me what you got.

SpongeBob: [pulls nose out to look like Mr. Krabs' then imitates his voice] Look at me, I'm Mr Krabs. I love money.

Mr. Krabs: Heh heh, say that ain't half-bad.

Lily: Hey that's really good.

SpongeBob: I once won a marathon because someone dropped a penny at the finish line.

Mr. Krabs: That's me. [laughs]

They laughed at that.

SpongeBob: Every night, I tuck me wallet in and tell it a bedtime story. [pulls covers over the wallet] Goodnight, wallety. [kisses the wallet]

Mr. Krabs: Yeah, okay, I get the point.

SpongeBob: Oh, what's that you say? Me daughter, Pearl, needs an operation? I'll do it me self and save a nickel. [laughs]

Mr. Krabs: That'll do, SpongeBob.

Lily: Sorry Mr. Krabs but I thought he was doing a great job.

Mr. Krabs: That's true lass.

Maria: We can tell him what to do telepathically while hiding from the shadows.

[At the reunion]

SpongeBob: Well, here goes… wow. I've never seen so many manly naval men. So tough, so brave, so… clever. And I'm one of them! [at the reunion, a tough man is shown lifting Nancy on a treasure chest]

Mr. Krabs: [hiding in a coral plant] No you're not. Don't blow this for me, SpongeBob.

SpongeBob: I won't let you down, sir.

Mutton Chop: Armor Abs Krabs. Come join your navy buddies in a toast.

SpongeBob: [high-pitched voice] Coming! [runs over to the table]

Mr. Krabs: Oh, what have I done?

SpongeBob: Okay, boys, let the SS Party drop anchor right here.

Mr. Krabs: I've created a monster.

Lockjaw Jones: Here's some grog. You still like pineapple, right?

SpongeBob: Like pineapple? I live in one. [everyone laughs]

Torpedo Belly: That Ol' Krabs is manly as ever.

Mr. Krabs: I don't believe it. SpongeBob is pulling it off.

Bai Tza: He sure is.

Mutton Chop: Hey, Armor Abs, Ol' Iron Eye here has been itching to punch your legendary gut.

SpongeBob: Well, if you think you're man enough.

Mr. Krabs: Uh-oh, this could be bad.

SpongeBob: Fire the torpedoes. [Iron Eye punches SpongeBob. He bounces around in the shell then comes up dizzy]

Mutton Chop: What do you say, Krabs? Just like old times. [SpongeBob spits out a tooth]

Lockjaw Jones: A tooth.

[SpongeBob spits out two more teeth]

Torpedo Belly: Teeth. Now, that's manly.

[SpongeBob coughs out his skeleton and everyone gasps then cheers]

Mr. Krabs: He did it.

Lily: Wow. That was great.

Maria: That must've hurt though.

Captain: Alright, me swabbys, it's time to award the trophy of manly toughness. To a man who's toughness has stewed the test of time. And that man is: Eugene Armor Abs Krabs! Come up here, Krabs.

Mr. Krabs: This is the best night of my life. Me naval buddies still think I'm manly. And I didn't have to shed myself.

Bai Tza: No you didn't Mr. Krabs.

Naval Buddies: Armor Abs! Armor Abs! Armor Abs!

SpongeBob: Thanks for the trophy, everybody. [laughs]

Naval Buddies: Speech! Speech! Speech! Speech!

SpongeBob: I… uhh…

Mr. Krabs: Say something.

SpongeBob: Let me spin you a manly yarn.

Mr. Krabs: 'Atta boy.

SpongeBob: So there I was, in Jellyfish Fields.

Mr. Krabs: I'm doomed.

SpongeBob: Me supply of bubble soap was dangerously low. And as I blew my last bubble…

Mutton Chop: Did he say Jellyfish Fields?

Iron Eye: Blowing bubbles?

Mutton Chop: Uhh, what were you doing in Jellyfish Fields?

SpongeBob: Why, jellyfishing, of course.

Naval Buddies: Huh?

Mr. Krabs: Phone call for Mr. Krabs! [SpongeBob is confused] [quietly yelling] Get off the stage.

SpongeBob: Oh, well, I gotta go. Uhh, thanks. [runs off the stage]

Torpedo Belly: Where do you think you're going? Everybody knows there's two things Ol' Armor Abs Krabs would never do.

Mr. Krabs: Oh no.

Lily: Uh oh.

Lockjaw Jones: Number one, is spend a penny.

Torpedo Belly: And the other one, is leave without giving Ol' Torpedo Belly one of your world famous steely belly butts. Haha

SpongeBob: [normal voice] Oh, I thought you'd see through my ruse. I mean, [Mr. Krabs' voice] arr, you don't think I was just gonna collect this here trophy of manly toughness without reminding you silly livers why you give it to me in the first place. Let's have it. No holding back. Give it your all.

Mr. Krabs: I can't watch.

Nokama: Me neither.

[SpongeBob & Torpedo Belly butt each other in the belly and sends SpongeBob flying]

Torpedo Belly: Armor Abs? [SpongeBob flies into a sign and then back into Torpedo Belly breaking the shell. SpongeBob is revealed and everyone gets angry]

SpongeBob: Well, uhh, I-i-i-i-i-i-i-i-i-i-i-i-i, I guess I'll take my manly toughness trophy and head home now. See you around manville, boys, uhh, men.

Mr. Krabs: No! He's not Eugene Krabs. I am. [everyone gasps]

Lily and the others came out.

Mr. Krabs: Alright, lads, take a good look. This is who I am. I've molted me shell and I'm vulnerable. And I was in jail before I got pardoned. [cries] But I'm certainly no bubble-blowing jellyfisher. No offense, SpongeBob.

SpongeBob: None taken, Mr. Krabs.

Mr. Krabs: C'mon, everybody, let's go home.

Maria: And by home, you probably mean the Krusty Krab.

Mutton Chop: Wait a minute! You've forgotten something. [hands trophy to Mr. Krabs]

Mr. Krabs: I don't understand.

Mutton Chop: Admitting you lost your shell and that you were in jail are two of the toughest things I've ever seen. And, uhh, I have a confession. [rips off sideburns] These are fake! [SpongeBob, The Neptune Crusaders & Mr. Krabs gasp]

Torpedo Belly: Over here.

Mr. Krabs: You, too, Torpedo Belly?

Torpedo Belly: Actually, I had my torpedo removed long ago.

Torpedo Belly revealed that he had a scar on his belly where his torpedo used to be.

Lockjaw Jones: And these aren't the same choppers that I had in the navy.

He pulled out a pair of dentures.

Iron Eye: My iron eye is actually made of Formica. [everyone laughs]

SpongeBob: Look at that, Mr. Krabs. Your navy buddies all had something to hide.

Lily: They sure did.

Mr. Krabs: Yeah, poor suckers. At least my shell will grow back. [both laugh]

They all laughed.

They went over to SpongeBob's house to get new clothes for Mr. Krabs until his shell grows back.

Mr. Krabs: Thanks for helping me today, fellas.

Maria: No problem, sir.

Mr. Krabs: And you know what? I should probably wear a shock garter on my leg so I don't go back to my greedy ways.

Bai Tza: Ok. But we'll take it off if it seriously injures you.

Mr. Krabs: Thanks lass.

They heard Squidward laughing and to their surprise, the insane asylum he was in was right across the street from the Neptune Crusader headquarters. The Neptune Crusader headquarters was a fusion of a bunch of houses and the Krusty Krab now turned into a Hotel and Restaurant fused together.

Squidward: (laughs) Look at the nude Krabs! Not so mighty now, are you?!

Maria: (snarls) Mr. Krabs is already suffering enough! He doesn't need your insults right now!

Lily: So Shut up Stupid Squidward!

Squidward: Make me you halfwit!

Lily: Oh we will see.

The next morning, Lily, SpongeBob and Patrick got up.

[SpongeBob and Patrick are coming out of their houses.]

SpongeBob: Good morning, Patrick!

Patrick: Hi, SpongeBob!

Lily: Morning guys.

SpongeBob: You ready for some fun, pals?

Patrick: I sure am, old buddy!

Lily: You know I am.

SpongeBob: Hey, here comes fun now! [Notices a fish driving down the street]

Lily, SpongeBob & Patrick: [takes a deep breath] AHHHHHHHHHHHHHHHHH! [Continues screaming, and then starts flopping on the ground, while still screaming. Then they laugh]

SpongeBob: Wow! Doesn't get any better than that!

Patrick: Yeah! I love boat screaming!

Lily: Me too.

Patrick: Oh! Oh! Hey! Hey! Here comes another one!

[Notices another boat with Pilar and Shelly driving down the street]

Lily, SpongeBob & Patrick: AHHHHHHHHH! [The boat passes by them]

SpongeBob: Here comes another one! [Notices Nat driving down the street]

Patrick: AHHHHHHHHHH! [He and SpongeBob scream as Harold drives on by as well. Then they notice Frank driving a really small car]

Lily, SpongeBob & Patrick: Ahhhhh… [Notice Archie driving a scooter and their faces get smaller] ahh… [Notices one of Plankton's relatives on a unicycle] ah…

Clem: (Southern Accent) City folk.

Lily, SpongeBob & Patrick: [Notices Nazz] Heeeee… [Their heads explode] AHHHHHHHHHHHHHH! [Notices Larry the Lobster driving down the street and they continue screaming as Patrick smashes

SpongeBob around. Lily smashes them both on the ground. They notice a bus and they all scream through megaphones, until Squidward appears]

Squidward: [From his window] Would you two mind stopping with your baby games!? Didn't anybody tell you it's the break of dawn!?

Lily: Oh go back to sleep you worthless and talentless loser.

SpongeBob: Yeah Squidward, what we do is none of your business.

Patrick belches really loudly in Squidward's face.

They continued screaming at boats and then they really sent Squidward over the edge!

Squidward: (ENRAGED SCREAMING) I AM GONNA GRIND ALL THREE OF YOU INTO CHUM!

Squidward then went completely ballistic and he went at them. He exploded out of the nuthouse and ran at them like a thousand rampaging bulls.

Lily punched Squidward in the face and kicked him in the stomach and she pulverized him into pulp and she threw him into the nuthouse.

Lily: Stupid Squidward.

The lights flickered as Squidward was getting a lobotomy. Squidward was placed in Solitary Confinement.

Lily: That was weird. Well I got to head back Mr. SquarePants. See ya tomorrow.

SpongeBob: Okay Lily.

Lily went back home and told us everything that happened after taking a shower. We laughed at Squidward's humiliation. But we were happy for Mr. Krabs.

THE END

Another Fanfiction Complete and another SpongeBob Chapter done.

Shell of A Man was a funny episode of Season 4. I thought it was really silly. But who'd have thought that all of Mr. Krabs's navy buddies were hiding something? Colossal Froot Loops were one of my favorites and they were really tasty. Whenever we have a SpongeBob Chapter like this we're gonna go after Froot Loops treasures. NicoChan11 gave me the ideas for this one. Thanks man. The next Clow Card is the Power Card. Let me know what you all think.

See you all next time.

# A World of Fairy Tales

At the estate we were watching TV and reading books.

Gwen T.: Hey Kevin. I have something funny to show you.

Kevin Levin: What is it Gwen?

She pulled out a package of Gushers.

Me: You're gonna get a kick out of this Kevin.

Lincoln: This was really funny.

Gwen ate a Gusher and she was laughing.

Kevin Levin: (concerned) Gwen, do you need to go see Ratchet?

Gwen T.: (laughing uncontrollably) I'm fine, Kevin. Just keep watching!

Her skin on her face turned dark red, her hair fell out and her head grew rounder and a stem popped out of her head. It turned into a cherry.

Kevin Levin: Oh that is too funny! (Laughs)

Me: Told you Kevin. We had some Gushers and we wanted to see if we could have our heads turn into fruit like in those commercials we saw on TV. They were funny.

Gwen T.: Yep. I smell like Cherries. (Nose tingles) Uh oh. (Sneezes).

Gwen splattered Cherry Juice all over my face and Kevin.

Me: (Slurps) Mmm. Cherry.

Kevin Levin: That is good stuff. Is this permanent?

Me: Nope. It lasts 10 minutes.

Sakura Avalon: But that is really funny. In Japan we have similar snacks.

Kero: You got it admit though Sakura, Japan has good food and so does America.

Laney: Want a Gusher, Kero?

Kero: Sure Laney. I don't think my head is gonna turn into a fruit though. I'm magic.

Me: We'll have to find that out.

Laney handed him a gusher and he ate it.

Kero: Mmm. Green Apple flavor.

Me: We love sweet food.

Kero: Not as much as cake.

We laughed.

Gwen's head reverted back to normal and she was dizzy.

Gwen T.: (Dizzy) That was funny. But I taste like cherries.

Next it was time for movies. We were watching the Shrek movies. First was 2001's Shrek.

Shrek, a mean-spirited and highly territorial green ogre who loves the solitude of his swamp, finds his life interrupted when countless fairytale creatures are exiled there by the fairytale-hating and vertically-challenged Lord Farquaad of Duloc. Angered, he decides to ask Farquaad to exile them elsewhere. Shrek brings along a talkative Donkey, who is the only fairytale creature willing to guide him to Duloc.

Meanwhile, Farquaad's torture of the Gingerbread Man for the location of the remaining fairytale creatures is interrupted when his guards present him with a Magic Mirror. He asks the Mirror if his kingdom is the fairest of them all but is told that he is not even a king, as he is not descended from royalty. To become a king, he must marry a princess; Farquaad resolves to marry Princess Fiona, who is locked in a castle tower guarded by a dragon. Unwilling to perform the task himself, he organizes a tournament wherein the winner gets the "privilege" of rescuing Fiona for him. Shrek and Donkey arrive during the tournament, and ignorantly defeat Farquaad's knights. Farquaad proclaims them the champions, and compels them under threat of death to rescue Fiona, promising to move the fairytale creatures from Shrek's swamp if he succeeds.

Shrek and Donkey travel to the castle to find Fiona. They are attacked by Dragon, who corners Donkey. In desperation, he sweet-talks the beast, learning that it is female. Dragon falls in love with Donkey and carries him to her chambers. Meanwhile, Shrek finds Fiona, who is appaled at his lack of romanticism and surprised he had not slain Dragon. They leave after rescuing Donkey, and Fiona is thrilled to be rescued but is quickly disappointed when Shrek reveals he is an ogre. Despite her demands that Farquaad come get her in person, Shrek forcibly carries her as he ventures back to Duloc with Donkey. The three encounter Robin Hood on their way back, where it is revealed that Fiona is an expert martial artist. Shrek and Fiona find they have much in common and begin to fall in love.

When the trio is almost at Duloc, Fiona takes shelter in a windmill for the evening. Donkey hears strange noises from within and investigates, finding Fiona transformed into an ogress. Fiona reveals that she was cursed during childhood to transform every night, and that only her true love's kiss will change her to "love's true form". Meanwhile, Shrek is about to confess his feelings to Fiona, but then overhears part of their conversation and becomes upset after mistaking her comment about being an "ugly beast" as disgust toward him. At Donkey's suggestion, Fiona vows to tell Shrek about her curse, but sees that Shrek has brought Lord Farquaad to the windmill. Confused and hurt by Shrek's sudden disposition towards her, Fiona accepts Farquaad's marriage proposal and requests they be married before nightfall. The couple return to Duloc, while Shrek angrily abandons Donkey and returns to his now-vacated swamp.

Angered, Donkey arrives at the swamp and confronts a still upset Shrek. After an argument, Donkey explains that the "ugly beast" Fiona was referring to was someone else, and urges him to express his feelings for her before she is married. They travel to Duloc quickly by riding Dragon, who had escaped her confines and followed Donkey.

Shrek interrupts the wedding before Farquaad can kiss Fiona; he tells her that Farquaad is not her true love and is only marrying her to become king. The sun sets, which turns Fiona into an ogress in front of everyone, causing a surprised Shrek to understand what he overheard. Outraged, Farquaad orders Shrek executed and Fiona detained. Dragon bursts in alongside Donkey and devours Farquaad alive. Shrek and Fiona profess their love and share a kiss; Fiona's curse is lifted but she is surprised to see that she is still an ogress. They marry in the swamp and leave on their honeymoon.

Next was 2004's Shrek 2.

Newlyweds Shrek and Fiona return from their honeymoon to find they have been invited by Fiona's parents to a royal ball to celebrate their marriage. Shrek refuses to go at first, but Fiona talks him into it, and along with Donkey, they travel to the kingdom of Far Far Away. They meet Fiona's parents, King Harold and Queen Lillian, who are shocked to see both their daughter and son-in-law are ogres, with Harold particularly repulsed. At dinner, Shrek and Harold get into a heated argument over how Shrek and Fiona will raise their family, and Fiona, disgusted at Shrek and Harold's behavior, locks herself away in her room that evening. Shrek worries that he has lost his true love, particularly after finding her childhood diary and reading that she was once infatuated with Prince Charming.

Harold is reprimanded by the Fairy Godmother and her son Prince Charming by reminding him that Charming was to marry Fiona in exchange for his own happy ending. She implores him to find a way of getting rid of Shrek. Harold arranges for Shrek and Donkey to join him on a fictitious hunting trip, which is actually a trap to lure them into the hands of an assassin, Puss in Boots. Unable to defeat Shrek, Puss reveals that he was paid by Harold and offers to come along and make amends. The three sneak into the Fairy Godmother's potion factory and steal a "Happily Ever After" potion that Shrek thinks will restore Fiona's love for him.

Shrek and Donkey both drink the potion and fall into a deep sleep, awakening the next morning to discover its effects: Shrek is now a handsome man while Donkey has turned into an elegant white stallion. In order to make the change permanent, Shrek must kiss Fiona by midnight. Shrek, Donkey, and Puss return to the castle to discover that the potion has transformed Fiona back into her former human self as well. However, the Fairy Godmother, having discovered the potion's theft, intercepts Shrek and sends Charming to pose as him and win Fiona's love. At the Fairy Godmother's urging, Shrek leaves the castle, thinking that the best way to make Fiona happy is to let her go.

To ensure that Fiona falls in love with Charming, the Fairy Godmother gives Harold a love potion to put into Fiona's tea. This exchange is overheard by Shrek, Donkey, and Puss, who are arrested by the royal guards and thrown into a dungeon. While the royal ball begins, several of Shrek's friends band together to free the trio with the help of The Muffin Man's monster-sized gingerbread man, which breaks through the castle's defenses. Shrek is too late to prevent Charming from kissing Fiona, but instead of falling in love with Charming, Fiona knocks him out with a headbutt. Harold reveals that he never gave Fiona the love potion, whereupon the now-enraged Fairy Godmother attacks Shrek. In the ensuing melee, Harold sacrifices himself to save Shrek; his armor ricochets a spell cast by the Fairy Godmother which disintegrates her, and Harold is turned back into the Frog Prince, his true form. Harold gives his blessing to the marriage and apologizes for his earlier behavior, admitting his use of the Happily Ever After potion years earlier to gain Lillian's love. Lillian urges Harold that she loves him over his appearance.

As the clock strikes midnight, Fiona rejects Shrek's offer to remain humans, and they happily let the potion's effects wear off and revert to their ogre forms, while Donkey returns to his natural form as well. In the mid-credits scene, Dragon, who had previously romanced Donkey, reveals that they now have several dragon-donkey hybrid babies, much to his surprise.

Next we watched 2007's Shrek The Third.

Shrek and Princess Fiona are to succeed the dying King Harold. Shrek's attempts to serve as the Regent during the King's medical leave end in disaster. Shrek insists that an ogre as king is a bad idea and that there must be someone else to rule the kingdom. Before he dies, Harold tells Shrek of another heir: his nephew, Arthur "Artie" Pendragon. Meanwhile, Prince Charming vows to himself that he will become King of Far Far Away and avenge the death of his mother, the Fairy Godmother. Charming goes to the Poison Apple tavern and persuades fairy tale villains to fight for their "happily ever after".

Shrek, Donkey and Puss in Boots set out to retrieve Artie; as they are sailing away, Fiona reveals to Shrek that she is pregnant, much to Shrek's horror, as he believes he is not capable of raising children. The trio journey to Worcestershire Academy, an elite magical boarding school, where they discover Artie is a scrawny 16-year-old underachiever. At the school pep rally, Shrek tells Artie he will be king of Far Far Away. Artie is excited until Donkey and Puss inadvertently frighten him by discussing the responsibilities of being king. Artie tries taking control of the ship to go back to Worcestershire and as he and Shrek fight over the wheel, it breaks and the ship crashes on a remote island, where they encounter Artie's retired wizard teacher, Merlin.

Charming and other villains attack the castle, but Wolfie, Pinocchio, Gingy, the Three Little Pigs and the Blind Mice stall them long enough for Fiona and her mother Queen Lillian to escape along with Snow White, Rapunzel, Cinderella, Sleeping Beauty, and Doris the Ugly Stepsister. One of the Pigs accidentally blurts out that Shrek has gone to retrieve Arthur, and Prince Charming sends Captain Hook and his pirates to track down Shrek. The ladies are put in a tower after Rapunzel betrays them, having fallen in love with Charming.

Captain Hook and his pirates track Shrek and his friends to Merlin's island, where they attempt to capture Shrek. Shrek and Artie defeat the villains, and Hook mentions Charming and the takeover of Far Far Away. Shrek urges Artie to return to Worcestershire. Instead, Artie cons Merlin into using his magic to send them to Far Far Away. The spell causes Puss and Donkey to accidentally switch bodies.

They find Pinocchio and learn that Charming plans to kill Shrek as part of a play. Charming's men arrive, but Artie tricks the knights into not taking them into custody and they break into the castle during rehearsals for the play. Caught in Charming's dressing room, the four are taken captive.

Charming prepares to kill Artie, believing he is the next king. To save Artie's life, Shrek tells Charming that Artie was a pawn to take his place as King of Far Far Away. Charming believes Shrek and allows Artie to leave. Donkey and Puss are imprisoned with Fiona and the ladies, where Fiona grows frustrated with their lack of initiative. Fiona's mother, Queen Lillian, smashes an opening in the stone wall of the prison with a headbutt. While the princesses launch a rescue mission for Shrek, Donkey and Puss free Gingy, Pinocchio, the wolf and pigs, and Dragon and Donkey's children. They encounter Artie; Puss and Donkey mollify him by explaining that Shrek lied to save Artie's life.

Charming stages a musical in front of the kingdom. Just as Charming is about to kill Shrek, Fiona, along with Puss, Donkey, the princesses, and the fairy tale characters confront the villains. They lose, and Fiona is tied up. Artie shows up and convinces the villains that just because they are being treated like losers does not mean they must be losers. The villains agree to give up their evil ways. Charming refuses to listen and lunges at Artie with his sword, but Shrek blocks the blow, so Charming attacks him instead. As Shrek pushes Charming aside, Dragon knocks over Rapunzel's tower, seemingly crushing him to death.

Artie is crowned king. While the kingdom celebrates, Merlin restores Puss and Donkey to their correct bodies. Shrek and Fiona return to the swamp, becoming the parents of ogre triplets, and coping with the help of Puss, Lillian, Donkey and Dragon.

And lastly we watched 2010's Shrek Forever After.

In a flashback, King Harold and Queen Lillian are about to sign the kingdom of Far Far Away over to Rumpelstiltskin, in exchange for lifting their daughter's curse. The deal is canceled at the last second when a knight informs the King and Queen that Princess Fiona has been rescued by Shrek. An angry Rumpelstiltskin laments his loss and wishes Shrek was never born.

In the present time, Shrek has grown steadily weary of being a family man and celebrity among the local villagers, leading him to wish for when he felt like a "real ogre" again. When he takes his family to Far Far Away to celebrate his children's first birthday, a series of mishaps further injure his ego, causing him to lose his temper and walk out in anger.

Shrek encounters Rumpelstiltskin, who seizes his chance, having observed Shrek's angry outburst. He follows Shrek and arranges for him to appear to save his life. He gives Shrek a day to live like a real ogre, in exchange for a day from his childhood that he would not remember being erased to "thank" him.

Shrek signs the contract and appears in an alternate reality where the events starting from Fiona's rescue never happened. Now feared by the villagers, he takes the opportunity to cause some lighthearted mischief until he finds "WANTED" posters for Fiona and his home deserted and desolate. He is kidnapped by witches and taken to Rumpel, now the King of Far Far Away, which has become derelict.

Rumpel reveals that he erased the day that Shrek was born. Therefore, Shrek does not exist, and consequently the King and Queen signed their kingdom over to Rumpel, making them disappear. When the day ends, Shrek will disappear as well. Shrek escapes Rumpel's castle with Donkey. Initially terrified of Shrek, Donkey decides to trust him after seeing Shrek cry over his erased history, something he had never seen an ogre do before. Donkey helps him find a hidden exit clause: the contract can be nullified by "true love's kiss".

They soon encounter an army of ogres who are resisting Rumpel, led by a still-cursed Fiona, who keeps Puss in Boots as a lazy, overweight pet. Shrek does everything he can to gain Fiona's love, but she is cynical and disillusioned about the power of true love and is too busy preparing an ambush on Rumpel. While sparring with her, Fiona begins to take a liking to Shrek but stops short of kissing him. Puss encourages him to continue pursuing Fiona.

During the ambush, the ogres are captured by the Pied Piper, though Shrek and Fiona escape with the intervention of Puss and Donkey. Shrek insists Fiona kiss him, saying it will fix everything, but it does not work because Fiona does not truly love him. When he hears that Rumpel is offering a wish to the one who brings him Shrek, Shrek turns himself in and uses the wish to free the other ogres, who storm the castle, battle the witches, and capture Rumpel.

As the sun rises, Shrek begins to fade from existence, but Fiona, having fallen in love with him, kisses Shrek just before he disappears, restoring Shrek to his world just before he lashed out at the party. Shrek embraces his friends and family with a newfound appreciation for everything he has.

When we were done with all the movies we cheered wildly.

Me: Those movies always crack me up.

Kira: They sure were funny.

Lily: Shrek is so funny. And I noticed that Donkey sounds like Mushu.

Me: That's true. Eddie Murphy did voice them both and they do know how to make people laugh their heads off.

We laughed.

Lori: They are literally funny.

Me: But what really infuriated me was Fairy Godmother, Prince Charming and King Farquaad. They were the worst.

Lana: I hate that Fairy Godmother. She is a Xenophobe.

Lincoln: (To the viewers) Wow. For a 7-year-old girl, that's very impressive for her to know words like that.

Me: You got that right. And beyond a shadow of a doubt, she would support all of the things happening here in America. Let me see here.

I looked up the information of King Farquaad, Fairy Godmother, Prince Charming and Rumpelstiltskin.

---

King Farquaad.

Farquaad has banished all of the fairytale creatures from his land, forcing them to take refuge in Shrek's swamp. Back at his castle, Farquaad tortures the Gingerbread Man named Gingy into revealing the location of the other fairytale folk that he has been unable to capture or banish. Just as the Gingerbread Man is going to reveal what he knows, the captain of the guards arrives and announces that they have found the Magic Mirror. After disposing of the Gingerbread Man, Lord Farquaad asks the mirror if DuLoc is the perfect kingdom of them all. The Magic Mirror tells him that he is not truly a king as he isn't descended from royalty, but he can become one if he marries a princess.

In a parody of dating shows, the mirror introduces three different princesses for Farquaad to choose from: Cinderella, Snow White, and Princess Fiona. At his henchman Thelonious' suggestion, Farquaad chooses Princess Fiona, who is locked away in a castle tower guarded by a ferocious dragon. Despite the mirror's attempt to warn him about what happens at midnight, Lord Farquaad decides to plan a tournament to see which knight will be worthy enough to embark on a quest to retrieve Fiona.

However, Shrek, who had traveled from his swamp to DuLoc accompanied by Donkey to ask Farquaad to move the fairytale creatures off his swamp interrupts the tournament. Farquaad changes his mind and decides that whoever kills Shrek will be named champion. However, despite the knights best efforts, they are all defeated by Shrek and Donkey. Impressed by Shrek's actions, Farquaad awards the ogre with the quest he had set to his knights. Shrek remarks that he is already on a quest to get his swamp back. Farquaad makes a deal with Shrek that if he succeeds in the quest to rescue Princess Fiona, he will give the ogre his swamp back, fully restored to the way it was before the fairytale folk overran the place.

Shrek and Donkey successfully rescue Princess Fiona from the dragon and the trio journey onward to DuLoc. Shrek and Fiona start falling in love, but Shrek overhears Fiona talking about how no one could love a hideous beast and thinks she is referring to him.

The next morning, Shrek brings Lord Farquaad to Fiona, and Farquaad hands over the deed of the swamp to Shrek, telling him that it's cleared out as agreed. Farquaad immediately proposes marriage to Fiona, who agrees on the condition that they have the wedding before sunset. He takes Fiona back to his castle, while Shrek is heartbroken and returns to his swamp. However, Donkey then comes to Shrek and tells him that Fiona was not referring to him when she said that no one could love a hideous beast. So Shrek and Donkey go to crash the wedding, where Shrek admits his love for Fiona, Farquaad found it amusing and then tries to get Fiona to marry him, but then Fiona sees the sun setting and decides to reveal her spell.

Furious and disgusted over the change, Farquaad orders for Shrek to be executed, and Fiona looked back at the tower and he crowns himself king. However, Shrek then whistles for Dragoness, who destructively bursts in the window and devours Farquaad, and she belches his crown back out.

He also appear in Shrekkacular's Karaoke Swamp, where is seen in Dragoness' stomach with a match singing "Staying Alive" and is later digested sometime after or during the Shrek dance party.

Fairy Godmother.

Years before the events of Shrek 2, Princess Fiona's parents, King Harold and Queen Lillian ask the Fairy Godmother to help their cursed daughter Princess Fiona get rid of her curse. Fiona was cursed by a witch, causing her to turn into an ogre every night and return to human form at sunrise. The Fairy Godmother told them to lock her away in a dragon-guarded castle where she would be rescued by her son, Prince Charming, who was supposed to kiss Fiona and break her curse.

Years later, during the events of Shrek 2, the Fairy Godmother is first seen physically when Fiona goes to her bedroom balcony and cries, her tears supposedly calling to the Fairy Godmother. Arriving, the Fairy Godmother is blown away to learn that Fiona is still an ogre. When Shrek and Donkey enter, Fairy Godmother discovers that Shrek is Fiona's husband. To learn more, she picks up her son and goes to confront Fiona's father Harold, who reveals that Shrek had gone to the castle and freed Fiona first. The Fairy Godmother demands Harold find a way to get Shrek out of the picture and returns to her cottage.

Fairy Godmother is later seen again when Shrek, who had an fight with Fiona after Fairy Godmother left the Far Far Away castle, visits her cottage with Donkey and their new friend Puss-In-Boots, which to their surprise is actually a large factory where she manufactures spells and potions. They walk in on her while she's brewing a love potion singing her same song, which included "a drop of desire, a pinch of passion and just a hint of lust". When Fairy Godmother see Shrek, Donkey, and Puss, Shrek ask her to help him with Fiona. However, she spites him by saying that ogres don't live happily ever after. Before Shrek leaves, he steals one of her potions, the Happily Ever After potion to be specific, and causes a giant mess. After Fairy Godmother learns that Shrek stole the Happily Ever After potion, she realizes that she could use it to her advantage.

The following day, after Shrek (and Donkey) have drunken the potion and Shrek has become a handsome human, Donkey has become a horse and Fiona has become human again, Fairy Godmother and Charming go to the castle where Charming poses as a transformed Shrek while the Fairy Godmother prevents the real Shrek from finding Fiona and then makes him witness a "moment" between Charming and Fiona, making him believe she's fallen for Charming. She uses his grief to seemingly gently convince him to stop living in a fairytale, and that if he truly loves Fiona he'll let her go. The plan works but is blown when Shrek, Donkey and Puss see her, Charming, and Harold at the Poisoned Apple tavern.

When Charming complains that Fiona is not warming up to him, Harold wants to call the whole thing off, declaring that you can't force someone to fall in love. Undeterred, the Fairy Godmother gives Harold the philtre she was working on earlier and orders him to have Fiona drink some of it, saying it will make her fall in love with the first man she kisses, and to make sure it is Charming. At first, Harold refuses, but Fairy Godmother then blackmails him by reminding him that she helped him with his happily ever after and that she can take it away just as easily, making Harold give in. Then, when Charming calls her his mother, they hear Donkey shout, "Mother?!" and look outside to see him with Shrek and Puss, the three of them having heard the whole plan. Realizing the jig is up, the Fairy Godmother calls the trio "Thieves" and has them arrested and imprisoned while she and Charming attend a royal ball.

She then notices Fiona is not going for Charming (who's still under the impression he's Shrek) because of his behavior. She then declares to dedicate a song to Fiona and "Prince Shrek" and sings "Holding Out for a Hero," causing Fiona and Charming to dance. The plan almost works until Donkey, Puss, and the real Shrek arrive, having been rescued by Shrek's fairytale friends. They fight over her over the Fairy Godmother's wand. Fairy Godmother quickly orders her son to kiss Fiona, telling him she's already taken the potion, but when Charming kisses Fiona, she headbutts him, revealing Harold didn't give Fiona the philtre, after all. Charming manages to recover and then grabs his mother's wand out of Puss's paw and throws it to her. Enraged, the Fairy Godmother turns to Shrek and Fiona, exclaiming a final message directed at Shrek, "I told you ogres don't live happily ever after!" She then unleashes an energy bolt from her wand, as soon as the ray is about to hit Shrek. King Harold jumps in the way, and then the spell reflects off the armor he is wearing, and hits the Fairy Godmother. At first she seems unharmed, but as she prepares to attack again, she suddenly bursts into nothing but bubbles and sparkles, leaving only her glasses and her wand, which dims out along with her life.

Prince Charming.

Although Charming does not appear physically in the first Shrek movie, he was briefly mentioned by Shrek, in which Fiona reveals that she thought that she would be rescued by a Prince "Charming", probably told to her by her parents.

Prince Charming later makes his first appearance in Shrek 2, where he served as the secondary antagonist, being more of a comic relief, his mother the Fairy Godmother being the main antagonist.

He first appears traveling to the castle, where Princess Fiona had been imprisoned, only to discover that Shrek has already found her and married her, and that Big Bad Wolf (without any explanation how he got there in the first place) has taken to sleeping in her tower. When Charming asks Wolf where Fiona is, he tells him she's on her honeymoon. Charming, surprised, then asks whom.

Later Charming is seen with Fiona's father, King Harold, the king of a kingdom called Far Far Away and Fiona's Fairy Godmother It is revealed there that Charming is in fact the son of the Fairy Godmother, and with his mother's thorough support, he wants to marry Fiona so that he can become king and he is not happy that he, as his mother puts it, "Endured blistering winds and scorching deserts and climbed to the highest bloody room of the tallest bloody tower only to find a gender confused wolf telling him that his princess was already married.", and Fairy Godmother demands that Harold get rid of Shrek so she can be with Charming.

Later in the movie, after Shrek, Donkey and their new friend Puss-In-Boots steal Fairy Godmother's Happily Ever After potion and trash her factory, Charming enters, notices the mess and asks what happened, and she tells him Shrek was there. Charming then demands to know where Shrek is so he can kill him with a sword. However Fairy Godmother talks him out of him, stating he'll be king. After learning Shrek took the Happily Ever After potion, they use it to their advantage, and Charming arrives at the Far Far Away castle and tricks Fiona (who was now human again) into believing that he's Shrek. Charming greets Fiona and both her parents and convinces them he's Shrek. Harold recognizes Charming for who he really is but doesn't say so.

While Charming does this, his mother makes sure the real Shrek, who had been turned into a human by the Happily Ever After potion, doesn't reach Fiona. Later Shrek, Donkey (who drank the potion and became a horse) and Puss spy on Harold, Charming and Fairy Godmother at The Poison Apple. Harold tell them that Fiona is not warming up to Charming, to which he says it's not his fault, and that he can't woo Fiona, pretending to be a "dreadful ogre." Fairy Godmother then demands that Harold give Fiona a love potion that will make her fall in love with Charming if she kisses him. Harold refuses, but Fairy Godmother warns Harold she could take away his happy ending. After Charming calls Fairy Godmother 'Mother'. Donkey shouts "Mother?", causing them to see Donkey with Shrek and Puss and realize they have been listening the whole time and having them arrested and imprisoned.

Later, Charming tried to woo Fiona, even though she was disgusted with him. Fairy Godmother sings "Holding Out for A Hero" to which Charming and Fiona dance to. Right when Charming is about to kiss Fiona, the real Shrek arrives with Donkey, Puss and their fairytale friends (who had rescued the trio). They then take away Fairy Godmother's wand. The Fairy Godmother orders Charming to kiss Fiona and he does so, and she appears to have fallen in love with him, but then she suddenly puts her two hands on his cheeks and does a Karate shout and head-butts him, knocking him out, as Harold didn't give Fiona the philtre. Prince Charming then recovers, grabs his mother's wand from Puss, and tosses it to her. Fairy Godmother catches her wand and aims it at Shrek but Harold blocks it. The ray reflects off his armor and hits the Fairy Godmother, turning into a burst of bubbles.

Afterwards, Charming is forced into dancing with Doris.

Charming later appears in Far Far Away Idol, the short film on the original Shrek 2 DVD. He sings I'm Too Sexy, but Shrek and Fiona push a remote to activate a trapdoor beneath Charming's feet.

Charming later returns in Shrek the Third, this time as the main antagonist, having a fairly major role. He is first seen in a theater, playing himself due to his name. However, despite being the hero in his own play (which appears to be a spoof on the classic fairytale, Rapunzel), the audience cheers when the "Shrek" mascot comes onstage, along with Shrek's friends, who are there watching the show. Finally (in a version of a Buster Keaton gag), a prop tower falls on Charming, but he escapes injury as the window passes around him. Charming leaves the theater upset and goes to his "dressing room" (in reality, the back alley behind the bar) and starts sobbing at his misfortune. There, Charming vows to his mother (whom he has a picture of) that he will become the king of Far Far Away and kill Shrek to avenge her death.

Later, after seeing King Harold's funeral, Prince Charming goes to The Poison Apple and organizes an army of villains - Captain Hook, Stromboli, Headless Horseman, Evil Trees and Witches - all upset that they haven't gotten their "Happily Ever After" and encourages them to help him in his plans of revenge.

While Shrek, Donkey, and Puss are in search of the heir to the kingdom, Fiona's cousin Artie, Charming and his new friends attack the castle. When Charming sees Wolf, Gingy, Pinocchio, and The Three Little Pigs, he demands to know where Shrek is. They deny knowing anything, then Charming orders them to cooperate with him, because he will be the new king of Far Far Away. Gingy states the only thing he'll be king of is King of 'Stupid'. Then Captain Hook demands Gingy tell him where Shrek has gone, and Gingy goes into a dream. Charming then asks Pinocchio about Shrek's whereabouts, knowing he can't lie. So Pinocchio told Charming a twisted up version of the truth while trying not to tell the truth but trying not to lie at the same time, something that confused everyone. One pig couldn't take it any longer and told Charming that Shrek was out bringing back the new heir. Charming then orders Hook to kill the new heir and bring Shrek back alive so he can kill him himself.

Later Charming is seen again with his new girlfriend Rapunzel who brings Fiona and her princess friends to Charming who has them imprisoned.

After Shrek, Donkey and Puss return to Far Far Away with Artie (thanks to Merlin), Charming is seen getting ready for a show where he plans to kill Shrek in front of the whole kingdom, when Shrek confronts him in the dressing room and demands to know where Fiona is. Charming then summons his soldiers to come capture Shrek, Donkey, Puss and Artie. Charming prepares to kill Arthur when Shrek tells him to spare Artie, stating that he is the one Harold wanted to be king first and Artie is just a pawn. Charming spares Artie but has Shrek restrained with chains and Donkey and Puss (who had switched bodies) imprisoned with Fiona.

Charming then begins the plan and soon places Shrek in the play, now being performed in an auditorium before the entire kingdom. After being brought on stage, Shrek begins to ruin it for Charming by insulting him, making everyone laugh. As Charming is about to kill Shrek onstage with a sword, Fiona and the others burst in, getting ready to fight the villains. However, the villains overpower the heroes when suddenly Artie arrives and convinces the villains to give up their evil ways, and they do so.

However, Charming refuses to listen, and prepares to kill Artie, when suddenly Shrek breaks free of his chains and Charming stabs him instead, but (as Shrek reveals to the others) Shrek is completely unharmed; Charming (with his bad aim) merely stuck the sword between Shrek's arm and side. Shrek then picks up Charming and Charming says "This was supposed to be MY happily ever after!" and Shrek says "I guess you need to keep looking, because I'm not giving up mine!" and then tosses him before Dragon, who tips over the stone tower with her tail, which falls on Charming right after he says "Mommy?", defeating him. The crown then goes rolling and Artie puts his foot on it.

It is debated whether or not he survived the ordeal, as some say the empty window of the stone tower landed on him in a similar style to the cardboard tower at the beginning of the film.

Rumpelstiltskin.

Rumpelstilskin become a deal maker thanks to the recommendation of Re Mida and adopted a pet goose named Fifi who Rumpel always love. Since the beginning he was known for being evil, cruel and manipulative.

Rumpel debuted in Shrek The Third as a villain that Prince Charming recruits.

Rumpel returned in Shrek Forever After, where he is the main antagonist and the owner of a giant goose named Fifi. In the opening scene of the film set during the events of the first film, he is about to get the King and Queen sign away the kingdom of Far Far Away to him to free Princess Fiona (despite their deal with Prince Charming and Fairy Godmother), but at the last minute they are informed that she has already been saved by Shrek (in accordance with his and Donkey's own deal with Lord Farquaad). Because of this, Rumpelstiltskin hates and envies Shrek and wishes he was never born.

Later, after the events of the first three films, Rumpel discovered Shrek is feeling frustrated that he is no longer feared as an ogre during his kids' birthday party. Rumpel later gives Shrek a ride in his carriage and then tricks him into signing a paper that will let him be a real ogre like he used to be for a day in exchange for one other day from his past being erased, specifically a day he doesn't remember. However, the day in question was actually the day Shrek was born, meaning he never existed and Rumpelstiltskin became the ruler of Far Far Away and terrorizes the people with an army of witches that hunt ogres. He has also enslaved some of Shrek's friends. When Shrek is brought to the castle, he demands that Rumpel explain what he has done. Rumpel makes Shrek realize that he tricked him into erasing his own existence before then revealing that when the 24 hours of the day are up, the results of the deal will become permanent and Shrek will fade into nonexistence forever. Rumpel got his witches to attack Shrek, but the ogre managed to escape the castle with Donkey, who is one of Rumpel's slaves.

Later Shrek and Donkey learn that the contract will become void and Shrek will be saved if he and Fiona kiss before it is too late and later find Fiona with an ogre resistance, Rumpel tells his witches that they must bring Shrek back soon he can't get his life back. He hires the Pied Piper to bring Shrek back to the castle with the other ogres. After Piper tells Rumpel that he failed to bring Shrek back, but captured all the other ogres, As a last resort, Rumple offers a new deal, the "Deal of a Lifetime" as he calls it to whoever turns Shrek in.

After a warrior Gingy tells Shrek about this, Shrek turns himself in to get this deal, and in return, Shrek has Rumple free all the other ogres. Rumple then has Shrek locked in a dungeon. Shrek is surprised to see Fiona locked up there too, however Rumpel explains that Fiona is a princess by day, and therefore not completely an ogre. It is revealed that Rumpel will have Shrek and Fiona fed to Dragon (whom has never met Shrek and is now a villain like in the original film), but Donkey, a fat Puss In Boots, and the ogres arrive and fight Rumpelstiltskin and his witches, Rumple tries to escape on Fifi but Shrek and Fiona, having defeated Dragon, pull her down and defeat Rumple. By this time, the 24 hours are up and

Shrek is starting to disappear. Fiona (who now loves Shrek) kisses him before he vanishes completely into oblivion. Thus, Rumpelstiltskin's world falls apart and Rumple is left to float on the yellow void that torns his world apart likely to his death. However, thanks to Fiona's kiss of true love to Shrek, everything is restored to normal, including both Shrek and Rumpel, who are alive once more.

Rumple is last seen being held prisoner at the aftermath party before the credits, and Fiona kills Fifi by making her explode by singing a high note (similar to the blue bird scene in the first Shrek film). Rumpelstiltskin is also being tormented by the Pied Piper, being forced to dance in his cage.

---

I was appalled.

Me: Wow! These guys are all monsters!

Laney: They are not worthy of being all of the Fairy Tales we all know and love.

Lana: I know. If the ones we know saw them they would have a field day.

Me: They would. Now it's time for us to make their names right by turning these abominations into mud. Lets go to Shrek's world and destroy them.

Everyone: YEAH!

We went to the simulator.

---

We got ready for an awesome adventure in the Simulator. The Simulator Activated and we were in the world of Shrek!

Me: Wow! We're in Shrek's swamp.

Lincoln: In the land of Far, Far Away.

We turned and we saw a house.

Me: It's a house.

We went in.

Me: Hello?

Lana: Anyone home?

Eddy: This house looks pretty comfy. (sits on a sofa)

Astrotrain: Eddy, if the owner of the house is who I think it is, I don't think he'll appreciate you getting comfy in here.

Eddy: Relax, Astrotrain. What's the worse a little nap on this sofa could cause?

Astrotrain: Alright. Don't say I didn't warn you.

Kevin (Ed, Edd N Eddy): We'll be around the area looking for any Pokemon for Nico to catch. We'll check back with you in an hour. (he and Astrotrain leave)

Nico went and caught a Malamar and a Barbaracle.

?: Wake up!

Eddy woke up to see Shrek glaring down at him.

Eddy: Whoa! Oh, it's just you.

Shrek: You wanna tell me what you're doing in my house?

Eddy: I can explain!

Shrek: Yeah, I'm sure you can. Start talking or you're in for a smacked bottom!

Four Arms: (enters the house) Is there a problem here?

We saw Shrek.

Me: Wow! Shrek!

Shrek: Team Loud Phoenix Storm! It's such an honor to meet all of you. (Points to Eddy) Is he with you?

Me: Yes he is. It's a pleasure to meet you Shrek.

Shrek: You too J.D. I've heard so much about you all.

Nico: Thanks Shrek.

Astrotrain: We're sorry that we came here on such short notice Shrek. But we're here to kill King Farquaad, Fairy Godmother, Prince Charming and Rumpelstiltskin.

Shrek: I'm glad. Those monsters are making everyones lives miserable.

Lola: Looks like we got here just in time.

Nico: (to Shrek) You know, I figured out why you're like onions. You might look rough and nasty on the outside. But on the inside, you have a kind heart. The only reason you're ever mean is because of the fear and hatred some people show towards you.

Shrek: (smiles) Aww, I'm glad you think that.

Springer: A lot of our friends are victims of prejudice just like you are.

Shrek: Really?

Me: Yeah. My brother Naruto knows what that is like.

Naruto: It's true.

Most of us revealed our history. Fiona came in and so did Donkey. When we finished they were horrified.

Shrek: Wow! You all have been through a lot!

Fiona: No kidding. I'm so sorry guys.

Maria: It's all right.

Donkey: Wow. You all have been through a lot over the last three years.

Me: And then some.

Tanya: But I'm glad to have awesome friends and more.

Qin: Yep.

Kira: I'm glad too.

Me: Shrek, Fiona, how would you like to have the ability to change into your ogre forms at will?

Shrek: I would like that.

Fiona: Me too.

Me: Okay. But just so you know, it's gonna hurt a bit.

Fiona: I'm ready.

Shrek: Same here.

Me: Okay then.

I snapped my fingers and they were in a tiny bit of pain and Shrek grew black hair and his ears turned into human ears and his skin turned from green to human skin and his hands had 5 fingers each. Same with Fiona. Except she had her hair to begin with and her ears and skin reverted back and she has the her human form back.

Me: How do you guys feel?

Fiona: I feel amazing!

Shrek: This is amazing!

Donkey: Change me next! I wanna be a horse again!

Maria: (laughs) Sorry, Donkey. But you're fine the way you are.

Me: Now wait. I like Donkey as either a horse or a Donkey. So I'll give him the power to turn into a horse at will.

I snapped my fingers and Donkey turned into a horse!

Donkey: YEAH! I love being a horse!

Fiona: Well, let's go show the others at Far Far Away the new us! (takes one step and her clothes fall to the ground) Um…

Mindwipe: Maybe we should get you some fitting clothes first.

Me: Good idea.

Maria: Luckily me and Teresa came prepared.

We did so and got to work on Shrek and Fiona's outfits.

They looked like normal human clothes for them.

Fiona: Wow! Much better.

Shrek: I feel amazing. Thank you all.

Me: No problem Shrek. Time to round up the citizens and fairy tales together. We're going to show Fairy Godmother and those monsters what happens when you mess with us.

Everyone: YEAH!

We rounded everyone up and formed a powerful rebellion. We got everyone ready for the attack.

Lucy Loud: Everyone is ready big brother.

Me: Great. We attack at dawn.

At dawn the following morning we were marching towards the kingdom of Far Far Away. We had all kinds of weapons ready. As sunrise broke we saw the kingdom being invaded by Heartless!

Puss in Boots: (sees Heartless all over Far Far Away) (Spanish Accent) Oh, not this again!

Naruto: Wait. Far Far Away's been invaded before?

Puss in Boots: Si.

My dark orb detector went off.

Me: There's a dark orb here.

Lynn: Boy it's like every time we go to a world from the movies, we run into Heartless all the time.

Me: And with over 47,000 galaxies to cover, it just keeps getting challenging for us.

Varie: Yep.

Me: Lets go.

Bella: Here we go guys.

Dino Thunder Rangers: DINO THUNDER! POWER UP! HA!

Connor, Ethan, Tommy, Trent and Kira turned into the Dino Thunder Power Rangers!

Connor: TYRANNO POWER!

Ethan: TRICERA POWER!

Kira: PTERA POWER!

Trent: DRAGO POWER!

Tommy Oliver: BRACHIO POWER!

Me: Wow! Just like on TV.

Kira: Yep.

We were walking to the castle.

We saw Fairy Godmother and her army of Heartless and we saw Prince Charming, Rumpelstiltskin and King Farquaad ready. They were 50 feet ahead of us.

Me: So we meet at last Fairy Godmother.

Fairy Godmother: Team Loud Phoenix Storm. Why are you here?

Me: What else? To kill you all for persecuting Shrek and his family and all the fairy tales.

Naruto: You guys are rotting pieces of garbage!

Me: More like fucking lunatics!

Fairy Godmother: We're not the monsters. The ogre and his family is. And all of you are no better for defending them!

William: You're wrong! He might look mean but he's a nice guy deep down. He's only mean sometimes because of the prejudice people like you 4 subject him to!

Me: That's right! You 4 are nothing more than a bunch of Xenophobic Bigots that don't care about anyone other than yourselves. Now it's time for all of you to die!

Fairy Godmother: NO ONE TALKS THAT WAY TO ME! CHAAARRRGGGEEEEEE!

ME: CHAAAAAAARRRRRRGGGGEEEEEEEEE!

We charged and the battle that will decide the fate of Far Far Away was on!

---

Battle 1: King Farquaad!

---

Naruto punched King Farquaad in the face and he went into 6-Paths Sage Mode and punched him in the stomach with devastating force.

Naruto: You are about to be dethroned you tyrant!

King Farquaad: No one talks that way to me! I am a king!

Naruto: Well I am the son of the 4th Hokage! I'm also the brother of J.D. and his family and a member of the most powerful force in the universe!

Lola fired a massive blast of fire and burned him. Puss in Boots slashed Farquaad's face with his sword and carved the letter P into his forehead.

Puss in Boots: To let the devil know that we sent you.

Naruto formed a baseball bat with Wood Style chakra and slammed it into his crotch and Farquaad squealed like a little girl.

SICKENING CRUNCH!

(Home Alone 3 Reference.)

Connor whacked him all over with his Tyranno Staff and bashed him all over.

Naruto kicked him in the face and he formed a Rasenshuriken made with Lava Style Chakra.

Naruto: Give my regards to King Tut, Motherfucker! Time for my Final Smash. (Echoing) **SAGE ART: LAVA STYLE RASENSHURIKEN!**

Naruto formed a Rasenshuriken with Lava Style chakra and threw it and it slammed into Farquaad and completely burned him all over in an instant in a massive explosion of volcanic lava.

Naruto: Merry Christmas you fucking filthy animal. And a happy new year Motherfucker.

Lola: Nice shot Naruto.

Naruto: Thanks Lola.

Connor McKnight: Time for you to die freak. Tyranno Zord!

The Tyranno Zord ate him in one bite and belched.

BELCH!

Connor McKnight: Scuse you.

Battle 2: Fifi, Rumpelstiltskin's Magical Goose.

---

Fifi fired golden eggs at Lana and she caught them.

Lana: You know Fifi, with Golden Eggs like these you could make anyone filthy rich.

Zoe: You got that right Lana. They are worth as much as 400 ounces of gold in gold bricks.

Lana: Wow!

The Goose fired more golden eggs and Zoe and Lana caught them. Puss in Boots came and slashed the goose.

Trent: Lets see you survive this!

Trent slashed the goose with his Drago Saber.

Zoe: You are not fit to represent the Goose that Laid the Golden Egg!

Puss In Boots: I agree senorita. Bare witness to my final smash! PUSS IN BOATS ZORRO STRIKE!

Puss In Boots did the old puppy dog eyes on the goose and then he slashed the gooses head off and Zoe fired a powerful blast of fire and cooked it.

Lana: I'll eat it.

Lana ate the goose and she belched.

BBBBUUUUURRRRRRPPPPP!

Zoe: Excuse you Lana.

Lana: Sorry.

Then Lana felt a big pain in her butt and she laid a golden egg in her dungarees. She pulled it out and was amazed and shocked.

Lana: Oh that is cool!

Luan: That's one way to Lay an Egg. (Laughs to rimshot) Get it?

Lana laughed at Luan's Joke.

Lana: (Laughs) That was a good one big sis!

## Battle 3: Prince Charming.

---

I clashed my sword with Prince Charming's sword.

Me: You are nothing more than a chauvinistic son of a fucking bitch, Charming!

Prince Charming: You have no right to say that to me! Fiona is my wife!

Me: Over my dead body she will be!

We clashed our swords and sparks came flying out with each clash.

Ethan: (blocks Charming's sword with his Tricera Shield) I forgot how fun this was!

Charming: You're gonna wish you stayed in retirement, Blue Ranger!

Me: Go fuck yourself Charming!

Prince Charming: Once I'm done with you I shall rend that ogre's head from his shoulders. I will smite him where he stands. He will rue the VERY DAY HE STOLE MY KINGDOM FROM ME!

Me: Like hell you will! You brought all that on yourself!

We continued clashing and the sparks from our attacks were setting the whole land on fire. The fight was turning the entire kingdom of Far Far Away into a raging epic conflagration!

Prince Charming: I'd rather eat Zombie Poop than have Fiona be with that monster!

Me: That can be arranged you fucklips.

I slashed his sword and broke it into a million pieces.

Donkey: This is for ruining our lives! Final Smash time! FLAMING NIGHTMARE STAMPEDE!

Donkey ran fast and turned into a massive stampede of nightmare horses and they burned and trampled him all over the place in a massive roar of fire.

Me: That's one way to get dragged down to hell.

Ethan: You got that right J.D.

Donkey: That was so cool doing a Final Smash!

Me: Great job Donkey!

Donkey: Thanks J.D.

Ethan cut a building down with his Tricera Shield and it came down.

Me: TIMMM (CRASHES ONTO CHARMING) Ber.

The building killed him instantly.

---

Battle 4: Rumpelstiltskin.

Nico punched Rumpelstiltskin in the face with a powerful punch.

Rumpelstiltskin: Ow! You are strong for a human!

Nico: I'm more than just a human. I'm a Saiyan.

Rumpelstiltskin: What the hell is a Saiyan?

Nico: Brace yourself freak!

Nico went Super Saiyan and he grabbed him and slammed him into the ground twice and sent him skidding and he jumped and twisted and elbowed him Nico slammed him into the ground by his head and he grabbed his legs and spun him around in a deadly spin and he threw him far and Nico punched him into a rock with devastating force.

Rumpelstiltskin got up.

Nico: Try this on for size!

Nico used Beast Man's telepathic powers and he called forth an Eternian Sandworm and it growled and roared at Rumpelstiltskin and slammed him into the ground even more and then he used Tri-Klops powers and fired a powerful laser blast from his forehead and it slammed into Rumpelstiltskin and exploded.

KRABBBOOOOOOOOOOOOOOOOOMMMMMM!

Tommy Oliver fought him and pulverized him with his Brachio Staff and fired a massive blast of fire at him and burned him.

Fiona: This is for my family you monster! FIONA MONSTERSLAP SURPRISE!

Fiona slapped Rumpelstiltskin all over the place with devastating force and knocked him out.

Nico grabbed him and picked him up.

Nico: You need a nice long stay in the Null Void.

Four Arms: Coming at ya Nico.

Four Arms fired the Null Void gun and opened a portal into the Null Void. Nico threw him into the Null Void.

Nico: Good riddance.

Tommy Oliver: You said it Nico.

Nico: Yep.

Fiona: That was so cool Nico.

Nico: Thanks Fiona.

## Battle 5: Fairy Godmother.

Bella faced the Fairy Godmother.

Bella: You will never terrorize the world of Far Far Away again Fairy Godmother!

Bella activated her Ultimate Bella form!

Bella: NRG!

Bella fired a powerful blast of Nuclear Radiation and it hit Fairy Godmother and burned her.

Tanya: Wow! That was so cool Bella!

Bella: Thanks. That was the power of a Prypiatosian-B. They are nuclear energy creatures from the Andromeda Galaxy.

Tanya: Deadly. Lets use crystals on her.

Bella: You got it Tanya! (Activate's Diamondhead's powers)

DIAMONDHEAD!

Tanya and Bella grew massive clusters of green and blue crystals in seconds and they pinned down the Fairy Godmother.

Tanya flew and grabbed her magic wand.

Tanya: You know I could use this for myself.

Bella: Just be careful with that Tanya.

Tanya: I know.

Kira: Watch this guys.

Kira pulled out her Ptera Daggers and slashed off her wings and cut her face.

Bella: Try this on for size! GRAVATTACK!

Bella used the power of a Gallileon and she lifted up a bunch of castle blocks and slammed them into Fairy Godmother with devastating force.

Me: Wow! Now lets finish this monster with some team work!

Four Arms: You got it! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right first arm and it enhanced his strength 100-fold.

Springer: Lets do it! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his laser wind tunnel blaster and helicopter blade light sabers 100-fold.

Four Arms and Springer: SUPERSLAM WIND CYCLONE!

Four Arms slammed the ground with his enhanced strength and Springer fired a massive blast of wind and they formed into a tornado and blew the Fairy Godmother around.

Astrotrain: This is gonna be awesome! CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his back and it enhanced his ionic displacer rifle 1000-fold.

Mindwipe: Lets see how you like a hypnotic glare! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his paralysis liquid 100-fold.

Astrotrain and Mindwipe: ION DISINTEGRATOR DISSOLVER!

Mindwipe fired his paralysis liquid and Astrotrain fired a massive ion blast and they combined and burned off her arms.

Me: Now to finish you for good Fairy Godmother!

Shrek: You got it J.D.! SUPER FART FLAMETHROWER!

Shrek fired a massive fart and it ignited into a massive firestorm and incinerated her. But she wasn't beaten yet.

Ethan used his Tricera shield to cut a building down and it crashed onto her.

KRACRASH!

Me: That must've hurt!

Nico: No kidding!

Fairy Godmother arose from the rubble and she was enraged.

Fairy Godmother: You all will die!

Fairy Godmother fired a blast of magic and Kira used her Ptera Grips to deflect the blast back and it hit the Fairy Godmother and obliterated her. All that was left of her was her clothes, and her crown.

Me: Wow. Hit by her own attack.

Nico: The most humiliating form of defeat is being killed by your own attack.

We killed all the Heartless and got a massive power boost as a result.

Me: That's that.

Everyone cheered in victory.

But then the spirits of Fairy Godmother, Prince Charming and Farquaad appeared.

Farquaad: You will pay for this Ogre!

Shrek: (to the spirits of Charming, Godmother, and Farquard) After you three are sealed, I hope I never have nightmares about you three as zombies!

Natilee: Remind me to look into those dreams sometime.

Nico: Farquaad, Fairy Godmother and Prince Charming, you three have failed this kingdom and this world!

Nicole: And the Book of Vile Darkness is for Farquaad and Prince Charming. Fairy Godmother is reserved for a much better place! (Chants an incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

Farquaad and Prince Charming went into the Book of Vile Darkness and Fairy Godmother was sucked into the portal that lead into the River of Fire!

Fairy Godmother: DAMN YOU ALL!

Fairy Godmother was gone for good.

Me: That's it for them. It's over.

We cheered in victory.

Shrek: Thank you all so much J.D.

Me: Think nothing of it Shrek. You were awesome though.

Shrek: Same to all of you.

Me: If you ever need us, we will always be there to answer your call.

Laney: And I found the source of the Heartless.

Laney had a Dark Orb the size of a basketball in her hands.

Me: There's the dark orb. Great Job Laney.

Laney: Thanks J.D.

I crushed the Dark Orb and we got an incredible power boost.

Shrek: Wow! That was intense!

Me: That's what happens when we get stronger from Negative Energy.

Lori: Yep.

Shrek: (To the Viewers) All fairy tales will be safe as long as Team Loud Phoenix Storm is protecting all of us.

Me: They sure will be safe.

We added the world of Shrek to the orbit of the Realm of Departure.

* * *

In the middle of the city the following morning, I was in a tug of war competition against the Power Card. 力 Power's visible form is a tiny, pink, little elfin girl in a sleeveless, pink dress with baggy pants. She has pink hair tied in two high buns in the back with long ribbons ending in ball ornaments, red eyes, two large, studded bracelets on her wrists, a red choker on her neck, a yellow gem on her dress, three pink gems on her forehead and pink, ball earrings. She may look harmless on the outside, but she's a strong and devastating powerhouse with the strength of 10,000 men. She chased after me and left a huge number of huge potholes in the street just by jumping. Power Card also likes to show off and likes challenges.

Me: Lets see what you got Power.

The contest began and I was pulling hard and Power's strength was incredible. It was like I was pulling on a tug of war with an entire army as big as a whole planet!

Me: (GRUNTS IN EFFORT!) (STRAINING)

Power was really strong!

Sakura Avalon: You can do it J.D.!

Me: It's like I'm competing against an entire army!

But then I summoned every ounce of my strength and pulled hard and I yanked the rope out of Power's hands!

Sakura Avalon: J.D.! You did it!

Me: I sure did! Now then. RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and sucked in the Power Card. It was a Clow Card again.

Me: Yes.

Kero: Well done J.D.!

Me: Thanks Kero. Power is definitely another worthy adversary like the Fight Card.

Kero: The Power Card is also the sister card to the Fight Card.

Me: Wow. It took every ounce of my strength without transforming to win.

Sakura Avalon: You are a strong man J.D. But when I faced the Power Card it was in Tug of War and I had to have an elephant from the Zoo help me.

Me: Wow. Deja Vu huh?

Sakura Avalon: Yep.

We later went to the store and got some cake for Kero and went back home.

THE END

Another Fanfiction complete and another series of villains destroyed.

Shrek was one of the funniest and most popular franchises ever known. Mike Myers, Eddie Murphy, Cameron Diaz, Antonio Banderas and a bunch of awesome stars were in that movie series and they all did an awesome job over the course of 9 years. NicoChan11 gave me the ideas for this one. Thanks man. The next card is the Snow Card. Get ready for an early cold spell. Let me know what you all think.

See you all next time

# A Powerful 20,000 Year Spice

In Far Far Away, Shrek was having a bad nightmare. He was dreaming that he was seeing Fairy Godmother, Prince Charming, Rumpelstiltskin and Farquaad dancing to Michael Jackson's Thriller as zombies.

Natilee: Shrek, Shrek! Wake up!

Shrek woke up.

Shrek: Natilee?

Natilee: Are you all right Shrek?

Shrek: Yeah.

Natilee: Were you seeing a different version of Michael Jackson's Thriller?

Shrek: I was.

Natilee: As I thought.

Shrek: So, did you see the zombies in my nightmare?

Natilee: Yep. I think this was caused by you having some bad food.

Shrek: I know.

Natilee: It's gonna take a while for you to get used to being Human.

Shrek: I know. But I'm glad J.D. helped us all.

Natilee: My dad has a way of helping people.

Later, Me, Ash, Serena, Nico, Xerneas, May, Grapple, Clawful, Lincoln, Spyro, Laney and Chill were on our Rapidash and we were also flying and in our hover carriage. We were over in Montana.

Me: It sure is a beautiful day.

May: It sure is.

We then arrived in Gringy City.

Me: What is this place?

Ash: I remember this place. It's Gringy City.

Me: It's located in Montana.

Nico: What were you all here for Ash?

Ash: We were here to help the town get its power back on after a bunch of Grimer and Muk clogged the water intake that turns the Hydroelectric generator.

May: Wow.

Serena: That must've been a harrowing adventure.

Me: Sounds like it.

Lincoln: This place gives me the creeps.

Xerneas: It sure does.

Chill: (Russian Accent) It sure does look scary here comrades.

Spyro: I would not want to come here for a vacation.

Grapple: Me neither.

Clawful: Yeah.

Suddenly we smelled a really foul odor in the air.

Me: (Sniffs) Oh yuck! Nico!

Nico: What it wasn't me!

Xerneas: Wait. I know this smell. It's the smell of sludge and that means that Grimer and Muk are here.

Ash: The Grimer and Muk we encountered.

Pikachu: Pika!

Then a bunch of Grimer and Muk appeared.

Xerneas: There they are!

Me: Ash you caught a Muk here right?

Ash: I sure did.

Nico: And I have a Muk and Alolan Muk.

Me: I don't have a Muk. But Lana would love these Pokemon.

Xerneas: She will.

Me: Okay. Here goes!

I fired a powerful blast of lightning and electrocuted them all.

Me and Nico threw pokeballs and I caught 2 Muk and me and Ash caught a Grimer each.

Me: Yeah!

But then I smelled the smell of the Muk and Grimer coming through the pokeball.

Me: Oh yuck!

Then I got sick to my stomach and hurled my guts out because of the smell!

Me: (PROJECTILE VOMITING!) OH YUCK!

Then we got a surprise visit from a friend of Pikachu. We saw a Magnemite.

Me: Huh? A Magnemite.

Ash: I remember this one.

Me: You already have a Magnemite, Ash.

I used my powers to make the pokeballs not have the smell come through them.

Me: There. I already have a Magnemite, Magneton and Magnezone.

May: I don't.

May caught the Magnemite.

Then we felt big stomping.

Me: Wow!

Nico: What is that!?

Laney: It's big stomping.

Then out of the nearby alleyway came two figures. We saw that they were a Nidoking and a Nidoqueen.

Me: Whoa! A Nidoqueen and Nidoking!

Nico: What are they doing here?

Nidoking: (In a girls voice) What else? We were looking for you.

Me: Wait a second. Nidoking is a male pokemon and it doesn't talk like that.

Nidoqueen: We know.

May: Wait a second. I know those voices. Alex, Dani, is that you girls?

Nidoqueen: It sure is May. It's great to see you again.

Spyro: You two were gene-slammed into Pokemon.

Me: Team Rocket did this.

Nico: Those fucksucks.

Nidoking: I'm sorry. I'm Alexandra Kemphur.

Nidoqueen: And I'm her twin sister Danielle.

Me: It's a pleasure to meet you both.

Clawful (to Alexandra): How does it feel to be a male Pokemon?

Nidoking: It feels weird.

Nico: What were you both doing before you changed?

Nidoking: We were having a match in the forest against two rivals.

---

Nidoking: (Narrating) Me and Dani were facing two rival trainers and we were about to call our pokemon when suddenly we felt something bite us. Then I started to feel strange and I was in excruciating pain. I then felt myself change.

Alex: WHAT THE FUCK IS HAPPENING TO ME!?

I lost all my woman features and I turned into a boy. Then I started to change and I became a Nidoking.

Nidoqueen: (Narrating) I turned into a Nidoqueen.

Dani: WHAT'S WRONG WITH ME!?

FLASHBACK ENDS

Laney: Those monsters on Team Rocket stole your humanity.

Me: I can help you change back to normal and give you the power to change at will.

Nidoqueen: Really?

Me: Yep. But this is gonna hurt a lot.

Nidoking: If it will give us our humanity back.

Me: Okay then.

I snapped my fingers and we covered our eyes and looked away. They were reverting back. They turned back to human form. Alex had purple hair and she had blue eyes and Dani had blue hair and brown eyes.

They got up and they saw that they were naked.

Danielle: (covers her boobs) Can you boys please look away?!

Spyro: What do you think I'm doing?!

Me: We have our eyes covered.

Alexandra: (ecstatic) I don't even care that I'm naked! I'm just happy to be a girl again!

Xerneas walked over and made a robe out of leaves and put them on them.

Xerneas: You guys can look now.

We uncovered our eyes.

Me: Lets get you two back to the estate and get you some new clothes.

Alex: We would like that.

May: Hey guys.

May hugged them.

Dani: It's great to be back with you May.

Alex: Same here.

Grapple: It's fascinating. When you first transformed, you were no longer female.

Alexandra: I'm still thinking boy thoughts. I need to readjust my mind so I think girl thoughts again.

Me: That's gonna take some time. But Lola and Laney can help you with that.

Long Haul: Hey, Danielle. Whenever you go Nidoqueen, do you think of yourself as royalty?

Dani: (Laughs) Yes I do. But I don't let it go to my head.

Me: It doesn't work that way though. Lets get you guys back to the estate.

We went back home.

* * *

We got back to the estate and Maria and Teresa gave Alex and Dani new clothes.

Dani had a purple T-shirt with a Nidoking on it, a purple plaid skirt with purple leggings and shoes and a sleeveless trench coat with purple fire on it and the kanji for Purple Heart of Justice. パープルハートオブジャスティス

Alex had a blue t-shirt with a Nidoqueen on it and she had a blue fire skirt with blue leggings and shoes and a sleeveless trench coat with blue fire on it and the kanji for the Blue Gem of Purity. 純度の青い宝石

Alex: Wow! I look amazing!

Dani: Me too.

Teresa: It's the great fashion trend we have here.

Maria: Yep.

Later we were watching an awesome movie from 1984 called Dune.

In the distant future in the year 10,191, the known universe is ruled by Padishah Emperor Shaddam IV. The most important substance in the empire is the drug known as melange or "the spice", which can extend life and expand consciousness. The most profitable and important of its properties is its ability to assist the Spacing Guild with folding space, which allows safe, instantaneous interstellar travel. The Guild fears a conspiracy that could jeopardize spice production and sends an emissary to demand an explanation from the Emperor, who confidentially shares his plans to destroy House Atreides. The popularity of Duke Leto Atreides has grown through the empire, and he is suspected to be amassing a secret army, which Emperor Shaddam sees as a potential threat to his rule. Shaddam's plan is to give House Atreides control of the planet Arrakis (also known as Dune), the only source of spice. Once they are installed on Arrakis, he intends to have them ambushed by their longtime archenemies, the Harkonnens, with assistance from the Emperor's elite troops, the Sardaukar. The Guild Navigator commands the Emperor to kill Duke Leto's son, Paul Atreides, a young man who dreams prophetic visions of his purpose. The execution order draws the attention of the Bene Gesserit sisterhood, as Paul is tied to their centuries-long breeding program to produce a superbeing, the Kwisatz Haderach. Before Paul leaves for Arrakis, he is tested by the Bene Gesserit Reverend Mother Mohiam by being forced to place his hand in a box which induces excruciating pain. To Mohiam's surprise and eventual satisfaction, he passes the test.

Meanwhile, on the industrial world of Giedi Prime, the sadistic Baron Vladimir Harkonnen tells his nephews Glossu Rabban and Feyd-Rautha about his plan to eliminate the Atreides by manipulating someone in House Atreides into betraying the Duke. The Atreides leave their homeworld Caladan for Arrakis, a barren desert planet populated by gigantic sandworms. The native people of Arrakis are called the Fremen, a mysterious people who have long held a prophecy that a messiah will lead them to freedom. Upon arrival on Arrakis, Duke Leto is informed by one of his right-hand men, Duncan Idaho, that the Fremen have been underestimated. There are in fact large numbers of them and they could prove to be powerful allies.

Duke Leto begins to gain the trust of the Fremen, but before an alliance can be established, the Harkonnens launch their attack. The Harkonnens' traitor within House Atreides, Dr. Wellington Yueh, Leto's personal physician, disables critical shields and destroys sonic weapons, leaving House Atreides nearly defenseless. In the attack, Idaho is killed, Leto is captured, and nearly all of House Atreides is wiped out. While captured, Leto dies in a failed attempt to assassinate the Baron Harkonnen using a poison gas capsule planted in his tooth by Dr. Yueh. Leto's concubine Lady Jessica and his son Paul survive the attack and escape into the deep desert, where they are taken in by a sietch of Fremen. Paul takes on the Fremen name Muad'Dib, and emerges as the leader for whom the Fremen have been waiting. He teaches the Fremen to build and use Weirding Modules-sonic weapons developed by House Atreides-and begins to target spice mining production.

Over the next two years, spice production is effectively halted. The Spacing Guild warns the Emperor of the deteriorating situation on Arrakis, and they fear that Paul will consume the Water of Life, a powerful poison used by the Bene Gesserit to help induce their abilities. The meeting is revealed to Paul in a prophetic dream, but then the dreams suddenly stop. Shaken by the absence of his visions, he goes out into the desert, drinks the Water of Life and enters into a trance. Upon awakening, he is transformed, obtaining powerful psychic abilities and the ability to control the sandworms. Paul also regains his ability to see into space and the future, and learns the Emperor is amassing a huge invasion fleet above Arrakis to wipe out the Fremen and regain control of the planet. As the Emperor arrives at Arrakis, Paul launches a final attack against the Harkonnens and the Emperor's Sardaukar at the capital city of Arrakeen. Riding in on sandworms and brandishing their sonic weapons, his Fremen warriors easily defeat the Emperor's legions, while Paul's sister Alia kills Baron Harkonnen. Once in Arrakeen, Paul faces the defeated Emperor and engages Feyd-Rautha in a duel to the death. After killing Feyd, Paul demonstrates his newfound powers and fulfills the Fremen prophecy by causing rain to fall on Arrakis, and Alia declares him to be the Kwisatz Haderach.

When the movie was done, we cheered wildly.

Me: That was an awesome movie!

Nico: But those Harkonnen's are pure evil.

Me: They are.

Lincoln: I'm confused here. It says here that the movie takes place in the year 10,191 A.G. What does that mean?

Me: A.G. means After Guild. And according to the standards of the time on Earth, the movie takes place in the year 21,267 A.D.

Everyone: WOW!

Laney: That's a really long time from now.

Yuko: It sure is.

Me: 19,248 years from now. That's a really long time.

Laney: I thought it was really cool how that spice made their eyes glow like that.

Nico: That was pretty cool. But the amount of pain it caused looked painful.

Me: I know. But what those Harkonnen's did is beyond pure evil.

Lisa: I have a feeling I know what you are about to do 2nd Elder brother.

Me: Yep. Lisa, deploy the U.S.S. Valor.

We were off to the desert planet Arrakis.

* * *

The U.S.S. Valor is flying through space.

Me: Captain's Log, Stardate 2721.5: The U.S.S. Valor is on its way to the distant desert planet of Arrakis, located 309 light-years away from Earth in the Canopus Star System in the constellation of Carina the Stern. Our mission is to help Paul and his followers destroy the evil Harkonnen's and help fulfill an ancient prophecy.

Lana: It's hard to imagine how evil those Harkonnen's are.

Nico: I know. They have failed the entire universe.

Me: They are just as feared as the Saiyan's were.

Nico: Yeah. The Saiyan's were worse however. They destroyed entire planets and annihilated countless lives all for the sheer pleasure of it.

Qin: I heard about that Nico. That's awful.

Bella: No kidding. I can't believe that Saiyan's pack so much destructive power.

Lincoln: We all were shocked ourselves.

Vince: Yeah.

Lisa: We have arrived at our destination.

We arrived at the planet Arrakis. It was a desert planet.

Me: The planet Arrakis.

Laney: It sure looks like a dangerous place.

Me: No kidding. Nathaniel, you have the conn.

Nathaniel: Acknowledged Grandpa.

We flew down to the planet and we saw an endless desert and it spanned for miles and miles.

Me: Wow! This desert goes on forever.

Lori: It literally does.

Trudy: This is unbelievable. I can't believe it goes this far.

Naruto: No kidding.

Suddenly we saw a massive blast of lightning shoot out of the sand.

Me: Wow! Did you see that!?

Laney: Yeah! That was sandworm lightning!

Lola: It sure looks dangerous.

Horsea: Maria, can I stay in your arms?

Maria: Sure Horsea.

We flew to the mountain that housed Paul and his followers and flew into it.

We landed and we saw Paul and his men.

Paul Atreides: Team Loud Phoenix Storm. Welcome.

Me: Pleasure to meet you Paul.

Lady Jessica: It's an honor to have you all here.

Me: Thank you Lady Jessica. We're here to help you kill the Harkonnen's and dethrone the emperor.

Paul: We are forever grateful for you to come J.D.

Me: Thank you.

Lori: Does this emperor literally have a name?

Me: His name is Emperor Shaddam IV.

I revealed his history.

---

Shaddam felt threatened by his cousin, Duke Leto Atreides who led the House of Atreides on Caladan. A just and honorable man, Leto was loved by his people and was popular amongst the other great houses of the Landsraad - which was the council composed of the leaders of the great houses. Under the tutealage of Thufir Hawat, Gurney Halleck and Duncan Idaho an Atreides army was formed to rival the Sardaukar. Additionally the Spacing Guild was very nervous about Paul Atreides and (in the 1984 film) sent the Guild Navigator Edric to Shaddam to tell him the guild wanted Paul killed, feeling that he was a threat to spice production.

In 10,191 the Emperor pressured Leto to give up his fiefdom on Caladan and take over spice minining and operations on Arrakis, a harsh desert world that was the only known source of spice. Conspiring with the Harkonnen, the traditional rivals of the Atreides, the Emperor had his Sardaukar troops assist in a Harkonnen attack on Arrakis which resulted in the death of Leto and the near destruction of the Atreides army.

What neither the Emperor or Baron Vladimir Harkonnen counted on was Leto's concubine, Jessica or their son Paul escaping and joining with the Fremen natives of Arrakis. Under Paul's leadership, the Fremen staged an uprising that all but stopped spice production on Arrakis.

Angered by the situation, the Guild traveled to Kaitan and demanded the Emperor restore spice production. The Emperor ordered 50 legions of troops to go to Arrakis, with the intent of committing genocide - the systematic and total destruction of all life on Arrakis. In the conflict that followed the Sardaukar proved to be no match for the Fremen. Baron Harkonnen died at the hands of Leto's daughter Alia, and the Emperor and his daughter Irulan were taken prisoner by the Fremen.

After defeating Feyd-Rathua, Paul explained to the Emperor that he would take Irulan as his wife, and that the Emperor would spend the rest of his days on the Corrino prison planet of Salusa Secundus.

---

Lori: This guy is literally a monster!

Me: And we're gonna help Paul and everyone destroy him and kill the Harkonnen's.

Nico: Yeah.

Paul: I appreciate it.

Me: When do we start the attack?

Paul: Later tonight.

We got ready. Paul introduced us to the Melange Spice. It was a powerful and incredible spice.

---

The spice originated on the planet Arrakis, where it was produced deep beneath the sands. It was created in a process whereby the fungal excretions of sandtrout would mix with water to form a pre-spice mass. This mass would then be brought to the surface of the desert through an explosion of pressure, and under the intense heat and air of Arrakis, melange would form. When the worms died, sandtrout would be released into the sand, and the cycle of creation would repeat.

By the time House Atreides arrived on Arrakis melange had become the single resource that was capable of creating or destroying the empire. Consequently, Arrakis had gone from being a distant, poor, and unimportant desert world to a greatly prized fief, and management of the spice mining operations were considered a prestigious but difficult task. Spice collection was hindered both by the aggressive and territorial sandworms, and by the guerrilla tactics employed by the Fremen, who resented the presence of off-worlders (especially Imperial agents) who harvested the spice for themselves.

During the time of the God-Emperor Leto Atreides II, spice production lessened significantly due to terraforming efforts on Arrakis, and also due to Leto II's desire to control who within his empire could consume spice, and how much was consumed. However, by this time significant stockpiles of spice had been collected and hidden by Leto II. These later prove valuable for a variety of reasons.

Spice is the basis for many of the things found in Fremen daily life - it can be processed to create things such as spice paper, spice fibre or chemical explosives. It could also be refined to create spice essence or spice gas. Its actual appearance is only alluded to a handful of times throughout the saga:

In Dune Messiah it is stated that Guild Navigator Edric "swam in a container of orange gas… His tank's vents emitted a pale orange cloud rich with the smell of the geriatric spice, melange.", and in God Emperor of Dune Moneo notes, "Great bins of melange lay all around in a gigantic room cut from native rock and illuminated by glowglobes of an ancient design with arabesques of metal scrollwork upon them. The spice had glowed radiant blue in the dim silver light. And the smell - bitter cinnamon, unmistakable." Throughout the chronicles it is said that melange possesses the odor of cinnamon.

In Dune, Lady Jessica notes that her first taste of spice "tasted like cinnamon." Dr. Yueh adds that the flavour is "never twice the same .. It's like life - it presents a different face each time you take it. Some hold that the spice produces a learned-flavour reaction. The body, learning a thing is good for it, interprets the flavour as pleasurable -; slightly euphoric. And, like life, never to be truly synthesized."

During the days of the Corrino Empire, the spice was the rarest and most valuable commodity in the known universe. It was said that it was so valuable that one briefcase full of spice would be enough to purchase an entire planet.

Great Houses of the Imperium were often considered rich and influential if their ruling members could afford to consume melange regularly, or, worse still, stockpile it. However, stockpiling melange was generally considered to be a very risky and dangerous endeavour, since the Emperor, the Bene Gesserit, the Bene Tleilax, the Spacing Guild, and rival Great Houses could potentially regard such stockpiles as a threat to their position within the Imperium, as well as a threat to their supply.

Effects on those who consume melange are outlined below:

Mind altering: it could awaken dormant parts of the human mind and encourage expanded sensory perceptions. In some humans (notably the Bene Gesserit, Guild Navigators, and some members of the Atreides bloodline), heavy doses led to powerful abilities that include prescience;

Health benefits: taken regularly it increased life expectancy and fortified over all health levels (in many cases life expectancy was tripled);

Addictiveness: the spice had narcotic properties, thus increasing demand and creating a large and hungry market for it. An individual's addiction to the spice would worsen the more they consumed it.

Physical effects: sustained use of the spice led to human eyes being discolored so that the entire eye would be stained blue - so called Eyes of Ibad. Extensive exposure to the spice created a huge physical dependency that could radically alter the entire body.

---

We had some of the spice and we felt and underwent an incredible transformation. Our powers enabled us to get all its powerful effects minus the addictive narcotic properties and it enabled us to use the full extent of our brain power at 100%. It was incredible! Our brains were now omnipotent. And another trait was that our eyes were now glowing neon blue. Because of our immortality, invincibility and power we were immune to the Narcotic effects and it also enhanced our powers 200 quadrillion fold.

Me: Wow! I feel amazing!

Laney: Me too.

Everyone agreed.

Sakura Avalon: I feel amazing.

Naruto: Me too.

Nicole: Same.

Me: We're now ready.

We got ready for battle and it was gonna be a rough one.

We were flying and riding the Sandworm to the battle site and we saw it.

Me: Target sighted.

Laney: This is gonna be good.

Me: On your command Paul.

Paul: FIRE AT WILL!

We fired energy blasts, element blasts and lasers and sonic blasts at the Harkonnens and the enemy! Massive fiery explosions rang out and it was igniting everything and burning it all. We were blowing them all apart and the sandworms were eating their remains for dinner. It was an explosive and powerful battle.

Nico: You Harkonnen's have failed this universe!

Nico fired a massive blast of fire and incinerated a lot of them.

Lincoln fired a powerful blast of lightning and electrocuted a bunch of Harkonnens in one fell swoop and Luan and Eddy fired a massive blast of light and obliterated them.

Laney fired a bunch of poisonous barbs loaded with Strychnine Ω and they died in an instant and Lola fired massive blasts of fire and burned them into ash in an instant. Lori blew them around in a massive tornado of wind and they were ripped apart.

Me: Lets show them some teamwork!

Grapple: Right with you boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his arc-welder rifle 100-fold.

Spyro: Lets do this for Skylands and for Earth! MAGIC CYBER KEY POWER!

The Magic Skylander Cyber Planet Key went into Spyro's right arm device and it enhanced his powers 100-fold.

Grapple and Spyro: MAGIC FIRESTORM HURRICANE!

Grapple fired a massive blast of fire from his arc-welder rifle and Spyro fired a massive blast of fire from his mouth and the blasts combined and turned into a massive fire tornado that incinerated a bunch of Harkonnen's.

Clawful: Lets do this! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Clawful's right arm device and it enhanced his strength and power 100-fold.

Long Haul: Time for action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his Heat Seeking missile mount 100-fold.

Clawful and Long Haul: LOBSTER MISSILE BARRAGE FIRESTORM!

Clawful fired a bunch of missiles and Long Haul fired a bunch of missiles and they hit all the Harkonnen's and blew them into pieces and into ash.

Me: Now for the grand finale!

Lori: Got it J.D.! HYPERCANE OBLITERATION TORNADO!

Lori fired a massive blast of wind and it blew the Harkonnen's away with winds that blew at 20,000,000 miles per hour!

Paul: This is for my father and my family. ARRAKIS SONIC VOICE!

Paul fired a powerful blue blast of energy from his mouth and blew the rest of them away.

Me: YEAH! One last thing to do.

We all faced the rest of the Harkonnen's. We were facing Emperor Shaddam IV himself and the rest of the defeated Harkonnen's.

Edzilla (punches Emperor): ED SMASH EVIL EMPEROR!

Me: Ed! Stand down. How the mighty Harkonnen's have fallen.

Paul: Emperor Shaddam the IV… there are Guild Heighliners above us containing many Great Houses of the Lansraad… SEND THEM BACK!

Emperor: How dare you speak to me…

Guildsman #2: (speaking into electric microphone) Stop your speaking!

Paul: Good. You have some idea of what I would do, but I will tell it to one who has never been seen… one who hides deep in the Heighliner control rooms. He will hear it first.

The Reverend Mother glared at him.

Paul: Don't try your powers on me. Try looking into that place where you dare not look, you'll find me there staring back at you. You Bene Gesserit have waited ninety generations to produce the one person your schemes required. Here I stand. But… I will never be yours.

Reverend Mother: Stop him, Jessica!

Lady Jessica: Stop him yourself.

Paul: You saw a part of what the race needs in the beginning. In time you perverted the truth. You sought to control human breeding and intermix a select few according to a selfish master plan. How little you understand.

Reverend Mother: You mustn't speak of…

Paul: (ECHOING) ***SILENCE!***

Reverend Mother is shot back after having the wind knocked out of her with just the power of his voice alone.

Paul: I remember your gom jabbar, now you remember mine. I can kill with a word.

Me: That was amazing Paul. So that's where I learned that power in the future.

Fedaykin 1:… and his word shall carry death eternal to those who stand against the righteous.

Feyd: The righteous!?

Paul: There is a Harkonnen among you. Give the Harkonnen a blade and let him stand forth.

Emperor: If Feyd wishes he can meet you with my blade in his hand.

Feyd: I wish it!

Me: I can face him for you Paul.

Paul: No. This is my fight. I must fulfill the prophecy. I know you would win J.D. Your power is all incredible. But this is my fight.

Me: If that is your wish then I will respect it.

Gurney: This is a Harkonnen Animal! Let me. Please, my Lord.

Paul: The Emperor's blade.

Me: Let him face him everyone. This is his fight.

Feyd takes up the Emperor's blade with a smile. Paul takes out his crysknife. They begin to circle each other. Paul smiles, circling still. Suddenly, Feyd leaps, his blade jabbing savagely outward, but Paul easily evades it, moving away. They begin to circle again. He makes another pass at Paul that comes dangerously close, but again, Paul is away, a frozen smile on his face.

Feyd: Why prolong the inevitable? I will kill you! I will kill him!

Me: Not if he kills you first you motherfucker!

Feyd smiles. He lashes out biting Paul's hand. Feyd laughs in triumph. Feyd leaps forward jabbing, his right hip also forward. Yet Paul, although a little slowly, again reels away. Again, Feyd thrusts. - This time Paul jabs with his crysknife, but Feyd moves away effortlessly. Feyd counters and kicks Paul to the ground.

Chani: Paul!

Paul is up instantly and he circles with Feyd.

Feyd: (smiling) Who is the little one? A pet, perhaps? Will she deserve my special attentions?

Me: Fuck you!

Nico: Chauvinistic motherfucker!

Lincoln: Go kill yourself!

Paul jabs out, his crysknife slashing. Feyd grabs his arm, and Paul his, the two men locked in a straining clinch. Feyd presses his right hip closer and closer to Paul's body. Paul strains to keep it away. Suddenly, the gom jabbar flips out of Feyd's girdle, but on the left side, and he lunges powerfully with it at Paul, who just barely misses taking it in his skin. He throws Feyd back, but not before Feyd's feet strike out, sending Paul to the floor. Feyd leaps onto him.

Feyd: (whispering) You see… your death… my blade will finish you.

Me: (In my head) Not for long.

Suddenly, Paul, with lightning swiftness, pushes Feyd up and over. He is on top of him in a flash. Paul's crysknife flashes up, thrusting upward through Feyd's jaw. Feyd's mouth opens as the knife continues up through his tongue and through to his brain. Feyd's eyes go wild, then glaze over as he jerks dead on the floor. Paul slowly gets to his feet, breathing heavily. Anger still seething in him, Paul issues a SOUND - a loud, horrible, powerful sound, and Feyd's internal organs rupture and the stone floor under him cracks open. The Fedaykin smile.

I looked at him.

Me: Holy shit! His voice destroyed all his organs in one fell swoop!

Nico: That is powerful!

Laney: Unbelievable.

Paul: J.D. thank you all for helping us.

Me: It was our pleasure Paul. Team Loud Phoenix Storm will always be there to answer the universe's cry for help.

We shook hands and went back to Earth.

We placed Emperor Shaddam into the Neptune Prison and set up an interplanetary trade route with the citizens of Arrakis. We blew up the Harkonnen homeworld and destroyed one of the most feared races in the universe.

When we got back, Nico caught a Dragalge and Clawitzer.

Lori: (to the viewers) You literally mess with us and we will literally mess with you.

---

In the middle of the city we were in the middle of a freak snowstorm in the middle of the Summer. It was really the work of the Snow Card! 雪

The snow was over 10 feet deep and it was a massive amount of snow.

Ben: Think I can use Heatblast to beat the Snow Card?

Me: That just might work Ben.

Ben turned into Heatblast.

Ben: HEATBLAST!

Then a vortex of snow formed and it was incredibly powerful! Ben fired a powerful blast of fire and a powerful cloud of steam formed and we fired a massive blast of fire and it evaporated.

Me: Now it's time for some serious firepower!

We saw the Snow Card's visible form.

Snow's visible form heavily resembles a traditional Japanese 雪女 'Yuki Onna', or 'Snow Woman', a Japanese ghost that appears in a snowstorm, wears a white kimono and has white skin.

Snow wears a blue-white kimono with a wide collar and a blue obi tied in a wide bow and a necklace that appears to be made from ice crystals. She has a blue ice crystal on her forehead in Clow Card form, orange as a Sakura Card. Her visible spirit has an upward facing yellow crescent moon on her forehead. Snow displays a notable amount of wit compared to the other Clow Cards.

Me: It looks like one of Mizore's kind.

Nico: She does have that kind of characteristic.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and it sucked in the Snow Card and it turned back into a Clow Card. I had it in my hand.

Me: Yes.

Nico: Great job J.D.!

Me: Thanks.

Heatblast: That was well done.

Me: Yep. But this snow is gonna melt really fast so we should expect huge flooding.

Nico: Yep.

We then went to turn in for the day.

THE END

Another Fanfiction Complete and another interplanetary villain brought to justice.

Dune from 1984 was an awesome movie! I thought it was a great movie. But those stupid movie critics ruined it and said it was an atrocity. But those dumb critics have no idea what the heck they are talking about and they wouldn't know a great movie if it hit them in the face! NicoChan11 gave me the ideas for this one. Thanks man. The next card is the Light and the Dark Card. So get ready for a test of Light and Darkness. Let me know what you all think.

See you all next time.

# Battle with A Corrupt Gem

At the estate, Nico was talking to us.

Me: So you want to try and get the principal of the high school to revoke the expulsion of Caitlin and Dominique?

Nico: I got to at least try J.D. Mandy coerced her friends into all this against their wills and I have to try.

Lincoln: I have a feeling you can do it Nico.

Nico: Thanks Lincoln.

Beverly Hills Principal: Let me get this straight. You want me to believe that Mandy and Dominique were forced into becoming Mandy's minions?

Nico: Yes.

Beverly Hills Principal: I'm sorry but removing their expulsion will be impossible. Everyone in the school remembers what they'e done under Mandy's orders. And they've already tried to murder your friend Lincoln, even though that was a clone. Mr. Chan, me and the rest of the school are grateful for what you've done for us. We really are. But I can't let Caitlin and Dominique back into this school without proof of their innocence.

Nico: I understand, sir.

Beverly Hills Principal: But if you do find evidence, please do not hesitate to show it.

Nico: I won't sir. Thank you.

Back at the estate, Nico came in.

Windcharger: How'd it go?

Nico: It went as good as you could expect.

Me: Tell us what went down.

Nico did so.

Me: So we need physical proof for that to happen. That's gonna be easier said than done.

Lana: Yeah. We can't prove their innocence without being 1 zillion% sure.

Me: Even though that's not a real number I agree with you Lana.

Kira: It's awful Mandy did all that. She's a monster.

Qin: Who is Mandy?

Me: You would hate her Qin. She was the arch-nemesis of Sam, Clover and Alex and she was a major sociopathic freak.

I revealed Mandy's history.

---

Mandy is the antagonist in "Totally Spies!" for the girls at high school (and university) when they are not on spy missions. In the English version, she is voiced by Jennifer Hale, who also voices Samantha.

Although she is not a spy, she has been seen in 4 purple Catsuits in the series ("Clowning Around!", "Evil Coffee Shop Much?", "Evil Jerry", "Totally Busted").

Mandy's rivalry with Clover is the most pronounced. They often compete over boys, popularity contests, bragging rights, the latest fashions, and virtually everything else. Mandy will go out of her way to annoy the girls and get them in trouble, and will even use dishonest means in order to do it.

In Season 1 - Season 4, Mandy is often accompanied by her two BFFs/yes-women Caitlin (Alex's rival) and Dominique (Sam's rival). However, it wasn't until Season 4 that there was actually any loyalty between the three. Before then, they had each been shown to leave the others at the drop of a dime. At the start of Season 5, Mandy and her crew apparently went their separate ways after graduating from Beverly Hills High. While Mandy was supposed to attend a ski school in Aspen, she transferred to Malibu to attend Malibu University with her cousin Mindy. Mandy and Mindy, known by the girls as the Terror Twins (though they are only called that in "Evil Sorority"), are seen together for most of the fifth season, save for the finale.

In the episode "Evil Coffee Shop Much?", she follows the girls to WOOHP and her attitude impresses Jerry, who makes her a WOOHP spy. However, she dislikes the experience and eventually asks to have her memories erased at the end of the mission.

In "Totally Busted", Mandy is infected by SUDS, along with Caitlin and Dominique, and they are transformed so they hunt spies, that is, they are "spy-ssassins". They try to kill the spies, but are all easily defeated. Later, Mandy, Caitlin, and Dominique kidnap the spies' mothers and take them to Mandy's ski chalet at the Sugarflake Ski Resort. They put the moms in a tram cart that is let loose. After an avalanche incident, Mandy and her cronies kidnap the spies to The Groove (Beverly Hills' main shopping center where Mandy says she does her deepest thinking). After they learn about the SUDS, they infect the spies with it and rescue the Inventor from Prison. Later, Mandy, her cronies, and the Inventor plan to transform the whole world into an army of spy-ssassins, but were all defeated by the spies. At the end, Mandy, Caitlin, and Dominique are returned to normal.

In "Totally Dunzo", Mandy becomes nicer to Sam, Clover, and Alex after suffering from a "near death experience" (breaking a nail). She returns Sam's, Clover's, and Alex's parking space that she had just forbade, pays for the shoes Sam, Clover, and Alex were just about to buy, and cleans their entire penthouse dorm room when they were not looking. At the end of the episode, when she discovers that the girls were spies, she goes back to her usual snobbish self because she believes "friends shouldn't keep secrets from each other" and demands to go back to Malibu University. As the episode was intended to be the series finale, Mandy's memory is not erased, but when the series was given a sixth season, she gets her usual memory wipes. She is also frequently saved by the spies from the villains who have a vendetta against her.

In "Baddies on a Blimp" Mandy is mentioned by Blaine after he tells Clover that he had enough of dating L.A. girls and she was the last L.A. girl to be dated by him. This prompts Clover to take a break of dating her ex-boyfriends in the last part of the episode.

---

Qin gasped.

Qin: I really would hate a girl like that.

Tanya: Me too.

Me: Mandy came from a prominent rich family and she claimed that she was so superior because she had more money than anyone else.

Qin: That is sick.

Lola: Tell that to Princess Morbucks when we killed her.

Lana: Yeah. She was the worst ever.

Qin: Who was Princess Morbucks?

Me: Her family was the previous owners of my family's house before we made it all like this.

I revealed the history of Princess Morbucks.

---

In the original series, she is a spoiled and rich girl who wants to be a Powerpuff Girl for selfish reasons. However, she has no powers of her own, and instead uses her father's money to buy weapons to destroy the Powerpuff Girls because she can't become one.

She debuted in "Stuck Up, Up and Away," where Blossom explains that being a Powerpuff Girl is not about getting what she wants, having the best stuff or being popular or powerful, but about using one's own unique abilities to help people and the world. Princess buys a suit of powered armor that makes her seem invincible, but in a fight that emulates Goku, Blossom rallies the girls and destroys the armor. Princess swears she'll be out of jail shortly, but then again, no Townsville villain seems to stay in for long.

Princess tries again repeatedly: In one instance, she hires Mojo Jojo, and even gains Chemical X powers like the girls, but their savvy plus the egos of the villainous allies rob her of victory and powers. In an episode that paid tribute to the 60's band The Beatles, she, Mojo, Fuzzy Lumpkins, and HIM formed the Beat-Alls, who nearly owned the city and the girls, till a 'Yoko scheme' (a parody of how some people believe the real Beatles parted ways) broke them up. She also once simply had her father buy the City Of Townsville so she could be Mayor and outlaw crime-fighting, a scheme which fell apart when the girls legally robbed her of every last possession. In likely her most vicious petty scheme, she tricked a neglected friend the girls had made into stealing, just so she could report this to the girls and seem like an ally worthy of joining them. Though Blossom remains her archenemy, it is Buttercup who despises her the most. Princess is also featured in any 'crowd of villains' episode, most notably one where the villains send booby-trapped birthday gifts (that one and all epic fail) to the girls.

As the main antagonist, Princess tricks Santa into giving her what she wants most and into thinking the Powerpuff Girls and the rest of the children of the world were naughty by altering his lists. Princess' reputation preceded her, though, since a confused Santa noted she was among the few whose name was engraved in 'The Permanent Naughty Plaque'

---

Qin growled in hate for her.

Qin: That little brat!

Me: I know. She had all the money in the world and she threw it all away for her own selfish purposes.

Lana: She deserved it.

Lola: And the strangest part was she was a teenager the whole time.

Qin: What do you mean?

Adult Blossom: She was born with a rare disease called Systemic Hypoplasia. It's a rare genetic disorder that prevents people from aging.

Lana: Yeah. She was 17 years old and went to 1st grade with us.

Qin: That is so weird.

Tanya: No kidding.

Qin: She was the worst ever human being in all of the history of the world.

Me: Next to 4 others who have failed this world.

Adult Bubbles: Yep.

---

Later we were at the Jupiter Prison for another Rant Session with the most hated and worst ever babysitter ever: ICKY VICKY.

Connor McKnight: So who is Icky Vicky?

Me: You would hate her Connor. She is the most evil and most despicable babysitter ever. She is pure evil on steroids.

I revealed her history.

---

As revealed in Abra-Catastrophe!, Vicky first started babysitting Timmy Turner when he was eight and she was fourteen. Timmy had found a flier advertising Vicky's babysitting service, and panicked and called this number when his parents tricked him into thinking he was being left alone. When Vicky arrived, she convinced Timmy's parents that they could use a babysitter so they would have time for each other to go out and do adult things. From that point on, Vicky tormented Timmy whenever she babysat him, and his parents would continue to spend time away leaving him under Vicky's cruel care. Timmy became so miserable that he needed fairy godparents. With them, he was able to use magic to get even with Vicky. Even with his fairies, Timmy is still challenged by Vicky over the course of the show. She has also worked other non-babysitting jobs, usually if they involve hurting others or holding sharp objects. In most of her early appearances, the simple act of saying her name would cause thunder and lightning to flash in the sky.

Vicky appears to have started babysitting at age fourteen or possibly earlier. When she first met Timmy when he was eight, she was just as mean as she is now. It is never explained why Vicky is the way that she is, although several conflicting plots have been put forth. In the episode Snow Bound, she reveals that she had a rough childhood. In Tiny Timmy, it is said that her niceness never showed up to work inside her brain. In Vicky Loses Her Icky, the cause of her evilness is attributed to an evil bug that crawled up her butt (although it is equally likely that the bug was a pure concentration of her evil personality). In the episode The Switch Glitch, after Timmy wished for Vicky to turn into a five-year-old, she was actually nice but turned bad when she wanted revenge on Timmy for being a mean babysitter. It has also been suggested in fanon that her sister Tootie being born was the cause of her disliking younger kids, and although this has never been explicitly stated, in the episode The Masked Magician, Vicky lists Tootie first as she went through various enemies she had made in her life, as well as her own parents. Hanging in her house is a picture of an infant-aged Vicky that is shown with the same evil scowl she has in her later life, so it's possible she was born this way.

After Timmy Turner successfully defeated Vicky in the past and changed the bad future into a good one, twenty years passed by and Timmy is revealed to have two children, a son, and a daughter. The children bear a resemblance to Vicky's little sister Tootie among other characters, meaning that these children would be Vicky's nephew and niece if Tootie married Timmy. Some fans even believe that Vicky herself could have been the mother, and even if so, it's possible that her children could have inherited genes from their grandmother. The two children are babysat by a robot that looks and acts like Vicky, so it is likely that Timmy has some connection with her in the future, or has at the very least reconciled with her. It is also possible, even implied in some of Adult Timmy's dialogue, that because he forgot about his fairies in his later life, Timmy eventually assumed that it was his parents, and by extension Vicky, who helped shape him into becoming a responsible adult instead of his fairies. Therefore he believes that hiring a babysitter that resembles Vicky will help shape his own children into responsible adults too. Vicky's exact connection with the robot is unknown, but if she makes and designs these robots, she is likely very rich and successful like she always wanted to be.

In the episode "Vicky Gets Fired", Timmy's parents attend a cinema and leave Timmy alone with Vicky, but this time, Timmy, determined to prove Vicky is evil, shows his parents a video in which she tapes over their extremely important videotape, causing her to be fired. Vicky then attempts to seek a new line of employment, although she only succeeds in torturing others, resulting in her getting fired by all her bosses, both literally and figuratively. Eventually, she goes to the mayor and reveals to Chompy the Goat that the mayor indulges himself in eating goat meat, causing the goat to chase him out of his office. Vicky then names herself the new mayor and takes over Dimmsdale, rename it "Vickyland" and attacks it with her newly established ape army. Timmy, who is enjoying the time of his life with his god-family, soon discovers that getting Vicky out of his life causes her to ruin everyone else's. Wanda proposes that they take fire-breathing battle-rhinos and a lion-cloth warrior to Vicky to depose her; however, they lose badly, and Timmy tries wishing that Vicky wasn't the mayor. Unfortunately, Vicky, not being mayor, becomes president of the U.S.A. instead and attacks the country with another armored ape army. Timmy tries unwishing that Vicky dominated reality again, only for Vicky to become the "Dark Empress of Everything that Breathes", and began attacking Earth with her Star-Destroyer-like warship. To save the Earth, Timmy reluctantly wishes that Vicky was his babysitter again in order to maintain peace.

Vicky was formerly a member of B.R.A.T. (Babysitters Raging Against Twerps) until she was rescued by Timmy Turner and felt grateful. Vicky tried to make a new life being Timmy's friend but he rejected her favors and Vicky returned to her organization more abusive than ever, so much so that their companions named her their new leader. On another occasion, she joined and subsequently lead L.O.S.E.R.S. (composed of Crocker, Dark Laser and Foop) and advised them on how to destroy Timmy once and for all, but, after Timmy wished that these four enemies wanted to be him, all members (including her) ended up destroying each other. Vicky subsequently left the team after their initial failure and ends up being replaced by Timmy's dad (who thought he was joining a sewing club).

Connor and the Dino Thunder Rangers were horrified!

Connor: Man, Icky Vicky definitely would've made a good minion for Mesogog.

Me: I'm sure she would. But Icky Vicky would make Mesogog look like a saint compared to her.

Kira: Good point.

Nico: (to Man Boy) It's amazing how well you've behaved while you were in here.

Man Boy: (laughs) I know, right? I heard you're looking for a way to prove the innocence of Mandy's former cronies.

Kickback: If we can find some evidence of that, Caitlin and Dominique won't be hated anymore.

Man Boy: Well, why don't one of you use psychic powers to get memory footage of Mandy forcing them into doing all those bad stuff?

Nico: That might actually work! You don't know how much you've helped me.

Kickback: As thanks, we might even let call you for help when it's time to take Thanos down.

Manboy: Thank you.

Qin: Who is Mesogog?

Ethan: He was the main Bad Guys we had to take down.

Connor revealed the history of Mesogog.

---

Mesogog was created from a groundbreaking experiment Dr. Anton Mercer had been performing with dinosaur DNA. However, this accidentally transformed him into the monstrous megalomaniac, Mesogog, who sought to send Earth back into the age of dinosaurs with all humans transformed into reptilian hybrids like himself. They continued from then on to shift between Mercer and Mesogog in a Jekyll and Hyde relationship with each aware of the other, but having two distinct personalities.

The dinosaur hybrid recruited Elsa and a cyborg warrior named Zeltrax, whom he created from the remains of Terrence "Smitty" Smith, a former associate of Tommy Oliver's, to aid him in his attempts to conquer the world. Mesogog also utilized an army of creatures called Tyrannodrones, dinosaur based humanoids that Mercer and Tommy had created. He then set up his lab/base, which was full of genetic samples he could use to create monsters, and was ready to put his plans in action. But Mesogog plans were interrupted when Tommy managed to steal the three Dino Gems and use them to create the Dino Thunder Power Rangers.

Mesogog began sending his monsters against them, only to be bested again and again. However things began to sway in the dinosaur hybrid's favor when Mercer's son, Trent, found his lab and the White Dino Gem that Mesogog had in his possession. It transformed him into the White Dino Ranger, who fought against the rangers but was not loyal to Mesogog until Trent found out that he was also Mercer. The White Ranger joined his side, but Zeltrax convinced the dinosaur hybrid that Trent was a traitor, so Mesogog hooked him up to a machine that would drain his life energy. However Mercer regained control of their body and freed Trent before it could take all his life energy and told him to fight alongside the other Power Rangers.

Later, Mesogog joined forces with the returned Lothor, who had turned the Wind Ninja Power Rangers evil. But he regarded Lothor as an idiot and did not trust him completely, planning to get rid of him as soon as the other rangers were destroyed. But the Dino Thunder Rangers, the Thunder Ninja Rangers, and the Green Samurai Ranger turned the Wind Ninja Rangers good again and defeated Lothor and Mesogog's forces. Mesogog and Lothor fought with the dinosaur hybrid emerging the victor, shrinking the evil ninja lord and putting him in one of the jars where he kept genetic samples for monsters. Some time after this, the dinosaur hybrid succeeded in using a formula that separated him from Mercer, increasing his mental instability and determination to see his plans succeed.

Mesogog rid himself of Elsa, needing her energy to power a cannon he was using in his plans, but the rangers used a bit of trickery with the Dino Gems to destroy the cannon and Mesogog's base. However the dinosaur hybrid was able to survive and reappeared after the rangers' defeated Zeltrax, using energy he has absorbed from the gems to mutate into the Mesomonster. He took on the Rangers, proving nearly invincible and even split into four copies of himself, but the Rangers used all the energy in the Dino Gems to destroy the Mesomonster.

---

Qin gasped in Horror!

Qin: Mesogog was pure evil!

Me: And if he's still out there we will kill him.

Kira: No. Mesogog is gone for good. We killed him.

Me: Oh. Well then never mind.

Elec Man: Anyone want popcorn and ice cream? I've got popcorn and ice cream!

Me: I'm good. Ready to start the show?

Nico: You know it. (Imitating Hades) (Echoing) LETS GET READY TO (FIRE HAIR FLARES UP) RUMBLE!

Everyone was ready.

Kira: Who's going first?

Me: Ladies first Kira.

Kira: You're all such gentlemen.

Kira went up to Icky Vicky.

Kira: You guys might want to cover your ears.

Me: Oh yeah.

Laney: We saw this on TV and it's gonna be loud.

Lana: Yep.

We covered our ears and Kira screamed and let out a super powerful and super loud ear-shattering scream and it was loud enough to shatter glass! It was her PTERA SCREAM!

Kira: (EAR-SHATTERING SCREAM) YOU ARE THE WORST MOST FUCKED UP DOUCHEBAG BABYSITTER THAT EVER LIVED! I WOULD RATHER EAT ROTTEN LIVER AND ONIONS THAN HAVE YOU FOR A FUCKING BABYSITTER! YOU MAKE ME SICK LOOKING AT YOU THAT I WANT TO THROW UP AND DUMP BUCKETS OF FUCKING CHUM ON YOU!

Me: Holy Shit! That is loud!

Laney: Unbelievable!

Kira came back and everyone cheered for her.

Me: Way to go Kira!

Prisoner 1: Wow! That was a powerful scream!

Prisoner 2: No kidding!

Kira: Did that hurt your ears at all?

Kickback: Nope. We had our ears covered. Icky Vicky was the one who got her ears hurt.

Me: But it did hurt Vicky's ears. Badly. Look.

We saw blood pouring out of Vicky's ears.

Me: Wow. I hope her insurance gives her ear replacement surgery.

We laughed.

Nico: We're just gonna do some pranks now. Her ears are broken now after that.

Kira: Good point.

Connor McKnight: I have one.

Connor placed a watermelon in a football kickstand.

Me: Ready Connor? Hut Hut Hut! Hike!

Connor kicked the watermelon and it went flying like a cannonball shot out of a cannon faster than a bullet fired from a gun and it hit Icky Vicky square in the face with devastating force.

KRASSSSPPPPPLLLLAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAATT

Icky Vicky: (SPITS AND SPUTTERS) OH YUCK! I HATE WATERMELON!

Everyone cheered.

Me: Nice shot Connor!

Connor McKnight: Thanks J.D. I play for the soccer team and I always wanted to play football.

Me: You can always try out for it. It's perfect to diversify in the world of sports.

Connor McKnight: Yeah that's true.

Ethan: I got one.

Ethan pulled out a bunch of coconuts.

Ethan: Want to help me with this Laney?

Laney: Sure. This is a funny prank.

Laney formed a bazooka made of vines and Ethan loaded the coconuts into it.

Laney: Ready Ethan?

Ethan: You know it Laney.

Ethan and Laney: (Imitating Scarface) SAY HELLO TO OUR LITTLE FRIEND!

They fired the coconuts and they slammed into Icky Vicky with powerful hollow clunks.

CLUNK CLUNK CLUNK CLUNK CLUNK CLUNK CLUNK CLUNK CLUNK!

Patrick: (Offscreen) DA HA HA HA! THAT GUY GOT HIT IN THE HEAD WITH A COCONUT!

Everyone was laughing.

Kira: That must've hurt. But that was funny.

Trent: That was funny. I got one. I saw this on TV.

Trent went into her cell and put matches under her feet and lit them all on fire and gave her a nasty hotfoot. She screamed in excruciating pain as it was burning her feet. We were laughing our heads off as she was in pain.

I took a fire extinguisher and put her out.

Tommy Oliver: I saw this one too.

We turned Vicky around and put a blindfold on Tommy and he had a donkey tail with a rusty nail through it and we had a pin the tail on the donkey board behind her set up. We pulled it up and Tommy stabbed her in the butt with the nail and she screamed in excruciating pain.

Icky Vicky: (TOM SCREAM)

We laughed at that and it was so funny!

Later we were over in Beach City over in California. We were there to help Steven Universe and the Crystal Gems with uncorrupting a gem that has been corrupted and is in the area.

Steven: Thanks for coming with me, guys.

Me: No problem Steven. You are just as important to our team as you are to the world.

Steven: Thanks J.D.

Mary K.: And as the founder of the Crystal Brigade, we'll always be willing to help out.

Nico: Yep.

Garnet: One of the corrupted gems we've been trying to find is terrorizing the area.

Pearl: So we have to find it and contain it.

Amethyst: Yeah! It's always perfect for adventure!

Lapis: It's gonna be a really tough gem to find though.

Varie: We can still find the gem.

Jasper: Yeah we can.

Peridot: We will find the gem no matter what.

Bismuth: We need all the help we can get for the big invasion on the Gem Homeworld.

Connie M.: This is gonna be an interesting fight. I hope all my training in my sword fighting skills pays off.

Me: The Gem Homeworld is 40 light-years from here. And when we go there, who know's what we'll encounter?

Lana: I know.

Lapis: We'll face them all together.

Me: Yep. And if there are any gems that pose a threat to the Diamonds we will face them together.

Steven: I know. We were able to help White, Blue and Yellow Diamond realize the error of their ways.

Me: Wow. You not only did a lot of good deeds not just here on Earth, but also on the Gem Homeworld.

Mary K.: He's a pure hearted hero dad.

Naruto: Yep.

Then we heard screaming and we saw the Corrupted Gem! It was the Tongue Monster! The Tongue Monster is a bipedal, avian-esque Gem, with two long dark green legs which lead into an orb-shaped and teal-colored body. On either side of her head are a set of three small eyes with white sclera and lime-green irises. She has a large mouth with fang-like teeth and a set of three gray tongues she often undulates when calling out while bobbing up and down. Her gem is located on the center of her nose and is a mixture of blue-green, gray, and brown colors that are different on each facet.

Me: Whoa!

Laney: Is that the Corrupted Gem?

Garnet: That's it.

Jessie (Pokemon): And I thought my former Lickitung had a big tongue.

Me: Lets get it!

We went at it.

Edzilla: (grabs Tongue Monster's tongue) ED RIP OUT TONGUE MONSTER'S TONGUE!

Luan fired a powerful blast of light and it hit the Tongue Monster.

Garnet punched it all over the place and Amethyst whiplashed it with her mace whip.

Pearl lashed it with her trident and Jasper bashed it with a powerful headbutt.

We were thrashing it all over the place.

But then my geiger counter was going haywire! It was clicking like mad as it had detected a huge radiation spike in the area.

Me: Whoa! I'm picking up huge levels of Gamma Radiation!

Riley's plumber badge was flashing red because of detecting radiation.

Riley: I didn't know our Plumber Badges can detect Radiation like Geiger Counters.

Ben: It's a very genius function.

Me: It sure is.

Then we saw a bear trap with powerful razor sharp green crystals snap onto the tongue monster and it roared in pain. We then saw a girl with green hair, neon green eyes, green skin, Black gloves, black armbands, a green tank top, black shorts and green boots and she had a gem scar that went down from her right shoulder down her chest.

Me: Wow! Are you a Crystal Gem?

Cuprosklodowskite: I sure am. I'm Cuprosklodowskite.

Me: Wow. That's a radioactive mineral. It produces as much Gamma Radiation as Plutonium.

Cuprosklodowskite: That's right. The radiation comes from my weapons and the gem on my chest. But I have the power to control the radioactive particles.

Me: Wow. That's an impressive ability. Thanks goodness we're all impervious to radiation.

Lisa: Indubitably.

Pearl: Cuprosklowdoskite is a member of the Crystal Gem rebellion. She is one of the radioactive gems that were exiled during the war.

Me: Wow.

Steven: I didn't know that Pearl.

Mary K.: Neither did I.

Ben: Me neither.

Lola: What happens if you touch radioactive metal with your bare hands?

Me: Well the nuclear radiation from the metal will mutate your cells and cause cancer to form from it in the future.

Lisa: That is correct. The Gamma Radiation from the nuclear particles will destroy the human body very slowly and cause carcinogenic cellular deterioration.

Me: Wow. (Head hurts) Ow. That is terrifying.

Lisa: Indeed.

Cuprosklodowskite: Wow. You sure are smart for a little girl.

Nico: Lisa is only 4 years old. But she has a powerful I.Q.

Me: Yep. Lets continue the fight.

We did so.

The fight was ferocious.

Me: Time for some teamwork!

Connor McKnight: You got it J.D.! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his strength and power 100-fold.

Windcharger: Lets do it! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his magnetic powers 100-fold.

Connor Mcknight and Windcharger: ELECTROMAGNETIC MACEBALL SLAM!

Connor picked up a massive mace ball out of the ground and Windcharger charged it with electromagnetic energy and Connor threw it and it slammed into the tongue monster.

Kickback: Time for some action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Sub-Machine Guns 100 fold.

Elec Man: Time to feel the lightning! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Thunder Beam 10,000-fold.

Kickback and Elec Man: THUNDER MACHINE GUN BURST!

Elec Man fired a massive lightning blast and Kickback fired a massive barrage of machine guns and they hit the Tongue Monster and exploded.

KRABBBOOOOOOOOOOOOOOOMMMM!

Bobby S.: Time for some action compadres! DIAMOND SWORD SLASHSTORM!

Bobby formed a sword of pure diamond and slashed the Tongue Monster.

Steven: Time for some powerful Crystal Power! PINK DIAMOND BLADESTORM!

Steven fired a massive barrage of pink energy blades from his hands and they slashed the Tongue Monster.

Garnet: Lets do this! GARNET PUNCHSTORM BLAST!

Garnet punched the Tongue Monster all over the place and pulverized it all over. Knocking it out.

Me: Now to see if we can uncorrupt this gem.

I fired a powerful beam of light and it hit its gem and the gem was restored back to her true form. She was a girl with teal blue hair, light blue skin, aqua blue eyes, her gem was on her nose, teal green clothes with a gold star on the chest and dark green shoes. She had an awesome warhammer. She was only half of my height.

Dioptase: Thank you all so much. My name is Dioptase.

Me: It's a pleasure to meet you. Dioptase is one of my favorite gems. It's usually found over in the Tsumeb Mines of Namibia, Kazakhstan, and the Congo.

Dioptase: That's right. Wow. You know your minerals.

Nicole: So do I.

Dioptase: I can tell. Thank you all for uncorrupting me.

Me: You're welcome Dioptase.

Dioptase and Cuprosklodoskite joined the Crystal Gems. We moved Beach City over to Gotham Royal York. We also found a miniature Crystal Gem city being built in Beach City too. It was called Little Homeworld.

Steven: (To the viewers) The power of the Crystal Gems and Team Loud Phoenix Storm has now joined forces. We will always save the day.

Me: We sure will Steven.

Nico also caught a Tyrantrum and a Heliolisk.

---

In a building, I was in the middle of a pitch black room of darkness. It was really a Clow Card.

Me: I know what this is. It's the Dark Card.

It reacted and I was right.

Bobby S.: So, any idea how we're going to capture this Clow Card?

Me: I'll think of something.

Sora: How about me and Riku help out as well?

Riku: The card is named Darkness and Light.

Me: No. This is my test. I have to take care of this myself. I still can see myself in darkness. I'm glowing! That's why I can see myself in darkness.

Then a blinding white light came out of me and it took form in front of me. It was The Light Card. 光 Light is elegant and richly dressed with lengthy, curled, pale hair. She wears a spiked crown with a stylish dress and a sun printed on her chest.

Me: Wow. Are you the Light Card?

Light Card: Yes J.D. I've been there in your heart since the seal on the Clow Book was broken.

Me: And now you've been set free?

Light Card: It was you who set me free. When you didn't give up. Even in the darkness. You acknowledged and released me. Here's a question. What can brighten the darkness and dispel the darkness?

Me: The Light.

Light Card: Correct.

Then the Dark Card appeared. 闇 Dark is regally dressed with long, straight, black hair. She wears a spiked crown and has five gems spread across her chest.

Me: Wow. The Dark Card.

Light Card: That's right J.D. My complete self. Light and Dark. (To the Dark Card) This is the one I resided in.

Dark Card: Do your best J.D. We wish for you to be our master.

Light Card: Now Seal us Together!.

Me: You got it. RETURN TO YOUR POWER CONFINED!

I held out both my hands and 2 energy cards formed and sucked in both the Light and Dark Cards.

Light Card: Trust yourself. It is your destiny to rule over the Clow Cards.

Dark Card: But the Final Judgement will come from Yue. Good luck J.D.

Me: I understand. I will be ready for him when the time comes.

I got the cards.

Light Card: We will be right by your side J.D.

Me: Thank you.

Riku: That was really well done J.D.!

Me: Thanks Riku. But I have to be ready. Yue is coming and the ultimate test will begin when the time comes.

Sora: And when that happens, we'll be right by your side J.D.

Me: Thanks guys. We all will. Me, you guys and the Clow Cards.

I was about to face the biggest test of my life. On September 14th, 2019 - the day of the next full moon will be the ultimate test to see if I am worthy of the Clow Cards.

THE END

Another Fanfiction Complete and the first corrupted Crystal Gem uncorrupted.

Steven Universe helped so many people and he helped not just the people of Earth, but also the Gems of the Gem Homeworld. He is a true hero and a saint. I watched the Steven Universe Movie 3 days ago on September 2nd and it was awesome! It deserves an Academy Award for best songs! NicoChan11 gave me the ideas for this one. Thanks man. The next Clow Cards will be the Float and the Wave Cards. Get ready to fly and get ready to surf. Let me know what you all think.

See you all next time.

# A Solarian Conspiracy

In the middle of the city I was flying after a little girl that was floating in the air and she was thinking she was flying. But in actuality it was because of a Clow Card. It was the Float Card. 浮 I saw its spirit and it looked like a hot air balloon. In its card form, Float appears as a small, hot-air balloon attached to a winged basket. However, outside of its card form, it appears as a stripy, pink and purple balloon with small wings, independent of any strings or basket.

Me: The Float Card is a card that defies gravity.

Kero: It sure does.

Me: I know.

I fired an energy beam and it hit the Float Card and immobilized it.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and formed an energy card and it sucked in the Float Card and it was a Clow Card again. I grabbed the girl and the Clow Card.

Me: Gotcha. Are you all right?

Girl: Yes. Thanks to you J.D.

Me: You're welcome.

Then I sensed another Clow Card. I saw a massive tidal wave heading towards the city.

Me: Whoa!

Kero: It's the Wave Card. It has the power to make massive waves out of existing water.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and another energy card formed and it sucked in the Wave Card and it was a Clow Card again. I got the card. 波 Wave's card form shows a stream, or waterfall; implying some affiliation with water. Wave's capture is not shown directly in the series, but Episode 36 shows that Sakura had captured it over spring break (the time period following Episode 35)

Me: Awesome!

Kero: Great job J.D.

Me: Thanks Kero.

We headed back to the estate.

---

Back at the estate, Ed was reporting to Rolf for work. He has a job working for Rolf.

Rolf: Good morning, nincompoop.

Ed: Ready for work, boss!

Ed got to work. He was peeling potatoes, cleaning the chicken coops and all of Rolf's animals.

Cosmos: Rolf, do you pay Ed for working?

Rolf: Ja Ja. I pay bundt cake for brain Ed boy a jar of quarters and 6 jawbreakers.

Julie Martin: That's great pay. Rolf, should Ed turn into Edzilla to do some of the work?

Ed: I can handle all this myself without turning into Edzilla.

Cosmos: Oh.

---

French Narrator: (French Accent) 7 and a half hours later.

Ed came back from work with a Jawbreaker in his mouth and he had a bag of jawbreakers and a jar full of quarters.

Thunderblast: How was work today, Ed?

Ed: Very good Thunderblast.

Eddy: Thanks monobrow.

Edd: Working for Rolf is a great idea Ed.

Luan: It sure is Double D.

Linka: Yep.

Thunderblast: We haven't heard from Caitlin and Dominique for a while. I hope they haven't gotten into trouble.

French Narrator: 20 Minutes earlier.

In the middle of San Francisco, California, Caitlin and Dominique were approached by the evil Countess Cassandra of the planet Solaria and her daughter Chimera.

Chimera

Chimera is the daughter of Countess Cassandra, a noble from Solaria, and a fairy who attends the Beta Academy for Fairies. She first appeared in the first episode of the third season of Winx Club.

Chimera is rude and very jealous of Stella, and always wants everything her way. When Stella is getting ready for her princess ball, Chimera tries to ruin Stella's fun.

Chimera states that she hates Stella because she is a pretty, beautiful, spoiled, and lucky princess.

Chimera is introduced in Season 3, in "The Ball of the Princess". She is first seen at a pizza place, where the Winx are, and takes the pizza that Stella was going to get. Chimera makes fun of Flora, asking her if she was made out of gumdrops, and Stella defends her, revealing that Chimera is extremely rude.

She also gets the dress Stella wants. Chimera already hates Stella and the Winx mother, Countess Cassandra would join the fray. Chimera tries to ruin Stella's hairdo while she is getting ready for the princess ball but fails to do so. The spell bounces back on her instead, making her hairstyle Medusa-like. Chimera states that she hates Stella, and (quite ironically) accuses her of being a spoiled princess. She and Countess Cassandra both meet Valtor, and he gives them powers in exchange for the power of the Second Sun of Solaria. Chimera transforms Stella into a monster called "Mon-Stella" . We see her in the eighth episode with her mother and King Radius.

She tries to prevent Stella from ruining the wedding for King Radius and Countess Cassandra (telling Stella that she wasn't on the guest list), She is defeated twice, but she dares Stella to free her and fight her again. After being defeated by Stella, Chimera and Cassandra are imprisoned in the dungeon by King Radius.

Chimera is a girl with long bluish-black hair that falls to her ankles. She wears red lipstick, black eyeshadow and has a tiny mole near her left eye. Her outfit is a lolita-style dress in various shades of purple.

The only other outfit Chimera is seen in besides her regular outfit is a red gown that is about knee length, with a long ruffle on the end. It has a pink veil in the back and three flowers in the middle going up and down. The outfit is also the outfit Stella wanted and resulted in a shopping war with Chimera winning the dress.

When Chimera was given the title of Princess of Solaria, she was granted a Ring of Solaria which also turns into a Scepter like Stella's.

Countess Cassandra

Countess Cassandra makes her first appearance in "Valtor's Mark" looking out the window, watching Stella, Bloom and Radius before shutting the curtains. When she sees Chimera spying on Stella and Bloom, Cassandra scolds her for acting out of status but expresses her own hatred for Stella as well. She believes only her daughter is suitable to be the Princess of Solaria and comforts her when Chimera becomes distress about Radius's love for his daughter.

Nonetheless, she tells Chimera that they must put on a facade to please the Crown Princess. However, she witnesses Chimera lose her cool against Stella and questions Bloom, who happily answers her about an incident between them during a shopping spree.

Later, she sees Chimera's end result of her failed attempts to irk Stella. Valtor then enters their room, offers a proposition: in exchange for the power of the Second Sun of Solaria, he will give Cassandra and Chimera stronger powers. Cassandra agrees and Valtor keeps his promise.

During the princess ball, Chimera casts a terrible spell on Stella (transforming her into a hideous monster) while Countess Cassandra puts King Radius under her control.

She is then seen on Eraklyon, commenting how Stella was a troublemaker. When Sky ordered his guards to capture the Winx, as he was under Diaspro's spell, the dragons that were released and began running amok during the celebration. This caused the guests to flee, including her and Chimera. She told Radius to keep the dragon busy and left Eraklyon with just her daughter, leaving Radius behind.

Overtime, Cassandra has slowly taken over Solaria with Radius only serving as her pawn. She ruthlessly builds and maintain the power she currently has and even threatened a servant and old friend of the king for questioning Cassandra and Chimera's rightful holding of the throne.

Before the wedding, she makes sure that Stella was not put on the guest list, and was surprised when Stella was able to stop the ceremony anyway. When the spell over King Radius is broken, he commands the guards to arrest Countess Cassandra and Chimera and banishes them.

---

Cailtin: Ok. What's going on?

Countess Cassandra (smirks): Ever seen a spydrone before? It can slip past any defenses of a building. Even magical ones. (tosses it to Caitlin)

Chimera: Smile. (takes picture of Caitlin holding the spydrone)

Countess Cassandra: Oh, how rude of us. My name is Countess Cassandra. And this is my daughter, Chimera.

Dominique: What exactly did you call us here for?

Chimera: Relax. We just want to help you two. You both used to be promising students at Beverly Hill until you met that girl Mandy and did her dirty work. And now, you two are fugitives, on the run until that admittidly dreamy Nicolas Chan can clear your names. Not much of lives, if you ask me. (smiles reassuringly) Me and my mom know what it's like to be outsiders too, girls. The four of us have a lot in common.

Caitlin: We don't have squat in common. We'd never try do anything bad to authority figures!

Countess Cassandra: Maybe you two never had a reason to.

Dominique: I get it! You two are going to use the Dark Orb in your possession to overthrow Stella's dad and become the ruels of Solaria.

Chimera: That's right. And you two are going to help us.

Caitlin: You both are crazy. There's no way we're helping you!

Countess Cassandra: I think you two will. (shows Caitlin the picture Chimera took of her) If Team Loud Phoenix Storm saw this, they'd blame you two for the attempt on King Radius. You both would become their enemies again. And then, they wouldn't stop until you both are nothing but burnt corpses. Face it, girls. You both don't have a choice. You have to help us!

Caitlin: Give us a few minutes to think this over.

Countess Cassandra: All right. But make it quick.

They went to talk in private.

---

Back at the estate we got a phone call.

Me: Hello?

Caitlin: (Whispering) J.D. it's Caitlin.

Me: (Whispering) What's the matter Caitlin?

Caitlin told me about what Countess Cassandra and Chimera were up to and I told her to play along with her until the time came. Dominique had a special tracer device that would show us where they were whenever it was needed.

Caitlin: Okay. Thank you J.D.

Me: You're welcome.

I told everyone everything Caitlin said.

Stella (Winx Club): This is bad! I thought we were rid of those traitors for good!

Rachel S.D.: I heard a lot about Countess Cassandra and how evil she is. She was banished to the Omega Dimension after she tried to usurp the throne on Solaria.

Me: So she's a power-hungry tyrant. Then we have to send her back to the Omega Dimension.

Nico: Easier said than done.

Me: Yeah.

Rachel S.D.: And to make it worse, she used Valtor's magic to try and force the king of Solaria to do her bidding.

Me: And Valtor is now dead. We killed him.

Bloom: Cassandra is a monster. She won't get away with her crimes this time.

Me: No she won't. This time she'll face the wrath of Team Loud Phoenix Storm. Lets fly!

William: Redemption Squad, let's take em down!

We were off to San Francisco, California.

---

We were flying to San Francisco, California.

Qin: Hey J.D. who is Valtor? He must be really bad.

Me: He was worse than bad Qin. He was worse than the devil himself.

I revealed all of Valtor's history

---

Valtor is a strong wizard who would love to do nothing more than to become the strongest wizard of them all. He turns people into monsters that are willingly to serve for him.

Like Bloom, he was born from the Dragon Fire but unlike Bloom however, Valtor was born from the Fire's dark side.

He was with the Ancestral Witches when they destroyed Domino. He was once a companion of Ms. Griffin when they were young. It was at this time when he met Bloom's parents who were both stronger than him.

He was sent to The Omega Dimension the day Domino was defeated. There he was frozen, intended for eternity, and was awake while frozen.

When the Trix were sent to the Omega Dimension, they released Valtor, intending to offer him up to the security snakes in their place. However, he destroyed the snakes and escaped the Omega Dimension along with the Trix, making them his minions. He took over Andros (Tides in 4Kids dub) and corrupted many mermaids, turning them into his minions while adding their power to his. His minions were branded with his symbol. To increase his power, Valtor would go to different planets and absorb their energy. The Trix would often compete with each other for his favor.

Valtor made a deal with Chimera and Cassandra to help them deal with their rival, Stella, in exchange for their eternal allegiance. Cassandra put a spell on Stella's father, King Radius, to turn him against her and make Chimera princess of Solaria, but Stella later broke the spell. Valtor recognized Bloom and confronted her on Andros, but he did not wish to fight her when she was too tired to fight, as it would not be satisfying. When Layla confronted him, he cast a spell to blind her, although she was later able to reverse this. Valtor also gave Sky's ex-fiancee Diaspro a potion to put Sky under a spell to make him love Diaspro and attack Bloom; however, Stella broke this spell and Diaspro was banished.

Valtor eventually decided he didn't want Andros as his base anymore so he relocated to Cloud Tower, taking it over, imprisoning Griffin, and brainwashing the other witches into "zombie witches". He later decided to destroy Andros by opening a portal to mix its positive energy with the Omega Dimension's negative energy. He was content to leave the brainwashed mermaids to die with Andros, viewing them as expendable. Tecna was able to close the portal, though she was trapped in the Omega Dimension in the process (although she later escaped with the help of the Winx and specialists).

Because of this, Bloom, Stella, Flora, Musa, and Layla sought revenge on Valtor. They confronted him at Cloud Tower and fought him, but he gained the upper hand, telling Bloom that he killed her parents Oritel and Miriam. This gave Bloom further motivation for revenge, however, using a spell he gained from Planet Oppositus, he turned her fire into ice and froze her with it. Faragonda, Griffin, and Saladin arrived to fight him while the other Winx released Bloom and Stella teleported them out, causing Valtor's next attack to hit the Trix instead.

Valtor eventually relocated to a new base, in a cave in the forest. He later challenged Faragonda, Griffin, and Saladin to a battle, but made them fight each other with an illusion while trying to steal the scrolls from Alfea. Bloom defeated him with the Water Stars, which are the opposite power of dragon fire. But before Bloom could kill Valtor, he told her that Oritel and Miriam were really trapped inside him due to an absorption spell he cast, and destroying him would do the same to them. Although Valtor escaped, Bloom later heard from the Ancient Witches that this was a lie, and her parents were really in another dimension.

Using the Spell of the Elements, Valtor flooded Cloud Tower, sent tornadoes at Red Fountain, set the forest around Alfea on fire, and caused an earthquake at Magix. The Winx fought Valtor below the lakebed but he transformed into a demon and used a talisman to control the power of the water stars and use them against Bloom. However, Bloom used fairy dust to open the box he contained his spells in, undoing all his spells. When the lakebed returned and the cave began to flood, the Trix abandoned Valtor, who was seemingly killed when the cave flooded.

However, Valtor returned and captured most of the specialists, imprisoning them in Tides while controlling elements - having held onto the Spell of the Elements - to take the forms of them and fight the Winx. These clones disappeared when Bloom knocked Valtor out with a fireball. The Ancient Witches, unable to act on the outside world from the dark world but able to act on Valtor, cast a spell to take away his wizard form and turn him back into a demon forever. Bloom separated her flame from her and entered that of Valtor, where Valtor appeared and attempted to get Bloom to work with him against the Ancient Witches, but she declined his offer and used fairy dust to extinguish his flame, destroying him.

In the 4Kids version, Bloom uses fairy dust upon entering Baltor's mind, but this only removes the Ancient Witches' spell. After Baltor tries to make the deal, Bloom says her dragon fire will fight Baltor's dragon fire until one is put out, and extinguishes Baltor's flame with

Dragon Fire Fury, destroying him and sealing his essence in Oblivion.

---

Qin gasped in sheer horror.

Qin: He was pure evil!

Me: And we all killed him in the Omega Dimension. But his minions the Trix were worse.

Qin: The Trix?

Rachel S.D.: Icy, Darcy and Stormy. They were the ultimate epitomes of pure evil.

Rachel revealed the history of the Trix.

---

At the beginning of the first season, the Trix seemed to be more powerful than the Winx Club (with the exception of Bloom), as seen in the episode Spelled where they were able to get the better of the fight, and would have won had Bloom not intervened. For most of the first season, they attended the Cloud Tower School for Witches until they are all expelled after they created the Nightmare Monster in the episode The Nightmare Monster that failed to accomplish its purpose. The Trix stole the Dragonfire and summoned the Army of Darkness/Army of Decay to take over the realm of Magix, but Bloom defeated Icy with her dragon fire while the other Winx defeated Darcy and Stormy.

For the next two seasons they had powerful allies. After being sent to Lightrock Monastery, in the second season it was the infamous Lord Darkar who released them and gave them their Gloomix to increase their power. Darkar double-crossed the Trix in the end before he was killed and they were imprisoned in the Omega Dimension. In the third season, they joined up with Valtor and the three witches competed for his affections, before finally leaving him when he assumed his original, demon-like form and lost all the spells he had stolen when he was fighting Bloom in the 25th episode. Afterward they are sent back to Lightrock Monastery.

They returned again in the second movie, where they sneak into Alfea during the beginning of year festivities, putting a spell on all the food there so that everyone who ate some of it was turned into a toad, and stealing a magical compass which they used to lead the Ancestral Witches to the Tree of Life found in the Pixie Village. The Ancestresses proceeded to absorb all the essence of Good from the Tree, causing all good magic to disappear, and only evil magic to keep on existing. At the end of the movie, the Winx Club, the Specialists, Oritel and Erendor arrive at the haunted city of Havram to find the branch of the Tree of Life which the Ancestresses gave to the king of Eraklyon as part of the deal which forced him to help the Ancestral Witches in exchange for their sparing his kingdom. There, the Trix and their Ancestresses were waiting for them, but the Winx Club girls gained back their powers and Bloom's horse, Peg, became a flying unicorn thanks to the magical branch. Finding the Trix too weak to defeat the Winx Club, the Ancestresses try to possess the Trix, but they attempt to flee as the old witches capture them and possess their bodies. The Trix, now possessed by their ancestors, have become more powerful than ever, as well as mere puppets possessed by the Ancestral Witches. The Winx, the Specialists, Oritel and Erendor take part in the battle, but Erendor is severely wounded trying to save Bloom from Icy-Belladone. Finally, using a Believix convergence, the Winx Club are able to summon the essence of the Great Dragon and extract the Ancestresses from the bodies of the Trix. The Great Dragon's power destroys the Ancestral Witches for good, and the Trix, defeated, fall unconscious to the ground. Helia ties them with a rope and, as the movie ends, they are shown as being suspended from the flying ship the Winx, the Specialists, Oritel and Erendor use to leave Havram, getting angry as Bloom and her fiends fly around them and tease them.

Qin: Those monsters!

Me: They were monsters Qin. And when we met Rachel here, we killed them and sent those fucked up arrogant malignant freaks off to Hell where they belong.

Bloom: Yeah.

Flora: They deserved it.

Musa: They were a menace to everyone in the universe.

Tecna: (British Accent) Agreed. They should've never been allowed to live after we banished them to the Omega Dimension.

Me: You got that right girls.

Nico: The Trix and Valtor have failed this entire universe.

Me: And paid the ultimate price for their crimes.

Rachel S.D.: Yep.

Varie: Good riddance.

Then I received a signal from Dominique's tracer.

On my device it showed that it was coming from a warehouse on the San Francisco Wharf.

Me: There we go! Lets go!

We were flying to the wharf.

---

Caitlin: Your plans will never succeed Cassandra!

Dominque held up the beeping tracer.

Countess Cassandra: You both betrayed us! Who's coming?

Caitlin: Just Team Loud Phoenix Storm!

Chimera: Oh please! They're all too busy trying to clear your names!

Dominique: Actually, they're gonna finish that when they get here!

A Massive fiery explosion blasted through the roof of the warehouse and a phoenix cry was heard and we landed.

Me: Countess Cassandra and Chimera.

Bloom: I thought we were rid of you ugly freaks for good!

Chimera: You ruined my life Bloom!

Musa: You brought all that on yourself Chimera!

Stella: It's bad enough that you brainwashed my father before! But now you're trying to ruin Caitlin and Dominique's only chance to get their lives back?!

Naruto: You're just as ruthless as the Trix and Valtor together.

Countess Cassandra: Valtor's magic helped me do great things.

Me: Valtor is dead. We killed him and erased all of his magic.

Countess Cassandra just shot a power dampening collar at my neck.

Countess Cassandra: (smirks) Ha! I'm not making the same mistake Yewh made! Without your powers, you're nothing!

I grabbed the collar and destroyed it.

Me: Nice try. But my powers are so strong that they can now predict where a villain is going to attack and with what.

Nico: Countess Cassandra and Chimera, you have failed this world!

Me: And all of Solaria! Lets get them!

We went at them and powered up and we were ferociously pulverizing them into oblivion! I punch Countess Cassandra in the face and sent her crashing into a bunch of crates. Caitlin kicked her in the stomach and punched her in the face and knocked out some of her teeth. Lola fired a powerful blast of fire and burned Cassandra and she bit Cassandra in her leg to the point where Lola drew blood. Lana fired a powerful blast of ice lightning and froze her arms.

Lincoln fired a massive blast of lightning and electrocuted both Cassandra and Chimera with 500 quadrillion volts of electricity.

Carol: You will never be worthy of King Radius's love!

Carol fired a powerful blast of King Ghidorah's Gravity Lightning and it hit Chimera and exploded all over.

Chimera fired a powerful blast of magic at Carol. But Carol used Rodan's Mach 6 hurricane winds at 4,603 miles per hour and it blew Chimera into a bunch of crates with devastating force!

Vince: WOW! That was awesome!

Me: No kidding partner. That was powerful!

Erika: Biollante's power will be our mark on her.

Erika fired some radioactive sap from one of her plant mouth vines and it hit Cassandra on her face and she screamed in excruciating pain as it was burning her.

Me: Time to show them some teamwork!

Cosmos: Roger that! CYBER KEY POWER!

The Autobot Cyber Planet Key went into Cosmos back and it enhanced his high-powered particle beam 100-fold.

Julie Martin: Time for action! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm device and it enhanced her Ice Powers 100-fold.

Cosmos and Julie Martin: ABSOLUTE ZERO FREEZE BLAST!

Cosmos fired his particle beam and Julie fired a powerful ice beam and the blasts combined and froze Chimera in ice up to up to her chest. She was shivering in extreme cold.

Thunderblast: Lets do this! CYBER KEY POWER!

The Earth Cyber Planet Key went into her rocket launcher and turned it into a bigger rocket launcher.

William: Action Time! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his elemental blaster 100-fold.

Thunderblast and William: ELEMENTAL MISSILE BARRAGESTORM!

Thunderblast fired a powerful laser missile and William fired powerful blasts of the elements from his blaster and they combined and hit Countess Cassandra and exploded.

KRABBBOOOOOOOOOOOOOOOOMMMM!

Kitten pulled out a laser whip.

Kitten: This is for hurting Caitlin and Dominique! LASER WHIPLASH DISEMBOWELMENT!

Kitten slashed Chimera with her laser whip and disemboweled her.

Caitlin: This is for trying to send us back to prison with Mandy! LIGHTNING VINE ELECTROCUTION!

Caitlin formed a whip made of pure lightning and wrapped it around Countess Cassandra and electrocuted her with 800 sextillion volts of electricity! She screamed in excruciating pain.

Me: Wow! That was powerful!

Nico: No kidding!

Stella (Winx Club): This is for my planet and my family! SHINING SUN RAINBOW BURST!

Stella fired a powerful blast of rainbow energy and it slammed into Countess Cassandra and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Nico walked up to them and placed their hands on them and stripped them of their powers and magic abilities.

Nico caught an Aurorus and Sylveon during the battle.

We went to the planet Solaria and it was a beautiful planet and we were there to send Countess Cassandra and Chimera off. We banished them into the Omega Dimension for all eternity without their magic and abilities. Countess Cassandra was stripped of her title, disgraced and forever exiled into the Omega Dimension for all eternity.

Stella (Winx Club): (To the viewers) Traitors like Cassandra and Chimera will never be welcome in our universe. Never again will they be welcome here.

Me: You got that right Stella.

---

We were later back in the courthouse presenting new evidence about what happened with Mandy and how she forced Caitlin and Dominique into doing her bidding.

Me: So you see, your honor, Caitlin and Dominique were forced to do Mandy's bidding against their will because she threatened to kill them if they didn't.

Judge Katie Rockell: Well, due to recent evidence that's come to light, Caitlin Fiona Salazar and Dominique Maureen Holhauser are both cleared of all charges. But they'll be placed on the Redemption Squad as community service. (to Maria) I hope that's okay with you, honey.

Maria: Don't worry, Mom. I'm fine with it.

Caitlin: Thank you your honor. We are so sorry about everything we did. Mandy forced us to do all those things against our wills. We were too scared to stand up to her. She threatened our lives.

Judge Katie Rockell: That's understandable.

Me: This is a whole new low for Mandy. She is a fiend in Capital

Letters.

Caitlin and Dominique's parents apologized to them and they forgave them. Caitlin and Dominique were placed into the Redemption Squad.

THE END

Another Fanfiction Complete and another villain of the Winx Club brought to justice.

Countess Cassandra and Chimera were pure evil traitors. They were pure evil and selfish to the core. NicoChan11 gave me the ideas for this one. Thanks man. The next Clow Card is the Twin Card and the Freeze Card. I hope you don't end up seeing double and you better Bundle up. Let me know what you all think.

See you all next time.

# Malevolent Aliens of The 31st Century

In the neighborhood, Poromon and Poliwag were being chased by a rabid dog! It was a bulldog and it was really foaming at the mouth! A telltale sign that it had rabies.

Poromon: You'll never take us alive, you dumb dog!

Poliwag: YEAH!

What the dog didn't realize is that the dog was being lead into a trap.

Poromon and Poliwag got onto Gears hand.

Kira: That dog really needs to get his shots!

Me: No kidding Kira.

Gears: (smirks) Go ahead, dog boy. Bite me. Then, you'll lose your teeth!

It bit Gears hand and all its teeth fell out of its mouth. Then a net slammed onto him and he was caught by animal control.

Animal Control Officer: Thanks for helping us out guys. We've been after Frothy here for weeks.

Me: Anytime officer. This dog needs to be locked up and have the key thrown away.

Animal Control Officer: You got it J.D. Thanks again.

He put Frothy in the truck after Tranquilizing it and they left.

Me: That's it for that dog.

Nico: You said it J.D.

Me: That was clever planning guys.

Poromon: Thanks J.D.

Poliwag: Me and Lana thought of the plan.

Lana: No need to thank us.

In the backyard, Sonia and Rice were having a contest to see who can transform the fastest.

Sonia: You are going down Rice.

Rice: We'll see Sonia.

Sinnertwin: On your marks. Get set. GO!

They concentrated and they were transforming and Sonia turned into her scorpion form and Rice turned into her Female Razorfist form and they were done.

Livewire: How do you two feel?

Female Razorfist: Amazing.

Livewire: It's a tie for both of you. You both have speedy transformations.

Me: They sure do.

Earlier I caught the Freeze Card when it was freezing people in Sakura's Ice Skating tryouts. 凍 Both Freeze's visible form and Card form resemble a giant veiltail (a species of goldfish) seemingly composed of ice, with a large gem on its head. In its Card form, it simply looks like a fish with geometric fins. However, in its visible spirit form, it is more menacing in appearance.

It was a menacing card and it nearly turned a lot of us into Ice Sculptures. But I beat it with the help of The Firey Card and some intense fire and caught it.

Now we were watching a movie. We were watching Titan A.E. from the year 2000.

In the year 3028, humanity has mastered deep space travel and interacted with several alien species. A human invention called "Project Titan" alarms the Drej, a pure energy-based alien species. As the Drej start to attack Earth, Professor Sam Tucker, the lead researcher for "Project Titan", sends his son Cale on one of the evacuation ships with his alien friend Tek while Tucker and other members of his team fly the Titan spacecraft into hyperspace. The Drej mother ship arrives and fires a directed-energy weapon into the planet that completely destroys Earth, while debris from the explosion also destroys the Moon. The surviving humans become nomads, generally ridiculed by other alien species.

Fifteen years later in the year 3043, Cale works at the salvage yard in an asteroid belt called Tau 14. He is tracked down by Joseph Korso, captain of the spaceship Valkyrie. Korso reveals that Tucker encoded a map to the Titan in the ring he gave Cale. Tek tells Cale that humanity depends on finding the Titan. When the Drej attack the salvage yard, Cale escapes aboard the Valkyrie with Korso and his crew: Akima, a human female pilot, along with Preed, Gune, and Stith, aliens of various species.

On the planet Sesharrim, the Gaoul interpret the map, and discover the Titan hidden in the Andali Nebula. Drej fighters arrive, capturing Cale and Akima. The Drej eventually discard Akima and extract the Titan's map from Cale. Korso's crew rescues Akima, while Cale eventually escapes in a Drej ship, and rejoins the group. Cale's map has changed and now shows the Titan's final location.

While resupplying at a human space station called New Bangkok, Cale and Akima discover that Korso and Preed are planning to betray the Titan to the Drej. Cale and Akima manage to escape the Valkyrie, but they are stranded on New Bangkok when Korso and the rest of the crew set off for the Titan. With the help of New Bangkok's colonists, Cale and Akima salvage a small spaceship named Phoenix and race to find the Titan before Korso does.

Cale and Akima navigate through the ice field in the Andali Nebula and dock with the Titan before the Valkyrie arrives. They discover DNA samples of Earth animals, and a pre-recorded holographic message left by Professor Tucker who explains that the Titan was designed to create an Earth-like planet. However, due to its escape from Earth before its destruction, its power cells lack the energy necessary for the process. The message is interrupted by the arrival of Korso and Preed. Preed reveals himself to be a mercenary for the Drej and betrays Korso while holding him, Cale, and Akima at gunpoint. Preed attempts to kill all three of them for the Drej, but he is killed by Korso. He and Cale then fight until Korso falls into the depths of the ship.

Moments later, the Drej attack the Titan. Given the fact that Drej are, essentially, beings of pure energy, Cale realizes that modifying the Titan to absorb them will re-energize the ship. In order to put this plan into effect, Cale must repair significant parts of the ship; he sets off to do this while the remaining crew of the Valkyrie distract the aliens. Korso, who survived, shows up and helps stall the Drej and then sacrifices himself to complete the repairs. The Titan absorbs the Drej mothership along with everything aboard, and uses this gained power, along with the ice field, to generate a new, habitable planet.

Cale and Akima stand in the rain, gazing at the beauty of their new home and discuss what this planet should be called. Stith and Gune do a fly-by on the Valkyrie as colony ships, filled with humans anxious to start life anew, approach.

When the movie was done we cheered.

Lana: That was so awesome!

Laney: It sure was. But the Drej were absolutely pure evil.

Me: They were. But what they were doing is major intergalactic hate and bigotry to the core.

Nico: The Drej are terrifying looking.

Lily: I'm not that familiar with alien species but what are the Drej?

Me: Lets see.

I looked them up on the computer.

The Drej are a race of malevolent energy-based aliens and the central antagonists of the 2000 film Titan A.E.. They despise humanity due to an expermental discovery called Project Titan which made them become alarmed and declared war, and they intend to get rid of all humans from the universe, in order to be the only dominant species in the galaxy.

The prologue of this movie is set in the year 3028 AD, then flashes forward 15 years to the year 3043. The film focuses around a young man named Cale Tucker, and a special ship called the Titan. In 3028, Earth is destroyed by the Drej, a malicious race of aliens that are made of pure energy. The ship in which they travel is called the Alahenena, supposedly the Drej language term for planet killer. This ship positions itself over the North Pole of Earth and fires an energy beam at it, causing the planet to spin faster and faster, until centrifugal force overpowers gravity, thus causing Earth to fly apart at the seams.

Not much is known about the Drej, other than the fact that their social structure is much like that of bees, with a queen and several armies of drones. One thing to notice about the Drej is that the queen is the only one who has eyes; the rest are eyeless drones.

The Drej have two primary modes of transportation; the large mothership called the Alahenena, and swarm upon swarm of smaller ships called Stingers. The Stingers are very aggressive looking; a small central fuselage with a pair of sharp fins on the back and another pair on the sides, and a pair of long arms coming up at an angle from the sides, then leveling off, and coming back down at a slight angle inward toward each other. After Cale was taken prisoner aboard the Drej mothership, he managed to escape and steal a Stinger, which he then flew back to the starship Valkyrie. Captain Joe Korso and his crew did not know that our hero was aboard the Drej Stinger; Stith fired a few shots, which Cale manage to dodge by manipulating bolts of energy on the ship's seat. The starship Valkyrie picked up the stolen Stinger, and Mr. Tucker dropped out of the bottom of the ship.

Physiology

The Drej are not much different from our species, yet they are made of bright blue pulsing energy. They're not corporeal entities, yet they have a physical form which appears to be both skeletial and humanoid. Their ships are also made of energy, a fact that young Mr. Tucker exploited. You won't need a dictionary to know that the Drej were victims of bad karma. Mr. Tucker reconfigured the Titan's systems to use that very energy from which are Drej are made; they and their ship and their queen were absorbed into the interior of the starship Titan, and as she awakened from her 15 years slumber, she unleashed that energy in three violent bursts. These bursts created three beams, each long enough to span a planetary radius. This created a gravity well, which caused all material around the Titan's position to coalesce into a hot clump of molten matter, thus giving new life to a planet upon which the human species could live.

---

Lily: Wow! The Drej look terrifying just by looking at them.

Lola: No kidding and they are made of pure energy.

Lisa: They are creatures that appear to be extradimensional in terms of interstellar study.

Bella: They look like creatures from another galaxy.

Ben: That's just what I was thinking.

Me: Hmm. Let me see here.

I looked up their info and the computer showed that they come from the Black Eye Galaxy, 24 million light-years away from Earth. Their planet Dreja, and their solar system was completely destroyed when their Solar System's star exploded in a massive hypernova explosion and they built their mothership and the stingers as the only form of travel to cruise the stars. But they hate only one race above all others: Humans. They want to kill us all so they can replace us as the dominant species of the galaxy.

Me: This is insane! We didn't do anything to the Drej and they think that they can kill us all in one fell swoop!?

Laney: That is insane!

Me: I know. We can't let the Drej do this. We can give everyone that survived Earth's destruction at the hands of the Drej a home again in our time and we can give them a better future anew.

Nico: Lets do it.

Me: To the simulator guys!

We went to the simulator.

We were gonna use the U.S.S. Valor to fight the Drej Mothership and bring the Titan and the survivors of Earth to our time.

---

We got in the U.S.S. Valor and we opened a portal into the simulator. The portal opened to the year 3043 - 1,024 years into the future. We were off.

We arrived in the 31st Century. It was much different than what I remember.

Me: Captain's Log, Stardate 2754.3: We are in pursuit of the evil intergalactic energy alien race called the Drej. They have destroyed the Planet Earth and our mission is to get retribution on the Drej by destroying them, find the planet creating ship called the Titan and bring it and the remaining survivors of Earth to the 21st Century for a new home.

Lisa: The Drej are gonna rue the day they messed with the entire human race.

Me: Indeed they will. No one destroys our home and lives to tell about it.

Lincoln: Yeah!

Lori: I will literally turn all those freaks into Drej Pretzels!

Me: I don't think their physical structure is like that Lori.

Lori: Oh.

Lisa: Captain, sensors are showing high energy readings on a planet up ahead.

Me: That's the Drej.

We arrived at a red planet with a broken moon and we saw 2 Drej fighters flying away from the planet.

Me: Follow those fighters.

Lola: Aye Aye captain!

We were in pursuit of the Drej fighters.

Lisa: Sensors are reading that the fighters have 2 humans on board.

Me: Sakura, lock onto the humans in the ships and beam them aboard.

Sakura: Ready to beam J.D.

Me: Energize.

Sakura: Energizing.

She activated the transporter and it beamed aboard Cale Tucker and Akima Kunimoto.

Cale: Whoa!

Sakura: We got them through J.D. It's Cale and Akima.

Me: Have them brought to the bridge. All Hands Red Alert.

The laser guns fired and blew the fighters apart and destroyed them.

Me: Yeah! All hands go to yellow alert and stand by battle stations.

Cale and Akima were brought to the bridge.

Cale: Wow. What's going on here?

Me: Forgive me for bringing you both here. Sorry I'm J.D. Knudson. Leader of Team Loud Phoenix Storm.

Cale: Wow! It's truly an honor!

We shook hands.

Me: It's a pleasure to meet you Cale and you too Akima.

Akima: Same to you J.D. How did you guys know we were in trouble?

Me: We have our ways. We're here to destroy the Drej and bring you all to our planet Earth in the 21st Century.

Cale: We would like that.

Akima: 21st Century? That was 1,000 years ago.

Me: You would be amazed at what kind of technology we have in the year 2019. We came here to give the survivors of Earth a home again in our time after we kill the Drej and find the Titan.

Cale: We are forever grateful that you came J.D. The Titan is located in the Andali Nebula.

Me: That's 600 light-years from our current position.

Cale: Here's the map of where it's at.

Cale showed me a special tattoo on his hand and it was a map to where the Titan was located. It was a strange glowing map of the stars.

Me: Very interesting way to find it.

Hunter: (German Accent) Ja. This is a really interesting map.

Me: It sure is Hunter.

Lisa: In the wrong hands, the Titan could either create a planet or destroy it.

Me: That's right.

Cale: So Earth is ok in your dimension?

William: Of course it is. When we're finished, you can see it.

Cale: I would like that. We all would.

Lisa: Captain, sensors have picked up a huge energy spike 1 light-year ahead of us.

Me: That's the Drej. On screen.

On the View Screen we saw a glowing dark blue light up ahead.

Me: Magnify.

The screen zoomed in and it showed that it was the Drej Mothership!

Me: It's the Drej Mothership. Red Alert!

The alarms sounded and everyone manned their battle stations. We were ready for them.

The Drej Queen saw our ship coming.

Drej Queen Susquehana: (In an alien language) **Ship incoming. Destroy them.**

The Mothership sent a bunch of fighters coming.

Me: We need to immobilize the mothership and face the Queen and the rest of the Drej inside.

Luna: Good idea.

Me: Here they come guys. Shields up. FIRE AT WILL!

We activated our shields and fired lasers and proton torpedoes at the ships and blew them all apart and we fired our proton torpedoes at the Drej mothership and blew the planet killing laser to dust. We blasted the propulsion system of the ship and blew it apart. Immobilizing the ship.

Me: The ship is now a sitting duck. We've got them. Lets board the ship!

We got up to it and went inside it via a space tube.

We got onto the ship and we saw that the ship was made entirely of pure energy like the Drej.

Me: Wow. Even their ship is made of pure energy.

Lincoln: This is amazing.

Linka: I can't believe they have a ship of pure energy.

Varie: It's amazing.

Bella: This is incredible. Energy-based aliens traveling the stars in a ship of pure energy.

Two Drej were walking down the hallway of the ship. They were unaware that Eddy was was behind them, aiming his blaster at them.

Eddy: (smirks) Bang. (pulls trigger)

He fired his blaster and blew them into a million shards.

Me: Nice shot Eddy.

Another Drej appeared and I got behind it and touched it with my Omnitrix and it sampled its DNA.

Omnitrix: Uncatalogued DNA acquired.

Me: Wow! An Intergalactic Alien sample. Lets see what it can do!

I went Ultimate J.D. and activated the Drej power and I fired an ion energy blast from my hand and it went through the Drej and destroyed it.

Me: WOW! That was amazing!

Ben: That was awesome J.D.!

Me: Thanks Ben.

Ben: You're welcome. I got a Drej alien now as well.

Bella: Same here.

Ben: What are you gonna call the Drej sample?

Me: Hmm. How about Ionstorm?

Ben: That's perfect.

Bella: Ionstorm is a great name.

A Drej stepped into a puddle but Maria emerged from it in her water form and quietly tore its head off.

Maria: Alright, Horsea. You can come out now.

Horsea did so.

Inside the ship we saw in the prison hold Capt. Joesph Korso and Preedex Yoa - An Akrennian.

Cale: Korso! Preed!

Korso: Kid. Thank goodness you're all right.

Cale: Same here. Thanks to Team Loud Phoenix Storm and everyone here.

Me: Captain Joseph Korso. It's a pleasure to meet you.

Korso: You too J.D. We heard so much about you and all the brave deeds you did.

Me: We also came here to kill the Drej. But I'm afraid you are being used as a pawn by Preed here.

Korso: What are you saying J.D.? Preed is my first mate.

Ben: Korso, can't you see Preed's just using you? As soon as he gets what he wants, he's gonna toss you out like yesterday's garbage!

Me: Ben is right.

Preed: And he is.

Preed pulled out a laser gun and I got behind him and snapped his neck and killed him.

Laney took his laser gun.

Laney: I could use this for good measure.

Me: Okay.

Korso: You were right J.D. Thank you.

Me: No problem Korso. Lets destroy the Drej together.

Korso: No. You guys can't beat the Drej. No one can. They're pure energy.

Me: No. We CAN beat the Drej. Our best hope to destroy them is with energy weapons and energy blasts. Our lasers and proton torpedoes on our ship destroyed the fighter ships and immobilized the mothership.

Korso: Okay.

Me: Lets do it.

We walked all over the ship and we found the main throne room.

Me: Wow. The main throne room.

Drej Queen Susquehana: (Alien Language) **Pathetic Humans. Welcome.**

We saw DREJ QUEEN SUSQUEHANA!

What is little known about Susquehana is that she comes from a special matriarchal hierarchy of powerful Drej known as Drej Queens and she rules over her people with an iron fist.

In the year 3028 AD, she ordered her drones to destroy the planet Earth. Their attempt was successful, although several humans managed to escape into space.

Many years have passed and Susquehana and her drones spotted humans at Tau 14. At the planet of the Gaol, she captures Cale Tucker and Akima Kunimoto and imprisons Cale and sends Akima off into space, but Cale manages to escape and meet up with the crew of the Valkyrie. When the crew of the Valkyrie discover the location of the Titan, Joseph Korso, the captain of the Valkyrie, and his first mate Preed betray their comrades by exchanging the location of the Titan for cash from Susquehana.

The Valkyrie's crew arrived at the Titan near an ice ring to destroy the Drej and create a new Earth. As the Titan activates, Susquehana and the rest of her Drej army were incinerated, as their bodies were made of energy. However, other Drej and Drej Queens could still be out there that were not part of her army.

---

Me: Drej Queen Susquehana!

Drej Queen Susquehana: (Alien Language) **That's right. So the mighty J.D. Knudson of Team Loud Phoenix Storm is helping the disgusting humans rebuild Earth.**

Me: And destroy you as well! You will pay for your crimes against the human race!

Laney: You are a monster from the darkness of Hell!

Me: We won't let you destroy the Human Race, Susquehana!

Drej Queen Susquehana: **We shall see about that! Destroy them all!**

We transformed and powered up and we went at all of the Drej!

We blasted and blew them all apart. I fired an ion energy blast and blew 5 Drej apart and shattered them. Varie fired a powerful blast of water and they disintegrated. Carol fired a powerful blast of Godzilla's Atomic Ray and it caused them to overload and explode! Nico fired a powerful blast of fire and incinerated them into shards and ash. Lola fired a powerful blast of fire and burned them and they shattered. Laney formed a bunch of plants and slashed them with energy vines.

Lincoln: You Drej are a menace to all humans!

Lincoln fired a massive blast of lightning and overloaded the Drej and blew them apart.

Lana fired a blast of ice lightning and froze the Drej into ice and shattered them.

Hunter: You will never be welcome in the Universe you Bösartige Naturfreaks! (Malignant Freaks of Nature)

Aylene C. fired a massive blast of fire and burned a bunch of Drej. Earth fired massive globs of lava and melted the Drej.

Once we destroyed all the Drej we set our sights on Drej Queen Susquehana.

Me: You are next Drej Queen. Lets show her some teamwork!

Gears: You got it boss! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and enhanced his strength and power 100-fold.

Kira Ford: Time for some power and more! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm and enhanced her weapons and powers 100-fold.

Gears and Kira Ford: HYPERSONIC ENERGY CRYSTAL

SHRAPNELSTORM!

Gears threw a huge chunk of the ship at the Queen and Kira used her enhanced Ptera Scream and it shattered the chunk into shards and shattered and they hit the queen and skewered her.

Sinnertwin: Lets do it! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his weapons and power 100-fold.

Livewire: Lets do this! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and enhanced her powers 100-fold.

Sinnertwin and Livewire: SUPERLIGHTNING DEATH RAY EXPLOSION!

Sinnertwin fired a powerful barrage of bombs and Livewire fired a massive blast of lightning and they slammed into the Queen and exploded.

KRABBBBOOOOOOOOOOOOOOMMMM!

Me: No more Susquehana! No more lives will suffer at your hands because of your own hatred!

Nico: Drej Queen Susquehana, you and the Drej have failed this Universe!

Lisa: Time for you to die! PERIODIC TABLE DEATHBURST!

Spiritual energy in the shapes of the symbols of the Periodic Table appeared and they went at Susquehana and slammed into her and exploded!

Cale: This is for my father and our planet! EARTH DRAGON TITAN!

Cale fired a massive blast of energy from that showed the land of Earth and what it was before the Drej destroyed it and it turned into a powerful dragon and it slammed into the Queen and killed her instantly.

Me: Go to hell.

The Queen of the Drej and the Drej in its entirety was destroyed.

We went back to the ship and fired a superlaser blast at the Drej Mothership and destroyed it into nothing.

Me: Go to Hell Drej.

The Drej were destroyed and the lives that were destroyed by them were avenged.

Me: Now we have to find the Titan and the survivors and bring them to our Earth.

Cale: Okay.

Me: Set course for the Andali Nebula.

We went to the Andali Nebula and we arrived and it was an incredible nebula. We did a scan and we found the Titan Ship in a ball of ice and we used a tractor beam to get out out and we got the ship.

Me: Wow. So that's the Titan. It's amazing.

Cale: It sure is.

Me: Lets get you all home.

Nico: Yep.

We got the survivors into the 21st century and it was gonna take a while for them to adjust to the 21st century. But we saved the Human Race from extinction at the hands of a malevolent nightmare.

Cale: (To the Viewers) A malevolent race will never be a match for the power of the will of the human race. Never mess with the power of Team Loud Phoenix Storm and the power of the human spirit.

Me: You said it Cale.

It was a great time. Nico caught a Hawlucha and a Dedenne when we got back and Bonnie can give him some pointers.

Later I sensed a Clow Card in the area and I found a bunch of duplicates of different things. I saw two exact buildings and two exact people and more. I rubbed my eyes to confirm it.

Me: Either I'm starting to go insane or there are twin objects and people?

Kero: This is the work of the Twin Card.

Me: The Twin Card? Are they the Twin?

We saw the Twin Card. 双 Twin's visible form is two, pastel-yellow, small children wearing costumes like those of jesters; with long sleeves, two pointed hats topped with pom-poms, many-pointed collars ending in pom-poms, pom-pom buttons down their fronts, and shoes with long toe points ending in pom-poms. One of them has a pink tuft of hair on the forehead, while the other has a blue tuft, implying they are a girl and a boy (fraternal twins), respectively.

Kero: That's the Twin Card.

Me: Wow. Okay then.

I knocked them down.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and sucked in the Twin Card. They were a Clow Card.

Me: Yes!

With 7 more days to go before the Big Test with Yue, I had to kick it into high gear. We had 6 days left till the Anti-Fairy War.

THE END

Another Fanfiction Complete and a malevolent extraterrestrial race destroyed.

Titan A.E. is one of my all time favorites. It's one of the most amazing science-fiction movies ever made. But the audience lost interest in it. But it was still a great movie because of the plot and more. NicoChan11 gave me the ideas for this one. Thanks man. The next Clow Cards are The Sand and The Through. Let me know what you all think.

See you all next time.

# Money Can't Buy Everything

At a local graveyard in Missouri, we were at two graves with the names of Qin's parents on them. We were paying our respects to them whose lives were senselessly cut short by the evil Russian Mafia. Rendering Qin an orphan forced to live on the streets.

G1 Bumblebee: So this is the graveyard where your parents were buried, Qin?

Qin: Yes.

Scrapper: Before you say anything, Scavenger, you can't put more dirt onto the graves of Qin's parents.

Hook: Yeah. We don't want to defile those graves.

Scavenger: I know.

Lincoln: I can't believe that the Russian Mafia did this.

Me: The Mafia is pure evil. They have zero respect for the law and have absolutely no regard for the value of human life at all.

Nico: I know.

Venom: We just wish we were there to kill those mobsters before they murdered your family!

Me: I know Venom. But they are already dead. I brought them all to justice and killed every single one of them. Interpol did the rest and either brought them to prison or killed them.

Venom: Good riddance.

Laney: Yeah.

Qin: I still remember the lullaby my mom would sing to me every night.

Me: Can we hear it?

Qin: Sure.

Qin sang Secret Garden's Sleepsong.

Qin: (Singing Divinely)

Loo-li, loo-li, loo-li, lai-lay

Loo-li, loo-li, loo-li lai-lay

Lay down your head and I'll sing you a lullaby

Back to the years of loo-li lai-lay

And I'll sing you to sleep and I'll sing you tomorrow

Bless you with love for the road that you go

May you sail far to the far fields of fortune

With diamonds and pearls at your head and your feet

And may you need never to banish misfortune

May you find kindness in all that you meet

May there always be angels to watch over you

To guide you each step of the way

To guard you and keep you safe from all harm

Loo-li, loo-li, lai-lay

May you bring love and may you bring happiness

Be loved in return to the end of your days

Now fall off to sleep, I'm not meaning to keep you

I'll just sit for a while and sing loo-li, lai-lay

May there always be angels to watch over you

To guide you each step of the way

To guard you and keep you safe from all harm

Loo-li, loo-li, lai-lay, loo-li, loo-li, lai-lay

Loo-li, loo-li, loo-li, lai-lay

Loo-li, loo-li, loo-li lai-lay

Loo-li, loo-li, loo-li lai-lay

Loo-li, loo-li, loo-li lai-lay

Loo-li, lai-lay

We saw the beauty of the aurora borealis appear and it was beautiful and when the song was done we were crying.

Lana: (Crying) That was beautiful!

Lola: (Crying) Why would the mob do this!?

Lori: (Crying) They are literally monsters!

Lisa: Usually I don't show emotions like this but… (CRYING HARD)

Dexter hugged Lisa, Joey hugged Laney, Winston hugged Lola, Lincoln was hugged by Earth, Lilly, Ariel's Sisters and Paige and everyone was hugged. I had tears streaming down my face. Everyone was crying.

Then a white light shined down from the heavens and standing in the light was Qin's parents, Nathan and Sakuya Chen.

Qin saw them for the first time in 3 years.

Qin: Mom? Dad?

Nathan Chen: Hi sweetheart.

Sakuya: My sweet Qin.

Qin: MOM! DAD!

She went and hugged them for the first time in 3 years! It was an emotional reunion.

Qin: (Crying) I miss you guys so much!

Sakuya: We miss you too Sweetheart.

Nathan Chen: But we're so happy that you are in good hands.

Nico: Mr. and Mrs. Chen. It's so good to see you both again.

Sakuya: Nico. It's great to see you again too.

Nathan Chen: Thank you so much for looking out for our Qin. We love her so much.

Nico: I know. She's like a little sister to me and I will always be there for her.

Sakuya: We know Nico. And J.D. we can't thank you enough for bringing those men that killed us to Justice.

Me: I did what I had to do Sakuya. What those men did to you was completely unforgivable.

Nathan Chen: That's true. But please take care of our daughter. We love her.

Me: We all love her. And she is very strong.

Sakuya: We know. Qin, never forget that we love you and we will always be with you.

Qin: I know mom. I miss you both so much. But I know you will be with me right here in my heart.

Nathan Chen: That's our baby girl.

Sakuya: Take care Qin.

They went back up to heaven.

Me: I'm glad your parents can now be at peace Qin.

Qin: Me too J.D.

Bobby: Feel better, Qin?

Qin: Yeah. I finally got closure.

Me: I'm glad.

We later went back home. Along the way Nico caught a Carbink and a Goodra.

At the estate we were watching the Godzilla movies. Earlier in the middle of the city I caught the Through Card as it was going a bunch of buildings like a trickster. 抜 The Through's card form shows a young woman dressed in a flowing gown of the Oriental style, with long Chinese-styled hair; put into two loops at the top of the head held by a large bead, then falling into a very long tail. She wears ball-shaped earrings and has an oval-shaped gem on her forehead. She is pictured jumping through a silver, presumably solid, disk.

Qin: Hey Yuko, I heard you all had to go through a terrible ordeal with Godzilla.

Yuko: We sure did Qin. It was a completely different Godzilla than the one that we know and faced.

Qin: What happened?

Me: That was a horrifying ordeal they all went through 20,000 years into the future.

I revealed what happened during the events of 20,000 Years of Terror.

---

At the dawn of the 21st century, the Earth became overrun by terrifying gigantic creatures known as kaiju. Humanity's military might was no match for these beasts, and millions of people perished at their hands. The most infamous among the kaiju was Godzilla, an unstoppable monster that killed everything in his path, be it monster or man. An alien race known as the Exif arrived on the Earth during this time, aiming to convert humanity to its religion in its time of great despair. This was followed by the appearance of the Bilusaludo, a technologically advanced race seeking to immigrate to Earth following the destruction of their home planet. The Bilusaludo promised that if humanity would grant them asylum on the Earth, they would rid the planet of Godzilla. By 2046, the Bilusaludo were close to completing their ultimate anti-Godzilla weapon: Mechagodzilla. However, Godzilla breached the facility in Hamamatsu before Mechagodzilla could be activated, and the Bilusaludo were forced to abandon their creation. This decisive defeat of the United Earth at Godzilla's hands was the final straw, and the planet's central government organized a desperate plan to evacuate 15,000 humans from the planet and search for a new homeworld elsewhere in the universe. 10,000 passengers boarded the Oratio, bound for Kepler-452, while another 5,000 were to board the Aratrum, bound for Tau Ceti-e. As young Haruo Sakaki was being escorted onto the Aratrum by Daichi Tani, he witnessed Godzilla appear over the horizon and obliterate one of the shuttles heading toward the ship with his atomic breath. The shuttle crashed to the ground and destroyed the bus carrying Haruo's parents to the ship. Haruo never forgot what happened to his parents, and developed a burning desire to avenge their deaths and destroy Godzilla.

Approximately 22 years after the Aratrum fled the Earth, it finally reaches the target destination of Tau-e. The ship's passengers have dwindled to 4,000, and resources are becoming extremely scarce. A Landing Ship carrying many elderly passengers, including Daichi Tani, is prepared to descend to the planet's surface to determine if it is inhabitable. Haruo, now a captain aboard the ship, believes that the Central Committee aims to rid the Aratrum of its elderly population and is sending these passengers to their deaths. Taking matters into his own hands, Haruo seals himself with a large amount of explosives inside a Landing Ship and threatens to set them off if the landing mission isn't called off. Haruo is contacted by Daichi Tani, who explains that he and the other passengers volunteered for this mission because they are too old and tired to continue living aboard the Aratrum. In Tani's own words, he would prefer to finally die on land rather than in space. Haruo begs his adoptive grandfather not to go through with the mission, but soldiers breach the Landing Ship and arrest Haruo. Haruo can only watch helplessly from a prison cell as the Landing Ship explodes upon entering Tau-e's atmosphere. Metphies, an Exif archbishop and colonel aboard the ship, enters Haruo's cell and says he has come to hear his confession, but in reality is there to give Haruo classified data regarding Godzilla so he can complete his anti-Godzilla plan. Haruo believes that with the right strategy, humanity could have defeated Godzilla 22 years ago, but instead chose to retreat and leave the planet at his mercy. He aims to prove that Godzilla could be defeated, and anonymously publishes his anti-Godzilla plan aboard the ship. Meanwhile, the Central Committee convenes to discuss measures since Tau-e is confirmed to be uninhabitable. Endurph, the Exif cardinal, says that their computer, the Gematron, calculates that the Aratrum could successfully make the return trip to Earth instantaneously using its hyperdrives. The Committee weighs the possibility of returning to Earth, and rumors of a return to Earth begin spreading across the ship, along with Haruo's anti-Godzilla plan. Metphies visits the cabin of Bilusaludo technical officer Mulu-elu Galu-gu to discuss the proposed return to Earth. Galu-gu says he has read over the latest published version of Haruo's plan, and by the time he accessed it it already had over 400 views. Galu-gu says he finds the plan interesting and admires Haruo's determination, but thinks that even if this strategy had been employed 22 years ago, humanity still would have been unable to defeat Godzilla. He says that in that case, the Exif still would have been unable to conquer the Earth by brainwashing humanity using their religion. Metphies counters and says that had the Bilusaludo successfully completed Mechagodzilla and killed Godzilla with it, they would simply have turned it against humanity next. Both aliens agree that these scenarios are simply a matter of what-ifs from a time long past, and they are in the same situation as humanity now.

Eventually, the Central Committee approves the plan to return to Earth, and activates the Aratrum's hyperdrives. The ship emerges from hyperspace completely intact, and finds itself just outside of Earth's orbit. Reconnaissance Drones are sent into the planet's atmosphere to analyze the environment. The analysis concludes that at least 10,000 years have passed on Earth, and that the environmental conditions have changed considerably. Strange metallic particles float through the atmosphere, and a great deal of fog obscures the drones' vision. One drone detects seismic activity in a forested area of what once was Japan, and manages to capture the unmistakable roar of Godzilla just before going offline. Takeshi J. Hamamoto tries to suggest that the sound was caused by wind or some other natural cause, but Unberto Mori angrily declares that no one could ever forget Godzilla's roar. The Committee convenes to discuss further options since Godzilla is apparently still alive on the planet. Professor Martin Lazzari says that Godzilla may have survived all this time by undergoing periodic cycles of dormancy every few millennia, or that he somehow multiplied and only one individual is left. He also raises the possibility that Godzilla is simply immortal, as his existence already defies every existing law of biology. Metphies tells the Committee that he is prepared to reveal the author of the anti-Godzilla plan under two conditions. One, the Committee must drop all charges for leaking classified information; and two, Captain Haruo Sakaki must be released on bail. The Committee agrees, and Haruo is set free and allowed to propose his plan to the Central Committee. Haruo states that Godzilla's invincibility is derived from his asymmetrically permeable shield, an electromagnetic defense mechanism deployed from his body. He is certain that the shield is produced by a specific organ, and if they pay close attention when Godzilla deploys it, they may be able to pinpoint the organ's location. Haruo notes that the shield produces a noise when it deploys, and that if they can isolate the noise and play it back, they can determine at what exact points the shield collapses and redeploys. When the shield is down, they need to destroy the organ and send an EMP Probe into Godzilla's body before the organ regenerates. This theoretically should cause Godzilla's body to become overloaded with electromagnetic energy and make him explode. Haruo says that he will need at least 600 men to carry out the mission, which the Committee reluctantly grants.

Four companies of soldiers are deployed to the Earth's surface in Landing Ships, under the command of Colonel Eliott Leland. Haruo accompanies the expedition aboard a ship piloted by Leland, Metphies, and Major Rilu-elu Belu-be, still bound in handcuffs. Landing Ships begin dropping Thermo-Pressure Warheads onto the forest below to clear space for the ships to land. Haruo's company, Company A, touches down in a clearing while Companies B, C, and D station themselves near the old Tanzawa Pass to prepare the anti-Godzilla operation. Professor Martin requests permission from Leland to lead a scientific expedition into the forest to study the flora and fauna. Leland grants him a small number of soldiers to accompany him, while Haruo insists on coming as well. Leland agrees, but orders Sergeant Yuko Tani to watch over him. Haruo is shocked that Yuko, whose grandfather Daichi raised them both as children, volunteered for the mission. Yuko explains that she wanted a chance to meet with Haruo in person after her grandfather's death. She says that the Committee claimed it removed all of the explosives that Haruo had threatened to detonate, but that they were all still unaccounted for on the ship. She wonders if the Committee really did plan to reduce its elderly population and placed those explosives on Daichi's Landing Ship to ensure that the expedition would never return. Haruo says he wants to believe that the Committee isn't that corrupt, because he hates himself for not being able to trust his fellow man. He angrily says that Godzilla didn't just rob humanity of their home, but of basic human compassion and decency as well. While exploring the forest, Martin discovers that the plants are almost metallic, and their leaves are as sharp as razors. The team eventually comes upon what appear to be ruined buildings. Yuko is astonished to see a glimpse at humanity's old civilization for the first time in her life. Martin states that the buildings were able to be preserved because lichen used them as a seed bed, and the fungus was fossilized over time. Haruo falls to his knees and begins sobbing, saying that the Earth still remembered humanity after all this time. Meanwhile, a winged reptilian creature emerges from the forest with a soldier in its jaws and attacks Company A's base camp. The creature is joined by several more of its kind, which attack the soldiers. The soldiers open fire with their weapons and use Powered Suits to attack the monsters, but still suffer immense casualties. Martin and his team return to the camp and find the carcass of one of the creatures. Martin cuts off one of its teeth and brings it inside a Landing Ship for analysis. He determines using carbon dating that in reality nearly

20,000 years have passed on Earth. His analysis shows that both the creature and the plants from the forest share many similarities, and contain metallic material. He says that the winged creature in particular shares a large portion of its genome with Godzilla, and could be said to exist in the same family. The metallic particles in the atmosphere that produced the fog, he says, were most likely either pollen or chaff produced by the plants. Over the course of 20,000 years, Godzilla's DNA spread to the flora and fauna of Earth and created a new ecosystem built around his biology. Colonel Leland decides to abandon the mission, as the entire environment of Earth has become hostile and unsuitable for humanity. Haruo is infuriated and angrily pins Leland to a wall, saying that the Earth is still humanity's home. Leland says their best option is to colonize the moon and make occasional trips to Earth to obtain resources. Metphies agrees with Leland's plan, but points out that their Landing Ships were all damaged in the recent attack, and so they can't return to the Aratrum even if they want. Leland formulates a new plan to move through the Tanzawa Pass and join up with Companies B and C, then rendezvous with Company D to refuel and repair their Landing Ships and return to the Aratrum. Metphies says that their course is essentially identical to Haruo's original plan, but Leland makes it clear that they will make no attempt to draw out or engage Godzilla. In his words, this is simply a retreat mission.

Company A begins moving through the Tanzawa Pass, with its Landing Ship barely able to maintain flight. They are joined by Companies B and C as they begin to approach their destination. Aboard one of the ships, Metphies says that Haruo seems to be lost in thought. Haruo asks what the point of coming here was if they were just going to retreat again. Metphies says that neither Haruo nor Leland seem to understand Godzilla's purpose. He says that in the years the Exif have wandered through space, they have witnessed numerous civilizations like humanity meet their end at the hands of creatures similar to what humanity calls "Godzilla." Metphies believes that Godzilla is divine punishment for mankind's arrogance, and will never let them escape. True to Metphies' prediction, Godzilla appears near the pass and begins to approach. Leland orders all units to take evasive action, but Company A's Landing Ship begins to lose control and shows a risk of exploding. Metphies sets Haruo free of his bonds and tells him to do what his soul commands. Haruo boards a Hover Bike aboard the ship while Yuko, Metphies, and Martin evacuate the ship. Haruo takes off just as the ship explodes, and begins firing his Hover Bike's guns at Godzilla. Martin says that the bike can't do enough damage to provoke Godzilla to use his shield, so Haruo flies the bike high into the air and prepares to nose-dive directly into Godzilla. Just before Haruo can crash into Godzilla, a Multipodal Battery piloted by Leland opens fire on Godzilla. Haruo diverts his course and watches as Leland bombards Godzilla with artillery. Godzilla deploys his shield and fires his atomic breath at the Battery, killing Leland. Using data collected from the encounter, Galu-gu is able to pinpoint Godzilla's electromagnetic organ as existing in his dorsal plates. The remaining units assemble in a clearing, while Metphies contacts the Central Committee to inform them of Leland's death. Metphies assumes command of the mission, but tells the Committee that he will need to designate his authority to Haruo. The Committee tells Metphies to do whatever it takes to bring as many people back as possible. Metphies addresses the surviving soldiers and informs them that Haruo is now the commander of the operation. Haruo addresses the crowd next, and says that although their situation is dire, they can be proud as long as they do not yield to Godzilla. All they need to do, he says, is finish this battle, and end Godzilla's reign over the Earth. Haruo's plan is put back into action, with Galu-gu moving the explosive traps deeper into the pass and Belu-be and Adam Bindewald leading a fleet of Hover Bikes to draw Godzilla there. Multipodal Batteries and Powered Suits are put in position just outside the pass, where they will attack Godzilla once the traps are sprung.

Belu-be and Adam lead the Hover Bikes to Godzilla's location and open fire, turning his trajectory toward the Tanzawa Pass. Some of the bikes are destroyed when they accidentally crash, while others are obliterated by Godzilla's atomic breath. A flock of the winged creatures flies out of the forest below and attacks the Hover Bikes, which are able to mostly evade them. Haruo contacts Belu-be and Adam and tells them that they need to draw Godzilla into the pass quickly. Belu-be reports that they have lost 10 bikes already and are running low on gas. Haruo tells Adam to break from the formation and assemble six ace pilots to take command of Landing Ships. The ships will fly in front of Godzilla and drop Thermo-Pressure

Warheads, creating a path to lead him into the valley more quickly. He says that if the pilots know their ship is being targeted by Godzilla, to eject immediately. Galu-gu remarks that if the ships are destroyed, they will be stranded and have no way to get home. Haruo simply replies that they are already home. Adam complies and assembles six pilots, then takes command of one of the ships. The ships fly in front of Godzilla and drop the thermobaric bombs, which draw Godzilla into the valley. Adam notices Godzilla target his ship and ejects just as the ship is destroyed by Godzilla's atomic breath. Once Godzilla enters the target point, the explosive charges planted by Galu-gu's team are detonated, and the slopes surrounding the pass collapse onto Godzilla, burying him up to his chest in rubble. The Multipodal Batteries all begin opening fire on Godzilla, causing him to deploy his shield. The soldiers successfully isolate the noise generated by Godzilla's electromagnetic organ and play it back, allowing them to determine exactly when it will collapse. The Batteries open fire on Godzilla's back once the shield goes down, and destroy the organ. However, Godzilla's tissue regenerates in a matter of seconds, and the shield is restored. Haruo takes command of a Powered Suit and jumps onto Godzilla's back. He tells the artillery to open fire when the shield goes down, even though he could be hit by the attack as well. Galu-gu obliges, and the Batteries open fire on Godzilla's back again as soon as the shield collapses. The organ is destroyed again, and this time Haruo jams an EMP Probe into Godzilla's back. More Powered Suits follow, and numerous EMP Probes are sent into Godzilla's body. Godzilla begins breaking free of the rubble and forces several of the Powered Suits off of him. As the electromagnetic energy runs wild inside of Godzilla's body, he turns to Haruo and prepares to fire his atomic breath. Haruo exclaims that he has killed Godzilla, just as Godzilla completely explodes.

In the aftermath of the battle, Haruo and his allies stare at the remnants of Godzilla. Belu-be and Galu-gu remark that this creature truly was an unnatural monster. Professor Martin tells Haruo that in his opinion, the Godzilla they just killed probably isn't the same Godzilla that drove humanity from Earth in 2048. Haruo says that this Godzilla possessed the exact same appearance and abilities they had on record, but Martin says that is exactly why he thinks it is a different individual. Life is characterized by change and evolution, he says, and it is extremely unusual for a creature to remain completely unchanged for 20,000 years, especially one like Godzilla which has the ability to individually evolve. Martin proposes that this Godzilla was an offshoot of the original that inherited his form and abilities, and that for all they know there could still be more Godzillas in the world. Haruo is confident that they are prepared to confront more Godzillas if need be, because they just proved that Godzilla can be killed. Martin says he admires Haruo's confidence, but would prefer to never experience such a harrowing battle again. Suddenly, a powerful tremor causes the ground around them to shake. One soldier uses a computer to detect the source of the tremor, but the result tells him that it is within two kilometers. The computer detects a signal larger and stronger than Godzilla, as well as plasma energy. At that moment, a nearby mountain explodes, and the familiar dorsal plates of Godzilla emerge from the smoke. The computer detects that the creature is over 300 meters tall and 100,000 metric tons in weight. Haruo asks how this can be a living creature, but Martin says this makes perfect sense if Godzilla was able to continue to grow and evolve uninterrupted for 20,000 years. Haruo gives the order for as many people as possible to retreat, and numerous soldiers board Hover Bikes and Landing Ships. Metphies watches Godzilla from a nearby hill, and remarks that the "King of Destruction" has finally shown himself once again as Godzilla lets out a deafening roar. As the ships begin to fly away, Godzilla produces a super oscillatory wave from his mouth, which completely destroys the ships. As more soldiers try to evacuate on Hover Bikes, Haruo enters a Multipodal Battery and plans to distract Godzilla while the survivors escape. Godzilla watches the humans escaping, and turns slightly before whipping his tail through the air, producing a powerful shockwave that seemingly destroys all of the humans' forces in a fiery explosion. Haruo watches helplessly from the wreckage of the Multipodal Battery as Godzilla looms in the distance, and weakly vows that he will kill him.

---

Qin gasped in sheer horror!

Qin: That's terrible!

Me: Yeah. This was before we became Team Loud Phoenix Storm.

But we showed that with our combined power, we were able to destroy a massive monstrosity like Godzilla.

Laney: That was one of our most harrowing and most action packed battles.

Me: I was able to defeat Godzilla with a Spirit Bomb with energy from all over the Galaxy.

Qin: Wow!

Skids: Me and the rest of the Autobots and Decepticons weren't there to kill the first Godzilla. But we were there to kill the second one.

Me: Yeah. We killed 2 more Godzilla's actually. We killed one in New York City and one in Japan. The one in Japan was terrorizing the country for 65 years and we destroyed him using the same method that was used to kill him back in 1954: The Oxygen Destroyer.

Qin: What was that?

Me: It's a terrifying chemical weapon and classified as a weapon of mass destruction.

I pulled up the schematics for the Oxygen Destroyer.

---

The Oxygen Destroyer is a heavy device composed of a metal capsule with a glass central chamber. Within this chamber is a second capsule attached by rods at either end. Contained within the capsule is a large amount of what would be later known as Micro-Oxygen, the weapon's payload. Numerous gauges and pressure meters are present on the larger capsule. To operate the Oxygen Destroyer, the two ends of the larger capsule have to be pushed inwards. This causes the rods securing the inner capsule to pull apart, releasing the Micro-oxygen within.

---

Qin: It looks more like a bomb.

Me: It does doesn't it. But this is the result of what happens with the Oxygen Destroyer.

I showed then a video of what happened to the first Godzilla back in 1954 and how the Oxygen Destroyer killed it. The Oxygen Destroyer released a massively violent reaction that made it look like the water was boiling and it was destroying all the oxygen in the water and Godzilla died and turned into a skeleton and was destroyed!

Qin gasped in shock.

Qin: Wow!

Me: I know. We were shocked ourselves when we killed Japan's Godzilla.

Laney: Yeah it was awful.

Qin: Didn't Godzilla destroy all of Tokyo back then?

Me: Yes. Let me show you.

I showed her the footage of what happened back in 1954. She saw all of Tokyo, Japan completely reduced to rubble and flaming debris.

Me: This was taken 65 years ago in 1954. Godzilla's first appearance caught Japan and the whole world completely off guard. Thousands of people died and not many people that saw him up close lived to tell about it. Damage back then was in the billions. Today it would be worth hundreds of trillions.

Qin: That's horrifying! I can't believe that Godzilla had such destructive power.

Carol: All the Kaiju have incredible power.

Qin: How was Godzilla created?

Me: Godzilla was made in 1954 by the USA because of the testing of the most powerful thermonuclear bomb ever detonated by the

U.S.

I pulled up the footage of Castle Bravo.

Me: Castle Bravo.

---

Castle Bravo was the first in a series of high-yield thermonuclear weapon design tests conducted by the United States at Bikini Atoll, Marshall Islands, as part of Operation Castle. Detonated on March 1, 1954, the device was the most powerful nuclear device detonated by the United States and its first lithium deuteride fueled thermonuclear weapon. Castle Bravo's yield was 15 megatons of TNT, 2.5 times the predicted 6.0 megatons, due to unforeseen additional reactions involving 7Li, which led to the unexpected radioactive contamination of areas to the east of Bikini Atoll. At the time, it was most powerful artificial explosion in history.

Fallout from the detonation fell on residents of Rongelap and Utirik atolls and spread around the world. The inhabitants of the islands were not evacuated until three days later and suffered radiation sickness. Twenty-three crew members of the Japanese fishing vessel Daigo Fukuryū Maru ("Lucky Dragon No. 5") were also contaminated by fallout, experiencing acute radiation syndrome. The blast incited international reaction over atmospheric thermonuclear testing.

The Bravo Crater is located at 11°41′50″N 165°16′19″E. The remains of the Castle Bravo causeway are at 11°42′6″N 165°17′7″E.

The device was mounted in a "shot cab" on an artificial island built on a reef off Namu Island, in the Bikini Atoll. A sizable array of diagnostic instruments was trained on it, including high-speed cameras trained through an arc of mirror towers around the shot cab.

The detonation took place at 06:45 on March 1, 1954, local time (18:45 on February 28 GMT).

When Bravo was detonated, within one second it formed a fireball almost 4.5 miles (7.2 km) across. This fireball was visible on Kwajalein atoll over 250 miles (400 km) away. The explosion left a crater 6,500 feet (2,000 m) in diameter and 250 feet (76 m) in depth. The mushroom cloud reached a height of 47,000 feet (14,000 m) and a diameter of 7 miles (11 km) in about a minute, a height of 130,000 feet (40 km) and 62 mi (100 km) in diameter in less than 10 minutes and was expanding at more than 100 meters per second (360 km/h; 220 mph). As a result of the blast, the cloud contaminated more than 7,000 square miles (18,000 km2) of the surrounding Pacific Ocean, including some of the surrounding small islands like Rongerik, Rongelap, and Utirik.

In terms of energy released (usually measured in TNT equivalence), Castle Bravo was about 1,000 times more powerful than each of the atomic bombs that were dropped on Hiroshima and Nagasaki during World War II. Castle Bravo is the fifth largest nuclear explosion in history, exceeded by the Soviet tests of Tsar Bomba at approximately 50 Mt, Test 219 at 24.2 Mt, and two other ≈20 Mt Soviet tests in 1962 at Novaya Zemlya.

The yield of 15 megatons was 3 times that of the 5 Mt predicted by its designers. The cause of the higher yield was an error made by designers of the device at Los Alamos National Laboratory. They considered only the lithium-6 isotope in the lithium-deuteride secondary to be reactive; the lithium-7 isotope, accounting for 60% of the lithium content, was assumed to be inert. It was expected that the lithium-6 isotope would absorb a neutron from the fissioning plutonium and emit an alpha particle and tritium in the process, of which the latter would then fuse with the deuterium and increase the yield in a predicted manner. Lithium-6 indeed reacted in this manner.

It was assumed that the lithium-7 would absorb one neutron, producing lithium-8, which decays (through beryllium-8) to a pair of alpha particles on a timescale of seconds, vastly longer than the timescale of nuclear detonation. When lithium-7 is bombarded with energetic neutrons, rather than simply absorbing a neutron, it captures the neutron and decays almost instantly into an alpha particle, a tritium nucleus, and another neutron. As a result, much more tritium was produced than expected, the extra tritium fusing with deuterium and producing an extra neutron. The extra neutron produced by fusion and the extra neutron released directly by lithium-7 decay produced a much larger neutron flux. The result was greatly increased fissioning of the uranium tamper and increased yield.

This resultant extra fuel (both lithium-6 and lithium-7) contributed greatly to the fusion reactions and neutron production and in this manner greatly increased the device's explosive output. The test used lithium with a high percentage of lithium-7 only because lithium-6 was then scarce and expensive; the later Castle Union test used almost pure lithium-6. Had sufficient lithium-6 been available, the usability of the common lithium-7 might not have been discovered.

The unexpectedly high yield of the device severely damaged many of the permanent buildings on the control site island on the far side of the atoll. Little of the desired diagnostic data on the shot was collected; many instruments designed to transmit their data back before being destroyed by the blast were instead vaporized instantly, while most of the instruments that were expected to be recovered for data retrieval were destroyed by the blast.

Qin: Whoa! It was that powerful back then!?

Me: Yeah. It was supposed to be a 5 Megaton nuclear blast. But it increased by 200% to 15 Megatons. Making it the most powerful nuclear bomb ever detonated by the United States of America.

Qin: Wow! That's powerful. Also that reminds me. I heard you all saved the entire town of Dante's Peak.

Me: That was one of our most Heroic Adventures. I'll be right back.

I went to my room and brought down a newspaper of what happened. On the front page was the whole town of Dante's Peak in Washington State completely destroyed and wiped off the map and the volcano showed a huge resemblance to Mount St. Helens when it erupted back in 1980. In big bold words was "Dante's Peak

Obliterated by Volcanic Eruption"

Qin: Whoa! That whole town is gone!

Nico: That is terrible!

Me: It was. I called a press conference in Washington D.C. and told everyone what happened.

I played the footage of the press conference from after that.

---

Me: Good afternoon everyone. I'm sorry for interrupting your activities again but less than 24 hours ago, a massive volcanic eruption of Mount St. Helens strength completely destroyed the little town of Dante's Peak in Washington state. The volcano produced a powerful level 6 Eruption on the Volcanic Explosivity Index chart and there is nothing left of the whole town. Me, Varie and my friends Vince Pusateri, Naruto Uzumaki, Sakura Haruno, Fu, Hinata Hyuga, Ino Yamanaka, Tenten, Dawn, and the Loud siblings all responded to this catastrophe and got everyone out of there. There are no casualties but the whole town of Dante's Peak in it's entirety is a complete and total loss. The evacuation warnings came too late and it was mass panic among the entire town. That volcano completely destroyed the entire town and there is nothing left of it now.

---

Qin: Wow! You guys did a great deed!

Me: It was a powerful day for us.

Qin: But what is the Volcanic Explosivity Index?

Nicole: I can answer that. That's the gauge Volcanologists use to measure the explosive power of a volcanic eruption.

Nicole pulled out a chart that showed the scale and the volcanoes that erupted over all of history with that level of power.

---

With indices running from 0 to 8, the VEI associated with an eruption is dependent on how much volcanic material is thrown out, to what height, and how long the eruption lasts. The scale is logarithmic from VEI-2 and up; an increase of 1 index indicates an eruption that is 10 times as powerful. As such there is a discontinuity in the definition of the VEI between indices 1 and 2. The lower border of the volume of ejecta jumps by a factor of one hundred, from 10,000 to 1,000,000 m3 (350,000 to 35,310,000 cu ft), while the factor is ten between all higher indices. In the following table, the frequency of each VEI indicates the approximate frequency of new eruptions of that VEI or higher.

About 40 eruptions of VEI-8 magnitude within the last 132 million years (Mya) have been identified, of which 30 occurred in the past 36 million years. Considering the estimated frequency is on the order of once in 50,000 years, there are likely many such eruptions in the last 132 Mya that are not yet known. Based on incomplete statistics, other authors assume that at least 60 VEI-8 eruptions have been identified. The most recent is Lake Taupo's Oruanui eruption, more than 27,000 years ago, which means that there have not been any Holocene eruptions with a VEI of 8.

There have been at least 10 eruptions of VEI-7 in the last 10,000 years. There are also 58 plinian eruptions, and 13 caldera-forming eruptions, of large, but unknown magnitudes. By 2010, the Global Volcanism Program of the Smithsonian Institution had catalogued the assignment of a VEI for 7,742 volcanic eruptions that occurred during the Holocene (the last 11,700 years) which account for about 75% of the total known eruptions during the Holocene. Of these 7,742 eruptions, about 49% have a VEI of ≤ 2, and 90% have a VEI ≤ 3.

Qin: Wow! I had no idea Volcanoes pack that much explosive power.

Nicole: It takes a lot of study and a lot of volcanic pressure.

Qin: Wow. So the volcano near Dante's Peak had a level 6 eruption so that makes it a Colossal eruption.

Nicole: Exactly. They pack as much power as Krakatoa did when it erupted back in 1883. They only happen once every 100 years.

Me: And when Mount Sibo erupted just recently it had a level 7 eruption.

Qin: So a Super-Colossal eruption.

Nicole: Exactly. Those happen once every 1,000 years. Those are like what happened when Mount Tambora erupted back in 1815.

Qin: Wow. But what about level 8? What is that one?

Me: That is for Supervolcano Eruptions. Supervolcanoes are 100 times more powerful than level 7 and the most recent Supervolcano eruption was Mount Taupo back 26,500 years ago.

Nicole: Exactly. These volcanic eruptions happen once every 100,000 years. And the next Supervolcano Eruption is in Yellowstone National Park. That's scheduled to blow at anytime. But not for at least a couple of thousand years.

Qin: Why is Yellowstone gonna blow?

Me: Volcanologists and Geologists have discovered a massive pocket of lava right underneath it. It's 960 cubic miles wide and when Yellowstone erupts, it will plunge the whole planet into the next ice age.

I pulled up a simulation on the computer of what will happen when Yellowstone erupts and it showed that Earth will be locked in a lasting Ice Age that will last for hundreds of years.

Qin: Wow! That's horrifying! And all that magma is under Yellowstone?

Me: Yeah. That's why I have a feeling we're going to leave the planet before Yellowstone blows.

Qin: I have a feeling you're right.

Me: But there are other volcanoes on other planets that are thousands of times more powerful than Yellowstone.

Qin: Really?

Me: Yep. And a prominent example is the Io Hyper Eruption on Jupiter's moon Io.

I showed her a picture of the powerful Hyper Eruption from August of 2013 and she was stunned.

Qin: Whoa! That is powerful!

Lola: It sure is. I didn't know Io had such power.

Laney: Same here.

Qin: Maria, where does Horsea sleep? In your arms or in a fish bowl?

Maria: She sleeps in either one.

Horsea: Yep. And I'm okay with both.

Later we received a call from one of the richest families in the country: the Rich's. They are the richest family in the world with a net worth of $25,000,000,000.00 and today it would be worth $724,000,000,000,000.00. They are easily the richest of all next to us and Scrooge McDuck. We got word that Richie's parents Richard Rich Sr. and Regina Rich have been kidnapped and are being held hostage to get to the Rich fortune. We were over at the Rich Estate in North Carolina.

Me: WOW!

Lola: Wow! The Rich house is amazing!

Nico: It sure is. I've heard so much about the Rich Family and how they help people around the world and more.

Vince: That is so amazing.

Me: And look at that. They have their faces on a mountain. That is an iconic feat.

We saw Mount Richmore.

Me: Amazing.

With us was our newest recruits James Maxfield and his friends Seia and Sylvia. James Maxfield was a kid with brown hair, brown eyes, a red scarf around his neck, a white t-shirt, black leather jacket, blue jeans and black shoes. Seia is a girl with black hair, blue eyes, and black Japanese style school uniform and Sylvia has black hair with her hair in a bun and blue eyes and she had a red shirt and black sweater and a red skirt and red shoes. James gave me the Time Card. 時 Time's visible form in the anime series and in the Sakura Card is of a robed, old man with a long beard and pointed ears, carrying a large hourglass. And Seia gave me the Return Card. 戻 Return's visible form resembles a swift-moving, tangible black mist. Its Sakura Card image displays a young female holding a blue hourglass. However, for some reason, in its Clow Card form, it is shown holding a blue clock with wings (in reverse form running counterclockwise in respect of its power to "rewind" the time around its user for them to see past events) instead.

James M.: It's such an honor to work with you J.D.

Seia: Yeah.

Me: I'm glad you 3 could join us.

Bella: Me too.

James M.: I can't wait to bust some bad guys.

Me: We will.

We went into the estate and we were greeted by Cadbury.

Cadbury: Welcome Team Loud Phoenix Storm.

Me: Thank you Cadbury. Wow. This house is amazing.

Cadbury: Thank you Master J.D.

Me: We got word that Richie's parents were nabbed so we came to help.

Cadbury: Oh thank God.

Richie Rich, the richest boy in the world next to me came.

Richie: Wow! Team Loud Phoenix Storm!

Me: Richie Rich. It's truly an honor to meet one of the richest people in the world.

Richie: You too J.D. I love all of your adventures.

Me: It's mutual. But Richie do you know who might want to kidnap your parents?

Richie: I sure do. Lawrence Van Dough.

Richie told us about his history.

---

Lawrence Van Dough joined Rich Inc. in the past, eventually working his way up to financial executive. It is implied that he is unhappy in his job, as he envies the Rich family's success. He succeeds in bombing their private jet (which they survive) and framing the butler Cadbury, at which point he takes over Rich Industries and fires nearly all the Rich family's servants and employees. He later deliberately rescues the Riches in order to gain access to the family vault inside Mount Richmore.

After Richard and Regina Rich open the vault, he excitedly walks inside only to find that there is nothing in the vault except antiques and family memories. He is very angry and demands an explanation to where the riches are and finds out that they are all in the banks, stock market and real estate as the Rich family do not value money.

When Richie arrives at Mount Richmore to rescue his parents, Van Dough attempts to shoot him, but he is unharmed thanks to one of Professor Keenbean's inventions, which rendered his clothes bulletproof. After a climatic showdown on the face of Mount Richmore, Richie's dad fires Van Dough, even though he has made a lifelong practice of never terminating employees. Van Dough is fired and arrested, and later is seen watching Richie and his friends play a baseball game, while apart of his work release program, has to clean the Rich property.

---

Me: That's awful! So Van Dough and his cronies are out to kill you all to get your fortune of over $724 trillion.

Richie: That's right. But he should've gone after you guys. You have more money than I do.

Me: Well that's true. But our estate in Gotham Royal York in Michigan is like a massive impenetrable fortress with security 100 times more powerful and more tight than Fort Knox.

Richie: Wow. That's amazing.

Me: I guess he picked you because it was easier and he wanted all that money for himself.

Richie: That may be.

Me: You called the right people Richie. But we have a couple of things to share with you. And I believe you know this face.

Scrooge McDuck came up to him.

Richie: Scrooge McDuck!

Scrooge: (Scottish Accent) Aye lad. Pleasure to meet ya Richie.

Richie: You too.

Scrooge: Richie, I know you think that being rich is all it's cracked up to be. But trust me. It's not.

Me: That's right Richie. Having all the money in the world is one thing. But there are some things that money can never buy.

Lori: Like love.

Luna: Friendship.

Me: Or power.

Richie: I guess you guys are right. Maybe money isn't everything after all.

Me: That's right Richie. We don't let the love of money go to our heads. We may be filthy rich, but we don't let it control us. No pun intended.

Richie: I know. But thank you guys. I will do my best to get friends the right way.

Me: And you can start with us. We'll gladly be your friends and help you. And after this is done, we're gonna place you and your family under the protection of Team Loud Phoenix Storm.

Richie: I greatly appreciate that.

Me: Think nothing of it. Lets go show that freak that no one steals from our friends and gets away with it.

Everyone: YEAH!

---

Outside, Optimus Prime was showing Ben as Omniprime how to transform.

Omniprime: (tries to transform into vehicle mode)Dammit! Guess I should've practiced on transforming.

Optimus Prime: Take it easy, Ben. Relax. Think of the vehicle you want to transform into.

Omniprime did that and was able to transform into vehicle mode.

Omniprime: Perfect! Van Dough won't know what hit him!

Me: Good job Ben. Now we are ready.

Ben now looked like an awesome Limo.

We were hiding in the bushes and we saw Van Dough and his bodyguard, Ferguson, and some of his lackeys get into the "Limo." They had Regina and Richard Sr. tied up and were about to head to the vault at Mount Richmore when Ben slammed his door and they were trapped.

We had our guns and swords drawn and we were ready to fight!

Me: Van Dough, you and your lackey's are under arrest!

Van Dough: For what!?

Me: Kidnapping, Attempted Capital Murder, Destruction of Public Property, Fraud and Theft.

Nico: Van Dough, you have failed this city!

Me: And this whole planet!

James M.: So come on out or we'll kill you.

Me: We need him alive James. We're gonna throw him in our prisons.

James M.: Oh sorry.

Ben kicked them out and we punched and kicked some of his lackeys and sent them crashing into rocks and knocked them out.

Bella went Ultimate Bella.

Bella: IONSTORM!

Bella activated the power of the Drej and fired blasts of ion lasers at some of the thugs and the blasts went through their hearts and killed them.

Laney got Regina and Richard Sr. out and untied them.

Richard Sr.: Thank you all so much Laney.

Laney: You're welcome Mr. Rich. But you better go hide. This is gonna get ugly.

Regina: Good idea.

They hid.

Lana fired blasts of ice lightning and froze the thugs and shattered them. Killing them.

Lola fired powerful blasts of fire and burned them into ash!

Nico: You thugs have failed this world!

The 3-Star Dragonball on his bracelet glowed and he fired a green beam from his eyes and froze a bunch of thugs and shattered them into millions of pieces.

Lincoln fired a massive blast of lightning and electrocuted a bunch of thugs.

Me: Time for some teamwork!

Skids: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Liquid Nitrogen rifle 100-fold.

Bobby S.: Watch me babe! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Bobby's right arm device and it enhanced his Crystal Powers 100-fold.

Skids and Bobby Santiago: NITROGEN ABSOLUTE ZERO SWORD!

Bobby formed a sword of pure sapphire and Skids fired his liquid nitrogen rifle and it merged with his sword and it had a temperature of -459.67˚ Fahrenheit or Absolute Zero. The sword had brutally cold mist coming off of the blade was incredible! Bobby slashed a bunch of thugs and they froze into ice instantly and shattered into powder!

Me: Wow! That was cold! BRRRRR!

Lori: That literally was incredibly cold!

Lisa: But is was indeed very clever.

Bella: CLOCKWORK!

Bella fired a time ray and it disintegrated some of the thugs into dust.

Me: That was awesome Bella.

Bella: Thanks.

Nico: Yeah.

Venom: Time to show that we mean business! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Venom's right arm device and it enhanced his Symbiote abilities 100-fold.

Hook: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his strength 100-fold.

Venom and Hook: SYMBIOTIC BOULDER SLAM!

Hook lifted up a boulder and threw it and Venom got his Symbiote Matter onto the boulder and it turned into a ravenous maceball and it chomped a bunch of thugs into carnage filled gore.

Once all the thugs were gone we set our sights on Van Dough.

Me: Now you will see the power of Team Loud Phoenix Storm.

Scourge McDuck: Lets get him with our Final Smashes lads! MIDAS HAMMER GOLDSLAM!

Scoorge McDuck formed a hammer made of pure 24 Karat Gold and slammed it into Van Dough's foot with devastating force.

BLAAAAANNNGGGGGGG!

Van Dough: (IN EXCRUCIATING PAIN) OOOWWW! OOHH OHHH OHHH OW OW OW OW OW!

Richie: This is for messing with my family. GOLD ANVIL KNOCKOUT!

Richie fired a beam of gold energy into the air and it turned into an anvil made of solid gold and it landed on Van Dough's head with a nasty clang!

CCCCCCLLLLLLLAAAAAAAAAAAAAAAAAAAANNNNNGGGGGGGG

Me: OOOOOHHH! That's gonna sting!

Nico: Not as much as this will.

Van Dough: (Stupidly) Which way did he go George? Which Way did he go?

Nico: Right here.

POW!

Nico and Regina then punched him in the face and knocked out most of his teeth and knocked him out.

Me: You're under arrest Van Dough.

The FBI came and grabbed him.

Van Dough was found guilty of his crimes in Federal Court and he was sentenced to 6,234 years in the Uranus Prison.

Me: That takes care of that clod.

Richard Sr.: Thank you so much for saving us J.D.

Me: Think nothing of it Mr. Rich. We were just doing what we had to do to save those that are precious to us.

Regina: I'm glad.

Richie: (To the viewers) Having all the money in the world may be a good thing but it never brings you happiness or any of the good things in life. Like friendship or love or power.

Me: You got that right Richie.

We moved the Rich Estate and land to Gotham Royal York and placed the whole Rich Family under our protection.

* * *

At the beach we saw a bunch of kids being attacked by the Sand Card. 砂 One of Sand's visible forms is a flow of sand that moves vaguely like a serpent. Its card form, never seen as a visible spirit, depicts a woman with elbow-length hair that seems to be in braids, dressed in Arabic clothes (harem pants, crop top, sleeves and shoes) and is seemingly made of sand. Covering its ears are what appear to be circular disks, and an oval, red gem featured prominently on its forehead.

Me: It's the Sand Card.

I fired a powerful blast of ice and froze it.

Me: RETURN TO YOUR POWER CONFINED!

I held out my hand and an energy card formed and it sucked in the Sand Card and it was a Clow Card again.

Me: Gotcha. That's four Clow Cards in one day.

6 Clow Cards were left to Capture.

Elsewhere in the futuristic side of the city, in an awesome headquarters academy, 6 Power Rangers were getting ready. They were getting ready for action. The were the Space Patrol Delta Power Rangers.

Commander Cruger: Be careful out there everyone. You are my finest students and soldiers. Team Loud Phoenix Storm is more than willing to have you all help them.

Z: Yes sir commander.

Sydney Drew: It'll be an honor to meet them.

They did the salute.

Jack Landors: Lets do it guys.

S.P.D. Rangers: S.P.D. EMERGENCY!

They activated their morphers and in a powerful flash of light they transformed.

THE END

Another Fanfiction Complete and another villain brought to justice.

Richie Rich with McCauley Caulkin was awesome! That movie was a strong example that shows that money can never buy the most important things of all. Darkhai let me use his OC's for this one. Credit goes to you for them. Thanks man. NicoChan11 gave me the ideas for this one. Thanks man. The next cards are the Voice Card and the Lock Card. Let me know what you all think.

See you all next time.

# DOGS VS CATS

In the middle of the city, Maria and William were both enjoying their 1 year date.

William: Happy 1 year anniversary, Maria.

Maria: Same to you, William. (they kiss each other)

?: This is gonna be the last anniversary you two will ever have!

The two of them and Horsea turned to see a group of 6 Jokerz thugs pointing guns at them.

Jokerz thug #1: You two are gonna pay for killing most of our pals. And this time, Knudson and those other heroes ain't here to save ya!

Maria: (sees something behind them and smirks) You guys might want to look behind you.

Jokerz thug #1: Oh please! How stupid do you think-

Jokerz thug #2 (looks behind them): Uh, dude?

They turn to see the S.P.D. Rangers there.

Jokerz thug #1: Oh, fuck me!

Sydney Drew: Yep! Fuck you! (punches thug in the stomach)

POW!

William: Wow!

Z kicked a thug in the face and ripped his arm out of its socket. It was a brutal fight that left 5 Jokerz dead.

Spiderman and Brawn arrived.

Spiderman: Man, you guys did a number on these morons.

Brawn: (counts the number of dead Jokerz bodies) Wait. 1… 2… 3… 4… 5… where's the sixth one?

Jack Landers: Right here.

The 6th was trapped inside a card.

William: Wow! That's so cool!

Cruger: Well done to all of you. We should introduce ourselves. We are Space Patrol Delta. I'm Commander Anubis Cruger.

Jack Landers: I'm Jack Landers, The Red Ranger.

Sky: I'm Sky Tate. The Blue Ranger.

Bridge: I'm Bridge Carson. The Green Ranger.

Z: I'm Elizabeth Delgado. But Everyone calls me Z. I'm the Yellow Ranger.

Sydney Drew: I'm Sydney Drew. The Pink Ranger.

Sam: And I'm Sam, the Omega Ranger.

William: It's an honor. I'm William Dunbar, Leader of Team Loud Phoenix Storm's Redemption Squad.

Maria: I'm Maria Rockell, 2nd in Command of the Redemption Squad.

Spiderman: Name's Peter Parker, A.K.A. Spiderman.

Brawl: I'm Brawl. Autobot Transformer.

Cruger: It's an honor to meet you. We heard so many great things about Team Loud Phoenix Storm.

Z: They are an amazing force of good.

Cruger: Indeed.

William: How did you all contain this Jokerz Gang member in this card here?

Sydney Drew: It's a very sophisticated system we have. We used our morphers to judge him and imprison him and then contain him in these cards.

Jokerz member: Let me out of here! I will kill you for this!

William: That is amazing!

Maria: It sure is. This is a genius way to capture criminals and put them in prison for good.

Z: It also saves a lot of space.

William: That's really ingenious.

Sky: Thanks.

William: Lets head back to the estate so we can talk.

Cruger: Good idea.

They went back to the estate.

---

Back at the estate we were watching TV while eating our dinner. Earlier I captured the Lock Card. 錠 Lock's visible form is a small green and yellow padlock with a front mounted drum. It has wings on the front, straddling the chamber of the lock. It trapped a bunch of people in a fruit cellar and I used my Keyblade to unlock it and seal it.

We had dinner when Maria and William came in.

Me: Oh hey guys.

William: Hey boss.

Wood Man: (to Maria and William) Are you guys enjoying your 1 year anniversary of being a couple so far?

Maria: We sure are. But we also had some help when we encountered the Jokerz.

We saw the S.P.D. Power Rangers come in.

Me: No way!

Nico: The S.P.D. Power Rangers!

Kira: Z, Sydney!

Z: Kira!

Sydney Drew: It's great to see you!

They hugged.

Ethan: Sky!

Sky: Ethan.

Shane Hunter: Guys, it's great to see you!

Tommy Oliver: It's great to see you all again.

Cruger: Same to you Tommy.

We were shown how the S.P.D. rangers do their job and how they capture bad guys that are irredeemable.

We were also shown the functions of the Delta Morphers and they were amazing.

---

The Delta Morphers were the morphers used by the S.P.D. B-Squad Rangers. These compact, black and white devices were handheld, and resembled police ID badges. When not in use, they were worn in a holder at the Ranger's sides and on the back of their Ranger suits' belts when morphed.

They included 5 functions triggered by 3 tabs, activated by a switch on the top of the morpher which opens the morpher up:

CHANGE: Morphs the cadets into their Ranger forms with call "S.P.D. Emergency!".

S.W.A.T. MODE: Used in morphed form by the Rangers to materialize their S.W.A.T. armor and weaponry.

PHONE: Allows the Rangers to contact each other or Delta Base, as well as summon the Delta Runners to their position.

JUDGE: Assesses the guilt or innocence of any intended target of the morpher, measuring pulse and electrical impulses before rendering a verdict. According to Kat Manx, the Judgement scanner is never wrong.

CONTAINMENT MODE: Upon reaching a Guilty verdict, the morpher is given authority to fire anti-matter fusion into its guilty target, forcing them into a Containment Card to ensure easy and safe transportation for filing until the target's time is served. If targets are innocent, then the officer must immediately cease pursuit of the suspect until they're found guilty of another crime.

* * *

Me: These morphers are amazing. They beat our prison systems by a long shot.

Z: I know.

Headstrong: I think you guys may have provided us with a new prison for irredeemable scumbags.

Cruger: And not to worry. The only way prisoners will ever get out is if one of us says the command code for releasing their confinement cards.

Nicole: Just like how I'm the only who can release evil sould from the Book of Vile Darkness.

Me: Exactly. And the S.P.D. Academy gives me a new idea. We're gonna build an academy for people that want to join Team Loud Phoenix Storm.

Laney: That's a great idea!

Lana: It's perfect!

Everyone agreed.

Me: Okay. First we have to devise the plans for it.

Ed (sees Bridge eating toast): Are you eating toast?

Bridge: I sure am. It's buttery! (wiggles his fingers)

Ed: I like eating buttered toast too!

Sora: Looks like you two have something in common.

We laughed.

Just then Charles, Cliff, Walt and Geo came in frantic!

Cliff: Guys!

Charles: Lincoln! Girls!

We gasped in sheer astonishment!

Walt: Yes we know. We can talk.

Geo: Guys we have a big problem!

Me: What's wrong?

Charles: Cats are trying to take over the world!

Laney: Cats are trying to take over the world!?

Me: How do they plan to do that?

Charles typed on the computer and what we found out was terrifying. They plan to enslave all the humans by making all of them allergic to dogs so that they will put the dogs away and the cats will rise up and rule the world.

Me: That's insane!

Cliff: Their leader is Mr. Tinkles.

Cliff looked up his profile.

---

Mr. Tinkles first appeared when he and his henchman were discussing about dogs being out of the way. To break in Dave Brody's lab and prevent the anti-allergy dog formula from being created, he sent in cat ninjas and later the russian. After both adversaries failed, the formula was eventually completed.

Mr. Tinkles learns of this and then he and his cat henchmen drove to a Christmas building factory (pretending to be his owner Mr. Mason) and fired all the human workers in order to take over the factory. He then took the Brody family hostage and demanded that their dog Lou must deliver the formula and all it's notes or the family would "be put to sleep". Just as he did, the cats took it and Mr. Tinkles refused to let the family go.

At the factory, Mr. Tinkles summoned thousands of mice to work for him. Just then, Lou, Butch, and the other dogs arrived just in time to stop Mr. Tinkles. Mr. Tinkles rode on a crane and used the claw as a weapon. He caught Butch and attempted to crush him in the shredder, but Lou defeated him by firing a snow gun at him and was presumed dead when the factory blew up. However, he survived the blow-up and was taken into custody by Mr. Mason's maid to live with her and her sisters and wore a lot of costumes.

---

Me: That is insane!

Qin: I can't believe a cat like him is that bad!

Me: He's the devil in the form of a white cat!

Cat: I may be a cat but I would never do stuff like that.

Qin: I know you wouldn't Cat.

Cat: And these cats are starting to make the Greasers look bad.

Bridge: Who were the Greasers?

Me: They were a ruthless gang of dogs that would bully and pulverize Cat on a daily basis.

I reveal their profiles.

---

Cliff: (voiced by Tom Kenny) The leader of the Greasers who is a deformed dog. He wears a black jacket with a picture of a cat on the back of it. He is very short tempered and speaks with a gruff Brooklyn accent similar to Winslow. In "Squirrel Dog," Eddie was accidentally glued to his jacket which them turned into "Squirrel Dog," as a result of getting a taste of his own medicine as Shriek and Lube kicked him out of the Greasers because he was a "two-faced freak." However, once he was free from Eddie, he returned to his old bullying ways and rejoined the Greasers. In another episode, "Beware of Cliff", he made a solemn vow to never bully anyone again, but it didn't last long. In one episode, CatDog were laughing at Cliff most of the time because they were hallucinating Cliff as a ballet. Cliff has the same voice actor as Dog.

Shriek: (voiced by Maria Bamford) The only girl in the Greasers. She is a tiny poodle with a squeaky, raspy voice. Though she's as tough and loyal as the other two, she's very emotional romantically and has a huge crush on Dog (though he never appears to notice) and frequently tries to hide it from the other Greasers. In "Shriek Loves Dog," her secret crush was unveiled. Shriek declares that she'll never hit Dog; she'll only hit Cat. However, she does get along with Cat sometimes. In the episode "Rich Shriek Poor Shriek", she came from a rich family, but she didn't like the posh life, so she left home and become a greaser. She pointed out to Cliff and Lube that she's actually a girl in which both Greasers finally realized it and screamed.

Lube: (voiced by Carlos Alazraqui) A hound dog, and the slowest and sweetest one of the group. He'll forget what he's saying and slur his speech. Despite this, however, he can speak perfect Spanish.

He's the most loyal of the three Greasers. Despite his dull wit, like his parents, Lube has lots of musical talent and can sing very well. It is important to note a character design modification that occurred after the first episode; in the premiere episode "Dog Gone", Lube appeared with black dot eyes and long brown hair that extended down to his nose. In subsequent episodes, his appearance was changed and remained that way until the end of the series. In one episode he rolls up his right trouser and takes off a wooden leg. He also works part-time as a mechanic. His parents, a cat mother and a dog father, appeared in the series finale and said that Lube got separated from them a long time ago.

---

Qin: That is sick!

Charles: No kidding!

Luan: Those dogs were pure evil and we kicked the living crap out of them. We got their hides sent to prison forever.

Eddy: And they are low down dirty dogs.

Omega Ranger: Those dogs are a disgrace to filthy dogs!

Bridge: No kidding! I love dogs but they are dumb dogs! No offense.

Dog: None taken.

Charles: None taken.

Me: They got sent to the Dog Pound. Now we need to send Mr. Tinkles to the Dog Slammer.

Nico: Lets do it.

Charles: I'm going to turn that cat into Dog Meat!

Me: Lincoln, get Jeri and the Lion Guard. This just became a battle of the Animal Kingdom.

Lincoln: I'm on it.

K-9: I'll gladly help too. I was turned into a Domestic Dog.

Me: Good thinking K-9. Lets go to the Brody's and warn them first.

Nico: The cats are gonna know that we're onto them.

Me: Let them know. We are always up for a challenge.

We were off to Los Angeles, California.

## LOS ANGELES, CALIFORNIA

We were over in Los Angeles, California.

Nico: So the Brody's live in Los Angeles.

Me: Yep.

Kion: So this cat wants to take over the world by making all the humans allergic to Dogs?

Me: That's right Kion. The scar over your eye is new. Did that just happen?

Kion: In a way it did.

Me: Lets focus on the matter at hand.

We went up to the door of the Brody's. We found a present in their mailbox.

Naruto smelled cat prints on it.

Naruto: This present has the scent of cats on it.

Yugito: I smell it too. It's a trap.

Me: You're right. Hold onto it for now.

Yugito: You got it.

Charles: I hope we aren't too late.

Me: I have a feeling we aren't.

We went up to the door and I rang the doorbell. Mrs. Brody answered the door.

Mrs. Brody: Team Loud Phoenix Storm? What can I do for you all?

Me: Hello Mrs. Brody. We apologize for coming on short notice. But we have a terrible problem here.

Captain America: Can we come in? We'd like to search your house. And don't worry. We have a search warrant.

Mrs. Brody: Sure. Come on in.

Me: We have to explain everything. I know this is very crazy Mrs. Brody. But there's an evil cat out there that's trying to enslave the world.

I revealed everything.

Mrs. Brody: Are you serious J.D.?

Me: We're dead serious Mrs. Brody.

Mrs. Brody: You can call me Carolyn, J.D.

Me: Oh sorry. Your family is in terrible danger Carolyn. (Holds up wanted poster of Mr. Tinkles) This evil cat Mr. Tinkles wants the anti-dog allergy formula so he can reverse engineer it and make people allergic to dogs to make everyone put all the dogs away so that the cats can take over the world uncontested without dogs.

Scotty: That's crazy!

Cliff: It's true Scotty.

Charles: We won't let him get away with this.

Me: And yes they can talk.

Cat: It's true guys. Mr. Tinkles is a disgrace to cats all over the world. I may be a cat but even I have honor and smarts to know what is right and wrong.

Dog: You said it cat.

Scotty: Still it's so cool that a dog and cat are fused together. I loved watching CatDog and it's funny.

Cat: I'm glad we have some fans.

Me: They are still funny. But we're getting off topic here. We need to get you and your family to a safehouse until Mr. Tinkles and his cat cronies are dealt with.

Prof. Brody: Thank you for telling this J.D.

Me: You're welcome Professor Brody. We'll beam you to the satellite Safe House we have in orbit around the planet till then.

Scotty: Thank you all.

Me: You're welcome Scotty. We're gonna get to work now and we'll call you when it's over.

Prof. Brody: Okay.

Me: And Professor Brody, you are sure to win the Nobel Prize for curing Dog Allergies.

Prof. Brody: I'm glad you have high hopes for me J.D.

Me: Thank you Professor. Lets get you over to the Safe Satellite.

I snapped my fingers and beamed them over to the safe satellite.

Lou: (sees RIC) Why can't we have a robot dog of our own?

Butch: Because that technology's way too advanced for us.

Me: It is very advanced. Butch, do you have a cat working for Mr.

Tinkles in your custody?

Butch: We sure do. He's over at headquarters. Our headquarters is very secret.

Me: Understood. But I have a strong feeling I know where Mr. Tinkles is at. His owner is the president of a Christmas Tree flocking company.

Lana: And I'll bet he's in there right now.

Me: It's located on the Los Angeles piers. Lets go!

We were off to the Los Angeles Piers.

---

We got up to the factory.

Me: Very stereotypical for a villainous cat.

Nico: A cat that has failed this city.

Me: You got that right.

We walked up to the door and Mr. Tinkles appeared on the Monitor.

Tinkles (on a nearby monitor): Forget it, heroes! There's no way you're getting in!

Iron Boy (scans the door): I think he might be right. That door's made of adamantium.

Ben turns into Big Chill.

Big Chill: All metals can be shattered when frozen. And I can make that happen!

Me: Of course. Necrofriggian's have absolute zero temperature when they go intangible and they freeze anything on contact.

Big Chill: That's right.

Big Chill phased through the door and froze it solid.

Me: On my count. One… Two… Three!

Lynn: CHAAARRRGGGEEEEE!

We smashed through the door in a massive fiery explosion and a Phoenix Cry was heard and we bursted in.

Butch: GAME'S OVER TINKLES!

We blasted all the factory equipment and destroyed it all.

Mr. Tinkles: You all ruined everything!

Me: And you are now going to the Pound, Tinkles!

Tinkles: So SPD has dogs as well? How disgusting!

Cruger: What's disgusting is you planning to make everyone allergic to dogs!

Cat: Yeah! Dog might be annoying to me sometimes. But he's my best friend!

Dog: Yeah! (realizes something) Wait. What was that first part?

Me: You are a disgrace to cats everywhere Tinkles!

Charles: We won't let you do this!

Cliff: You're through freak!

Walt: I'll peck your eyes out!

Mr. Tinkles: You humans make me sick! I'll slash your fucking eyes out!

Mr. Tinkles ran fast screaming like a maniac and he jumped and slashed Qin in the face on her left cheek and she screamed in pain as she was cut!

Nico: Qin! (ENRAGED GROWLING!) MR. TINKLES YOU HAVE

FAILED THIS PLANET!

Me: He sure has! ATTACK!

Mr. Tinkles: KILL THEM YOU FOOLS!

S.P.D. Rangers: S.P.D.! EMERGENCY!

The S.P.D. Rangers morphed and turned into their Power Ranger forms.

S.P.D. Rangers: SPACE PATROL DELTA!

Dino Thunder Rangers: DINO THUNDER! POWER UP! HA!

The Dino Thunder Rangers morphed.

Dino Thunder Rangers: DINO POWER!

Laney: Are you all gonna listen to a stupid cat hellbent on destroying us?

The other cats knew she was right and they rebelled against Tinkles!

Mr. Tinkles: WHAT ARE YOU DOING YOU FOOLS!?

Calico: We're through with you Tinkles! You turned us into monsters! We're now working with the humans and the dogs!

Sora: Wow! This was an unexpected turn of events. Good job Laney.

Laney: Thanks Sora.

We went at Mr. Tinkles and attacked him with every form of Cartoon Style Cartoon Comedy in the book. Lola crunched his tail with a nut cracker and he screamed and Beshte bashed him in the face with a powerful headbutt.

Beshte: Twende Kiboko!

POW!

Cat punched him in the face.

POW!

Fuli used her powerful speed and circled Tinkles.

Fuli: Huwezi!

She slashed Mr. Tinkles and rammed him with a powerful headbutt.

Bunga: Time for some Bunga Power! Zuka Zama!

He released a nasty powerful fart in Mr. Tinkles face at point blank range and it smelled horrible.

I picked up Mr. Tinkles.

Me: (To the viewers) Normally this would be Animal Cruelty but in this case, I'll make an exception. (To Mr. Tinkles) I learned this one on television.

I spun around really fast like a tornado and slammed him on the ground hard and he shattered into pieces and put himself back together.

Lana put a pot on his head and bashed it with a metal pipe and his head was vibrating.

Cat hit him with a frying pan and bashed his face in.

BLAM!

Lou: (To the viewers) These guys are nuts. They are using every form of cartoon violence shenanigan used in Tom and Jerry.

Butch: They sure are.

Dog bashed Mr. Tinkles in the head with a rolling pin.

BLAM!

Kion: Time for you to see what the power of the Roar can do Tinkles.

Kion used the Roar of The Elders.

RRRROOOOOOOOOOOOOOOAAAAAAAAAAAARRRR!

He blew Mr. Tinkles into the wall with incredible power and he crashed into it.

Jeri: Lets see how you like this! (Echoing) FIST OF THE BEAST KING!

Jeri fired a lion head made of pure energy and fire at Mr. Tinkles and it hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Me: Awesome!

Nico: I didn't know Jeri knows Leomon's power.

Me: When she was rescued by Varie from the D-Reaper she acquired Leomon's power and strength.

Varie: Yep. I remember that. That was the most daring adventure I've ever done.

Nico: Wow.

Yugito: Lets see how you like this Tinkles! (Echoing) MOUSE HAIRBALL!

Yugito transformed her spit into a flaming ball of hair that assumed the shape of a mouse engulfed in flames, which then continually split into individual and similarly ablaze balls of hair. They went at Mr. Tinkles like heat-seeking missiles and they hit him and exploded.

KRABBBOOOOOOOOOOOOOMMMMM!

Me: Nice job Yugito.

Yugito: Thanks. Being the 2-Tails Jinchuriki has its advantages.

Me: I can tell. Here's a cat move he will fear. (Echoing) LIGHTNING

STYLE: BLACK PANTHER!

I generated powerful Black Lightning and released it in the form a panther that shocked Mr. Tinkles on Contact.

Naruto: That was awesome bro. Did Darui teach you that?

Me: In all honesty I never saw that technique.

J.D. 2: That was my doing. I learned so many shinobi techniques throughout all of my life and they are very powerful and very useful.

Me: Wow. You have a massive repertoire of techniques.

J.D. 2: I sure do. I've learned many techniques and made numerous new ones.

Me: And Since our powers are now one, we both have those techniques.

J.D. 2: That's right. My powers are now yours as well.

Me: Awesome! Lets see if I can do this to him. (Echoing) 2-TAILS NINJA ART: HELLFIRE FAN!

I sprouted the 2-Tailed Wraith Cat's two blue fire tails and formed 5 white-hot blue fireballs in a Japanese Fan formation and fired them all at Mr. Tinkles and they hit him and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Me: Wow! That was so awesome!

Yugito: That was really well done J.D.

Me: Thanks Yugito. I didn't know I was capable of doing that. Now lets show him some teamwork!

Mr. Tinkles was burned and down. But not out!

Brawn: Lets get him! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his strength 100-fold.

Sora: Time for some awesome action! DISNEY CYBER KEY POWER!

The Disney Cyber Planet Key went into his right arm device. It was a gold key with the symbol of Mickey Mouse on it. It enhanced his Keyblade powers 100-fold.

Brawn and Sora: GRAVIZA SHRAPNEL SLAM!

Sora fired a powerful Gravity blast and Brawn threw a heavy piece machinery and it slammed into Mr. Tinkles and flattened him into a pancake!

Wood Man: Time for some wood power! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Leaf Shield 100-fold.

Headstrong: Lets do it! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced rhinoceros modes power 100-fold.

Wood Man and Headstrong: LEAFSTORM RHINOCEROS SUPERRAM!

Wood Man encased Headstrong in a powerful armor of leaves and he slammed into Mr. Tinkles with devastating force!

Cat: Lets do this Dog!

Dog: Right behind ya Cat!

CatDog: OLD UPPENCHUCK TORNADO WHIRLSLAM!

CatDog fired a powerful tornado that carried the massive power of the powerful Giant Whirlywind Geyser Old Uppenchuck and it slammed into Mr. Tinkles with incredible power and it spun him around in the air with incredible power.

Lou: This is for all dogs everywhere! CANINE SUPERCHOMP BITE!

Lou bit Mr. Tinkles in his tail with the strength of a bear trap and he screamed like Tom did.

Mr. Tinkles: (SCREAMS LIKE TOM)

K-9: Time for action. K-9, MAXIMIZE!

K-9 transformed and fired a bunch of hooks at Mr. Tinkles and they exploded.

Me: Now it's time for you to pay for your crimes Tinkles! Jack may I do the honors?

Jack Landors: Go for it J.D.

He handed me his morpher.

Me: Time for your judgement. Mr. Tinkles, you are being charged with attempted world domination and terrorism, Judgement Mode!

I pressed a button on it and after 1 minute a red X lit up.

Me: GUILTY!

I fired a containment blast and it contained Mr. Tinkles inside a confinement card.

Jack picked it up.

Mr. Tinkles: (scratches the inside of his confinement card) Let me out of here!

Jack Landors: Would you rather be killed instead? (Tinkles pales) That's what I thought.

Me: You're looking at 9 lives without parole.

We laughed.

Luan: (Laughs) Good one J.D.

Me: Thanks Luan. And cats don't have 9 lives. That's just a myth.

Laney: We know.

Jack Landors: Great job J.D.

Me: Thanks Jack. That was awesome!

Jack Landors: Everything we heard about you is true. You all have watched our shows.

Me: We sure have. You guys are amazing.

Cruger: Well done J.D. and well done to all of you.

We saluted him.

Me: Thank you Commander Cruger.

We later went back to the estate after letting the Brody's know it was over. All the cats under Mr. Tinkles were given community service and our house now had lots of cats and Lola, Lana, Lily and Luan were loving it. Nico caught a Trevenant and Klefki. We built out special Academy and based it on the designs of the Plumber Academy that Ben knows.

---

Later I found out that Madison's voice had been stolen again by the Voice Card. 声 It's physical manifestation appears as a young pink colored girl with long wavy hair and wing-like ears and wings for arms as well; similar to that of a Harpy. Whether the wings are a part of its dress or are in fact something else, is unknown. It wears a rather long dress, and what appears to be a ruff collar and green brooch around its neck. So I caught it by luring it out with the Song Card and having it use the song Madison sang in Japan to capture it. It worked. But with only 4 days left till the big test, things were about to get intense.

THE END

---

Another Fanfiction Complete and another animal villain brought to justice.

Power Rangers S.P.D. was awesome back in 2005 and it was so cool! I watched Cats & Dogs a long time ago and it was so funny and more and I loved the cats and the dogs in that movie. But what Mr. Tinkles did in that movie was pure evil. NicoChan11 gave me the ideas for this one. Thanks man. The next Clow Card is the Cloud. Let me know what you all think.

See you all next time.

# NIGHT OF THE ZOMBIE TOWN!

At the estate in Gotham Royal York, we were doing our things. However, Susan & Mary Test were having a bet to see who can get their next door neighbor Gill.

Susan Test: I hope you have that money ready. Because Gill's as good as mine!

Mary Test: Oh please! You're the one that's gonna pay up. Because I'll get Gill first!

Ice Man (Mega Man): There's either fun coming, or a whole lot of damage. Or both.

Susan Test: I will get Gill!

Mary Test: No, I will!

Prowl: That's enough! Both of you both don't have to prove yourselves to Gill! You can win him over by being yourselves. And if a villain decides to attack us because you two are competing with each other, that puts the whole team at risk!

Me: Prowl is right girls. Fighting about stuff like little babies never solves anything. Instead it only makes things worse. No offense Lily.

Lily: None taken J.D.

Susan Test: You're right J.D.

Me: Glad I could help.

Qin: Wow. Mr. Tinkles got me good.

Lincoln: He sure did Qin. But you look great with a scar.

Qin: You think so Lincoln?

Lincoln: I sure do and you aren't the only one.

Laney: Lincoln's right. I have a scar right here on my neck.

Qin saw her scar.

Qin: Man how did you get that Laney?

Laney: I was doing a dish drill trick and I tripped and dropped the plates. One of the shards slashed me in my neck and I had to wear this scarf I have tied around my waist ever since.

Qin: That must've hurt. But you're lucky that didn't sever an artery Laney.

Laney: I know. J.D. said the exact same thing when he saw it.

Me: Yep. Laney is a strong girl. But she's not the only one with a scar like that.

I revealed my scar on my cheek.

Qin: Wow. That is a deep one.

Me: I know. You wouldn't believe where I got this. I got slashed across my face when I was facing one of the most lethal hunters in the galaxy: The Yautja.

Qin: The ones from the movie Predator?

Me: Bingo.

Qin: Wow!

Cody: J.D. is a powerful guy. He has earned the respect of the galaxy's most lethal hunters.

Qin: Amazing.

Brittney: Look at mine.

Brittney revealed her scar on her right arm.

Qin: Oooh! That one is bad.

Brittney: I got burned by lava on the planet Calbuco. And I got this one on my left cheek here.

Brittney revealed that she had nasty claw mark scars on her left cheek.

Qin: That one must've hurt.

Brittney: It did.

Me: Most of us have been through a major battle.

Olga: Yeah. No kidding.

Soundwave showed that he had a new cassette with him called Beastbox.

Beastbox: It's so awesome to be here.

Me: Glad to have you with us.

Nico: (to Trevenant) Well, Trevenant. How do you like your new home?

Trevenant nodded in agreement. I was looking through Nico's Goosebumps books for our next target.

Me: Hmm.

I looked hard and found our next target.

Me: I found our next target guys.

I held up the next book and it was Welcome to Dead House.

Nico: Good choice J.D.

Beastbox: We going after another Goosebumps book?

Sky Tate: Are we talking about those kids books?

May: Trust me, Sky. These aren't kids books.

Maria: Kids books help you fall asleep. These books keep you up at night.

Nico: And this isn't just any Goosebumps book we're talking about. It's the very first one that R.L. Stine made.

Me: Yep. Made in July of 1992.

Laney: What's that one about?

Me: It's about a town called Dark Falls and it was poisoned by a strange gas that turned all the citizens into zombies.

Shawn: Zombies!?

Me: Yep. The gas is called Zombitium XII and it's a highly unstable and extremely highly explosive gas. The slightest jostle will cause it to explode with the power of 20 jars full of nitroglycerin.

We gasped.

Lisa: Zombitium XII is a dangerous and volatile gaseous formula.

Me: It is Lisa. The people of Dark Falls were exposed to it when a factory bursted many years ago and it turned all the citizens into zombies that need blood to survive annually. But they only come out at night. When the sun comes up they disintegrate into piles of bones.

Lana: So that gas made those zombies into living bombs.

Me: Bingo.

Lincoln: So we have to destroy that whole town.

Me: Exactly.

Lola: Where is it at?

Me: It's located 2 hours away from Frankfort, Kentucky.

Nico: Then we have to destroy that whole town completely.

Me: Yes. And we're gonna also hunt for zombies. Have you guys ever seen that movie I Am Legend?

Lori: I have. That movie was literally scary.

Bobby S.: It was babe.

Me: But those zombies came out at night as well. But they were made when a virus that was supposed to be a cure for cancer broke out and killed 90% of the planets population. Turning them into vampiric mutants that only come out at night and they are very photophobic.

Luna: Dude. That is very similar.

Me: Yep. Our best chance is to weaken the people of Dark Falls with light and blow them apart by blowing their heads off.

Shawn: We got to get over there.

Me: We will get there Shawn. But we have to let the President of the United States know that we are going to destroy the whole town.

Nico: Good idea. We forgot to do that after we destroyed Quahog.

Me: Yeah.

I pressed a red button on the computer and out came the red phone that leads to the White House in Washington D.C.

I called the President.

James M.: Sounds like a huge job.

Seia: No kidding.

The President answered.

President: President of the United States.

Me: Hello Mr. President. J.D. Knudson here.

President: Hello J.D.

Me: Sorry to call you like this sir. But we're going after the town of Dark Falls, Kentucky. It was poisoned by an unstable and extremely dangerous gas called Zombitium XII and it turned all its citizens into zombies.

President: I remember that town. It was quarantined 10 years ago after it was poisoned and no one is allowed to leave that town until we could find a cure.

Me: So it's a very virulent gas.

President: Yes. But it's only spread through a bite like with real zombies in the movies.

Me: That's terrible sir. Have they been able to find a cure after all this time?

President: No. We tried many times but all failed. Nothing. It was then decided that we were going to destroy the entire town of Dark Falls. But with nuclear warheads out of the question on American soil that was too risky.

Me: We can blow up that town with an energy blast. Our second best option was with a bunch of thermobaric bombs but that would destroy more than just the town.

President: All right then. You have my permission to destroy the town.

Me: Thank you Mr. President. Dark Falls will be reduced to flaming rubble when we're done with it.

President: I wish you all luck J.D. and be careful.

Me: Don't worry sir. We'll be fine.

We hung up.

Me: We got the go to destroy that town.

Nico: Lets destroy that town.

Me: Lets arm ourselves and prepare for Zombie War!

We armed ourselves with every weapon you could think of. We had grenade launchers, bazookas, machine guns, laser blasters, flamethrowers, pistols and more.

We were armed and ready. It looked like we were ready to go into a full scale war.

We were off to Dark Falls, Kentucky.

## DARK FALLS, KENTUCKY.

(Battle of Los Angeles Opening Theme plays)

At night we were flying over the forests surrounding Dark Falls and we saw an incredibly horrifying and violent sight. We saw the entire town and forest completely under siege. Massive fiery explosions broke out all over the town and blew most of the buildings into fiery rubble and we saw gunfire, missiles and grenades being fired and thrown at numerous zombies and they were blowing them all apart with incredible power!

BOOOMMM!

Me: Whoa!

Nico: My god! What the fuck is going on down there?

BBOOOOMM!

Lana: The whole town is totally at war!

Me: Mr. President, are you seeing this sir?

President: (On the radio) I see it J.D. This is worse than what we first thought.

Me: This whole town is at war. We need to put all of Kentucky under

Martial Law. This is gonna get really ugly really fast.

President: Understood.

Jack Landors: Let's shoot them in the head. It's the only way to kill them for good!

Dawes: I knew you fools would team up with Benson eventually. But I noticed that she has powers now. And none of you were affected by my gas.

Amanda: I got powers by fighting alongside J.D. and the others.

Carol: And our powers prevent us from being zombified by your gas.

Dawes: Fine. If you won't be my minions, you'll serve as… entertainment.

Me: Then it's time to die.

Dawes: I'm already dead.

We cheered wildly.

Laney: Right.

Everyone got to safety.

I fired a powerful Kamehameha Blast at the center of the town and it hit it and exploded with unbelievable power!

***KRAAAABBBBBBBBBBBBBBBBBBBBBBBOOOOOOOOOOOOOOOOO OOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

The explosion completely destroyed the entire town of Dark Falls in an instant. When the smoke cleared, all that was left of the town was nothing but a smoldering crater.

Nico: That takes care of that dark town and during the battle I caught a Gourgeist and Avalugg.

Me: Great job Nico.

Tori Hanson: That was so awesome J.D.!

Me: Thanks Tori. The power of Teamwork knows no limits.

Amanda Benson came up to Nico and she looked at him and then she broke down crying and hugged him while crying in his chest.

Nico: It's all right Amanda. Just let it all out. Let it all out. Let it all

out.

We felt really sorry for her. She went through a nightmare no one wants to go through. And during the fight I caught the Cloud Card. 雲 Cloud is a small, childlike figure with pointed ears, wearing a poofy, doublet-like outfit with harlequin-pattern leggings and pointed boots. Its hair is poofy and cloud-like, with straight bangs on either side of its face ending in cloud puffs. It has a blue, cloud-shaped gem on its forehead, and in Card form, holds a puff of clouds in its hands. It is probably female. It was an easy catch.

Later we went back home and I told the President what happened and he was proud. Dawes was sentenced to eternity in the River of Fire.

Amanda Benson: (To the viewers) Zombies beware, we will be coming for you and you all will die a horrible and terrible death.

Amanda was made a member of the Goosebumps Monster Busters.

# Into the Forest of Bambi

In New York City, we were over at the sight of Ground Zero where the World Trade Center once stood. Today was a dark day. It was the 18th anniversary of the darkest day in the history of America: September 11th, 2001. On this day, terrorists armed with bombs highjacked commercial planes and used them to completely destroy the World Trade Center. Resulting in the deaths of 3,000 innocent people. It was a dark and grim time for everyone in the United States of America and ever since then, we were at war with terrorists over in Iraq, Pakistan, Afghanistan and the Middle East. For 18 years now, this war has raged on and thousands of soldiers have lost their lives and most of them were severely injured. But the war turned the tide in our favor when we killed the leader of Al-Qaeda, Osama Bin Laden on May 2nd, 2011 in Abbottabad, Pakistan in Operation: Neptune Spear when U.S. Navy Seals stormed his compound and killed him in the dead of night. It dealt Al-Qaeda a devastating and crippling blow. But the war is still raging on even after 18 years had passed.

Me: On this sight 18 years ago, this whole country changed forever because of those terrorists.

Nico: That was an awful sight. I remember seeing all that on TV. I wasn't here on Earth when it happened. It was terrifying. My dad was in the World Trade Center when it was destroyed. But luckily he escaped when it collapsed.

Me: That's awful man. Thank God he's all right.

May: Yeah. Me too.

Carmen: (hugs Maria while crying) Sis, why did all those people have to die?! Why!?

Maria hugged Carmen and comforted her.

Maria: Some people are just pure evil Carmen and they will follow their own selfish desires even at the cost of their own lives.

Liam: (Southern Accent) Yeah. That day was a nightmare back then.

Teresa: Brian I heard that at one time, you and Stewie went back in time to try and stop 9/11.

Brian: Yeah we did and we ended up destroying the timeline.

Teresa: Brian, I'm glad you wanted to help prevent 9/11. But messing with time can cause devestating consequences. That's why whenever we deal with past events, we use the simulator to go to alternate universes of those incidents.

Brian: That's true.

Nico: Yeah.

Reflector: I can't believe there's nothing we can do about this now.

Optimus Prime: You're wrong. We can do something about this.

Skywarp: And that would be?

Optimus Prime: We keep fighting the good fight. And make sure nothing like this ever happens again.

Me: Optimus Prime is right. We have to learn from the past to make sure it doesn't happen again.

Laney: That's right guys.

Naruto: Yeah.

Sasuke: What was the motive behind these attacks? Everything that has to happen has to have a motive.

Me: That's true Sasuke. The motive behind these attacks was crimes against the Muslim world. We provided Western support for attacking Muslims in Somalia, supported Russian atrocities against Muslims in Chechnya, supported the Indian oppression against Muslims in Kashmir, supported the Jewish aggression against Muslims in Lebanon, provided the presence of U.S. troops in Saudi Arabia, Provided U.S. support of Israel, and conducted sanctions against Iraq. These terrorists want to shut down America by killing us all.

Lincoln: These guys are monsters!

Me: That's why we need to kill them before they kill us.

Nico: We'll worry about that later.

Me: Yeah. Lets pray to the people that lost their lives.

We prayed for those that lost their lives on that day 18 years ago today.

Luna played Amazing Grace on Bagpipes.

Some of us were crying.

We left flowers and wreaths for the people. We also made a special flag for the memorial that said "United We Stand, Divided We Fall. Never Forget 9/11." It had the World Trade Center on it before it was destroyed. Everyone saw it and it was perfect for it.

Laney then sang Sarah Brightman's Amazing Grace in front of the flag.

Laney: (Singing Divinely)

Amazing grace, how sweet the sound

That saved a wretch like me

I once was lost but now am found

Was blind but now I see

The earth shall soon dissolve like snow

The sun forgot to shine

But God, who brought me here below

Will be forever mine

Through Him many dangers toils and snares

I have already come

It was grace that brought me here thus far

And grace will lead me home

It was a gut-wrenching song and the sun shined from the heavens and Laney was standing in a beam of sunlight as she sang. Some of us were crying hard and I had tears streaming down my face. It was a dark day that will forever leave a scar on the people of America. Time may heal all wounds, but the pain they leave behind will never heal.

Later back at the estate we were watching one of my favorite childhood movies that I've known since I was little: Bambi from 1942 and we watched the Midquel film Bambi 2 from 2006. We paused the first movie at the part where Bambi goes with his father and started the Midquel movie from there.

The movie begins with a long camera shot through the forest at dawn, and all the animals waking up. Suddenly, a blue bird spreads the news about something. Thumper (a young rabbit) wakes up an old owl named "Friend Owl", who asks what has happened. Thumper and his sisters tell him that the new prince is born. Friend Owl flies off to the area where the young prince is born, along with many other animals. Upon reaching the area, the animals come across the mother doe and her newborn fawn lying by her side. The animals congratulate her. She then urges her new fawn to wake up and see everybody. He wakes up and takes a good, long look at all the animals surrounding him. At first, he is frightened by Friend Owl, who gives a friendly hoot but then manages to make a smile. He then attempts to get up, but due to him being very young, he can hardly keep his balance. Thumper comments that he is sort of unstable, to which his mother scolds him. The young prince then falls backward back into his resting spot, causing some laughter and delight among the creatures. The fawn then lies back into his resting area and gives a big yawn. Friend Owl says to the creatures that it may be time for them to leave. They all leave, except for Thumper, who asks the fawn's mother what his name will be. She replies that she will name him "Bambi." Thumper, liking the name, says goodbye to her and runs off to join his family. Happy with the name, Bambi's mother snuggles up with her sleeping fawn. The camera then pulls up from the small bush to reveal Bambi's father, the Great Prince of the Forest, looking down at them from a nearby cliff ledge.

A few days later, Bambi and his mother are taking a walk through the forest. Bambi falls behind a little bit, getting distracted by some greeting animal neighbors. When trying to catch up to his mother, he gets stuck on a tall, thick blade of grass and slips. Upon seeing him fall, Thumper and his family run over to the young prince, asking his mother if he is alright. She replies that he is doing fine. Bambi then gets back up onto his feet and is able to continue walking, with Thumper and his sisters journeying along side of him. They soon come across several birds eating some berries. Thumper then teaches Bambi how to say "bird", who does not get it right the first time, but with some encouragement from his sisters, he is able to say it, shouting out on the top of his lungs "Bird!" Happy with his success, Thumper and his sisters run off to tell Bambi's mother and their mother what the young prince's first word was, while Bambi runs off chasing a butterfly (thinking it to be a bird). Thumper tells him that it is not a bird, but a butterfly. The butterfly flies off, leaving Bambi into thinking that the huge yellow flower in front of him was the butterfly he saw. Thumper tells him that it is a flower. Bambi tries smelling the flowers of the small field but comes face to face with a young skunk. Bambi calls him a flower, which leaves Thumper rolling over his backside with laughter. The skunk, however, says that he's fine with being called a flower, which makes the baby fawn very happy.

The day grows late and it is time for Thumper to return home, leaving Bambi back with his mother. Off in the distance, a rainstorm is gathering and coming closer. He is then awakened by the noise of some nearby raindrops, which then forms a small brook flowing right past his resting area. Soon, the whole forest is alive with raindrops dropping about. The creatures living in the forest run for shelter from the falling water. Suddenly, the violent part of the storm comes when lightning flashes about in bright flash of light and produces many loud noises, leaving Bambi frightened. Soon, the storm departs and the sunrise off in the distance is slowly seen. Bambi, now asleep next to his mother's side, snuggles up with his mother as the last drops of the storm fall into the nearby overflowing brook.

The next scene opens up a few weeks later when Bambi is now capable of speaking. His mother is going to take him to the meadow. Bambi, who has never been to the meadow before, is eager to go, but his mother stops and tells him that the meadow is also a dangerous place. She tells him to stay behind the thicket while she looks around to see if the place is safe. After a long moment of silence, the wide field appears to be safe. Bambi then runs out and tries to catch up with his mother, who runs off at a fast pace, playing with him. After a while, Bambi walks off and almost steps on a frog. He follows the frog over to a small pool of water, which the frog jumps in. Bambi, however, is left out on the shore, staring at his never before seen reflection. Suddenly, another reflection appears to his side. He looks up at the unknown source which turns out to be another fawn, a female fawn. Feeling frightened of the young fawn's presence, Bambi runs back up to his mother for protection. The young fawn's name turns out to be Faline. Bambi's mother encourages Bambi to say hello to her. Having no choice, he greets her. Faline suddenly breaks out in giggles and starts acting hyperactive. Gradually, the two of them start playing a small game of tag.

Suddenly, from out of the surrounding forest, a huge herd of bucks appears from out of nowhere. Faline runs away in fear while Bambi remains, filled with excitement while watching the bucks bound across the field. He even tries running alongside them but ends up almost getting trampled. Suddenly, they all stop. Wondering why Bambi walks over. The reason appears in front of him. It is no other than the Great Prince, Bambi's father (though Bambi does not know it yet). After a brief look at his son, the Great Prince walks off, leaving Bambi behind. Bambi then asks his mother why everyone stood still when the mysterious stag walked by. His mother tells him that he is respected by all. Thus explaining the why he is called "The Great Prince of the Forest".

The next part follows the Great Prince during his walk through the forest. Suddenly, the silence of the forest is broken when a flock of crows flies past, yelling and spreading out an alarm of certain danger. The Great Prince senses this danger and runs back towards the meadow. Once there, he warns the herd. Sensing the danger as well, the herd and all the other creatures begin to run towards the forest. Soon, the whole meadow is full of retreating frightened animals, running for their lives. Faline and Thumper unite with their mothers and manage to escape, but Bambi gets left behind, searching for his mother. His mother is also looking for him as well. Suddenly, the meadow is completely empty. Though everything is still, something dangerous and deadly is still approaching. Sensing the danger, but to still frightened, Bambi is left out in the open, still searching for his mother. Suddenly, the Great Prince appears from behind him and escorts him and his mother to safety of the forest. Off in the distance, a loud gunshot is heard. A few minutes later, Bambi's mother exits the entrance of their den and looks around. Seeing no danger, she tells Bambi that everything is alright. Bambi asks her what had happened, and why everyone ran. After a moment of silence, his mother replies "Man… was in the forest."

During the winter, Bambi discovers snow. While Bambi looks around the snow, he sees Thumper sliding on the ice. He teaches Bambi how to slide on ice. After that, they meet Flower, who is trying to hibernate. After a harsh winter, Bambi and his mother go to the meadow and discover a patch of grass, heralding the arrival of spring. As they eat, his mother senses a hunter and orders, Bambi, to flee. As they run, many gunshots are heard. When Bambi arrives at their thicket, he discovers that his mother is no longer with him. He wanders off in the forest calling for her, but she does not answer. His father appears in front of him and says "your mother can't be with you anymore," revealing to Bambi that his mother is dead, then leads him away.

His father, the Great Prince of the Forest (Patrick Stewart), finds him and leads Bambi back to his den under a fallen tree, the Great Prince asks Friend Owl (Keith Ferguson) to find a doe to raise Bambi, but Friend Owl points out that due to the harsh winter season the does can barely care for themselves. The Great Prince has no choice but to look after Bambi until the spring. Spring is slowly beginning to return to the forest (the song sequence "There is

Life") The sun breaks through the clouds and the ice and snow begin to melt. Hibernating animals wake up and migratory birds begin to return. On top of the fallen tree that makes the Great Prince's den, a small green plant begins to grow.

Bambi wakes up late. He eats, and the two go to the forest. The prince eventually lets Bambi go with his friends. While walking, Bambi tells Thumper that he and the Great Prince are "best pals," though Bambi has doubts about the Great Prince's affection. They wake up the hibernating Flower (Nicky Jones) and go to see the Groundhog together, where Friend Owl is presiding over the event and it is here that Bambi meets Faline again. The nervous Groundhog (Brian Pimental) is eventually coaxed out of his hole, only be scared back in again by Ronno (Anthony Ghannam), an older fawn. Ronno laughs, but the other animals leave. Ronno catches up to them and ends in an argument with Bambi. Ronno's mother eventually calls Ronno away, and Bambi is left alone to sleep under a tree and wait for the Great Prince to return after Thumper, Flower and Faline leave with their families. Bambi finds himself in a shining golden meadow and begins chasing butterflies. As he does so, he hears his mother's voice calling him. Overjoyed, he runs towards her and begins to nuzzle her lovingly. His mother comforts him, telling him that she's there even though he can't see her. As the dream fades Bambi continues to hear her voice saying "I'm here," which confuses him. He begins to believe that the voice is his mother's after it says "It's me!", so he follows it out onto the meadow where a flock of crows flies past screaming about Man. As Bambi looks towards the source of the disturbance Hunter Dogs runs towards him, causing Bambi to freeze in terror. Elsewhere, the Great Prince hears the crows and suddenly becomes concerned for Bambi. He runs to where the crows were flying from and arrives in time to fight the dogs and save Bambi. As the dogs run back to their master, the Great Prince sees the glint of a rifle and yells at the still frozen Bambi to run. After a nudge from the Great Prince's antlers, Bambi snaps out of his trance and the two escape to safety. Bambi explains that he heard his mother's voice. The Great Prince angrily says that it was one of Man's tricks. Bambi tries to apologize, but the Great Prince is very cross and reprimands Bambi for freezing in the face of peril. He calms down and orders Bambi to immediately return home with him and possibly never come back to that place ever again, where the realization of his mother's death begins to dawn in Bambi's mind. The Great Prince leaves to reflect on the situation and finds Friend Owl. The Great Prince notes that winter is coming to an end and that Friend Owl should have no trouble finding a doe to be Bambi's new mother, meaning that Bambi is possibly an orphan.

The next morning, the Great Prince orders Bambi to stay in the den where it's safe since he would not trust him to go out on his own again. Bambi is crestfallen, as he wants to be with his father. Thumper and Flower ask Bambi what's wrong, and Bambi says he wants his father to see how brave he is. Thumper decides to teach Bambi how to be brave (you have to be scarier than what's scaring you), and Bambi, Thumper, and Flower walk through the forest practicing their new skills until they come to a log guarded by a grumpy porcupine, which terrifies them. They flee back to the bank, and Thumper sees the Great Prince. Since Bambi is supposed to be back at the den, Thumper suggests they leave. But Bambi realizes that this is a good opportunity to show his new-found bravery. The Great Prince turns to leave and Thumper goes to distract him and bring him back. Bambi goes to confront the porcupine. Bambi leaps over the porcupine, angering him. The porcupine stiffens his quills and begins chasing Bambi backward and forwards across the log. Thumper brings the Great Prince to see Bambi "being brave", but when he notices Bambi in trouble he leads the Great Prince away. After a short struggle, the porcupine is propelled into the air by a piece of wood and lands quills-first on Bambi's rear. Bambi yells out in pain, causing the Great Prince to go and investigate the noise, much to Thumper's dismay. Bambi ducks down under the water so as not to be seen, and the Great Prince begins to pull the quills out of Bambi's rear. Ronno and Faline are nearby, and Ronno is showing off to Faline until she hears Bambi cry out in pain. Bambi cries out again and Faline runs to see to see him. Ronno yells after her, seemingly hurt by losing her attention. Faline and Ronno go and see Bambi, and Ronno teases Bambi after the meadow incident where Bambi froze. Ronno decides that he and Faline should leave, but Faline wants to stay. Ronno tries to force Faline to leave and Bambi stands up for her. Ronno comes back to confront Bambi and tease Flower and Thumper, causing Thumper to push Bambi so that he headbutts Ronno. Ronno is furious and chases Thumper and

Bambi through the forest.

Bambi comes to a large jump, and to his surprise he clears it with ease. The Great Prince appears and begins to tell Bambi off for leaving the den, but interrupts himself when he notices that Bambi cleared the jump, saying that he didn't make a jump that far until he had antlers. Bambi is delighted at the positive attention, but the Great Prince composes himself and the three leave. Ronno tries to clear the jump as well but falls and lands in the mud. The next day, Bambi practices his jumping with Thumper. The Great Prince sees this and smiles but becomes serious when Friend Owl arrives and says that the search for a new mother is going well. The Great Prince does not concentrate and is more concerned with Bambi's jumping. Friend Owl notices this and slyly hints that the Great Prince might have changed his mind. The Great Prince, annoyed, confirms that he has not. He then walks past Bambi's jumping lesson, seemingly taking little interest in it. Bambi is confused as his jumping drew praise the day before. Bambi says that the Great Prince has been standing around and contemplating a lot. Thumper suggests that Bambi should go and ask the Great Prince about it. Bambi does so, and the Great Prince says that he is observing - looking, listening and smelling for danger all at the same time. The Great Prince says that Bambi should try to "feel the forest" (feel vibrations through his hooves for abnormalities in forest activity). The Great Prince leaves and Bambi turns to head back to the den, but the Great Prince wants Bambi to come with him. The two journey through the forest and join the stags as they participate in their annual run. Through this, the bond between father and son deepens (the song sequence "First Sign of Spring").

The next morning as Bambi and the Great Prince play, Friend Owl arrives with Mena, the doe he has found to be Bambi's new mother. The Great Prince now seemingly regrets the decision to pass on his parenting duties, but resolves to do so despite Bambi's protestations. After saying goodbye to his friends and the Great Prince, Bambi, who seems to accept the change even though he's upset, leaves with Mena. Ronno appears and continues to tease him about Bambi's father sending him away. This causes an enraged Bambi to charge at Ronno and the two fight. Mena disrupts the fight but Ronno charges into Bambi, causing Bambi to knock Mena into a trap attached to jingling bells. As Mena struggles, the bells jingle and alert Man and the hunting dogs to her position. Ronno flees in terror screaming for his mother, and Bambi freezes again. He quickly snaps out of it and begins to run as well, but as Mena is encouraging him to run, she unknowingly quotes Bambi's late mother's last words, saying "Faster Bambi, don't look back! Keep running! Keep running!" hearing this he pauses and doubles back to distract the four dogs away from Mena. The Great Prince arrives and frees Mena from the trap before going after Bambi. Bambi manages to lose some of the dogs (one with the help of Flower's scent glands, and another with help from the grumpy porcupine) and begins to climb a steep, rocky cliff. One of the dogs slips and falls, leaving only one chasing after Bambi. Bambi climbs to a high ledge and dislodges some rocks, which do nothing to the dog. As the dog closes in, Bambi kicks it in the chest, causing it to fall to the bottom of the cliff. The Great Prince sees this and is relieved. Bambi goes to join him, but the ledge beneath Bambi gives way and he falls. The Great Prince goes to him and believes the prince to be dead. He nuzzles his son tenderly and sobs. Friend Owl, Mena, Flower, and Thumper arrive to see what is happening. As the Great Prince gets up to leave, Bambi wakes up. The Great Prince, relieved, begins to nuzzle his son again, causing Bambi to smile at the attention. Mena turns and leaves, knowing that the Great Prince wanted to take care of Bambi after all. A while later, Thumper tells the exaggerated story of how Bambi defeated the dogs. Bambi arrives, now with a pair of antlers starting to grow in and without his spots. The porcupine pricks Bambi's legs with his quills, causing Bambi to leap forward and accidentally engage Faline in a kiss. Ronno arrives and swears revenge against Bambi, but also steps on a turtle who bites him on the nose, making him run away, screaming for his mother. Bambi leaves as his father is calling him. The Great Prince takes Bambi to a forest glade, saying that this was the place where he first met Bambi's mother. Bambi asks what the Great Prince was like when he was Bambi's age, and the Great Prince says that he was a lot like Bambi.

Years later, a young adult Bambi is reunited with Thumper and Flower as the animals around them begin pairing up with mates. Though they resolve not to be "twitterpated" which Friend Owl taught them like the other animals in love, Thumper and Flower each leave with newly found mates. Bambi is disgusted until he runs into Faline and they become a couple. As they happily dance and flirt through the woods, a slightly older buck, Ronno, appears and tries to force Faline to go with him. Bambi and Ronno then begin to have a duel, each of them competing for a mate. Though he initially struggles, Bambi's rage gives him the strength to defeat Ronno and push him off a cliff and into a river below.

That night, Bambi is awoken by the smell of smoke. His father explains that Man has returned to the forest and that there are many of them now, and they must go deep into the forest. Bambi immediately searches for Faline, but she is being chased by hunting dogs. Bambi finds her in time to fights off the dogs, allowing Faline to escape. With Faline safe, Bambi runs but is shot as he leaps over a ravine. The Great Prince finds him there and urges him back to his feet. Together, they escape the forest fire (which the hunters have started) and go to a small island in a lake where the other animals, including Faline, have taken refuge.

At the end of the film, Thumper and Flower, now fathers, and all the other animals, including Friend Owl, went into the thicket for a big surprise. Faline has recently given birth to twin fawns: a boy named Geno and a girl named Gurri. Bambi stands watch on a cliff, and the Great Prince silently turns and moves away from Bambi's place, as he allows him to take his place. And the New Great Prince looks on proudly watching his newborn children, just as his father did to him at his own birth.

When both movies were done we cheered wildly.

Me: That was awesome! I've known this movie ever since I was little and it's amazing.

Luan: Bambi sure is a critter most DEER. (Laughs to rimshot) Get it?

Most of us laughed.

Me: (Laughs) That was a good one Luan!

Varie: (Laughs) That was funny!

Qin: (Laughs) That was funny.

Abigail F.: That was a good one.

Eddy: (Laughs) That was so funny.

Rachel S.D.: It sure was.

Eion: Yeah.

Me: But the scariest part was that the hunters accidentally caused that forest fire.

Lori: That fire was literally scary.

Me: But that fire was nothing compared to what happened when we were evacuated because of the Hayman Fire.

Luna: Hayman Fire, dude?

Me: It was the largest wildfire in Colorado's history.

I showed everyone on the computer.

---

The Hayman Fire was a forest fire started on June 8, 2002, 35 miles (56 km) northwest of Colorado Springs, Colorado and 95 miles (153 km) southwest of Denver, Colorado and became the largest wildfire in the state's recorded history at over 138,114 acres.

Hundreds of firefighters fought the fast-moving fire, which caused nearly $40 million in firefighting costs, burned 133 homes, 138,114 acres, and forced the evacuation of 5,340 people.

Smoke could be seen and smelled across the state from Vail, 108 miles (174 km) northwest, to Burlington, 188 miles (303 km) east, and from Broomfield, 50 miles (80 km) north, to Walsenburg, 130 miles (210 km) south.

The Hayman Fire burned from June 8th, 2002, until it was classified as contained on July 18, 2002. The cause of the wildfire was found to be arson.

When then-Governor Bill Owens responded to a reporter's question following an aerial tour of the fires ("What does it look like up there?"), Owens said "It looks as if all of Colorado is burning today." Many western slope residents blamed Owens for driving away tourists with the press's truncated version of the quote ("All of Colorado is burning.") The "'Hayman Fire"' was named for a mining ghost town near Tappan Gulch.

## Impact

The fire resulted directly in the death of one civilian, $39.1 million in suppression costs, total private property losses valued at $40.4 million, and indirectly led to the death of five firefighters. Overall, 600 structures were burned in the fire including 133 homes, 1 commercial building and 466 outbuildings. While the fire burned, record amounts of particulate matter were measured in the air.

As a result of the fire, flooding in the burn area increased. Consequently, many roads and bridges in the area were washed out. This included State Highway 67, the main highway that runs through the area. Other indirect destruction included sediment runoff into a reservoir that is used as a water source for Denver. The removal of this sediment cost $25 million.

Most of the burn area is inside of the Pike National Forest. The fire caused the closure of a large part of the national forest land as well as nearby Eleven Mile State Park and Spinney State Park. Tourism saw a sharp decline in the area and it is estimated that local businesses lost 50% of their seasonal revenues as a result of the fire-induced closures.

## Fatalities

Ann Dow, 50, suffered a fatal asthma attack on the evening of June 10, 2002 when heavy smoke from the fire drifted over the Dows' home south of Florissant. She quickly lapsed into unconsciousness and paramedics could not revive her. Her death certificate lists the cause as "acute asthma attack due to or as a consequence of smoke inhalation."

Five firefighters died from injuries sustained from a June 21, 2002 traffic accident en route to the Hayman fire from Oregon: Zach Zigich, Retha Shirley, Jacob Martindale, Danial Rama, and Bart Bailey. They are listed in the memorial to fallen firefighters on the Wildland Firefighter Foundation's website.

## Criminal prosecutions

A forestry technician with the U.S. Forest Service, Terry Barton, set the fire in a campfire ring during a total burn ban triggered by a National Weather Service red flag warning. Barton's claim that she was attempting to burn a letter from her estranged husband was disputed by one of her teenage daughters who testified that a psychology teacher had told Ms. Barton to write her feelings in a letter and burn it. Many locals believe she set the fire on purpose so she could stay home and fight a local Colorado fire instead of being called to fight fires in other states, such as Arizona or California. This would enable her to be with her kids that summer. According to radio talk show host Glenn Sacks, investigators also speculated that Barton started the fire so she could be a hero for putting it out and saving the forest. The fire quickly spread out of the campfire ring and eventually torched over 138,000 acres (560 km2) and burned across four different counties. A federal grand jury indicted Barton on four felony counts of arson.

Barton pleaded guilty to two charges: setting fire to federal forest land and lying to investigators and was given a six-year sentence in federal prison. U.S. District Judge Richard Matsch refused, however, to impose the $14 million restitution asked for by prosecutors, saying he would not sentence her to a "life of poverty." Additionally, the State of Colorado sentenced Barton to 12 years in prison to run concurrently with the 6-year federal sentence. The state sentence was overturned on appeal, however, on grounds that the presiding judge had "the appearance of prejudice" because smoke from the fire had motivated him to voluntarily leave his home for one night. In March 2008, Barton was re-sentenced by a different judge to 15 years of probation and 1,000 hours community service.

Several insurance companies filed a $7 million suit against the government in the fall of 2008, claiming that Barton was negligent in her duties. In November, Judge Wiley Daniel ruled that the government was not responsible for Barton's actions because she was acting as an angry spouse and not as a government worker.

In August 2018, Barton's sentence was extended another 15 years in the form of unsupervised probation (the unsupervised probation was ordered to save legal fees that would then be redirected towards restitution). Judge William Brian ordered that Barton continue to make payments toward the $14.5 million in restitution she owed as of the 2018 re-sentencing. The judge also ordered that Barton get a full-time job.

Lola: Whoa! That's awful!

Lana: I didn't know you were evacuated because of that fire.

Laney: And it burned 138,114 acres? That's a lot of land.

Lisa: That's the equivalent of 558.927528 square kilometers in size.

Qin: Wow! That's a huge amount of acreage.

Lincoln: How are wildfires usually started?

Me: Well there are two main causes. 60% of all fires are sparked by lightning. Lightning is pure electricity that burns at 50,000˚ Fahrenheit and it can ignite trees. But 40% of all fires are started by man either on purpose or accident. It can be a number of causes because of us: Someone carelessly tossing a cigarette out the window, down sparking power lines, sparks from a train, matches, fireworks, anything that's combustable.

Lana: Wow! That's dangerous.

Lucy Loud: Fire is a very dangerous and destructive force.

Me: That's right Lucy. Remember when I thawed Lori out when I showed you all my Fire Powers?

Lori: That was literally amazing.

Lynn: I remember that. That was awesome!

Me: It was. But fire is a very destructive and dangerous force. Fire destroys and burns everything it touches.

Laney: Yeah. It's dangerous.

Lincoln: I know.

Lola: What was the largest wildfire ever?

Me: That is an easy one. That was the Great Fire of 1910. It burned over 3,000,000 acres.

Everyone: WOW!

Lisa: That's 12,100 square kilometers.

Me: That's right.

I pulled up its information.

---

The Great Fire of 1910 (also commonly referred to as the Big Blowup, the Big Burn, or the Devil's Broom fire) was a wildfire in the western United States that burned three million acres (4,700 sq mi; 12,100 km2) in North Idaho and Western Montana, with extensions into Eastern Washington and Southeast British Columbia, in the summer of 1910. The area burned included large parts of the Bitterroot, Cabinet, Clearwater, Coeur d'Alene, Flathead, Kaniksu, Kootenai, Lewis and Clark, Lolo, and St. Joe National Forests.

The fire burned over two days on the weekend of August 20-21, after strong winds caused numerous smaller fires to combine into a firestorm of unprecedented size. It killed 87 people, mostly firefighters, destroyed numerous manmade structures, including several entire towns, and more than three million acres of forest with an estimated billion dollars worth of timber was lost. It is believed to be the largest, although not the deadliest, forest fire in U.S. history. The extensive burned area was approximately the size of the state of Connecticut.

In the aftermath of the fire, the U.S. Forest Service received considerable recognition for its firefighting efforts, including a doubling of its budget from Congress. The outcome was to highlight firefighters as public heroes while raising public awareness of national nature conservation. The fire is often considered a significant impetus in the development of early wildfire prevention and suppression strategies.

A great number of problems contributed to the destruction caused by the Great Fire of 1910. The wildfire season started early that year because the winter of 1909-1910 and the spring and summer of 1910 were extremely dry, and the summer sufficiently hot to have been described as "like no others." The drought resulted in forests that were teeming with dry fuel, which had previously grown up on abundant autumn and winter moisture. Hundreds of fires were ignited by hot cinders flung from locomotives, sparks, lightning, and backfiring crews. By mid-August, there were 1,000 to 3,000 fires burning in Idaho, Montana, and Washington.

## The Big Blowup

August 20 (Saturday) brought hurricane-force winds to the interior Northwest, whipping the hundreds of small fires into one or two much larger blazing infernos. Such a conflagration was impossible to fight; there were too few men and supplies. The United States Forest Service (then called the National Forest Service) was only five years old at the time and unprepared for the possibilities of the dry summer or a fire of this magnitude, though all summer it had been urgently recruiting as many men as possible to fight the hundreds of fires already burning, many with little forestry or firefighting experience. Earlier in August President William Howard Taft had authorized the addition of military troops to the effort, and 4,000 troops, including seven companies from the U.S. Army's 25th Infantry Regiment (known as the Buffalo Soldiers), were brought in to help fight the fires burning in the northern Rockies. The arrival of the Buffalo Soldiers troops almost doubled the black population of Idaho.

Smoke from the fire was said to have been seen as far east as Watertown, New York, and as far south as Denver, Colorado. It was reported that at night, five hundred miles (800 km) out into the

Pacific Ocean, ships could not navigate by the stars because the sky was cloudy with smoke.

The extreme scorching heat of the sudden blowup can be attributed to the expansive Western white pine forests that covered much of northern Idaho at the time. Hydrocarbons in the trees' resinous sap boiled out and created a cloud of highly flammable gas that blanketed hundreds of square miles, which then spontaneously detonated dozens of times, each time sending tongues of flame thousands of feet into the sky and creating a rolling wave of fire that destroyed anything and everything in its path.

## Firefighters

At least 78 firefighters were killed while trying to control the fire, not including those firefighters who died after the fire of smoke damage to their lungs. The entire 28-man "Lost Crew" was overcome by flames and perished on Setzer Creek outside of Avery, Idaho.

Perhaps the most famous story of survival is that of Ed Pulaski, a U.S. Forest Service ranger who led a large crew of about 44 men to safety in an abandoned prospect mine outside of Wallace, Idaho, just as they were about to be overtaken by the fire. It is said that Pulaski fought off the flames at the mouth of the shaft until he passed out like the others. Around midnight, a man announced that he, at least, was getting out of there. Knowing that they would have no chance of survival if they ran, Pulaski drew his pistol, threatening to shoot the first person who tried to leave. In the end, all but five of the forty or so men survived. Pulaski has since been widely celebrated as a hero for his efforts; the mine tunnel in which he and his crew sheltered from the fire, now known as the Pulaski Tunnel, is listed on the National Register of Historic Places.

## Aftermath

The fire was finally extinguished when another cold front swept in, bringing steady rain and some early snowfall. Several towns were completely destroyed by the fire:

**Idaho** :

Falcon

Grand Forks

**Montana** :

De Borgia

Haugan

Henderson

Taft

Tuscor

In Idaho, one-third of the town of Wallace was burned to the ground, with an estimated $1 million in damage (equivalent to $26,900,000 in 2018). Passenger trains evacuated thousands of Wallace residents to Spokane and Missoula. Another train with 1,000 people from Avery took refuge in a tunnel after racing across a burning trestle. Other towns with severe damage included Burke, Kellogg, Murray, and Osburn, all in Idaho. The towns of Avery, Saltese (MT), as well as a major part of Wallace, were saved by backfires.

## Legacy

The Great Fire of 1910 cemented and shaped the U.S. Forest Service, which at the time was a newly established department on the verge of cancellation, facing opposition from mining and forestry interests. Before the epic conflagration, there were many debates about the best way to handle forest fires-whether to let them burn because they were a part of nature and were expensive to fight, or to fight them in order to protect the forests.

One of the people who fought the fire, Ferdinand Silcox, went on to become the fifth chief of the fire service. Influenced by the devastation of the Big Blowup, Silcox promoted the "10 a.m." policy, with the goal of suppressing all fires by 10 a.m. of the day following their report. It was decided that the Forest Service was to prevent and battle every wildfire. More recently, this absolutist attitude to wildfires has been criticized for altering the natural disturbance mechanisms that drive forest ecosystem structure, which paradoxically increases the destructive potential of forest fires.

* * *

Lori: Wow. That is literally awful.

Nico: It was.

Me: Yeah. It happened 110 years ago almost. Sora, you know Bambi right?

Sora: I sure do. Bambi was one of my first summons when my adventure began.

Donald: I remember that.

Goofy: Yeah. He sure is an amazing deer.

Kairi: He's really cute too.

Riku: I thought so too.

Syd: Deer are such amazing creatures. I can't believe we hunt them for food like that!

Lana: Me neither Syd. They need to be protected under us.

Me: I think so too. Lets head to the simulator and save Bambi's mother and meet Bambi in his world.

Ratchet: That's a great idea.

Sora: I wonder how he's doing?

Me: We'll find out. Lets head to the simulator.

We went to the simulator.

* * *

We were getting ready.

Ash: (to his Noctowl) Noctowl, when we get to Bambi's world, do you want to fly around?

Noctowl agreed.

Shanan: Looks like he is ready.

Ratchet: When we get to Bambi's mom, I'll heal her wounds before she succumbs to them.

Me: Right.

Shanan: Okay. Me, Laney, Lana, Maria, Nico, Syd, Jack Landors, Eion, Eddy, Luan, Lensay, Teresa, Ash, Riley, Sora and Kairi are gonna go into the Simulator and Ratchet and Reflector are gonna be in their compact state. We invented an awesome shrink device that can turn them into compact size.

Ratchet: It's true.

Reflector: This is gonna be interesting.

Me: Good luck guys.

Shanan: Thanks dad. Not that we'll need it but thank you.

Laney: This is gonna be interesting.

Lana: I can't wait to meet Bambi.

Syd: Me too.

Shanan: Lets go.

They went into the Simulator and it activated and they found themselves in Bambi's forest. It was a beautiful forest and it was loaded with all kinds of trees and plants and all kinds of animals. But it was cold and covered with snow.

Shanan: Wow. So this is Bambi's forest.

Lana: It sure is cold.

Laney: Luckily I brought our winter clothes.

Laney unpacked them and they put them on.

Nico: Good thinking Laney.

Syd: Thanks Lanes.

Ratchet and Reflector went into compact size and they were the size of Hot Wheels cars.

Lana: It's so beautiful here during the winter.

Laney: It sure is. Did it say where Bambi's forest takes place?

Shanan: It says that it's over in Maine near Mount Katahdin in the Appalachian Mountains.

Lana: Wow. Over on the eastern side of the country.

Shanan: Exactly.

Teresa: That's 1,000 miles from Michigan.

Nico: It sure is.

Syd: I was here on Vacation to enjoy the scenery. But I was too little to remember.

Eion: It's beautiful though.

Sora: So Bambi's world is on Earth.

Kairi: Looks like it.

Nico: Not only that but I remember that this forest is also perfect for hunting during hunting seasons.

Laney: I remember that.

Shanan: Yeah. It's not right. Animals have feelings too and they deserve to live whether they like it or not.

Laney: I agree Shanan.

Luan: Same here.

Shanan: Lets find Bambi's mother.

They walked on and the ground was covered in snow and it was beautiful.

Lana: The winter is beautiful here though.

Shanan: You all should see what Maine looks like during the Fall turn. The leaves turn many different beautiful colors. It's just as beautiful as Connecticut.

Eion: I know. I heard about that.

Then they heard gunshots.

BANG!

Shanan: Gunshots!

Laney: The Hunter's are here!

Lana: Look!

They saw Bambi's mom and Bambi run fast.

Then they saw Bambi's mom get shot!

BANG!

Shanan: Oh no!

Ratchet: I'm on it!

Ratchet came out and healed Bambi's mom.

The Hunters ran away and Ratchet went back into Shanan's vest.

Riley: (to Bambi's mom) Don't worry. You're safe now.

Bambi's mom: What happened?

Sora: Are you all right? I'm a friend of your son Bambi. I'm Sora.

Bambi's mom: So you are Sora. Bambi has told me so much about you.

Sora: I'm sure he did.

Bambi's mom saw them.

Shanan: We are friends of Sora.

They introduced themselves.

Bambi's mom: It's a pleasure to meet you all. Thank you all so much for saving me.

Shanan: You're welcome.

Laney: I'm glad we arrived and scared off the hunters.

Lana: Those guys are monsters.

Luan: They sure are.

Bambi's mom: My name is Vina. Where's Bambi?

Shanan: Pleasure to meet you Vina.

Nico: He went back to the Thicket.

Eion: I think the Great Prince found him.

Vina: I'm glad he's in good hands.

Ash: We are too.

Shanan: We'll keep our eyes peeled for more hunters just in case.

Vina: Thank you.

They continued to explore the forest.

Spring later came and it was time for the mating season. Hundreds of birds were doing mating calls and it was a glorious time.

Shanan: (Inhales) Ahh. Spring is in the air and it's mating season.

Kairi: It's so beautiful.

Jack Landors: It sure is.

Syd: The beauty of Spring is amazing!

Nico: It's so beautiful.

They heard the beautiful songs of the birds and they were pretty.

Nico: Maine sure has a lot of beautiful birds.

Laney: It sure does.

Lana: We may have to come here for vacation someday.

Syd: You guys will love it.

Later they saw Bambi and he was all grown up.

Sora: Bambi!

Bambi: It's good to see you again, Sora!

Sora: Same here, Bambi. Look at you. You're all grown up!

Bambi: It feels like forever ago. You have changed a lot yourself.

Sora: I know.

Vina: Bambi.

Bambi was reunited with his mother and he was overjoyed to see her again.

Maria: I'm glad they're reunited.

Shanan: Me too.

Ash: It's a great reunion.

Laney: It sure is.

Bambi: My father taught me so much over the years and he is a brave deer.

Later they follow Bambi and met Faline and she was grown up too and she was beautiful. Then Bambi became Twitter pated because of it and he was now on Cloud 9. But just as he was about to follow her, out of a bush came his old childhood rival, RONNO!

---

In Bambi II, Ronno is given much more personality and unlike in the previous film, here he has dialogue. When Bambi and his friends were watching the Groundhog, Ronno scares him back into his hole with a "BOO!" and laughs while the other animals leave in disappointment, but he stops them and tells them that he saw a man, and butted him with his antlers. This is clearly a tall tale he pulls just to garner respect. Faline, who knows that it is impossible for a fawn to defeat a man, politely and without offending, says it was unbelievable, though with noticeable sarcasm in her voice. Bambi, who really believes that Ronno had done such a feat (as a testament to his innocent naivety), thinks it is unbelievable too, though he says it in awe. Ronno, who thinks that Bambi doesn't believe him and is hinting at him being a liar, challenges Bambi to a fight. Thumper tells Bambi to clobber him. Ronno continues to goad Bambi by insulting his name, "Bambi? Isn't that a girl's name?" and laughing, insisting that Bambi spar with him while backing the smaller fawn up against a tree. Just before the two fawns get in a fight, Ronno's mother calls him and he reluctantly returns to her before he could fight with Bambi, though he scolds "MA! How many times do I have to tell ya, don't bother me when I'm trying to make new friends!" to which his mom replies "Sorry, dear!"

Later in the film, Ronno, who has become infatuated by her beauty (or the fact that she is the only doe beside the mothers that we see), tells Faline about himself, but Faline still believes Ronno isn't what he claims to be and shows clear displeasure in his company. She hears Bambi screaming and rushes to check on him. Ronno, upset about Bambi garnering Faline's attention away from him, shows up to insult Bambi and says that he witnessed Bambi freeze with fear out on a meadow when Man's dogs arrived, right in front of his father The Great Prince. Ronno tells Bambi not to feel bad as if there weren't cowards, you wouldn't tell who the brave ones were. Bambi replies that he's not a coward and "roars" at Ronno. When Ronno tries to get Faline to leave with him, Bambi comes to her defense to which Ronno starts to tease Bambi again this time about being with Thumper and Flower. Thumper pushes Bambi forward, trying to encourage him to stand up to Ronno, only for Bambi to accidentally knock Ronno down into the mud. Angry, Ronno starts to chase Bambi and Thumper and while chasing them, Bambi jumps over a chasm and then Bambi runs into his father while Ronno backs away into the bushes. Bambi's father is impressed by the jump and father and son start making their way back home. Ronno tries to jump over but falls into a mud pit.

He shows up again during the "First Sign of Spring" musical number, running with the other bucks, taunting Bambi with a raised tail and a haughty stance before taking off to join the bucks. When the Great Prince runs past him, he gives an awed "Woah!", his expression to change to anger and jealousy as Bambi runs past him. He speeds up, trying to overtake Bambi and keep up with the Great Prince, only for Bambi to easily overtake him and run alongside his father, both outdistancing Ronno and leaving him well behind with the rest of the bucks.

Later on, he shows up and taunts Bambi while Mena is taking Bambi to his new home, saying that he wanted to say goodbye, thought they were pals, and really felt sorry for Bambi having a father that was so ashamed of him, he'd give him away. This makes Bambi angry enough to attack, and in the fight, they mistakenly push Mena into a snare. She tells them to get out of there immediately in a panic, the bell on the trap immediately alerting hunters to their location and the barking of dogs clear in the distance. Ronno, revealing his cowardice, runs off crying for "Mommy" but Bambi stands where he is, frozen in fear.

Ronno shows up after Faline and Bambi kiss and swears revenge for stealing Faline, vowing to return but he trips on a turtle, which snaps his nose, with him screaming "GET IT OFF!" repeatedly and jumping around in a panic, which incites Flower to say "See? I told you turtles were scary."

In the original movie, Ronno first appears at Bambi's daydream with Faline. He appears from a bush where Faline disappeared into, Bambi still in his daydream nearly runs into him when his daydream ends off suddenly when Ronno appears. Though he has no lines in the film, his intentions are clear. He immediately began threatening Faline away from Bambi until Bambi charges at him. The two begin combat, Ronno overtaking Bambi at first. At the end of the fight, Ronno is thrown over a cliff and falls into the water below and leaves. It is unknown if he survived the wildfire, as the only scene he appears in was the fight scene.

---

Bambi: Ronno!

Nico: I remember him. He was bad news.

Syd: He sure is.

Ronno: Hello Bambi. How nice to see you again and trying to steal my mate!? You are a monster Bambi!

Bambi: I wasn't trying to steal your mate! Faline chose me over you!

Shanan: You have a lot of nerve Ronno. You are just as bad back then as you are now.

Maria: (to Ronno) I thought you were a jerk when you were a kid. But now that you're an adult, you've really reached a new low!

Nico: Ronno, you have failed this forest!

Shanan: And he has failed as a deer.

Ronno: I'll show you!

Ronno then charged and Lana did as well and she hit him head on like a bighorn sheep and it caused him to fall off a cliff and into the river.

Bambi: Nice job Lana.

Syd: Lana that was so cool! You charged him like a bighorn sheep!

Lana: Aw it was nothing.

Maria: That was really clever.

Lana: Thanks guys. I always think I'm one with the animals.

Later they were over in the meadow and Bambi and Faline got to frolicking around. The song Looking For Romance played in the background.

I bring you a song

And I sing as I go

For I want you to know

That I'm looking for romance

I bring you a song

In the hope that you'll see

When you're looking at me

That I'm looking for love

I'm seeking that glow

Only found when you're young and it's May

Only found on that wonderful day

When all longing is through

I'm seeking that glow

Only found when a thrill is complete

Only found when two hearts gently beat

To the strains of a waltz that's both tender and new

I bring you a song

For I'm seeking romance

You're by my side

There's a moon up above

It shines with a light that's so mellow and bright

It's easy to see that tonight we shall fall in love

I bring you a song

For I'm seeking romance

And you

Later they smelled smoke.

Shanan: Uh oh. (Sniffs) Smoke. From a campfire no doubt.

Syd: I smell it too.

Lana: The hunters are back.

Bambi: Where is he?

Shanan: Lets find out.

They all went to a nearby cliff and they saw smoke coming from a campground.

Shanan: A campground. There's a lot of hunters here.

Stag: It is Man. (Crows caw) He is here again.

Nico: We know.

Stag: There are many this time. We must go deep into the forest. Hurry. Follow me.

Shanan: No. We're gonna fight.

Lana: We won't let those hunters hurt you all anymore.

Laney: That's right.

Shanan: Great Prince, you get all the deer and hide. We'll handle all this. Lets get them!

They went to face the hunters. They saw them sneaking around in the forest.

Shanan kicked a hunter in the face.

Jack Landors (to the hunter): Hey, asshole! Didn't you hear?

Eddy: Laser guns are the rage these days! (he and Jack fire their blasters)

They fired lasers at the hunters and they dropped their 12 Gauge Shotguns.

Lana froze them in ice.

Laney: As animal rights activists, the deer of Maine have a right to live and be free!

Shanan: Lets get them with combos!

Ratchet: You got it Shanan! CYBER KEY POWER!

The Autobot Cyber Planet Key went into Ratchet's back and it enhanced his laser scalpels 100-fold.

Ash: Time for action Noctowl! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Ash's right arm device and it enhanced his Noctowl's abilities 100-fold.

Ash: Noctowl, use Zen Headbutt!

Ratchet and Ash's Noctowl: LASER HEADBUTT RAM!

Ratchet threw his laser scalpels and Noctowl's head glowed green and he rammed the hunters and they were cut.

Reflector: Lets do it! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his blinding camera flash power 100-fold.

Teresa: Right behind ya. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Teresa's right arm device and it enhanced her Sonic Powers 100-fold.

Reflector and Teresa: VERTIGO SONIC FLASH!

Reflector released a powerful blinding flash and the hunters were tired and disoriented and the sonic blast hurt their ears.

Shanan: Final Smash time!

Riley: You got it! BRAMBLE WHIPSTORM SURPRISE!

Riley formed a bunch of bramble vines and they lashed the hunters all over the place.

Bambi: This is for my mother and for the animals of the forest! DEER STAMPEDE RAM!

Bambi charged with the power of 1,000 deer and slammed into the hunters and knocked them out.

Lana tied them up and Laney put out their campfire.

Laney: Whew. That was a close one. Good thing I put out their fire or the whole forest would've burned.

Eddy: Good idea.

We sent the hunters to prison for illegal hunting.

During the fight, Nico caught a Deciduoeye and Niovern.

Riley: (To the viewers) All animals have a right to be protected no matter what.

Laney: That's right. (To the Viewers) And only you can prevent wildfires.

Later, Bambi and Faline now have two baby deer. A Boy named Geno and a girl named Gurri. They were so adorable. We put Bambi's forest under our protection in a special nature preserve under our name. Earlier today I caught the Move Card. 移 The Move's true form has been seen only on its Card form. It seems to be a small triangular basket or pendulum with a red gem at its front, and two long 'Clow Wings'. Move resembles a pair of 'Clow Wings', which appear on whatever object it inhabits just before it moves it. It was moving a book around very fast all over the city. We only had 2 days left until the Great Anti-Fairy Holocaust and the war was right around the corner. 2 more Clow Cards were left. The Change Card and the Earthy Card. Yue's test was approaching fast.

THE END

Another Fanfiction complete and another Disney Movie covered.

September 11th was a dark day for all of us here in the U.S.A. and I was in Middle School when it all happened. It was terrifying. Nico's dad being in the World Trade Center when it was destroyed is all true. Luckily he wasn't hurt. Also I was really evacuated during the Hayman Fire in 2002 and it was awful. It's true. I watched Bambi all the time ever since I was a little kid and it was so cute! NicoChan11 gave me the ideas for this one. Thanks man. The next card is the Change Card. Let me know what you all think.

See you all next time.

# Eve of War and Fight a Ghost

September 12th, 2019 - it was the Eve of War. Friday, September 13th was tomorrow and the Anti-Fairy Holocaust was almost upon us. I was meditating on the roof of the tallest building in the city. I was concentrating hard.

Me: Great Jedi masters, there is a war upon us and it's a battle to end an evil race of bad fairies that pose a great danger to the planet and the universe. We are facing a terrible battle ahead of us and the Anti-Fairies are unlike anything we have ever faced.

The spirits of Mace Windu, Obi-Wan (Star Wars VI), Yoda (Star Wars V & VI), Anakin Skywalker (Star Wars VI) and many others appeared.

Mace Windu: You and your friends are the strongest force in the whole universe J.D. You all have the power of the Force flowing through you.

Obi-Wan: You will overcome great odds like you have done many times before J.D.

Yoda: Believe in you we do J.D. But in your heart you must believe.

Anakin: True power comes from love and kindness. When I was saved by you from the Dark Side of the Force, I thought I had lost my soul. But you freed me from the evil of Palpatine and saved the Republic.

Mace Windu: We believe in you J.D. You have the power to win and triumph.

Me: Thank you Master Windu. Thank you all. I will not fail all of you.

Then Mace Windu's purple lightsaber appeared in front of me.

Mace Windu: This is my Lightsaber that I used in battle. It is yours now and it has the power to now kill Anti-Fairies and Fairy Criminals.

Use it well.

I took it and ignited it and it had a purple blade and powerful dark purple lightning was flowing through the blade with incredible power.

Me: Wow. Thank you great Jedi Masters. I will not fail you.

They disappeared.

I walked over to the edge of the building and I had the lightsaber ready and I had a look of powerful determination on my face ready. I held up my hand and Force Lightning was arching through my hand over the tips of my fingers and it was gonna be a long and powerful battle ahead.

Me: Get ready Anti-Fairies. Tomorrow at the crack of dawn, you all will pay for your crimes.

I got to practicing with my new lightsaber and I formed dummies that looked like the Anti-Fairies and slashed them all and I got an incredible surprise. The lightsaber kills them all in an instant without the need for my Anti-Fairy kill gauntlet. I fired Force Lightning and it now kills Anti-Fairies on contact.

Over in the middle of the forest, Kira and Lola were looking for a Dino Egg.

Kira: Why are we out here again?

Lola: Well, there's supposed to be a new Dino Egg that's here somewhere, right?

Kira: Of course.

Lola: Well. I want to find that Dino Egg.

Kira: Okay.

Lola and Kira were searching for the egg and they saw a glow in the middle of a hole and they found it.

Lola: There it is!

Lola picked it up and it was emitting a pink glow and it was then hatching.

I sensed Lola finding the egg and it was amazing. I flew over to them.

The egg hatched and out came a big pink Sauropod Dinosaur Zord!

Lola: Wow!

Kira: It's an Amphicoelias Zord!

It grew to huge size and it was amazing!

Lola: Wow!

I saw the ginormous zord and it was incredible!

Me: Wow! That's a new Dinozord!

I landed by them.

Lola: Wow.

Lola pet its head and she was then enveloped in a powerful pink light. When it faded she had a bracelet with a pink gem on it.

Lola: My own Dino Gem.

Kira: Lola this is amazing!

Me: Wow. Lola Amphicoelias is the largest dinosaur ever discovered. It was over 130 feet long and weighed 140 tons. That's 280,000 pounds.

Lola: Wow! That's unbelievable!

She was also given a powerful sword called the Amphicoeliasword. It was a long and powerful Pink Longsword with an Amphicoelias Head on the hilt. (Think of the Magna Defenders sword but pink.)

Lola: Wow! What a sword! It's amazing.

Kira: It sure is Lola.

Me: Lola that sword is amazing.

Lola: It sure is. I have a lot to learn because of it.

Later we went back to the estate. Earlier I captured the Change Card. 替 The Change's main body appears to be a blue, vaguely, chameleon-like creature with great, orange eyes that shoots out its tongue to switch objects around like a real chameleon does to capture prey. In Card form, it is a white, chameleon-like creature with small, green eyes and longish, wing-like ears. It swapped the minds of Li and Kero again like before and I used my powers to change them back. We only had 1 more card left and that was the Earthy.

Nico also caught a Primarina and Incineroar.

---

Lola was training really hard with her new sword and abilities as a Dino Thunder Ranger.

Nico: So Lola found the Amphicoelias Zord and became a ranger as a result? Amazing!

Me: We were surprised ourselves Nico.

Qin: I'm so proud of Lola.

Kira: Me too Qin.

BIKINI BOTTOM.

At the Krusty Krab, it was slow day.

French Narrator: (French Accent) A slow day at the Krusty Krab.

SpongeBob: HI-YAH!

SpongeBob and Sandy were practicing their karate!

Maria: Whoo! Yeah!

They were really going at it and have both really improved dramatically! They were practicing in a boxing stadium ring that was built in the Krusty Krab.

They stopped to rest and they were dripping sweat like crazy.

Sandy: (Panting) I gotta admit, Spongebob, that was some tussle. You did okay for a sea critter.

Spongebob: You weren't so bad for a land critter.

Maria: (smiles) I think you both did good! All that time fighting alongside us paid off for you two.

Lily came out and she had a couple of glasses of lemonade with her.

Lily: Have a drink guys.

Sandy: Thanks Lily.

SpongeBob: I'm thirsty.

They drank the lemonade and it was refreshing.

SpongeBob: Ahh. Thanks Lily.

Lily: No problem Mr. SquarePants.

SpongeBob: Geepers, Mr. Krabs, why do you think our business is so slow?

Mr. Krabs: No one seems interested in going out anymore. They think it's too much trouble to leave home.

Carmen: Hmm. (Gets an idea) I have an idea. Why don't we move the Krusty Krab into their homes?

Mr. Krabs: Carmen! That's it! We'll do just that.

Maria: A delivery or cattery service is a great idea Carm.

Then the Naked Krabs came back!

Maria: It's about time you came back.

Horsea: I'm guessing you found out about the lie.

Krabs: Of course I did! Krabby Patties made out of crab, my ass!

Maria: Then how about this as your going back to the Crab Net present.

Maria punched him in the face and sent him flying and he crashed into the restaurant.

CRASH!

Krabs: Ow.

Maria: That stupid naked Krabs. He just will never learn.

Mr. Krabs: Dern tootin.

---

Later, Ironhide walked SpongeBob home and they went into his mansion and they saw Gary with a strange bottle.

Ironhide: What do you have there Gary?

Gary: Meow.

SpongeBob: Never saw a bottle like this before.

SpongeBob opened it and out came a cloud of green smoke and out came a figure and it was THE FLYING DUTCHMAN!

---

The Dutchman's exact nature and role is inconsistent between episodes. It can be inferred from his appearance that he is the undead spirit of a pirate, and one episode mentions that the reason he haunts the seven seas is because his corpse was used as a mannequin in a clothing store window and he was never put to rest. In another episode he states that he has not worn laced shoes in five thousand years, yet pirates did not exist that long ago. Other episodes suggest the Flying Dutchman is a Devil/Grim Reaper-like figure, primarily Born Again Krabs where he attempts to put Mr. Krabs in the undersea version of Hell, "Davy Jones' Locker", which turns out to literally be a locker cabinet belonging to a person named Davy Jones, and in a much later episode it is revealed that the Davy Jones in question is in fact none other than the Monkees member.

---

Flying Dutchman: (EVIL LAUGHTER!) I'M FINALLY FREE!

SpongeBob: THE FLYING DUTCHMAN!

Flying Dutchman: THAT'S RIGHT YA LILY-LIVERED CRYBABY! IT WAS THANKS TO YOU THAT I'M NOW FINALLY FREE AND I'M NOW GONNA TAKE ALL YER FRIENDS AND MAKE THEM ALL PART OF ME GHOSTLY CREW FER ALL ETERNITY! (THUNDER CRASHES!) STARTING WITH YOUR PET SNAIL!

Ironhide: Sorry, but there's no way you're gonna take Gary!

Flying Dutchman: Is that so? (knocks Ironhide out)

Things have gotten scary and went straight to Hell.

Patrick was having trouble with his TV reception.

Patrick: Something fell on my roof and now my TV doesn't work. I can't get up there to fix the thingy and I'm missing all my favorite shows!

Frenzy: I can help you if you want, Patrick.

Patrick: Oh thanks Frenzy.

Then the FLYING DUTCHMAN APPEARED!

Frenzy: The Flying Dutchman!

Flying Dutchman: (EVIL LAUGHTER) YOU ARE NEXT LITTLE PINK STARFISH.

The Flying Dutchman hypnotized Patrick.

Frenzy punched the Flying Dutchman in the face and sent him crashing into the ground.

Frenzy: You want to get to Patrick, you'll have to go through me!

Flying Dutchman: With pleasure tall robot!

The Flying Dutchman fired laser eyes and they hit Frenzy and exploded.

KRABBBOOOOOOOOOOOOOOMMMM!

The explosion sent him crashing into Squidward's old house and he completely crushed it and reduced it to rubble!

Frenzy: Ow! That smarted.

The Flying Dutchman took Patrick.

Frenzy: Oh this is really bad! I got to get the Neptune Crusaders here!

Frenzy left the ocean.

---

Back at the estate we were talking and having snacks.

Maria then gasped.

Me: What's wrong Maria?

Maria: That's weird. I've lost telepathic contact with Patrick and Sandy.

Lily: That's not right. I just talked to them 20 minutes ago.

Frenzy came in with a look of panic on his face.

Frenzy: (Hyperventilating) GUYS! BIG TROUBLE! PATRICK KIDNAPPED GARY! DUTCHMAN!

Me: Whoa whoa whoa! Calm down Frenzy. Now tell us. Slowly.

Frenzy: Right. Sorry about that. The Flying Dutchman kidnapped Sandy and Patrick! He hypnotized them and turned them into members of his pirate crew!

We gasped in horror!

Me: The Flying Dutchman!?

Lily: He kidnapped Patrick and Sandy!?

Maria: So that's why I lost telepathic contact with them.

Cleo: But why would he want to kidnap Sandy and Patrick?

Me: I think I know. Revenge! After the battle with the robots that Plankton made after Lily exiled him, I went to the Flying Dutchman's Graveyard and imprisoned him in a strange bottle.

Frenzy: Is this it?

Frenzy handed me the bottle.

Me: This is the very one.

Maria: I knew we should've dealt with the Dutchman during the robot incident!

Me: Don't blame yourself Maria. It's me he's after. He wants to kill me by using our friends against us.

Lucy Loud: I have a bunch of Ghost Hunting equipment we can use on the Flying Dutchman.

Lana: Awesome Lucy. Your ghost hunting equipment may just be useful.

We went to Lucy's crypt room and we Lucy equipped us with all kinds of ghost-blasters and more.

Ember Mcclain: "How to Defeat Evil Spirits"? This book could come in handy!

I looked at it.

Me: It just might Ember. And you were a ghost before so you have the power to defeat the Flying Dutchman. And Lincoln, Dani and Danny can help out.

Lincoln: You got it J.D.

Dani: Count us in.

Danny: We're with you guys.

Me: Okay. Neptune Crusaders and Team Phantom, head out.

Danny: You got it J.D. Ready guys.

Dani: Yeah!

Lincoln: We're with you Danny.

Danny, Dani and Lincoln: GOING GHOST!

They were in a ring of energy and they turned into Lincoln Phantom, Dani Phantom and Danny Phantom!

Me: Go get him guys!

Varie: With pleasure!

Lucy Loud: I'll go too.

Qin: Same here.

Alicia: I'll go too. I want to see if I can prove myself.

Varie: Okay. Alicia are you sure you want to do this? You've been through a horrible ordeal with what happened with the Necromorphs.

Alicia: I'm more than ready to help. I want to prove that I have what it takes.

Varie: Okay then.

They were off to Bikini Bottom and the Flying Dutchman's Graveyard.

---

They arrived in Bikini Bottom and the Neptune Crusaders and Team Phantom were ready.

Lily: The Flying Dutchman is gonna pay for this. And it's on the eve of the war with the Anti-Fairies.

Mr. Krabs: I know lass. But this was unexpected and we have to be ready for anything now.

Varie: Yep. This was an unexpected circumstance.

Maria: Lets get moving guys. The Flying Dutchman is gonna pay for this.

Bella: He sure will.

Lily: Lets get him!

They were off to the Flying Dutchman's Graveyard.

They arrived at the Flying Dutchman's Graveyard and it was a creepy and terrifyingly foreboding place of unimaginable horror.

Varie: The Flying Dutchman's Graveyard.

Lily: It's just as terrifying as I remember.

Alicia: It sure is scary. But I won't let fear hurt me anymore.

Varie: Okay. Lets do this!

They went into the Flying Dutchman's Graveyard and they were blasting ghosts and old destroyed ships and taking any treasure they had and keeping it and giving it to Mr. Krabs and the Krusty Krab and the Neptune Crusaders HQ.

They were blasting all the ghosts and Danny, Dani and Lincoln were sucking them all into their thermoses.

Danny: You all need to go back into the Ghost Zone.

Lincoln: You got that right!

Alicia fired powerful blasts of light and burned the ghosts and Dani sucked them into her thermos.

Dani: Nice shot Alicia!

Alicia: Thanks Dani.

They kept blasting and sucking in the ghosts at an accelerated rate.

Jazz (DP): We're almost filled up to full capacity on our thermoses guys.

Varie: We only have enough room for one more ghost guys.

Lucy: The Flying Dutchman.

Cleo: His ship is up ahead at 4:00.

Alicia: I see it.

Varie: Lets get our friends back!

They went over to the ship and they saw Patrick and Sandy under the Dutchman's control and they snapped them out of it.

Sandy: Whew! Thanks guys.

Maria: No problem Sandy.

Patrick: Huh? What happened?

SpongeBob: We'll explain later Patrick. Now you need to get out of here. This battle is gonna be rough.

Patrick: Okay!

Patrick ran fast.

The Flying Dutchman himself then appeared!

Varie: The Flying Dutchman!

Flying Dutchman: So you all came! And the ugly fiancé of that fool J.D. Knudson is with you!

Varie: That's right! And don't you dare call my husband a fool!

Lucy Loud: I never thought I'd actually see the actual Flying Dutchman up close.

Flying Dutchman: So you are the Dark Vampire Lucy Loud. You'll make a fine addition to me crew.

Lucy Loud: I would rather be a demon than join you.

Lucy fired a blast of black lightning and electrocuted him!

Varie: Lets get him!

They went at the Flying Dutchman and Varie punched him in the face and the Flying Dutchman fired a green fire blast from his nose and Varie fired a massive blast of water and the blasts collided and they exploded with incredible power!

KRABBBOOOOOOOOOOOMMMMM!

Lana fired a powerful blast of ice lightning and froze the Flying Dutchman's nose and eyes.

Lucy fired a massive blast of black lightning and Alicia fired a blast of rainbow light and the blasts hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOMMMMM!

Sydney slashed the Dutchman with her sword and he exploded!

The Mako Island Mermaids blasted him and the blasts exploded when they hit.

They blasted him with a multitude of blasts and more!

Varie: You are never welcome here Flying Dutchman! Time for some teamwork!

Ironhide: You got it Lady Varie! CYBER KEY POWER!

The Autobot Cyber Planet Key went into Ironhide's back and it enhanced his liquid blaster 100-fold.

Carmen: You will pay for your crimes Dutchman! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Carmen's right arm device and it enhanced her fire powers 1,000-fold.

Ironhide and Carmen: SUPERHEAT SOLAR PLASMA INFERNO!

Ironhide fired a massive blast of superheated molten lead and Carmen fired a massive blast of solar fire and the blasts combined and they slammed into the Flying Dutchman and exploded into a massive fiery explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Frenzy: You are not welcome here Dutchman! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his drums 100-fold.

Ember McClain: Time for some serious pain! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her guitar and it enhanced its ghost powers 100-fold.

Frenzy and Ember McClain: HYPERSONIC DRAGON SUPERSCREAM!

Frenzy and Ember fired a massive blast of sonic energy and the blasts combined and they turned into a dragon and they slammed into the Flying Dutchman and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOMMMMM!

Tori Hanson: I will never forgive you for your crimes Dutchman!

Then an Aqua Blue light shined and it landed in her hand. It was an animal crystal.

Tori Hanson: It's my first Animal Crystal.

A big aqua blue dolphin swam by and it was the Dolphin Zord.

Tori Hanson: It's the Dolphin Zord! But it's not like the Dolphin Zord I remember.

Varie: It's your first ever Wild Force Zord though.

Tori Hanson: I know. NINJA STORM! RANGER FORM! HA!

Tori turned into her Ninja Storm Power Ranger Form!

Tori Hanson: (Echoing) POWER OF WATER!

A Wild Force Crystal Saber Appeared on her left hip.

Tori Hanson: Wow! This is amazing! Lets see how the Flying Dutchman likes this! (Echoing) WATER STYLE NINJA ART: DOLPHIN BOMB SCHOOL!

Tori fired a massive blast of water and it turned into a school of dolphins made of pure water and they hit the Flying Dutchman and exploded with incredible power!

KRABBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Varie: Whoa! What power!

Tori Hanson: That was amazing!

Lana: It sure was.

Varie: Lets finish him with a final smash!

Lucy Loud: Right. This is for causing fear to everyone! Let me show you what true fear is. BLACK LIGHTNING NIGHTMARE!

Lucy fired a massive blast of Black Lightning and it hit the Flying Dutchman and electrocuted him and they heard an earsplitting scream of total terror! (DANTE'S INFERNO SUICIDE FRUIT SCREAM)

Varie: Whoa! That is horrifying!

Lincoln: No kidding!

Lana: Terrifying!

The Flying Dutchman was stunned.

SpongeBob: Never torment my friends again! KRABBY PATTY SUPERBOMB DETONATION!

SpongeBob threw a Krabby Patty and the Flying Dutchman ate it and it exploded and he was knocked down.

Danny Phantom: (points thermos at Dutchman) Lucky for you, we're letting you live in the Ghost Zone. Technus and Skulker can use some company.

Danny sucked in the Flying Dutchman and he was in the thermos.

May: In the words of my boyfriend, "Flying Dutchman, you have failed this ocean."

They laughed.

Lucy Loud: (To the viewers) Evil Ghosts beware, because Team Loud Phoenix Storm's Neptune Crusader will find you and send you into the Ghost Zone.

The Flying Dutchman was forever banished into the Ghost Zone for all eternity.

Later we got ready for the war. We were going to attack at dawn.

THE END

---

Another Fanfiction Complete and another SpongeBob Villain defeated.

The Flying Dutchman was a funny and silly one at that. And Brian Doyle Murray did a great job voicing him. NicoChan11 gave me the ideas for this. Thanks man. The last card Earthy is gonna help us during the war. Let me know what you all think.

See you all next time.

# The Great War of Friday the 13th

September 13th, 2019 - 5:10 AM - War was upon us. Today is Friday, September 13th, 2019 and the war with the Anti-Fairies was about to begin. In the early morning hours at 5:15 in the morning, I was watching the horizon in the East for the Sun to rise. We had the whole city of Gotham Royal York, Dakota and the surrounding suburbs evacuated and we were ready. The Marvel Avengers, The Justice League, The Power Rangers and everyone on Team Loud Phoenix Storm was ready. Ever since I destroyed 95% of the Anti-Fairies in a Holocaustic Bombing spree, I've been getting everyone ready for this day. We were ready to destroy the rest of the Anti-Fairies.

Me: War is here. When the Sun rises, all hell will break loose. But I am ready.

The Jedi Masters appeared.

Obi-Wan (Star Wars VI): The Force will always be with you J.D. You have mastered both the Light and the Dark sides of the Force. Becoming a Grey Jedi. You will know what to do.

Me: I know that Master Obi-Wan. Anti-Cosmo is a very formidable adversary and I can't let him get away with the crimes he has done to Fairy World and to the world in general. We have one helluva fight on our hands that will shake the very foundation of the universe in its entirety.

Yoda: Immortal, Anti-Cosmo may be, but love and good he is not.

Anakin (Star Wars VI): The Anti-Fairies may have all that power and magic, but they use it for dark purposes like when I was turned to the Dark Side of the Force. I did all kinds of terrible things when I was Darth Vader. Things that I was not proud of.

Me: That was because you were under the influence of Palpatine, Master Anakin. Anti-Cosmo and the Anti-Fairies are a whole different ballgame. They represent all of the worlds bad luck and they are beyond pure evil. I killed 95% of the Anti-Fairies and I thought my message was going to destroy their pride. But instead, it fueled it and war is going to break out at any moment.

Mace Windu: I understand J.D. And you are ready for this.

Me: I know Master Windu.

I turned and faced them. I held my Lightsaber ready.

Me: I won't let the Anti-Fairies get away with their crimes.

Yoda: Make us proud, you will.

Me: I know Master Yoda.

The Sun was rising. The Sun was rising slowly over the eastern mountains at 7:00 AM.

Me: The Crack of Dawn.

7:13 AM. Massive explosions then broke out!

BBOOOOOOOOOMMMM! BOOOOOOOOOOMMM! BOOOOOOOOOMM!

Me: This is it! War has begun!

At the same time all of the city of Gotham Royal York, Radiant Gardens, Dakota City and Fairy World were under attack!

I went to the estate to activate the Force Fields!

William went to the supercomputer and pressed a button that revealed Maria and Stewie's faces on the monitors.

William: Maria! Stewie! J.D.'s about to activate the force field over the estate. You two need to get here before that happens!

Maria: I know, babe! We heard the announcement on our communicators. But we just want to take one last look at Dakota before we go.

Stewie: The way things are going, there might not be a Dakota for much longer. (an explosion occurs)

William: What's happening out there?!

Stewie: The Anti Fairies are attacking the cops and the good Bang Babies! It's a complete shit fest over here!

Gale blinded some Anti Fairies with a wave of Dark Matter, Brickhouse ripped some in half, Tech blasted some part with a blaster, and Fade was running from the rest of them.

Maria: Gale and the others won't hold out much longer! Any sign of Jorgen yet?

William: None. Anti Cosmo found a Dark Orb and now, the Anti Fairies are back to full strength and have taken control of Fairy World. If Jorgen, Tooth Fairy, and Binky are still alive, the Anti Fairies will kill them on sight! (gets a call from Elena) Hold on, guys. I'm getting a call. (presses a button and Elena and Riku's faces appear on the monitors) Elena! Riku! J.D.'s-

Elena: We know. We heard the announcement, But we just had to see Radiant Garden one last time.

We then see Anti Fairies firing blasts at the main Radiant Garden Castle.

Riku: Most of the citizens have evacuated but Ansem and the rest of the Radiant Garden Restoration Committee are still inside. Ansem can't leave! And if the Anti Fairies capture him, Radiant Garden's done for!

William: (gets a call from Venom) Hang on. I need to take this. (presses a button and Venom's face appears on the monitors)

Venom: William, we're in Stark Tower. The Anti Fairies are waiting just outside the entrance. The Avengers and Justice League are in the main room making plans to stop them.

William: I hate to say it but there might not be a way anymore. Venom, you both need to get back here before J.D. puts up the force field around the estate.

Venom's symbiote face retracts to reveal Eddie Brock's face.

Eddie Brock: No, William. The Avengers and Justice League are going to make their last stand here. And so are we!

We went to Stark Tower and formed our plan. We had to disable the shield that surrounded Fairy World. Our best hope was with Jorgen's power. We had to destroy the generators that form the shield.

8:42 AM. The Avengers and the Justice League all went out to combat the Anti-Fairies. They were killing them one by one and destroying them.

They were blasting them with their powers and more and they were not gonna let the Anti-Fairies do whatever they want!

Huffer: Just when things were starting to look up, the Anti Fairies pulled this last gambit off! Now there's no way to stop them!

Iron Man: No. We won't give up on our home! We have to hold them.

8:56 AM. Fairy World was now under Anti-Fairy control.

Jorgen: We didn't even see it coming. And now, Fairy World is lost.

Bloom: Not for long it won't be! We just need to meet up with the others at Stark Tower!

They went to Stark Tower.

We blasted a lot of Anti-Fairies and I swooped in and killed a bunch of them with my new lightsaber. It was so powerful that it killed them instantly.

Winter Soldier: Good to see the rest of you are here.

White Tiger: For a minute, we thought you guys got killed by the Anti Fairies.

Rhino: Like they could ever kill us!

They killed more Anti-Fairies on the way.

9:02 AM. I was slashing a bunch of Anti-Fairies and killing them all and their spirits were being sucked into the River of Fire for all time. I saw a bunch of Anti-Fairies coming and I fired a powerful blast of Force Lightning at them and killed them all in an instant.

Nico came and fired a powerful Whirlwind Spin and blew them into dust.

Nico: You Anti-Fairies have failed this Universe!

Me: You said it Nico!

Qin fired a powerful blast of fire and burned them all into dust.

Qin: You Anti-Fairies are a menace to our worlds!

Laney: You will never be welcome here!

Bella was firing Ion Lasers with the power of the Drej and Ben was using his Ultimate Ben power and fired more powers and blasted a bunch of Anti-Fairies and killed them.

Bella: You will never terrorize us again! (Activates Arctiguana's Powers) ARCTIGUANA!

She blew a powerful blast of absolute zero cold breath and froze a bunch of Anti-Fairies and she activated Fourarms powers.

Bella: FOURARMS!

She smashed the ice into millions of pieces and killed the Anti-Fairies.

9:37 AM. Eddy was in the main government building of Fairy World now under the Anti-Fairies control and he was tied up by magical rope. The group of Anti Fairies were about to finish him off when Jack Spicer landed near them and shot them all to death.

Eddy: (Spicer fires his gun at the rope, freeing him) Spicer? I thought you were-

Spicer: You really think too much, dude. (helps Eddy up) I've been hiding out in my new hideout ever since my… bad fight against the Xiaolin losers.

Eddy: Why didn't you come to us before? We would've been able to help you.

Spicer: Because things are still tense between me and the Xiaolin Warriors. But I had my friends, Captain Cold, Heatwave, Weather Wizard, Mirror Master, Trickster, and Top in the Legion of Doom who knew where I was and agreed to keep my current location a secret. They kept me informed about what you guys were planning and that you were all gonna fight the Anti-Fairies here. So I managed to teleport in. I figured that we'd have to go head to head against Anti-Cosmo so I brought my blaster, my goggles, and a few Shen Gong Wu for the upcoming fight. Believe me. I'm ready.

Eddy: We have to find Anti-Cosmo quickly. Luckily, Jorgen told me where the main room is. C'mon! (puts on goggles, which glow blue)

Spicer: Hey, don't think you can tell me what to do. I'm my own boss! (puts on his own goggles, which glow red, and follows Eddy)

9:42 AM. The battle was raging on over in the Radiant Gardens and Sora, Kairi, my children and their teams were destroying a bunch of Anti-Fairies.

Brittney: GOTHS OF DARKNESS, ARISE!

The Goths of Darkness came out of a dark portal from the sky and they blasted the Anti-Fairies with Dark powers all over the place and killed them.

Mary K.: CRYSTAL BRIGADE, SHINE!

Mary called forth the Crystal Brigade and Steven Universe, Connie and the Crystal Gems destroyed the Anti-Fairies.

Shanan: Lets tear these assholes apart! ANGRY BIRDS

CRUSADERS, HIII YOO HAAAAAAAAAAAAAA!

The Angry Birds appeared through a portal and killed a bunch of Anti-Fairies.

Jared: You Anti-Fairies are never welcome in our universe!

Jared slashed a bunch of Anti-Fairies and killed them.

They were blasting and killing them all.

Bombshell: I managed to rescue a Hercacross while Izzy rescued a Ledyba. Can we keep them?

Shanan: Go for it Bombshell.

10:05 AM. We put our plan into motion and Jinx, Lilo and Shoe used their powers of luck to destroy the shield generators surrounding Fairy World.

Iron Man: The Shield is Down! Commence Attack!

Me: We're on our way! Follow me guys!

We went into Fairy World and we blasted a lot of Anti-Fairies all over the place.

10:11 AM. Watching from his security screens was ANTI-COSMO!

---

On Friday the 13th, the Anti-Fairies got loose and started wreaking havoc on Timmy Turner's trip to Adrenalland by causing bad luck all over the place. The Anti-Fairies were originally invisible, and could only be seen with a device that, when Timmy put on, he saw and met Anti-Cosmo. Being Cosmo's opposite, Anti-Cosmo was extremely intelligent and was respected as their leader who sarcastically congratulated Timmy for freeing them.

In his next appearance, Cosmo's Fagiggly Gland goes bad and he needs a replacement, and the only match is Anti-Cosmo, who escapes from captivity shortly after the transplant. Anti-Cosmo told

Cosmo to not look for him, but Cosmo does not obey and finds Anti-Cosmo behind him. Anti-Cosmo then realizes part of Cosmo is in him before leaving while Cosmo displays some traits of Anti-Cosmo.

Later, Anti-Cosmo tries to frees his captive comerades, but fails due to Jorgen. Later with the help of Calamitous, Anti-Cosmo is able to free the other Anti-Fairies. One half of the group was sent to create so much bad luck while the other half was sent to stop the Earth from rotating to keep it at Friday the 13th. Because there are too many Anti-Fairies to undo the damage done through a wish, Timmy and his friends go to the Crocker Cave and find a butterfly net which should be sufficient on catching the Anti-Fairies. Jimmy combines the net with his hyper cube to create a trap for the Anti-Fairies. Jimmy's friends, Cosmo, Wanda, all create as much bad luck as they can. This lures all of the Anti-Fairies to the exact location, including the ones that were keeping the Earth from rotating. Jimmy then activates his hyper cube which captures all of the Anti-Fairies and traps them inside the hyper cube. It is unknown what happened to the hyper cube, but Jorgen most likely took it with him, so he could trap the Anti-Fairies back in their imprisonment again.

After he and the bulk of his race escaped from Fairy World's jail, most of the Anti-Fairies took up residence in Anti-Fairy World to plot their next move against Fairy World and Earth. After the first fairy baby in eons was born to Cosmo and Wanda, Anti-Cosmo plotted with the Pixies in an attempt to steal the young baby Poof before his magic could be controlled by the Fairies. They did not succeed and Anti-Cosmo and HP ended up being raisins for Jorgen's cereal temporarily due to Poof breaking wind on them.

Later Anti-Cosmo demands equality and is not happy that fairies are appreciated for things they create when Anti-Fairies have created things too. Anti-Cosmo then begins to question why there is no Anti-Fairy for Poof since there is supposed to be an Anti-Fairy for every fairy. He then notices the symptoms that Anti-Wanda had for anti-fairy pregnancy. Anti-Wanda then gave birth to Poof's Anti-Fairy equivalent, Foop, who is even more evil and untrustworthy than Anti-Cosmo. Foop betrays his race and turns Anti-Fairy World into a cute and cuddly place, much to its residents's horror. Despite this, after Foop was captured, the damage he did was reversed when Poof made him cry. He was then taken away to Abracatraz where he would be held for rehabilitation. Anti-Cosmo and Anti-Wanda then paid him a visit, hoping to slip him some tools to escape. Although Foop eventually did manage to escape, it was by his own devices and not with the help of his parents.

When Anti-Cosmo was first introduced, Timmy could only see him with special "Anti-Fairy Goggles" as all Anti-Fairies were invisible to humans. Anti-Cosmo mocked Timmy, saying that the foolish boy freed him and his ilk after centuries of captivity. In later episodes, Anti-Cosmo and the other Anti-Fairies are visible by Timmy without any need for special gear, and this concept of invisibility seems to have been dropped entirely. The Anti-Fairies may now be seen on Earth due to Jorgen taking away their ability to be invisible on Earth in Jimmy Timmy Power Hour 2: When Nerds Collide. However this does not explain how they can be clearly seen in "The Gland Plan" since that occurred before the former episode, however it is possible that the anti-flight and magic uniforms they were wearing prevented that since the Anti-Fairies' invisibility may have come from their magic. In the episode "Balance of Flour" it is said that the Anti-Fairies and Fairies fought in ancient times to decide who gets to have godchildren, but they decided to settle this dispute by holding an annual baking contest. The Fairies always won every year from then on. This contradicts what Jorgen and Anti-Cosmo had said about the Anti-Fairies being kept locked up for centuries unless this was after the ancient times and the Anti-Fairies did something that was so unspeakable that caused them to be locked up for so many centuries.

---

Anti-Cosmo was enraged! He was watching all of his people dying in rapid succession.

Anti-Cosmo: (British Accent) I can't believe this! Team Loud Phoenix Storm is far more powerful than I thought!

Eddy: You can say that again you fucker!

Anti-Cosmo: Eddy McGee. Jack Spicer. I've been expecting you two.

Anti-Cosmo turned and Eddy and Spicer just got the power dampening collars on Anti Cosmo's neck.

Eddy: It's over for you now.

Spicer: My old teammates Yewh and Cassandra used these collars before. They're negating your powers even as we speak!

Anti-Cosmo: I wonder. Is the reason you two are trying to kill me because of the Bad Luck Travesty?

Eddy: SHUT YOUR FUCKING MOUTH!

Spicer: We're going to kill you for your crimes Anti-Cosmo.

Anti-Cosmo: (chuckles evilly) You really think so? (suddenly grows bigger and turns into a monstrous version of himself)

Spicer: Fuck! The collars must be strengthening him instead of weakening him thanks to the Dark Orb!

Eddy: (calls us) Rai, I know that you, Omni, Kimiko, and Clay aren't on good terms with Spicer at the moment. But are you really gonna let us fight Anti-Cosmo on our own?

Jack Spicer: (fires laser blast on Monster Anti-Cosmo) I don't blame them if they don't come. They probably heard about my crimes and think I deserve to go to Hell. Face it, dude. We're on our own.

---

10:17 AM. We killed all the Anti-Fairies in Dakota City, Gotham Royal York and Radiant Gardens. The S.P.D. Power Rangers were facing FOOP!

---

He was born by Anti-Wanda in the episode, Anti-Poof. The first sentence he said was "Hello Clarice, I mean mother." He wants to destroy Poof because Foop doesn't want to "share the spotlight" with him (he wants to be the only fairy baby born in thousands of years, not the 2nd.) His name is the word "Poof" spelled backwards which is because they are total opposites. He thinks Poof's name is more masculine than his own.

Foop didn't want to share the spotlight with Poof and aimed to destroy him, he set out to find Poof and conquer the world, but not before absorbing the magical power of the Big Anti-Wand in Anti-Fairy World and using his magic to turn Anti-Fairy World into a cute storybook land, and the Anti-Fairies (including Anti-Cosmo and Anti-Wanda) into stuffed animal like creatures. Foop also destroyed the planet Burger World when he learned they were selling Poof toys in their "Peppy Meals".

Tracking Poof to Fairy World, Foop proceeded to drain away all the color and magic from the landscape and Fairies, even Jorgen. Luckily, Cosmo, Wanda, Timmy, and Poof managed to escape to Earth before they could be affected. Foop soon learned Poof's location and came after him, the two fought a pitch battle and seemed equally matched, however, Poof and Timmy noticed that Foop was extremely tired due to not having a nap, claming he did not need them. Thinking quickly, Timmy summoned the Fairies and Antifairies (and one Burger World Employee), who proceeded to sing a lullaby, which successfully made Foop fall asleep, causing him to fall into his Mom's arms.

Everyone then tries to figure a way to undo all of Foop's evil deeds. Timmy then figured out, that since Foop was the opposite of Poof, and bad things happen when Poof cries, that good things happen when Foop cries, Poof proceeded to swipe Foop's bottle, causing him to cry (but not before he says "You took my bubba?"), which reversed all the damage he had done and reverted everyone back to normal.

Foop was then locked away in a maximum security time-out playpen in Abracatraz, but vowed to escape and seek his revenge against Poof.

Later he did escape in the episode, "Playdate of Doom" he attempted to destroy Poof once again by fooling Cosmo and Wanda that he'd reformed. However, he planned to send Poof to an alternate dimension. He tried to make Poof look bad to Wanda so he could achieve this, but Foop was tricked by Timmy into going inside the playpen, which was actually the dimensional door, stranding Foop in the parallel universe still vowing revenge on Poof.

After he somehow escaped his previous imprisonment in a parallel dimension, Foop went to Spellementary School and made many attempts to become the most popular kid in school. They all failed miserably, so Foop transformed the school into his own version of the school (Smellementary School). After fighting Poof, he sent Spellementary School into a black hole, but he failed a third time due to the old saying "saved by the bell", when the school day ended and everything was changed back to normal. Foop was given detention, but Poof pardoned him, upsetting the Anti-Fairy that he was saved by his nemesis "yet again". When Foop got outside, he was slammed in the face by Cosmo with a shovel as he tried to swat a sprite on Foop's face.

At his next appearance at school, Foop seemed to be forming a buddy relationship with Poof, but when a new student is brought in for the school play, a beautiful young fairy named Goldie Goldenglow, Foop's dangerous side reemerges once more, and he and Poof begin to compete for Goldie's affection! They face off against each other for the lead role in the play, and Foop manages to win it, but to his surprise the third role player that neither wanted to be was the true hero of the play and Poof got to kiss Goldie .Foop bagged the idea of winning the heart of Goldie because she kept on getting his name and Goldie are later seen sharing drinks, with Foop attempting to sabotage their moment from under the table before he is attacked by his own traps.

Foop was the prosecuting attorney in Timmy's Secret Wish!, having gotten his degree while imprisoned in Abracatraz. Foop reasons that if Timmy loses his trial then that means Poof would no longer exist because all of Timmy's wishes would have to be undone, and Poof was born from one of Timmy's wishes. Foop also chose to become an attorney because he wanted to be even more evil.

Foop manages to win the case, and is ecstatic, until Jorgen points out as Poof's Anti-Fairy counterpart, Poof disappearing means Foop disappears as well. Shortly after that is said Foop disappears. Poof and Foop are both later rescued from a place where undone wishes go (The Hocus Poconos) and brought back when Timmy proves himself to the Fairy Council that he is not selfish after they found out he made a secret wish.

Since the show ended, and Foop's last appearance was in the episode "Certifiable Super Sitter" where he wasn't a villain, in fact, he was a neutral character, Foop can be considered as a redeemed villain.

Throughout the series his home has changed as well become a mystery.

He originally lived with his parents at Anti-Cosmo's Castle when he was born. But soon after he was sent to Abracatraz. Since his escaped his home has been a mystery. Twice it has been suggested that he lives with his parents again. One time was in Love Triangle when he mentions that his mother had packed chicken nuggets and snake venom antidote in his lunchbox. The other time was in Scary GodCouple when he mentions that he had an accident on the ride over, suggesting that one, if not both, drove him. However, Anti-Cosmo and/or Anti-Wanda has/have been seen with him, not even during the play scene in Love Triangle. There is another scene in The Terrible Twosome where Foop is seen in a castle, but this is unconfirmed if it is Anti-Cosmo's Castle.

On the other side, there are examples that suggest he doesn't live with his parents. He was able to be in a bush for a long time in When Losers Attack. In Scary GodCouple, he is not with his parents with Vicky. In Spellementary School and in Love Triangle, he just shows up at Spellementary School with any mode of transport. He also, just appears at Fairy Court in Timmy's Secret Wish!. In Certifiable Super Sitter Foop mentions that his mom and dad moved somewhere from without leaving a forwarding address for him.

---

Cruger: I knew we'd find you eventually, Foop!

Foop: I tried to retire. I really did! But you heroes all forced me back into evil! Though, I have to admit. You have trapped my fellow villains with carefully laid out plans. Guess you're all not brutes after all.

Z: You were the one who gave Anti-Cosmo the Dark Orb, weren't you?

Foop: Exactly! Unlike your usual methods of just rushing in headfirst, me and father made a plan to kick Jorgen and those other fairies out of Fairy World. And then, we'd also attack the other parts of the universe, like Dakota and Radiant Garden!

Cruger: Well, the invasion stops right here! Containment Strike!

Cruger contained Foop in a card prison.

Sydney Drew: You are looking at Eternity in prison.

Ben: But we need to finish off Anti Cosmo. How do we know who's Clayface?

Spicer: Let's just blast them both! (aims gun at both of them)

Eddy: (lowers gun) We can't let Clayface be destroyed!

Spicer then got an idea.

Spicer: Yo, Clayface! (jumps off the edge but Clayface catches him with a stretched arm and put him back onto the ground) We need to finish off Anti Cosmo! One last combo should do the trick.

Clayface: Okay.

Clayface formed a powerful earthsword arm, Eddy had a powerful electro whip in his hand and Jack Spicer had a powerful firesword.

Me: Now it's your turn Anti-Cosmo. This time you will die.

Lana: You will pay for your crimes against the world over the eons.

We went at Anti-Cosmo and I punched him in the face and Laney kicked him in the butt and Lola bit him in the arm and Lana punched him in the face and knocked out his teeth and Lucy fired a powerful blast of black lightning and electrocuted him.

Then a massive earthquake shook the area from out of nowhere!

Me: An Earthquake!

Tara: It's not me!

I then sensed a Clow Card.

Me: It's a Clow Card.

Then a huge serpent made of earth appeared out of the ground! It was the Earthy Card! 地

Me: It's the Earthy Card!

Sakura Avalon: This is the last card you need J.D.!

Me: It sure is.

Then the Earthy Card revealed its visible form. She bears the appearance of an elegant, stately lady in a flowing dress, draping sleeves, and a bodice that appears to be made of a rock-like material. She has a collar made of crystals, as well as clusters of them adorning her chest, forehead, and ears. Her hair is curled upward and divided in opposite directions with two crystals dangling from each end.

Me: Wow.

Huffer: Lets do this. CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his strength 100-fold.

Bloom: Time for some action! DOMINO CYBER KEY POWER!

The Domino Cyber Planet Key went into Bloom's Right Arm device and it enhanced her Dragon Flame Powers 100-fold.

Huffer and Bloom: SUPER STRONG FIRE DRAGON BURST!

Huffer rammed Anti-Cosmo and Bloom fired a massive blast of fire that turned into a powerful dragon and it hit Anti-Cosmo and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Now to finish you for good Anti-Cosmo! Final Smash time!

Timmy Turner: I'll start! FAIRY POWER MAGIC BURST!

Timmy, Cosmo, Wanda, and Poof fired a massive blast of magic energy at Anti-Cosmo and they hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Shoe fired a powerful luck ray from his horns and it caused all kinds of terrible things to happened to Anti-Cosmo. He called it his BAD LUCK BEAM SURPRISE. Anti-Cosmo got hit with anvils, refrigerators, heavy hippos and more and they flattened him flatter than a pancake.

Me: Lets see how you like my new toy.

I opened my lightsaber and it was ready to strike!

Me: This is for all the pain and suffering you caused over the eons! FORCE LIGHTNING LIGHTSABER DECAPITATION!

I went at Anti-Cosmo and slashed Anti-Cosmo's head right off. Killing him instantly!

Anti-Cosmo was then being sucked into the River of Fire!

Anti-Cosmo: (As a Spirit) You haven't beaten me yet J.D.! I have a friend for you to face.

He went into the River of Fire and was gone for good.

Lori: What did you think he meant by that?

?: He was talking about me.

We turned and we saw DARTH VADER!

Anakin: It can't be!

Me: Darth Vader!

Nicole: I faced you on the Death Star.

Me: So Anti-Cosmo resurrected you as a heartless.

Darth Vader: That's right. The Force is with you young Knudson.

Me: I trained under the ways of the force under the great Jedi Masters.

Darth Vader: Then lets put all that training to the test.

I ignited my lightsaber.

Darth Vader: You have Master Windu's lightsaber.

Me: He gave it to me but with a bunch of enhancements.

Force Lightning arched all over the blade of energy.

Darth Vader: Force Lightning in a lightsaber? How is that possible?

Me: The Force works in all kinds of mysterious ways.

Darth Vader opened his red bladed lightsaber. We clashed our blades and it was a powerful clash as Force Lightning from my lightsaber bursted out and struck all over the place and I kicked him in the chest and fired a powerful blast of Force Lightning at Darth Vader and it electrocuted him. He got up and he was amazed.

Darth Vader: You have learned much since our encounter on Mustafar.

Me: I'm not the same as I was back when I defeated you before.

Darth Vader: You know Force Lightning. That is a Dark Side of the Force technique.

Me: Yes. I was trained to master both the light and dark sides of the Force. I am a Grey Jedi. Trained in both the light and dark sides of the Force. What I don't understand is why someone like you would believe all that bullshit that Emperor Palpatine told you? Why would someone so gullible believe all those lies? You were chosen by the Force to destroy the Sith and you were seduced by the Dark Side of the Force.

Anakin: He's right Vader.

Vader saw Anakin before he was seduced into the Dark Side of the Force.

Darth Vader: You are me before I became this.

Anakin: I was you yes. But thanks to J.D. I realized what kind of monster I was. I went from a Jedi to a Sith because of my own conflicts in my mind.

Me: That's right Vader. You were once one of the greatest Jedi Masters ever. But you allowed Palpatine to destroy your mind and turn you to the Dark Side of The Force. You were defeated by me because of your overconfidence.

Darth Vader: You underestimate the power of the Dark Side.

Me: Then you will see just how powerful the Dark Side can be.

I fired a massive blast of Force Lightning and blew Darth Vader away and he crashed into the wall.

Darth Vader came at me and we clashed again and I kicked him in the face and fired a massive blast of Force Lightning and electrocuted him into ash and he was sucked into the River of Fire.

Me: That takes care of that. It's over guys. The war is over!

We cheered wildly and everyone came out and cheered wildly.

Timmy Turner: (To the viewers) Even Anti-Fairies will never be a match for the power of Team Loud Phoenix Storm or our power.

Me: No they won't.

I sealed the Earthy Card and now Kero had all of his power back and he returned to his true form! He was Keroberos! His true form is that of a huge, tawny mane-less lion or cougar, with enormous, angelic, white wings and a breastplate and helmet of metal, studded with a large, red, precious stone.

Me: Whoa! Kero is this your true form?

Keroberos: It is. You have succeeded in getting all the Clow Cards back J.D.

Me: You look incredible Kero. But I'm ready to face Yue. The Light and Dark Cards told me to be ready for him. The next full moon is tomorrow night. So I'm ready for him.

Keroberos: I know you are J.D.

Me: I'm ready for anything Kero. And all of us are gonna face him together.

Sakura Avalon: Be careful J.D. Yue is really powerful.

Me: I heard. But I'll be fine. (To the viewers) We have all the Clow Cards and the Anti-Fairies have all been destroyed. We killed them all and destroyed all of their sprees of bad luck on Friday the 13th.

Nico: We sure did J.D. You were awesome.

Me: We all were Nico.

I walked up to Jack Spicer.

Me: Jack. We owe you one.

Spicer: Look, J.D., you're a good kid. But I'm not. I've done some messed up things. And right now, I can't be around the Xiaolin Losers. And besides, I know that the minute I walk into the estate, you guys will beat me up.

Me: No, we won't.

Lynn: I would. (Lincoln gives her a look) I know. Not helping.

Spicer: But I know my dark side is gonna go haywire sooner or later. When it does, just ask Captain Cold and the Central City Rogues my location. If you all even care to look for me at that point. But for now, I need to be alone.

Me: I understand Jack. But a spot in the Redemption Squad is always open.

We then went back home and got ready for bed after a long day of fighting.

THE END

Another Fanfiction Complete and an evil Fairly Oddparents race gone!

The Anti-Fairies are all dead and the war is done! The capturing of the Clow Cards is complete. NicoChan11 gave me the ideas for this. Thanks man. Yue's test is tomorrow and it's also my dads birthday tomorrow. September 14th is the next Full Moon and I will need all my strength and power for Yue's test. Let me know what you all

think.

See you all next time.

# The Lunar Clow Guardians Test

In the estate, we were watching TV and reading books and playing card games and board games. Qin and Carol are having a spicy food eating contest!

Qin: You are gonna lose Carol!

Carol: I don't think so Qin.

They were having a spicy ghost chili pizza with wasabi sauce on it!

Me: That pizza is a nuclear hot disk of agony.

Nathan: No kidding and I love nuclear hot food.

Nico: Me too Nathan.

Lynn: Same here. But I love Spicy Subs.

Me: We got a bunch of chiliheads with us.

Laney: I love nuclear hot spicy food myself.

Me: I remember that Laney. You beat Lynn in one of the most excruciatingly hot spicy food contests ever.

Laney: Yeah and I had a major league stomachache for days.

Varie: Yeah.

Nico: I wasn't here for that but I heard about that.

Bella: I love nuclear hot spicy food. I ate the hottest pepper on the planet at school on a dare and I won.

Me: Wow! You are tough Bella.

Bella: Thanks.

Nathan: Awesome!

Carla: Go get her mommy!

Evelyn: YEAH!

Pearl: Take her down mommy!

Me: But that pizza is going to rip them apart. It's gonna make them blow fire out their mouths and noses. Wasabi has a chemical in it that aggravates the sinuses.

Sakura Avalon: I may be from Japan but I love wasabi.

Me: It's good stuff.

They dug into the pizza and ate the whole thing and they were blowing fire out their noses and absorbing it into their bodies and they were blowing fire out their mouths too.

Laney: Looks like it's a tie.

Me: These two girls are crazy.

Hunter: (German Accent) Ja. They sure are.

Qin: (BURPS OUT FIRE) Whoops. Excuse me.

Carol: (BELCHES OUT FIRE) Pardon me.

Qin: That was a great pizza.

Carol: It sure was and I made it myself.

Qin: You're a great pizza chef Carol.

Lynn Sr.: She learned everything from the pros.

Carol: Yep.

Qin: Carol, can I ask you something?

Carol: Sure.

Qin: What were you like before you joined the team and married Vince?

Carol looked down.

Qin: Oh man. Was that a bad thing to talk about?

Carol: No it's fine. You have the right to know. My time before joining the team has not been very pleasant.

Carla: Why mommy?

Carol went over what happened during the events of The Windy Catfight, The Problem With Trolls, and Carol's Redemption. She told her about how Carol beat up Lori while under the influence of her evil persona Morgan. She was suspended from school and banned from all social media sites. We caught her and arrested her and she was sent to reform school. When she got back from reform school her father disowned her and now she hates his guts. Mary Pingrey and Carol's brother Connor despise their dad to the core. And she got her powers when Lisa separated Morgan from her and it was a horrible time for her.

Qin, Maria, Carla, Evelyn and Pearl gasped in horror!

Maria: (Gasps In Horror) Morgan was that dangerous and pure evil!?

Qin: Carol, that's awful! I didn't know about that.

Carol: Morgan was the worst thing that has ever happened to me. She was a monster straight from the fire of hell. She made my life a living nightmare and severed my ties with my home and my family.

Me: I remember that.

Vince: Yeah. Carol went through a nightmare because of her.

Nico: Morgan is a monster that has failed this universe.

Me: She sure has.

Qin: That's awful. Also I heard you guys met the world famous creator of Marvel Comics, Stan Lee.

Me: We sure have Qin. He is the most awesome comic book creator ever.

Qin: Wow! Where did you meet him first?

Spiderman: I can answer that. We met him at the school we went to in the middle of the city.

Me: It was under attack by the Carnage Symbiote and that fucked up homicidal maniac Cletus Kasady.

Qin gasped.

Qin: I remember him! He was the worst monster ever!

Me: You would hate this guy to the core. He was over 50,000% fucked up and should've been killed long before he got the Carnage Symbiote. Cletus Kasady was a monster that wanted nothing more than to see the entire planet and everyone on it burn and die. He's what I call a Nihilistic Sadomasochist. Totally beyond pure evil.

Qin: That's horrible!

Lisa: Even though 50,000% is not a real percentage that is an accurate and definitive way to describe him.

I pulled up Cletus Kasady A.K.A. Carnage's history.

---

Even when he was a toddler, Clestus Kasady was already a deeply disturbed person with a dark past; born at the Ravencroft Institute for the Criminally Insane, he died a few minutes afterward, before he was revived by the primordial entity Knull to be the one free him from the Kylnatr. As a child, he killed his grandmother by pushing her down a flight of stairs, tried to murder his mother by throwing a hair dryer into the bathtub, and tortured and killed the family dog Fifi with a drill. When his father caught his wife trying to kill Kasady in a mix of self-defense and rage for what their son had done to her beloved pet, he beat her to the brink of death and received no defense from Kasady during his trial.

Kasady was then sent to the St. Estes Home for Boys, where his antisocial behavior made him the target of abuse from both the other orphans and the staff. Brutal years he endured at St. Estes only further shaping the killer inside the young man, subsequently giving him him his philosophy where life was essentially meaningless and futile, that "laws are only words", and that the spreading of chaos through random, unpatterned bloodshed was "the ultimate freedom". Kasady eventually gained his revenge by murdering the disciplinarian administrator, pushing a girl who laughed at him for asking her to date him in front of a moving bus, and eventually burning down the orphanage.

Eventually, Kasady was captured and convicted of eleven murders; he bragged about a dozen additional killings while in custody, which the police presumably could not find sufficient evidence for. Now imprisoned for eleven consecutive life sentences, Cletus Kasady shared a cell Eddie Brock who has lost his Venom symbiote thanks to the toxic touch of the supervillain Styx. Learning of Brock's grudge against Spider-Man, Kasady tried to convert him to his nihilistic philosophy, mocking Eddie over his claims to have once been the supervillain Venom. Repeatedly rebuked, Kasady decided to murder his cellmate, but before he could the Venom symbiote entered the cell and rebonded to Eddie. Venom broke free, leaving the terrified and jealous Kasady behind.

Sensing his desire for the power Eddie possessed, a scrap of the symbiote left behind, none other than Venom symbiote's offspring, dripped onto Cletus' hand and bonded with him, transforming him into the monstrous Carnage. A security guard who witnessed his transformation was subsequently killed with his body somehow "pulled through the bars of his cell" before escape, and commit around a dozen of murders in far more extreme methods.

As Carnage, Kasady proved stronger than Spider-Man and Venom combined, and his symbiote was not only less susceptible to sonics than its progenitor, but infinitely more difficult to remove, having bonded to his bloodstream. In his first appearance, Carnage forced Spider-Man and Venom to call a temporary truce to defeat him.

Following his defeat, Carnage was sent to The Vault, a prison for supervillains, and later to the Ravencroft Institute; a facility for criminally insane superhumans. Hoping to find a cure for Kasady's madness, a doctor drew blood from him, unknowingly allowing him to transform back into Carnage. After bursting out of his restrains, Carnage freed fellow inmate Shriek from her confinement and escapes from Ravencroft with her. Carnage and Shriek then go on a killing spree and recruit Doppleganger, Demogoblin and Carrion into an army of psychopathic supervillains bent on taking over New York. Despite declaring himself the "father" of the group, the other members in fact hated Carnage and only stayed in devotion to Shriek.

As the death toll increases, Spider-Man, Venom, Captain America, Black Cat, Nightwatch, Cloak and Dagger, Iron Fist, Deathlok, Morbius, and Firestar all join forces to defeat Carnage and his gang, although they are polarized by Venom's desire to stop Carnage at all costs and Spider-Man's refusal to use violent methods, leading to Spider-Man abandoning Venom to Carnage's mercy. To make matters worse, Carnage uses Shriek's psychic channel powers to turn the populace of New York bloodthirsty and violent, allowing them to continue their killing spree without hindrance.

Eventually, Carnage turns on his "family", causing Shriek to become distracted from using her psychic power in the ensuing battle. Taking advantage of this, the heroes use a device acquired from Stark Industries to project feelings of love and hope into the villains, overwhelming them. While the others are captured, Carnage fakes his death by covering one of his victims in a mock Symbiote costume and flees. Once the heroes have dispersed, Carnage ambushes Venom, although, due to being left frantic and disoriented from the previous fight, he is relentlessly beaten and then tackled into an electrical generator. After being knocked senseless, he is arrested soon afterwards.

Despite supposedly being irremovable, the Carnage symbiote left Cletus twice of its own volition, once to bond to Spider-Man's clone Ben Reilly, and the second time to bond to the Silver Surfer, but both times returned to its original host. Fed up with Carnage, Venom once devoured the symbiote, leaving Cletus powerless for a time, though the serial killer somehow managed to obtain an exact duplicate of it in the Negative Zone that has since merged with the remnants of the original.

When Cletus realized the Carnage symbiote was about to give birth, he passed the offspring on to a police officer named Patrick Mulligan, exhausted from trying to suppress the process and intending to kill them both later. This backfired when the offspring Toxin, teamed up with Spider-Man and Black Cat to defeat him and Venom. While imprisoned on the Raft, Carnage participated in a breakout but was apprehended by the Sentry, flown into orbit, and torn in half.

Presumed dead, Cletus was actually cocooned by the symbiote, but missed out on the Civil War, Skrull Invasion, and Dark Reign. His body was eventually recovered by Hall Industries, which extracted the symbiote from him and used it to engineer unique prosthetics. Equipped with a new pair of legs, Cletus was eventually reunited with the symbiote and stronger than ever, but was repelled by Spider-Man and Iron Man with help from the symbiote's new offspring, Scorn.

Traveling to Doverton Colorado, Kasady took over the town by creating copies of the symbiote, even parasitizing the Avengers, but was defeated by the Life Foundation symbiotes, Scorn, and Agent Venom. Imprisoned, he was freed by servants of Marquis Radu, a tyrant in the Microverse who intended to use the Carnage symbiote to create an unstoppable army. Pursued by Agent Venom and the Scarlet Spider, Carnage betrayed Radu's forces but was captured and his symbiote cloned and fused to copies of the Venom symbiote. Intrigued by this, Carnage attempted to assimilate the Venom symbiote to become even more powerful, but was stabbed through the head by the Scarlet Spider's stingers and lobotomized.

Comatose and under the control of the symbiote, Cletus was eventually broken free by Klaw and the increasingly psychotic Wizard, who wanted to turn him into his own version of Agent Venom. Unable to do so due to Cletus being brain-dead, the Wizard has Klaw subdue the symbiote and transfers it into his old friend Karl Malus, blowing up his base with Kasady still in it. The Wizard's control over Malus proved tenuous at best, and during a fight with the Superior Spider-Man he lost control, allowing the symbiote to take over and go on a rampage, destroying Klaw's corporeal form in the process.

The resulting shockwave blasted the symbiote off Malus and onto the Wizard, who the symbiote promptly took control of and resumed its rampage. Superior Spider-Man learns Kasady survived the explosion, albeit badly injured, and has his body recovered to exploit the symbiote's preference for him. The symbiote eluded Spider-Man's attempts to capture it and rebonded to Kasady, curing him of his coma, but the reunion was short lived before Klaw directed a bolt of lightning towards Carnage, separating Kasady and the symbiote once more. Spider-Man takes the symbiote into custody while Kasady is incarcerated again and revealed to have made a full recovery from his lobotomy.

Cletus undergoes psychotherapy and is integrated into the mainstream prison population, while without a host, the symbiote begins to die and escapes containment, seeking to reunite with him. Upon learning of the symbiote's escape, Kasady's psychologist, Dr. Jenner, hires a thug to shank him and then smothers him to death, offering himself to the symbiote as its next host. The symbiote refuses and resuscitates Kasady, rebonding to him, and the reunited Carnage returns the favour by smothering Jenner.

Carnage decides that his ambitions of conquest and transcendence have caused him nothing but grief and decides to get back to basics with another randomized killing spree. This attracts the attention of psychotic anti-hero Deadpool, who inadvertently comes to believe that it is his destiny to hunt Carnage down. Tracking him down, much to his confusion and outrage, Deadpool gains an upper hand over Carnage until Shriek arrives. Carnage and Shriek escape, but Deadpool tracks them down and tricks Carnage into badly injuring Shriek. Broken from almost killing Shriek, Carnage allowed himself to be arrested and placed in an unlocked cell, swearing revenge on Deadpool.

Carnage would later be one of the villains recruited by Magneto to confront Red Onslaught, the former having convinced him to help out by promising that he'll cause more chaos by becoming a savior. As a result of the morality-altering magic used by Doctor Doom and

Scarlet Witch during the fight, Carnage was filled with the urge to become a hero and returns to New York to "save" people, mostly oblivious to how his actions are causing more harm than good. At the same time, a new Sin-Eater begins murdering journalists, which leads to Carnage saving attention-seeking reporter Alice Gleason from him, and abducting her so that she may teach him how to become a great hero. Carnage later defeats and kills the Sin-Eater with the overwhelming force of his old sins, and Alice turns on him by convincing the police that he'd been attacking her. Carnage concludes that Alice is trying to teach him that to be a true hero he must be alone and escapes.

Carnage would then team up with Spider-Man, Steve Rogers, Magneto and the other morally-inverted villains to form the "Astonishing Avengers" to stop the threat of the Avengers, X-Men and Apocalypse. To stop the X-Men from destroying all humans within radius with their gene bomb, Carnage sacrifices himself to contain the blast-Spider-Man describing this act as the worst man he ever knew doing the most noble thing he'd ever seen. Following the inversion of all the heroes and villains, the Astonishing Avengers would take the fall for the Avengers and X-Men's actions, this being confirmed through a video released to the public, in which Carnage served as the group's spokesperson.

Carnage somehow managed to cheat death again and decided to track down and kill a friend he had made while his morality was reversed; Sam Alexander, the teenage superhero Nova, as he wanted to erase all history of his good deeds, including anyone who remembered him being a hero. After first proving that he had reverted to his old ways by murdering a random bystander, Carnage took Nova's mother hostage at the local diner she works at in order to lure him out, and escapes after being wounded by the Nova Force.

He then attacks Sam at his school, only to find that Nova is flying around in the area (in reality, Sam's mother wearing his helmet), thus making him drop the idea that Sam is Nova and chase after his mother. He soon looses track of the false Nova and starts attacking people to lure him out, which he succeeds in doing. Nova manages to stun Carnage by setting off various car alarms, and, realizing the

Symbiote's weakness to high frequencies, he throws him into an Anthrax concert nearby, sending Carnage fleeing for the road. The fight soon ends as Carnage is ran over by a truck and Nova restrains him, dropping him off at Ryker's Island.

Later, following HYDRA's takeover of America, Norman Osborn steals the Carnage Symbiote from and abandoned S.H.I.E.L.D. storehouse and decides to use it for himself. While initially overpowered by the Symbiote's desire for violence and destruction, Norman manages to convince it to be used for something more than "boring" mindless slaughter. Norman then uses the Symbiote to begin a crusade as the terrifying Red Goblin, combining his tech and powers with the Symbiote's own abilities, thus granting the both of them all of their strengths with none of their weaknesses.

He uses his new form to easily beat Spider-Man and his allies, assimilate his grandson Normie into a miniature Red Goblin, and target Spider-Man's friends and loved ones when the latter abandons his promise to give up heroics, even killing Flash Thompson/Agent Anti-Venom. After donning the Venom Symbiote once again to fight his archenemy, Spider-Man convinces Norman to abandon the Carnage Symbiote to prove he doesn't need it to finish him, and subsequently blows the Symbiote up with an exploding gas tank. The resulting feedback seemingly destroys the remains Norman's mind, leaving him with the belief that Spider-Man is really Norman Osborn and he is Cletus Kassidy (although it is implied that he could be faking his mental state). In the aftermath, it is also shown that a sliver of the Carnage Symbiote is still attached to Normie.

In the Venomverse sequel Crossover Cletus becomes Poison Carnage.

In the latest Venom series, Cletus Kasady, after becoming Poison Carnage, returns from Earth and revived by the Cult of Knull, getting not only the Carnage Symbiote but also the Grendel Symbiote.

We were absolutely horrified!

Nico: HOLY SHIT!

Qin: No kidding! I can't believe that Cletus Kasady was that evil.

Me: No kidding. And now Naruto has the Carnage Symbiote.

Naruto: Yep. It's true.

Carnage: I bonded with Naruto during an alternate Mizuki incident. He and I have been close ever since.

Vince: I remember that. That was awesome.

Laney: It sure was.

Me: Yeah. But there's another person we despise and Spiderman was working for him ages ago.

Spiderman: Yep. That was my old boss J. Jonah Jameson.

Qin: The disgraced chief newspaper editor of The Daily Bugle?

Spiderman: That's right.

Qin: I heard that he hates heroes with a terrible vengeance.

Me: Yeah. He hates all heroes and praises super villains. He wants nothing more than to see all heroes die. He slanders all heroes and drags their names through the mud.

I revealed his history.

---

His full name is John Jonah Jameson Jr. Jameson was born in Los Angeles, California to John Jonah Jameson Sr. and Betty Jameson. However, his father left for unknown reasons when Jameson was still a child, leaving Jameson to be raised by his mother and eventual stepfather, retired United States Army veteran David Jameson. However, he was abused by his stepfather, leading him to believe that "heroes" were not always good people. He grew up a Boy Scout and took up hobbies in boxing and photography, and later courted his crush Joan in high school. When he was attacked by three bullies, he used his boxing skills to easily beat them, impressing Joan and kicking off their dating. The two married right out of high school.

Jameson began his journalism career by starting as a paperboy, and later as a reporter for New York City's newspaper The Daily Bugle, later serving as a war correspondent. Through personal assets and inheritance from his recently (presumed) deceased parents, Jameson eventually acquired enough funds to open his own company, Jameson Publications, which then bought the struggling Daily Bugle with the intention of revitalizing it from a cheap tabloid to a popular newspaper. Jameson bought a building to turn into The Daily Bugle's office. He and Joan later would have their son John Jonah Jameson III, but shortly after Joan passed away from unknown circumstances.

Despite his intense hatred for superhumans, Jameson held a respect for normal human minority groups and was a strong opponent of organized crime, even leading to assassination attempts by the Kingpin.

As the number of superhuman individuals began to grow, Jameson became more infuriated by their theatrics and disregard for the law. He began targeting them and even falsifying information regarding their actions in his newspaper to defame and villainize them in the public eye. Though he spoke out against superheroes like the Fantastic Four, Hulk, She-Hulk, and X-Men, he primarily targeted local and less professional superhero Spider-Man, who was, at that time, little more than an entertainer. However, as he began to rise as a superhero vigilante, Jameson soon began defaming Spider-Man, causing so much public hatred for Spider-Man that he was effectively blacklisted from appearing in entertainment.

Soon after, Spider-Man saved Jameson's son, who had become an astronaut, from a disastrous space capsule accident. Despite this, Jameson accused Spider-Man of sabotaging the capsule as a publicity stunt, and incriminated him with the destruction of government property and the endangering of his son's life. Spider-Man became an outcast and an outlaw. Shortly after, Jameson hired a freelance photographer name Peter Parker, who took pictures of

Spider-Man's battle against the Vulture.

Jameson continued to villainize Spider-Man and discredit his public image through lies and libel, though Spider-Man continued his vigilantism. Eventually, Jameson was overcome with rage and decided to take matters into his own hands. He commissioned Dr. Farley Stillwell to biologically mutate and enhance criminal MacDonald Gargan into the vicious supervillain Scorpion to kill Spider-Man, though this failed when Gargan turned against him. He would later get Spencer Smythe to create the Spider-Slayers, controlled by him, to battle Spider-Man, though this too failed. He would later hire Daniel Berkhart, the second Mysterio, to defeat Spider-Man, but again failed. Jameson fled to France, and returned to try and continue the Spider-Slayer program with Dr. Marla Madison. Though this failed as well, Jameson and Madison fell in love with each other during their time together, and were eventually married.

Later, the Hobgoblin attempted to blackmail Jameson for his involvement in the creation of the Scorpion. Though this failed, Jameson publicly announced his guilt and stepped down as The Daily Bugle's editor-in-chief, though he remained a publisher. Though he made other attempts to bring down Spider-Man by hiring the Wild Pack, he mainly laid low. He was later kidnapped and impersonated by the Chameleon, who once again used his newspaper to spread anti-Spider-Man propaganda. He was saved by Spider-Man, and The Daily Bugle was temporarily run by Thomas Fireheart, a.k.a. Puma, who was an ally of Spider-Man. Shortly after Jameson regained control of the company, he was blackmailed into selling it to Norman Osborn under the threat of homicide attempts on his wife. He was soon after attacked by supervillain Mad Jack, causing him to go through a downfall until Osborn was driven mad by a ritual he had performed and the company was sold back to Jameson.

Soon after, Jameson and his wife adopted their niece Mattie Franklin, who was also the Spider-Woman. Jameson learned of her identity after a failed heroic outing where she had to be saved by Jessica Jones. Jameson, in return, hired Jones as an investigator and promoted her agency.

Jameson was later attacked by Mysterio, who made it appear that Spider-Man killed him in a deliberate car crash. Jameson was kidnapped by Mysterio, who used illusions to make Jameson believe he was dead and in Hell, tormented by a Spider-Man demon. Jameson was eventually saved by Spider-Man, but lasted deeper hatred for the wall crawler because of the traumatic event.

Jameson eventually reached his breaking point during the Civil War, where his son married She-Hulk and he had to contend with a superhuman he hated being his daughter-in-law. Additionally, as a part of the Superhuman Registration Act, Peter Parker announced himself to the world as Spider-Man, angering Jonah and making him feel betrayed. He attempted to sue Peter for fraud, but Parker was protected by the Act.

Finally snapping from rage, Jameson brought back a Spider-Slayer robot and attacked She-Hulk, who defeated him. Jameson committed several acts of libel against Peter and even demanded his arrest. When The Daily Bugle's then editor-in-chief and longtime friend of Jonah Robbie Robertson objected, Jameson fired him. Spider-Man asked Jameson to rehire Robertson, and Jameson only agreed if he could continue his lawsuit. Spider-Man agreed, then told Jameson to beat him. Jameson was reluctant at first, but proceeded to punch Spider-Man numerous times. Spider-Man then gave Jameson a roll of film containing pictures he had taken of the "fight", telling him to use them as he pleased. However, in a rush of remorse, Jameson destroyed the film, rehired Robbie, and dropped the lawsuit.

Later, when Peter Parker sold his marriage to Mary Jane Watson-Parker to Mephisto in order to wipe everyone's memories of his secret identity, Jameson lost all memory of who Spider-Man was. However, the Bugle was under threat of being purchased by Dexter Bennett, causing Jameson to become angry. During an argument with Peter over money, Jameson suddenly collapsed from a heart attack. He was saved, but suffered a second heart attack when he heard his wife had sold the Bugle to Dexter Bennett while he was ill. He recovered, but had lost his nerve and even some of his famous temper.

His wife, Marla, tried to regain the Bugle but it was attacked by

Alistair Smythe, and she was killed in the process.

With no company or family to return to, Jameson used his falsified heroic public image to run for mayor and won. Even though Spider-Man and even Jameson's biological father urged him to end his vendetta and bury the hatchet, Jameson instead used his power to assemble an Anti-Spider Squad to hunt down Spider-Man. Spider-Man did his best to remain a hero while being hunted, infuriating Jonah. Even though the Anti-Spider Squad cost the local government a lot and was borderline illegal, Jameson continued it. The organization gained some favor during the infamous "Spider Island" incident.

However, after a series of events where Peter Parker and Doctor Octopus switched bodies, Octavias became the "Superior Spider-Man" and saved Horizon Labs. Jameson, ironically, softened his heart to the new, darker "Spider-Man" (he was unaware it was not the same Spider-Man), and tried to help him. The Superior Spider-Man tried to force Jameson to give him control of the Raft prison, causing Jameson to hate him again. He commissioned new Spider-Slayers, even though the city was being terrorized by the Green Goblin and his organization, the Goblin Nation. This created a scandal that worsened when the Nation took control of the robots, causing Jameson to resign in disgrace. Spider-Man eventually returned and defeated Octopus.

With no company left to go to and a poor public image, Jameson was hied as a reporter for the Fact Channel. He reported on a story that was interrupted by Black Cat and Electro, and ordered the cameraman to film the ensuing battle when Spider-Man and Silk arrived. Electro managed to electrocute and stun Spider-Man, and Black Cat attempted to remove his mask. Jameson demanded the cameraman zoom in to catch it, but Spider-Man stopped Black Cat before she could do it.

Jameson later used his reporting job to support the company New U Technologies, who claimed they could revive the dead with a new chemical formula, and did so with Jameson's deceased wife Marla. However, New U turned out to be a fraud, cloning patients instead of reviving/curing them. To make matters worse, all carried a disease called the Carrion Virus, which was exploited by Doctor Octopus, causing a worldwide epidemic. Spider-Man was able to stop the disease, but Jameson was fired from his job due to his support of New U.

Jameson was later contacted by S.H.I.E.L.D, who asked him to help Spider-Man catch a fugitive named Teresa Durand. Jameson agreed as long as he could finally interview Spider-Man. Tensions rose as the interview progressed, but ended with Jonah finally breaking down and admitting the reason he hated Spider-Man more than anyone was because he was envious of what he had. In order to finally bury the hatchet, Spider-Man revealed his identity to Jonah.

---

Qin was horrified and sad for him.

Qin: I can't believe that he went through all that. No wonder he hates all heroes.

Me: Yeah. But look where he's at now.

I pulled up the security camera footage of J. Jonah Jameson in his prison cell in the Venus Maximum Security Prison.

Qin: He's in prison?

Me: Yep.

Lola: That clod deserved it. He was ruining the reputations of all heroes everyone.

Spiderman: It was mostly mine that he loved ruining the most.

Qin: Why is that?

Me: When we visited him in prison Spiderman revealed who he was.

I pulled up the security footage from when we visited him during the events of The Devil's Bounty Hunter.

---

Me: Hello Jameson.

Jameson: J.D. Knudson. Who is he and why is Spiderman with you?

Nico: In order, my name is Nicolas Chan. But everyone calls me Nico and Spiderman is with us because he wants to show you something.

Me: How are you liking your home here on the planet Venus?

Jameson: The chili is good but I would really like to get a Daily Bugle newspaper subscription.

Me: Well we're 24 million miles away from Earth. So that's gonna be a problem.

Nico: J. Jonah Jameson, you have failed New York City.

Spiderman: You know it was Green Arrow that invented that line right Nico?

Nico: I know. But I use it all the time when we fight bad guys. And sometimes for humorous purposes.

Me: I saw that.

Spiderman: I want to show you who was working with you the whole time.

Spiderman took off his mask and J. Jonah Jameson was shocked to see that Spiderman was really Peter Parker!

Jameson: Parker?! You're Spider Man?!

Spiderman: Ironic, isn't it? The one person that you thought of as a menace was working for you as a photographer the entire time. I'm glad Robbie is in charge of the Daily Bugle now.

Nico: I would consider what you've been doing as an act of slavery. You hired Peter Parker and it was fate that made him into Spiderman.

Jameson: How did Parker become Spiderman!?

Me: You remember that Neogenics lab you sent him to get a story at?

Jameson: What about it?

Me: He was bitten by a radioactive spider and it mutated him and gave him his powers. Super Strength, the ability to climb on walls, sense his surroundings, web slinging. All kinds of spider powers. He was hit by a double whammy of how superheroes get superpowers: Laboratory Experimentation and a Laboratory Accident.

Nico: That's right.

Me: I was given my powers when I was a baby because of Cosmic Radiation. It gave me omnipotent power.

Nico: I'm what is called a Saiyan. I was born on another planet, but I was raised here on Earth.

Me: Now look at you. You're a disgraced journalist here in prison 24 million miles away from Earth left here to rot.

Then J. Jonah Jameson went berserk! He went into a temper tantrum of unimaginable rage and fury at an incomprehensible.

Nico used Stinkor's fart powers and stunk up his cell big time. Giving him the worst ever Dutch Oven of all time.

KRAFAAAARRRRRRTTTTTTTTTTTTTTT!

We left as he ranted.

Me: Burn in Hell you monster.

The door to his cell closed.

---

Qin: Wow! That is majorly ironic!

Spiderman: Yeah. Who would've thought that the man that was a major thorn in his side was the cause of his own imprisonment.

Me: Yep.

Nico: I wonder how the construction is doing.

---

Rumble and Frenzy were working on a house.

Rumble and Frenzy are renovating a broken-down house

Rumble: All right, Frenzy, I'm gonna go up to the upper level and run this wire down through the wall. Grab your walkie; I'll call you when I get up there.

Frenzy: Okay. [Rumble leaves with the wire and a walkie-talkie]

Rumble: Frenzy, pick up. Over.

Frenzy: What?

Rumble: Frenzy, please say "over" when you finish talking. Over.

Frenzy: What? Over.

Rumble: Do you see the wire yet? Over.

Frenzy: No.

Rumble: No… what? Over.

Frenzy: No. Over.

Rumble: Okay, I'm gonna start feeding it through. Over.

Frenzy: Wait, if you haven't started feeding it, why'd you ask me if I could see it?

Rumble: Didn't copy that. Over.

Frenzy: I said, why'd you ask me if I could see it if you haven't started feeding it? Over.

Rumble: Oh, that's better, I can hear you now. Over. You see it yet? Over.

Frenzy: Is this payback for when I blindly followed Megatron and Starscream's orders? Because if it is, I'm gonna get back at you when this is over.

Rumble: When this is what, Frenzy? Over.

Frenzy: I said, I'm gonna get back at you when this is over.

Rumble: When this is what? You gotta finish your sentence. Over.

Frenzy: That's it. My sentence is over.

Rumble: Your sentence is what, Frenzy? Over.

Frenzy: My sentence is… Wait a minute, I have to say "over" even if the sentence ends with the word "over"?

Rumble: Ends with the word what, Frenzy? Over. [the wire finally comes down from the wall]

Frenzy: Oh, I see the wire.

Rumble: You see the wire what, Frenzy? Over.

Frenzy: [grabs the wire and pulls hard] OVER! (Rumble falls to the ground)

---

Later Frenzy and Rumble came back.

Skywarp: Hey, guys. How was the construction?

Rumble: Pretty good!

Frenzy (annoyed): Speak for yourself.

Clawful came out with a big pot of soup.

Clawful: I made you all shrimp gumbo.

He served us all Shrimp Gumbo he learned using Merman's cooking.

We ate it and we loved it.

Clawful: What do you think of my cooking? I learned it from Merman before you guys killed him.

Me: You cook really great Clawful.

Nico: I'll say. Delicious.

Lincoln: It's really tasty.

With us was S.P.D. member and teacher Kat Manx.

Kat Manx: I just wish I could be out there fighting crime with all of you.

Powerglide: Didn't you have a Kat Morpher before?

Kat Manx: I did. But it was only for good for 60 minutes. And it was for one use only.

Me: That stinks.

I looked at the clock and it was 6:30 PM. I had an hour and a half until my big test.

Me: The Full Moon is almost up. My big test is today.

Blue Beetle: I can't believe you still have to go through this test. Haven't you proven yourself worthy already? What more do you have to do?

Me: The Light and Dark Cards told me that this day would be coming. I have to take this test because if Sakura can do it then so can I. I've been ready for this ever since this journey to bring back the Clow Cards began when I opened the Clow Book. And we all have been through so much together over the course of the last 3 years. We faced great challenges and obstacles and overcome many powerful foes. This test is gonna be an amazing challenge.

Sakura Avalon: I know you can do it J.D.

Kero: We believe in you J.D. Yue told me to have you meet him on the tallest building in the city.

Tory then came and he was walking without crutches.

Tory: Hey guys.

Me: Hey Tory. You've been upgraded to walking without crutches.

Tory: Yep. Should be better in about another week.

Sakura Avalon: I'm glad Tory.

Tory: At least you're not the one with the broken leg, squirt.

Sakura growled.

Me: Tory, be nice to her.

Tory: Sorry. I heard you have that big test today.

Me: Yep. And I'm ready for it.

Tory: Yue is also my best friend Julian.

Me: I think you mentioned that at one time Tory. You two have known each other for a while.

Tory: Yep. We've been best friends for a while.

Me: Were you surprised when you found out that Julian was also Yue as well?

Tory: I was. But I was able to figure it out with my Spirit Awareness powers.

Me: Wow. You caught on very fast. And I bet you knew something was off about Kero.

Tory: Yep. He thought he was a stuffed animal but I knew something was different about him.

Me: Boy nothing escaped your Spiritual Awareness.

Tory: I know.

Kero: J.D. it's time.

Me: I'm ready Kero.

Sakura Avalon: You can do it J.D.

Me: Lets go guys.

We were off to the city.

We saw the full moon in the sky and we flew to the tallest building in the city.

---

We arrived at the tallest building in the city and we saw Yue. Yue is an attractive young man with long, silver hair that flows down his back in a loose ponytail. His bangs are short, and reveal his silver-blue eyes. He wears white silken robes set with dark blue armour, a jewelled earring on his left ear, a long side cape that hangs on his right shoulder and large angelic wings that he can use to fly.

Me: Whoa.

Nico: Is he Yue?

Lori: He literally looks like a true angel.

Laney: He sure does.

We landed and we stood face to face.

Me: Are you Yue?

Yue: That is right. Sakura, Kero, it's great to see you all again.

Kero turned into Keroberos.

Keroberos: You too Yue. It has been a long time.

Me: It's a pleasure to meet you Yue. So you are here to judge me for the big test to see if I'm worthy of the Clow Cards?

Yue: That is correct.

Eddy: (to Yue) I was thinking that instead of a fight, we show you a clip show of J.D.'s various good deeds to prove that he's worthy.

Yue: I will admit that I have seen and read about the many good deeds J.D. and all his friends did over the last three years and I'm very impressed. But sadly the test must go on.

Horsea: Please don't fight J.D.!

Yue: (sadly smiles) I'm sorry, child. But this is required.

Horsea: (does puppy dog eyes) Pwease?

Maria: (smiles pleadingly) Do you really want to say no to Horsea's puppy dog eyes?

Me: Yue is right. Ever since this whole journey to bring back the Clow Cards began, I've been preparing for this. Clow Reed was the most powerful sorcerer that ever lived and Sakura and Li know all about the Clow Cards better than I do. But as time went on when I found them, I learned fast. And I've been preparing for this ever since the Light and Dark Cards told me about Yue coming. I have to do this guys. It's part of what I must do.

Nico: If this is what you must do than we won't stop you J.D.

Yue: If it helps, your friends can assist you in this battle.

Me: If that is all right then. Okay. Ready guys?

Nico: Lets do it!

Weirdwolf: (to Yue) Just remember. We gave you an option to skip this fight!

Me: We have to take the fight to another planet to avoid having people get hurt.

Yue: Good idea.

I snapped my fingers and we were in the clouds of a massive gas giant planet! I used my magic to allow us to stand on the clouds.

Maria: Whoa!

Laney: Wow! Look at this planet. It's amazing!

Nico: Where are we?

Me: This is the gas giant planet Yokrayna.

The planet Yokrayna is a Gas Giant Planet that lives in the Radio Galaxy M87, 60 million light-years away from Earth. It is 175 million kilometers or 108,739,958 miles in diameter and it is one of the largest planets in the universe to date. The storms on the planet produce tremendously supercharged lightning and produces 18,000 bolts every half a second. The Static-Discharging Hydrogen Gas of the planet creates an electromagnetic field that disrupts transformation jutsu and it produces a special radiation that enhances magic powers.

Sakura Avalon and Li gasped when they felt the planets magic enhancing power.

Sakura Avalon: The planets atmosphere is doing something to us!

Li: I feel incredibly powerful!

Keroberos: Same here. Something is in the planets atmosphere that is doing this.

Me: That's right. It's a powerful radiation that enhances Magic Powers.

Brittney: This is incredible!

Lana: I feel amazing!

Zatanna: Same here.

Doctor Strange: Amazing.

Me: Okay Yue. We're ready. Lets power up.

We transformed and powered up.

We went at Yue and I fired a powerful energy blast and it hit him and exploded.

KRABBBBBOOOOOOOMMMM!

Yue came at us and I punched him in the face and kicked him in the stomach and he punched at me and I dodged it and Sakura punched him in the face and kicked him in the back and Li slashed him with his sword. Yue fired numerous crystal shards at us and I grabbed them and threw them back at him.

Earth: Wow! That was so cool!

Lincoln: It sure was!

Lincoln fired a powerful blast of lightning and Earth fired a massive glob of lava and they combined and hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOMMMMM!

Laney fired plant grenades and Sakura fired a blast of fire and they hit him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOMMM!

Lana fired a massive blast of ice lightning and froze his wings.

Yue: Shall we sword fight?

Me: Lets.

I had my Force Lightning Enhanced Lightsaber ready. Yue made a powerful energy sword of pure lunar light and we clashed and it was a powerful and massive clash. We clashed ferociously and massive and powerful sparks were flying everywhere and more. We were clashing all over and more and the powerful shockwaves from our fight were being felt all over the universe. Our clashes were dead even.

Me: I would say our swordsmanship is even.

Yue: It is. You are a magnificent sword master. You've learned very well.

Me: All of us have. Not to brag.

Yue: Lets see how you fair against all of these guys.

Yue then summoned a bunch of drones from Star Wars and they fired blasters at us and we all ignited our lightsabers and slashed them and deflected the blasts from the drones back at them and away from us and we slashed and blasted all of the drones and more.

Yue: Very impressive.

Me: Thanks.

Yue: Lets see how good you are at dodging arrows.

Yue formed a bow and energy arrows and readied them.

Me: (Echoing) CELESTIAL ARROW!

I used Angewomon's Celestial Arrow and fired a white energy arrow and Yue fired a blue energy arrow and the arrows collided and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMMMM!

Nico: Wow! He used Angewomon's power!

I summoned the Sword Card and we clashed again and I slashed Yue and he had a cut on his chest.

Lola fired a massive blast of fire and Lisa fired a blast of atomic energy and they hit him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMM

Lori fired a massive blast of wind and spun him around in a tornado and Sakura used the power of Windy and blew him around and in a more powerful tornado.

Leni strengthened the gravity around Yue and he fell to the ground and Luna fired a powerful blast of water and Sam fired a massive blast of fire and they hit and exploded.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM

Luan and Eddy fired a massive blast of light and they hit and exploded.

KRABBBBOOOOOOOOOOOOOOMMMM!

Lucy and Linka fired lightning and it hit him and exploded.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Liberty, Lee and Lyra fired powerful blasts of fire, leaves and water at Yue and they hit and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMMMMM!

Me: KAAAAAAAA! MEEEEEEEE! HAAAAAAAA! MEEEEEEEE! HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA!

I fired a powerful Kamehameha Wave at Yue and it hit him and exploded.

KRABBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Yue was a very formidable adversary.

Me: Time for some teamwork guys!

Skywarp: We're with you boss! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his power and speed 100-fold.

Clawful: Time for some pain! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his power and strength 100-fold and it enabled his claws to get sharp and spiking.

Skywarp and Clawful: HYPERSONIC LOBSTER CLAW SNIP!

Skywarp went at 50,000 miles per hour and Clawful was on top of Skywarp and he snipped at Yue and he was getting cut all over.

Powerglide: Time for action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his abilities and speed 100-fold.

Blue Beetle: Lets do it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm and enhanced his powers 100-fold.

Powerglide and Blue Beetle: HYPERSONIC ULTRAVIOLET BURSTBOMB!

Powerglide and Blue Beetle fired powerful blue energy blasts and they hit Yue and exploded.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Lets see you handle the powers of our final smashes!

Li: I'll start us off. ELEMENTAL TALISMAN BURST!

Li fired a powerful blast of fire, water, earth and wind from 4 talismans and they combined and hit Yue and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Weirdwolf: Lets do it! THERMAL SWORD BLADEDANCE!

Weirdwolf slashed Yue all over the place with his Thermal Sword with a powerful 900 degree temperature.

Sakura Avalon: I beat you once Yue and here's my Final Smash! FIREY WINGBLADE SLASH!

Sakura Avalon sprouted the wings of The Firey Card and fired powerful blades made of pure fire at Yue and they slashed and exploded.

KRABBBBOOOOOOOOOOMMM! BBOOOOOOMMM! BOOOOOOOOOMMM! BOOOOOOOOMM!

Me: Now it's my turn. Lets see how you like this. CLOW CARD SPIRIT STRIKE!

The Spirits of all 52 Clow Cards emerged and they went at Yue and they hit him with a multiple powers and more! They knocked him down and defeated him.

The area reverted back and Yue was getting up.

Me: Are you all right Yue?

Yue: Yeah. I'll be all right.

Sakura: Sorry if we were too hard on you, Yue.

Yue: It's all right Sakura. Now J.D. close your eyes.

I did so.

Yue: The Final Judgement is over. I, Yue, recognize J.D. as the new master.

I was taken to another plane and it was there that I met the great wizard Clow Reed himself.

Me: Clow Reed.

Clow Reed: So we finally meet. I've been watching you closely J.D. The Cards need a strong master. But they also need someone with a brave heart. That is where your strength lies J.D. Keroberos and Yue have chosen well.

Me: It's truly an honor to meet you Clow Reed. I learned so much about you and a lot from Sakura, Li and Kero.

Clow Reed: I can see. You have come a long way. You also have a new staff with you.

Then a powerful staff appeared and it was a red staff with a head in the shape of a phoenix in the middle of the sun.

Me: Wow.

Clow Reed: Your strength is not only from the Sun but also the power of the Phoenix. You are an inextinguishable flame that causes the phoenix to burn forever. It's a small flame now but in time it will grow to become a great force for good.

Me: I understand Master Clow Reed. Thank you.

I got back to the real world and it was over! The Test was done and I passed with flying colors! We all passed.

Sakura Avalon: (To the viewers) J.D. is now the new master of the Clow Cards. But now he has a long road ahead of him to change the cards into his own cards. You'll see what we mean in the future.

During the fight, Nico caught a Crabominable and Vikavolt.

We had an awesome adventure with the Clow Cards. But it was not over yet.

THE END

---

Another Fanfiction complete and a powerful test is passed!

Yue was amazing! I did this chapter on September 14th because it's also the day when the Full Moon is out. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# A Medieval Fair to Remember

In my room I was dressing up in an 18th century pirate costume. I had my hair in a cronmage, my clothes were those of an actual pirate and I had a sword on my left hip and a 17th century flintlock pistol in my right hip in a holster. I was dressed up as Will from Pirates of The Caribbean 3.

I looked at myself in the mirror and I was ready.

Me: (Pirate talk) Time for this pirate to have fun mates. (To the viewers) (Normal talk) Oh hey there guys. I'm sure you're all wondering why I'm dressed up like a pirate. Well today we're going to the Michigan State Renaissance Festival. It's gonna be just as fun as the one I went to in Colorado. When you go to the Renaissance Festival, you feel like you went back in time to the era of King Henry VIII in Medieval England. On Southbound I-25 it was always a bumper-to-bumper nightmare and the traffic going into Larkspur was the pits. Moving at a slow speed of 10 to 20 miles per hour. 30,000 people go every year and as many as 12,000 cars flood the parking lots. From late May and early June to early August it is a nightmare. Here in Michigan however, their Renaissance Festival is on from Mid August to Late September. It's located in the town of Holly, 30 miles northwest of here. But the games are awesome! And the events they have there are awesome! They have jousting, they have sword fights and entertainment. But they also have all kinds of shops and the food is great. But they have all kinds of games too and my favorite game there is a silly game called Vegetable Justice.

FLASHBACK - 6 years ago, 2013.

Me: (Narrating) **I played it several times at the Renaissance Festival in Larkspur, Colorado. Vegetable Justice is a silly game where you throw tomatoes at a guy that pokes his head and hands out of holes in a wall and he insults you in the harshest of ways.**

Vegetable Justice Man: Your mother is a dumb woman who knows only how to join a whorehouse!

Past Me: OH SHUT UP!

Me: **Back in 2013 when I heard him say that, I hit him right in the face with a rotten watermelon bomb. It was a rotten watermelon filled with raw sewage and skunk oil. When it him, it exploded all over him.**

I threw said fruit at him and it exploded in his face when it hit him.

KRASSSSSSPPPPPLLLLLAAAAAAAAAAAAAAAAAAAATTTTT!
KRAAAAAAAFFFFFAAAAAAAAAAAARRRRRRRRTTTT!

Me: **It completely covered him from head to toe in rotten filth and he was never the same since then. The smell was so horrible that they had to call the HAZMAT division and they had to contain him in his house permanently.**

FLASHBACK ENDS

Me: Ever since then, I've been widely know as the terror of the Renaissance Festival and a big celebrity there. But when I play it again, I'm gonna just use this basket full of rotten fruit and vegetables.

I held up a basket full of rotten fruit and vegetables.

I was ready.

Me: I'm ready.

I went to get everyone together.

---

Nico was getting ready. He was dressed up like Legolas from The Lord of The Rings and The Hobbit Trilogy.

Nico: Looking good. I look amazing as Legolas.

Nico went into May's room and she was dressed up like Eowyn from

The Lord of The Rings.

Nico: Ready to go, May?

May: I sure am.

Nico: You look amazing May.

May: I haven't dressed up like this since my Contests.

Nico: I know. You look great as Eowyn from the Lord of The Rings movies.

May: I sure do.

The Loud sisters were going as princesses and knaves from the Medieval era and popular medieval figures of history.

Lori: I literally look amazing as a 17th Century Queen.

Leni: You totes do Lori.

Lori was dressed as Queen Christina of Sweden. A very famous queen from Sweden. She was born on a really rare Astrological Conjunction with the planets Mars, Venus and Pluto. It probably only happens once every 40,000 to 50,000 years.

Leni was dressed up as Isabella of France, one of the most notorious rulers in all of England's history from the 14th Century.

Leni: I totes look amazing in this outfit.

Luna was dressed as a Medieval Lutist.

Luan was dressed as a Medieval Jester. Same with Eddy.

Lynn was a knight.

Lucy was dressed as Countess Elizabeth Báthory of Hungary, one of the most ruthless noblewomen that ever lived and was responsible for the deaths of 650+ people back in the late 16th Century.

Laney was dressed up as the famous Merlin, the most powerful wizard of the Ancient Arthurian Legend.

Lana was dressed up as a Dwarf. She was dressed as Gimli from the Lord of The Rings.

Lola was dressed up as Lady Galadriel from The Lord of The Rings.

Lisa was dressed up as an Alchemist.

Lily was dressed up as Elizabeth Swann from the 3rd Pirates of The Caribbean movie.

Lincoln was dressed up Aragorn from The Lord of The Rings.

Clyde was dressed up as Frodo from The Lord of The Rings.

Linka was dressed up as Arwen from The Lord of The Rings.

We were ready.

Lynn Sr. was at Mr. Grouse's house.

Loki: (British Accent) Hello, Mr. Loud. What brings you here?

Lynn Sr. (crosses his arms): Just going to invite Mr. Grouse to the Renaissance Festival.

Loki: Oh, arms crossed, I must really be in trouble now.

Lynn Sr.: Not really. I'm just a little wary of you. That's all. Especially given your… previous alliances with some of the villains out there.

Loki: Look, Mr. Loud. If Thanos wins, then there's a good chance that you and I will cease to exist. And I don't think any of us wants that. Trust me.

Lynn Sr. (sarcastically): Right. Because you're so trustworthy. After how you betrayed Thor, Odin, and Asgard and all the trouble you caused in the past…

Loki (chuckles): Funny thing. I never did realize about how much Thor and Father meant to me until Team Loud Phoenix Storm defeated me at Asgard. But now that I'm powerless, I feel closer to both of them then I ever did before.

Lynn Sr.: You must really care about Thor and Odin even when you were still committing crimes. Just like I care about Lincoln and the rest of my children. But the thing is, your brother and father won't be crying when you're gone. Because if anything bad happens to Lincoln or the rest of my kids when they do fight Thanos, I don't care if you're immortal or not. I'm going to find you. And I'm gonna kill you. Is that clear?

Loki (now very afraid of Lynn Sr. on the inside): Crystal.

Mr. Grouse: I haven't been to the Renaissance fair in a long time. I'll gladly go with you Loud.

Lynn Sr.: Great.

They went back to the estate.

Maria: This is the first Renaissance Fair I've been to.

William: Same with me.

Me: It's a first for all of us actually. Except me, because I went to the Renaissance Festival several times in Colorado.

William: That's cool J.D.!

Me: Yep.

Motormaster: Want me to drive you and May, boss?

Nico: That would be great Motormaster.

May: Thanks.

Motormaster: No problem.

Spiderman: M.J., how about I be your date for the festival? As Peter Parker, of course.

Mary Jane: You know it Tiger.

Me: Are we all ready?

Everyone cheered.

We were off to the Michigan Renaissance Festival. With us was Nicholas Tereshcova. He was with us to find his sister Vina. She disappeared over a year ago.

Me: So Nicholas, when was the last time you saw your sister?

Nicholas: (Russian Accent) It was over a year ago. She disappeared and was missing since. I haven't seen her since.

Me: I'm sorry Nicholas. But we will find her. I promise.

Maria was dressed as Xena, Warrior Princess.

Maria: Horsea, can I ask you something?

Horsea: Sure?

Maria: Do you have a crush on Poliwag?

Horsea: Yes. I do.

Everyone: Awww.

Ben: Are there any events for this festival?

Me: Lots of stuff Ben.

We drove all the way to Holly, Michigan and we saw the Renaissance Festival.

Me: Here we are guys.

We had arrived at the Michigan State Renaissance Festival. We got out and paid for our tickets and went in. We were ready to have fun.

It was so amazing! We did all kinds of games, went to all kinds of shops and more. Carol excelled at the Archery game and she got bullseyes at all the targets. I tried my hand at the Star Throw and got all the stars because of my skills as a shinobi. Nico tried the crossbow game and he got all the bullseyes. Lynn won in the Jousting tournament, and more.

The Loud Kids tried their hands at the Vegetable Justice game and they did really well and we all got the man in his face.

We bought all kinds of great things like real swords, food, toys, games and more.

Then we came across a rather unusual and strange sight. We saw a girl that was half human, half blue-ringed octopus. She came up to us.

?: (Russian Accent) Excuse me. Are you all Team Loud Phoenix Storm?

Me: Yes we are. And you are?

Venomwhip: I'm Vina Tereshcova. I am now known as Venomwhip.

Eddy: Please, tell me you're a mascot!

Venomwhip: Nope. But I wish I was.

Me: Wow. You're half human, half Blue-Ringed Octopus. The most venomous octopus in the world.

Venomwhip: That's right.

Olga: This is no doubt the work of Dr. Luther Paradigm.

Me: I have no doubt about it too.

Venomwhip: Yes. That monster Paradigm mutated me like this.

Me: How did this happen to you?

Venomwhip: It was 1 year ago. I was prepping for a big test.

---

Vina had Blond hair and she had blue eyes and she had a crescent moon shape scar on her face around her left eye. She had a gold tank top, red bra, and blue pants and black shoes.

Venomwhip: (Narrating) I was eating lunch and I had a smoothie. After lunch I was getting ready and I had a nasty stomachache. At first I thought I was having gas, but I was wrong. I started changing!

Vina's skin turned dark yellow and it had blue rings all over it and Vina's head lost her hair and grew 8 tentacles from her shoulders.

Vina: (GROANS IN PAIN!) WHAT'S HAPPENING TO ME!?

Her tank top shredded and ripped off and her head turned into that of an octopus and she had long tentacles.

Venomwhip: After I changed I went into hiding and went to find Team Loud Phoenix Storm.

FLASHBACK ENDS.

We gasped.

Me: That's awful Vina.

Lincoln: You went through hell.

Yuna: You aren't the only one that went through something like this.

Everyone told her what happened.

Venomwhip: Wow. You all have been through awful ordeals.

Dayna: We sure have.

Nicholas: Hey guys.

Venomwhip: Nicholas?

Nicholas: Vina? My god! What the hell happened to you?

Me: Dr. Luther Paradigm. That's what. And we killed that S.O.B.

Venomwhip: I'm glad he's dead.

Me: But I can help you change back. I gave everyone affected by Gene-Slamming the ability to transform into their Gene-Slammer form at will.

Venomwhip: I would like that.

Maria: I left my clothing making tools at home. But I did bring a spare robe just in case.

Me: Good thinking Maria.

Venomwhip: I bet it's gonna be painful.

Me: It is. Boys cover your eyes.

They did so.

I formed a shade to hide Vina's nakedness.

Me: Ready Vina?

Venomwhip: Yeah.

Me: Okay.

I snapped my fingers and covered my eyes. She was in a lot of pain and she was changing back. Her head turned back into a human head and she had her blond hair back and her blue eyes.

Venomwhip: (her head is human again) Oh, don't mind me. I'm a mutant with a human head in a lot of pain!

She regained her human appearance.

Vina: God, it feels like I went through a meat grinder!

Maria gave her a blue robe for the time being and Vina put it on.

Vina: Much better.

Qin: How do you feel Vina?

Vina: I feel amazing! I'm back to human again!

I removed the shade and Nicholas saw her human again.

Nicholas: Vina!

Vina: Nicholas!

They hugged for the first time in over a year.

Me: We'll get you some new clothes when we get back to the estate.

Vina: Thanks J.D. Thank you so much.

Me: (Speaking Russian) Пожалуйста (You're welcome)

We enjoyed the rest of the festival and went home.

We went back to the estate and we had an awesome time. Maria, Leni and Teresa got Vina some new clothes. She now had a new red bra, a gold tank top with an octopus on it and she had a blue plaid skirt and blue leggings and blue shoes and she had a sleeveless trench coat with a blue ring octopus on the back and she had the kanji for The Venomous Blue-Ring Octopus of The Blue Rings of Justice on it. ブルーリング・オブ・ジャスティスの悪名高いブルーリング・タコ。

Vina: Wow! I look incredible!

Teresa: We made a lot of clothes for a lot of our teammates here. The Paradigm Brothers are putting everyones clothing bills through the roof. But we're gonna kill them all and make them pay for their crimes against the laws of mother nature.

Maria: Yeah.

Leni: Those guys are absolutely crazy.

Maria: They are monsters.

Vina: I'm glad Luther Paradigm is dead. He was a monster.

Teresa: He got what was coming to him.

Vina: He deserved it.

We got all kinds of neat swords from the famous sword smith Kit Rae and they were amazing. We had a great time.

In a magical tree, 7 awesome Power Rangers that utilize magic were getting ready. They were the awesome Mystic Force Power Rangers!

Nick Russell: If w need help, Team Loud Phoenix Storm will help us.

Madison Rocca: Yeah they are awesome.

Vida Rocca: I know.

Leanbow: They are truly an honorable team.

Nick Russell: Lets do it!

Mystic Force Power Rangers: MAGICAL SOURCE, MYSTIC FORCE!

In powerful bursts of light, the Mystic Force Power Rangers transformed. The camera went black.

Another Fanfiction Complete and another awesome festival of fun done.

The Renaissance Festival is so much fun. I went there a lot in Colorado and it's so amazing! Everything I said about it is true. But no I didn't throw a watermelon at the man in Vegetable Justice. But traffic going into the festival is always the pits. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# Bermuda Triangle Pirate Mayhem

In the estate I was analyzing a piece of the Marker from when we destroyed Aegis VII.

Lincoln: What are you working on J.D.?

Me: Oh I'm analyzing this shard of the Marker I found from when we blew up Aegis VII.

Lincoln: That was a horrifying day for us.

Laney: No kidding. Those Necromorphs were ugly, horrifying and gruesome.

Me: They sure were.

Alicia: That was a total nightmare.

Suzie: It sure was.

Me: I know. That was a nightmare of unimaginable horror.

Teen Titans Bumblebee: Where do you think this shard came from?

Me: Lets find out.

I typed in a code and it scanned the Marker Shard and what we saw was horrifying! The Marker originated from a planet in the farthest part of the unknown zone and we saw that it came from a super far away planet orbiting a black dwarf star. It was called Xiyoega XIX. It was a terrifying planet that was home to the Necromorphs and the Markers. The planet originally had 8 moons orbiting around it and the planet had an unstable planetary structure. The Brethren Moons were those 8 moons and the planet exploded millions of years ago. Scattering the Brethren Moons all over the infinitely vast distances of the cosmos. The Markers were made to bring the Brethern Moons to that planet so that the Brethren Moons would devour that whole planet and integrate it into their bodies.

We gasped in sheer horror!

Lincoln: You were right J.D.! The Necromorphs are a danger to all life in the entire universe.

Alicia: They are that scary and dangerous? This is terrible!

Suzie: Yeah.

Isaac Clarke: I'm glad we blew up Aegis VII. What really is horrifying is that the Brethren Moons and the Necromorphs pose that big a danger to the entire universe in general.

Me: They want all things in the universe to become one. That is not right. Mercer was warped and twisted by the psychic energy from the Brethren Moons. Same with Kendra. Nicole, we're you involved with any of the cult of Unitology's activity?

Nicole Brennan: No. Thank goodness. I did not want to be part of this sick and twisted and merciless plot that wants to destroy the universe.

Me: Thank goodness you didn't. That whole nightmare was one of blood and carnage and nothing but pure insanity.

Laney: That was an awful experience.

Alicia: How did all those people go nuts?

Me: The Brethren Moons use powerful psychic energy that they channel through the Markers that make all the people in the area go bonkers and lose their sanity.

Lincoln: So that's how they all went insane.

Laney: Horrifying.

Nicole Brennan: No kidding. But I'm glad Kendra helped us as well.

Me: She may have been a villain, but she did help us and that's why we sent her to prison. But still, when the time comes we will destroy the Brethren Moons and all of the Necromorphs.

I looked up where the locations of all of the Brethren Moons are at and what it revealed was horrifying. The Brethren Moons were at 8 different locations all over the entirety of our corner of the universe. One was located in the Andromeda Galaxy and heading right for us very slowly and there was one that was right next to the Sombrero Galaxy at 14 million light-years away from Earth.

Me: There's 2 Brethren Moons heading for our galaxy.

Isaac: That's probably the first of the Brethren Moons we destroy.

Alicia: When is that one gonna arrive?

Me: It's projecting in the next 500 years.

Lincoln: That's right around the time we encountered the colony.

Me: Yeah.

Qin: Hard to imagine. But what are the Necromorphs?

Me: These are creatures that are from your worst nightmares Qin.

I pulled up what the Necromorphs are.

---

Necromorphs are named after "necro" - which means dead and "morph" - which means form.. making their literal name "dead forms": as their name implies Necromorphs are similiar in many ways to zombies, but are not undead - instead, they are a unique form of alien life but are just as dangerous to the living due to their desire to spread and their parasitic nature.

Origin

Necromorphs are created through power of Markers (either Black Marker or its derivation Red Markers), alien object that emit a highly concentrated electromagnetic signal that alters any dead tissue in range on a cellular level, converting it into Necromorph tissue and re-animating the corpse of the host organism. This signal also affects the minds of intelligent life forms, usually manifesting as dementia and resulting in homicidal and suicidal actions - laying out a rich field of fodder for the Necromorph infection.

Once some Necromorphs created, these Necromorphs would butcher any non-Necromorph lifeforms on sight so their corpses can be reanimated either via infection with their cells or Markers' powers.

A Slasher

Slashers are the most common Necromorphs, posing the greatest threat when in groups. They are named for the large bone blades that emerge from the hands of their upper arms, which can be the infected corpses' original arms or can be newly sprouted limbs. Slashers also have an atrophied set of lower arms, which usually have little purpose, but can sometimes be used to hold their prey. Bones in the feet of Slashers are extended, most notably the heel bone, which adds balance. It helps them in climbing on walls or running, but walking is harder. More durable Slashers can also result from more decayed corpses and female Slashers can spit acid projectiles.

A Leaper

Leapers are more animalistic Necromorphs with more muscular arms and the top of their heads seem to have separated from the neck, also sporting a set of mandibles on their heads and mutated jaws. However, their most notable trait are their long scythe-like tails created from the corpses' innards and legs, fused together into a single limb. Leapers' tails can coil to about a third of its original length and they can use these to propel themselves, letting them leap long distances. Leapers also sport large fangs and claws and can move quite fast, often inhabiting areas with no gravity so as to take advantage of their fast moves.

A Lurker

Lurkers are the result of the corpses of infants being transformed into Necromorphs. They have been mutated heavily, due to lacking any physiology that could be used to kill, and have become little more than a mass of muscle. Lurkers' skin have become leathery and a set of tentacle like appendages extend from their lower stomach, which act as their primary means of movement. Lurkers attack with a trio of whippy barbed tentacles that extend from their backs and the tentacles can fire barb projectiles.

An Infector

Infectors are the Necromorphs responsible for helping them to spread, constantly hunting for corpses to infect. The host corpse is twisted and broken, developing bat-like wings formed from flaps of flesh between their limbs. The head becomes the Infectors' feelers and a stinger-like appendage, made from a fusion of bone, flesh, and spinal tissue. The Infectors' use these appendages to spread the Necromorph infection, enveloping the corpse in their wings and driving its stinger into the skull to inject a fluid stored inside its body.

A Pregnant

Pregnants sport an enormous sac that contains lesser Necromorphs and have two large arms with bone scythes. The host corpses' arms are fused into the sac and in troublesome situations, Pregnants tear open their sacs to release the Necromorph spawn inside. They have smaller legs so as to balance themselves out and can move at a decent speed despite their bulk.

The best method to kill Pregnants is avoid hitting the sac as should the sac was attacked, Swarmers inside would be released and swarm the player. Also, had a Pregnant been decapitated, they would wind up slashing everything around them blindly, which is useful should this Necromorph also be accompanied by another.

A group of Swarmers.

Swarmers are small Necromorphs that seem to be nothing more than reanimated chunks of flesh. They attack in groups and try to swarm and overwhelm their targets, tearing them apart.

A Brute

Brutes are large Necromorphs created from numerous corpses. They have spiky armored skin on most of their bodies to protect them and have high physical strength, as well as surprising speed.

However, Brutes have notable yellow weak points on their bodies, which can be used as a means of severing their limbs. If they lose their legs, they can fire organic bombs out of holes in their stomachs.

### A Guardian

Guardians are immobile Necromorphs, created from human corpses fusing into the enormous Necromorph entity known as the Corruption. As this Necromorph develops, it becomes less and less human-like and grows more actively hostile. The Guardians lose their arms and develop large sacs and openings in their lower bodies. These openings have appendages sprouting out of them, helping attach them to the wall. The Guardians can attack with scythed appendages made from their innards, but their most notable ability is their ability to spew forth embryo-like Necromorphs called Pods. These Necromorphs attack with tentacles and can burst in a small explosion, though they are little danger unless they swarm enemies.

### A Wheezer

Wheezers are unique Necromorphs that do not directly attack people, instead sitting stationary. The only threat they pose is the poisonous gas that they breath from their lungs, which have grown to large size and sprouted out their backs. Wheezers' arms and legs are fused together, preventing them from moving, and they can be easily killed.

### A Exploder

Exploders are suicide bomber-esque Necromorphs with large glowing growths on their arms that are extremely explosive. The corpse hosts of these Necromorphs have had their heads split in half and they can use these two halves to bite at enemies. Exploders' other arms and legs have developed to help balance them out, so they can manage a clumsy walk. When they have gotten close to enemies. Exploders swing the explosive pustules on their arms at them or against the ground. This results in a large explosion, which can easily blow humans to bits and usually kills the Exploder.

A Divider

Dividers are tall, lanky Necromorphs, able to split apart into smaller Necromorphs after they have been damaged enough. These Divider spawns are not as durable as the original Divider, but they are very fast. They move along with tentacles and jump onto and attack their enemies.

A Twitcher

Twitchers result from corpse hosts that possess stasis modules. The modules fuse into these Necromorphs' flesh, reversing their effects and making Twitchers able to move much faster than normal Necromorphs. They also move rather erratically and even have a blur when seen up close. Twitchers are designed similarly to Slashers, though more muscular and some lack the small appendages on their chests, but have larger bone scythes. They have a large gap on top of their skulls, which is filled with tentacles and seem to lack eyes.

A Puker

Pukers are Necromorphs that can spit corrosive bile out of their mouths and also have sharp claws. They are heavily mutated with one leg being made of the hosts' intestines and the other being the hosts' original legs fused into one. The Pukers' lack eyes, their jaws are fused into their necks, and their lungs are visible, clearly full of their bile. Their flesh also hangs loosely from their bodies due to the way they expel bile.

TripodEdit

Tripod1

A male Tripod

Tripods are three-legged Necromorphs composed of multiple corpses and are highly vicious even by Necromorph standards. They attack mostly with their brute strength, but also use their bladed tongues. Tripods have large yellow weak points visible on their arms and tongues and they are brought down when they lose their arms. There exists a unique female version of the Tripod, which has a female corpse as its main host and a more tentacle-esque tongue.

### The Pack

The Pack are a group of Necromorphs created from children, acting as a predatory herd and are rarely encountered alone. They aren't as mutated as other Necromorphs, now sporting bony claws, enhanced muscles, and a more open fanged mouth. However, the members of the Pack are easily torn to shreds, which may be why they act as a group and they seem to coordinate through sound.

### A Stalker

Stalkers are raptor-like Necromorphs that use flanking, stealth, and group-tactics to catch their prey. They sport large claws and their rib cages have spread open, though most of their organs are now gone. However, Stalkers most notable feature are their large domed skulls, which they use to smash against their opponents and also help to protect themselves from attacks. Stalkers are possibly the most intelligent Necromorphs, moving around, hiding, attempting to lure their targets, fleeing when damaged, and attacking only when they think their prey's guard is down.

### A Cyst

Cysts are immobile Necromorphs that seem to grow from the Corruption. Whenever anything comes near them, they fire explosive pods into the air that explode upon hitting the ground.

### A Crawler

Crawlers, like Lurkers, are Necromorphs resulting from using infants as hosts. They are extremely bloated with an explosive substance inside them and the torso and head are twisted backwards. Crawlers also have had their legs fused together, making them crawl along.

### A Nest

Nests are Necromorphs created from female host corpses, which are fused with at least one other corpse. They have bulbous appendages sprouting from them and a mess of flesh on the bottom that anchor them down. While normally retracted into these bases, Nests will emerge when anything comes near them and release swarms of glowing Necromorphs that act as projectiles, homing on targets and exploding when they hit. If the target gets too close, Nests will retreat back into their invulnerable lower sections until the target moves away.

## The Hunter

The Hunter is a unique Necromorph created by Dr. Challus Mercer, which was created by placing some of the Corruption's tissue inside a human. It is built similarly to the Slasher, but bigger and stronger and can regenerate lost limbs, meaning that the dismemberment method used on other Necromorphs will only stop the Hunter temporarily. The Hunter pursued Isaac Clarke throughout the USG Ishimura and he was only able to escape it or temporarily disable it on each occasion. However, he was finally able to wipe the Hunter out when he test fired the engine of a shuttle while it was in the way, incinerating it completely.

## The Corruption

The Corruption is the single largest Necromorph entity, though it does not directly harm other creatures. Its unsteady design does slow down those that walk on it and it also removes oxygen from the air, changing it into poisonous gas that makes any kind of long term survival near impossible. Since the Corruption drastically changes habitat, it may be key to the Necromorph infection and it seems to aid them in adapting to the different environments they must deal with.

## The Leviathan

The Leviathan is a large Necromorph entity that collided with the Ishimura as it was drifting in space. It made its way into the hydroponics area of the ship, infesting there. The Leviathan has a large gaping mouth, which has a bulbous orb in the center and three large tentacles. It attacks by swinging with its tentacles, spawning Pods, and spitting out organic bombs. Isaac Clarke confronted this Necromorph in the hydroponics area due to it causing the air to degrade and managed to destroy it.

## The Slug

The Slug is another large Necromorph entity that attached itself to the blast doors on the outside of the Ishimura. It is a large, mostly immobile mass, with five large tentacles. Needing to open them to send a message to the USM Valor, Isaac took the helm of one of the asteroid defense cannons and fought it, successfully killing it, and making it detach from the blast doors.

## The Hive Mind

The Hive Mind is an enormous Necromorph that seems to be the guiding intellect behind the ones on Aegis VII and the Ishimura. It resembles a segmented worm-like creature with a large circular maw that has two sets of jaws and a number of yellow bulbs that act as weak points. The Hive Mind utilizes large tentacles and spitting acid projectiles to attack and has more yellow bulbs in its lower body. It was created by the military testing their experimental Red Marker 200 years before the outbreak. However, when the Marker proved too dangerous, the experiments were abandoned and it was used to suppress the Hive Mind. After the Marker was taken aboard the Ishimura, the Hive Mind was awakened, beginning the Necromorph outbreak. Isaac Clarke managed to return it, suppressing the Hive Mind once again, but after Kendra Daniels tried to retake the Marker, the Necromorph reawakened. It killed Kendra and attacked Isaac, but he managed to bring it down.

## The Tormenter

The Tormenter is a massive Necromorph, formed from numerous corpses. It has a lean serpentine build with a large fanged maw and mandibles on its head. The Tormenter has long arms, connected to its body by yellow tissue, which act as a weak point, and the rest of its body is a mess of spikes and tissue. This Necromorph is quite strong, able to deal with fire from a gunship without any sign of damage. The Tormenter attacked Isaac after he dropped down a vent to escape Tiedmann's forces. It managed to grab Isaac, who succeeded in escaping its grasp and it pursued him onto Tiedmann's gunship, grabbing him when he tried to jettison away.

However, the Tormenter tore off the ship's fuel canisters and Isaac shot them, destroying the Necromorph in the explosion.

## The Ubermorph

The Ubermorph is a unique Necromorph, notable for the fact that it has no human traits in its design. It is built similarly to the Slasher, though a good deal bulkier, and has a pair of small arm-like appendages on its torso, in addition to its larger clawed arms. Like the Hunter, the Ubermorph is able to regenerate itself, making it practically impossible to kill. After Isaac deactivated the power in the government sector, letting the Necromorphs swarm it, the Ubermorph found its way inside as well. As Isaac started to find the secrets of stopping the Marker, the Ubermorph pursued him and he was forced to constantly escape the Necromorph. The Ubermorph was finally destroyed after the Titan Station's reactor exploded.

## The Graverobber.

The Graverobber is a Necromorph that was supposed to appear in the short animated film Dead Space: Downfall, but was finally cut most likely due to time constraints. Originally, it would have pursued Alissa Vincent until getting smashed by the Ishimura's centrifuge.

The Graverobber has a bear-like stance and possesses three jawless heads and pincers. It also has large, Slasher-like blades. The most interesting part about this creature is that its upper half is composed of the dead bodies of Ramirez, Samuel Irons and the shower woman. This Necromorph would find deceased bodies and within seconds fully eat the body.

## Brethren Moons

The Brethren Moons are the leaders of the Necromorphs.

The true origins and source of the Brethren Moons remain a mystery as it remains unknown where they truely came from. What is known is that they are a species of moon-sized creatures based throughout the known universe that consume all known life on various worlds that they come across using the signals and powers of the Markers. Markers are created and sent throughout the universe and land on various worlds throughout the known universe. Earth was one such world where a Marker landed on the planet 65 million years ago in prehistoric times and wouldn't be discovered until the early 23rd Century. It's unknown if the Brethren Moon knew that intelligent life existed on Earth and sent the Markers there or if they simply sent them in any direction across space. It's also possible that the Markers themselves were responsible for the evolution of intelligent life on Earth as theorized by Unitologist militant, Jacob Danik.

After landing on a planet, the Markers will let out an electromagnetic signal originating from the Brethren Moons themselves and use it to atract the attention of any species native to the planet that they've landed on. The signal greatly effects the natives mentally and manifests itself in other organic beings as dementia or a complusion and desire to create new Markers through artificial methods, such as the Red Marker created by humanity in replication to the original Black Marker. Because of the power s of the Markers and how much energy that they individually hold, there's been attempts to replicate Markers and research and harvest them as a means of providing an energy resource to meet high demands such as the Red Marker on Earth following the depletion of natural resources by the 23rd Century. The signal however, also serves another purpose; alter necrotic tissue on a molecular level and cause the reanimation of corpses into becoming horrific creatures known as Necromorphs.

After the Necromorphs have infested most of the planet's population, many Markers will ignite a signal and begin a Convergence event, an event in which living, dead, and Necromorph tissue is merged together to form a singel entity and flies into the stratosphere of the Marker where they begin to fuse and ultimately form a new Brethren Moon making Convergence the birthing process for the entire species. The moon will not only absorb organic tissue, it will also absord parts of the planet itself and it helps make its colossal moon-sized appearance. The creature is only finalized when the creators of the Marker are absorbed into it along with the rest of the planet's biosphere and the Marker itself levitates towards the center and heart of the Moon to broadcast its signal revealing its formation and continue broadcasting to other Markers across the universe. It's unknown what happens to the Moon after it absorbs all organic life in its birthsite, but it's assumed that it moves on and heads toward the next planet to find a new source of organic life and a new source of food to maintain itself.

During the events of Dead Space 3, Isaac Clarke comes to realize that the Marker signals that Markers receive are a distress call from the incomplete moon of Tau Volantis, which was forced into a hibernation state when the alien race it was attempting to lure and assimilate built a machine to freeze over the entire planet, preventing the monstrosity from becoming whole and continuing on in the galaxy. As a result, the Moon began deploying distress signals through its alien Markers, hoping to bring new organic beings to disable the machine preventing its growth, which would allow it to continue its assimilation of the galaxy. The faux Markers that Isaac had been facing were attempting to continue the "Brethren Chain" of Moons by circumventing the hibernating Tau Volantis Moon. He also realizes that if the moon is freed from its frozen hibernation, any location within the galaxy with a still active Marker will begin the ultimate Convergence, continuing the growth of the Tau Volantis Moon.

The Moon's completion would then awaken the other completed Brethren Moons which would subsequently head for the Marker locations and devour all organic life present, resulting in the inevitable destruction of humanity and possibly all life in the galaxy.

In the final chapter, the Unitologist Terrorist Jacob Danik shuts down the machine keeping the moon frozen and effectively awakens the slumbering creature. However, Isaac manages to reconfigure the alien machine and destroy the Tau Volantis Moon by using the machine to pull the massive Necromorph into the planet's surface. The Moon's destruction causes all the Markers to cease broadcasting their signals, ending the danger they pose to the rest of the galaxy. However it is hinted that there are more Brethren Moons still active in the galaxy.

---

Qin was horrified.

Qin: Those creatures are awful! I can't believe they pose that big a danger to the entire universe!

Laney: I know. They want to destroy all life in the entire universe.

Me: We can't let them do that. We possess the power to destroy entire planets and we can use that power to destroy the Brethren Moons as well.

Qin: Awesome. But Alicia that must've been a horrifying nightmare you all went through.

Alicia: It was. But Ms. Ino has helped us get better a lot. She is a great therapist.

Ino: I'm glad I was able to to help you and Suzie, Alicia.

Alicia: Thanks.

Me: Lisa, in the future we'll need anti-psychic energy devices that will block the psychic energies of the Brethren Moons.

Lisa: Affirmative. I'll be sure to make a note of that.

We had to be ready for anything that the Necromorphs might throw at us.

---

In the forest outside of the city, Nico, Bombshell and Kickback were searching for a signal.

Nico: It should be in here somewhere.

Bombshell: We're getting close. 50 meters ahead.

They found a stasis pod and opened it and out came Barrage.

Barrage: What happened?

Bombshell: Barrage! You ok?

Barrage: I'm fine. Am I on Earth?

Kickback: You are. We just got you out of your stasis pod.

Barrage: That's a relief.

Nico: Barrage, I'm glad you're all right. I'm Nicolas Chan. But I'm often called Nico. I'm the new leader of the Decepticons. Nice to meet you, Barrage.

Barrage: Same here. But I'm not the only one Bombshell, Kickback, and Shrapnel found in the forest.

Barricade: (Sees the Mystic Force Rangers nearby) Who are those guys?

Nico saw them and gasped.

Nico: I don't believe it! It's the Mystic Force Power Rangers!

They went over to them.

They met the Red Phoenix Mystic Ranger - Nick Russell, Vida "V" Rocca - the Pink Sprite Mystic Ranger, Xander Bly - the Green Minotaur Mystic Ranger, Madison "Maddie" Rocca - the Blue Mermaid Mystic Ranger, and Charlie "Chip" Thorn - the Yellow Garuda Mystic Ranger. They also met Daggeron the Solaris Knight, Clare Langtree - the Gatekeeper, Leanbow the Wolf Knight and Udonna the White Ranger.

Nick: Hey wow! Nico Chan of Team Loud Phoenix Storm.

Maddie: It's such an honor!

V: So you all are here?

Nico: I'm here with some of the transformers to find some of their comrades. But we watched all of you on TV and you are awesome!

Xander: (Australian Accent) That's amazing mate.

Chip: It sure is.

Leanbow: You have come a long way Nico.

Udonna: You sure have.

They went back to the estate and we were introduced to the Mystic Force Rangers. It was so cool to meet them.

Leanbow: Looks like you all have experience in magic as well.

Roxas: Of course we do. A lot of us are magical users, like Zatanna, Dr. Strange, Dr. Fate, and Raven. Heck, I even use magic myself.

Me: Most of us use magic.

Brittney: We all do dad.

Udonna: What form of magic do you use Brittney?

Brittney: I use all of the forms of the mystic arts. I mostly use Dark Magic for good.

Nick: That's amazing.

V: It sure is.

Warpath: If those Ten Terrors somehow come back to life, they better call themselves the Eight Enemies. Because two of them joined you guys!

We laughed.

Then the alarm went off.

Me: Uh oh.

The computer showed that a cruise ship was right in the middle of the most feared legendary place in the western Atlantic Ocean: The Bermuda Triangle!

Me: That ship is heading right into the Bermuda Triangle!

Laney: The Bermuda Triangle!?

Lucy Loud: Gasp! That triangle is one of the Earth's most incredible and horrible mysteries.

Me: I know Lucy.

Leni: What's the Bermuda Triangle?

Me: It's a geographical location that governs three points: The Island of Bermuda, The City of Miami in Florida and Puerto Rico. It's also known as Hurricane Alley and it's called that because a lot of hurricanes form there during Hurricane Season. It's also one of the biggest mysteries on Earth. Over the course of the centuries, a lot of ships and planes have suddenly vanished and they were never seen again.

Everyone gasped.

Maria: You know, no one's ever solved the mystery of the Bermuda Triangle.

Me: That's because it's one of Earth's most feared mysteries. Some say it might be because of extraterrestrial activity. It's also known as the Devil's Triangle because of the disappearance of the ships and planes. They call it Earth's Black Hole.

Lincoln: Wow. That's horrifying.

Lana: I didn't know the Bermuda Triangle had so much mystery.

Lola: What do you think caused it to become like that?

Me: No one knows.

Then the computer's Dark Orb detector found a Dark Orb on board the cruise ship.

Vina: (Russian Accent) There's a purple dot on that ship.

Me: That's our Dark Orb finder.

I explained what the dark orbs were.

Vida: My god. Xehanort is really dangerous!

Qin: He is and his evil essence is scattered all over the entire universe.

Me: We got to get over to the Atlantic Ocean and save those people.

We deployed our ship the TLPS Phoenix Maelstrom and we were off to the Atlantic.

## BERMUDA TRIANGLE, ATLANTIC OCEAN

We arrived in the Bermuda Triangle.

Me: Here we are guys. The Bermuda Triangle.

Lana: The water is so calm.

Lola: Too calm.

Laney: And it's quiet. Too quiet.

Lincoln: Captain, we're approaching the cruise ship now.

Me: I see it Mr. Lincoln. 3 points off the Port Bow.

Then another ship arrived.

Laney: Captain! Another ship off the Starboard Side!

Me: I see it.

It was a familiar ship. It was the Sweet Revenge!

Me: It's Stickybeard's Ship!

Lola: Awesome!

Stickybeard: Ahoy there friends.

Me: Ahoy there Stickybeard.

Stickybeard: Tis be a good time for candy pirating lad.

Me: We're actually here to solve the mystery of the Bermuda Triangle. That Cruise Ship up ahead is in peril somehow.

Stickybeard: We'll gladly help out lad.

We got to the Cruise Ship and we activated the holders for the ship and the Sweet Revenge and the Cruise Ship was now held over the ocean on the Port side and stern.

Me: Ahoy there!

Then we saw a bunch of familiar faces. It was Mystery Inc!

Fred: Wow! I don't believe it!

Velma: Jinkies! You guys are here now?

Me: Small world huh guys. We didn't expect you guys to be here as well.

Laney: Are you all here to solve the mystery of the Bermuda Triangle as well?

Daphne: We sure are.

Shaggy: Like, yeah. And enjoy some great food as well.

Me: When it comes to food you and Scooby will eat anything Shaggy. We'll be right over so we can talk.

We went to the cruise ship.

Captain: Team Loud Phoenix Storm, Welcome aboard.

Me: Thank you Captain. Sorry about all this but we found out that this ship is in the Bermuda Triangle and we came to find out what it was doing here.

Velma: I think I know. Follow me.

We went with Velma and we saw a beautiful painting of a shooting star falling out of the sky and heading towards the ocean.

Me: Wow! This painting is beautiful.

Laney: That sure is beautiful. I love how it captures a perfect shooting star in vivid detail.

Me: Yeah.

Velma: It's called The Heaven's Light.

Lana: That sure is pretty.

Lola: Whoever made that really is a great artist like Laney is.

Laney: (Giggles) Oh stop.

?: I made that painting.

We turned and we saw world-famous Astrocartographer Rupert Garcia.

Nicole: Oh wow! You're famous Astrocartographer Rupert Garcia!

Rupert: That's right Nicole. It's an honor to meet you.

Nicole: You too Rupert.

Fred: Looks like it's mystery time!

Vida: In more ways then one.

Me: Yep. And it has something to do with this painting and the Bermuda Triangle.

Daphne: We have to be ready.

Rupert: And we have to face Him.

Me: Who is Him?

Rupert: His name is Captain Skunkbeard.

We learned that Captain Skunkbeard was a ruthless pirate that disappeared eons ago.

Rupert: Now he and his crew have returned as zombie pirates and they are after the power of the Heaven's Light. This painting is my map.

Me: Something here doesn't make sense. A pirate from the 17th Century should've stayed dead and why does he want this painting?

Rupert: He wants the Heaven's Light so he can travel back in time.

Me: I have a feeling there's more to it than that.

Later we were watching a magic show from the shadows. We had a strong suspicion that the magician, Mr. Mysterio was behind it all.

Spiderman: (sees Mr. Mysterio on stage) Mr. Mysterio? Did he copy that name from the Mysterio that I fought in the past?

Me: Maybe. But he's a Mysterio ripoff artist.

We saw that he had a Dark Orb imbedded in his hand.

He used hits power to hypnotize everyone but us. But then, seconds later, a sinister ghost fog rolled in and in it was a terrifying ghost ship.

Me: It's a Ghost Ship! Lets get it!

We went to the cannons on the ship and blasted the Ghost Ship into scrap!

The Pirates of Captain Skunkbeard came onto our ship and we faced them and we saw CAPTAIN SKUNKBEARD!

Captain Skunkbeard: So we meet at last. What be your name lads?

Me: I'm J.D. Knudson, Leader of Team Loud Phoenix Storm and captain of the TLPS Phoenix Maelstrom, the ship you are on.

Captain Skunkbeard: You are a very impressive pirate J.D. You will make an excellent pirate for us.

Me: No thanks. We kill pirates that are bad and you give all pirates everywhere a really bad name.

Captain Skunkbeard: Where is the map for the Heaven's Light?

Me: In a place called none of your fucking business.

Xander: Let me handle this one. (walks towards the pirates)

Nick Russel: Oh God. Not Plan Xander again!

Xander: Hey, there. Name's Xander Bly. Some of you might be innocent bystanders. So, how about we talk this out, huh?

William: (quietly) That's it. Keep them distracted, Xander.

Skunkbeard then punched Xander in the face and sent him flying and we caught him.

Me: Now it's personal! ATTACK!

Stickybeard: Candy pirates, take these undead wannabees down!

We charged and attacked viciously! We faced all the pirates and knocked them out and tied them up.

We revealed them and took off their masks and they were really the passengers and crew!

Me: The Passengers and Crew?

Varie: What the hell is going on here?

Laney: Something here doesn't add up.

I then saw Mr. Mysterio trying to sneak away and he ran and I appeared in front of him.

Me: So you are the one that's behind this.

I grabbed him by the collar.

Me: Talk you fucking tub of lard.

Mr. Mysterio: Go fuck yourself.

Me: Wrong answer.

I punched him in the face.

Me: Talk or else. What do you want with the Heaven's Light? Talk or else.

I had a dagger at his neck and threatened to cut his head off.

Mr. Mysterio: OKAY OKAY! I wanted to get the Heaven's Light because it's a massive meteorite of solid gold.

Me: A solid gold meteorite? How is that possible?

Mr. Mysterio: I have no idea. But you all ruined everything!

Me: So you planned to use the map from Rupert's painting to steal it!

Mr. Mysterio: That's right and I would've done it too if it weren't for you fucking meddling kids! You all ruined everything!

Me: (Drops him) 5 words for you Mysterio: TELL IT TO THE JUDGE!

Stickybeard: (grabs Mr. Mysterio by the collar) You have disgraced the good name of all pirates!

Mr. Mysterio: Well, I had to make my scheme work somehow!

Stickybeard: When I'm done with ya, you'll be swabbin' the poopdeck for the rest of yer miserable life!

Mr. Mysterio: I'm not beaten yet! I have an ace in the hole.

He then raised his hand and the Dark Orb glowed and a sinister fog rolled in and out of it came the Real CAPTAIN SKUNKBEARD!

Me: It's the real Captain Skunkbeard!

We blasted his ship and he and his crew came on board and we engaged in a powerful Sword fight. We clashed our swords with all of Captain Skunkbeard's Crew and it was a brutal fight and we used our powers and burned, blasted, electrocuted, froze, poisoned, vaporized and more and obliterated some of them in an instant. Sparks were flying all over the place and we were clashing all over the place with the pirates.

Barrage: Time for some teamwork! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his explosive charge gun mounts 100-fold.

Roxas: Lets do it! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm device and it enhanced his Keyblade powers 100-fold.

Barrage and Roxas: EXPLODING RAINBOW BURSTSTORM!

Barrage fired numerous exploding charges and Roxas fired massive blasts of light from his Keyblades and they combined and exploded. Destroying numerous pirates in an instant.

We slashed more pirates and killed them. Then a bunch of massive black tentacles came out of the water and they grabbed some of the pirates. Out of the water arose a huge black giant squid and it was massive! It was the 2nd largest Wild Zord ever!

Me: Whoa! It's a Giant Squid Wild Zord!

Nico: It's huge!

Lana: That is the 2nd Largest one ever!

Then a black light appeared and it landed in Nico's hand and it was an Animal Crystal. It was a black animal crystal with the Giant Squid Zord in it.

Nico: It chose me. The Giant Squid Zord.

Me: Awesome! Way to go man.

Then Captain Skunkbeard roared and he clashed with my sword and we clashed. We were clashing violently and it was a brutal fight. We were clashing all over the place and more.

Me: You are no pirate Skunkbeard! You make all good pirates everywhere look bad!

Captain Skunkbeard: I've killed all kinds of people and without a single shred of remorse and compassion! Now I will kill you and have your blood to drink!

Me: Over my fucking hide!

I slashed his arm and slashed his chest and revealed his black heart!

Warpath: You pirates will never terrorize the Seven Seas again! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his arsenal 100-fold.

Teen Titans Bumblebee: Lets get him! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into her right arm device and it enhanced her stinger blasters 100-fold.

Warpath and Teen Titans Bumblebee: THERMAL STINGSTORM BURST!

Warpath fired his Thermal Shells and Bumblebee fired her stinger blasters and they combined and hit the pirates and killed the rest of them.

I was still clashing with Skunkbeard.

Captain Skunkbeard: You are a very formidable opponent J.D.

Me: Tell that to Davey Jones when I killed him and sent him off to Hell.

Captain Skunkbeard: You killed Davey Jones?!

Me: And sent his octopus-faced fucking ass off to the darkness of hell for all time. Now you will go back there forever.

I slashed his chest twice and grabbed his black heart and ripped it right out of his chest!

I was holding his black undead heart and I crushed it and black blood sprayed all over my hand.

Me: Yuck! Final Smash Time!

Teen Titans Bumblebee: You got it J.D.! BUMBLEBEE SUPERSTING CANNON!

Bumblebee fired a massive blast of yellow energy and it slammed into Skunkbeard and exploded.

Fred: My turn! MYSTERY SOLVED!

Fred fired a massive blast of light and it hit Captain Skunkbeard and completely obliterated and destroyed. Captain Skunkbeard was back in Hell where he belongs.

Nico: Captain Skunkbeard you have failed these seas.

Me: And more.

Teen Titans Bumblebee: (To the viewers) All bad pirates will meet their grizzly end at our hands and we will make sure that justice gets brought down onto them.

Nico caught an Oricorio and a Rimbombee.

I grabbed Mr. Mysterio.

Nico: Mr. Mysterio, you have failed this world.

Me: And he has failed everything.

I grabbed his hand and ripped it out of his arm and he screamed in pain and I destroyed the dark orb. Mr. Mysterio was now forever forced to work as Stickybeard's cabin boy. We found the Heaven's

Light in the center of The Bermuda Triangle and it was a massive meteorite of pure gold. It was incredible. It was also the source of how the Bermuda Triangle got its incredible power.

Mr. Mysterio: You will pay for this J.D.! I will kill you when I get off this ship! I will rip your heart out and drink your blood! I could never rest if I lost to a weakling like you!

Me: Those are powerful words. When you die I'll put them on your tombstone. But for now, you have a lot of cleaning to do.

I left.

We went back to the estate and we revealed our findings and more and everyone was amazed.

THE END

Scooby Doo in Pirates Ahoy was an awesome movie from 2006. I saw it and it was so cool! Awesome adventure and mystery. NicoChan11 gave me the ideas and I did some of them. Thanks man. Let me know what you all think.

See you all next time.

# Two Insane Mad Scientists

In the middle of the city we were on patrol and walking down the sidewalk.

Me: So far everything looks quiet.

Nico: Yep.

Crowd: (Chanting) NO MONEY, NO TEACHERS! NO MONEY, NO TEACHERS!

We saw all the teachers of Arnold's School, P.S.118 all on strike.

Me: Uh oh. Looks like we have a teachers strike.

Nico: This is not good.

Lana: What is a strike?

Me: It's where the workers or employees of a company rebel and rise up against it by refusing to work. They make picket signs, throw violent threats and form a huge list of incredible demands. They usually do this because their boss is being a total jerk and is not paying them anything or is just being downright mean. It's all usually for money or respect. But mostly money.

Lana: That's terrible!

Laney: We got to help them.

Me: And I think I know what's going on here. But just to be safe lets ask around.

We went over to the teachers on strike.

Me: Excuse me.

Mr. Simmons: Oh thank goodness you're all here Team Loud Phoenix Storm.

Me: What is going on Mr. Simmons?

Mr. Simmons: Principal Wartz has cut all our pay and supplies to save money.

Me: That's a major labor violation! He has to be the most incompetent principal ever known. We're gonna go get the Superintendent to talk him out of this.

We did so and we brought in the Superintendent of the school district: Mr. Douglas Venois.

Me: Thank you for coming Mr. Venois.

Mr. Venois: No problem J.D. When you told me about what was happening I immediately responded.

Me: I'm glad.

We walked up to the school front door. Principal Wartz was there too.

Mr. Venois: People, people, please calm down.

They did so.

Mr. Venois: J.D. Knudson and all of Team Loud Phoenix Storm here have informed me of whats been going on here. Wartz's budget cuts go completely against our economic regulations. Let me assure you that as long as I'm superintendent, this radical proposal will never be carried out in this district.

Everyone cheered.

Principal Wartz: You can't do that!

Me: He can and he's the top banana of the district.

Mr. Venois: That's right and you are hereby demoted to janitor, Wartz.

Wartz: What!?

Me: We did not expect this. But who will be the principal?

Varie: I would be more than happy to volunteer.

Me: Varie? Are you sure?

Varie: I know it's a big job honey but I can do it. After all you saw me and how I was able to handle myself well.

Me: Well you do have a point and you can be in multiple places at once. Okay then.

Mr. Venois: Then you are hereby named principal Varie.

Varie: I won't let you down Mr. Venois.

Later we left. Varie starts her new job as principal tomorrow.

Mr. Simmons: Thank you all so much J.D.

Me: No problem Mr. Simmons. Glad we could help.

We later went back home.

Lana: That was interesting.

Lola: It sure was.

Lana: What was the worst strike ever?

Me: That's an easy one. It was the 1981 Strike of PATCO.

Lana: P.A.T.C.O.?

Me: The **P** rofessional **A** ir **T** raffic **C** ontrollers **O** rganization. It was back in 1981 and it was a bad strike

I revealed went down what happened back then.

---

In February 1981, PATCO and the FAA began new contract negotiations. Citing safety concerns, PATCO called for a reduced

32-hour work week, a $10,000 pay increase for all air-traffic controllers and a better benefits package for retirement. Negotiations quickly stalled. Then, in June, the FAA offered a new three-year contract with $105 million in raises to be paid in 11.4% increases over the next three years, a raise more than twice what was being given to other federal employees. However, because the offer did not include a shorter work week or earlier retirement, PATCO rejected the offer.

At 7 a.m. on August 3, 1981, the union declared a strike, seeking better working conditions, better pay (PATCO sought a total raise of $600 million over three years, compared to FAA's offer of $50 million) and a 32-hour workweek (a four-day week and an eight-hour day combined). In addition, PATCO wanted to be excluded from the civil service clauses that it had long disliked. In striking, the union violated 5 U.S.C. (Supp. III 1956) 118p (now 5 U.S.C. § 7311), which prohibits strikes by federal government employees. Despite supporting PATCO's effort in his 1980 campaign, Ronald Reagan declared the PATCO strike a "peril to national safety" and ordered them back to work under the terms of the Taft-Hartley Act. Only 1,300 of the nearly 13,000 controllers returned to work. At 10:55 a.m., Reagan included the following in a statement: "Let me read the solemn oath taken by each of these employees, a sworn affidavit, when they accepted their jobs: 'I am not participating in any strike against the Government of the United States or any agency thereof, and I will not so participate while an employee of the Government of the United States or any agency thereof.'" He then demanded those remaining on strike return to work within 48 hours or officially forfeit their positions.

After PATCO disobeyed a federal court injunction ordering an end to the strike and return to work, a federal judge found union leaders including PATCO President Robert Poli to be in contempt of court, and the union was ordered to pay a $1,000 fine for each day its members are on strike. At the same time, Transportation Secretary Drew Lewis organized for replacements and started contingency plans. By prioritizing and cutting flights severely (about 7,000), and even adopting methods of air traffic management that PATCO had previously lobbied for, the government was initially able to have 50% of flights available.

On August 5, following the PATCO workers' refusal to return to work, Reagan fired the 11,345 striking air traffic controllers who had ignored the order, and banned them from federal service for life. In the wake of the strike and mass firings, the FAA was faced with the task of hiring and training enough controllers to replace those that had been fired, a hard problem to fix as, at the time, it took three years in normal conditions to train a new controller. They were replaced initially with non-participating controllers, supervisors, staff personnel, some non-rated personnel, and in some cases by controllers transferred temporarily from other facilities. Some military controllers were also used until replacements could be trained. PATCO was decertified by the Federal Labor Relations Authority on October 22, 1981. The decision was appealed but to no avail, and attempts to use the courts to reverse the firings proved fruitless.

The FAA had initially claimed that staffing levels would be restored within two years; however, it took closer to ten years before the overall staffing levels returned to normal.

Some former striking controllers were allowed to reapply after 1986 and were rehired; they and their replacements are now represented by the National Air Traffic Controllers Association, which was certified on June 19, 1987 and had no connection with PATCO. The civil service ban on the remaining strike participants was lifted by President Bill Clinton on August 12, 1993. Nevertheless, by 2006 only 850 PATCO strikers had been rehired by the FAA.

---

Qin and Lana and Tanya gasped in horror!

Qin: They were all fired back then!?

Me: Yeah. President Reagan fired all of them. The reason is because the strike was putting a lot of peoples lives at risk. Without air traffic controllers, the planes can't be told where to land without Air Traffic Controllers.

But then we got an unexpected surprise.

?: Hello Megan.

We saw Gary Ferrady! He was a punky guy with long black hair in a mullet, brown eyes and he was in a red prison jumpsuit!

Megan: Gary!? What are you doing here!?

Gary: I came to find you babe.

Me: You know this guy Megan?

Megan: Unfortunately. His name is Gary Ferrady. He's my ex-boyfriend.

Nico: What's the story with this creep?

Megan: He's a convicted murderer that is responsible for killing his whole family over a year ago. He was sentenced to life in a maximum security prison without parole.

Me: He must've escaped just recently.

Nico: You're right dude. Here it is.

I looked at a newspaper and a section had Gary's mugshot and it said that he is armed and extremely dangerous.

Me: Whoa! He is that dangerous!

Gary: I see you still have that stupid brother of yours.

Megan: Kevin is not stupid, Gary!

Gary: But you've taken out many villains with your suit and powers. What has Kevin done? Put a couple burglers away?

Kevin McCalister: Everyone's gotta start somewhere.

Me: And you are going to die Gary!

Scorponok (BW): By our hands! Scorponok, TERRORIZE!

Scoponok transformed.

Retrax: You won't like the result. Retrax, TERRORIZE!

Retrax transformed.

Buzz: You messed with our sister and brother.

Linnie: And you are gonna pay!

Jeff: Big time!

Red Alert (to Buzz, Linnie, and Jeff): If you're gonna kill Gary, make sure to do it somewhere where no one will find his body.

Scorponok: Leave that to us!

Retrax pinched him in half and bisected him and Scorponok fired his missiles and blew him into flaming pieces.

He was incinerated.

Arixam (to Buzz, Linnie, and Jeff): Well? Where's Gary's body?

Buzz: Blown to pieces and burned into ash.

Arixam: Good.

We continued to walk home and I noticed something unusual in the bushes. It looked like a tranquilizer dart.

Me: It's a tranquilizer dart. But this is not like any dart we've seen.

It was full of some strange liquid. Back at the estate, I analyzed what was in it and what it revealed was terrifying. It was full of a cat mutagenic formula called T-99.

Me: T-99?

Lincoln: Never heard of that stuff.

Me: It's some kind of mutagen. Dr. Kirk Langstrom and Batman might help us with this one.

---

We went to Dr. Langstrom's lab and did some tests.

Dr. Langstrom: You're right. It is the mutagen T-99. It's the brainchild of Dr. Emile Dorian.

Me: The rogue geneticist that Batman and Catwoman stopped before?

Dr. Langstrom: That's right.

Dr. Langstrom told us about what Dr. Emile Dorian was known for.

---

Emile Dorian was once a former geneticist in Gotham City where he was Kirk Langstrom's tutor. Upon creating the T-99 mutigen, Dorian turned to criminal activities. He was quickly found out and was forced to leave Gotham. He decided to move out to an inhabitant island, where he continued his experiments. He had managed to create Garth, a genetically-altered gorilla and later Tygrus, a half-man, half-tiger hybrid, with cunning and strength augmented attributes.

When Tygrus was feeling lonely, Dorian decided that he should find him a soul mate. He chose Catwoman as Tygrus' new mate and sent Garth to kidnap her. Garth took her to Dorian's island and Dorian subjected her to splicing. As a result, Catwoman was transformed into a half-woman, half-feline. However, Batman suspected Catwoman's appearance and tracked her to Dorian's island. Upon arriving, Batman witnessed Catwoman's transformation and attempted to save her, but Dorian sent Tygrus to kill Batman. When Tygrus learned that Dorian had tricked him, he turned on him. When the laboratory exploded, Tygrus saved Dorian and delivered him to Batman and Catwoman. Dorian was later sent to Arkham Asylum.

---

Me: That is insane!

Tanya: We have to kill him now?

Me: I'm afraid so. Just what the universe needs. Another fucked up mad scientist running amok.

Dr. Langstrom: Not only that, but I got word that Dr. Ronald Paradigm is teaming up with him.

We gasped.

Me: Now we have a chance to kill two fucked up mad scientists.

Dr. Langstrom: I take it you all have a bad history with Dr. Paradigm.

Me: Not just Dr. Roland Paradigm, but his brothers as well. The Paradigm Brothers gene-slammed a bunch of people with the genetic components of animals and turned them into half human, half beast creatures. They destroyed many lives and robbed them of their humanity. Not only that but they're tampering with the laws of nature. That's why we have to kill them. They pose a tremendous threat to the entire planet. These guys are really fucked up and they don't deserve to live.

Dr. Langstrom: I agree with you J.D. If the Paradigm Brothers are that dangerous then they deserve to die.

Me: We already killed one of them. Twice. We killed Dr. Luther Paradigm. He specialized in splicing with sea animals. Dr. Roland Paradigm specializes with the splicing with Land Animals.

Stacy: And Dr. Albert Paradigm specializes in splicing with Air animals.

Me: Yep. We had Dr. Luther Paradigm executed by firing squad after revealing the full extent of his crimes to the entire country. He was executed for High Treason and other crimes.

John: That's right. He slammed us and many others with the genes of many creatures.

Dr. Langstrom: They ARE really fucked up. How did you kill Luther Paradigm?

Me: The first time, we killed him by firing squad and sealed him into the Book of Vile Darkness.
